MOTOR CYCLE, MOTOR BOAT & **AUTOMOBILE** **TRADE DIRECTORY**

Peerless

The Distinguishing Features

Of the Peerless are mechanical accuracy, grace of outline, luxurious appointments and easy riding, silent running qualities. It is a car meant to be seen and not *heard*—as shown by the manner in which noise is eliminated.

Catalog F will be sent on request

Light Four Torpedo

36 x 4 Wheels

5 Passenger

\$2650 (Top Extra)

Up-to-the-minute design and construction as offered in this latest type of Mora Light Four are worthy the careful investigation of the most discerning buyer desiring handsome design combined with "Mechanically Right" construction. Built complete in the Mora works.

Mora Light Four Torpedo is a roomy five-passenger, high-back-seat body of all sheet metal with mouldings rolled in. Trimmed in smooth padded black leather with spring edge cushions. Racy steering column. 36 x 4 wheels. Fully equipped, including touring-trunk.

Mora Light Four Torpedo is a combination of all that is desirable in a medium weight cross country car of ample power to go a lively pace and give continuous dependable service.

Mora holds the World's Sealed Bonnet Record.

How to Find Things in This Directory

ADVERTISERS' INDEX ON LAST THREE PAGES

The information in this Directory and Hand Book is grouped in nine sections; as follows:—

SECTION I. Classified Directory of manufacturers of complete cars, motor cycles, motor boats, flying machines and aeronautical material. (For index, see page 1.)

SECTION II. Classified Directory of manufacturers of parts, accessories, supplies, materials and miscellaneous articles (For index, see page 1.)

SECTION III. Classified directory of manufacturers of machinery, tools, factory, garage and shop equipment. (For index, see page 10.)

SECTION IV. Alphabetical list of Brands. (For index, see page 13.)

SECTION V. Trade Associations, National and Local. (For index, see page 13.)

SECTION VI. Useful information and recipes (For index, see page 14.)

SECTION VII. Tables and Data for Engineers. (For index, see page 14.)

SECTION VIII. Automobile Insurance, Accident, life and indemnity with sample policy. (Pages 588-590.)

SECTION IX. Digest of Automobile Laws of the various states. (Pages 591-597.)

In the Directory portion of the book the names and addresses of manufacturers and wholesalers are alphabetically listed under various headings—over 1200 in all—according to what they make or market. There are three distinct groups of these headings. The first group (pages 109 to 128) includes complete motor cars (electric, gasoline and steam), motorcycles, motor boats, flying machines and aeronautical material; the second group (pages 133 to 410) all parts, accessories, materials and supplies; the third group (pages 412 to 437) machinery, tools, factory, garage and shop equipment.

If you can't find what you want, write us. If this Directory is useful to you, don't forget to mention it when writing to advertisers and others.

Index of Contents

SECTION I

Complete Cars, Motorcycles, Motor Boats, Flying Machines and Aeronautical Material (pp. 109 to 132)

Electric commercial vehicles	124	Motorcycles	124
Electric pleasure vehicles	122	Flying machines & aeronautical material	128 to 132
Gasoline commercial vehicles	116	Aeroplanes	128
Gasoline pleasure vehicles	109	Balloons	130
Steam commercial vehicles	124	Dirigible balloons	130
Steam pleasure vehicles	124	Motors, aeronautic	132
Motor boats	126		

SECTION II

Parts, Accessories and Miscellaneous (pp. 133 to 410)

Accessories, miscellaneous, motor boat.....	133	Aluminum solder	134
Accessories, miscellaneous, motorcycle	133	Ammeters, pocket	134
Acetylene lamp burners (see burners, acetylene, lamp)	171	Ammeters, switchboard type	414
Acetylene gas tanks	133	Anchor	136
Acetylene gas generators	133	Annealing (see hardening & metal treatment)	242
Acetylene lamp burners (see burners, acetylene, lamp)	171	Annunciators	136
Acetylene purifiers	134	Anti-freezing solutions	136
Acid, battery (see battery acid).....	152	Anti-friction metal (see bearing metal).....	156
Air bags (see misc. articles)	292	Anti-skid devices	136
Air beds and cushions (see camping outfits).....	172	(See also tire protectors, 376.)	
Air compressors	412	Anti-skid rivets (see rivets)	324
Air couplings (see hose couplings, 249, & pipe fittings)	310	Apron fastenings (see hardware, auto).....	242
Air filters	134	Artificial leather (see leather trimming, 272, & top materials)	386
Alcohol	134	Asbestos, sheet (see raw & semi-finished material)	318
Aluminum alloy	134	Autogenous welding (see welding).....	401
Aluminum castings (see castings, aluminum)	179	Automobile covers (see covers, automobile).....	202
Aluminum coated steel (see aluminum sheets, rods & ingots)	134	Automobile parts, buggy type	144
Aluminum sheets, rods and ingots.....	134	Automobile parts, miscellaneous	144
		Awings (see canopies and spray guards, boat)	172

Awning fastenings (see hardware, marine).....	244
Axles, front and rear	144
Axle clips (see running gear fixtures).....	328
Axle ends (see forgings)	222
Axle boxes (see axle parts)	146
Axle parts	146
Babbitt metal (see bearing metal).....	156
Balls	146
Ball bearings, automobile	146
Ball bearings, cycle	148
Ball cones (see cups & cones)	206
Ball cups (see cups & cones).....	206
Ball hanger bearings	148
Ball races (see cups and cones).....	206
Ball and socket joints	148
Ball retainers	148
Barometers	148
Basins, collapsible (see collapsible buckets and basins)	200
Baskets	148
(See also hamper, 242.)	
Batteries, boat lighting (see boat lighting outfits)	160
Batteries, ignition (dry)	150
Batteries, ignition (storage)	150
Batteries, vehicle	152
Battery acid, storage battery solution.....	152
Battery charging plugs (see charging appara- tus)	416d
Battery and coil boxes	152
Battery connections	154
(See also terminals, wire, 363.)	
Battery gauges (see ammeters, 134 & volt- meters)	398
Battery holders (see battery & coil boxes).....	152
Battery jars	155
Bearings, ball (see ball bearings).....	146
Bearing, plain & bushings	155
Bearings, roller (see roller bearings).....	326
Bearing metal	156
Bearing scrapers	414
Bells, cycle and motorcycle	156
Bells, auto and motor boat	156
Belts, fan, pump and oiler	158
Belts, motorcycle	158
Belt clamps (see factory equipment).....	420a
Belt and clutch dressing	158
Belt cutters (see belt tools).....	416
Belt fasteners	158
Beltting	416
Belt lacing (see belt fasteners)	158
Belt tools	416
Bendings, wood	158
Benzols and naphthas (see tire repair ar- ticles)	378
Bicycles	160
Bicycle and motorcycle fittings, misc.	160
Bilge pumps (see pumps, bilge).....	314
Binding posts, electric	160
Blacksmithing (see contract work)	201
Blankets (see robes)	324
Blocks, chain (see cranes & hoists).....	418
Blowout patches (see tire repair articles).....	378
Boat building materials (see marine articles, misc.)	285
Boat covers (see covers, motor boat).....	204
Boat lighting outfits	160
Bodies, metal	162
Bodies, wood	162
Body finishing	164
Body irons	164
Body parts and fittings	164
Body sockets	165
Boilers	165
Boiler alarms	165
Boiler coverings (see boiler fixtures, automo- bile)	166
Boller feed pumps (see pumps, steam boiler feed)	316
Boiler feed regulators	166
Boiler fixtures, automobile	166
Boiler and radiator compounds	165
Boiler shells	166
Boiler tubes	166
Boiler tube expanders	416a
Bolts (see nuts and bolts)	300
Bonnets (see hoods)	245
Boots, motorists'	166
Boots, steering knuckle (see grease bags).....	240
Bouquet holders (see limousine fittings).....	274
Bows, top	166
Bow rests	167
Bow separators	167
Bow sockets	167
Brakes, automobile	167
Brakes, cycle	168
Brake bands	168
Brake drums	168
Brake levers (see levers, brake).....	272
Brake lining	170
Brake pedals (see pedals, auto).....	308
Brake ratchets (see misc. articles, auto).....	292
Brass castings (see castings, brass).....	182
Brass finishing (see machine work, to order).....	277
Brass hooks (see curtain fasteners).....	208
Brass parts (see screw machine products).....	330
Brass work (see contract work).....	201
Braziers	170
(See also welding, 401.)	
Brazing compounds	416b
Brazing forges	416c
Broaching (see machine work, to order).....	277
Broadcloth (see upholstering material, 394, and top materials)	386
Bronze castings (see castings, bronze).....	184
Buckets (see collapsible buckets and basins, 200, and camping outfits)	172
Buckles (see hardware, auto).....	242
Buffing (see polishing, buffing & plating).....	311
Bulbs, lamp (see lamp parts & fittings).....	271
Bulbs, rubber horn	170
Bumpers, automobile	170
Bumpers, rubber spring	171
Burners, acetylene lamp	171
Burner cleaners	172
Burners, gasoline and kerosene	172
Burner pans (see burner parts)	172
Burner parts	172
Burner tips	172
Bushings & plain bearings (see bearings, plain & bushings)	155
By-pass screens	172
Cable & drum, for pulling out of mud holes, (see skid devices)	336
Cable, ignition (see ignition cable).....	251
Cable clips (see accessories, misc., motor- cycle)	133
Calcium carbide (see carbide)	174
Cam cutting (see gear cutting)	237
Camping outfits	172
Cam shafts, finished	174
Canopies and spray guards, boat.....	172
Canopy top standards	174
Cans for fuel & oil	416c
Cans, oiling (see oilers, squirt)	305
Cans, waste	416c
Cap screws (see nuts & bolts)	309
Caps, motorists	174
Caps, radiator (see radiator parts)	318
Carbide	174
Carbide cans (see sheet metal articles).....	332
Carbon brushes	174
Carbon cylinders	174
Carbon removers, liquid	174
Carbon scrapers	416d
Carburetors	175
Carburetor floats	178
Carburetor float dressing	178
Carburetor parts	178
(See also priming devices, 312.)	
Card cases (see limousine fittings).....	274
Carpet, coach (see mats)	288
Carriage bolts (see nuts & bolts)	300
Case hardening (see hardening & metal treat- ment)	242
Castings, aluminum	179
Brass	182
Bronze	184
Composition	186
Die	186
Grey iron	186
Malleable iron	188
Steel	188
Cast iron cement (see cements, metal).....	190
Celluloid, sheet	190
Cements, leather	190
Cements, metal	190
Cement, tire	190
Cement, wood rim	190
Chains, cycle & motorcycle	190
Chains, driving, automobile	192
Chain adjusters, cycle	192

Chains, tire (see anti-skid devices).....	136	Cotton waste (see waste, wiping).....	400
Chain belts	192	Countershafts, auto	202
Chain cleaners	192	Couplings, hose (see hose couplings).....	249
Chain guards, auto	192	Couplings, pipe (see pipe fittings).....	310
Chain guards, cycle & motorcycle	194	Covers, automobile	202
Chain guides (see accessories, misc., motor-cycle)	133	Covers, engine	204
Chain hooks (see misc. articles)	232	Covers, gear	204
Chain idlers, motorcycle	194	Covers, lamp	204
Chain links	194	Covers, magneto	204
Chain lubricant, bicycle (see greases).....	238	Covers, motor boat	204
Chain tools	416d	Covers, oil hole (see oil hole covers).....	304
Chairs (see seats, auto, 331, & seats, boat)...	332	Covers, radiator	204
Chamois & sponges	194	Covers, sprocket	204
Channel steel (see raw & semi-finished material)	318	Covers, steering knuckle (see grease bags)...	240
Charging apparatus	416d	Covers, steering wheel	204
(See also ammeters, 134, current rectifiers, 418a, and dynamos)	419a	Covers, trunk	204
Chassis, complete	194	Covers, universal joint	205
Check valves (see valves)	395	Covers, upholstery or slip	205
Checks, steering (see steering checks).....	358	Cranks, starting	205
Chest protectors (see clothing, motorists')...	196	Crank cases	205
Chimes, exhaust (see horns, exhaust, auto)...	246	Crank handles, starting	205
(See also whistles, auto, 404.)		Crank handle holders	205
Chisels	417a	Crank hangers	206
Chocks (see accessories, misc., motor boat)...	133	Crank shafts	206
Chrome nickel steel (see raw & semi-finished materials)	318	Crests (see monograms)	294
Cigar lighters	194	Cross chains (see anti-skid devices).....	136
Circuit breakers (see charging apparatus)...	416d	Crucibles, metal melting	418a
Circulation pumps (see pumps, circulation)...	314	Cups, collapsible, drinking (see collapsible buckets and basins)	200
Circulation pump parts	195	Cups & cones, automobile ball bearing.....	206
Clamps, belt (see factory equipment)	428	Cups & cones, cycle ball bearing.....	206
Clamps, hose (see hose couplings)	249	Cups, oil & grease (see "oil cups," 304; "grease cups")	240
Cleansing compounds, auto body	195	Cups, priming (see priming devices).....	312
Cleansing compounds, hand	196	Curled hair (see cushion fillings)	210
Cleats (see accessories, misc., motor boat)...	133	Current indicators	206
Clocks	196	Current rectifiers	418
Clothing, motorists'	196	Current transformers	418a
(See also caps, 174, gloves, 238, & leg-gins)	272	Curtains, auto & boat	208
Clutches, automobile	197	Curtain cases	208
Clutches, boat	197	Curtain fasteners	208
Clutches, marine reserve (see reverse gears)...	322	Curtain lights (see top fixtures)	386
Clutch compound or dressing (see belt & clutch dressing)	158	Curtain rollers	208
Clutch discs	198	Cushions, seat	208
Clutch lining	198	Cushion fillings	210
Coach lace (see upholstery material)	394	Cushion frames (see cushions, seat)	208
Coaster brakes, cycle & motorcycle	198	Cushion springs (see springs, cushion) ..	350
Coats (see clothing)	196	Cut meters (see tools, misc.)	428
Coat rail bags	198	Cut-out pedals (see pedals)	308
Cocks	198	Cut-outs, muffler (see muffler cut-outs)...	298
Cocks, priming (see priming devices)	312	Cutting compounds	210
Coil boxes (see battery & coil boxes)	152	Cycle motors	210
Coils, induction (see spark coils)	338	Cyclometers	210
Collapsible buckets & basins	200	Cylinder boring (see machine work, to order)	277
Colors, coach (see paints & colors)	306	Cylinder castings (see castings, grey iron)...	186
Commutators (see timers)	364	Cylinder cleaning compounds (see carbon removers)	174
Commutator compound (see greases)	238	Cylinder oil (see oils)	302
Compasses, auto	200	Dash boards (see body parts & fittings)...	165
Compasses, boat	200	Dash gauges (see fuel level indicators) ..	226
Compensating gears (see differential gears)...	212	Dashes	211
Composition castings (see castings composition)	186	Decalomania (see transfers)	388
Compressed air tanks	417c	Decarbonizers (see carbon removers, liquid)...	174
Compression couplings (see hose couplings)...	249	Deck boxes & panels (see body parts & fittings)	165
Compression relief cocks (see cocks).....	198	Demountable rims (see rims, removable) ..	322
Compression testers (see pressure gauges)...	312	Denatured alcohol (see alcohol)	134
Compressors, air (see air compressors).....	412	Designers, auto (see engineers & designers)	218
Condensers, spark coil	200	Designs, motor boat	211
Condensers, steam	200	Detachable rims (see rims, removable) ..	322
Cones, ball (see cups & cones)	206	Dials	211
Connecting rods	201	Die castings (see castings, die)	186
Consulting engineers (see engineers & designers)	218	Die cutting (see special work)	346
Contracting engineers (see engineers & designers)	218	Differential gears	212
Contract work	201	Direction indicators (see marine articles, misc.)	285
(Also machine work, 277.)		Discs, steel clutch (see clutch discs)	198
Controllers, electric	202	Discs, radiator (see radiator parts)	318
Cooking outfits (see camping outfits).....	172	Distributors, spark	212
Coolers, water (see radiators)	316	Dome lights	214
Cork armor (see carburetor float dressing)...	178	Door handles (see hardware, auto).....	242
Cork floats (see carburetor floats).....	178	Door hinges (see hardware, auto).....	242
Cork inserts	202	Door locks (see hardware, auto).....	242
Cork shavings (see cushion fillings).....	210	Dowel pins	215
Cotter pin pullers	417c	Drip cocks (see cocks)	198
Cotter pins	202	Drip pans, auto (see dust & mud shields)...	215
		Drip pans, floor	419a
		Drop forgings (see forgings)	222

Dry batteries (see batteries, ignition, dry).....	150
Dry cell tubes (see batteries, ignition, dry).....	150
Dust deflectors, for rear of car	215
Dusters (see clothing)	196
Dust layers	215
Dusting devices, pneumatic	215
Dust & mud shields	215
Dust shields for brake drums (see automobile parts, misc.)	144
Dynamos, for charging apparatus	419a
Dynamos, lighting auto	216
Dynamos, ignition	215
Eagles (see radiator ornaments)	318
Ejectors (see boiler fixtures, auto).....	166
Elbows, pipe (see pipe fittings).....	310
Electrical supplies	216
Electric lighting systems, auto.....	216
Electric motors, for automobiles	216
Electric welding (see welding)	401
Electrolyte (see battery acids)	152
Embossing (see special work)	346
Emergency cases (see misc. articles, auto).....	292
Enamels	216
Engines, gasoline (see gasoline automobile motors, 228, & marine gasoline motors).....	285
Engines, kerosene (see marine kerosene motors)	287
Engines, steam (see steam automobile motors, 356, & marine engines, steam).....	288
Engine cleaners, compression	218
Engine covers (see covers, engine).....	204
Engine designers (see engineers & designers)	218
Engineers & designers	218
Engine primers (see priming devices).....	312
Engine sets, castings	218
Engine starters	218
Engine valves (see valves, engine).....	395
Equalizing gears (see differential gears).....	212
Escutcheon pins (see hardware, auto).....	242
Exhaust horns (see horns, exhaust).....	246
Exhaust key removers (see accessories, misc., motorcycle)	133
Exhaust manifolds (see manifolds & piping)	282
Exhaust whistles (see horns, exhaust).....	246
Expanders, boiler tube (see boiler tube expanders)	416a
Experimental work (see special work).....	346
Eye shields (see goggles)	238
Fabrics	218
Fans, radiator	218
Fan belts (see belts, fan, pump & oiler).....	158
Fasteners	220
Feed-water heaters (see boiler fixtures, auto)	166
Felloes (see wheel parts, auto)	404
Felts	220
Felt washers (see washers, felt).....	100
Fenders (see mud guards)	297
Fender hangers (see mud guard fittings, auto)	298
Ferrules	220
Fibre	220
Fibre sheets (see insulation)	258
Figures, metal (see metal figures & letters).....	289
Fillers (see paints & colors)	306
Filler boards (see wind shield fittings).....	408
Fillet leather	220
Fins, radiator (see radiator parts).....	318
Fire extinguishers	220
Fire extinguisher brackets & holders (see misc. articles, auto)	292
Flags & pennants	221
Flag holders (see misc. articles, auto).....	292
Flexible shafts	221
Flexible tubing (see tubing, flexible).....	391
Floats, carburetor (see carburetor floats).....	178
Float chambers (see carburetor parts).....	178
Float dressing (see carburetor float dressing)	178
Float valves (see carburetor parts).....	178
Flux (see brazing compounds, 416b, & solder)	338
Fly wheels	222
Folding cape tops, motor boat (see canopies & spray guards, boat)	172
Folding boat covers (see canopies & spray guards, boat)	172
Folding pails (see collapsible buckets & basins)	200
Foot rails & rests	222
Foot warmers (see heaters)	245
Forgings	222
Forks, cycle & motorcycle	224
Fork crowns, cycle & motorcycle	224
Frames, automobile	224
Frames, boat	224
Frames, motorcycle & pedal cycle.....	224
Frame fittings, cycle & motorcycle.....	224
Friction clutches (see clutches).....	197
Friction discs & facings	224
Fuel	226
Fuel economizers (see carburetor parts).....	178
Fuel feed regulators	226
Fuel level indicators	226
Fuel strainers (see strainers, gasoline).....	360
Funnels	226
Galvanizing (see special work)	346
Garages, portable (see houses, portable).....	250
Gas bags	226
Gas generators (see acetylene generators).....	133
Gaskets	226
Gasoline (see fuel)	226
Gasoline automobile motors	228
Gasoline cans (see cans for fuel & oil).....	416c
Gasoline economizers (see carburetor parts).....	178
Gasoline engine fittings, auto	232
Gasoline lock valves	232
Gasoline marine motors (see marine gasoline motors)	285
Gasoline mixers (see mixing valves, generator valves & vaporizers)	294
Gasoline & oil pumps (for garage use).....	232
Gasoline primers (see priming devices).....	312
Gasoline storage outfits	232
Gasoline storage tanks	232
Gasoline strainers (see strainers, gasoline).....	360
Gasoline tanks, portable	234
Gasoline tank gauges (see fuel level indicators)	226
Gasoline testers (see hydrometers).....	422a
Gas tanks for lamps (see acetylene gas tanks)	133
Gas tank keys	234
Gate, driveway	234
Gauge cocks (see boiler fixtures, automobile)	166
Gauge lamps	234
Gauges (see under pressure gauges, 312, fuel level indicators, 226, etc., according to use.) For battery gauges see ammeters, 134, & voltmeters	398
Gauntlets (see gloves)	238
Gears & pinions	236
Gear blanks	236
Gear cases, automobile	237
Gear cutting	237
Gear cutting compound	237
Gear shift levers (see levers, speed change).....	273
Generators, acetylene (see acetylene generators)	133
Generators, burner, for steam cars (see burner parts)	172
Generators for lamps (see dynamos, ignition)	215
Generator repairing (see lamp repairing).....	271
Generator tubing (see tubing, rubber).....	392
Generator valves (see mixing valves, generator valves & vaporizers)	394
Glass fronts (see wind shields).....	406
Glass front cleaners	238
Gloves	238
Glue	238
Glutrin for road making (see misc. articles, auto)	292
Goggles	238
Gongs (see mixers)	238
Goosenecks (see top irons)	386
Gradometers	238
Graphite	238
Greases	238
Grease bags	240
Grease cups	240
Grease and oil guns	241
Grease storage tanks	241
Grey iron castings (see castings, grey iron).....	187
Grinding compounds (see valve grinding compounds)	396

Grips, handle bar, cycle & motorcycle.....	241	Inner tube bags	256
Grips, steering wheel	242	Inner tube patches (see tire repair articles, auto)	378
Grips, throttle & spark lever	242	Inner tube protectors (see tire protectors).....	376
Grommets (see misc. articles, auto).....	292	Inspection lamps	256
Ground work (see hardening & metal treatment)	242	Instruction, auto (see schools)	328
Hair for cushions (see cushion fillings)	210	Insulated wire (see ignition cable)	251
Hampers	242	Insulating tape	256
(See also baskets)	148	Insulation	258
Hand soap (see cleansing compounds, hand).....	196	Insurance	258
Handles (see hardware, auto)	242	Intake manifolds (see manifolds & piping).....	282
Handle bars, cycle & motorcycle	242	Intensifiers, spark (see spark gaps).....	340
Handle bar stems (see bicycle & motorcycle fittings, misc.)	160	Interior lights, limousine (see dome lights).....	214
Handle bar switches (see accessories, misc. motorcycle)	133	Iron castings, grey (see castings, grey iron).....	187
Hardening & metal treatment	242	Iron cement (see cements, metal).....	190
Hard rubber radiator caps (see radiator parts)	318	Irons, body & top (see "body irons," 164, & "top irons," 386.)	259
Hardware, auto	242	Jacks	202
Hardware, marine	244	Jack shafts (see countershafts)	202
Hassocks (see foot rests)	222	Jars, rubber battery (see battery jars).....	155
Hat hangers	245	Jobbers, auto parts, accessories & supplies	260
Headlights (see lamps, acetylene, auto).....	265	Jobbers, boat materials	262
Heaters, automobile	245	Jobbers, cycle parts & sundries	264
Heat treatment (see hardening & metal treatment)	242	Joints, flexible (see pipe fittings).....	310
Heel boards	245	Kerosene engines, marine (see marine kerosene motors)	287
Heel board catches (see hardware, auto).....	242	Kerosene burners (see burners)	172
Helmets (see clothing, motorists')	196	Key way cutting (see machine work, to order)	277
Hinges (see hardware, auto)	242	Knobs, spark & throttle	265
Hoods, motor	245	Knockdown furniture (see marine articles, misc.)	285
Hood anti-rattlers (see misc. articles).....	292	Knuckles, steering (see steering knuckles).....	358
Hood fasteners, handles, hinges & latches (see hood parts)	246	Knuckle cases (see grease bags)	240
Hood parts	246	Lacing belt (see belt fasteners).....	158
Horns, bulb, auto	246	Lacquers	265
Horns, cycle & motorcycle	248	Lamps, acetylene auto	265
Horns, electric auto	246	Lamps, boat	268
Horns, exhaust auto	246	Lamps, boat interior	268
Horns, motor boat	248	Lamps, electric auto	266
Horn blowers	248	Lamps, oil, auto	268
Horn bulbs (see bulbs, rubber horn).....	248	Lamps, cycle & motorcycle	268
Horn bulb guards	248	Lamp adapters	269
Horn pedals (see pedals, auto)	308	Lamp batteries (see ignition batteries, dry & storage)	150
Horn parts	248	Lamp brackets, auto	269
Horn screens (see wire cloth)	410	Lamp brackets, cycle & motorcycle.....	270
Horn tubes (see tubing, soft rubber).....	392	Lamp connections (see tubing, soft rubber, 392, & lamp parts)	271
Hose	248	Lamp covers (see covers, lamp).....	204
Hose clamps (see hose couplings).....	249	Lamp diffusers (see lamp parts & fittings).....	271
Hose couplings	249	Lamp guards	423a
Houses, boat	250	Lamp lenses	270
Houses, portable auto	250	(See also mirrors & reflectors, lamp).....	292
Houses, motorcycle	250	Lamp lighters	270
Housings, axle	146	Lamp numbers (see metal figures & letters).....	289
Hubs, automobile	250	Lamp parts & fittings.....	271
Hubs, cycle & motorcycle	251	Lamp repairing	271
Hup caps	250	Lamp stands	271
Hub flanges	250	Lamp tubing (see tubing, rubber)	392
Hulls, boat	251	Lap robes (see robes, auto).....	324
Hull coating	251	Lap robe fabrics (see fabrics).....	218
Hull lumber (see marine articles, misc.).....	285	Lap robe holders (see misc. articles, auto).....	292
Hydrometers	422a	Latches (see hardware, auto)	242
Idler guides (see accessories, misc. motorcycle)	133	Launch fittings	271
Igniters (see spark plugs, 340; magnetos, 278; dynamos, 419a; ignition apparatus, misc., 251; timers, 364, & magnetic spark plugs)	278	Lavatories	271
Ignition apparatus, misc.	251	Leaf springs (see springs, leaf).....	351
Ignition batteries, dry (see batteries, ignition, dry)	150	Leather	271
Ignition batteries, storage (see batteries, ignition, storage)	150	(See also trimmings, auto, 390, & top materials, 386.)	384
Ignition cable	251	Leather dressing (see top dressing).....	384
Ignition cable bar	251	Leather, trimming	272
Ignition dynamos & magnetos (see "dynamos," ignition, 215 & "magnetos," ignition, 278.)	251	Leggins	272
Ignition & fuel cut-out (see ignition apparatus, misc.)	251	Lenses (see lamp lenses)	270
Importers, auto goods	252	Letter cutting (see special work).....	346
Importers, cycle & motorcycle goods.....	254	Levers, brake	272
Indicator throttle valves (see steam motor fittings)	356	Levers, spark & throttle	273
Inflators, mechanical tire (see tire inflators, mechanical)	374	Levers, speed change	273
Injectors (see boiler fixtures, auto).....	166	Levers, steering	373
Inner tire shoes (see tire protectors).....	376	Lever grips (see grips, throttle & spark lever)	242
Inner tubes, automobile	254	Lever locks	273
Inner tubes, cycle & motorcycle	254	Lever sectors	273
		License hangers	273
		(See also metal figures)	289
		Lighters, cigar (see cigar lighters).....	294
		Lighting batteries (see batteries, ignition, storage)	150
		Lighting outfits, auto electric.....	274
		Limousine fittings	274

Liners (see bearings, plain & bushings).....	155	Mountings, automobile	296
Liniments, salves, etc.	274	Mountings, boat	296
Lining fabrics (see fabrics)	218	Mud aprons (see dust & mud shields).....	215
Links, repair (see anti-skid devices).....	136	Mud guards, automobile	297
Lists, owners' & dealers'	274	Mud guards, cycle & motorcycle.....	297
Locks, auto safety	274	Mud guard attachments, cycle	297
Locks (see hardware, auto)	242	Mud guard fittings, auto	298
Lock nuts & washers	274	Muffler cut-out pedals (see pedals, auto)....	308
Lock strikers (see hardware, auto).....	142	Muffler cut-outs	298
Lock switches (see switches).....	360	Mufflers, chest & throat (see clothing, mo- torists')	197
Lock valves (see gasoline lock valves).....	232	Mufflers, exhaust	298
Lock washers (see lock nuts & washers)....	274	Muffler pipes (see tubing, metal)	391
Lubricants (see oils, 302; greases, 238, & graphite)	238	Muffs, foot & steering wheel	298
Lubricators, mechanical & pressure, auto....	276	Name plates	298
Lubricators, motorcycle (see accessories, misc., motorcycle)	133	Naphtha (see fuel)	226
Lubricator belts (see belts, fan, pump & oil)	158	Naphtha cans (see cans for fuel & oil)....	416c
Luggage carriers, auto (see trunk racks)....	391	Naval architects	299
Luggage carriers, cycle & motorcycle.....	276	Nickel steel (see raw & semi-finished ma- terial)	318
Lugs, tire (see tire lugs)	376	Nippers (see pliers)	425c
Lumber, auto body	276	Nipple grips, cycle	299
Lumber, hull & decking	277	Non-freezing solutions (see anti-freezing so- lutions)	136
Machine work, to order	277	Non-fluid oils (see oils)	302
(See also contract work, 201.)		Non-skids (see anti-skids)	136
Magnets	282	Numbers, lamp (see metal figures)	289
Magnetic spark plugs	278	Numbers, license (see metal figures).....	289
Magnetos, ignition	278	Nuts & bolts	300
Magneto covers (see covers, magneto).....	204	Nuts, lock (see lock nuts & washers).....	274
Magneto parts, hard rubber	282	Odometers	300
Malleable iron castings (see castings, malle- able iron)	188	Oils	302
Manifolds & piping	282	Oil cans (see oilers, squirt)	505
Manufacturers' sales agents	282	Oil cups, auto	304
Maps (see publications)	313	Oil cups, cycle & motorcycle	304
Marine articles, misc.	285	Oilers, squirt	305
Marine engineers (see naval architects)....	299	Oil gauges	304
Marine engine fittings	288	Oil guns (see grease & oil guns).....	241
Marine engines, steam	288	Oil hole covers	304
Marine lighting outfits (see boat lighting out- fits)	160	Oil pumps, garage (see gasoline & oil pumps)....	232
Marine motors, alcohol	285	Oil stones	425a
Marine motors, gasoline	285	Oil storage outfits	305
Marine motors, kerosene	287	Oil tanks (see oil storage outfits).....	305
Master vibrators	288	Owners' & dealers' lists (see lists).....	274
Mats, rubber, carpet & linoleum	288	Oxy-acetylene welding & cutting (see weld- ing)	401
Mat binding (see misc. articles, auto).....	292	Packing	306
Matting, aluminum (see mats, rubber, car- pet & linoleum)	288	Padlocks (see hardware, auto).....	242
Measures	424a	Pails, folding (see collapsible buckets & basins)	200
Megaphones	283	Painting (see body finishing)	164
Mercury rectifiers (see current rectifiers)....	418a	Paints & colors	306
Metal (see raw & semi-finished material)....	318	Panels, body (see body parts & fittings)....	165
Metal cements (see cements, metal).....	190	Panels, charging (see charging apparatus)....	416d
Metal figures and letters	289	Pans, burner (see burner parts).....	172
Metal polish	289	Pans, drip (see drip pans, floor).....	419a
(See also wood polish, 410.)		Parts (see automobile parts, 144, motorcycle parts, 296, & parts to assemble com- plete automobile)	308
Metallic compound (see cements, metal)....	190	Patches, tire repair (see tire repair arti- cles)	378
Meters, miscellaneous	292	Patterns, auto	308
(See also ammeters, 134; voltmeters, 398, & gradometers, 238.)		Patterns, boat	308
Mica (see insulation)	258	Pedals, auto	308
Mica tubes (see insulation)	258	Pedals, cycle & motorcycle	309
Mirrors & reflectors, lamp	292	Pedal repair pins (see accessories, misc. motorcycle)	133
(See also lamp lenses, 270.)		Perforated metal	309
Mirrors, dashboard	292	Pet cocks (see cocks)	198
Miscellaneous articles, auto	292	Phosphate (see anti-freezing solutions)....	136
Mixing valves, generator valves & vapor- izers	294	Pillows, boat (see cushions, seat)	208
Mode (see patterns)	308	Pinions (see gears and pinions)	236
Monograms	294	Pinion wire (see gears and pinions)	236
Motors, alcohol, marine (see marine motors, alcohol)	285	Pipe coverings, asbestos	310
Motors, electric (see electric motors).....	216	Pipe fittings	310
Motors, gasoline automobile (see gasoline au- tomobile motors)	228	Pipe joint compounds	310
Motors, gasoline marine (see marine motors, gasoline)	285	Pipe wrenches (see wrenches)	434
Motors, kerosene (see marine motors, kero- sene)	287	Piping, exhaust & intake (see manifolds & piping)	282
Motors, steam (see steam auto motors, 356, & marine steam engines)	288	Pistons & piston rings	310
Motorcycle accessories (see accessories, mo- torcycle)	133	Piston seating compounds	310
Motorcycle engines (see cycle motors).....	210	Planetary gears (see speed change gears)....	346
Motorcycle parts, miscellaneous	296	Planking clamps (see marine articles, misc.)	285
Moldings, body (see body parts & fittings)....	165	Plate, brass (see hardware, auto)	242
Moldings, brass (see mountings, automobile)....	296	Plating (see polishing, buffing & plating)....	311
bile)	296	Platinum rivets	310
		Platinum wire (see ignition apparatus, misc.)	251
		Pliers	425c

Plumbing supplies (see marine articles, misc.)	285	Rim bands & flanges	324
Pocket keepers (see hardware, auto)	242	Rings, weldless (see gear blanks)	336
Polishers	311	Rivets	324
Polishes (see "metal polish," 289, and "wood polish," 410)		Rivets, platinum (see platinum rivets)	310
Polishing, buffing & plating	311	Rivet burrs	324
Porcelain (see insulation)	258	Robes, automobile	324
Porcelain tubes (see insulation)	258	Robe rails	324
Portable electric lamps (see inspection lamps)	256	Robe rail bags (see coat rail bags)	498
Portable houses (see houses, portable, 250, & houses, boat, 250)		Rods, bars, etc. (see raw & semi-finished material)	318
Potential control	312	Rods, steering (see steering rods)	358
Power units (see chassis, complete)	194	Roller bearings	326
Pressed steel articles	312	Rope	326
Pressed steel frames (see frames)	224	Rubber fittings	326
Pressure gauges	312	Rubber patches and plugs (see tire repair articles)	378
Pressure regulators, exhaust	312	Rubber preservatives	326
(For tire pressure gauges, see under that heading, 376)		Rubber spring bumpers (see bumpers, rubber spring)	171
Priming devices	312	Rubber tubing (see tubing, soft rubber)	392
Propellers	313	Rudders (see steering apparatus, boat)	358
Propeller shafts	313	Running boards	328
Props, car (see jacks)	259	Running gears	328
Publications (books, maps, etc.)	313	Running gear fixtures	328
Pulleys, motorcycle	314	Rust preventives	328
Pumice stone (see cleansing compounds, hand)	196	Saddles	328
Pumps, automatic air, for whistles (see marine articles, misc.)	285	Saddle clamps	328
Pumps, bilge	314	Saddle springs	328
Pumps, circulation	314	Safety cleats (see marine articles, misc.)	285
Pumps, cycle & motorcycle tire	315	Safety valves (see boiler fixtures, automobile)	166
Pumps, dashboard	314	Sash lifts (see hardware, auto)	242
Pumps, hand tire, auto	314	Scarfs (see clothing, motorists')	196
Pump connections, tire	315	Schools	328
Pumps, garage, tire	426b	Scrap buyers	330
Pumps, power, stationary (see air compressors)	412	Scrapers, bearing (see bearing scrapers)	414
Pumps, power tire (see tire inflators, mechanical)	374	Scrapers, carbon (see carbon scrapers)	416d
Pumps, steam air	316	Screws	330
Pumps, steam boiler feed	316	Screw drivers	426e
Pumps, water circulating (see pumps, circulation)	314	Screw machine products	330
Pump governors	316	Searchlights (see lamps)	265
Pumping outfits (see marine articles, misc.)	285	Seats, automobile	331
Punching (see special work)	346	Seats, boat	332
Puncture closing compounds (see tire repair compounds)	379	Seat bendings (see bendings, wood)	158
Push button switches (see limousine fittings)	274	Seat covers (see covers, upholstery & slip)	205
Quadrants	316	Seat cushions (see cushions, seat)	208
Races, ball (see cups and cones)	206	Seat posts, cycle & motorcycle	332
Radiators	316	Secondary wire (see ignition cable)	251
Radiator cleaning compounds (see boiler & radiator compounds)	165	Second-hand automobiles	332
Radiator filler caps	318	Separators, bow (see bow separators)	167
Radiator ornaments	318	Separators, gasoline (see strainers, gasoline line)	360
Radiator parts	318	Shades (see lamp parts & fittings)	271
Radiator protectors (see bumpers, automobile)	170	Shafts, cam (see cam shafts)	174
Radiator shields	318	Shafts, counter (see counter shafts)	202
Radiator signs (see name plates)	298	Shafts, crank (see crank shafts)	206
Radius rods	318	Shafts, propeller (see propeller shafts)	313
Railing (see accessories, misc. motor boat)	133	Shawls (see clothing, motorists')	196
Rails, brass (see mountings, auto)	296	Sheaves	332
Rails, robe (see robe rails)	324	Sheet metal articles	332
Ratchets	318	Shellac	333
Ratchet pedals (see pedals, auto)	308	Shifting rails (see top irons)	386
Rattan seating & moulding (see body parts & fittings)	165	Shims	334
Raw & semi-finished material	318	Shock absorbers	334
Rear signals	322	Shovels, auto (see camping outfits)	172
Recorders, vehicle	322	Side car & delivery attachments	336
Rectifiers, alternating current (see current rectifiers)	418a	Sight feeds	336
Reeds, horn (see horn parts)	248	Signals, rear (see rear signals)	322
Reflectors for lamps (see mirrors & reflectors, lamp)	292	Signs	336
Relief cocks (see cocks)	198	Silencers (see mufflers, exhaust)	298
Removable rims (see rims, removable)	322	Sill plates (see name plates)	298
Repair hangers (see crank hangers)	206	Siren horns (see horns)	246
Repairing (see body finishing)	164	Skid devices, for pulling out of mud holes	336
Repair links (see anti-skid devices)	136	Slat irons (see top irons)	386
Reverse gears	322	Sleeves, tire repair (see tire sleeves)	380
Rheostats (see charging apparatus)	416d	Sleeve protectors (see clothing, motorists')	196
Rims, automobile	322	Slip covers (see covers, upholstery & slip)	205
Rims, cycle and motorcycle	322	Snap, strap & footman loops (see hardware, auto)	242
Rims, removable	322	Soaps (see cleansing compounds)	196
		Soapstone (see talc or chalks, tire)	361
		Sockets, connectors & bulbs, lamp (see lamp parts & fittings)	271
		Solder	338
		(See also aluminum solder, 134)	
		Soldering (see contract work)	201
		Solid tires (see tires, solid)	368
		Spanners	426g
		Spar coating (see varnishes)	396
		Spare wheels	338
		Spark coils	338

Spark coil boxes (see battery & coil boxes).....	152	Storage ignition batteries (see batteries, ignition, storage).....	150
Spark coil parts	340	Storage tanks (see gasoline storage tanks).....	232
Spark gaps	340	Storm aprons	359
Sparkling points (see ignition apparatus, misc.)	251	Strainers, gasoline	360
Spark lever grips (see grips, throttle and spark lever)	242	Straps	360
Spark plugs	340	Strut rods (see running gear fixtures)	328
Spark plug brushes	426g	Stuffing boxes	360
Spark plug cases	344	Stump joints (see top fixtures)	336
Spark plug micas & porcelains (see insulation)	258	Supplementary springs (see shock absorbers)	334
Spark plug parts	344	Supports, car (see car supports)	416d
Spark plug protectors	344	Supports, top (see top fixtures)	386
Spark & throttle levers (see levers, spark & throttle)	273	Switchboards, charging (see charging apparatus)	416d
Spark timers (see timers, ignition)	364	Switches, ignition	360
Speaking tubes (see annunciators)	136	Tachometers (see speed indicators)	348
Specialists	344	Tacks, upholstery (see upholstery buttons, tacks, etc.)	394
Special work	346	Tail board fasteners (see hardware, auto).....	242
Speed change gears	346	Tale or chalks, tire	361
Speed change levers (see levers, speed change)	273	Tandem attachments, motorcycle	361
Speed indicators, auto	348	Tanks, acetylene gas (see acetylene gas tanks)	133
Speed indicators, boat	350	Tanks for compressed air (see compressed air tanks)	417c
Speed indicators, cycle & motorcycle.....	350	Tanks, fuel or water	361
Speedometer brackets (see bicycle & motorcycle fittings, misc.)	160	Tanks, gasoline storage (see gasoline storage tanks)	232
Spinning, metal	350	Tanks, tire inflating (see tire inflating tanks)	374
Spiral springs (see shock absorbers)	334	Tank bushings	362
Splash aprons (see dust and mud shields).....	215	Tank carriers	362
Spokes, auto	350	Tank gauges (see fuel level indicators)	226
Spokes, wire, cycle	350	Tank keys (see gas tank keys)	234
Spoke protectors (see accessories, misc., motorcycle)	133	Tank plugs	363
Sponges (see chamois & sponges).....	194	Taper pins	363
Sprags (see brakes, automobile)	167	Tarnish preventives	363
Spray hoods and spray guards (see canopies and spray guards)	172	Taximeters	363
Springs, cushion	350	Tempering (see hardening and metal treatment)	242
Springs, leaf	351	Tents, auto (see camping outfits)	172
Springs, small	352	Terminals, wire	363
Springs, supplementary (see shock absorbers)	334	Testing clips (see ignition apparatus, misc.).....	251
Spring clips	352	Thermo bottle cases (see misc. articles, auto)	292
Spring frame suspension	352	Thermostats (see boiler fixtures, automobile)	166
Spring repair devices	352	Thread (see upholstery materials)	394
Springs, supplementary (see shock absorbers)	334	Throttle lever grips (see grips, throttle & spark lever)	242
Sprockets	352	Throttle valves (see valves, misc.)	395
Sprocket covers (see covers, sprocket).....	204	Timers, ignition	364
Sprocket cutting (see gear cutting)	237	Timer parts	365
Stampings	354	Time switches (see charging apparatus)	416d
Stands, cycle	356	Timing gauges (see ignition apparatus, misc.)	251
Starters, engine (see engine starters).....	218	Tips, burner (see burner tips)	172
Stay bolts (see tire sundries)	380	Tires, automobile, cushion	366
Steam automobile motors	356	Tires, cycle and motorcycle	368
Steam boilers (see boilers)	165	Tires, pneumatic, automobile	366
Steam condensers (see condensers, steam).....	200	Tires, solid, automobile	368
Steam gauges (see pressure gauges)	312	Tires, special	368
Steam motor fittings	356	Tire adjusters (see tire tools, auto)	380
Steam pipe and boiler coverings (see boiler fixtures, automobile)	166	Tire alarms	370
Steam pumps (see pumps, steam).....	316	Tire bands (see tire repair articles, auto).....	378
Steel (see raw & semi-finished material).....	318	Tire bolts	370
Steel, aluminum coated (see aluminum sheets, rods and ingots)	134	Tire cases	370
Steel castings (see castings, steel)	188	Tire cement (see cement, tire)	190
Steering apparatus, automobile	356	Tire chains (see anti-skids)	126
Steering apparatus, boat	358	Tire fillings	372
Steering checks	358	Tire holders	372
Steering gear attachments	358	Tire inflating tanks	374
Steering knuckles	358	Tire inflators, mechanical	374
Steering knuckle boots (see grease bags).....	240	Tire irons (see tire tools, automobile)	380
Steering levers (see levers, steering)	373	Tire locks (see tire holders)	372
Steering rods	358	Tire lugs	376
Steering wheels, automobile	358	Tire mastics	376
Steering wheels, boat	358	Tire patches & plugs (see tire repair articles)	378
Steering wheel rims	359	Tire pressure gauges	376
Steering yokes	359	Tire protectors	376
Steps, automobile	359	(See also anti-skid devices, 136)	
Step brackets	359	Tire pumps (see pumps, hand tire, 314, and pumps, garage tire)	426b
Step guards	359	Top reels (see top fixtures)	386
Step hangers	359	Tire repair articles, automobile	378
Step plates	359	Tire repair articles, cycle & motorcycle.....	379
Step treads	359	Tire repair compounds	379
Storage batteries, vehicle propulsion (see batteries, vehicle)	152	Tire repair fluids	379
Storage battery solutions (see battery acid).....	152		
Storage battery supplies	359		

Tire repairing and vulcanizing	379	Valve grinding compounds	396
Tire repair kits, automobile	379	Valve grinding tools	430b
Tire repair kits, cycle and motorcycle	379	Valve lifting tools	430b
Tire rougheners	379	Valve stems, engine	396
Tire sleeves	380	Valve wheels (see misc. articles, auto)	292
Tire sundries	380	Vanadium steel (see raw and semi-finished material)	318
Tire tale (see talc or chalk, tire)	361	Vaporizers (see mixing valves, generator valves and vaporizers)	294
Tire tape	380	Varnishes	396
Tire tools, automobile	380	Varnish removers	396
Tire tools, cycle and motorcycle	381	Vehicle motion recorders (see recorders, vehicle)	322
Tire valves	381	Vehicle washers	430b
Tire valve parts	381	Vehicle washer fittings	430b
Tire valve stems	381	Veils (see clothing, motorists')	196
Tire valve tools	381	Veneers, body (see body parts & fittings)	165
Toe clips	381	Ventilating buttons (see upholstery buttons, tacks, etc.)	394
Toilet cases (see limousine fittings)	274	Ventilators (see accessories, misc., motor boat)	133
Tonneau clasps (see hardware, auto)	242	Vibrator & spark indicator (see ignition apparatus, misc.)	251
Tool bags, cycle and motorcycle	381	Volt-ammeters	398
Tool bags and rolls, automobile	381	Voltmeters, pocket	398
Tool boxes, automobile	381	Voltmeters for panel & vehicle use	431
Tool boxes, motorcycle	382	Vulcanizers	431
Tool kits	429a	Vulcanizing materials	399
Tool rolls (see tool bags and rolls)	381	Vulcanizing solution	399
Tool steels (see raw and semi-finished material)	318	Wadding (see upholstery material)	394
Tops, automobile	382	Warmers, foot (see heaters)	245
Tops, boat (see canopies and spray guards)	172	Wash aprons	399
Top bows (see bows)	166	Washers, felt	400
Top dressing	384	Washers, flexible (packing)	400
Top dust covers	386	Washers, lock (see lock nuts and washers)	274
Top fixtures	386	Washers, metal	400
(See also curtain fasteners, 208; body irons, 164; top irons, 386; bow rests, 167, and bow separators, 167.)		Washers, mica (see insulation)	258
Top irons	386	Washers, vehicle (see vehicle washers)	430b
Top materials	386	Wash-rack lights (see inspection lamps)	256
Top supports (see top fixtures)	386	Waste, wiping rags, etc.	400
Torsion rods (see running gear fixtures)	128	Waste cans (see cans, waste)	416c
Transfers, decalcomania	388	Watches (see clocks)	196
Transmission cases	388	Watch holders	401
Transmission gears (see speed change gears)	346	Water columns (see boiler fixtures, automobile)	166
Transparent sheets (see celluloid sheets)	190	Water coolers (see radiators)	316
Treads, detachable (see tire protectors, 376; anti-skids, 136)	292	Water cut-off (see vehicle washer fittings)	430b
Tread adjusters (see misc. articles, auto)	292	Water gauges	401
Trimming (see body finishing)	164	Water gauge glasses (see boiler fixtures, automobile)	166
Trimnings, automobile	390	Water jackets	401
Trimnings, boat	390	Water motors	401
Trouble finders	390	Water pipes (see manifolds and piping)	282
Trouser guards	390	Waterproof materials	401
Trunks	390	Water savers (see vehicle washer fittings)	430b
Trunk covers (see fabrics)	218	Wearing apparel (see caps, 174; clothing, 196; leggings, 272)	401
Trunk racks	391	Welding	401
Tube cases (see tire cases)	370	Wheels, automobile	402
Tube expanders (see boiler tube expanders)	416a	Wheels, motorcycle	404
Tubing, flexible	391	Wheels, spare (see spare wheels)	338
Tube patches (see tire repair articles, auto)	378	Wheel parts, auto	404
Tubing, metal	391	Whistles, auto	404
Tubing, soft rubber	392	Whistles and whistle outfits, motor boat	404
Tufting buttons (see upholstery buttons)	394	Whistles, motorcycle	404
Tumbler carriers	392	Window anti-rattlers (see limousine fittings)	274
Turn buckles	392	Window fixtures (see hardware, auto)	242
Two-speed gears, motorcycle	392	Window locks (see limousine fittings)	274
Under bonnets (see dust & mud shields)	215	Window strips (see limousine fittings)	274
Under-water exhausts	392	Wind shields	406
Unions (see pipe fittings)	310	Wind shield cleaners (see glass front cleaners)	238
Universal joints	392	Wind shield fittings	408
Universal joint covers (see covers, universal joint)	205	Wind shield glass paste	408
Upholstering (see body finishing)	164	Wiping waste (see waste, wiping rags, etc.)	400
Upholstery buttons, tacks, etc.	394	Wire	410
Upholstery materials	394	Wire, insulated (see ignition cable)	251
Vacuum bottles	394	Wire cloth	410
Vacuum cleaners	395	Wire glass	410
Valises (see trunks)	390	Wire terminals (see terminals, wire)	363
Valves, engine	395	Wood bendings (see bendings, wood)	158
Valves, gasoline lock (see gasoline lock valves)	232	Wood polish	410
Valves, horn (see horn parts)	248	Wrenches	434
Valves, miscellaneous	395	Yacht fittings (see marine articles, misc.)	434
Valves, mixing (see mixing valves, generator valves and vaporizers)	294	Yokes, steering (see steering yokes)	359
Valves, muffler cut-out (see muffler cut-outs)	298		
Valves, tire (see tire valves)	381		

SECTION III.

Machinery & Tools

Factory, Shop, Foundry & Garage Equipment (pp. 412 to 437)

- Abrasives412
 Abrasive belts (see factory equipment).....420a
 Air compressors412
 Ammeters, switchboard type414
 Angle benders (see tools, misc.).....428
 Annealing and hardening boxes414
 Annealing and hardening furnaces414
 Anvils414
 Arbors or mandrels414
 Arbor presses414
 Autoclaves414
 Axe handle fasteners414
 Axle stools (see car supports for garages).....416d
 Babbit metal furnaces (see metal melting furnaces)421d
 Balancing ways414
 Barrels (see factory equipment, 420a, & gaso-
 line storage tanks, 232)
 Band saws414
 Band saw blades (see machinery parts)424c
 Band saw scarfers (see machinery, misc.).....424a
 Band saw tools (see tools, misc.)428
 Barrels, tumbling (see tumbling barrels).....430
 Bars, boring (see boring bars)416b
 Battery chargers (see charging apparatus).....416d
 Bearing scrapers414
 Bellows416
 Belting416
 (See also belts, fan, pump & oiler, 158)
 Belt tools416
 Benches, machinists' (see factory equipment,
 misc.)420a
 Bench drawers and legs (see factory equip-
 ment)420a
 Bending machines (see machinery, misc.).....424a
 Bins (see factory equipment)420a
 Bits416a
 Bit braces416a
 Blades416a
 Blasts, sand (see sand blasts).....426d
 Blocks, chain (see cranes & hoists).....418
 Blowers, pressure416a
 Plow pipes416a
 Blue print machines416a
 Body factory equipment416a
 Boiler tube expanders416a
 Bolt headers (see bolt & nut machinery).....416b
 Bolt & nut machinery416b
 Bolt & rivet clippers416b
 Bolt threading machines (see bolt & nut ma-
 chinery)416b
 Boring bars416b
 Boring machines, metal416b
 Boring machines, wood416b
 Boring mill chucks (see chucks).....417b
 Boring tools (see tools, machinery).....427c
 Brazing compound416b
 Brazing flux (see brazing compound)416b
 Brazing forges416c
 Brazing & soldering torches (see torches).....429a
 Breast drills416c
 Broaching machines416c
 Brush, paint & varnish416c
 Buffers (see grinders)421c
 Buffing & polishing machines425c
 Bulldozers (see tools, misc.)428
 Burners for furnaces, ovens, etc.....416c
 Cable for high wheel buggies (see belting).....416
 Calipers & dividers416c
 Cans for fuel & oil416c
 Cans, oiling (see oilers, squirt)305
 Cans, waste416c
 Carbon scrapers416d
 Carborundum sharpening stones (see oil
 stones)425a
 Carborundum wheels (see emery wheels).....420a
 Car supports for garages416d
 Cars, foundry and core oven (see foundry
 equipment)421a
 Cases for bolts, screws, etc. (see factory
 equipment)420a
 Case hardening bone416d
 Case hardening compounds416d
 Case hardening furnaces (see annealing
 furnaces)414
 Center grinders416d
 Center punches (see punches, center)426b
 Centering machines416d
 Chains, machinery (see transmission appli-
 ances)429a
 Chain blocks (see cranes & hoists)418
 Chain tools416d
 Chaplets (see foundry equipment)421a
 Charging apparatus416d
 (See also ammeters, 414; current recti-
 fiers, 418a, and dynamos, 419a)
 Chasers (see tools, misc.)428
 Chauffeurs' trucks417a
 Chisels417a
 Chucks, boring, planing mill, drill, lathe,
 magnetic, milling machine, planer &
 screw machine417b
 Chucking machines417b
 Circuit breakers (see charging apparatus).....416a
 Circular saws417c
 Clamps, machinists'417c
 Clamps, woodworkers'417c
 Clippers, bolt and rivet (see bolt and rivet
 clippers)416b
 Clocks, watchmen's (see factory equip-
 ment)420a
 Cold saws (see saws, metal)426
 Collet chucks (see chucks)417b
 Compressed air tanks417c
 (See also tire inflating tanks).....374
 Compressors, air (see air compressors) ...412
 Condensers & superheaters417c
 Core machines (see foundry equipment).....421a
 Corundum wheels (see emery wheels).....420a
 Cotter pin pullers417c
 Cotter pin setters417c
 Counterbores and countersinks (see tools,
 misc.)428
 Countershafts, factory417c
 Couplings, cut-off (see transmission appli-
 ances)429a
 Cranes & hoists418
 Crank pin lathes (see lathes)423a
 Crank removers (see tools, misc.)428
 Crimping tools (see tools, misc.)428
 Crucibles, metal melting418a
 Crucible covers (see foundry equipment).....421a
 Crushing machines (see foundry equip-
 ment)421a
 Cupolas (see foundry equipment)421a
 Current rectifiers418a
 Current transformers418a
 Cut meters (see tools, misc.)428
 Cutters418a
 Cutter grinders (see reamer & cutter grind-
 ers)426d
 Cutter heads418a
 Cutting compound mixers418a
 Cutting-off machines418a
 Cutting-off tools (see tools, machinery).....427c
 Cylinder boring machines (see boring ma-
 chines, metal)416b
 Cylinder forcing machines (see machinery,
 misc.)424a
 Cylinder grinders (see internal grinders).....422a
 Dados (see woodworking tools)434
 Dealers in machinery (see machinery deal-
 ers)424c
 Dies and punches419
 Dies, forging419
 Dies, screw cutting (see taps & dies).....427b
 Die heads (see taps & dies)427b
 Die stocks (see taps & dies)427b
 Dipping baskets (see foundry equipment).....421a
 Dipping tanks, japan (see ovens).....425a
 Disc grinders419
 Dividers (see calipers & dividers).....416c
 Dogs, lathe (see lathe parts)424a
 Drill chucks (see chucks)417b
 Drilling attachments419
 Drilling compounds419

- Drilling machines419
 (See also radial drills, 426c; portable drills, 426; sensitive drills, 426f; upright drills, 430a; horizontal drilling machines, 422a; multiple spindle drills, 425a; vertical drills, 430b; drill presses, 419a)
- Drills, breast (see breast drills)416c
- Drills, center419a
- Drills, electric (see portable drills)426
- Drills, pneumatic (see pneumatic tools)425c
- Drills, twist, (see twist drills)430a
- Drill grinders419a
- Drill presses419a
- Drip pans, floor419a
- Drop hammers (see hammers, steam, drop & power)422a
- Drop presses (see hammers, steam, drop & power)422a
- Dry kilns & dry kiln doors419a
- Dust arresters (see foundry equipment).....421a
- Dynamometers419a
- Dynamos419a
- Dynamos for charging apparatus419a
- Electric motors for driving machinery.....420
- Elevators420
- Elevator safety gates420
- Embossing tools (see tools, misc.)428
- Emery grinders (see grinders)421c
- Emery wheels420a
- Emery wheel dressers420a
- Emery powder (see abrasives)412
- Engine lathes (see lathes)423a
- Engine testing devices420a
- Engraving machines (see machinery, misc.).....424a
- Expanders, boiler tube (see boiler tube expanders)416a
- Extractors, broken tap (see tap extractors).....427b
- Eye benders (see tools, misc.)428
- Eyelet machines (see machinery, misc.).....424a
- Factory equipment, miscellaneous420a
 (See also transmission appliances, 429a.)
- Fans421
- Faucets421
- Files & rasps421
- File handles421
- Filing cabinets (see factory equipment).....420a
- Filing machines (see machinery, misc.).....424a
- Fire extinguishers220
- Flasks (see foundry equipment)421a
- Flexible shafts421a
- Flywheel balancing machines (see machinery, misc.)424a
- Flywheel pullers (see wheel pullers)432a
- Forges421a
- Forming machines421a
- Foundry equipment421a
- Foundry faeings (see foundry equipment).....421a
- Friction clutches (see transmission appliances)429a
- Friction tapping devices (see chucks).....417b
- Fullers and swages (see tools, misc.).....428
- Funnels421b
- Furnaces421b
 (See also annealing & hardening furnaces, 414, & metal melting furnaces, 421d.)
- Furnaces, soldering421b
- Gang saws (see wood-working machinery).....432a
- Gasket & washer cutters421b
- Gasoline cans (see cans for fuel & oil).....416c
- Gasoline & oil pumps, for garage use.....232
- Gasoline storage outfits232
- Gasoline storage tanks232
- Gasoline tanks, portable234
- Gate cutters (see foundry equipment).....421a
- Gauges, grinding (see tools, misc.).....428
- Gauges, measuring421b
- Gear cutting machinery421b
- Gear grinding machines (see gear cutting machinery)421b
- Gear hobbing machines421c
- Generators (see charging apparatus).....417a
- Glue heaters, cookers, spreaders, pots & jointers (see body factory equipment).....416a
- Glueing clamps (see clamps, woodworkers').....417c
- Glutrin (see foundry equipment).....421a
- Grease & oil guns241
- Grinders421c
 (See also disk grinders, 419; internal grinders, 422a; piston ring grinders, 425b; plain grinders, 425b; tool grinders, 428a; portable grinders, 426; reamer & cutter grinders, 426a; surface grinders, 427b, & universal grinders, 430a.)
- Grinding quills (see emery wheels)420a
- Grinding stands (see machinery parts).....424c
- Grinding wheels422
- Grindstone stands (see factory equipment, misc.)420a
- Hack saws, hand (see saws, metal, hand).....426d
- Hack saws, power422
- Hack saw frames & blades (see saws, metal, hand)426d
- Hair pickers (see upholstering machinery).....430a
- Hammers, hand422
- Hammers, pneumatic422a
- Hammers, steam, drop & power.....422a
- Hand punches (see punches, hand).....426b
- Hangers, shafting (see transmission appliances)429a
- Hardening compounds422a
- Hardening furnaces (see annealing & case hardening furnaces)414
- Heaters, garage422a
- Heating & ventilating apparatus (see machinery, misc.)424a
- Hinge machines (see machinery, misc.).....424a
- Hobbing machines (see gear hobbing machines)421c
- Hobs (see tools, machinery)427c
- Hoists (see cranes & hoists)418
- Horizontal drilling machines422a
- Hub-making machinery (see wood-working machinery)432a
- Hydraulic rams (see machinery, misc.).....424a
- Hydrometers422a
- Industrial cars (see factory equipment).....420a
- Inner tube removers (see tools, misc.).....428
- Inner tube testers (see tools, misc.).....428
- Internal grinders422a
- Iron & brass working machinery (see machinery, misc.)424a
- Jacks259
 (See also car supports for garages, 416d.)
- Jack screws423a
- Japanning tanks423a
- Jigs423a
- Jig saws423a
- Jobbers of machinery, tools, factory equipment420a
- Jointers (see body factory equipment).....416a
- Kegs (see factory equipment)420a
- Kettles, potash (see soda & potash kettles).....426g
- Keys, machine (see machinery parts).....424a
- Key seating machines423a
- Knives423a
- Ladle stoppers & nozzles (see foundry equipment)421a
- Lamps, soldering (see torches)429a
- Lamp brackets, for garages423a
- Lamp guards423a
- Lathes423a
- Lathe chucks (see chucks)417b
- Lathe brackets (see lathe parts).....424a
- Lathe dogs (see lathe parts)424a
- Lathe racks (see factory equipment).....424a
- Lathe tools (see tools, machinery).....427c
- Lathe tool holders (see tool holders).....429a
- Leather measuring machines (see upholstering machinery)430a
- Lighting plants424a
- Lockers (see factory equipment)420a
- Machinery, miscellaneous424a
- Machinery parts424c
- Machinery & tool jobbers & dealers.....424c
- Machine tools (see machinery, misc.).....424a
- Machinists' hammers (see hammers, hand).....422
- Mandrels (see arbors or mandrels).....424d
- Marking machines (see machinery, misc.).....424a
- Measures424d
- Melting pots & ladles (see foundry equipment)421a
- Mercury rectifiers (see current rectifiers).....418a
- Metal melting furnaces424d
- Metal working machines (see machinery, misc.)424a
- Micrometers424d
- Milling cutters424d

Milling machines	424e	Punches, hand	426b
Milling machine attachments (see machinery parts)	424c	Punches, lever	426b
Milling tools (see tools, machinery)	427c	Punches, power	426b
Monkey wrenches (see wrenches)	434	Pyrometers	426c
Mortising machines	424e	Racks, steel (see factory equipment)	420a
Moulds & cores	425a	Rack cutting machines (see gear cutting machines)	421b
Moulding machines, metal	425a	Radial drills	426c
Moulding machines, wood	425a	Rammers (see tools, misc.)	428
Moulding sand (see foundry equipment)	421a	Ratchet drills	426c
Multiple spindle drills	425a	Ratchets for tools	426c
Nail pullers (see tools, misc.)	428	Reamers	426c
Nail sets (see punches, hand)	426b	Reamer & cutter grinders	426d
Naphtha cans (see cans for fuel & oil)	416c	Reaming stands (see factory equipment)	420a
Nippers (see pliers)	425c	Rectifiers, alternating current (see current rectifiers)	418a
Nipple holders (see machinery parts)	424c	Repair couches (see chauffeurs' trucks)	417a
Nut facing machines (see machinery, misc.)	421a	Resaws (see band saws)	414
Nut machines (see bolt & nut machinery)	416a	Retreading kettles (see vulcanizers)	431
Nut tappers (see tapping machines)	427b	Revolution counters	426d
Oil cans (see cans for fuel & oil, 416c, & oilers, squirt, 305.)	305	Rheostats (see charging apparatus)	416d
Oilers, squirt	305	Rim making machinery (see woodworking machinery)	432a
Oil filters	425a	Ring grinders (see piston ring grinders)	425b
Oil guns (see grease & oil guns)	241	Rip saws (see woodworking machinery)	432a
Oil pumps, garage (see gasoline & oil pumps)	232	Rivet clippers (see bolt & rivet clippers)	416b
Oil separators	425a	Rivetting machines	426d
Oil stones	425a	Rivet sets	426d
Oil storage outfits	305	Rivet spinning machines (see machinery, misc.)	424a
Oil & grease storage outfits	425a	Roofing	426d
Oxygen gas generators	425a	Rubber machinery (see machinery, misc.)	424a
Ovens	425a	Rubbing stones	426d
Overhead travellers & track systems (see factory equipment)	420a	Rubbish barrels, garage (see factory equipment, misc.)	420a
Panels, charging (see charging apparatus)	416d	Sand blasts	426d
Panel boards (see charging apparatus)	416d	Sand sifters (see foundry equipment)	421a
Parting compounds (see foundry equipment)	421a	Sanders	426d
Pattern shop machinery	425a	Sand rammers (see foundry equipment)	421a
Pattern shop tools (see tools, misc.)	428	Saws, metal, hand	426d
Phosphorizers (see foundry equipment)	421a	Saw arbors (see woodworking tools)	434
Pickle pots (see foundry equipment)	421a	Saw blades (see blades)	416a
Pipe bending machines (see machinery, misc.)	424a	Sawing machines, metal	426e
Pipe cutting & threading machinery	425b	Saw grinding & sharpening machines (see machinery, misc.)	424a
Pipe cutting tools	425b	Saw mandrels (see arbors or mandrels)	411
Pipe fitters (see pipe cutting tools)	425b	Saw sharpeners (see tools, misc.)	428
Pipe wrenches (see wrenches)	434	Sawing machines, metal	426e
Piston ring expanders	425b	Saw tables	426e
Piston ring grinders	425b	Saw tools (see tools, misc.)	428
Piston ring clamps (see tools, misc.)	428	Scrapers, bearing (see bearing scrapers)	414
Piston ring machines	425b	Scrapers, carbon (see carbon scrapers)	416d
Plain grinders	425b	Screw drivers	426e
Planers, metal	425b	Screw driving machines (see machinery, misc.)	421a
Planers, wood	425c	Screw machines	426e
Planer centers (see machinery parts)	424c	Screw machine tools (see tools, machinery)	427c
Planer chucks (see chucks)	417b	Screw plates (see taps & dies)	427b
Planer jacks (see machinery parts)	424c	Scribers, machinists'	426f
Planer tools (see tools, machinery)	427c	Scroll saws	426f
Planer tool holders (see tool holders)	429a	Sensitive drills	426f
Planes, woodworking	425b	Sewing machines, leather	426f
Plating outfits	425c	Shaft couplings (see transmission appliances)	429a
Pliers	425c	Shaftings (see transmission appliances)	429a
Plug pliers (see tire tools, cycle & motorcycle)	381	Shapers, metal	426f
Plumbago (see foundry equipment)	421a	Shapers, wood	426f
Pneumatic tools	425c	Shaper tools (see tools, machinery)	427c
Polishing & buffing machines	425c	Shears, hand & foot	426f
Polishing compounds	426	Shears, lever	426g
Polishing & rubbing machines (see woodworking machinery)	432a	Shears, power	426g
Polishing wheels	426	Sheaves (see transmission appliances)	429a
Porcelain receptacles (see charging apparatus)	416d	Sheet metal working machinery (see machinery, misc.)	421a
Portable drills	426	Shelving (see factory equipment)	420a
Portable grinders	426a	Shipping barrels (see gasoline storage tanks)	232
Potash kettles (see soda & potash kettles)	426g	Shop boxes, barrels, shelving and tool racks (see factory equipment)	420a
Precision lathes (see lathes)	423a	Shovels, moulders'	426g
Presses, arbor (see arbor presses)	414	Slide rests (see lathe parts)	424a
Presses, foot & hand	426a	Slotters	426g
Presses, power	426a	Snap flasks (see foundry equipment)	421a
Profiling machines	426a	Sockets & sleeves (see machinery parts)	424c
Pullers, wheel (see wheel pullers)	432a	Soda & potash kettles	426g
Pulleys (see transmission appliances)	429a	Spanners	426g
Pulverizers & rollers (see foundry equipment)	421a	Spark plug brushes	426g
Pumps, garage tire	426b	Speed indicators for machinery (see tachometers)	427b
Pumps, power, stationary (see air compressors)	412	Spirit levels	426g
Punches, center	426b		
Punches, foot	426b		

Spoke machinery (see woodworking machinery)423a
 Spoke shaves (see tools, misc.)428
 Spring coiling machines (see machinery, misc.)424a
 Spring winders (see tools, misc.)428
 Sprue cutters (see foundry equipment)421a
 Stands427
 Stationary engines427
 Steam hammers (see hammers, steam, drop & power)422a
 Steel stamps (see tools, misc.)428
 Steel wool (see abrasives)412
 Stirrers, stoppers, retorts, etc. (see foundry equipment)421a
 Stocks, dies (see taps & dies)427b
 Straightening machines (see machinery, misc.)424a
 Supports, car (see car supports)416d
 Surface grinders427b
 Swages, crank (see tools, misc.)328
 Swage blocks427b
 Swing saws427b
 Switches, electric (for machinery)427b
 Switches, time (see charging apparatus)416d
 Switchboards (see charging apparatus)416d
 Tachometers427b
 Tackle blocks (see cranes & hoists)418
 Tanks, gasoline storage (see gasoline storage tanks)232
 Tank cutters (see tools, misc.)428
 Tap extractors427b
 Tapping attachments (see machinery parts)424c
 Tapping machines427b
 Taps & dies427b
 Tempering compounds427c
 Tempering furnaces (see annealing & hardening furnaces)414
 Tenoners427c
 Testers, for metals427c
 Testing machines (see machinery, misc.)424a
 Thermometers427c
 Threading tools427c
 Time switches (see charging apparatus)416d
 Tire setting machines (see machinery, misc.)424a
 Tire tools, automobile380
 Tire tools, cycle & motorcycle381
 Tire valve tools381
 Tire wheels, graduated427c
 Tongs427c
 Tools, machinery427c
 Tools, miscellaneous428
 Tools, pneumatic (see pneumatic tools)425c
 Tool grinders428a
 Tool handles429a
 Tool holders429a
 Tool kits429a
 Tool post grinders (see emery wheels)420a
 Tool racks (see factory equipment)420a
 Tooth chamfering attachments (see tools, machinery)427c
 Tooth rounding machines (see gear hobbing machinery)421c
 Torches429a
 Tote boxes (see factory equipment)420a

Track systems (see factory equipment)420a
 Transmission appliances429a
 Trestles (see factory equipment)420a
 Trolleys & tramways (see factory equipment)420a
 Trucks, factory, 430 (see also chauffeurs' trucks, 417a; turntables, 430a.)
 Truing devices, bench plane430
 Truing tools (see tools, machinery)427c
 Tube expanders (see boiler tube expanders)416a
 Tufting machines (see upholstering machinery)430a
 Tumbling barrels430
 Turning machines (see machinery, misc.)424a
 Turntables430a
 Turrets (see lathe parts)424a
 Turret head tools (see tools, machinery)427c
 Turret machines430a
 Tuyere irons430a
 Twist drills430a
 Universal grinders430a
 Upholstering machinery430a
 Upright drills430a
 Vacuum dryers430a
 Valve grinding tools430b
 Valve lifting tools430b
 Varnish rubbing machines (see machinery, misc.)424a
 Vehicle washers430b
 Vehicle washer fittings430b
 Veneer presses (see woodworking machinery)432a
 Vertical drills430b
 Vises430b
 Vises, drill, press, planer & shaper (see machinery parts)424c
 Vise jaws (see tools, misc.)428
 Vise stands, portable (see factory equipment)420a
 Voltmeters, for panel & vehicle use431
 Vulcanizers431
 Vulcanizer boilers432a
 Vulcanizer moulds & cores432a
 Washers, vehicle (see vehicle washers)430b
 Waste cans (see cans, waste)416c
 Water cinder mills (see foundry equipment)421a
 Water savers (see vehicles washer fittings)430b
 Welding compounds, powder & plates (see welding equipment)432a
 Welding equipment432a
 Welding machines (see welding equipment)432a
 Wheel guards, for doors to garages432a
 Wheel machinery (see woodworking machinery)432a
 Wheel pullers432a
 Wheel truers, cycle432a
 Window sashes (see factory equipment)420a
 Wire cutters (see tools, misc.)428
 Wiring, forming & crimping machinery (see machinery, misc.)424a
 Wood trimmers (see woodworking machinery)432a
 Woodworking machinery432a
 Woodworking tools434
 Wrenches434

SECTION IV.

Alphabetical List of Brand Names (pp. 441 to 511)

Motor Cars441
 Motor Cycles447
 Aeronautical448

General (including all parts, accessories, machinery, motor boats, etc., not included in the other groups)448

SECTION V.

Trade Associations

National512-520
 American Automobile Association516
 Association of Licensed Automobile Manufacturers513
 Automobile and Motor Trade Association518
 Automobile Trade Credit Association516

Commercial Motor Vehicle Manufacturers' Association514
 Federation of American Motor Cyclists518
 Importers' Automobile Salon518
 Internal Combustion Engineers' Association519

Manufacturers' Contest Association	519	Boston Automobile Dealers' Association	522
Motor and Accessory Manufacturers	519	Chicago Automobile Trade Association	521

RELIABILITY

In this, our April, 1910, issue of the Directory we feel that we have even better than previously succeeded in giving to the trade the most reliable, complete, and up-to-date work of its kind to be had. We have circularized every individual firm listed and have received personal replies with statements of the goods manufactured in all but a very few instances. We have dropped quite a large number as being inactive, so that the present Directory can be relied upon as containing only the names of such firms as are actively engaged in business. We believe that this Directory will be found to be more accurate and reliable in this respect than any work heretofore published.

In spite of the number of firms which have been dropped as inactive, the size of the Directory has been greatly increased, a large number of new firms having been added.

In the last, and this issue, several individual headings, or sub-headings, have been created where formerly only one general head was used, thus making the index much more specific.

ADVISE US

We find that many manufacturers bring out new products, and sometimes entirely new lines of goods, and do not call our attention to this fact until we personally circularize them and insist upon having complete lists from them. In order to be correctly indexed we will appreciate your informing us of any new devices or lines of manufacture. We would also like to know of the changes in the personnel of the companies and, of course, should be notified at once of any change of firm name. We will appreciate receiving the names of any entirely new companies so that we can give them proper representation in the directory.

The engineering data at the back of the book and the complete digest of the Automobile Laws of the various states, will be found especially helpful.

SEND IN YOUR CRITICISM

In this issue we have continued, without change, the location of the Advertisers' Index at the back of the book and the Index of Contents at the front in the most prominent position, having found these to be the most desirable positions. We earnestly desire every user of the Directory to feel a personal interest in its development, growth and improvement. If you have any difficulty in locating information; if you see any way of improving it, either by changes or additions, if it is up to your ideal or not, whether you like it or not, let us hear from you; send in your criticism.

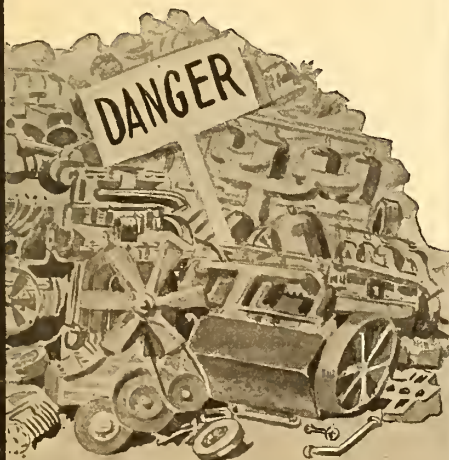

We cannot know whether we are meeting your requirements or not unless you tell us.

In the Machine and Tool Department we shall endeavor to describe in an unbiased way all of the latest tools and appliances of use to manufacturers, garage and repairmen, and in fact to all those connected with the automobile trade. This department we shall endeavor to make as reliable as the other portions of the Directory, so that it will constitute a record of the development of mechanical appliances and tools as applied to this industry, each insert containing the newest and best ideas in this line.

SEND US YOUR BRAND NAMES

In the Brand List, which is alphabetically arranged, we have added many new names and are making every effort to have it include every brand name given any article used in the Motor Cycle, Motor Boat or Automobile Industry. If you have not already sent us your list of brand names, do not fail to do this before the next issue. Send us your catalogue.

KEYSTONE LUBRICANTS

are your great protection from the acids lurking in inferior oils.

Make Your Motor Make Good! Use KEYSTONE MOTOR OIL

Manufactured from the BEST materials by the BEST process and insures under the most severe conditions

MOTOR LUBRICATION—LESS CARBONIZATION

KEYSTONE MOTOR OIL is wholly a PETROLEUM OIL, and positively contains no foreign substance,—either mechanical or chemical,—which in time might wear or corrode the parts to which it is applied. Have your dealer furnish you with a can, and insure yourself the MAXIMUM OF LUBRICATING EFFICIENCY.

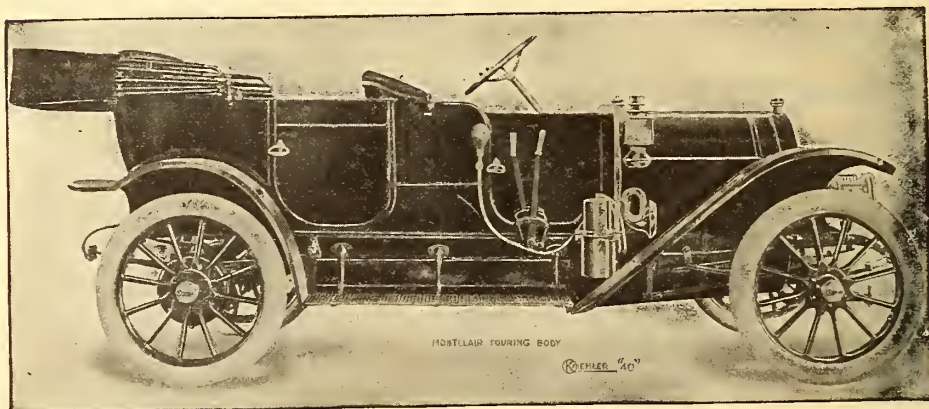

KEYSTONE LUBRICATING COMPANY

EXECUTIVE OFFICES AND WORKS:

20th Street and Allegheny Avenue, Philadelphia, Pa. Chicago address: Tacoma, Bldg.
New York Office (Automobile Dep't.): 1777 Broadway. Boston address: Oliver Bldg.
New Orleans address: 610-612 Chartres Street.

We have no connection with the oil trust.

KOEHLER "40"

AT \$1650.00

represents the greatest value thus far presented in the automobile business, and we think we are justified in stating that no automobile introduced this season has created such a sensation. The "Koehler 40" is a car developed as the result of twelve years' experience in selling automobiles, and in design, material and workmanship it is equal to cars selling for \$3000 and more. The type of body known as the "Montclair" is one of the most exclusive and luxurious styles introduced for 1910. High quality and low price are combined in the "Koehler 40" and it is therefore a car for the man who wants the best and full value.

DEALERS:—

We can give you the most complete and best selling line in the United States for 1910. It includes the

EVERITT "30"	—4 cyl., 30 H. P., Touring Car,	\$1350
HUPMOBILE	—4 cyl., 20 H. P., Runabout,	\$ 750
RIDER-LEWIS	—4 cyl., 30 H. P., Touring Car,	\$1050
RIDER-LEWIS	—6 cyl., 7 passenger "	\$2500
KOEHLER "40"	—4 cyl., 5 passenger "	\$1650

We are general distributors for above cars in the following territory:

Koehler "40"	—United States.
EVERITT "30"	—New York City, Metropolitan District; Eastern N. Y. State, Conn., N. J., and N. E. Penna.
Rider-Lewis	—New York, New Jersey, Pennsylvania, Delaware and New England States.
Hupmobile	—New York, east of and including Rochester, North Eastern and Central Pennsylvania and New England States.

All models now on exhibition at our N. Y. salesroom.

Write us now for agency proposition.

H. J. KOEHLER CO.

1711 BROADWAY, N. Y. CITY

PANHARD OIL

This oil is manufactured from the best Pennsylvania crude stock—it has sufficient body to lubricate perfectly and will not carbonize—if used properly.

PANHARD OIL is made in one quality only—the best. But in four consistencies: Light, medium, heavy and extra heavy. It is important to use the right grade.

We sell PANHARD OIL at one price—because we make one quality.

There are concerns that sell 20-cent oil and 40-cent oil under the same name and brand; the quality varies as much as the price—it must. We believe this method is misleading—at any rate we do not do it.

If you want a cheaper oil we can supply it—but it is not PANHARD and does not go out under that name. It is a good oil—best, we believe, for the price.

You can save money, provided you have your own garage, by ordering by the barrel (containing 50 to 53 gallons) or half barrel (containing 30 gallons). We ask you to order through your dealer. Should you experience difficulty in getting the genuine PANHARD please advise us.

The systematic use of this oil will increase the speed and power of your car; a fair trial is the best proof.

PANHARD GREASES are as good as PANHARD OIL. We supply cup, transmission and graphite greases. Also heavy gear oil, etc.

Our booklet, "LUBRICATION," tells the whole story. It gives a lot of hints on oiling, besides many practical suggestions. The new edition is ready—write for a copy.

\$4,000,000 in Commissions to Dealers

5,000 Electrics were sold last year, according to the conservative estimate of a conservative journal—the Electrical World. We cannot speak for others, but this we know, that more than twice as many Waverley Electrics will be sold this year than last, at an average price that is well above \$2000.

The sale of 10,000 cars will divide four million dollars among the dealers. Do you want a share of this business?

The dealer who handles electrics has an all-the-year-round trade producing profits every month in the year. It is a gilt-edged trade that brings the highest class of customers to his stand. It is a satisfied trade that adds to his local reputation in his own town.

The uses for electrics are multiplying every day—the field is broadening, the opportunity for sales is increasing. The dealer who handles

Waverley Electrics

represents a line that reaches every possible demand for electric vehicles in his territory.

The silent Waverley Coupe, Brougham, Victoria, Roadster and Stanhope may be seen on every boulevard of fashion and avenue of business; but not less well known and saleable are Waverley Electric trucks and delivery wagons for commercial uses.

If Electrics are not being pushed in your town, get in touch and have a share of that four millions; get Waverley Electrics if you can, but if not, some other kind.

Write for catalogs, prices and terms to dealers.

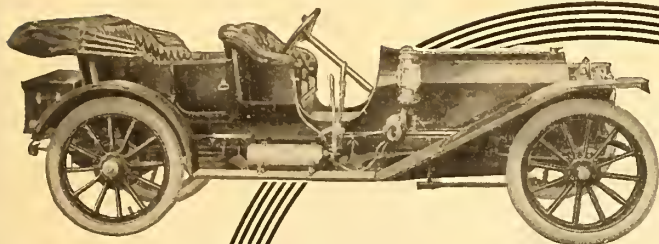

Exide, Waverley or National batteries used.

RUNABOUT

What Makes a Good Electric?

Most advertisements of electric motor cars read as if the makers were selling PARTS instead of complete cars. One maker advertises his motor, another his controller, another his handsome body designs, another the batteries he uses, and so on. Each advertises **the thing he thinks makes a good motor car**. Most of this "special feature" advertising has been brought about by the popularity of the Baker Bevel Gear Shaft Drive. Other makers have sought to put forward "counter claims," and have overlooked the essential fact that the success of the

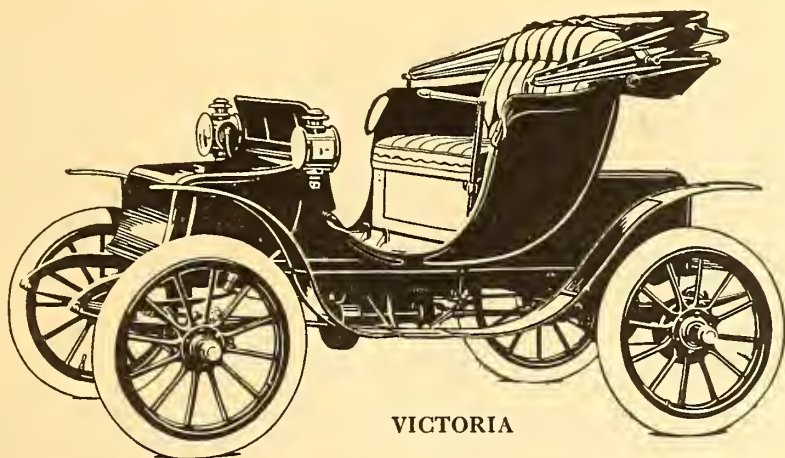

Bevel Gear Shaft Drive Baker Electrics

is not due to the **type** of the transmission. It is due to the **experience** and **ability** that have enabled the Baker designers to produce a **balanced** car in which every feature is as good as every other feature, and **better** than the same feature in any other car.

THE BAKER MOTOR is larger than in any other electric, and is more efficient in proportion to its size. It will develop more actual power with a given "draw" on the batteries than any other vehicle motor ever built. Has a large commutator; will take the heaviest overloads without sparking or burning. Will run a season without attention.

THE BAKER CONTROLLER is the patented continuous torque drum type. Its superiority is shown by the fact that it has been adopted by all electric railroads in Europe and America, superseding the knife switch type of controller which is still used on most electric motor cars.

THE BAKER TRANSMISSION is Baker Bevel Gear Shaft Drive. The only **genuine** shaft drive. The drive that has been giving satisfactory service on our larger models for nine years, and that all other makers of electrics are experimenting with **now**. The drive that makes the Baker the **ONE** electric that you can buy **this** year with the assurance that it will not be obsolete **next** year.

VICTORIA

THE BAKER SPRING SUSPENSION is an exclusive Baker feature consisting of a patented shackle in place of the rattling radius and torsion rods found in ordinary electrics. The most flexible suspension ever devised.

THE BAKER CUSHIONED STEERING CONNECTIONS are an instance of that "perfection in little things" that gives to Baker owners "all the pleasures of motoring with all the annoyances eliminated."

THE BAKER CENTER BEARING WHEELS look like others, but are built differently and ride differently. They are part of the reason why Baker Electrics go "farthest and fastest on a single charge."

THE BAKER BODIES must be seen to be appreciated; they will stand comparison with the best efforts of the foremost carriage builders; and they have that one refinement of luxury that is wanting in all other electrics—a perfect machine under them.

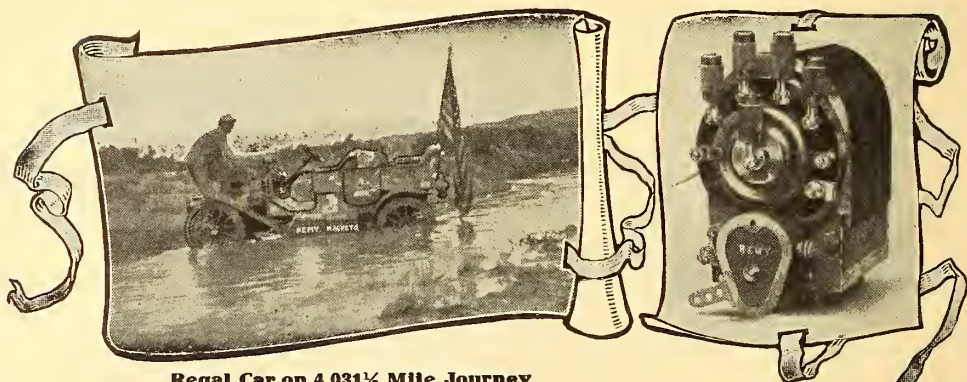

These details are not the reason for the steadily increasing popularity of the Baker Electric. They are simply the **explanation** of the reason. The reason itself is **BAKER PERFORMANCE**—superior speed, mileage, dependability, durability and easy riding qualities. The Baker Electric is the easiest car to sell because in the exacting test of year-in-and-year-out service, it has proven itself the most satisfactory car to **own**.

The demand for Shaft Drive Electrics, and the fact that no other maker will have Shaft Drive models ready before next year, makes the Baker Electric the one big opportunity for live agents in 1910. Write for Catalog and information regarding open territory.

The Oldest and Largest Manufacturers of Electric Motor Cars in the World

Regal Car on 4,031½ Mile Journey

Remy Magneto Under Water for Hours

Required no adjustment. Batteries not needed. Success of this record trip from Coast to Coast largely attributed to perfect results of Remy Magneto.

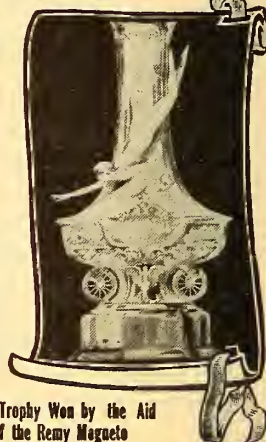

REMY ELECTRIC COMPANY, Anderson, Indiana.

Gentlemen:—Referring to the trip, made with the Regal "Plugger" from New York to San Francisco in which we lowered the touring car record from Coast to Coast. I wish to say that your magneto proved satisfactory in every way; no adjustments of any description were made and no attention paid to it whatever, and yet it never failed to give results.

We used no batteries on the entire trip, starting entirely on the magneto, and although at times the entire engine was submerged in water for hours, we noticed no effect whatever on the magneto, or the result given from the same. We attribute a great deal of our success on this trip to the fact that we had no trouble whatever with your magneto.

Wishing you every success, and trusting that should I again make such a journey I may have a car as good as the Regal "Plugger" and that it will be equipped with a Remy Magneto, I am,

Very respectfully yours, (Signed) WILLIAM H. SMITH.

Cobe Trophy Won by the Aid of the Remy Magneto

Over 100,000 Remy Magnetos Sold for 1910

Not a quantity user who helped make our immense 1909 season but that has adopted the Remy for 1910, besides many manufacturers have adopted the Remy for 1910 who formerly used other magnetos. Our factory is the largest and best equipped plant in the world devoted exclusively to magneto manufacturing. Dept. 13.

THE **SELDEN** CAR

MADE BY THE FATHER OF THEM ALL

The Selden line of cars for 1910 embraces the following models:

Model 35-T, five-passenger touring	\$2,000
Model 35-R, three-passenger roadster	2,000
Model 35-P, four-passenger torpedo tonneau	2,250
(with Bosch magneto)	
Model 35-S, seven-passenger touring	2,500
(with Bosch magneto)	
Model 35-L, six-passenger limousine	3,000

TORPEDO TONNEAU
THE REAL THING

Our 4-cylinder motor is $4\frac{1}{2} \times 5$, A. L. A. M. Rating, 36.1 H. P.; wheel base is 122 inches on the seven-passenger, 116 inches on the others; clearance, 10 inches on all; Bosch magneto, Stromberg carburetor; wheels, 36-inch on the seven-passenger 34-inch on the others. The high quality and faultless construction of every Selden car is guaranteed.

-
- ¶ "I wish to compliment you on the Selden car," writes a wealthy gentleman who is considered an expert judge, and has in his garage several other cars, each of which cost from one to three thousand dollars more than his Selden.
- ¶ "On carefully looking it over my former good opinion of it has gone up fifty per cent." Many a poorly built car, ornate with tinsel, brass and color varnish, has fooled people who looked at it ten feet away, but it takes a car like the Selden to stand close critical inspection.
- ¶ "It is the best car at anything approaching its price of which I have any knowledge." This is literally true, too.
- ¶ "In general ease of manipulation and pleasure of running, few cars can compete with it. I am particularly pleased with your system of gear shift." And so our friend runs amiably on and fulfils his self-imposed duty (evidently a pleasure to him) of letting us know how well he likes his car. We are very glad to have his good opinion, and to know he is commending the Selden car to his friends. This is only one of many incidents taking place all over the country, every day, every time a new Selden car stirs a community. It takes quality in goods to maintain a reputation of this kind.

WELL BALANCED COES

¶ The **Coes Wrench** is offered to the motorist who has bought and paid for experience, and who wants to make up for lost time by making sure of the wisdom of future investments when making purchases of anything for his car. The **Coes Wrench** is designed expressly to set a new standard in accuracy, finish, and detail refinement, and to make good with the man who knows.

IF EQUIPPED WITH WRENCH

¶ If you would enjoy that "PERFECTLY BALANCED" feeling,—thoroughly confident that you are prepared to face even the most trying ordeal with impunity,—head your "TOOLS NEEDED" List with the "Coes Wrench,"—the wrench that bears the star trade mark. This means that seventy years of experience have contributed to make the Coes the highly satisfactory tool it is today.

THE FULLER

A Representative Type of America's Best Production

Pneumatic and solid tire cars at prices ranging from \$775.00 to \$1165.00
Two and four-cylinder cars, both pleasure and commercial.

Model "30" Roadster

Body—Roadster design, with single rumble seat.

Motor—Four-cylinder, vertical, cast en bloc, 3½-inch bore, 4½-inch stroke, 25-30 horsepower. Cylinders, piston, piston rings, piston pins, crank shaft, cam shaft and valve stems are ground. The motor is water cooled, circulation by the thermo-syphon system. Lubrication by circulating oil system, operated by plunger pump driven by cam. Crank case is divided so as to maintain the same level of oil for each cylinder.

Transmission—Silent planetary type, two speeds forward and reverse, multiple disc clutch.

Motor Control—Spark and throttle levers on steering wheel.

Drive—Shaft drive with bevel gear.

Ignition—Jump spark, dry cells.

Carburetor—Float feed type.

Brakes—External hub brakes on rear wheels opened by foot pedal. Expanding internal hub brakes operated by hand lever.

Weight—1800 lbs.

Wheel Base—100 inches.

Tread—56 inches.

Frame—Pressed steel.

Front Axle—"I" beam.

Springs—Full elliptic front and rear.

Gasoline Capacity—Twelve gallons.

Tires—30x3½ inches.

Equipment—Side oil lamps, tail lamp, horn, jack, tools, tire repair kit, pump and top irons.

Price, \$1065.00. With Touring Body, \$1165.00

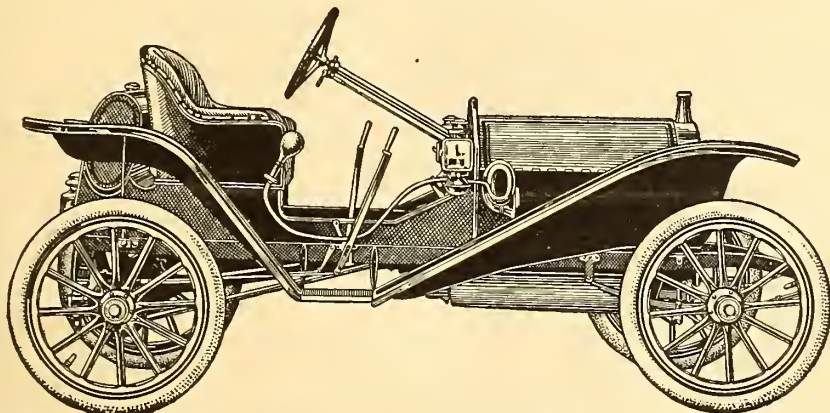

Style, simplicity, efficiency, reliability and quietness are the conspicuous features. If you are in search of these qualities, any comparison you may make **MUST** confirm the fact that the "Fuller" is the greatest value the automobile world affords.

Investigate—find out for yourself. Send for catalog.

Hupmobile

\$750

(F. O. B. Detroit)

When the Hupmobile made its first appearance a year ago the industry and the motor buying public gasped in amazement.

But haste was made to bestow upon this \$750 car rank with the finest and costliest of the larger cars.

And this rank belonged rightfully to the Hupmobile, because in motor design, in the steels and other materials employed, in fineness of measurement and manufacturing standards, it matched these larger cars part for part.

All through the year that has intervened the Hupmobile, in the hands of several thousand owners, has been emphasizing and justifying this equality in power, silence, quality of service—in all save carrying capacity.

The latest Hupmobile achievement was one that will go down in the country's motoring annals as noteworthy.

This was the trip of three cars from Detroit

to New York, through the winter's deepest snow and bitterest cold.

From December 27th to January 6th these three cars broke trail through a thousand miles of snow that rendered even huge railroad locomotives powerless.

Never for a moment did they falter; and all reached New York in "the pink of condition"—ready to be turned back for the thousand-mile stretch to Detroit.

The trip was an object lesson—planned and successfully completed merely to demonstrate anew the Hupmobile's fitness for going under conditions in which many larger cars would be utterly helpless.

It has proved again—if more proof were needed—that the Hupmobile is as staunch and true and fine as the staunchest and finest large car built.

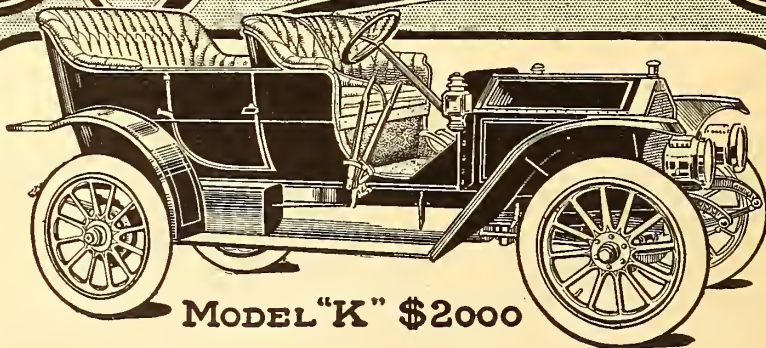

You should not ignore the opportunity to see and test the Hupmobile, and to send for the literature.

Hupp Motor Car Co., Dept. A, Detroit, Michigan

Pullman

MODEL "K" \$2000

"The Car that Continuously Lives up to Its Name"

PULLMAN Automobiles are free from motor troubles, because their motors have been built fundamentally right for six years. They are long stroke motors and develop considerable power at slow speeds.

The motors in the 1910 models are larger in accordance with the liberal policy of the PULLMAN Company to provide the maximum power consistent with perfect mechanical balance and reasonable weight of car. We can beat any stock car of equal rating, power for power.

The transmissions of PULLMAN Automobiles, and other vital parts, are constructed of Chrome-Vanadium steel—the great "Anti-Fatigue Steel," which insures long life and freedom from breakdowns.

"Not Only the Best at the Price, But the Best at Any Price"

Great *Chadwick* Six

is justly termed the Car of Exclusiveness, for there are more exclusive and meritorious mechanical features incorporated in the CHADWICK than in any automobile built in either America or Europe.

THE 1910 CHADWICK TOURING CAR. PRICE, \$5500

Runabouts Tourabouts Landaulets
Limousines

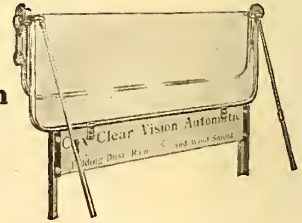

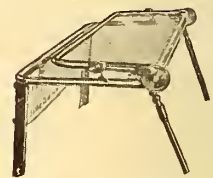

Another exclusive and meritorious feature of the CHADWICK is the internal expanding Clutch, which is entirely different from other Clutches of this type. The wearing parts may be removed in two or three minutes without disturbing the adjustment. In action it is soft and silent and free from all jerking. A slight foot pressure controls the clutch absolutely. Send for Catalog, explaining this and numerous other exclusive features of the CHADWICK.

Genuine Sapphire Jewels.
100,000-mile odometer, 4-inch dial,
electric light.
Price, \$10.00

All agree it is the handsomest yet produced; more compact, one-third lighter, with beautiful lines, it is indeed an ornament. Inside, the mechanism is simplified, while the workmanship and finish speak volumes as to the equipment and preparation necessary to produce it.

Dealers Everywhere Are Enthusiastic

Stewart & Clark Manufacturing Co.

500 Diversey Boulevard, Chicago, U. S. A.

Every Tire is Oversize

Each Goodyear Detachable Auto Tire is considerably larger than its rating. So in Goodyear Tires you get extra size plus extra quality. Larger tires mean increased mileage, less punctures and blow-outs and more satisfaction.

The Landslide to Goodyears

Because of this oversize feature and the other Trouble-Saving and Extra-Service-Giving features, to be found only in Goodyear Tires, we have been awarded contracts from 44 Automobile Manufacturers to equip 36% of the estimated 150,000 cars to be made in 1910. The contracts total up to the greatest number of tires ever ordered from a single tire maker in the history of the automobile industry.

See what this oversize value amounts to in a 4-inch tire. Big extra mileage.

Other Points of Merit

Goodyear Auto Tires are **guaranteed** against Rim-Cutting, Creeping and Coming Off. The outer sides of the tire are straight, permitting the use of a rim with a wide rounding lip where it holds the tire in place. There are no sharp edges—nothing to cause a rim-cut even though the tire be ridden flat.

64 tapes of piano wire are vulcanized into the base of each tire (see white spots in section). These contract with inflation until the tire grips the rim so tightly that it can never creep, even though but partially inflated. No tire bolts need be used. Goodyear Tires are supreme in resiliency, and are easiest removed and replaced.

GOOD YEAR TIRES

These are but a few of the exclusive patented features of Goodyear Tires. They save trouble and expense and insure such unheard-of mileage that users who have once ridden Goodyear Tires can never be induced to use any other kind.

At the Grand Central Palace Show Goodyear Tires led in number of American-made pleasure cars equipped by over 40%. Send for our valuable book, "How to Select an Auto Tire." It's brimful of "Tire Sense" and is free for the asking.

More
Power

THE "MAXIMUS" TIMER

Less Plug
Trouble

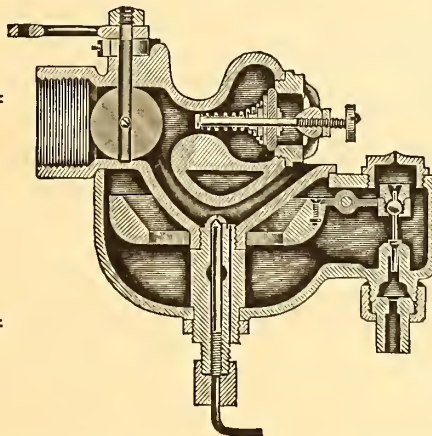

Less Coil
Trouble

We know we have the best timer made, and that it will improve the speed, power and smooth-running qualities of your motor; if it does not, your money will be refunded without argument. 85 per cent. of 1908 model machines are equipped with roller type timers. The Maximus is constructed on the principle of the best of these, but has several improved features that overcome the weak points of roller-type timers, and make the motor mote. A special Maximus, designed to be easily applied to 2-cylinder Buick and Models M and N Ford is now ready for delivery.

The unprecedented success of the Maximus Timer encouraged us to experiment in carburetion, and, after careful testing and improving, we are now ready to offer

The MAXIMUS CARBURETOR

Simplified
Carburetion

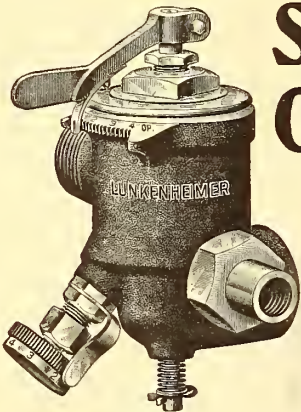

List Price

1-inch Size, \$11.00
1½-inch Size, \$12.00

The principal feature is the improved method of applying both the constant and compensating air. The small opening for the constant air creates a strong vacuum on the nozzle, resulting in throttling to very slow speed and ease in starting. The method of applying the compensating air does away with the sudden increased rush of air on the spray nozzle at change of throttle.

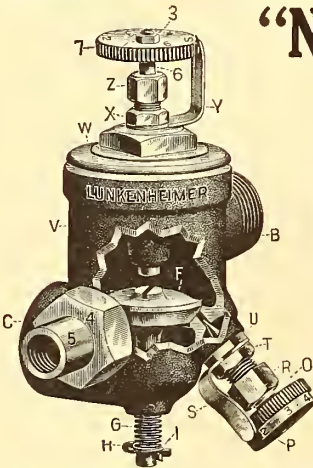

MADE BY

The BECKLEY RALSTON CO., 80-82-84 Michigan Avenue, CHICAGO, ILL.

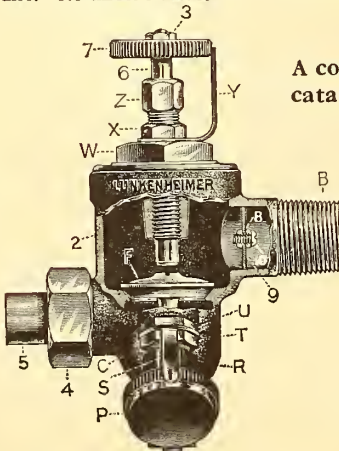

TYPE A

With sliding throttle controlling the outlet passage. No regulation for lift of disc.

TYPE B

With regulation for lift of disc. No throttle valve.

TYPE C

With means for regulating lift of disc and butterfly valve in outlet passage.

Successful Where Others Have Failed

Gasoline engines that could not be made to work satisfactorily have given results when equipped with

Lunkenheim "Nonpareil" Generator Valves

The material is of the very highest grade, and the discs are made of an extremely strong bronze composition, the tensile strength being about 50,000 pounds per square inch.

Lunkenheim "Nonpareil" Generator valves are absolutely reliable, exceptionally durable and will positively give satisfactory results if properly connected and regulated.

They are made in a variety of styles and in sizes from $\frac{1}{2}$ to 2 inches inclusive.

Your local dealer can supply them; if not, write us.

A copy of our automobile and motor boat specialty catalogue will be sent upon request. It's free.

The IDEAL AUTO LIGHTER

1. The IDEAL lights your gas lamps without stopping or alighting from your car.

2. It will save 25 per cent. of your gas and will pay for itself in less than one season's use.

3. It can be installed on the dash or under the hood of any car by the owner or driver and at a nominal expense.

4. It is as handsome and ornamental as a speedometer or clock.

5. Your present ignition system will operate it, as it works equally well on magneto, storage battery or dry cells.

6. It is utterly impossible for you to have an explosion of gas in your headlights, as the turning on of gas and the lighting of both lamps is done simultaneously and with ONE movement of the controller handle.

7. Lights extinguished by closing valve.

8. Flow of gas and lighting of head-lights

is controlled entirely by THE IDEAL, just as long as there is gas in tank and juice in ignition system.

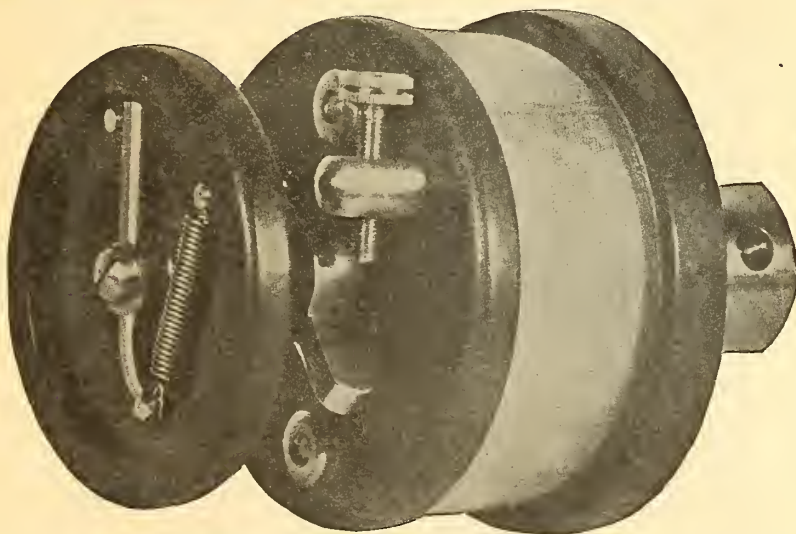

9. The height of flame in lamps is controlled by a quick-acting and positive hand adjustment screw; no tools necessary.

10. THE IDEAL is guaranteed for one year, when properly installed, to do all we claim for it, or money refunded.

11. THE IDEAL is a perfect, sure, automatic-lighter for Automobile Head lights and Gas Lamps.

12. It is a scientific combination of mechanical and electrical principles so nicely harmonized and perfected, that its perfect construction, simplicity, usefulness and economy of gas is at once recognized.

13. THE IDEAL is built in two types, "A" \$15 00. "AA" \$25.00, but both are sold under the same guarantee, the latter being more highly finished.

The IDEAL AUTO LIGHTER is not an experiment, nor a toy, but a remarkable, practical, scientific success.

Orders for 300 Ideal Auto Lighters taken on the opening day of the Buffalo Show, when it was shown for the first time in that city.

Let us tell you more about it. We will be pleased to send information

LUBRICATION

¶ Every owner of an automobile appreciates the necessity of supplying his car with the best oil.

¶ Not one automobile owner in ten thousand knows anything at all about oil.

¶ As every manufacturer of oil claims his own to be the best, the subject is apt to appear confusing. It is the reverse. It is simple.

¶ A cylinder oil is required to do two things: (1) lubricate and (2) burn up cleanly. ¶ All first-class oils will lubricate, but very few will burn up cleanly—they contain too much carbon. Carbon is removed from oil by filtration, and the more completely an oil has been filtered the cleaner it will burn.

“HAVOLINE” OIL

is the only COMPLETELY filtered oil made. That is why it is the best and that is why

DIETZ - RUSHMORE DIETZ - RUSHMORE DIETZ - RUSHMORE

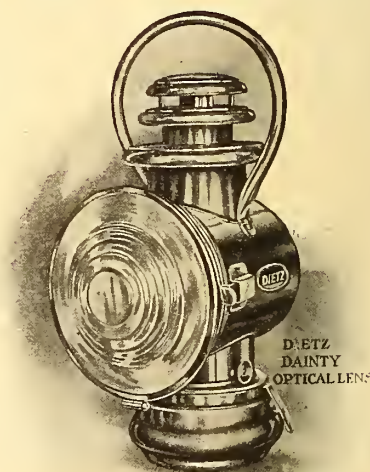

L A M P S T H A T

The Name "Dietz"

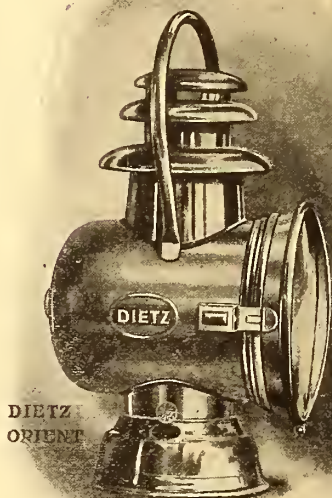

on an oil lamp stands not only for lighting efficiency, symmetry, and up-to-date design, but for rigid construction and ability to withstand the severe vibrations of automobile service.

Every motorist has seen (and heard) oil lamps which rattled loose in a season or two, and which thereafter no amount of soldering could make permanently snug. Such lamps are easy to sell to the novice, because they look much like the "real thing;" but they are a poor basis for a permanent reputation.

Dietz-Rushmore oil lamps are the product of a business that has been growing for seventy years, and that now owns two big factories with nearly 5 acres of floor space devoted to oil lamps and lanterns alone. *We could not afford* to put out lamps that were not the very best of their kind.

UNTIL NOW—

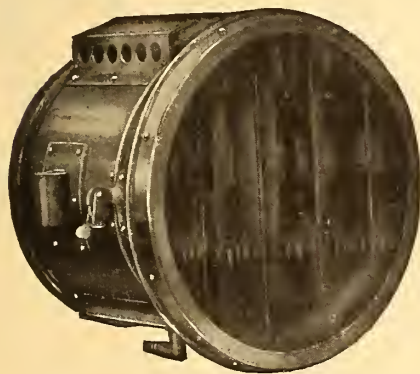

when a motorist wanted steady illumination at night he was compelled either to resort to inefficient, antiquated lamps, extravagantly wasteful of gas—

or to multiply the sources of light by adding a searchlight to the regular headlight equipment.

For a long range there is nothing like a searchlight, and we always recommend it. But the man who does not want to drive fast can now get perfectly steady light from the headlights alone, with no waste of gas, by using the new

Regular Headlight with flare front.
Sizes 6 to 10 in.

Multiplex Headlight with flare front.
Sizes 6 to 10 in.

Dietz - Rushmore Multiplex

lens mirror lamps. Each lamp gives, instead of a single flickering beam, from four to six *overlapping* beams. Flickering of the flame simply transfers light from one beam to some other, and the total illumination is not affected. Price is only a little higher than the regular styles. Send a postal for catalog.

DIETZ - RUSHMORE DIETZ - RUSHMORE DIETZ - RUSHMORE

The Best Accident Insurance

A large percentage of motor mishaps at night are due to faulty lamps. The lamp either fails at a critical moment or there is a wavering or other fault in the flame which misleads the driver.

Solar Torpedo Headlight

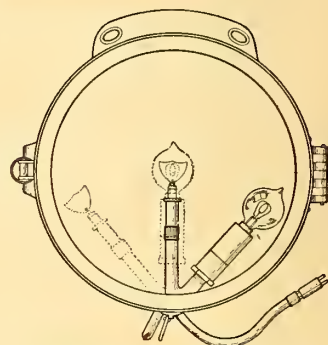

That's true of ordinary lamps. It is not true of

SOLAR LAMPS

Solar Lamps are the best insurance you can carry against defective roads, converging traffic, or other sources of accident at night. Solar Headlights throw a stronger

beam, and throw it farther ahead than any other lamps made. They are constructed of heavy gauge drawn brass, with few parts, and those few assembled by interior screws, rendering cleaning easy. They are equipped with the special exclusive Solar B. & L. short focus lead glass lens mirror, the most efficient known.

Every Solar Lamp has a model number stamped on it, by reference to which it is easy to replace any part desired; all parts are interchangeable. They are absolutely reliable and dependable at all times. Solar side and tail lights are equally dependable, and of the same high quality. Motorists generally are coming to insist that their cars be equipped with **Solar Lamps or none.** Catalog telling all about them mailed on request.

HARD TO BEAT

That is what every user of NON-GRAN says, and there are reasons.

How much annoyance is caused during the course of a year by faulty bearings and bushings in connection with your repair business?

You can put a stop to this trouble by using NON-GRAN High Speed No. 8 Bronze.

NON-GRAN is the smoothest running bearing metal ever put on the market.

Its lasting qualities are phenomenal.

NON-GRAN saves itself and saves the parts with which it comes in contact, and it saves worry for you and your customer.

Automobile, motor cycle and motor boat manufacturers have adopted NON-GRAN exclusively on account of its uniform density and smooth running qualities which are the factors in long life and slow wear.

NON-GRAN Bronze in special repair shop bars, either solid or cored, furnishes a speedy and easy method of replacing any worn bearings.

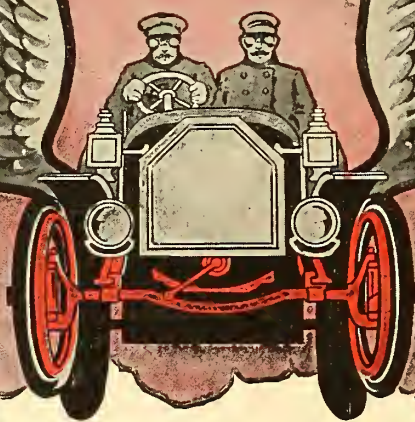

Send for booklet describing NON-GRAN Cored-Bars. It gives complete list of sizes, dealers' discounts, etc. Be sure and send us your jobber's name if he cannot supply you with NON-GRAN.

We Want a Slogan

for the

"STAPLEY" TIRE PUMP

\$100 in Gold for the Best

We will pay \$100 in gold for an effective Slogan to use when advertising the "Stapley" Compound Tire Pump. We want a Slogan that will tell what the "Stapley" is and what it does in as few words as possible. We have a Slogan now—"Stapley, the Time and Trouble-Saving Pump"—but we want a better one. Can you supply it? Submit as many Slogans as you desire. But first you must know the facts about the "Stapley." Here they are.

The "Stapley" Compound Tire Pump is very powerful. Inflates a tire in less time, with less trouble than any other. Has no complicated parts. Nothing to get out of order. Will not rust—seamless brass tube cylinders—not steel or cheap metal. Pressure gauge quickly and easily read. Automatic valve opener allows tire valve to close without ANY loss of air from tire. No leaky joints—pump cylinder is fastened to the foot base in such a manner that it makes an absolutely non-leakable joint—positively will not leak. Every "Stapley" guaranteed—buy a "Stapley today."

Bridgeport Brass Company

106 Crescent Ave.

Bridgeport :: :: Conn.

THE NAME STAPLEY
APPEARS HERE
LOOK FOR IT

Price, without gauge \$5.00
Price with gauge 7.00

If your dealer doesn't carry the "Stapley" we will send it prepaid in the United States on receipt of price.

Write Slogan on a postal card, in a letter, or in any form you desire, but we suggest using the coupon. If you drive a car please mention the fact. The contest closes May 1st. Judges are: J. H. Hildreth, of Motor; C. A. Musselman, of the Cycle and Automobile Trade Journal and H. H. Greene of this Company. Their decision is final.

Winner of the Slogan Contest and the winning Slogan will be published in these columns when the judges have rendered their decision.

Francisco, and Akron, O.

Everyman's

Think of it---\$485 for the best-built, most thoroughly proven, easiest riding, most economical, handiest small automobile in the world!

The New Brush Runabout not only outclasses all small cars, but is far ahead of its own previous high standard.

Even though we have learned the lessons all manufacturers have to learn by experience—even though we have manufacturing facilities as nearly perfect as money and brains can make them—still we could not build a car of the quality of the 1910 Brush if we merely imitated the big cars with all their complicated parts and all parts necessarily smaller and weaker.

Here's where the genius of the designer counts

The Brush has always been and still is the only real Runabout built in America.

The new 1910 Brush is not a designer's dream but the result of years of experience and a knowledge acquired by manufacturing 3,000 Brushes that are in daily use. It is a car which with one chassis adapts itself perfectly by change of bodies to a hundred different uses.

It is a car new in power, smoothness, speed and looks, but built on proven principles by an organization already perfected.

The Brush has the fewest possible parts, but they are of sufficient size and strength to stand the hardest knocks.

Simplicity makes it possible to build the car right and still sell it at this wonderful price.

As for reliability, there is no comparison between the Brush and any of the small imitations of larger multi-cylinder cars.

With the new Brush you get single-cylinder simplicity, reliability, light weight, low gasoline and oil consumption, low tire expense with four-cylinder power and smoothness.

Its new balanced motor runs as quietly as a four-cylinder and is as flexible. Its power is astonishing.

The most wonderful improvement in Motor Car Construction in years.

While the balanced motor is the most remarkable feature of the 1910 Brush, we have made numerous other improvements and refinements.

Here are some of them: wheel-base lengthened 6 inches; more graceful and rakish lines; Mercedes type radiator; new selective control; universal coupling-shaft; improved dust-proof commutator; multiple disc low and reverse clutches; transmission control levers entirely housed and oil-tight; more quiet muffler.

In our magnificent new plant we make every part of the Brush except the wheels, tires and electric equipment. The Brush buyer pays no middleman's or parts-maker's profit.

Car at Last 1910 BRUSH

\$485⁰⁰

Read the Specifications

Motor—10 Horse-Power, *balanced* single cylinder, four-cycle, vertical, 4" x 5", water-cooled; located in front under hood; every part instantly accessible; three point suspension.

Balancing—After balancing by the usual counter-weights, one extra loaded balance gear, driven by a crankshaft gear, is applied, the result of which is to take out *all* of the vibration due to reciprocating weight and in addition *most* (or at times *all*) of the torque vibration—theoretically *in better balance than a four-cylinder motor*.

Transmission—Internal gear type, perfectly quiet; entirely enclosed and absolutely oil-tight.

Cooling—Mercedes type radiator, on Briseos thermo syphon system, eliminating pump.

Drive—Double side chains to rear wheels.

Control—Single hand-lever of selective action for all speeds; spark and throttle under steering-wheel; foot-pedal releases clutch without touching the hand-lever, and also applies the brake. This clutch released by the foot is one of the fine features of the Brush and is found on no other low-priced car.

Steering Gear—Another exceptional feature; internal reducing spur gear, slow and powerful at straight-ahead and accelerating as the wheel turns, entirely enclosed and oil-tight.

Axles and Frames—Oil-treated, selected wood, oak, hickory and maple; wonderful for strength, durability and lightness.

Springs—Spiral, located at extreme four corners; absolutely the easiest riding springs on any car and mechanically impossible to break.

Brakes—Internal expanding in rear sprocket hubs.

Wheels—Artillery, with 28" x 3" pneumatic tires.

Wheel Base—80 inches.

Tread—56". For Southern trade, 60".

Equipment—Tools, tire kit, 3 oil lamps, horn.

Color—Maroon, except coupe.

Body—Divided seat; trimmed in high-grade leather. Platform on rear, as pictured on opposite page, with equipment, \$485.00.

Six special bodies, furnished on order, at extra prices, as follows: rear platform with steel tool box; rear compartment with removable steel deck; single or double rumble with wooden tool box; racer type; coups.

Speed—35 miles an hour, except racer type which has especial gearing.

HEINZE

Why Our Magneto is Superior to all Others

Because We get over 100% more electricity per pound of magnet steel than is possible in any other magneto.

Because We use the highest grade annular ball bearings which are self-lubricating, requiring no attention.

They are superior to the separable or common bearings.

Because The common bearings are continually getting out of alignment, run dry, thereby causing excessive friction, wear off and in a short time the armature will rub against the pole pieces of the field and your magneto is ruined.

Our Armature Advance is a Decided Improvement

Because We advance the peak of the wave rather than advance the spark by the make and break. The latter while producing an earlier spark the amount which this tends to speed up the engine is neutralized by the weaker spark which reduces the speed of the engine and the result is but a very slight advance in engine speed, whereas, by our armature advance we get the maximum efficiency at any speed.

Get the Heinze Magneto

Because The foremost ignition experts in this country have decided in its favor, and lastly

Because We furnish a positive guarantee that it will make good or refund the purchase price.

Heinze Electric Company, Lowell, Massachusetts

The Simplicity of the Atwater Kent Unisparker

Type "B"

Is not limited to its mechanical construction.
It extends to its installation, adjustment and care.

THE UNISPARKER is a short-cut to ignition reliability—a scientific system of using dry batteries for current, so simplified and refined that it costs no more than ordinary coils and timer, yet it runs

with the unfailing, unostentatious regularity of a good watch.

Its principle is to produce one instantaneous contact per explosion. The duration of contact is not affected by the speed and is adjustable to suit the freshness of the battery.

The UNISPARKER takes the place of the ordinary timer and distributor, and it is attached in the same way. There is nothing to adjust save the contact screw, and that is not delicate; it is set with the engine running, and given a quarter turn every 500 to 1000 miles. Nothing but the contacts can wear out; they last 10,000 miles and cost \$1.25 to renew. A drop of oil every 500 miles and battery renewal every 2000 miles complete the list of attentions required.

For the rest—nothing—absolutely nothing. The UNISPARKER cannot wear out or forget to operate. When the battery is nearly spent, it warns of the fact by slight misfiring. A half turn of the contact screw makes it good for a hundred miles further. You cannot be stranded by unforeseen loss of current.

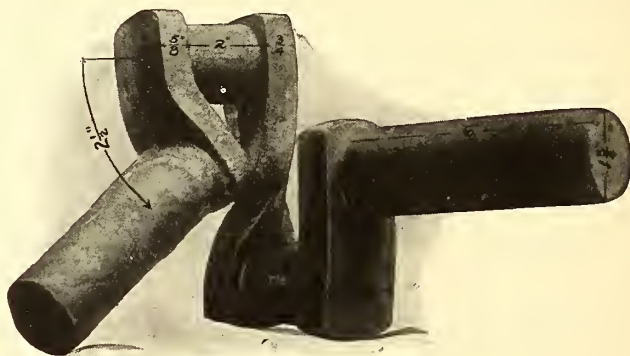

No other ignition system gives nearly the results of the UNISPARKER at the UNISPARKER'S price.

Atwater Kent Manufacturing Works

41 North Sixth Street, Philadelphia, Pa.

This type "A" Vanadium Steel Crank Shaft stood repeated blows of 2500 pounds under a steam hammer with no sign of fracture at any point. A .35 carbon steel of excellent quality failed under the same test.

VANADIUM

The superiority of Vanadium Steels rests in their ability to meet the most trying kinds of service without deteriorating.

The conditions under which this test was made would never occur in actual service. Due to shock and impact, it is much more severe than one made under the gradual pressure of a hydraulic press.

The tensile strength of this shaft is 123,070 pounds to the square inch. Its elastic limit is 106,233 pounds. In spite of these figures the steel is easily machined, ductile, and works comparably with soft open hearth steel.

Other types of Vanadium Steels are made for gears, axles, springs, cutting tools, and forgings. Vanadium is also applied to iron and steel castings without special equipment. Booklets on request.

Just out of the Band Box

A "BUCKEYE CLEANSER" bath always gives your car that spick and span "just-out-of-the-band-box" appearance that is the delight of every car owner.

Preserves the Finish

It really does. It's these strong alkaline soaps that kill the finish of your car. Be sure you're getting a strictly neutral soap. You can be positive of it when you buy "BUCKEYE." It's as harmless as clear water—not even a trace of alkali in it.

Restores the Lustre

When you come in from a run and your car is dusty and muddy—full of dirt, grease or grime—give it a "BUCKEYE" bath and see how quickly and nicely it restores the lustre. It makes the car look like new and the beauty of it is—you can wash the car as long as the car lasts and "BUCKEYE Cleanser" will never injure the finish.

Sold in 6 Different Packages

Barrels,	450 lbs.	25 lb. pails
Half bbls.,	225 "	10 "
Kegs, -	125 "	5 "

To the Car Owner

All we ask of you is to give "BUCKEYE Cleanser" a good trial. Ask your supply dealer for "BUCKEYE" and don't take a substitute. If your dealer doesn't carry "BUCKEYE" in stock, write us—we'll see that you are supplied by the nearest dealer. Write for sample anyway—we want you to try it.

To Dealers and Garages

Write for samples, prices, nearest warehouse and a special proposition we want to make you.

This Is Equipping Season STANDARD

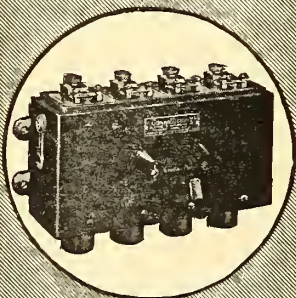

Surely you need one or all of the famous accessories illustrated on this page

JONES SPEEDOMETER

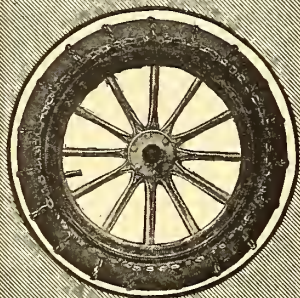

If you want real, permanent accuracy you've simply got to have a Jones. Why? Because the Jones is absolutely "Geared to the Truth." Other speedometers depend on a magnet to pull the indicating hand around to the point that shows the speed. You know how delicate and uncertain a magnet is. With the Jones the speed is transmitted from wheel to dial by metal-to-metal shaft and gear connection that can't vary—can't weaken. The Jones is absolutely accurate.

The Jones Yobel—the best automobile signal in the world.

CONNECTICUT IGNITION

If the word "Connecticut" appears on any part of your ignition apparatus you can rest assured that you have the best that the industry produces. Ask any experienced motorist, dealer, manufacturer, what ignition apparatus is best and you'll get this answer—"Connecticut." The best costs no more than the unreliable kind—not a bit—so when you want a coil, a timer, a steering wheel switch, a volt-meter, terminals, or anything in the ignition line, ask for "Connecticut"—your ignition troubles vanish. A strong claim, but true.

WEED ANTI-SKID CHAINS

Of course, everybody knows that Weed Chains are the only real, practical anti-skidding device. No question about that—but there is a question about the inefficient imitation of the famous Weed Chains now on the market. There's only one way for you to protect yourself from the imitation—insist upon getting **Brass Plated Cross Chains** when you ask for "Weeds." A further protection is the word "Weed" stamped in the hooks. Size is also stamped on the connecting hooks, making identification easy. Buy "Weeds" to-day. You've got to have them.

UNITED MANUFACTURERS, 76th St. and Broadway, New York

Now Is the Time EQUIPMENT

To bring your car up to its maximum efficiency use these products.

MoToRoL

MoToRoL for cylinder lubrication had to be a better lubricant than any other oil to satisfy motorists who demand the Non-Fluid Oil Standard of Economy and Efficiency. We examined other oils and only produced MoToRoL after we had discovered a means of making a better oil by eliminating carbon without excess filtration; by securing proper balance between flash point, cold test and viscosity; by eliminating all acid ordinarily present in oils; and by testing our product in actual service. If you use MoToRoL you get more power, more speed, and more miles from a given quantity of gasoline and more miles from every gallon of oil.

NON-FLUID OILS

are best for your car because they keep it at its best longest, at the least cost. The manufacturers of the Sharp-Arrow ran a demonstrating car 20,000 miles and, (they said) 'Without showing any wear in those parts where Non-Fluid Oil was used.' Which adds one more car manufacturer to a list of over sixty who use Non-Fluid Oil and recommend it to their customers because it lubricates most at least cost. Every dollar spent for Non-Fluid Oil saves five for repairs. When you ask for it, stick to your request. Packed in orange-colored cans bearing this trade mark

NON-FLUID OILS

MEZGER AUTOMATIC WINDSHIELD

Up or down in a jiffy. Don't stop your car. No set-screws to tinker with. You simply lift it up and it locks itself upright. A slight pull with one hand puts it down against the rubber bumpers where it rests—firm, noiseless. It is always ready and always works. The Mezger Automatic is made of finest polished French plate glass and brass tubing. The glass rests against heavy piano felt inside a bronze channel—free from the vibrating and jolting of the car.

Soot-Proof Spark Plug. You can't short-circuit a Soot-Proof.

This \$1,800 Car Has Accomplished Wonders!

The great reserve power and perfect performance of the 1910 Model L. Midland, under conditions of the most extreme severity, made it the wonder of the Munsey Reliability Run and the Philadelphia-Seattle Relay Race.

The "Midland" System of Unit Power Plant with its three point suspension is one of the main reasons for the Midland's superiority. It positively eliminates all undue friction from the twisting of the frame on rough or uneven roads and insures the perfect alignment of the driving elements against every strain.

The 40 H. P.

MIDLAND

1910 Model L

Motor:—40 Horse Power, four cylinders, $4\frac{1}{2}$ " x 5", cast double. "T" head type with large valves on opposite sides operated by solid drop forged cam-shafts.

Lubrication:—Lubrication by shaft driven gear-pump insuring positive lubrication.

Transmission:—Transmission fitted with Timken Roller Bearings and is oil-tight and dust proof. Gives three speeds forward and reverse.

Axles:—Straight line shaft-drive to full floating axle. Imported extra large balls used throughout front and rear axles and wheels.

Tires:—Extra quality, 34" x 4" tires, wheel base 115".

Springs:—Rear springs, $\frac{3}{4}$ elliptic 44 inches long. Front springs semi-elliptic, 40 inches long.

Brakes:—Two complete sets brakes, internal acting, and fully protected from dust and mud.

Ignition:—Remy system of dual ignition. (Includes batteries.)

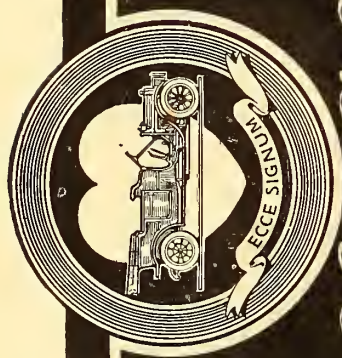

Body Styles:—The 1910 Model "L" Midland can be furnished with either a five passenger touring car body, or a four passenger toy tonneau—both of straight line design and richly finished. A two passenger roadster with racy type of body. Gasoline tank of exceptional size and design is also furnished.

Color:—Standard color for all models is Brewster green with straw color running gear.

Agents wanted for a perfectly designed---superbly constructed
Commercial Truck. Write to the

AMERICAN MOTOR TRUCK COMPANY
306 TOLSON BUILDING, DETROIT, MICH., U. S. A.

Our Many Claims of Superiority over all other makes of Heavy Trucks

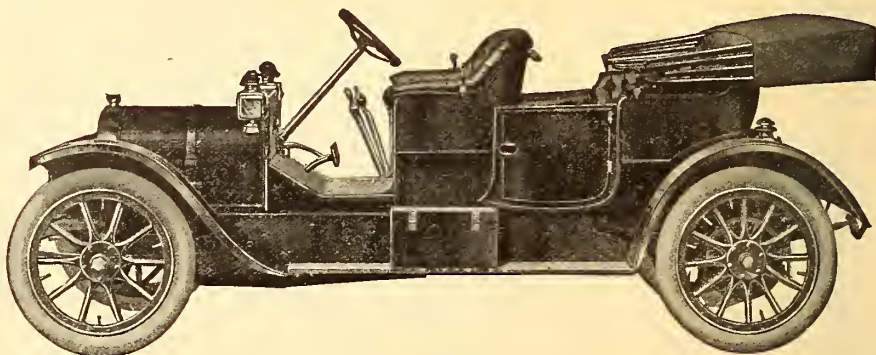

- 1st. Our method of power application enables us to overcome the torsion of the Motor, which always tends to produce a tangential strain, thereby furnishing sufficient adhesion to drive ahead without unduly absorbing power in overcoming the tendency to slip on an imperfectly resistance Road Bed.
- 2nd. Our Front and Rear Axles are duplicates of each other and are interchangeable.
- 3rd. The entire force exerted by the Motor, is equally distributed to all four wheels, leaving no friction resistance on the wheel bearings, except that caused by gravitation.
- 4th. We can run our car right or left, oblique forward or backward by manipulation of steering wheels.
- 5th. Our Five Ton Truck can handle one Ton just as cheap as any one Ton capacity Truck on the market, and can then handle Five Tons cheaper than any other Truck on the market.
- 6th. The driving of Front and Rear wheels effects over 50% saving in the wear and tear of tires, all the friction being eliminated from them. That means something.
- 7th. The principal feature of our invention resides in the means whereby the driving connection can be uniformly maintained at the same time during all the various shifting movements incident to ordinary service.
- 8th. Our worm gear and nut feed on the hounds making the shifting of the wheels impossible when coming in contact with stone, deep ruts or any foreign substance.
- 9th. The Patent "Universal Joint," the main object of our improved driving and steering mechanism, so constructed and arranged that the Axles can readily and conveniently be shifted in turning without interfering in the least with the alignment of the driving sprockets.
- 10th. Our Motor, stationed central of the wheel base, we drive direct to Front and Rear Axles, doing away with all jack shafts or sliding gear transmissions, which is an extra cost to keep up and something the majority of other Trucks have to have.
- 11th. All four wheels are interchangeable. Front and Rear hubs are made of Crucible Cast Steel, bored and reamed to one standard size, in this case an extra wheel would save all loss of time in case of any accident, as the wheels can be easily removed and replaced by others.
- 12th. Our Platform Gears are interchangeable, Front and Rear all being exact duplicates.
- 13th. Our patent King Roller Bearing Circles enable us to turn both Rear and Front Wheels 35 degrees each way, making it possible to turn our trucks round in half the space required by other makes of Trucks.
- 14th. But the one crowning point of our Truck over all others is on the ice and in the deep snow, there being no friction resistance and all wheels driving we are able to handle just as large a load in the winter without difficulty as in the summer.

The American Motor Truck Company, 306 Tolsma Bldg., Detroit, Mich., U. S. A.

The White Gasoline Car

is equipped with a

Four-Speed Transmission

DO not be satisfied with anything less than a four-speed transmission. Soon or later, it will entirely supplant the three-speed transmission, just as the latter took the place of the two-speed transmission.

The four-speed transmission is used in practically all cars selling at \$4000 and over, but no other car selling at the White price—\$2000—is thus equipped. The White is built with a four-speed transmission, because it makes it a better car than if only a three-speed transmission were used. This is typical of the **QUALITY** of every detail of the White car—for example, a “honey comb” radiator is used instead of the cheaper and less efficient tubular radiator; the frame is of crucible chrome-nickel steel, instead of the usual carbon steel; the leather in the upholstery is hand-buffed, instead of the cheaper and almost universally used machine-buffed leather; forty-two days are devoted to painting the car, instead of one-third or one fourth of that time; etc., etc.

Write for a copy of our catalog, or, better yet, call on our nearest dealer, so that you may learn the many respects in which the construction of the White is better than ever before found in a car of moderate price.

SILENT AS THE FOOT OF TIME

THE whole world is fast coming to know that the Mitchell is the low-cost, high-class car. America, France, England, Germany, Russia, Spain—each contributes its share of praise for Mitchell beauty and construction—and patronage follows praise.

There is not a cheap feature about the Mitchell, except its price, and it has everything that makes an automobile admired and desired.

It is low-cost, because it is not priced on the hysterical basis, and because our facilities are so complete that we can keep down the cost of construction to where it belongs.

It is high-class because it is made of the same highest-class materials that the world's highest priced cars are made of, and quality is never sacrificed for quantity.

It is beautifully designed, finished and equipped. It is rakish, smart, refined, solid, comfortable and luxurious. It is silent in its running—absolutely silent—and it will last and serve you faithfully for years to come.

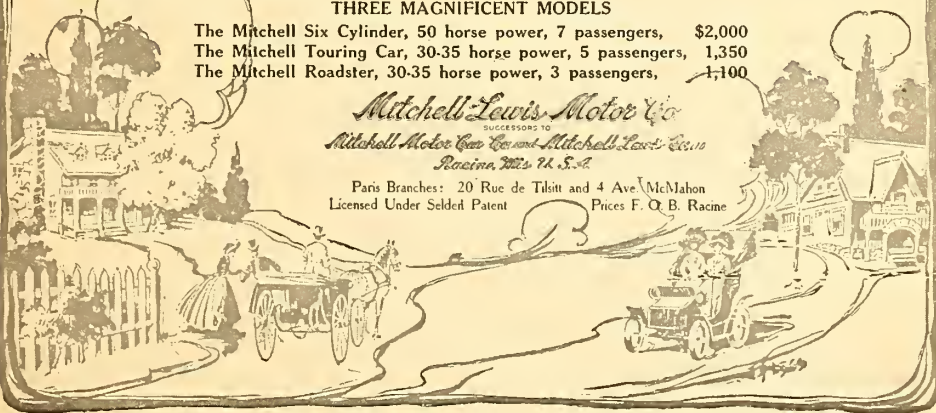

What more can there be to an automobile, and why should any car on earth sell for more money?

ger Touring Car
\$1750**

Also supplied as four-
passenger Demi-Ton-
neau, Landaulet and
Doctor's Coupe.

If the extraordinary vogue which the Elmore is enjoying is, in any sense, a source of surprise to you—it can only be because you are unconscious of the tremendous undercurrent which is drifting lay and expert opinion toward this valveless two cycle motor.

When a motorist grasps the primary truth that high horse power is worthless unless it can be utilized at a low speed, he has become—consciously or unconsciously—a remorseless critic of the four cycle engine.

Several hundred thousand such critics are studying the automobile from that angle today, and the capacities of the Elmore plant are far, far behind the eager and insistent demand to take care of which the output will be trebled during the coming year.

These students are learning:—

That under ordinary circumstances, the maximum power of any engine is almost never needed or used—

That the time when you want power is when climbing a hill or (to avoid gear shifting) when traveling at moderate or slow speed on crowded thoroughfares or rough and dangerous roads.

And it is precisely under these conditions, which prevail the greater part of the time, that every four cycle engine is at its worst and every Elmore at its best.

When the Elmore engine is slowed down its torque, instead of rapidly decreasing, remains practically constant.

The charges exploded in the cylinders are strong and powerful; the power impulses are continuous; the torque is so constant that the power hangs on with bulldog-like tenacity.

At one thousand revolutions or more your four cycle is rampant with power delivered (although it has no advantage over the Elmore in that respect), but at low speed its infrequency of torque, and the resultant loss of rotative energy in the fly wheel, makes it fall so far below the Elmore in efficiency that there is simply no chance for comparison.

Your comfort, 90% of the time, is dependent upon that continuity of power impulse for which everyone is striving and which is found alone in the Elmore valveless two cycle.

You may endeavor to escape the inefficiency described—you will not escape it until you own an Elmore.

You may buy a car of excessive power; a lighter car of heavy power, or a six cylinder;—you will not get continuous torque and all that it implies.

If this subject impresses you as interesting, a revelation awaits you in your investigation of the Elmore; because we have been able herein to touch upon only one of a score of reasons why the Elmore valveless two cycle is uppermost in the minds of motorists today.

**The Elmore Manufacturing Co., 904 Amanda Street
CLYDE, OHIO**

LICENSED UNDER SELDEN PATENT

2,365 Overlands

On One Mid-Winter Day

On one day in February we received orders from dealers for the immediate delivery of 2,365 Overlands. The four Overland factories employ 4,000 men, yet this single day's orders meant three weeks' production. Thus the tide of demand—more markedly than ever—is turning to this matchless car.

We have already booked orders for many thousands of cars to be delivered in 1911. One dealer alone has ordered 3,500—the largest automobile order that ever was placed.

Thus they who know Overlands—who see what they are doing—are making sure of their future supplies.

Note What This Means

Here is a car but little more than two years old. Yet our contracts from dealers for this season's delivery amount to \$24,000,000.

Our enormous capacity—one car each four minutes—is taxed to its utmost even now, at this writing, with deep snow on the ground.

All because thousands of owners have told thousands of others that no car compares with this.

Because no car is so simple, so trouble-proof, and none gives so much for the money.

Because of the wonderful engine—the pedal control—the fact that the car almost cares for itself.

The features which bring this flood-like de-

mand to the Overland will also win you when you know them.

25 h. p. \$1,000—40 h. p. \$1,250

The cost of the Overland, tremendous production, has been cut about 20 per cent.

This year we give a 25-horsepower Overland, with 102-inch wheel base, for \$1,000. And a 40-horsepower Overland, with 112-inch wheel base, for \$1,250, with single rumble seat. Prices include lamps and magneto.

Buyers would willingly pay a great deal more to secure the Overland features. But you get them all at a lower price than any equal grade cars can be sold.

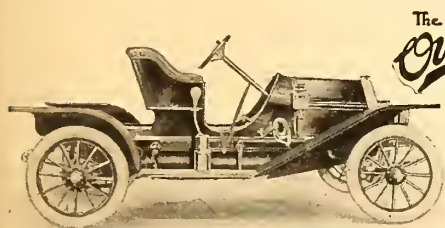

Get the Books

You should know the car which has become the king, in spite of a hundred rivals. You will find—like the rest—that it meets your ideals. We will send you two books—our beautiful catalog and "The Wonderful Overland Story"—if you simply send us your address. Cut out this coupon so you won't forget.

Overland

Two
of
the
many
Overland
Models

Overland Model 38—Price \$1,000. 25 h.p.—102 inch wheel base. With single rumble seat, \$1,050—double rumble seat, \$1,075—complete Toy Tonneau, \$1,100

A 40 h.p. Overland with 112-inch wheel base. Price with single rumble seat, \$1,250—double rumble seat, \$1,275—with 5-passenger Touring or Close-Coupled body, \$1,400

Rambler Fifty-five, 45 H. P., \$2,500.
With Magneto, Lamps, Presto-Lite Tank and Tools.

The Straight-Line Drive

Power cannot be carried around a corner without great loss due to friction.

In the new Rambler the driving shaft, when the load is in the car, is in direct line with the crank-shaft, and the angle or corner found at one of the universal joints in most other driving systems is eliminated.

Thus it delivers the maximum power, saves energy, prevents wear and reduces cost of up-keep.

THE NEW Rambler

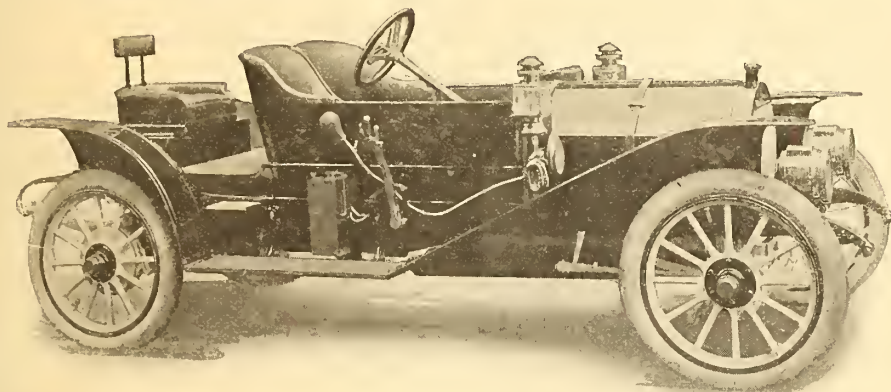

with this feature, combined with the offset crank-shaft, Rambler Spare Wheel, engine accessibility and new expanding clutch, possesses an efficiency quite in keeping with its quality and character.

May we send you a copy of the Rambler Magazine, a publication for Rambler owners?

Prompt Deliveries

Dealers:—

We will protect you so that you can protect your customers. We will deliver promptly and according to schedule and will allot enough cars for each territory to make it possible for you to do business profitably.

THE Mercer Automobile Company, of which Mr. F. W. Roebling is President, is an organization of men whose names guarantee the success of the enterprise and superiority of the product. The car is made right, of the finest materials, is easy riding, silent and luxuriously finished. It is not a small car, as might be judged by the price, for it has a 116" wheel base and the motor develops 34 actual horse power.

Let us prove to you in your own way what our car will do. Remember we have the facilities to make prompt deliveries and will protect the dealer so that he, in turn, can give the buyer a square deal.

MERCER AUTOMOBILE CO.
TRENTON, N. J.

Weighs 2200 lbs. Will do better than 60 miles per hour. Extremely low center of gravity. Radiator at rear of motor. Wheels, 36 inches; wheel base, 115½ inches. Turns in 30 feet—shorter than any American car built of its wheel base.

30 H. P.—Price, \$2850.00

If the Best is None Too Good, You Will Choose

The Croxton-Keeton Car

If we have omitted one thing that would make these cars better, such omission has yet to be called to our attention. Smooth, silent, easy-running and speedy, they will reel off century after century without adjustments of any kind.

All we ask is investigation and comparison. The more you investigate, the closer you compare, the more convinced you will become that your choice of a car should be a "Croxton-Keeton."

The Croxton-Keeton Company

NEW HAVEN, CONN., Feb 28, 1910.

Inter-State Automobile Co.,
Muncie, Indiana.

Gentlemen:-

We have your letter under date of February 25th and are pleased to note that you have included in our contract Chester, Saybrook, Essex, Old Saybrook & Westbrook in Middlesex counties. We have attached this letter to our contract and as stated before we will work the territory and we feel we can give you good results from it. We might state that we have unloaded the carload of machines you shipped us, and to state that we are more than pleased with the finish and workmanship on them is to put it mildly. The writer has certainly not unloaded any cars at any time that have looked so good for the money as these Inter-States. We certainly will push these cars for all we are worth, and you can expect that we shall ask for more cars than our contract twice over. The completeness and the thoroughness with which you have finished the cars and the attention given to small details is marvelous. The writer has not seen any cars at any price that were more complete than these Inter-States. All that we hope is that these cars will prove as satisfactory as the Inter-State models we had last year, and we should like to hear from you in regard to the Hartford territory which we wrote you about in a letter of a few days ago. We are anxious to get this territory.

Yours very truly,

(Mr Holcomb was obliged
to leave before above letter
was ready for signature.)

THE MARMON

"The Easiest Riding Car In The World"

Trophies That Mean Something

Wheatley Hills
(Vanderbilt)
189.6 Miles
190 Minutes
without
a Stop

THESE are not by any means the only long mile-a-minute non-stop runs made by Marmon stock cars in great races. They stood this same terrific strain for 225 miles at Indianapolis, 100 miles on a circular track at New Orleans and for various distances in other contests with the best racing cars of the world.

THEY have earned perfect scores year after year in the Glidden and other great endurance runs.

THE reason for this amazing stability, this remarkably consistent reliability lies in the quality of the material and in the minute care with which every essential part of the car is manufactured—not merely assembled—by one of the oldest and most successful manufacturing institutions of America.

We make many other shapes; all styles for which there is a demand. Samples free to the trade. Cuts supplied on request. See other adv., page 91.

American Lava Co., Chattanooga, Tenn.

Cheap and Unknown Acetylene Burners

(made only to sell)

vs.

Standard, Advertised Alco Burners

(made to burn)

It's like Toadstools and Mushrooms.

If you live they are mushrooms.

If you die, they were Toadstools!!

¶ If, as Jobber or Dealer, you kill your burner business, and incidentally damage your reputation, it's because you gave encouragement to the distribution and use of Toadstool burners. It is commercial suicide to get stamped into handling the cheapest auto accessories, just because some competitor has also hurled himself headlong and thoughtlessly into the cheap game. If you stop to figure profits you will find the largest **immediate** as **well** as permanent profit is on Alco burners. The Alco line is the only comprehensive line, covering practically all shapes and styles, on which there is absolute Trade protection.

¶ Alco burners have the call. Two million and more will be sold in 1910. The user specifies them because he knows he is no expert acetylenist, but must depend on the judgment of the lamp makers, who have too much at stake to use any but the best gas burning devices known to the Art. Practically all lamp makers **use** and **pay more** for Alco burners, and yet there is no branch of the auto business in which competition is as keen, or need of manufacturing economy so great. There must be a reason, a weighty reason, why the lamp makers stick to Alco burners. Their's is a verdict you cannot safely ignore.

¶ But don't jump to the conclusion that Alco burners are the highest priced! As a matter of Fact they cost the Jobber and Dealer somewhat **less** than any other Genuine German Lava burners—and German stone is a requisite for acetylene burners of highest candle power, longest life and absolute reliability and uniformity. See our other full-page advertisement (page 90).

¶ Cuts supplied on request. Samples free to Jobbers and Dealers.

American Lava Co., Chattanooga, Tenn.

To Cycle and Motor Cycle Jobbers—have you seen the Hexo?

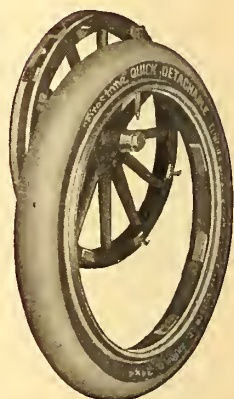

---Again Regarding "Firestone" Demountable Rims

¶ Note that 22 exhibitors had Firestone, against only 15 who had nearest competing make (the old-style clincher)—a big lead for the up-to-date Firestone.

¶ NOTE ONE of the many show-display-wheel imitations of the Firestone quick-detachable Demountable Rim was used by ANY manufacturer on his cars at ANY Show. Not one.

¶ As we said before, the Firestone is the ONLY perfected quick - detachable demountable rim; the ONLY one actually made in quantities, delivered and in general use to-day, the ONLY one good enough for YOUR car.

¶ Before putting your car into use for the season, you ought to equip with these time-and-trouble-saving Rims. Send now for Demountable Rim Book.

PACIFIC COAST BRANCH—361-3 Golden Gate Ave., San Francisco, Cal.

You Can't Overlook the M. M.

in making your selection this year. The M. M. is so positively good that it compels attention everywhere. At the Boston Show the M. M. Booth was the center of attraction. There are so many features about the 1910 models that appeal directly to you, the rider, that you can't afford not to "Compare the M. M."

That's what we ask riders to do—"Compare the M. M."—with any other machine no matter where it is made, and if you know motorcycles we'll guarantee you will find more value, more motorcycle, dollar for dollar, in the M. M. When you buy an M. M. you are getting value received—one hundred cents' worth of motorcycle for a dollar—every time.

Get the M. M. catalog—visit our nearest branch or agency—"Compare the M. M."—and then look at the prices. We're talking motorcycles first, mind you, quality motorcycles, and prices are secondary. But you'll find M. M. prices mighty satisfactory.

A Little Plain Talk

If you were a manufacturer of an automobile and had to purchase from an outside source the magnetos for your "Regular Equipment"—and if you could buy certain ones with a well-known name that had a high "list price" for much less than some

other which had a lower list price to the consumer, but not so great a discount to you, and if the purchasers of your car were willing to accept any magneto you would offer them—which would you decide upon? You say the one of lowest cost to you. Of course you would! It's human nature.

Suppose the other magneto, the one which cost you a little more, BUT would permit of the engine being started on a quarter turn of the crank WITHOUT BATTERIES, develop more power, cut down gasoline consumption, allow throttling down the engine to from $3\frac{1}{2}$ to 4 miles per hour on HIGH GEAR, entirely do away with the make-shift of DUAL IGNITION, and carried with it a written binding guarantee from the manufacturer of the magneto PROTECTING THE PURCHASER OF YOUR CAR AGAINST IGNITION TROUBLE *for all time*, what would you do then?

You would give him this magneto, if HE INSISTED UPON IT, but if he did not, you would give him the other. His troubles, annoyances and upkeep expenses would not affect *you*, AFTER YOU HAD SOLD HIM THE CAR.

The automobile manufacturer was content, so far as HE was concerned, to furnish DRY CELLS for ignition until the purchaser forced him to equip his car with a magneto, and the most of THESE only half do the work they should do.

UNLESS THE PURCHASER DEMANDS the one magneto in the world which fulfills every claim made for it and carries with it a written guarantee protecting him for all time, as does the

K-W High Tension Magneto

he will get "Regular Equipment" and nothing else. We want every prospective purchaser of a car or a magneto to test our claims and prove for himself whether or not he wants the freedom from all ignition troubles which K-W service and K-W protection afford.

40 POWER AVE.

CLEVELAND, OHIO. U.S.A.

The One Bulletin Fourteen

Treats of the K-W High Tension Magneto which is a Complete Ignition System in itself.

This magneto requires absolutely NO SPARK COIL, NO TIMER and NO BATTERIES of any kind, as the HIGH TENSION Current is generated in the magneto windings and carried direct to the spark plugs.

The K-W High Tension Magneto generates four waves per revolution of the magneto and the heaviest engine can be started on the quarter turn WITHOUT BATTERIES.

The K-W High Tension Magneto is designed for cars which have provision for magneto ignition and must be driven either by gear or sprocket and chain.

The K-W High Tension Magneto is the only magneto made which will allow starting the engine on a quarter turn without batteries and throttling down to from $3\frac{1}{2}$ to 4 miles per hour on high gear.

The K-W High Tension Magneto carries with it a certificate of Insurance covering it

Forever

against losing its power, unless battery current is run through it or the magnets are removed from the magneto, and the size and heat of the spark will never deteriorate. No other magneto carries such a guarantee, and furthermore, we agree to replace, FREE OF CHARGE, any parts proving defective in either material or workmanship within two years from date of purchase.

Our Two 1910 Catalogues

The K-W High Tension Magneto gives a hot spark on 17 R. P. M. Will positively shoot a poorer and thinner mixture than can be ignited by the most powerful battery system. Will develop more power than any battery system or other magneto.

K-W High Tension Magnets will not foul spark plugs or allow valves to stick or pit. All wearing parts are made of chrome steel, are accurately ground and lapped in place, thus insuring a maximum life.

The Other Bulletin Fifteen

tells all about the K-W Low Tension Magnets which are used in connection with a vibrating spark coil and timer for Ignition — Electric Lights and Combined Ignition and Electric Lights.

The K-W Low Tension Magneto acts as a powerful and reliable source of current and entirely takes the place of dry cells and storage batteries.

The K-W Low Tension Magneto is designed for use on cars which have no provision for a magneto and is driven by either belt or friction from the fly-wheel.

The K-W Low Tension Magneto when used with a K-W Coil or K-W Master Vibrator and the old coil is absolutely guaranteed to start the heaviest engine on a quarter turn WITHOUT BATTERIES and run it perfectly AT ALL SPEEDS.

All "L-C" models are guaranteed in addition to furnishing perfect ignition to operate powerful searchlights, tail light and speedometer light, and is the

ICH SEND YOU?

LOW TENSION CATALOGUE

ICH Send You?

Are Just Off the Press

Only Magneto in the World

which will do so, Guaranteed FOREVER against any loss of power (unless battery current is run through it or magnets are removed from the magneto), and any part proving defective will be replaced absolutely free within a period of two years from date of purchase.

Neither the K-W High Tension or Low Tension Magneto require any attention, with the exception of a few drops of oil

every few hundred miles and are OIL PROOF, WATER PROOF, DUST PROOF, and last but not least, Trouble Proof.

If this is the kind of a magneto YOU want, write us today for Bulletin 14.

Sold on Thirty Days' Trial with Money Back Understanding

When You Go to Buy a Car

and the manufacturer tells you "Oh, yes, the car has a magneto on it—the very best, etc., etc.," just turn the switch on to the magneto, and give the crank a quarter turn and SEE IF YOU CAN START THE ENGINE. When you find you cannot start it—as you will find in every case, unless it is a K-W High Tension Magneto—refuse the "Regular Equipment" magneto, which only performs half what a real magneto is supposed to do, and specify a K-W.

It won't cost you any more, although it will the manufacturer, as we do not maintain a high list and give unfair discounts to confuse. You will then be able to start and increase the power and efficiency of your engine WITHOUT THE ASSISTANCE OF BATTERIES OF ANY KIND.

We are responsible to you in case of any trouble or dissatisfaction.

Think these facts over. Let them sink into your very soul, and you will have no cause to upbraid yourself for the one thing which every man hates, "being stung."

AUTOBESTINE

equipped with **Autobestine Brake Lining**.

This is the one part of the car which must not contain an element of doubt, for the brake must work one time more than ninety-nine in a hundred to make the car safe to operate. **Autobestine** is a combination of purely mineral and absolutely fire-proof substances and is indestructible under any degree of heat. Put it to the severest tests,—twist it, bend it, try to tear it, endeavor to burn it. The more severe the test, the greater your realization that **Autobestine** is a brake-lining of extraordinary merit. 'Nothing can injure it. It can stand any sort of abuse,—water, air, heat or cold.

A properly made brake fitted with **Autobestine Brake Lining** will never fail you. It will respond instantly to the slightest touch and will out-wear the best car built.

To those manufacturers who wish to make tests of **Autobestine**, we will send samples without cost.

For prices and full particulars write to the sole manufacturers.

The CLEVELAND SPEED AND TIME INDICATOR

SHOWS: Miles Per Hour, Season Hours, Season Miles, Trip Miles, Trip Hours.

Based upon the simple escapement principle the "CLEVELAND" Speed and Time Indicator gives more information with greater accuracy and with less moving parts than was ever put together in the form of a speedometer.

But the "CLEVELAND" is more than a speed indicator. It tells the time in transit.

It gives all the information that could possibly be desired. The "CLEVELAND" simply cannot wear out.

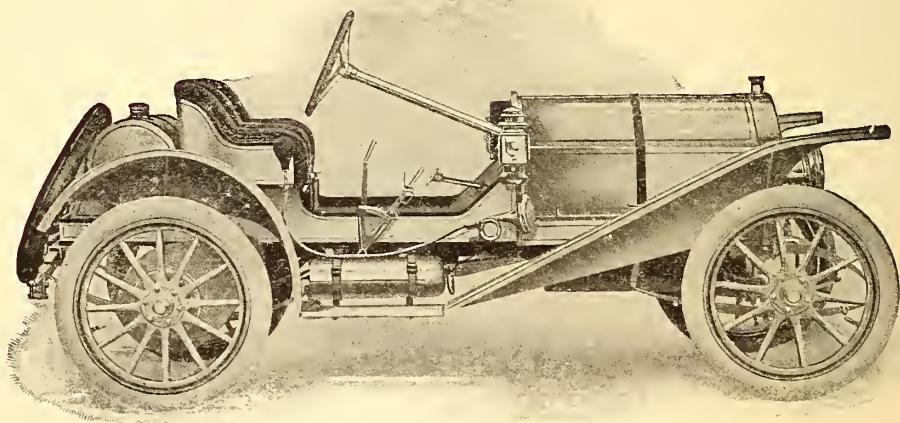

NEAT NOVEL NEEDED

Let us tell you how simple the "CLEVELAND" is in construction and operation. Let us tell you the advantage of knowing how many minutes your chauffeur has used your car, or how many minutes it has taken your truck to do its trip. We have new things of interest to the users of speedometers. Let us tell you about them.

The Cleveland Speed Indicator Company

1806 EUCLID AVENUE, CLEVELAND, O.

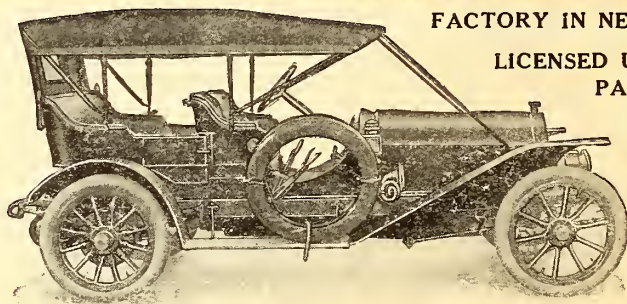

EMPIRE TWENTY

MODEL B, \$850.00

A Roadster of distinctive mechanical features, attractive appearance and low initial and maintenance cost. Arrange with nearest dealer for demonstration. Catalogue on request.

EMPIRE MOTOR CAR CO. :: INDIANAPOLIS, INDIANA

FACTORY IN NEW YORK CITY
LICENSED UNDER SELDEN
PATENT

GUARANTEED
FOR ONE
YEAR

Six-Sixty—Six cylinder, 60 H. P. Sixty-five miles an hour, \$3,500

We wish you could compare the actual *performance* in your own hands of the Palmer-Singer Six-Sixty, for instance, and ALL other cars at the same or higher prices. As that is, of course, impossible, why don't you compare their mechanical features side by side? Remember, on these depend performance.

This is the Car

—the Glide— that stands comparison, point for point, with every standard car on the market under the most expert investigation—and is victor in the comparison, not “price considered,” but irrespective of its lower price.

Glide Special 45

Seven-Passenger, 45-horsepower Touring Car;
Wheel Base, 120 inches; 36 x 4½ tires, \$2500.

The Bartholomew Company, Peoria, Ill.

(Licensed Under Selden Patent)

Send for Printed Proofs of These 7 Glide Car Points

- | | |
|---|-----|
| Glide Motor—same type used in highest-priced four-cylinder cars. | I |
| Glide Cylinders—cast separately, giving maximum cooling surface. | II |
| 5-bearing crankshaft. | III |
| Glide's Special Oiling System, constant-level, self-contained and self-regulating—best ever invented for a motor. | IV |
| No clutch on any car compares with Glide Multiple Disc Clutch. | V |
| Glide's one universal joint located where the universal joint belongs. One oiling lasts a year. | VI |
| Glide Brakes—extra big and efficient, with equalizing bars—insuring equal pressure on all wheels. | VII |

“Show me” these points. Also that Glide Bearings, Magneto, Ignition, Wheels, Tires, Springs and Upholstery stand all comparisons.

*National***\$2,500****"40"****Costly Construction**

EVERYBODY "in the know" of the Automobile recognizes this as the big bargain of the year. Not a little car with a big rating, but a big car with a low rating. Think of it! A big car with cylinders 5x5 $\frac{11}{16}$, with 36" wheels, with a wheel-base of 124 inches, with Bosch magneto and storage battery, with the finest materials and workmanship in the world throughout at **\$2,500!** A car that beats a mile a minute on circular tracks—a car that is big, powerful, luxurious and capable in the highest degree for such a price! It's the best value of the year.

PARTIAL SPECIFICATIONS

Motor—Four cylinder, 5x5 11-16 inches vertical, cast in pairs. Water-cooled; centrifugal pump. **Clutch**—Self-contained aluminum, cone leather faced, spring cushioned. **Transmission**—Sliding gear, selective type. Three speeds forward and reverse. **Wheel base**—124 inches. **Drive**—Bevel gear, through propeller shaft. **Oiling**—Crank case, constant level force feed oiler, oiling all working parts of motor. **Ignition**—Two separate complete systems. One a gear-driven, high-tension Bosch magneto. The other a storage battery, single coil and distributor. Each system has a separate set of spark plugs. **Tires**—36x4. **Gasoline Capacity**—20 gallons. **Brakes**—Two systems. Two internal expanding metal to metal hub brakes and two hand brakes on outside of rear wheel drums. **Front Axle**—I-beam steel forging. **Rear Axle**—Compound construction: inner axle used only as a driver. **Body**—Straight line. Carrying capacity, five passengers. **Springs**—Half elliptic, 40-inch front under frame, 48-inch rear, $\frac{1}{2}$ scroll elliptic **PRICE, \$2,500.**

NATIONAL SIXES

"Fifty"—Six Cylinders, 4 $\frac{1}{2}$ x4 $\frac{3}{4}$. . . \$4,200
 "Sixty"—Six Cylinders, 5x5 . . . \$5,000

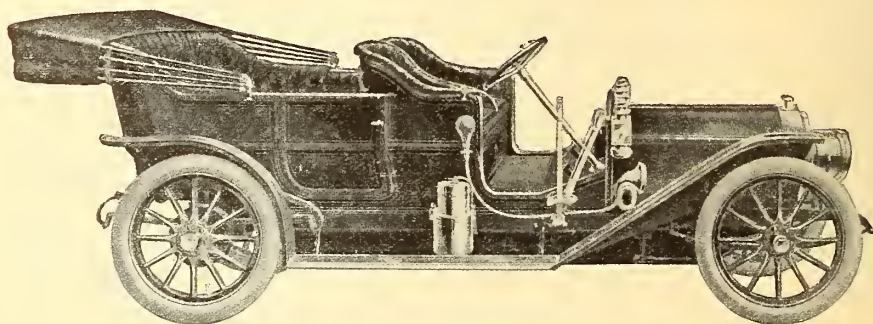

Type of Body—Touring, Baby Tonneau or Roadster—optional on all National Cars.

We seek the interest of automobile merchants and buyers who choose their cars with the calm, cold reasoning of business experience—who analyze a motor car by keenly comparing dollar-for-dollar value—and who refuse to be swayed by any other force than SHEER MERIT. Of such we request the opportunity of submitting a few concise, interesting facts,—we have no space to properly do so here.

Should these facts merit your patronage—well and good. If not—we will not annoy you with persistent solicitations. We are ready NOW—only waiting the arrival of your request.

THE ACORN

Commercial Car

"BUILT IN THE HILLS"

Every car is tested with an overload over Cincinnati hills before shipment.

This means that it will give satisfaction anywhere.

It has the power, it is built to wear and it will wear.

ANY STYLE BODY BUILT TO ORDER

The dealer who secures the agency for a good, light delivery car has made his fortune. Write for full information.

THE ACORN MOTOR CAR CO.

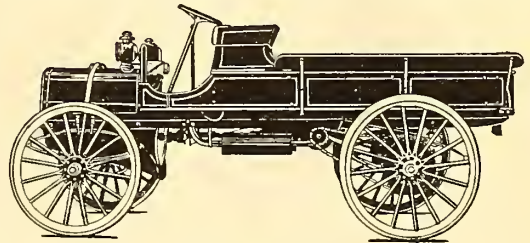

FIFTH, EGGLESTON AVENUE AND LOCK STREET
CINCINNATI, OHIO

The only car which completed the recent Kansas City Reliability Run with a perfect score.

The Chase Motor Wagon

The Chase Wagon used was not new but had been in active service for several months. Its rated capacity is only 1,000 lbs. but it carried, in this contest 1,350 lbs. The road conditions were as unfavorable as could be imagined.

The splendid protection of all working parts on the CHASE WAGONS and the high wheels enabling the wagon to get through the road obstructions with minimum power, contributed to this victory; but,

The Principal Cause

was the wonderfully simple, reliable, two-cycle, air-cooled motor.

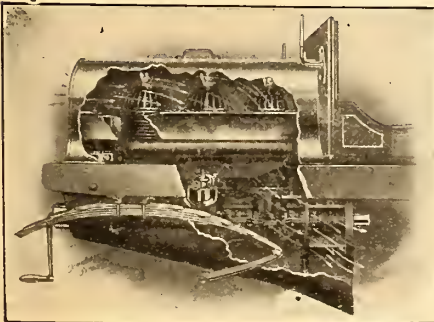

The CHASE system of air cooling which does away with fans, belts and gears, first made the air-cooled motor practical for automobile use. By the way, CHASE cars don't smoke.

Ask the man who owns one or more of our trucks and delivery wagons, and he will tell you that the "Buffalo" is the car of durability and simplicity, and he has found it a money-saving as well as a money-making proposition. Write for our catalogue giving general details of our heavy trucks, coal-dumping trucks, sight-seeing cars and hotel buses.

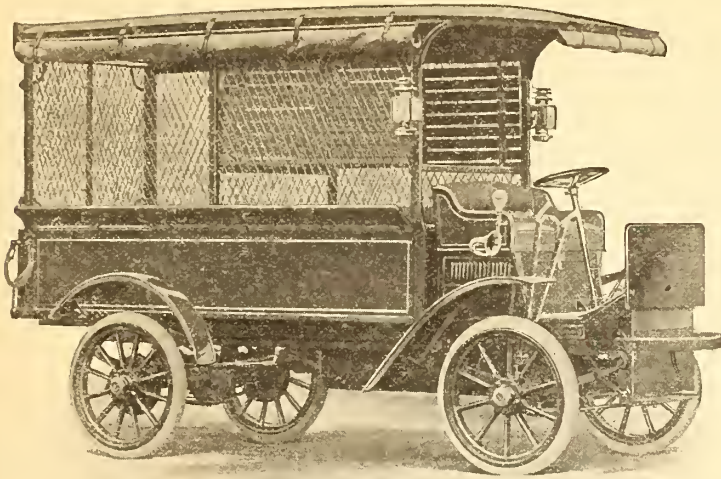

MODEL N

**Atterbury
Motor Car Company**

BUFFALO, N. Y.

MODEL I

Autocar Commercial Wagon

Every commercial wagon that the Autocar Company puts out is an advertisement that sells another.

Why? Because "continuous efficiency," which we guarantee, is bound to tell in the long run.

Business expenses are figured too closely nowadays for any business concern to repeat a bad purchase. A wagon that piles up repair bills must soon go down and out.

Accidents will happen to the Autocar, of course. No wagon was ever made that was immune. But we know how it's built, we know its superb construction, and that's the reason we guarantee continuous efficiency. Hauls up to 3000 pounds. Covers more ground than six horses.

GREYHOUND

GOODNESS

commences away back at the draughting board—in design it includes all the best that has been done in the past, and then some more;—in material, methods, workmanship the best is not too good and no expense is spared that will contribute to the excellence of the machine or the comfort of its riders.

That matter of comfort is highly important—by the way, do you know the **Greyhound Shock Absorber?** It is the most valuable comfort device in all the motorcycle world!

You will find it only in Greyhound Motorcycles. It's worth investigating. Good terms for good agents.

Catalogs free.

Thor

THE MOTORCYCLE SUPREME

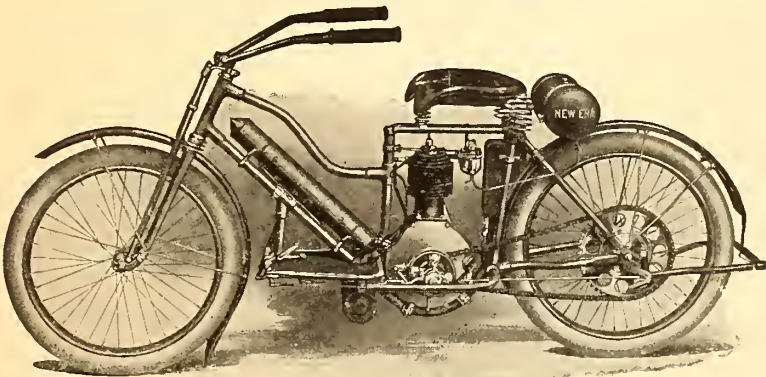

AURORA AUTOMATIC MACHINERY CO.

Thor Building, 1307 Michigan Ave.,

CHICAGO, ILL.

A NEW ERA IN MOTORCYCLING was begun when
THE NEW ERA AUTO-CYCLE made its appearance

It marked the beginning of real practicability and comfort

(Patent Pending)

Its long, low frame and spring-suspended, upholstered form seat and foot-board (instead of pedals), makes it available for all ages and sizes and conditions of mankind; its two-speed transmission makes it master of any and all hills, and renders possible the slow pace so necessary to safety and comfort on rough country roads and crowded city streets; its free engine (engine started by a crank like an automobile), makes it possible to start *anywhere* from a standstill and without even "jacking up" the machine. Lots of these ideas are being and will be copied, but don't you pay for manufacturers' experiments. You don't have to do so when the New Era offers them in perfect form.

HOYT

ECLIPSED

By the HOYT METER = All Others!

THE HOYT METERS absolutely eliminate all guesswork, and represent positively the highest development in this item of motor car equipment.

Simple, durable, indisputably accurate, and thoroughly dependable at all times.

HOYT METERS have successfully stood the severest tests and are now adopted and endorsed by leading manufacturers. The thousands in daily use are giving unqualified satisfaction, and bear out the truth of every claim we make for them.

Mr. Dealer:—

How about it? Do you want to get in line with an agency for instruments of this class, which have proven such a decided success? Inspection of the **HOYT METERS** will prove their points of superiority, and will convince you that we really are in a class by ourselves, and offer positively the most meritorious and dependable line of **Volt** and **Ammeters** to be obtained anywhere.

Don't be misled,—insist on our trade-mark **Ampères Volts**.

It will certainly put you on the right path to **Volt** and **Ammeter Perfection**.

HELICAL GEARS

are most desirable for motor
timing for one big reason:

They are far quieter in action than any gears cut with either spur or bevel teeth (even though made of rawhide or fibre) can possibly be made to be.

This fact is becoming better known each day.

If you do not know it as yet, let us help you to investigate.

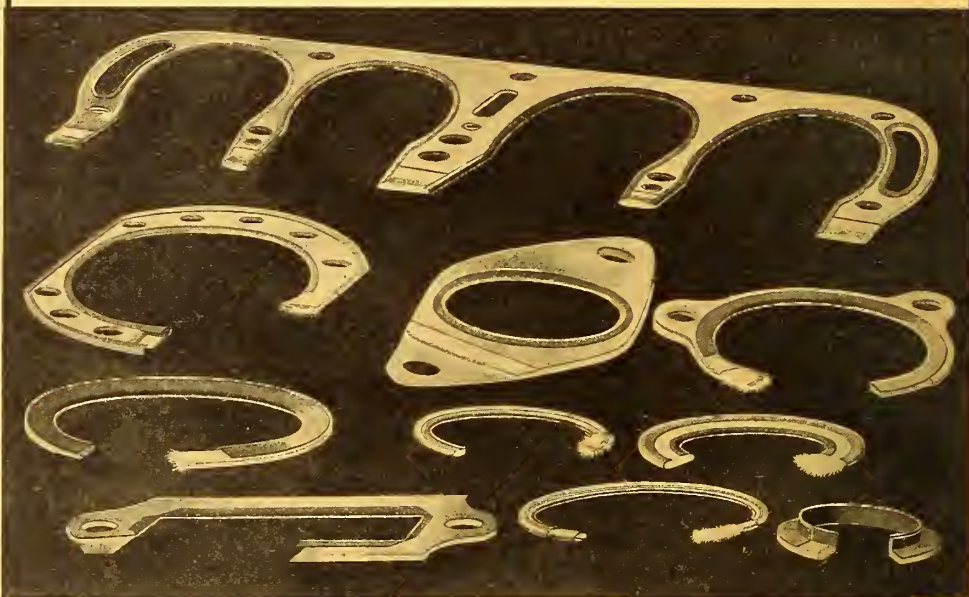

That it is worthy of your investigation is well instanced by the fact that we are not cutting **Helical Timing Gears** for twenty-six of the best known, largest, oldest, and most successful of the American motor car manufacturers. Our present orders for gears for 1911 cars aggregate over **250,000 Helical Gears**.

Our shop capacity is such that we can take care of your requirements also, both in quality and in early deliveries.

Write to us.

THE GRANT-LEES MACHINE COMPANY
CLEVELAND, OHIO

McKIM Copper Asbestos GASKETS

Have been standard with motor builders since the industry started.

Because they are the only gaskets that insure tight and lasting joints in cylinder heads, inlet and exhaust flanges, valve caps, spark plugs, carburetors, etc.

They are cheaper than ordinary asbestos or packing for they can be used many times.

We can assure you of lowest prices and immediate shipments because we have thousands of dies for all sizes and shapes.

Remember to Specify the McKIM GASKET

"APLCO" ELECTRIC SYSTEM FOR AUTOMOBILES

THE ONE SYSTEM that has made good for more than two years, electric lighting all lights on a number of cars. Several of our users have remarked, "They can see as far at night with 'Aplco' Headlights as in daylight." Our Bulletin No. 16 describes the system fully, and shows applications on a variety of cars.

The "Aplco" Automobile Dynamo is the lightest and most compact dynamo yet built that will make all of the electricity that can be used on an automobile. It is so designed that it can be geared direct to a gasoline automobile engine and go under the car bonnet. This dynamo is the result of more than twelve years' specialization in this line of work.

When writing for printed matter, advise the make and model of your car.

APPLE ELECTRIC COMPANY

20 North Canal Street

Dayton, Ohio, U.S.A.

Have You \$1250 to Invest?

Then this is for you

Ask Yourself

Do You—

Want to buy an automobile?

Demand a car free from flaws and experimental features?

Insist that it be absolutely correct in every mechanical detail?

Desire a car with years of success back of it?

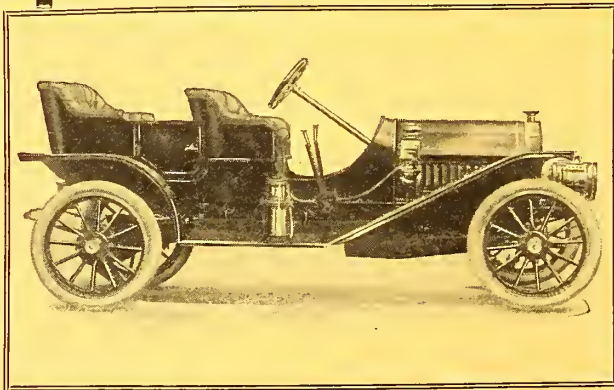

Want a car thoroughly tried out in every detail; no experimental features?

Want a car that can be depended upon under all conditions?

Want the car that gives maximum pleasure with minimum labor at the lowest possible cost of upkeep?

Want the Greatest Automobile Value in America?

Then write us immediately. We can convince you
We Have the Car You Are Looking For

MANUFACTURERS

DO YOU USE

POST CARDS

In Colors for Advertising Purposes?

If not, why not?

If you have an attractive factory, pictures in natural colors on post cards are just what you require to let your customers know what you know.

Exteriors or interiors or illustrations of your products make fine subjects for post card advertising. Send for prices, samples and suggestions.

CHILTON COMPANY
MARKET AND 49th STS., PHILADELPHIA

FOX

Anti Skid Chains

The chain which **DOES**
absolutely prevent
skidding

The chain which **CAN'T**
and **WON'T** cut tires

This is a cross
link of a Fox
Anti Skid Chain
showing the side
which goes
against the tire.

1 2

Fig. 1.—These flat surfaces come against the tire. They are the only portions of the cross chains which do touch the shoe and that is why they **don't** and **can't** cut the rubber. **Fig. 2.**—This portion of the connecting link curves away from the tire so that no edge can come against the rubber.

The Fox Anti Skid Tire Chain prevents skidding absolutely. It is the only chain which *does*. We stand behind this statement fully—it *will keep your car* from skidding. It will enable you to use your car on days when you would not *dare* take it out otherwise. You are **SAFE**, your car is safe when equipped with Fox Chains no matter what the condition of the roads—safe on slippery, greasy asphalt, on ice and snow-covered macadam, on slimy cobbles, on car tracks—on any road or street.

THE FOX SAVES TIRE BILLS

In the Fox, no edge, no cutting surface of any kind comes against the tire. Nothing except a broad, flat, perfectly smooth metal surface **without edges**, touches the tire. The broad flat links fit the shoe as harmlessly and as closely as a piece of tire tape. If you should swing a heavy sledge hammer against the links of the Fox Cross Chain, not once, but many times, you could not make it cut into the tires. If you should do this with other chains, you would quickly drive the links into the rubber and cut a great hole perhaps with the very first blow.

ANTI-SKID RIVETS

(See Rivets.)

ASBESTOS, Sheet

(See Raw Material.)

Woodworth

WOODWORTH TREADS

Made of chrome leather—studded with steel rivets.

DO NOT CHAFE OR HEAT THE TIRE

Woodworth Treads are the only true tire protectors. They never chafe or heat the tires. They prevent punctures and skidding. They are held in place by coil springs along the sides, which automatically take up all slack and prevent any looseness. The protector is always tight and smooth, so that it cannot chafe the tire.

They fit all makes of tires—anyone can easily put them on.

Woodworth Tire Chains are made in the regular side-chain style and in single chains, which can be strapped to the spokes. Each cross piece has a strap of heavy chrome leather under it, protecting the tire from wear or injury by the metal.

Send for our 1910 catalog showing the treads, chains and other devices that save tires and prevent skidding.

The Duster Axle and Transmission Co.

of America

SOUTH BEND,

INDIANA, U. S. A.

Here is an Axle that for **Simplicity, Design, Strength** and **Price** has no equal in America.

Housing one piece of imported steel with the rear plate removable for extracting the differential and the inspection of the bearings without disturbing the entire axle.

The Design of the **One-Piece Steel Housing** is very neat and **strong**, unlike **other Axles** that are made from a number of malleable castings, that sag and throw gears out of alignment after in use a couple of months.

Yet your axles cost no more than the cheaply constructed axles that are on the market today.

- ★American Ball Co., 115 Clifford St., Providence, R. I.

*You wouldn't attempt to drag a machine into your plant;
you would reduce labor and friction and roll it in.*

Heavy loads can only be successfully carried on "Anti-Friction" bearings. You can quickly demonstrate this fact for yourself. Try to move any heavy weight without using rollers—note the results.

Apply this to axles for commercial motor trucks and you will instantly see one reason why the majority of successful truck builders prefer

TIMKEN-DETROIT AXLES FOR COMMERCIAL MOTOR TRUCKS

The Timken Tapered Roller Bearing has been absolutely proven to be the only load-carrying "Anti-Friction" Bearing that can and does successfully meet the strenuous conditions of commercial service.

And the Timken Tapered Roller Bearing is only **one** item in the building of Timken-Detroit Axles for commercial motor trucks; but in its assured perfection it is typical of every detail in the building of Timken-Detroit Axles.

In considering the axle situation, consider this: The history of the commercial car, with its vibration of the motor plant on top of solid tires, putting in a full working day over the worst

streets, is a vastly different history than that of the pleasure car, which works a few hours each day on pneumatic tires, for the most part with only one or two passengers, and over the best streets to be found.

The haulage of commercial loads has been our problem for over ten years. We know the service, we know the sizes, we know where to put the strength. Behind every size and measurement in Timken-Detroit Axles is good, sound engineering sense, plus unequalled experience.

If you want to build the "make-good" kind of trucks, they **must** have **Timken-Detroit Axles**. Our engineering department is at your disposal.

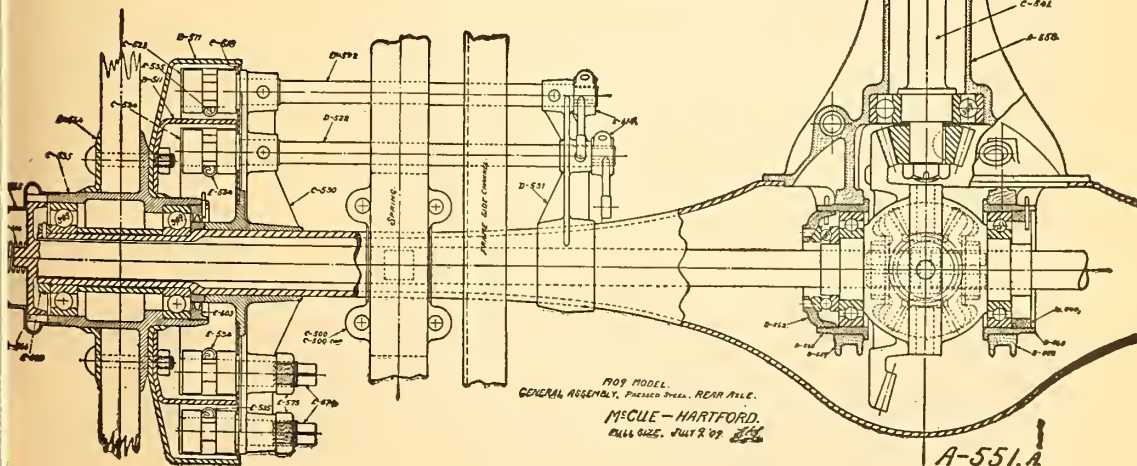

The Timken-Detroit Axle Co.
Detroit, Michigan

Automobile Axles

Floating Type Rear Axle, having steel housing, double expanding brakes, driving shafts, with hub clutches integral, annular ball bearings; I Beam Front Axles with ball bearings in steering head and hubs.

ADJUSTABLE and NON-ADJUSTABLE BALL JOINTS

We alone have the exclusive right under the patents to manufacture these Adjustable Joints

Patented November 23, 1909. Other Patents Pending

These joints eliminate all lost motion and give a more perfect control to spark and throttle levers. Easier and cheaper to install than other methods of construction. They are as perfect as it is possible to make them and will last for years.

Write for Catalog No. 10, giving full particulars as to sizes and quantity

TRIUMPH VALVE REMOVER

**HERE IT IS
IN ACTION**
No waste of time

No broken finger
nails Fits any
gasoline engine
Patented April
14, 1908.

Enables you to remove valve key or valve spring with no side strain or bending of valve stem. List price, \$1.00. Discounts to manufacturers, jobbers and dealers. If your dealer cannot supply you, send us P. O. order for \$1.00 and the Remover will be sent you postpaid.

We are manufacturers of Gas Engine Specialties, Electrical Specialties, Screw Machine and Punch Press Products, as well as a varied line of Machine Work, Tools, Dies, etc.

The New Edison Storage Battery is now ready for you

THIS is the battery which Mr. Edison has perfected after six years of experimenting. It has been manufactured in its perfected form for about a year. Increased manufacturing facilities now make it possible to supply these batteries for all classes of electrical vehicles, etc., from the lightest runabout to a five-ton motor truck; also for electric launches.

For gasoline motor cars and power boats, it is by far the most practical and efficient battery to use as the basis of any ignition system.

It is also available for electric head and tail lamps and for incandescent lighting of enclosed cars.

We have announced before that when the Edison Battery was right it would be ready. **It is ready now.**

Write us today for full particulars,
catalog, price-list, etc.

The Name on the Plate Lug Tells the Story

Always
Look
for the Word
"Eride"

The Usefulness of your Electric Car

is dependent upon the power that operates it. You want a storage battery that is reliable, of long life and that requires little attention;—a battery on which you can absolutely depend at all times. When you buy renewals, or if you contemplate purchasing an electric, *insist* on the "Eride."

Now Why Should You Use "Eride"?

- ¶ Because "Eride" batteries are used in over 90% of all electric cars manufactured.
- ¶ Because an "Eride" battery guarantees you the reliability gained from 22 years of experience in storage battery manufacture.
- ¶ Because "Eride" batteries and parts have all passed a rigid factory inspection before they reach you.
- ¶ Because there are 715 "Eride" distributing points in the country, also a corps of traveling inspectors. Such service aids you in securing the best battery operation by enabling you to procure parts from your own or a nearby town and if necessary the free services of an inspector who can call on you.
- ¶ Are these not ample reasons for the "Eride"?

These are the leading manufacturers of electric vehicles. They use the "Eride" Battery

TRADE MARK

MAKE sure of Bearing Reliability as well as Running Economy by using
FORT HILL BRONZE

In these days, when competition is so keen, any old bearings will not do. You must have the best that can be secured,—those cheapest in the long run, not lowest in the first cost. If you follow the lead of those who have been through the mill and **KNOW** a thing or two about Bearings, you will specify **FORT HILL BRONZE**. It is used for metallic packings on the United States Battleship Vermont, which statement proves that its quality is beyond reproach.

PIERCE

Two
Speed

Free
Engine

Condensed description of Pierce Vibrationless Motorcycles for 1910

The Four Cylinder

The Pierce four cylinder is the only machine of its kind in the world. Among its numerous superior features are: the four cylinder engine, shaft drive, automatic oiling system, large tubing frame, two speeds, free engine, sliding gear transmission, magneto ignition, simple control and accessibility of all parts. The engine has 7 H. P. and with the two speed gear it is able to climb smoothly any hill that may be encountered.

Perfect material and Pierce workmanship have combined to make this the most complete and most refined product offered the motorcycling public.

The Single Cylinder

The Pierce Single Cylinder motorcycle with its high-powered, long stroke motor, marks a notable innovation in one-cylinder construction. This is a machine which runs with an almost total absence of vibration, and for ordinary city or country use, it has the quiet smooth action for which motorcycles to date have not been noted. But better than all this, it is a machine which climbs the mountain side and does it with the same absence of labor which marks its running on level roads. Always smooth and easy running, always powerful to follow the steepest roadway—what more can be asked? We offer in every detail, the best that "Piercecrafft" affords.

The following general and special features will appeal to discriminating riders:—

A motor of 5 H. P. having a long stroke (4") motor equipped with double annular ball-bearings; large tubing frame; magneto ignition; wide flat belt, with free engine effect; Simple grip control.

The Pierce Agency—especially if the Bicycle line is included—offers, in itself, a profitable business for any progressive dealer to engage in. Our proposition, "The Agency that Pays," will be submitted to any dealer in open territory.

Don't Take Chances on Getting Stalled Miles from Everywhere with a Burned Boiler or Leaky Radiator

The Field Radiator and Boiler Compound

will absolutely stop all leaks. Has never been known to fail. It is in the form of a compound powder, the box containing about a cup full. Ordinarily one quarter of a box, or less, put into the boiler, tightens the tubes or mends the radiator in a very few minutes. It goes into the leaks, hardening in them so that they are permanently closed. Price, \$1.00 per box. By mail, \$1.15. Ask your dealer for it. If he does not keep it, send us his name and address, enclosing \$1.15 and a package will be forwarded to you.

We have scores of letters like the following:—

The C. and C. Company
 Auburn, Maine.
 Enclosed find \$1.15. Please send me 1 Box Compound for Automobiles and Radiators. I have used a box of this and will say, it's the Greatest Remedy for Leaky Radiators I ever saw.

Elk City Mercantile Company,
 R. T. KEEN, PRESIDENT.

MANUFACTURED BY **THE C. AND C. COMPANY, Auburn, Me.**

THE MEASURE OF YOUR SAFETY

RELIABILITY

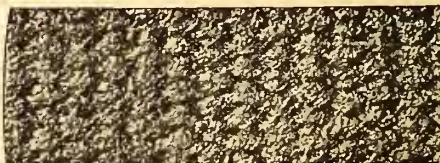

Of your Brake Lining

When you realize that the efficiency of your brakes depends upon the quality of their lining you will appreciate the necessity for using

Raybestos TRADE MARK

RAYBESTOS is composed of the finest quality of asbestos woven with copper wire into one complete fabric, which produces the highest co-efficient of friction. Makes the brakes "Grip" and hold. Is oil-, heat-, water- and almost wear-proof. RAYBESTOS is a real necessity. As for durability—Raybestos will outlast any other lining.

See that Raybestos is part equipment of your car. Write for our interesting folder.

List of Retail Dealers, Garages, etc., \$25

Our list of garages, repair shops and dealers in automobiles, motorcycles, etc., is the most complete and accurate in existence. It is classified for handy reference and exactly meets the requirements of those who want to circularize the retail trade.

**MOTOR CYCLE, MOTOR BOAT &
AUTOMOBILE
TRADE DIRECTORY**

**MARKET @ 49TH STREETS
PHILADELPHIA, PA.**

Make a Hit With Your Customer

Garages everywhere are putting out signs offering to clean all the carbon out of an engine for \$3 to \$5.

There's good money in it, because it takes so little labor and time with

PREST-O-CARBON REMOVER

Your customer could use it at home, but he'd rather hire the job done, if the price is right. Make it easy for him, and he will have his engine cleaned often.

The day of tearing down and scraping engines is closing. The new and better way has arrived. Get in and get your share!

Order some of this liquid, and write us for full information. Retail prices: Gal., \$3.75; Half Gal., \$2; Quart, \$1. In cans. Guaranteed.

The Prest-O-Lite Co., 237 East South Street
INDIANAPOLIS, IND.

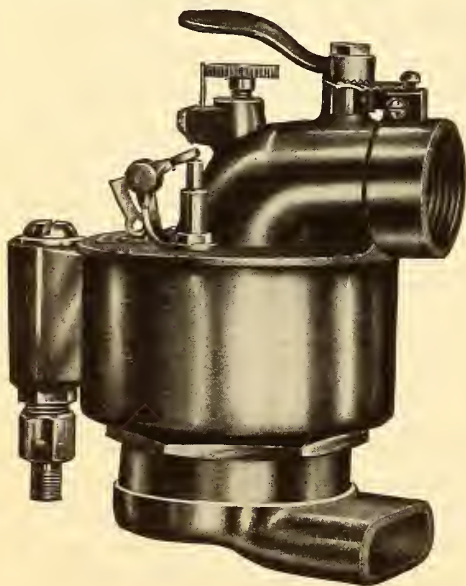

Branches at New York, Boston, Philadelphia, Cleveland, Minneapolis, Omaha, Dallas, Los Angeles and San Francisco.

PLANHARD CARBURETOR

MARINE SPECIAL ITS DIFFERENT

**Our Carburetor,
Our Demonstrator,
You to be the Judge**

A single adjustment, automatic, and no springs. The operator cannot go wrong.

Indorsed by some of the best engineers in the trade.

Sold on a positive guarantee to give better results than any other Carburetor.

Perfect control on two-cycle engines. Ask for one for test and be convinced.

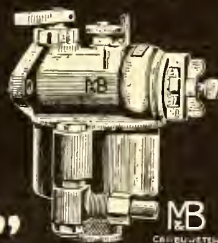

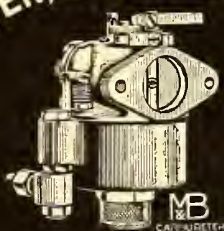

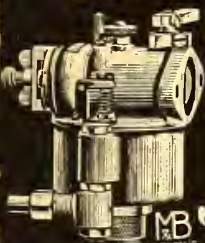

PLANHARD MFG. CO.,

Kokomo, Ind., U. S. A.

Mosler Spit Fire Lead the World

POWER, SPEED, ECONOMY

The Plug with the Deepest Chamber

An Instrument of extremely high efficiency
Small, light, neat self-contained substantial simple to adjust

"It's So Simple"

MB

Carburetor

Results of nine years experience
Perfect Fuel Strainer
Flooding and Back Firing impossible

Double ball bearing
Self-adjusting
Self-centering clutch

Umph Timer

Made to fit any shaft any engine

No friction, no wear, wobble impossible

CORK

CORK

is a very peculiar product. No substitute has been, or probably ever will be, discovered to take its place. Its peculiarities specially adapt it for many uses; none more so than in the manufacture of

FLOATS for Carburetors
INSERTS for Friction Devices
SHAVINGS for Boat Cushions

When made by the PADDOCK CORK CO.
 They are the best to be had.

Send Blue Prints
 Whenever Possible.

Positive Automatic Carburetor

No Springs—No Adjustments—No Priming

G. & A.

A. J. Myers

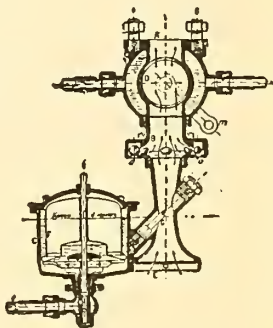

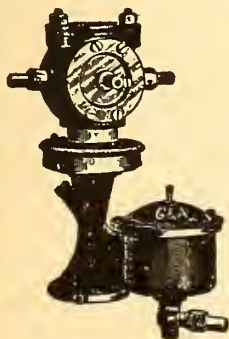

Sole owner U. S. Patent Rights

244 West 49th St.

New York

The G. & A.

will work under all climatic atmospheres and is positively automatic. Has no springs and needs no adjustments.

Automobile, Aeroplane and Motor Boats

Stationary Gasoline or Kerosene Engines

All persons are cautioned against infringing on the Ball Cage for the intake of auxiliary air

¶ The North Pole has been discovered. We do not care who discovered it; but, we would like to take a look at the bearings, pretty sure to be Automobile Brand Plastic Bronze, considering their cool running.

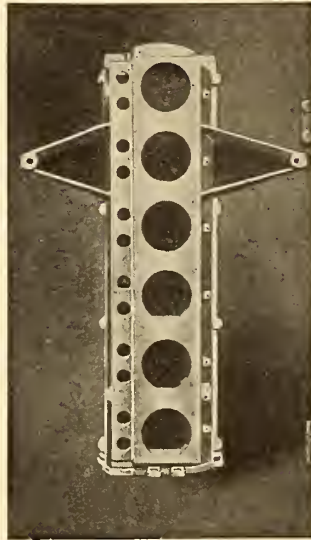

¶ Aeroplanes are flying. Curtiss has beat the lot of them. He used Aerial Brand Aluminum Castings; a New Brand we have just brought out for Flying Machines.

¶ While we spend time and money in developing new alloys suited to new fields of development, we still give our best efforts to our

Automobile Brand Aluminum and Bronze Castings

¶ These alloys have been developed not by accident, but by knowing the requirements and meeting them.

Shocks and Strains

On automobile machinery
are tremendous

Light construction is desirable.

Reputations of makers are at stake.

Lives of users are at stake.

There seems, therefore, no place for metals of inferior strength, such as malleable iron (malleable steel) or semi-steel.

There is no casting of greater strength than the steel castings that we manufacture.

Michigan Crucible Steel Castings Co.

DETROIT, MICHIGAN

DIE-CASTINGS

No Machining, Perfect Finish, Ready to Assemble

Over a "Million" of our castings are in use on the most popular automobiles. They constitute parts for **Magnetos, Carburetors, Water Pumps, Oil Pumps, Speedometers, Timers** and other numerous accessories. Our "Experience" in this field guarantees you satisfaction.

Our new plant has tripled our output, enabling us to guarantee prompt deliveries and to take care of all contracts this season.

DIE-CAST BEARINGS

Cast Accurate and Smooth in a Special Alloy. This alloy, our "**Sterling White Bronze**," is a special bronze with all the qualities necessary to give long and perfect service on automobile engines. The result of many years of experience and observation.

Estimates given on blue-prints or models. Samples upon request. Get on our mailing list for our literature and keep posted on the progress in the **Art of Die-Casting**.

- Hawes Storm Front Co., 25 N. Hanchett St., Coldwater, Mich. "Hawes."

DOUBLE CHAIN DRIVE

SUPERIOR TO SHAFT DRIVE

ON 1910 CHADWICK CARS, Diamond Chains are housed in oil-tight, dust-proof aluminum cases, showing a vital improvement in chain driving.

The radius rods are situated in the center of the chain cases, their centers being the centers of the jack shaft and rear axle, which has an I beam section, simple, light and strong.

The above construction gives a free, flexible movement of springs and frame, greatly increasing the life of tires and riding comfort, in direct contrast to the rigid, wearing pulsating effect, unavoidable with the heavy shaft-driven rear axle, directly supported by the tires.

Under these ideal conditions, Diamond Chains are noiseless, and will outwear gears.

If you have a transmission problem, send for our literature, and get the free advice of our engineering department.

DIAMOND CHAIN AND MFG. CO.

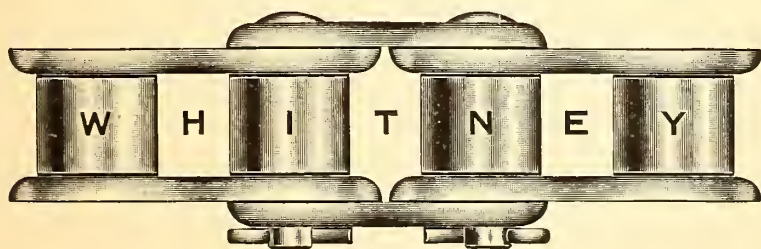

Capacity, 8,000,000 feet per year.

260 West Georgia St., Indianapolis, Ind.

“Whitney” Chains

“WHITNEY” CHAINS are made in a modern fire-proof factory and are used by the Leading American Makers of commercial and pleasure cars. A list of the cars driven by “WHITNEY” CHAINS will be furnished on application.

¶ At the Automobile Shows note the great number of commercial cars equipped with “Whitney” driving chains.

Control at Your Finger's Tip

The Eclipse Free Engine Pulley

can be attached to any belt-driven motorcycle. Saves gasoline and muscle, as the power can be shut off on the down-grade and the motorcycle can be started without working against the compression of the engine. It works on the principle of an automobile clutch and for steep hill work can be readily slipped to increase climbing power.

Price, \$15.00

For sale nearly everywhere. If your dealer does not sell it, write to us and we will tell you where it can be purchased.

We "made good" with our **Eclipse Coaster Brake**, and we stake our reputation on the **Eclipse Free Engine Pulley**.

We are also manufacturing Aeroplane hubs. If interested, write for particulars.

Auto Parts

Do you realize what it would mean to you to have our equipment, skill and almost unlimited capacity at your command?

OUR PLANT HAS FIVE ACRES OF FLOOR SPACE

¶ We can relieve you of all worry about details of design, manufacture and delivery of high-grade Bronze Parts for Automobiles.

¶ Our services include expert engineering supervision, skilled workmen, modern factory methods and equipment, careful inspection and almost unlimited capacity.

¶ Do not confuse our service with that afforded by ordinary shops; it means much more to you.

¶ We want only high-grade work for particular people.

¶ We are now making Steering Gears, Circulating Pumps and Fittings, Bearings, Bushings, Hub Caps, etc., for some of the most exacting Automobile Manufacturers in the country, to their entire satisfaction, from their own designs.

¶ Do not forget, we make prompt shipments.

Gordon Covers Fit

It is the fit and finish of Gordon Covers that make them worth more money than covers of other makes.

We have devoted ten years to the manufacture and improvement of fine fabric goods.

Our aim has always been to pay particular attention to details and give full value, using only the best of materials and first-class workmanship. We offer a line of goods that will give service and satisfaction.

SEND FOR COMPLETE CATALOGUE

GORDON EASY-ON TIRE COVER

This cover is what its name implies, the easiest cover to put on; cut and shaped to fit the tire perfectly; the only fastening necessary is at the ends, which overlap. The cover is drawn perfectly smooth and is fastened with buttons, and is therefore the Easy-On Cover.

The use of the several buttons allows of a considerable adjustment, and this cover will fit perfectly any and all makes of tires, round tread, flat tread, Bailey tread, etc., and will fit all makes of American and foreign patterns. This cover fits snug and smooth when the tire is new; also after the tire has been used; also after the tire has been retreaded, and this is something no other style cover will do.

We assure you this is the most satisfactory and economical tire cover on the market.

GORDON FITS-ALL HEADLIGHT COVER

Will fit all headlights, flare front, with or without bale, bullet, and search or cylinder lamps, rigid or swinging bracket, better than any other lamp cover. Made in only 3 sizes. When ordering give diameter of front glass.

6 to 8 in. 8 to 10 in. 10 to 12 in.

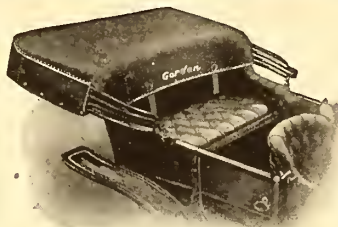

GORDON FITS-ALL SIDE AND TAIL LAMP COVER

Fits all sizes and makes of tubular and square lamps, gas or oil, and either side or tail lights. Made in 3 sizes. Small size fits lamps up to 12 inches in height; medium size up to 15 in.; large size up to 18 in. When ordering give height of lamp.

GORDON INNER TUBE

Made so that the tubes can be put inside and tightly closed by means of glove fasteners, absolutely protecting them from oil, dust or injury of any kind. Saves the tourist a great deal of trouble from inner tubes while on tour.

GORDON TOP HOOD

Keep your top lining from fading in the sun. Protect entire top from the dust, mud and water thrown up by the wheels, with a Gordon Top Hood. Fits

neatly and smoothly; top is always clean and ready to be put on. Hood prevents dust from coming up behind the machine, to the annoyance of the occupants of the rear seat. Only practical Top Hood, as any dealer will tell you. Have been making Hoods for ten years and have all the good features patented. Made in sizes, of Gordon rubber, artificial leather and mackintosh goods, the former being most popular.

GORDON RUBBER INNER PATCH

This shoe will carry a 5-inch tire, with a 2½-inch blow-out, 1500 miles, without the use of an

outer shoe, and it will not creep or fail in any particular. What other shoe will do this?

Gordon Shoe is made of the finest Sea Island Fabric, the cotton for its production is combed and carded as in wool productions.

The shoe is built of various layers of Sea Island Fabric laid on the bias in the same scientific manner as the tire is built, and between each layer of Sea Island Fabric is a coat of Para rubber.

The outside of the Gordon Inner Shoe is coated with a heavy coating of Acra Flake Cement to get the sticking qualities. To apply the shoe wash the casing around the break with a little gasoline, to take out the soapstone and give a clean surface. The Gordon Shoe will then stick, its liberal size insures a perfect repair, and we guarantee it not to creep. The shoe can be taken out and used again and again.

Every tire shoe is packed in a separate box.

No. 1101 shoe is built of three layers of Sea Island Fabric; repairs 2½-inch and 3-inch tire.

No. 1102 shoe is built of four layers of Sea Island Fabric; repairs 3½-inch and 4-inch tire.

No. 1103 shoe is built of five layers of Sea Island Fabric; repairs 4½-inch and 5-inch tire.

These bands are to cover injured places in the tire; they make the tire last until you reach home and save trouble of changing on the road. Prevent "blow-outs" and save re-treading when tire is in good condition except at one place. A big economy. Made of Gordon leather, specially treated to make it tough and pliable; in six sizes to fit closely against the tire from end to end of the band; laces of rawhide lacing leather, holes for lacing being reinforced with brass gromets and guaranteed not to tear out. Plain or with rivets.

For Sale by All Jobbers and Dealers. Manufactured by

A new crank shaft design, for which we are prepared to furnish forgings in large or small quantities. The sizes given are the sizes to which the shaft will finish.

Crescent Forgings Company

OAKMONT, PA.

The Back-Bone of the Power Plant,—the CRANKSHAFT

Are yours proving entirely satisfactory?

You know it doesn't pay to take chances with such an important part of a car, so if you have your doubts about your present equipment, better be on the safe side and make sure of getting the best that can be made.

It is a matter of pride with us that we are supplying the largest and best automobile manufacturers in the country, and we unhesitatingly guarantee our **Crankshafts** to be true to drawing, and beyond reproach in quality, durability and strength.

May we have an opportunity of submitting estimates?

Cut Gears

—and—

Complete Differentials

Q We have one of the best equipped plants in the world for turning out accurately cut gears of any kind, and material in any quantity.

Have 75 gear-cutting machines and the proper lathe equipment for keeping them busy. Our hardening plant contains six furnaces equipped with a pyrometer system.

Q We make two sizes of complete Differentials for motors up to 4½" bore.

—THE—

New Process Raw Hide Co.
SYRACUSE, N. Y.

GET RIGHT ON YOUR IGNITION

Specify the B. & S. Igniter on your new car, or to replace the out-of-date system on your old car when it is overhauled.

So simple and compact that it can be attached to any motor with trifling expense.

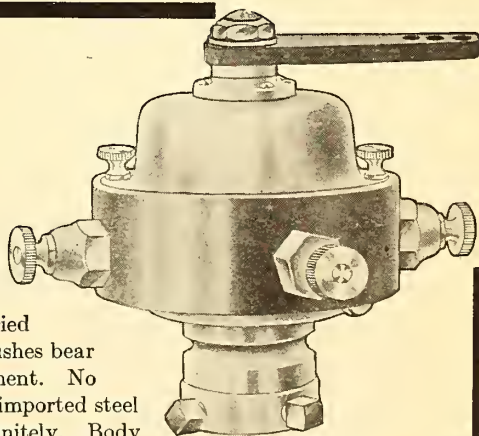

Always operates at **maximum** efficiency regardless of motor speed.

Will give better results than **any** magneto at one third the cost.

It's worth investigating.

BRIGGS & STRATTON CO.
MILWAUKEE :: WISCONSIN

Seeley Circuit Controller

A Mechanical and Electrical Masterpiece.

Low tension distributor, built on time-tried principle of electric motor commutator. Brushes bear upon smooth, hard, steel ring with insulated segment. No burning possible. Bearings equipped with finest imported steel balls. Adjustable cones for taking up wear indefinitely. Body does not rotate for advance and retard. No twisting of cables and breaking of terminals. Decidedly the best controller for your car.

The Seeley Ignition System eliminates vibrators. Exerts more explosive action on gases. Saves battery energy and fuel. Average battery draught, one-fourth ampere. Ignites every charge with certainty. Absolutely accurate timing at all speeds. Nothing to wear out. Cannot burn out. Saves time, trouble and money. Adopted for 1910 by manufacturers of such high-class cars as the Columbia. Write for illustrated booklet.

ENGINES, Gasoline

(See Gasoline Auto Motors & Marine Gasoline Motors.)

ENGINES, Kerosene

(See Kerosene Marine Motors.)

The Elba system is several years in advance of any other method of generating, storing, distributing and utilizing electricity for automobile lighting and ignition. The Elba System is backed by nineteen years' experience in making identical systems for railroad train lighting.

ELECTRIC

lighting is revolutionizing automobile illumination, just as it has in the past displaced all other methods in the lighting of homes, offices, factories, trains, steamships, etc. Automobile electric lighting has, until recently, been impractical because of inadequate equipment. The Elba System is the first complete system for both electric

LIGHTING

and ignition of automobiles. The complete Elba System consists of a self-regulating generator, storage battery, ampere meter, switch, Elba lamps and Tungsten bulbs. The Elba generator maintains the same voltage at 500 R. P. M. or at any higher speed without governors or other devices. Straight storage systems without the generator can be used but are not so powerful nor convenient. Every part of the Elba

SYSTEM

and equipment is refined to the highest state of perfection. There is nothing about it experimental or untried. All the devices have given years of satisfactory service in Pullman car lighting and have proven their ability to meet the requirements. Nothing has been left out that would add to its efficiency.

All in all, we present the first complete, high-grade, mechanically and electrically perfect Automobile Lighting System on the market.

The Perfected Speedwell 2 Cycle Air-Cooled Motor, the Motor with a Future

ANNOUNCEMENT

In the August issue of this Journal, 1908, we had the last advertisement of any kind printed, and since this time we have been running our plant over-time, being at all times from 3 to 6 months late in delivery. Realizing that something had to be done so as to be more prompt in deliveries and also take care of the wonderful amount of new business that we were forced to turn down, we therefore decided to build a new plant, which we have done and which is now in full operation; operating our own foundries, so that we are not dependent upon any one. We will therefore be able to take care of any and all demands, on and after Jan. 1, 1910, for our line of 2 cycle air-cooled motors which are built in sizes from 6 to 50 horse-power.

The best motor proposition on the market today as hundreds of testimonials will prove. "Are you alive or a dead one?" If dead, wake up and close your contract at an early date for the "Speedwell" 2 cycle air-cooled motor and you will then have a motor that will sell your cars and increase your net earnings. 1910 catalog and price list ready.

A. H. Yocom Co.
Reading, Pa.

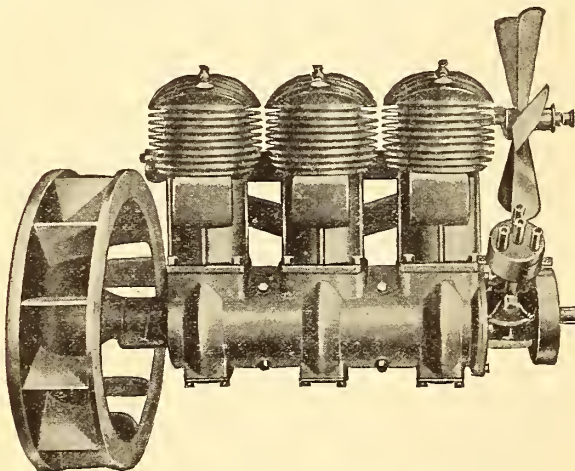

Showing the largest and best equipped plant in the world building 2 cycle air-cooled motors exclusively.

"A slight pull and tank is full"

**The HYDRAULIC
 System of Gasolene
 Storage MEANS**

**FULL TANK
 TOP FEED**

NO DIRT
 WATER
 DANGER
 STRAINING
 EVAPORATION
 DETERIORATION

None of these possible by any
 other system

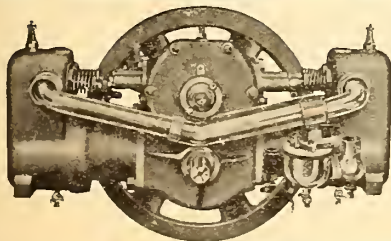

The Hydraulic System

has been adopted by the largest Taxicab Companies, Automobile Factories
 and Garages in America. We have made the largest Garage and Factory
 installations in the world. The **Hydraulic System** works equally as
 well for a one-barrel plant as for 250,000 gallons. For full details write

Put an end to fuel troubles with a **BOWSER**

Underground Gasolene Tank

Why worry your car and yourself with *weak, dirty* gasolene? A Bowser Outfit will keep the *life* in your fuel—keep it as *strong* and *pure* as the day you get it.

Why let evaporation *rob* you? Not a drop is lost with a Bowser Outfit. You use *all* you buy.

Why buy a *few* gallons at a time at *retail* prices? A Bowser Outfit gives you the storage facilities for a *barrel* or more. That means *wholesale* prices.

FREE to automobilists, prospective buyers, and owners of public and private garages: Bulletin No. 11 giving valuable pointers on gasolene storage and garage equipment. You should have it.

Why run the risk of *fire* and *explosion*? Over a hundred Bowser Outfits went through the San Francisco fire and *not one* was *damaged* or *added fuel* to the flames.

Why bother with *dripping* measures and *leaky* cans? A Bowser Outfit pumps gasolene *directly* into your car and measures the supply *automatically*.

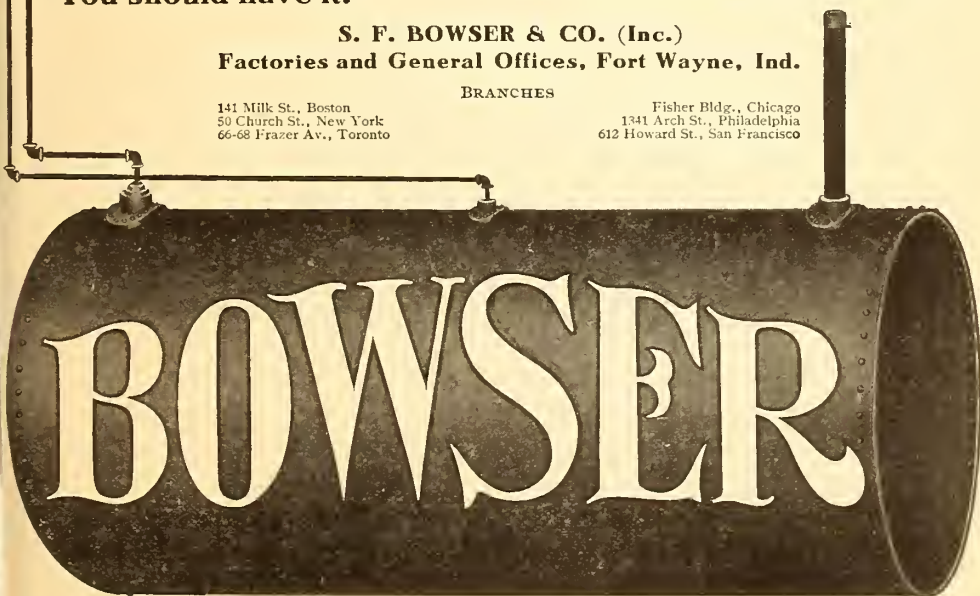

Why not store your fuel just right when you *save* money and trouble by doing it? *Bowser stored gasolene is the standard.*

THE MILE-AHEAD ELECTRIC SIGNAL

THE PIERCING NOTE THAT COMPELS ATTENTION

Distance penetrating automobile signals must increase their "reaching" powers in direct proportion to the marked increase in the speed capabilities of the car—the higher the speed, the further ahead must the signal warn.

This is the day of the high-g geared, high-powered cars.

And it is the day of the SirenO—the high-powered, penetrating signal—the horn with a voice of volume and strength great enough to project your warning message a mile ahead on a country road.

Gradually, but with irresistible force, the importance of the Long Distance Signal Horn is being borne in on the minds of the motoring public. If your own observations have not confirmed this statement, let us give you some facts to substantiate this assertion:

In the last twelve months the demand for the SirenO Electric Horn has developed so rapidly that the company's output has increased four times over that of the preceding year! From all indications the year 1910 will see even greater progress!

The SirenO—the "Press-the-Button" type—the horn that is operated from the ignition battery—that responds instantly with an unmistakable note of warning is the only one that will fulfil your every requirement, insure your safety and comfort, and that of countless others.

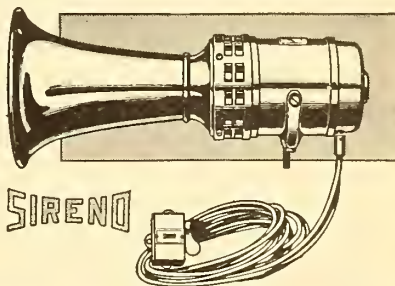

The SirenO has a commanding individuality of sound which is bound to attract attention where the low, vibrating note of the ordinary signaling device is common enough to be unheeded.

The SirenO is manufactured in eight styles and sizes—a horn for every car, from the smallest runabout to the largest touring car. They may be seen at your dealer's or we will be glad to mail you further information contained in our catalog, which is just from the press.

"Light on the Trouble Question"

CHRISTMAN

ADJUSTABLE DASH LIGHT

"Trouble
Hunting"
by
Night
on
Any Part
of
Your
Car
Made Easy

Open the
Box, uncoil
the wire
—and go to
the Heart
of the
machine
with an
Electric
Glare

The Christman Adjustable Dash Lamp is a 6 x 4-inch walnut finish box attached to the dash of the car, and connected with the storage battery or dry cell battery for its current. It "lights" automatically, when the box door is opened, releasing the light bulb, which has a 10-foot coil, allowing the lamp to be moved to any part of the car. Broken globes or smashed lamps (so common to the tool box variety of lamp) are impossible. It is the lamp that's always with you and always ready for use—and always in the same place in time of trouble.

Everything in Auto Tires *and* Accessories

Provided that they are dependable goods,
can be procured from the house of

GIBNEY

Complete outfitters for

The Car
The Owner
The Chauffeur

This business has been built from a small beginning to one of the largest in America largely through a rigid adherence to the highest business standards. We are absolutely insistent upon the following points:—

Quality

Of Goods.—Everything that we sell must be of good quality or it cannot find a place on our shelves. The merit of an article, and not the profit to be made from its sale, is the sole consideration that earns it a place in our stock.

Square

Dealing.—Everything that we sell carries our own as well as the maker's guarantee. A satisfied customer is our best advertisement and every article that leaves this place must be as represented or we will make satisfactory adjustment. Anyone may order from us with perfect security.

Prompt

Delivery.—Our stock is large and complete in every respect, and we make deliveries at the earliest possible moment, making it a point to supply dealer or owner without the slightest delay.

*Our large catalogue is an index to the best
automobile accessories—sent free on request.*

Lights Your
License Tag
as the Law
Requires

Avoid Arrest and Heavy Fine

by attaching your 1910 tag to the NEW PATENT

Neverout License Bracket

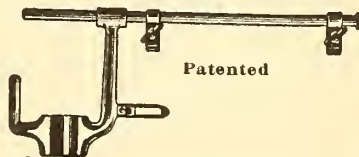

the only sure way to comply with the law—throws light directly on license tag.

Tag cannot swing, cannot rattle, cannot mar car, cannot be lost, is firmly held in place by adjustable metal clasps.

Instantly attachable and detachable when touring other states.

This shows why the Neverout License Bracket fits any tail lamp, is easily attached to your present tail lamp bracket, requires no drilling of frame.

Price, \$3.50 For sale by most good dealers. If you are a good dealer, get our proposition—it's extra good for you and your customers

STAR AUTO LOCKS

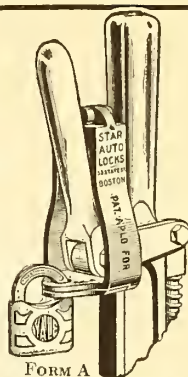

437 EXCHANGE BUILDING, BOSTON

A locking device applied to the emergency or ratchet brake lever, providing effectively against accidental or unauthorized setting in motion of the car

The only lock acknowledged to comply with the law, and affording as well a security against theft,—movement by mischievous persons,—or starting of a car on an incline.

The **Star Auto Locks** are covered by applications for patents, also controlling improved forms for future construction of the ratchet lever, whereby the release of the ratchet is variously prevented by locking devices on and along the lever itself.

SIMPLE EFFECTIVE SECURE

Q Our location in the **CAPITOL CITY** enables us to furnish a daily report of the New York State automobile registrations that surpasses all attempts. **A WEEK'S TRIAL GIVEN FREE, to PROVE our claims, at our expense.**

If it's the
FAT HOT ARC FLAME
you're after, choose the
HERZ
MAGNETO

that self-contained high-tension Magneto they all talk about. No coils, no dangling wires—just Magneto and plugs.

THE
HERZ
MAGNETO

is made for the largest touring-car as well as the smallest motorcycle. 15,000 motorcycles are using the "Herz" in 1910.

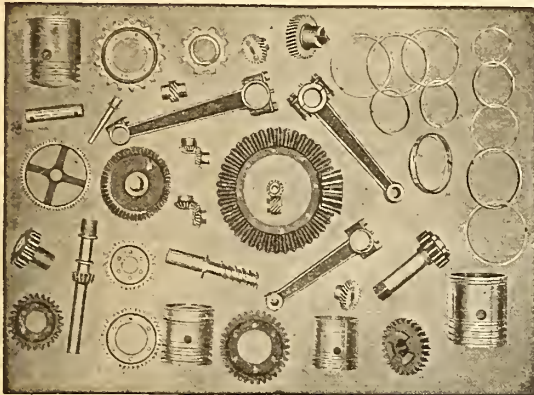

Insist upon the "Herz" on your car and be done with ignition trouble thereafter. Write us.

HERZ & CO., 295 Lafayette St., New York

See our ad., page 342.

ATTENTION! Motor Car Builders!

Manufacturing Details Relieved Product Improved

We specialize in the production of machine parts, such as

**Pistons, Piston Rings,
Piston Pins, Motor Gears,
Transmission Gears,
Hardened and Ground
Parts.**

All to your specifications where required. We offer you a better product at a consistent price and help you out with your manufacturing details.

Try us on Helical Cut Motor Gears and let us solve the motor gear problem for you.

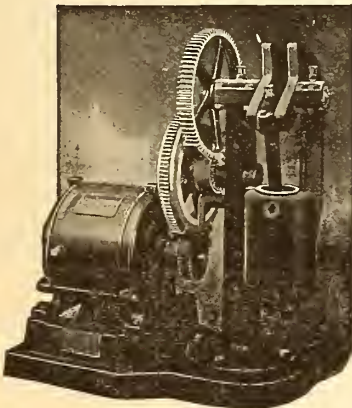

Bearing Troubles Eliminated

Our improved system of die casting and the use of only the highest grades of bearing metals enables us to offer you a die cast bearing proposition of superior merit.

We furnish die cast bearing bushings to your specifications in any of the high-grade motor babbits or Genuine Parsons White Brass.

Will You Send us Your Blue Prints for Estimate ?

Garage Labor Lightened FOR THE GARAGE

Designed especially for garage use, our line of Belt and Motor Driven Air Compressors, for tire inflating and cleaning purposes, lighten labor in the garage and save you money. Single and Three cylinder styles.

A post card brings a circular.

1910 PITTSFIELD 1910

High Tension Magnetos

(MADE IN AMERICA)

The man who uses a PITTSFIELD SYSTEM never gets in a tight place and sticks there for want of sufficient power from his motor. Any good motor can furnish the power if the mixture is properly ignited.

The PITTSFIELD MAGNETO gives the maximum efficiency of the fuel, the full power of the motor and increases the snap of the engine a hundred per cent.

One-quarter turn of the crank with the timing lever fully retarded starts the motor equipped with a PITTSFIELD MAGNETO. Perfect timing is assured through the absence of small and delicate parts in the Distributor. Absence of coil troubles is obtained, since there are no moving wires. Primary and Secondary currents generated in stationary coils.

Magneto
Spark Plug

All Pittsfield Systems are Trouble Proof. Write for Details.

Do You Want a Guess or a Certainty?

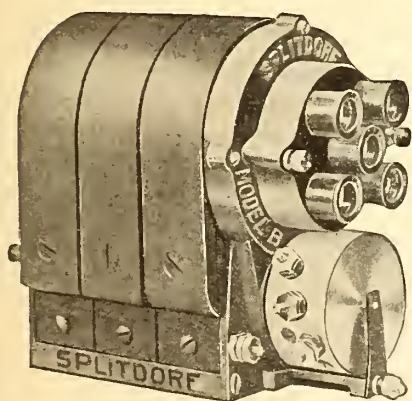

The growing popularity of Magneto Ignition has caused many new and untried Magnetos to appear on the market.

On the other hand, the remarkable Efficiency and Reliability of the long used

SPLITDORF MAGNETO

has been so fully and so frequently shown in numberless endurance tests—many of them severe beyond belief—that the leading authorities in motordom give it

First Place in the Ignition Field

Model B Magneto

Why not equip your car with a Magneto that has stood the test of time and has made good? One whose high merit is daily winning many new friends?

With a SPLITDORF on your car all ignition troubles disappear and Perfect Ignition is an Absolute Certainty.

Garage and Auto Owners and Dealers

We want you to know the merits of

A ONE 1 METAL POLISH

and be the sole judge of its superiority. If you will agree to give it a trial, ask your nearest supply house for a sample; or write direct for a large free can, which will be sent to any address in the United States.

Inquire of any user of A-1 Metal Polish for his opinion. We need no other recommendations.

MOTOR CYCLE ENGINES

(See Cycle Motors.)

GYREX

• THE MIXER •

THE Perforated Turbine
 breaks up gasoline spray
 in the intake pipe and gives
 uniform, quick-firing mixture.

PRODUCES

Complete Combustion
 Flexibility
 Steady Torque
 Efficiency

ELIMINATES

Overheating
 Vibration
 Back-Firing
 Carbonizing
 Sooting and Smoke

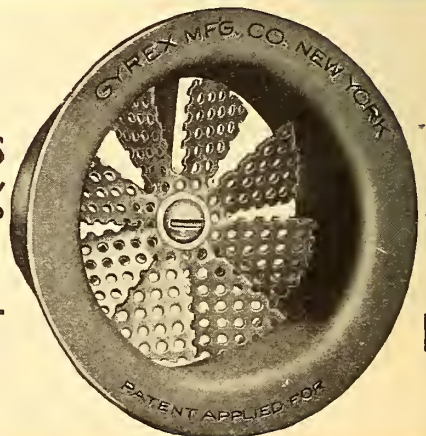

Excessive Gasoline Bills

Saves its cost in 50 gallons

All Standard Sizes Price, \$3.00

Inserted in any motor in five minutes

Saves
 20 %
 of
 Gaso-
 line

Add
 15 %
 to
 Pow

Gyrex Mfg. Company

1777 Broadway :: New York City

MOTOR

VS.

CARBURETER

Complaint.

No matter how much money and care

A manufacturer may put into the construction of his MOTOR,

The moment he attempts to demonstrate its Power, Smoothness and Flexibility

He is at the mercy of a CARBURETER.

And, more's the pity—*a carbureter that does not carburet.*

TO CARBURET, means to impregnate the air with gasoline.

Air cannot be carbureted, unless the hydro-carbon is Evaporated.

Gasoline will Evaporate through absorption by the air—

It will Evaporate more rapidly if agitated.

The more violent the agitation—the more rapid the Evaporation.

Carbureters furnish a stream of gasoline spray and air.

Carbureters do not agitate.

Therefore, *carbureters do not carburet.*

Perfect combustion depends upon correct proportions of gasoline vapor and air,

And the two, being *evenly mixed.*

How are the two elements to be evenly mixed—

Unless every bit of air be impregnated with gasoline, and

How can every bit of air be impregnated—

Unless the gasoline be Evaporated and Diffused and Beaten into it?

How can gasoline be Evaporated and Diffused and Beaten into the air?

Unless there be *violent mechanical agitation*

While the gasoline spray and air are passing through in correct proportions?

How can such Mechanical Agitation be obtained?

By inserting a **HOMO** between the carbureter and the intake manifold.

**Makes a 4-Cylinder Run Like a 6-Cylinder
on the Gasoline Consumed by a 2-Cylinder**

H O M O

Cincinnati's Largest Manufacturer of Coach and Auto Colors

Established 1899

The Cincinnati Color Company

MANUFACTURERS OF

COLORS AND VARNISHES

Eighth and Evans Sts.

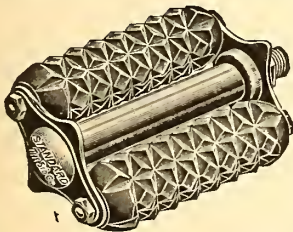

Cincinnati, Ohio

OUR SPECIALTIES:

Japan Colors, Elastic Colors, Oil Colors, Solid Covering, Color Rubbings, Varnish, Color Varnish, Varnish Stains, Fillers, Primers, Rough Stuff, Carriage Gloss Paints, Top Dressing, High Gloss Finish, Air Drying Enamels, Baking Enamels, Metal Fillers, Machine Paints, Shellacs.

Standard Motorcycle Parts

Standard Motorcycle Pedals

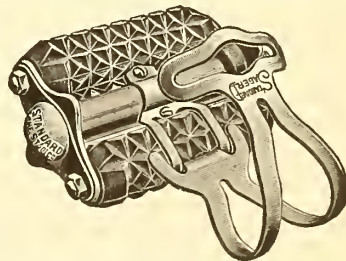

are just a little bit better than anything else of the kind on the market. That's why machines that are **STANDARD** equipped sell quicker than others.

STANDARD PEDALS wear well. They are strong and light, and the deep corrugations in the rubber hold the foot firmly and absorb vibration. They are reversible, thus enabling the rider to

get the fullest service from them.

STANDARD SAGER TOE CLIPS are comfortable and highly efficient; strong and neat in appearance.

Write for details of our complete line, which includes **Spokes and Nipples, Bridgeport and Star Pedals** and the famous **BREECH-BLOCK Spark Plug**.

Standard Sager Motorcycle Toe Clips

The Standard Co., Torrington, Conn.

PINIONS

(See Gears & Pinions.)

PIPE COVERINGS

- ★Johns-Manville, H. W. Co., 100 William St., N. Y. City. (Asbestos.)
- New Jersey Asbestos Co., Camden, N. J. "Gladiator."
- Walworth Mfg. Co., 128 Federal St., Boston, Mass.

PIPE FITTINGS

- Badger, E. B. & Sons Co., 63 Pitts St., Boston, Mass.
- Barco Brass & Joint Co., N. Jefferson St., Chicago, Ill. "Barco." (Flexible joints.)
- Bard Union Co., Norwich, Conn. "Bard." (Pipe unions & flange unions.)
- Barrett, James Mfg. Co., 48 Pearl St., N. Y. City. (Brass.)

- Oldberg Mfg. Co., Detroit, Mich.
- Sherman, H. B. Mfg. Co., 12 Barney St., Battle Creek, Mich. (Brass nipples, unions, etc.)
- Swing Union Co., 155 Water St., New London, Conn. "Swing."
- Thomas Brass & Iron Co., Waukegan, Ill. (Brass.)
- Turner Brass Works, The, Sycamore, Ill.
- Walworth Mfg. Co., 128 Federal St., Boston, Mass. (Brass.)

PIPE JOINT COMPOUNDS

- ★Dixon, Jos. Crucible Co., Jersey City, N. J. "Dixon's."
- ★Johns-Manville, H. W. Co., 100 William St., N. Y. City. "H. O."
- U. S. Graphite Co., Saginaw, Mich. "U. S. G. Co.'s."

PIPING, Exhaust and Intake

(See Manifolds.)

PISTONS & PISTON RINGS

- Capitol Foundry Co., The, Hartford, Conn.
- Columbia Steel & Shafting Co., Pittsburg, Pa.
- Detroit Seamless Steel Tubes Co., 804 Union Trust Bldg., Detroit, Mich. (Pins.)
- Empire Foundry Co., New Brunswick, N. J.
- Ferro Machine & Foundry Co., The, 115 Wade Bldg., Cleveland, O.
- Hungerford, U. T. Brass & Copper Co., 497-503 Pearl St., N. Y. City. "Star."
- Jorden, R. H., Millvale, Pa. (Steel.)
- Kilroy Piston Ring Co., The, 74 Cortlandt St., N. Y. City. "Kilroy." (Rings.)
- Manville Bros. Co., Waterbury, Conn.
- National Metallic Packing Co., Oberlin, Ohio. (Rings.)
- ★Spacke, F. W. Machine Co., Madison Ave., Merrill & Penn Sts., Indianapolis, Ind. (Also pins.)
- Wainwright, W. W. & Son, 16th St. & Western Ave., Connerville, Ind.
- Wille Piston Works, 17 Herkimer Pl., Brooklyn, N. Y. "Wille." (Also renewal pistons.)

PISTON SEATING COMPOUNDS

- Bornschein, J. F. & Co., 2351 Indiana Ave., Chicago, Ill. "Compression."

PLANETARY GEARS

(See Speed Change Gears.)

PLATINUM RIVETS

- American Platinum Works, 251 N. J. R. R. Ave., Newark, N. J. (Also platinum iridium.)
- Baker & Co., Newark, N. J. (Iridio platinum.)
- Boker, H. & Co., 101 Duane St., N. Y. City.
- Croselmirre & Ackor Co., 42 Walnut St., Newark, N. J. (Platinum iridium.)
- Roessler & Hasslacher Chemical Co., The, 100 William St., N. Y. City. (Also platinum iridium.)

POLISHERS

Continental Waste Co., 22 Clayton St., Dorchester, Mass. "XXX." (Polishing cloths.)
 Howard Dustless Duster Co., 164 Federal St., Boston, Mass. "Howard." (Dustless duster.)
 Mill Remnants Co., 102-04 Greenwich St., N. Y. City. (Polishing cloth.)
 North, Jos. W. & Son, 6th, Fulton & Franklin Sts., Elizabeth, N. J. (Polishing cloths.)
 Wood, W. A. Co., 373 Atlantic Ave., Boston, Mass. (Cleaning & polishing cloths.)

POLISHES

(See Metal Polish & Wood Polish.)

POLISHING, BUFFING & PLATING

Acorn Brass Co., 227 N. Peoria St., Chicago, Ill. (Polishing & plating.)
 Aetna Brass Mfg. Co., The, 4800-4810 Hamilton Ave., Cleveland, O. (Buffing & polishing.)

Attwood Brass Works, 18-20 Bowery St., Grand Rapids, Mich.
 Boston Nickel Plating Co., Inc., 160 Portland St., Boston, Mass. (Plating.)
 Bridgeport Electro Plating Co., 125 Kossuth St., Bridgeport, Conn. (Nickel, brass & copper plating.)
 Champion Safety Lock Co., Geneva, Ohio. (Electro plating.)
 Chicago Steel & Brass Works, 1121-23 Washington Blvd., Chicago, Ill.
 Clark Novelty Co., 380 Exchange St., Rochester, N. Y. (Nickel plating.)
 Etching Co. of America, 2526-28 W. Congress St., Chicago, Ill. (Plating.)
 Keeler Brass Co., Grand Rapids, Mich. (Brass plating.)
 Keyless Lock Co., The, Indianapolis, Ind. (Nickel, brass & copper plating.)
 Nehls Plating Works, 248 Brush St., Detroit, Mich. (Brass & nickel plating.)
 Rockford Metal Specialty Co., Rockford, Ill. (Brass plating.)
 Sterling Machine & Stamping Co., Wellington, O. (Electro plating.)
 Tresal Bronzing & Plating Co., 245-47 W. 28th St., N. Y. City. (Brass & nickel plating.)
 Turner Brass Works, The, Sycamore, Ill. (Plating & polishing.)
 Worcester Pressed Steel Co., Barber & North Aves., Worcester, Mass. (Electro-plating.)

PORCELAIN

(See Insulation.)

UNION CINCH

PATENTED AUG. '09

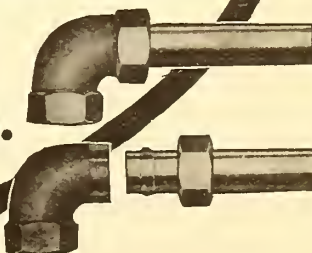

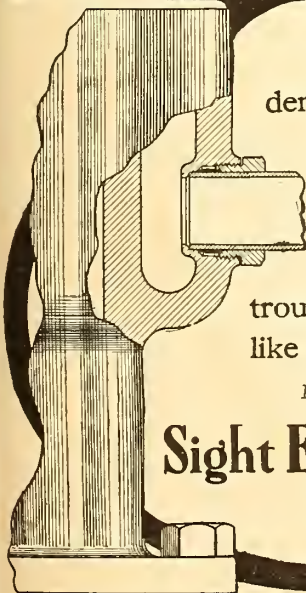

For water connection to automobile cylinder, without flanges or milled bosses. Just a counterbored and tapped hole and the neatest, tightest connection ever.

Certainly. Take it apart and put it up again. No gaskets and mighty little trouble. Our engineering department would like to talk with you about it.

MANUFACTURED BY

Sight Feed Oil Pump Co.

Milwaukee, Wis.

PORTABLE ELECTRIC LAMPS

(See Inspection Lamps.)

PORTABLE HOUSES

(See Houses, Portable Auto & Houses, Boat.)

The Baldwin Auto Guide

is the newest departure in touring accessories. Does away with clumsy guide books and maps and will revolutionize the present method of touring by the hit or miss method.

The Baldwin instrument is attached to the steering column, **the one logical place for such a device.** Adjustable to any column. You can read the explicit directions very easily and you **operate the Baldwin with one finger**, without taking your hand from the steering wheel.

The Guide Holder here shown is 6 inches long and 3 inches in diameter, made wholly of brass and aluminum. Inside the holder are two brass reels operated by gears, the latter controlled by the hand wheel, a battery and a 2½ candle power light. The Baldwin Route Sheets are marvels of brevity and clearness, and the text is supplemented by arrows which point in the direction of the necessary turn or change of course.

The Baldwin Auto Guide had a "walkover" at both the New York and Boston Automobile Shows. We booked a large number of advance orders with only a model to demonstrate with. We shall be able to fill a few additional orders by April 15th, and live dealers are invited to write for terms, literature and sample route sheet. A limited number only of dealers and agents can be taken on in 1910.

For Owners, Dealers, Builders, Salesmen and Chauffeurs

CYCLOPEDIA OF

AUTOMOBILE ENGINEERING

Four big volumes — 1,700 pages — 1,500 illustrations — full page plates — half-tones — diagrams, sections, etc.

THOROUGHLY indexed and bound in half morocco. Presents the most complete information ever published on the automobile industry. History and development of the automobile from the time it was invented. Describes all makes of machines—mechanism, care of auto, art of driving—a practical guide for information regarding construction, maintenance and operation. Contains complete instruction on repairing. Written by experts.

Examine the Books at Our Expense

We will send you a complete set by prepaid express. Keep them five days—give them a thorough and careful examination. If you do not wish to keep books, advise us, and we will have them returned at our expense. If you keep the books send us \$2.00 in five days and \$2.00 a month until special introductory price of \$12.80 has been paid. Regular list price, \$24.00.

Order promptly and we will include for one year, as a monthly supplement, the **TECHNICAL WORLD MAGAZINE**, a regular \$1.50 monthly, full of interesting scientific topics written in popular form.

FREE OFFER COUPON

American School of Correspondence CHICAGO, U. S. A.

Please send set Cyclopaedia of Automobile Engineering for five days' free examination; also Technical World for 1 year. I will send \$2.00 within five days and \$2.00 a month until I have paid \$12.80; or notify you and hold the books subject to your order. Title not to pass until fully paid.

**200 REBUILT CARS**

at prices ranging from \$175 to \$3000. A high-grade used car, thoroughly rebuilt, made as good as new, and offered for one-half (or less) of its original price, is better value than a new car of the same price. Every car thoroughly rebuilt in our own shops and guaranteed. Before you buy write for our catalogue of rebuilt and new cars. We handle 15 makes of new cars.

KILGORE

Improved Automobile Air Shock Absorbers

Lead All Others in
Quality, Durability and Efficiency

Mechanically correct in every detail and now being adopted by the leading automobile companies. Unlike liquid and friction devices, the Kilgore does not stiffen the spring action. The excessive motion, both on the downward plunge and recoil, is absorbed automatically in a cushion of air.

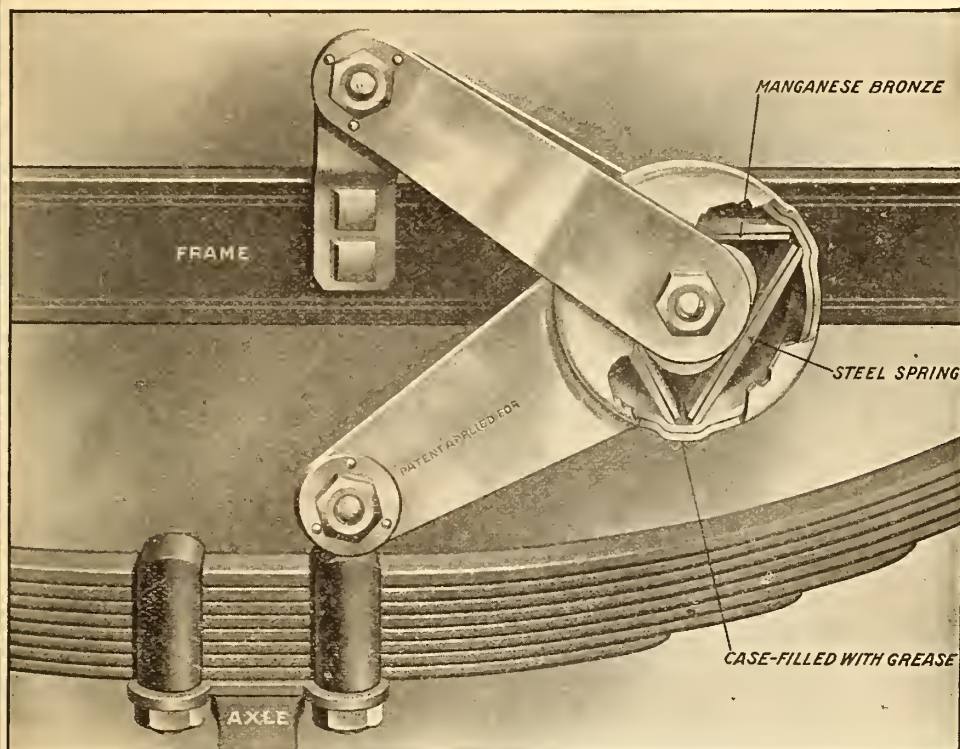

The only shock absorbing device in the world that requires no attention. Combines the maximum of comfort with the minimum of upkeep expense.

30 DAYS' TRIAL ONE YEAR GUARANTEE

For further particulars, catalogues, price lists, testimonials, etc., apply immediately to the

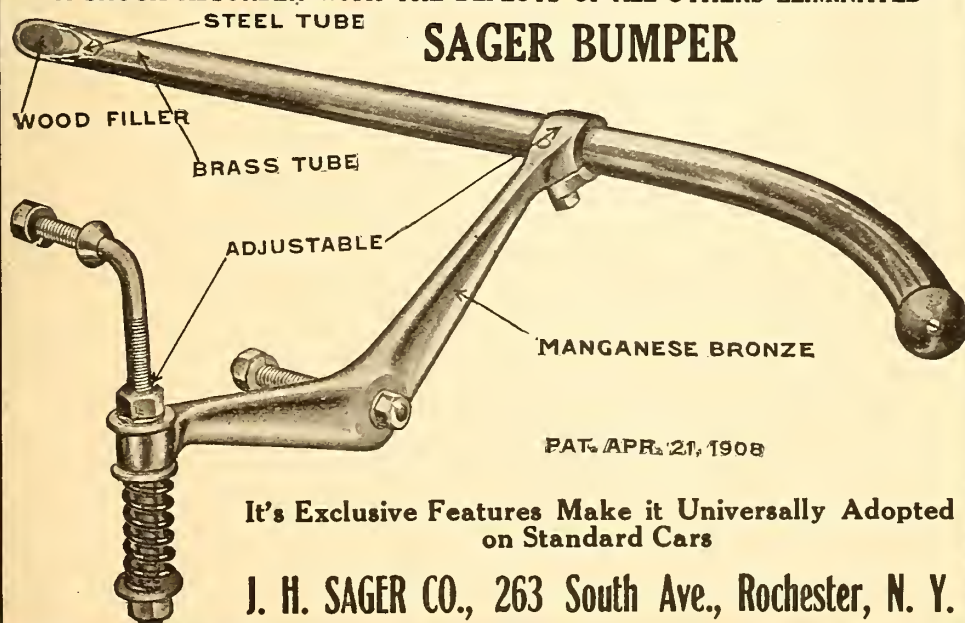

Kilgore Manufacturing Company
585 Boylston St., Copley Sq., Boston, Mass.

SOLID TIRES

(See Tires, Solid.)

★ indicates Advertisers—see Index in back of book.

TIRE "BUSTED"—
All Confusion—
Time Lost—
—THEN WHAT?

THE JENKINS EMERGENCY WHEEL

will eliminate the worries incident to tire puncturing. It is a worthy acquisition to the list of recent auto accessory inventions. Its simplicity makes it wonderfully invaluable. A child can install it in 10 minutes after the car is jacked up.

This wheel is strong, practically unbreakable and will center itself and run true on all automobiles.

Through its installation, delays are forgotten, repairs are unnecessary, and tire changing is made a thing of the past.

Besides—

BIGGER PROFITS FOR THE DEALER

Write for our handsome booklet "*Where Tire Troubles End*"—it gives all information, including prices, liberal discounts, to Auto Supply Houses, Garage Owners and the trade generally.

SPARK PLUGS

BLOOMFIELD, N.J.

We Are

Ashamed to admit that *we have not* booked orders for 3,631,276 Spark Plugs since January first, but it leaves us in position to give *your* order some attention.

Reported sales of plugs by sundry other manufacturers lead us to believe that considerable quantities are now being used as parlor ornaments, for track ballast, to fill in swamp lands, and in other ways our salesmen have been slow in discovering.

They also explain what absorbed that big surplus of idle freight cars the railroads were complaining of only a few months ago, and why all the steel mills are running over time, though now and again we seem to detect an odor closely resembling in volume and temperature the unmuffled exhaust from a six cylinder.

It Is

Humiliating to have also to acknowledge that *our* plug was *not* born so absolutely perfect five years back as to make it impossible (for us) to improve it. On the contrary, we are *unable to deny* that the plug we are turning out today is so far ahead of the one we made in 1904 that the relationship is scarcely recognizable.

We have seen *enough new business* so far this year to encourage the belief that we will at least not have to lay off any of our help, and if we get so busy that we *can't keep up with the orders* we won't waste money in renting expensive space in the trade papers to *say so*, and *solicit more business*.

In the meantime, if you have use for a thoroughly dependable Spark Plug (Every one a Magneto plug this year) with five years' development and a well-equipped plant back of it, we suggest the "Delta."

The Delta Manufacturing Co.
Bloomfield, N. J.

Here is a cut of our **Type "K" (Shaft Drive) Planetary Transmission**

Michigan Automobile Co., Ltd.
Kalamazoo, Mich.
Title: Type K. Ammann & Sons
Designed by: Traced by: J. H. A.
Drawn by: J. H. A. Checked by: J. H. A.
Date: 2/20/1914

Made also for Chain Drive. 12 to 20 H. P. The best for Light Delivery Wagons.

Michigan Automobile Co., Ltd., Kalamazoo, Mich.

SELECTIVE TYPE AUTOMOBILE TRANSMISSION GEARS. STYLE 3V, 60 H. P. AND LOWER STYLE 33V, 35 H. P. AND LOWER

Made in both vertical and horizontal types and fitted with annular ball bearings, as specified:

The gears are made of chrome nickel steel, hardened, treated and ground to size; the shifter rods are fitted with an automatic inner-lock, making it impossible to mesh two gears at one time; the rods are also fitted with registering pawls to automatically lock sliding gears in and out of mesh. All parts are interchangeable. We make many other different types transmission to fit any car. Our work is of the highest type only. Write us for prices and detailed information.

We have our own Drop Hammer and Hardening Plant, the best machinery money will buy, 18,000 feet of floor space, and a reputation for turning out nothing but the best grade of work.

The Warner Auto-Meter

The Auto-Meter Costs More

The Slogan of Competition may be said to consist practically of the phrase, "It's cheaper than the Warner Auto-Meter."

For the fact is everywhere acknowledged that the Warner Auto-Meter is the aristocrat of speed indicators.

Let us see what merit there is in this cry of cheapness:

Let it be admitted at the start that the Warner Auto-Meter is the highest priced speed indicator made.

No expense whatever is spared in its construction. Accuracy and dependability are the sole aims. It is built with the same care and thoroughness as the finest watch.

Yet the demand of the Warner Auto-Meter has increased so rapidly that our output has been quadrupled within two years. And our factory is the best equipped of its kind in the world.

Now, then can anyone else make **the same quality more cheaply than we?**

Must there not be a reduction in accuracy, in reliability, in quality, to offset the reduction in price? Judge for yourself.

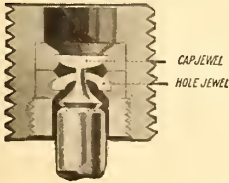

And remember, too, that the Warner Auto-Meter is constructed on the only principle which experience has demonstrated to insure accuracy under all conditions—the principle of magnetic induction.

We should like to send you our booklet, going more into detail.

Model M, \$125

A Delicate Operation in Warner Auto-Meter Construction—One of Many

The Jewel Bearings. The bearings which support the pivot are sapphires, drilled, ground and lapped by jewelers' machinery. They are identical in every way with the pivot jewels used in watches of the highest grade. The hole in the hold-jewels is "olive" shape (so called), the largest and best form of jewel construction. This means that the holes are beveled, being largest at the outside and tapering toward the center, so that while a body of sapphire is used large enough to withstand breakage, the actual bearing surface which comes in contact with the pinion is less than a hair's breadth. The end of the pinion which comes in contact with the cap jewel is rounded, so that the end or

thrust bearing is a mere point. Watchmakers have found that this construction comes so near to eliminating friction entirely that no machine has been devised sensitive enough to measure or indicate the degree of friction which exists.

Makes Cost of Upkeep Small

An automobile must endure terrific strains and shocks known only to motor vehicles.

We have proved that a spring to be strong does not have to be stiff.

By most careful choice of steel and scientific methods of tempering we have succeeded in producing a spring possessed of that rare combination of the strength necessary to withstand the most severe strain and a most remarkable resiliency.

It is this resiliency which makes touring most comfortable and enjoyable. It protects the delicate mechanism of the car and cuts the cost of upkeep in half.

Cleveland-Canton Automobile Springs

possess in a most remarkable degree a combination of rare tensile strength, elasticity and anti-fatigue properties.

These springs are Heat Treated in Oil—
not merely flashed in oil or chilled in water.

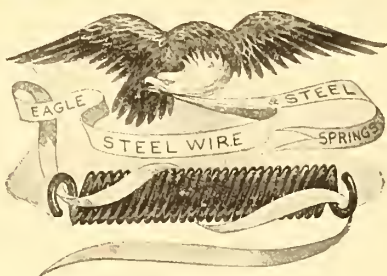

This scientific method of tempering assures a spring full of life, yet so tough that it can be relied upon in the time of severe emergency.

Made in two grades: **Best**—Chrome vanadium. **Next Best**—Special analysis.

Prompt Shipment Assured

Our new factory has just been completed. Here we will manufacture springs for motor vehicles only. With our improved and increased facilities we positively assure prompt deliveries.

Automobile Tires

Clincher and Quick Detachable

All New Goods, all High Grade Makes. Small Ad, Small Prices. Money Refunded at once if dissatisfied on receipt of goods. We are not going to tell you that we have contracts with Factories, for they are well able to sell their goods themselves. Our PRICES do the talking. Your money refunded, provided you do not use the goods. Before buying elsewhere let us give you expert information on tires. We are in the business 15 years. Even if you don't buy from us we will be glad to correspond with you. Will give you the best of our advice.

Best for Electrics

Why Palmer Web Tires Give greatest Mileage

1. On account of their "receptiveness" and "resiliency" these tires give off the energy consumed in surmounting road obstacles and rolling over inequalities of road surface. Hence, they are faster and at the same time *consume less current* from the batteries per mile of running than any other tires made.
2. Their durability is almost beyond comparison with other pneumatic tires for electrics. There is an adequate cushion of rubber for the tread, giving life and long wear to each tire. Unlike solid tires, they save breakage of battery plates and are easier on machinery and transmission as well as on the passengers.
3. They are Safe, Tough and Lively—the ideal combination for electric vehicles. All these facts have been proved in a series of scientifically conducted tests. They can be verified by any careful investigator.

Palmer Web Tires are handled at all the Goodrich Branches,
located in the principal cities of the United States.

The Diamond Rubber Co.
AKRON, OHIO

FISK *Quality* TIRES

YEARs ago, at the beginning of its business, the Fisk Rubber Company laid down a policy which has since been steadfastly adhered to. That policy was to tell the truth about its products.

WE might claim to operate the largest automobile tire manufactory in the world—but we do not. We might maintain that we produce more automobile tires than any other concern—but we do not. We might publish broadcast the fact that the Fisk Removable Rim is used on more cars than any other make—but it is not. We might mislead the public into believing that the temporary and ofttime gratuitous tire equipment on cars at automobile shows is a reflection of a permanent choice—but it is not.

WE DO CLAIM, and we can prove our statement, to make **THE BEST** tire on the market to-day, barring none. We know the Fisk Removable Rim is the safest, quickest and best obtainable, and the only rim which works equally well in muddy and freezing conditions. Years of high-class manufacturing experience, a knowledge of the materials that go into our products, and comparison with the wearing qualities of other makes, are some of the reasons why we know in stating these facts we tell the truth.

FISK Quality Tires are made in four styles—Bolted-On, Clincher, Q. D. Clincher and Dunlop. We have established branches in the principal cities, where the motorist may find at all times a full stock of different sizes and styles and an intelligent repair department in charge of experts.

The Fisk Rubber Company

Chicopee Falls, Mass.

Y. Standard Watch; 60 certificates, a 20-Year, Solid Gold Filled, Genuine Elgin Watch; Open Face, 16 Size, 7-Jewel, latest thin model.

Remember! this offer is not good after April 15, 1910

Buffalo Specialty Co., Buffalo, N. Y.

WE are often asked by prospective purchasers why the AJAX EXTRA HEAVY NON-SKID tires do not *skid*. We answer: "It's In The Tread."

IN creating an absolutely non-skid tire that could be guaranteed for 5000 miles or 200 days' service, the same as all Ajax products, the weak points of other so-called non-skid tires were studied and guarded against.

THE Tread of the Ajax Non-Skid is made of Para Rubber divided into rectangular shaped blocks with beveled edges. This provides suction or holding power under load. The traction and side resistance are there when needed, but do not diminish the easy-riding and long-wearing qualities found in Ajax tires. There are no steel studs to wear smooth and become a skating surface—just rubber, but so shaped that skidding is killed.

REMEMBER—the car equipped with the Ajax Heavy Non-Skid Tires is protected by the same guarantee as all Ajax products—5000 miles or 200 days' service.

The AJAX AIR GAUGE, a new invention, pocket size, nickel finish, showing air pressure at all times, with the table of correct pressure for all size tires engraved on gauge. This simple, efficient instrument is made by A. Schrader's Sons, Inc. The price is \$1.00.

20th Century Tire Protector for Automobile and Motor-Cycle Tires

Are as Iron-clad in material and workmanship as the Guarantee under which they are sold;—and this is the **GUARANTEE**; Money refunded, expressage paid both ways, to any reliable party who finds the "20th Century" not as represented. Only the best **IMPORTED LEATHER** is used. It covers rubber tire completely, affording positive protection against water, sand, rocks, ruts, Punctures, Blowouts, Rim-cuts and Skidding. You take, therefore, no chances Mr. "Decker" in handling the 20th Century Tire Protector.

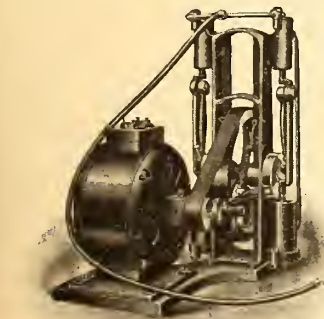

Our Emergency Patch has no Equal

GUARANTEED to give perfect satisfaction in **EVERY RESPECT**, or money refunded. Send \$2.00 for our 3 in. Emergency Patch, post-paid, and try it. We ship all goods subject to examination before paying for same. Write for Illustrated Catalogue, price-list, and discounts to agents.

20th Century Tire Protector Company
Midlothian, Texas

Globe Automatic Air Pumps

No. 12 Globe Electric Auto Pump. 4 cylinders, Automatic Double Compound.

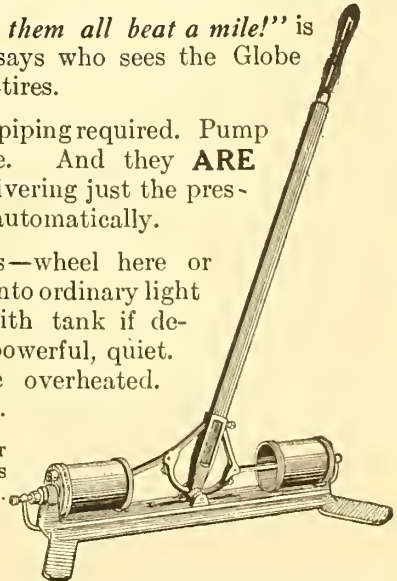

"You have them all beat a mile!" is what everyone says who sees the Globe Pump inflating tires.

No tank or piping required. Pump direct into tire. And they **ARE automatic**, delivering just the pressure wanted—automatically.

On casters—wheel here or there and plug into ordinary light socket. Use with tank if desired. Rapid, powerful, quiet. Cannot become overheated. Last a lifetime.

We invite your careful inspection to substantiate our claim that these are the most satisfactory and perfect pumps for Auto service. Sizes and prices to suit every purchaser. Ask for prices and further information.

Globe Manufacturing Co.
Battle Creek, Mich.

No. 18. High Pressure, Easily Operated, Rapid, Lever Pump for Private Garage. Portable.

West's Dressing FOR AUTOMOBILE TOPS

will *renew the finish* on the automobile top, and make it *look like new*.

It is specially prepared to stand the hard service to which an automobile is subjected in all kinds of weather, and is adapted to *enamel leather, rubber, pantasote*, and all *artificial leathers*, light as well as dark. Is slightly slower drying than the West's Enamel, for so many years the standard dressing for carriage tops, but will dry dust-proof over night.

Nothing equal to *West's*. It is better than the best of any other make. Send for sample on paper which you can roll and crumble, but never crack.

It is put up in pint, quart and half-gallon cans, and sold only by dealers in Automobile Supplies everywhere.

CHASE

AUTO TOP FABRICS

The line of honest top materials at honest prices.

CHASE AUTO CLOTHS are made entirely in our own mills (see cut), under our personal supervision and are consequently always of uniform quality and finish.

Satisfied customers bring you new and repeat orders, and QUALITY is therefore your chief consideration in the purchase of top materials.

CHASE QUALITY IS RIGHT, and our line is complete in every detail.

MACKINTOSH CLOTHS in Pure Mohairs, Lustres, Cravenettes, with full range of backings.

CHASE RUBBER CLOTHS, unsurpassed in quality.

CHASE LEATHER, recognized as the best leather substitute made for top coverings and motor car upholstery.

Investigate the CHASE line before purchasing top materials. It will pay you.

Samples on request.

Automobile Cloths

FOR Tops *and* Seat Covers

Immediate Deliveries

WE have a large stock of *Genuine Mohairs, Lustres and Imitations* in a variety of styles and qualities and are prepared to make prompt shipments in large quantities.

WE are the sole manufacturers of "CARRCLOTH," the original and best imitation of Mohair produced. This cloth is having an enormous sale and is receiving generous commendation from the trade. We quote from a recent unsolicited letter from one of our customers as follows:

"Some little time ago we received samples of your 'Carrcloth' which we attached to boards and exposed to the open weather for a period of four weeks. We realize this to have been harsh treatment, but are forced to admit that the manner in which it stood this severe test was indeed very gratifying."

We are in a position to handle large contracts for special designs.

SAMPLE BOOKS AND PRICE LIST UPON REQUEST. CORRESPONDENCE SOLICITED.

For Automobile Tops

GENUINE
Pantasote
LEATHER

THE FINEST TOP COVERING MATERIAL MADE

THE ENDORSEMENT OF PANTASOTE by leading makers of high-grade Automobiles for top material is in itself a guarantee of quality. It is the only material of uniform quality, others being made to suit the top makers' wishes as to price. Hence the purchaser can only be sure of getting the best top by accepting only genuine PANTASOTE Leather. Superior to cloth-on-both-sides materials ("mohairs," etc.) for many reasons, two in particular: the impossibility of removing dust, dirt and stains from their outer side, and the fact that their interlining of impure rubber is ruined by exposure to sunlight or grease as are tires.

Do not be influenced by the arguments of unscrupulous dealers who offer inferior materials to increase their profit at your expense, and above all, get a material the outside of which can be cleaned.

Send postal for booklet on top materials, and sample with which to compare when buying, and prevent substitution.

 Duane, W. J. & Co., 230 W. 58th St., N. Y. City.
 Fleckling & Co, Inc., 304-306 W. 49th St., N. Y. City.
 Fowler Brass Works, 2333-37 Wabash Ave., Chicago, Ill.
 Fuller, The G. W. Co., 182 Asylum St., Hartford, Conn. "The Fuller."
 Hart Mfg. Co., 370 Atlantic Ave., Boston, Mass. (Auto.)
 Horstmann, Wm. H. Co., 5th & Cherry Sts., Phila., Pa.
 Konigsloew, Otto Mfg. Co., Central Ave. & C. & P. R. R., Cleveland, Ohio.
 Lund Smith Co., The, 51 Godwin St., Paterson, N. J.
 Lynch Mfg. Co., Madison, Wis.
 ★Motor Car Supply Co., The, 1451-55 Michigan Ave., Chicago, Ill. "Cradle."
 Noonon Tool & Machine Works, 103½ & 105 Dominick St., Rome, N. Y.
 Pollard Auto Co., 232 Main St., Nashua, N. H.
 Rands Mfg. Co., 67-89 Fort St., E., Detroit, Mich.
 Rothstein Mfg. Co., 1941-55 Park Ave., N. Y. City. "Aremco."
 Schlegel Mfg. Co., 27 Canal St., Rochester, N. Y.
 Stanhope Forge & Machine Works, 27 Stanhope St., Boston, Mass.
 Sutherland, The F. L. Co., Detroit, Mich.
 ★Toffler, S. Co., Inc., 145th St. & Southern Blvd., N. Y. City.
 Victor Clutch Compound Co., Nashua, N. H. "Victor."
 Vogt Mfg. & Coach Lace Co., Rochester, N. Y. (And hat carriers.)
 Wilcox Mfg. Co., Aurora, Ill.
 Williams, C. L., 312 Halsey St., Newark, N. J.
 Wilson, F. Cortez & Co., 239-241 Lake St., Chicago, Ill. "Wilson."
 ★Winship, W. W., 71 Summer St., Boston, Mass.

TUBING, Flexible.

- Almond, T. R. Mfg. Co., Ashburnham, Mass. "Almond."
 American Metal Hose Co., 173-77 Lafayette St., N. Y. City. "Ametalhose" & "Nyflexmet." (Metal.)

- Automobile Supply Mfg. Co., 224 Taaffe Pl., Brooklyn, N. Y. (Brass & steel.)
 Kaufman, The A. G. Mfg. Co., Inc., 131-33 Reade St., N. Y. City. (Metallic.)
 ★Nonpareil Horn Mfg. Co., 139-147 Emerson Place, Brooklyn, N. Y.
 Pennsylvania Flexible Metallic Tubing Co., 1305 Arch St., Phila., Pa. (For oil, gasoline & exhaust bends.)
 Riley-Klotz Mfg. Co., 17-19 Mulberry St., Newark, N. J. (Horn.)
 Schoen-Jackson Co., Media, Pa. (Metallic.)
 Standard Metal Mfg. Co., Chestnut, Jefferson & Malvern Sts., Newark, N. J. "Standard." (Horn & speedometer.)
 Stevens & Co., 375 Broadway, N. Y. City. (Horn.)
 U. S. Flexible Metallic Tubing Co., 450 E. 3rd St., Los Angeles, Cal. (Metallic.)

TUBING, Metal

- American Tube & Stamping Co., Bridgeport, Conn.
 Benedict & Burnham Mfg. Co., Waterbury, Conn. "K. K." (Seamless brass & copper.)
 ★Bridgeport Brass Co., Cor. Fairfield & Holland Aves., Bridgeport, Conn.
 Briscoe Mfg. Co., 1427-57 Woodward Ave., Detroit, Mich.
 Buffalo Copper & Brass Rolling Mill, Military Rd., Buffalo, N. Y. (Brazed brass.)
 ★Buffalo Tube Co., 257 Rano St., Buffalo, N. Y. (Seamless brass, copper & German silver.)
 ★Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y. (Copper.)
 Dallas, A. C. & Son, Inc., 163 Randolph St., Chicago, Ill.
 Delaware Seamless Tube Co., Auburn, Pa. (Steel.)
 Detroit Seamless Steel Tubes Co., 804 Union Trust Bldg., Detroit, Mich. (Also motorcycle cylinders.)
 French Mfg. Co., The, 136 Robbins St., Waterbury, Conn. (Seamless copper, brass, bronze & white metal.)
 Harrisburg Pipe & Pipe Bending Co., Harrisburg, Pa.
 Hungerford, U. T. Brass & Copper Co., 497-503 Pearl St., N. Y. City. "Star." (Brass & copper.)
 Indestructibilite Metal Co., 50 Church St., N. Y. City. "Indestructibilite."
 Ivins, Ellwood, Tube Works, Oak Lane Station, Phila., Pa. (Seamless steel, brass, copper & aluminum.)
 McKenna Bros. Brass Co., First Ave. & Ross St., Pittsburg, Pa. (Brass & copper.)
 Mackenzie-Walton Co., The, Pawtucket, R. I. (Seamless brass and copper.)
 ★Merchant & Evans Co., 517 Arch St., Phila., Pa. "Star." (Brass & copper.)
 Michigan Copper & Brass Co., Detroit, Mich. "Wolverine." (Brass.)
 ★National Tube Co., Frick Bldg., Pittsburg, Pa. "Shelby." (Seamless steel.)
 Ohio Blower Co., The, 324-32 Prospect Ave., N. W., Cleveland, Ohio. (Brazed & bent.)
 Ohio Seamless Tube Co., The, Shelby, Ohio. "Ohio Special."
 Phenix Tube Co., 182 N. 11th St., Brooklyn, N. Y. "Phenix." (Iron lined brass & bronze tubes; brazed steel tubing.)
 Pittsburgh Steel Products Co., Frick Bldg., Pittsburg, Pa. (Seamless.)
 Randolph-Clowes Co., The, Waterbury, Conn. (Brass & copper.)
 Reading Iron Co., Reading, Pa.
 Rome-Turney Radiator Co., Rome, N. Y. "Rome." (Spiral.)
 Rome Brass & Copper Co., Rome, N. Y. "Rome Quality." (Seamless & brazed brass & copper.)

★ indicates Advertisers—see Index in back of book.

TUBING, Metal—Continued

- Rutter, Arthur T. & Co., 256 Broadway, N. Y. City. (Seamless brass & copper.)
 Slade Tubing Co., Rome, N. Y. (Seamless brass & copper.)
 ★Standard Welding Co., The, 76th St., N. W. & L. S. & M. S. R. R., Cleveland, Ohio. (Seamless frame & handle bar.)
 Tube Bending Machine Co., 148-150 Mulberry St., Newark, N. J.
 Uniform Seamless Wire Co., 71 Peck St., Providence, R. I. (Copper & brass.)
 United Wire & Supply Co., 109 Summer St., Providence, R. I.
 ★Ward, Edgar T. & Sons, 23-25 Purchase St., Boston, Mass. (Seamless steel.)
 Waterbury Mfg. Co., Waterbury, Conn. (Brazed brass.)
 Wells, A. H. & Co., Waterbury, Conn. (Brass & seamless copper.)

TUBING, Soft Rubber

- Barnard, Wm. H. Rubber Co., 257 S. 4th St., Phila., Pa.
 Cincinnati Rubber Mfg. Co., The, Cincinnati, Ohio.
 Combination Rubber Mfg. Co., Bloomfield, N. J.
 Continental Rubber Works, Erie, Pa.
 ★Diamond Rubber Co., Akron, O.
 ★Goodrich, B. F. Co., Akron, O. (Lamp connections & pump tubes.)
 Lee, J. Ellwood Co., Conshohocken, Pa.
 Mattson Rubber Co., Lodi, N. J. (Lamp connections & generator tubing.)
 Mechanical Rubber Co., C. & P. R. R., near Nickel Plate R. R., Cleveland, Ohio. "Cleveland."
 ★Morgan, B., Tew's Court, Old Beach Road, Newport, R. I. "TYXs." (Lamp connections.)
 ★Morgan & Wright, Foot of Bellevue St., Detroit, Mich. "M. & W."
 New Jersey Car Spring & Rubber Co., Wayne & Brunswick Sts., Jersey City, N. J.
 Parker, Stearns & Co., Sheffield & Belmont Aves., Brooklyn, N. Y. "Alpha." (Lamp.)
 Pennsylvania Rubber Co., Jeannette, Pa.
 ★Prest-O-Lite Co., The, 229-237 E. South St., Indianapolis, Ind. "Prest-O-Lite."
 Seamless Rubber Co., New Haven, Conn. (Lamp connections & generator tubing.)
 Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J. "Gray's." (Lamp connections.)
 ★Thermoid Rubber Co., Trenton, N. J. (Lamp connections.)
 Tingley, Chas. O. & Co., Rahway, N. J. (Lamp connections.)
 Wilkie Rubber Mfg. Co., Lynn, Mass.
 United & Globe Rubber Mfg. Co., Trenton, N. J.

TUFTING BUTTONS

(See Upholstery Buttons.)

TUMBLER CARRIERS

- Baldwin Mfg. Co., The, 143 Federal St., Boston, Mass. "Baldwin."

TURN BUCKLES

- Detroit Screw Works, Detroit, Mich.
 Haskell, Wm. H. Mfg. Co., 451 Main St., Pawtucket, R. I.
 Hoopes & Townsend Co., 1330 Buttonwood St., Phila., Pa.
 Merrill Bros., Maspeth, N. Y.
 Pawtucket Mfg. Co., 327 Pine St., Pawtucket, R. I.
 Peninsular Milled Screw Co., Champlain & Canton Aves., Detroit, Mich.

TWO SPEED GEARS, Motorcycle

- (Also Free Engine Devices.)
 Bushnell & Cannon, 1263 East 80th Place, Cleveland, O.
 ★Eclipse Machine Co., Elmira, N. Y. "Eclipse."
 Keller & Risque Motor Co., The, 20 W. 3rd St., St. Paul, Minn. "K & R." (Also free engine clutch.)
 Lang, C. H., 35 East Adams St., Chicago, Ill. ("Langs"; also "Langs" friction clutches.)
 ★N. S. U. Motor Co., 206 West 76th St., N. Y. City. "N.S.U." (Also free engine clutches.)
 Prospect Motor Co., 1900 Broadway, N. Y. City. "Simplex."
 ★Reliance Motor Cycle Co., Owego, N. Y.

UNDER BONNETS

(See Dust & Mud Shields.)

UNDERWATER EXHAUSTS

- Cavito Underwater Exhaust Co., Louis & Ottawa Sts., Grand Rapids, Mich. "Cavito."
 Ferro Machine & Foundry Co., The, 115 Wade Bldg., Cleveland, O.
 Kaufmann, Chas., 28 Main St., Oshkosh, Wis.
 Mechanical Devices Co., Inc., Watervliet, N. Y. "Indispensable." (Reversible.)
 Motor Mfg. Works Co., The, Ft. of Middle St., Geneva, N. Y. "Reid Rational."
 Sellew, B. A., 756 Main St., Hartford, Conn. "Hartford."
 Truscott Boat Mfg. Co., St. Joseph, Mich. "Trusco."

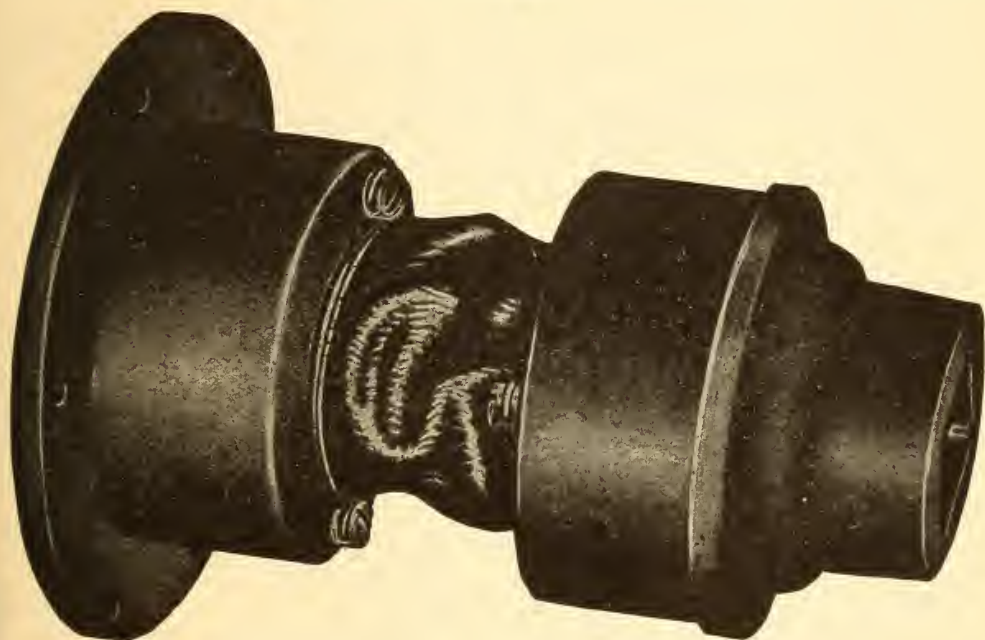

UNIONS

(See Pipe Fittings.)

UNIVERSAL JOINTS

- ★Acme Universal Joint & Mfg. Co., 310-14 E. Water St., Kalamazoo, Mich. "Acme Simplex."
 Alexander & Cox Co., Ogden & Western Aves., Chicago, Ill.
 Auto Parts Mfg. Co., South Elliot St. & T. E. W. R., Muncie, Ind. "B.T.K."
 ★Blood Bros. Machine Co., 633 W. Ransom St., Kalamazoo, Mich. "Blood."
 ★Boston Gear Works, Norfolk Downs, Mass.
 Covert Motor Vehicle Co., Lockport, N. Y. "Covert."

BLOOD BROS. UNIVERSAL JOINTS

Style J, Double

¶ Adapted for use between engine and transmission. We have many other patterns, both single and double.

Blood Bros. Machine Co.
Kalamazoo, Michigan

UNIVERSAL JOINTS—Continued

- Fetzger Automobile Mfg. Co., Columbus & Walnut Sts., Galion, O. "Fetzger."

How to Save Money

on your

Motor Car Varnishing

MURPHY PALEST MOTOR CAR BODY is the Finishing Varnish that endures mud and grit enough longer to make it cheaper than cheaper varnish would be as a gift.

MURPHY MOTOR CAR PRIMER and SURFACER give the varnish basis that is undisturbed by the most racking vibrations.

MURPHY MOTOR CAR COLORS, made of best natural pigments, perfectly ground, are above criticism.

Let us send you our elegant FREE booklet

"The Murphy System of Motor Car Finishing"

Please address us carefully at 228 McWhorter St., Newark, N. J.

THERE ISN'T A DOUBT

AS TO THE PRACTICABILITY AND ECONOMY OF

ELECTRIC WELDING

We are welding **automobile parts** for a **large number** of the **manufacturers**. **Parts**, too, that are **subjected** to the **greatest stress** and upon which **absolute dependence** must be placed. Axles, Gear Casings, Radius and Brake Rods, Pedal Levers, Steering Knuckles, Spring Hangers, Connecting Rods and Propeller Shafts are some of the articles being furnished. Our line of work eliminates the necessity of maintaining expensive forging dies.

THE STEPNEY SPARE WHEEL is just another time, labor and temper-saving device and the most radical and appreciated improvement in this age of motoring development.

We want to install one as part of the equipment of every car in the country—and to get quick, positive action along this line, we will

Send a Stepney Spare Wheel on 30 Days' Free Trial

to any car owner who wants to be shown the value of this "quick aid" device. Send for one yourself and carry it on your car for thirty days—experiment with it and use it the first time your machine shows evidence of "tire distemper."

Read the description:

THE STEPNEY SPARE WHEEL, when in use, takes the place of a complete wheel, overcoming all delays on the road, and in many instances saves the destruction of valuable tires and inner tubes through attempting to drive too far to reach a garage or other assistance before changing tires.

In case of puncture or blowout, it is only necessary to place the wheel alongside the punctured tire by means of two stationary clamps and two adjustable clamps operated by two thumbscrews.

No tools are necessary, and no changes to your wheels whatsoever; and no additional expense except the purchase of THE STEPNEY SPARE WHEEL with all its necessary parts.

Twenty-three thousand cars are already equipped with it—twenty-three thousand car owners are freed from long, tiresome halts and the "mussing up" of clothes and hands incident to the back-breaking process of puncture repairing or tire replacing.

Send no money—just your request,—and we will send you for Thirty Days' Free Trial any size wheel you may select—then, if you like it,—send us your check; if you don't want it,—send it back "charges collect."

Take action to-day. Here are the prices, payable in 30 days, if satisfied.

28-inch wheels	- - \$20.00	32-inch wheels	- - \$24.00
30 " "	- - 22.00	34 " "	- - 26.00
	36-inch wheels	- - \$28.00	

THE STEPNEY COMBINATION SPARE WHEEL (which is adjusted to front or rear wheels of different diameters) is \$5.00 extra.

THE STEPNEY SPARE WHEEL, with quick detachable attachments, is \$5.00 extra.

Where the Schwarz Wheel is Made

Put in operation March 1, 1910, with a modern, complete and elastic equipment sufficient to meet the requirements of the entire trade.

The Schwarz Wheel

The Best and Strongest Automobile Wheel Made

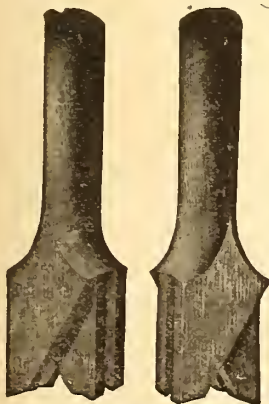

The spokes are grooved and mortised for interlocking and fit together tightly and immovably forming an absolute compact assemblage which cannot loosen under the most severe strain. The wheel will always run true, never wobble and saves tires. Can be made complete and shipped without hub.

The Safest and Most Economical

Send for Illustrated Booklet

These are some of the cars equipped with Schwarz Wheels because they are the best to be had:

20th Century Motor Car Supply Co.
SOUTH BEND, INDIANA

VASCO

WINDSHIELD

**Economical Enough for the Cheapest Car
Efficient Enough for the Most Critical Car
Elegant Enough for the Costliest Car**

Economical, because the VASCO is a genuine \$50 shield selling for \$35.

Efficient, because the VASCO works on friction discs, without springs, screws or nuts; can be slanted at any angle, with one hand, without stopping your car; clears any steering wheel easily; provides a "gap," protecting you in bad weather and at the same time giving you a clear view ahead.

Elegant, because the VASCO has solid brass tubing, finest French plate glass, and *de luxe* finish throughout.

The Shield You've Been Wishing and Waiting For.

"Vasco" Bumper

This bumper actually *bumps*. It affords full protection to the radiator, lamps, and front of any car. Handsome solid brass finish, extra long and strong springs. A \$25 bumper for \$15.

"Vasco" Grindine Compound

Does away with the old, expensive, injurious method of grinding valves with oil and emery. Put up in cartons containing two tubes, one coarse, one fine; and will grind valves faster, smoother and better than anything else. Small size, 25 cents. Large size, 75 cents, containing five times the amount.

Write for "VASCO" Catalog today and get acquainted with the "VASCO" quality products.

CUT DOWN YOUR REPAIR BILLS!

LEARN THE TRUTH ABOUT

FLASH

DECARBONIZER,—

the original German success,—and stop paying big bills for having your engine torn to pieces and scraped. FLASH DECARBONIZER is a compound dissolvent in dry form for the prevention and removal of carbon deposits in cylinders, tops of pistons, valves, exhaust pipes and muffler. FLASH DECARBONIZER is guaranteed not to destroy the glaze or glassy surface of the cylinder walls, nor cause pistons to pump oil,—the great objection to use of kerosene or chemical liquid carbon removers. FLASH DECARBONIZER contains no chemical and will not injure the finest motor. It is the HOME WAY,—the EASY WAY,—the CHEAP WAY. Use it and you will soon find it indispensable.

Retail price,—\$1.00 a package. If your dealer cannot supply you, write to us.

★Spacke, The F. W. Machine Co., Madison Ave., Merrill & Penn Sts., Indianapolis, Ind.

GOULDS

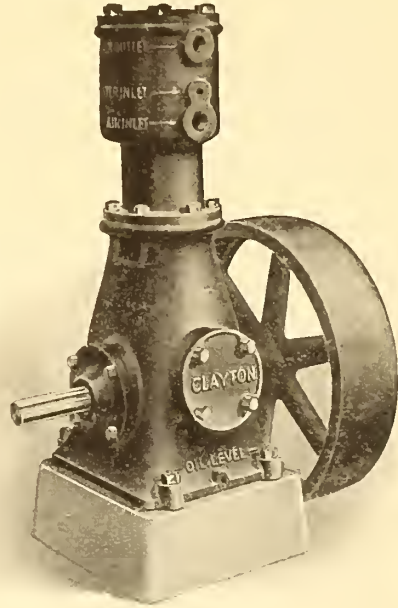

HAND AND POWER AIR PRESSURE, VACUUM AND ROTARY PUMPS

represent all that is best in Pump construction, for Garage, Factory and Private use. Our line is a most complete one. Write us for catalog.

The Goulds Mfg. Co., 76 W. Fall St., Seneca Falls, N. Y.
Branches in All Large Cities

THE CLAYTON HIGH SPEED GARAGE AIR COMPRESSOR

Designed particularly for Automobile Garage work, for inflating pneumatic tires, cleaning cushions, etc., etc.

Note the following features :

Enclosed Frame — Dust Proof — Self-Oiling — Noiseless — Oil Reservoir in bottom of frame base, into which connecting rod dips, throwing oil onto all bearings and thoroughly lubricating every part — No oil cups or lubricating attention necessary — No stuffing-boxes to pack — No parts to be adjusted — All bearings renewable — No clearance in air-cylinder — Small floor-space required — Easy to install — No skilled attention necessary.

Built in Single, Duplex or Triplex Style, as desired.

Send for Bulletin C-205, which fully describes these machines.

ROCKWELL FURNACE FACTS

MODERN HARDENING AND TEMPERING PLANT—NO FLUES, NO STACKS

PROPER HEAT TREATMENT is essential where uniform product is desired, and the temperature of the furnace must be accurate and controllable, not dependent upon atmospheric conditions which interfere with stack draft, or dependent upon quality of coal or coke or the frequency of stoking.

Our furnaces produce a uniform temperature throughout the heating chamber, preventing unequal heating and the consequent change of shape caused by one part being heated higher than another, and the resulting distortion which remains permanent, causing imperfections which often prevent use after that treatment is finished. The temperature in our furnaces may be regulated within 10 degrees or less **to suit the specific kind of work to be done**, eliminating guess-work and absolutely insuring the proper degree of heat required.

 Diehl Mfg. Co., 90 Prince St., N. Y. City. (Generators.)
 Dorland, Leslie C., Poughkeepsie, N. Y. "Dorland." (Automatic time switches.)
 Economy Mfg. Co., The, Park Bldg., Pittsburg, Pa. "Perfection." (Battery chargers.)
 Elbridge Electrical Mfg. Co., Elbridge, N. Y. "Elbridge." (Switches.)

Any member of the family can start the G. E. Rectifier charging in a few seconds.

An Effective Aid to Electric Vehicle Business

"Charge Your Electric Auto at Home" is a strong selling point for the dealer in electric vehicles. It is a simple and inexpensive matter to charge automobile batteries from the ordinary alternating current circuit with a

G. E. Mercury Arc Rectifier

This device is free from complicated or moving parts, yet it is completely equipped for battery charging.

It can be easily installed in any building and requires no electrical knowledge for its care or operation.

About one-half the cost of other charging methods is saved by the use of the G. E. Rectifier. The owner is entirely independent

of outside equipment—batteries can be charged at his convenience.

AN ATTRACTIVE BOOKLET

"Charging Electrics," illustrated, tells all about the G. E. Rectifier—how the combined features of economy and convenience have resulted in 4000 satisfied users. Copies will be furnished free to dealers for distribution. Address

hoists.)

NORTHERN CRANES

ELECTRIC HOISTS

and Overhead Track Systems
Also Surface Tramways, Trucks, etc.

Northern Patented Cement Turntable

Looks well—works well—sells well

NORTHERN ENGINEERING WORKS - DETROIT, MICH.

The Way to Choose

In the shop or garage of to-day the idea of hiring men to lift and handle heavy motors or transmissions by hand is obsolete. The one problem is to know *which* Hoist to buy.

The right one is the one—

- (a) That lifts the most for the power exerted.
(One man alone can lift five tons with a Triplex Block.)
- (b) That possesses a mechanism absolutely unaffected by wear
and hard usage.
(A Triplex Block, with few renewals, will last a lifetime.)

But when *you* are choosing a Chain Block, let us first send you direct (or have any one of our 300 dealers send you) a Triplex Block for trial. It cannot speak a word, but it *can* tell our story.

Chain Blocks:

4 Styles—Differential, Duplex, Triplex, Electric.

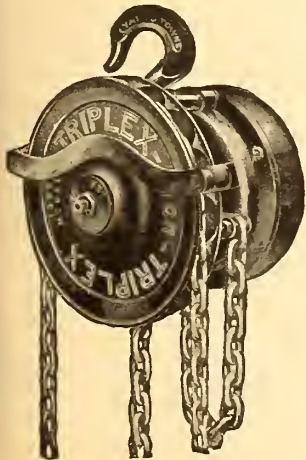

42 Sizes—An eighth of a ton to forty.

300 Active Stocks ready for instant call all over the United States.

The Yale & Towne Mfg. Co.

Only Makers of Genuine Yale Locks

11 Murray Street - - - New York

Foreign Warehouses—The Fairbanks Co., London and Glasgow.
Fenwick Freres & Co., Paris, Brussels, Liege and Turin.
Yale & Towne Co., Ltd., Hamburg; F. W. Horne, Yokohama.

Canadian Warehouses—The Canadian Fairbanks Co., Ltd.,
Montreal, Toronto, St. John, N. B., Winnipeg, Calgary,
Vancouver.

REVOLVING CASES

for small parts for Automobiles—bolts, screws, etc. Just what you want. Occupy small space. Capacity very large. Substantially made and well finished. Every case guaranteed. Thousands of them in use. Made in many sizes and finishes. Send for Catalogue.

American Bolt & Screw Case Co.
Dayton, Ohio, U. S. A.

FACTORY EQUIPMENT, Miscellaneous — Continued

- Hoggson & Pettis Mfg. Co., New Haven, Conn. (Clamps.)
- Johnstown Automobile Co., Inc., 101 Main St., Johnstown, Pa. "Betterman." (Steel trestles, armature stands & vise supporters.)
- Kalamazoo Steel Goods Co., Kalamazoo, Mich. "Kalamazoo." (Stools & chairs.)
- Leiman Bros. 62 John St., N. Y. City. (Vise benches, work benches, wash basins.)
- Lyon Metallic Mfg. Co., Aurora, Ill. "Lyon." (Lockers, steel racks, boxes, barrels, tables & tool boxes.)
- Manufacturing Equipment & Engineering Co., 209 Washington St., Boston, Mass. (Lockers, stoves, chairs & other shop & factory specialties.)
- Merritt & Co., N. W. Cor. Front & Arch Sts., Camden, N. J. (Lockers, shelving & bins.)
- New Britain Machine Co., The, New Britain, Conn. "New Britain." (Portable vise stands, tool racks, lathe racks, shelving, bench legs, bench drawers, steel stock racks.)
- ★Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich. (Track systems & trolleys.)
- Ohio Mfg. Co., The, Painesville, Ohio. (Steel shop boxes, barrels, kegs, racks, stools, shelving & tool cupboards.)
- ★Oliver Machinery Co., Grand Rapids, Mich. (Work benches.)
- Shelden, E. H. & Co., Chicago, Ill. (Work benches.)
- Smith, F. P., Wire & Iron Works, 100-02 Lake St., Chicago, Ill. (Metal lockers.)
- Terrell's Equipment Co., Victoria & Wills Sts., Grand Rapids, Mich. (Metal lockers, steel shelving & steel boxes.)
- Toles, W. C. Co., 4034-36 N. 42nd St., Irving Park, Chicago, Ill. (Benches.)
- Van Dorn Iron Works Co., The, Cleveland, O. "Van Dorn." (Metal lockers, steel shelves, tote boxes, shop bins, bench drawers, storage racks & metal office furniture.)
- Walker Foundry Co., Erie, Pa. (Bench legs.)
- Western Tool & Mfg. Co., The, Springfield, Ohio. "Champion." (Vise & tool stands & movable benches.)
- Williamson Vise Co., Bradford, Pa. (Machine tables.)
- ★Yale & Towne Mfg. Co., 9 Murray St., N. Y. City. (Trolleys & tramways.)

FANS

- American Blower Co., Detroit, Mich. "A.B.C." & "Sirocco."
- Buffalo Forge Co., Buffalo, N. Y. "Buffalo."
- Champion Blower & Forge Co., Lancaster, Pa. "Champion." (Fan blowers & exhaust fans.)
- New York Blower Co., Chicago, Ill.

FAUCETS

Haydenville Co., The, Haydenville, Mass.
Wilton Sales Co., Wrightsville, Pa. (Latching & locking, for tanks & barrels.)

FILES & RASPS

- Akron File Co., Akron, O.
- American File Sharpener Co., 287 Broadway, N. Y. City. "Trojan."
- American Swiss File & Tool Co., 24 John St., N. Y. City. "American Swiss." (Tool-makers.)
- Barnett, G. & H. Co., Phila., Pa. "Black Diamond."
- Carver File Co., Phila., Pa. "Delta."
- Chelsea File Works, Norwich, Conn. "Chelsea."
- Colonial File Co., 167-70 Teneau St., Neponset, Mass. "Colonial" & "Puritan."
- Gem City File Works, Quincy, Ill.
- Graves File Works, Newark, N. J.
- Hayes File Co., 474-78 Franklin St., Detroit, Mich.
- Heller Bros. Co., 865 Mt. Prospect Ave., Newark, N. J. "Heller's."
- Liveright Bros., Phila., Pa. "Gold Medal."
- Madden & Morrison File Co., Middletown, N. Y.
- National File & Tool Co., 2110 Allegheny Ave., Phila., Pa. "Vixen."
- Nicholson File Co., Providence, R. I. "Nicholson," "American," "Arcade," "Great Western," "Kearney & Foot," "Eagle," "McClellan," "J. Barton Smith" & "X.F."
- Pancoast, Henry B. Co., 2110 Allegheny Ave., Phila., Pa. "Vixen."
- Rex File & Saw Co., Newcomerstown, Ohio. "Rex."
- Reynolds Bros. Columbus, O.
- Simonds File Co., Fitchburg, Mass. "Simonds" & "Fitchburg."
- Simplex Mfg. Co., The, 90 West St., N. Y. City. "Simplex."
- Stokes Bros. Mfg. Co., Freehold, N. J. (Rasps.)
- Troy File Works, Troy, N. Y. "Trojan."
- Westphal, F. & Co., Milwaukee, Wis. "F. Westphal & Co." & "Milwaukee."
- Whitaker Mfg. Co., The, 509 W. Monroe St., Chicago, Ill. "Eagle" & "Madden."

FILE HANDLES

- American File Sharpener Co., 287 Broadway, N. Y. City. "Best."
- Bliss, R. Mfg. Co., Pawtucket, R. I.
- Cassady-Fairbank Mfg. Co., 6106-30 La Salle St., Chicago, Ill.
- Chaplin-Stevens Co., Pine Meadow, Conn.
- Niagara Handle & Ferrule Co., 321 N. Holliday St., Baltimore, Md. "Neversplit."
- Ohio Tool Co., Columbus, O.
- Piqua Handle & Mfg. Co., The, Piqua, O.
- Sandusky Tool Co., Sandusky, O.
- Simonds File Co., Fitchburg, Mass. "Simonds" & "Fitchburg."
- Troy File Works, Troy, N. Y. "Best."

FLEXIBLE SHAFTS

Fancher Machine Co., The, Baldwinsville, N. Y.

FLY-WHEEL PULLERS

(See Wheel Pullers.)

FORGES

Baldwin, Tuthill & Bolton, Grand Rapids, Mich.
 Boynton & Plummer, 54 Hermon St., Worcester, Mass.
 Bradley, C. C. & Son, 432 N. Franklin St., Syracuse, N. Y. "Bradley."
 Buffalo Forge Co., Buffalo, N. Y. "Buffalo."
 Canedy-Otto Mfg. Co., Chicago Heights, Ill. "Royal" & "Western Chief."
 Champion Blower & Forge Co., Lancaster, Pa. "Champion."
 Chapman Engine Works, Marcellus, Mich. (Portable.)
 Chicago Pneumatic Tool Co., Chicago, Ill. (Air.)
 Cleveland Steam Gauge Co., 1566 Merwin Ave., N. W., Cleveland, O.
 Harvey, Arthur C. Co., 374 Congress St., Boston, Mass. "Buffalo."
 Leiman Bros., 62 John St., N. Y. City.
 New York Blower Co., Chicago, Ill.
 ★Rockwell Furnace Co., 26 Cortlandt St., N. Y. City.
 Silver Mfg. Co., Salem, Ohio. "Silver." (Portable.)

FORMING MACHINES

Baird Machine Co., The, Oakville, Conn. (Wire & sheet metal.)
 Blake & Johnson Co., Thomaston Ave., Waterbury, Conn. (Wire.)
 Brown & Sharpe Mfg. Co., Providence, R. I.
 Manville Bros. Co., Waterbury, Conn. "Manville." (Automatic wire & metal.)
 Manville, E. J. Machine Co., Waterbury, Conn. (Wire.)

FOUNDRY EQUIPMENT

Adams Co., The, Dubuque, Iowa "Adams." (Sprue cutters, snap flasks & foundry supplies.)
 Baldwin, Tuthill & Bolton, Grand Rapids, Mich. (Snap flasks.)
 Barnett, Oscar Foundry Co., Newark, N. J. (Sprue cutters & foundry flasks.)
 Bartley, Jonathan Crucible Co., Trenton, N. J. (Stirrers, stoppers, retorts, etc.)
 Bigelow Co., New Haven, Conn. (Foundry cupolas.)
 Brand, S. H. Co., Chicago, Ill. ("Superior" parting & "Eureka" wax wire core vent.)
 Brass Founders' Supply Co., Newark, N. J. (Sprue cutters, foundry flasks, clamps & supplies for brass foundries.)
 Buffalo Forge Co., Buffalo, N. Y. "Buffalo."
 Burdick & Son, Albany, N. Y. (Chaplets.)
 Byram & Co., Inc., Detroit, Mich. (Cupolas, ladles, cranes, foundry cars, core oven cars, crucible tongs & shanks.)
 Central Foundry Supply Co., West Spring St. & H. V. Ave., Columbus, Ohio "Acme" (Parting chaplets, facings, etc.)
 Central Iron Works, 200-209 S. Front st., Quincy, Ill. (Water cinder mills, dust arresters & core cars.)
 Cleveland Chaplet & Mfg. Co., Cleveland, O. (Chaplets.)
 Detroit Foundry Supply Co., Detroit, Mich. (Foundry facings, steel & brass foundry supplies, molding sand, etc.)

Diamond Clamp & Flask Co., Richmond, Ind. "Diamond." (Core machines, foundry flasks & slip jackets.)
 Foundry Specialty Co., The, Cincinnati, Ohio. "Partine." (Parting sand for moulds); "Fluxine," (for cleaning brass.)
 Goldschmidt Thermit Co., 90 West St., New York, N. Y. "Thermit."
 Hill & Griffith Co., The, 1248-62 State Ave., Cincinnati, Ohio. "Peerless." (Perforated chaplets, foundry facings, wax wire, "Ebony" core compound, glutrin, plumbago and foundry supplies.)
 Holland Linseed Oil Co., Chicago, Ill. (Core compounds.)
 Hollands Mfg. Co., Erie, Pa. (Melting pots & ladles.)
 Ingersoll-Rand Co., 11 Broadway, N. Y. City. "Crown." (Pneumatic Sand Rammers.)
 Leiman Bros., 62 John St., N. Y. City. (Casting flasks, crushing machines, ingot moulds & pickle pots.)
 Lindsay, W. W. & Co., Phila., Pa. (Chaplets.)
 Littleford Bros., 453-7 E. Pearl St., Cincinnati, Ohio. (Core ovens, ladles, etc.)
 McCormick, J. S. Co., Pittsburg, Pa. (Foundry facings, cupolas, parting material, moulding sand & core oil.)
 McCullough-Dalzell Crucible Co., Pittsburg, Pa. (Phosphorizers, ladle stoppers, plumbago & crucible covers.)
 McNeil, Jas & Bro. Co., Pittsburg, Pa. (Cupolas & ladles.)
 Macgowan & Finigan Foundry & Machine Co., St. Louis, Mo. "Newton." (Pulverizer & roller.)
 Macphail Flask & Machine Co., Fort Madison, Iowa. "Macphail." (Steel flasks.)
 Middleditch, B., Detroit, Mich. (Flasks; foot & power sprue cutters.)
 Millett Core Oven Co., Springfield, Mass. (Core baking ovens.)
 Mills, H. E. Mfg. Co., Syracuse, N. Y. "Mills." "Dry Core Compounds" & "Syracuse" (liquid core compounds, core wash, lead, parting compounds, etc.)
 Monarch Engineering & Mfg. Co., 1200-1206 American Bldg., Baltimore, Md. (Burners.)
 Moussette, O. J. Co., Inc., Driggs Ave. & N. 10th St., Brooklyn, N. Y. "Monarch." (Crusher & pulverizer.)
 ★Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich. "Newton." (Cupolas, ladles, etc.)
 Obermayer, S., Co., Cincinnati, Ohio.
 Paxson, J. W. Co., 1019 N. Delaware Ave., Phila., Pa. (Magnetic metal separators, foundry facings & supplies.)
 Robeson Process Co., Au Sable Forks, N. Y. "Robeson." (Glutrin.)
 Seidel, R. B., Inc., 1322 Callowhill St., Phila., Pa. "Seidel." (Ladle stoppers & nozzles.)
 Smith, The J. D. Foundry Supply Co., Cor. Scranton & Carter Roads, N. W., Cleveland, Ohio. (Foundry facings, blackings & supplies.)
 Smith & Caffrey Co., Syracuse, N. Y. "Eureka." (Flasks.)
 Smith, Edward F. & Co., 256 State St., New Haven, Conn. (Dipping baskets.)
 Sterling Wheel Barrow Co., Milwaukee, Wis. (Foundry flasks.)
 Stevens, Frederick B., Detroit, Mich. ("King Kore Compound," "Stevens' Core Gum" & "Core Oil" core compounds; cupolas, foundry riddles & sieves, plumbago, Stevens' carbon blacking & sea coal facing.)
 Swoboda, L. J., 96 Warren St., N. Y. City. "Lycopart." (Foundry partings.)
 Taylor & Dean, Pittsburg, Pa. (Foundry riddles & sieves.)
 Toledo Machine & Tool Co., The, Toledo, Ohio. (Sprue cutters.)
 Turner Machine Co., 2049 N. Second St., Phila., Pa. (Sand sifters & gate cutters.)
 United States Chaplet & Supply Co., 140 Cedar St., N. Y. City. (Chaplets.)
 Welch, Thomas F. Co., 55 Sudbury St., Boston, Mass. (Melting ladles.)

FUNNELS

- Browne's Automatic Funnel Bucket Co., 3219 S. Figueroa St., Los Angeles, Cal. "Browne." (Bucket.)
 Central Stamping Co., 172-74 Fulton St., N. Y. City.
 ★Dover Stamping & Mfg. Co., 385 Putnam Ave., Cambridge, Mass. (Also combination measures & funnels & automatic gasoline shut off funnels.)
 Gilbert & Barker Mfg. Co., 80 & 82 Fourth Ave., N. Y. City. "Breeze." (Filter funnel.)
 Hill Dryer Co., 344 Park Ave., Worcester, Mass.
 Johnson's, Iyer Sporting Goods Co., 163 Washington St., Boston, Mass. (Filter funnels.)
 Knapp Mfg. Co., N. Y. City.
 No-Shammy Co., 5711 Hough Ave., N. E., Cleveland, O. "No-Shammy." (Separator.)
 Perfection Supply Co., Detroit, Mich. "Perfection."
 Sexton Can Co., 2 Hartford St., Boston, Mass. "Sexton."
 Taliaferro, Whitmell T., 258 Broadway, N. Y. City. "Index."
 Vogel, Wm. & Bros., 37 S. 9th St., Brooklyn, N. Y.
 Wallman Mfg. Co., 283-85 5th Ave., Milwaukee, Wis. (Filter funnels.)
 Wilson, F. Cortez & Co., 239-241 Lake St., Chicago, Ill. "Hurriup."

- Goodell-Pratt Co., Greenfield, Mass.
 Noonan Tool & Machine Works, 103½ & 105 Dominick St., Rome, N. Y.
 Rose, J. A., Hastings, Neb. "Rose."
 Smith, Otis A., Rockfall, Conn. (Washer cutters.)
 Stortz, John & Son, 210 Vine St., Phila., Pa.

GASOLINE CANS

(See Cans for Fuel.)

GAUGES, Measuring

- Athol Machine Co., Athol, Mass. (Center & screw pitch.)
 Elodgett Mfg. Co., Rochester, N. Y. (Screw pitch, twist drill & wire.)
 Brown & Sharpe Mfg. Co., Providence, R. I. (Wire, plate, depth & pitch.)
 Chapin-Stevens Co., Pine Meadow, Conn.
 ★General Electric Co., Schenectady, N. Y. "G. E."
 Goodell-Pratt Co., Greenfield, Mass. (Center, depth, screw pitch & surface.)
 Gronkvist Drill Chuck Co., 18-20 Morris St., Jersey City, N. J. "Johannson's."
 Marbach, F. G., Medina, Ohio. (Concave & convex.)
 ★Pratt & Whitney Co., 111 Broadway, N. Y. City.
 Rogers, John M. Works, Gloucester City, N. J. (Standard internal & external cylindrical.)
 Sawyer Tool Mfg. Co., Fitchburg, Mass. (Centre, depth, caliper, thread & screw pitch.)
 Schellenberg-Hunt Tool Co., Cincinnati, Ohio. (Surface.)
 Starrett, L. S. Co., Athol, Mass. (Center testers, caliper, center, circumference, depth, drill, tap & wire, fillet, height, hub, radius, screw pitch & thickness gauges.)
 Wells Bros. Co., Greenfield, Mass. "Little Giant."
 Wyke, J. & Co., Boston, Mass. (Center & surface.)

FURNACES

(See also Annealing Furnaces & Metal Melting Furnaces.)

- Byram & Co., Inc., Detroit, Mich. (Brass melting.)
 Englehard, Chas., 32 Cortlandt St., N. Y. City. "Heraeus." (Imported.)
 Leavitt, C. W. & Co., Cortlandt Bldg., 30 Church St., N. Y. City. "Girod." (Electric.)
 Leiman Bros., 62 John St., N. Y. City.
 McNeil, Jas. & Bros. Co., Pittsburg, Pa. (Blast.)
 Macleod, Walter & Co., Cincinnati, Ohio. "Buckeye." (Oil.)
 Monarch Engineering & Mfg. Co., 1200-1206 American Bldg., Baltimore, Md. (Welding furnaces.)
 Rockwell, W. S. Co., 50 Church St., N. Y. City. (Brazing, enameling, galvanizing, japanning, etc.)
 ★Rockwell Furnace Co., 26 Cortlandt St., N. Y. City. (Brazing, welding, heating, hardening & tempering furnaces; enameling & japanning ovens.)
 Tate, Jones & Co., Inc., 806 Empire Bldg., Pittsburg, Pa. (Heating & tempering.)
 U. S. Gas Furnace Co., 143 Eddy St., Providence, R. I.

GEAR CUTTING MACHINERY

- American Watch Tool Co., Elm St., Waltham, Mass.
 Bilgram Machine Works, 1235 Spring Garden St., Phila., Pa.
 Brown & Sharpe Mfg. Co., Providence, R. I.
 Cincinnati-Bickford Tool Co., The, Spring Grove Ave. & Township St., Cincinnati, Ohio.
 ★Cincinnati Gear Cutting Machine Co., Cincinnati, O. (Spur.)
 Dwight Slate Machine Co., Hartford, Conn.
 Fellows Gear Shaper Co., The, Springfield, Vt. "Fellows."
 Flather, E. J. Mfg. Co., Nashua, N. H. "Flather." (Automatic.)
 Garvin Machine Co., Spring & Varrick Sts., N. Y. City.
 Gear Grinding Machine Co., Detroit, Mich. "Ward." (Gear grinding machines.)
 Gould & Eberhardt, 99 N. J. R. R. Ave., Newark, N. J. (Also rack cutting machines.)
 Harrington, Edwin Son & Co., 17th & Callowhill Sts., Phila., Pa.
 Hill, Clarke & Co., 156 Oliver St., Boston, Mass.
 Lees-Bradner Co., Schofield Bldg., Cleveland, Ohio.
 McCabe, J. J., 30 Church St., N. Y. City.
 McCabe Machine Co., 95 Liberty St., N. Y. City.
 Manning, Maxwell & Moore, Inc., N. Y. City.
 Marshall & Hushart Machinery Co., 11-15 N. Canal St., Chicago, Ill.

FURNACES, Soldering

- Best Light Co., The, Canton, O. "Best."
 Clayton & Lambert Mfg. Co., Detroit, Mich.
 Detroit Heating & Lighting Co., 340 Wight St., Detroit, Mich. (Fire pots.)
 Jacobson Machine Mfg. Co., Warren, Pa. "Superior."
 Knapp Mfg. Co., N. Y. City.
 Leiman Bros., 62 John St., N. Y. City. (Soldering lamps.)
 Schneider & Trenkamp Co., East 40th St. & Penna. R. R., Cleveland, Ohio. "Reliable."

GASKET & WASHER CUTTERS

- Bonney Vise & Tool Works, Allentown, Pa. "Bonney."
 Braunsdorf-Mueller Co., Elizabeth, N. J.
 Cincinnati Tool Co., Norwood, Ohio. "Har-graves."

★ indicates Advertisers—see Index in back of book.

GEAR CUTTING MACHINERY—Continued

Morse Twist Drill & Machine Co., New Bedford, Mass. (Drill wire, plug & ring.)
 Motch & Merryweather Machinery Co., 707-15 Lakeside Ave., N. W., Cleveland, O.
 Newton Machine Tool Works, 24th & Vine Sts., Phila., Pa.
 Niles-Bement-Pond Co., 111 Broadway, N. Y. City.
 Prentiss Tool & Supply Co., 115 Liberty St., N. Y. City.
 Reynolds Machine Co., Moline, Ill. "Reynolds."
 Standard Mfg. Co., Bridgeport, Conn.
 Walcott & Wood Machine Tool Co., Jackson, Mich. (Rack cutting machines.)
 Whiton, The D. E. Machine Co., New London, Conn.

GEAR HOBBIING MACHINES

Adams Co., The, Dubuque, Iowa. "Farwell." (Automatic.)
 Gould & Eberhardt, 99 N. J. R. R. Ave., Newark, N. J. (For spur, worm & spiral gears.)
 ★Grant-Lees Machine Co., 6901 Quincy Ave., Cleveland, O.
 Lees-Bradner Co., Schofield Bldg., Cleveland, Ohio. (Worm.)
 Newton Machine Tool Works, 24th & Vine Sts., Phila., Pa. (Worm.)
 Schuchardt & Schutte, 90 West St., N. Y. City. (Also tooth rounding machines.)
 Schutte, Alfred H., 90 West St., N. Y. City. "Rhenania."

GREASE CUP FILLERS

Tell City Foundry & Machine Works, Tell City, Iowa. "Goul."

GRINDERS

(See also Disk, Internal, Piston Ring, Plain, Tool, Portable, Reamer & Cutter, Surface & Universal Grinders.)
 Alexander & Cox Co., Ogden & Western Aves., Chicago, Ill. (Combination vise, grinding, drilling machine, etc.)
 Alpena Industrial Works, Alpena, Mich. (Knife.)
 American Wood Working Machinery Co., Rochester, N. Y. (Knife.)
 Baldwin, Tuthill & Bolton, Grand Rapids, Mich. (Knife lap.)
 ★Bennett-O'Connell-Stevens Co., 97-101 S. Clinton St., Chicago, Ill. (Electric.)
 Bentel & Margedant Co., The, Hamilton, O. "Hamilton." (Knife & emery.)
 Blake & Johnson Co., Thomaston Ave., Waterbury, Conn. (Emery.)
 Blount, G. J. Co., Everett, Mass. (Dry grinders.)
 Bridgeport Safety Emery Wheel Co., The, Inc., Bridgeport, Conn.
 Brown & Sharpe Mfg. Co., Providence, R. I.
 Bryant Chucking Grinder Co., Springfield, Vt. (Chucking.)
 Buffalo Emery Wheel Co., 127 Ash St., Buffalo, N. Y. (Foot & power.)
 Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.
 Calder, Geo. H., Lancaster, Pa.
 Canton Foundry & Machine Co., Eighth and Saxton Sts., Canton, O. "Universal."
 Chapman Engine Works, Marcellus, Mich. "Chapman." (Emery, foot power.)
 Chicago Machine Tool Co., Chicago, Ill.
 Cincinnati Electrical Tool Co., 650 Evans St., Cincinnati, O.
 Clark, James, Jr., Electric Co., 520 W. Main St., Louisville, Ky. "Willey."
 Cleveland Pneumatic Tool Co., 6410 Hawthorne Ave., Cleveland, O. "Cleveland." (Pneumatic emery & valve grinding machines.)

Clizbe Bros. Mfg. Co., Plymouth, Ind. "Crown." (Foot & hand.)
 Detroit Emery Wheel Co., Detroit, Mich.
 "Hart" & "Detroit."
 Diamond Machine Co., Providence, R. I. "Diamond."
 Emmert Mfg. Co., Waynesboro, Pa. (Face.)
 Fancher Machine Co., The, Baldwinville, N. Y. (Emery.)
 Foote-Burt Co., 41st & St. Clair Ave., Cleveland, O. (Valve.)
 Frevert Machinery Co., 18 Dey St., N. Y. City. (Emery.)
 Garvin Machine Co., Spring & Varrick Sts., N. Y. City.
 ★General Electric Co., Schenectady, N. Y. "G. E." (Electric buffer and grinder.)
 ★Heald Machine Co., 14 New Bond St., Worcester, Mass.
 Hill, Clarke & Co., 156 Oliver St., Boston, Mass.

The Heald Internal Grinder

This is a Manufacturing Machine in every sense of the word and marks a great advance in the art of internal grinding. It is massive and rigid; it has five different work speeds and three different rates of table travel for each speed, all instantly available by means of quick change gear boxes. It will halve or quarter the cost of the work done on the ordinary style of internal grinders, as it will cut out stock in place of worrying it out.

This is made possible by the massive design, the heavy work head and more particularly by the construction of the grinding spindle which does not overhang the table, as is usually the case, but is firmly mounted directly on the table, giving it great ability to resist vibration and to cut rapidly, freely and smoothly.

When You Want a Good Hole

you want to grind it, and a good machine to grind it on.

The Heald Internal Grinder

is the machine to use, because it is heavy and rigid and built specially for this work, and will do it quicker and better than is possible on the machines generally used. Grinding gives increased accuracy and a beautiful surface and on thin bushings and hardened work is the only practical method of getting good holes. Our catalog is free for the asking.

Don't forget to ask.

Automobile Steering Worms

and any other Thread or Gear Work Milled
with Exceptional Economy and Accuracy

STEEL STEERING WORMS CUT ON A
P. & W. THREAD-MILLING MACHINE

The P. & W. Thread Miller

The Fastest and Most Economical Thread-Cutting Machine on the Market

WORKS ten times faster than any lathe or special thread-cutting machine, even when equipped with the most special appliances. No other machine can equal it in latitude of work, accuracy, finish or output. Takes the full depth of cut and finishing cut at the same time. Requires no great mechanical skill to operate it. Simpler than thread cutting on a lathe. A boy can produce accurate work.

Operation is automatic, permitting one man to operate from two to six machines. Write for catalog, "Thread Millers"

Economic Engine Works, 3 Fulton St., Utica, N. Y. (Gasoline.)
Enterprise Machine Co., 1114-22 S. 3rd St., Minneapolis, Minn. "Westman."
Evarts Machine Co., The, 18 Hicks St., Hartford, Conn. (Gas & gasoline.)
Fairbanks, Morse & Co., Chicago, Ill. "Fairbanks-Morse" & "Jack of all Trades." (Gasoline, gas, kerosene, alcohol, distillate naphtha, producer gas & crude oil.)

NASH GAS ENGINES

The Nash Vertical Stationary Engine is by far the most suitable for garage power requirements. Sizes, 3 to 325 H. P.

It operates on City Gas, Gasoline, Distillate and Producer Gas.

The Nash Engine is specially adapted for running Dynamos, Air Compressors and all garage machinery.

25 Years' Gas Engine Supremacy.

 Clark, James, Jr., Electric Co., 520 W. Main

Troubles of Manufacturers

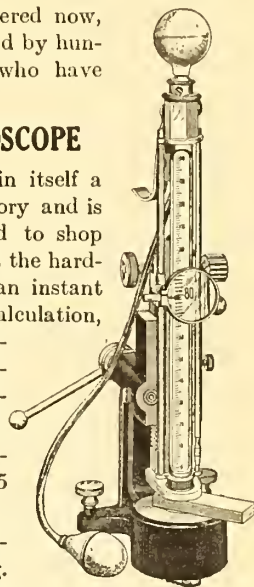

have been conquered now, the world over, and by hundreds of houses who have adopted

THE SCLEROSCOPE

Because it is in itself a complete Laboratory and is especially adapted to shop work. It measures the hardness of metals in an instant and by a little calculation, the strength, dynamic life, toughness and machinability are found.

Determines Carbon content in 5 minutes.

Booklet and advice for the asking.

The Name **BUFFUM** Stands for Best Auto Tools

To those *who buy* and to those *who sell*—

Expert mechanics insist on them because *expert mechanics designed them*. In Buffum Auto Tools you get *detail perfection*, the best of Tool Steel, a range of styles and sizes covering *all automobile construction, care and repair*.

The name "Buffum" guarantees *tool perfection*. Think "Buffum," and you can never go wrong on auto tools. Our lines are very *complete*. We are strong on the numbers shown below. Our Automobile Tool Sets are especially *noteworthy*.

All live, progressive dealers sell Buffum Tools. Goods are carefully inspected and shipped in nice packages, generally one tool to a package.

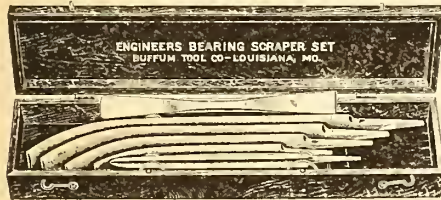

ORDER FROM THIS AD.

If in immediate need of any of the numbers shown below, and our catalog is not at hand, just tear out this page, blue pencil the numbers wanted, indicate the quantities desired, sign the coupon and mail to us today and we'll take care of you in double quick time. If you are not a dealer, kindly accompany this with the name and address of the dealer from whom you buy your supplies. Individuals or companies not rated or not known to us will please remit with order.

The popularity of Buffum Tools in the automobile trade is very marked. Many purchasers refuse to accept tools of any other make. Up-to-date auto supply houses and dealers stock up well on Buffum Tools for two reasons: An automobile man wants what he wants when he wants it; a Buffum Tool in stock is like money in the bank.

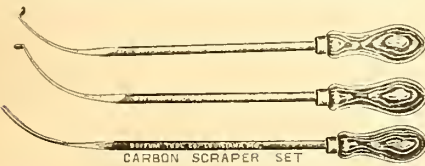

No. 187—CURVED BEARING SCRAPER SET. There are three scrapers in this set, the blades varying in length, 3, 3½ and 4 inches. Made of a high grade of steel, hollow ground, sharpened ready for use. Price of set, \$2.50.

No. 186—ENGINEERS' BEARING SCRAPER SET, six tools forged from special crackle steel, in polished hardwood box. Price of set, \$3.25.

No. 178—COTTER PIN TOOLS, one end for pulling cotter pins, the other for spreading cotter pins. Nickel plated. Price, 20c each.

No. 234—STANDARD CARBON SCRAPER SET, to scrape carbon from top of cylinders, pistons and exhaust ports. Carbon on inside of cylinder causes pre-ignition and engine to overheat, while carbon in exhaust ports reduces power often over one-half. Price of set of three pieces, \$1.00.

No. 247—SICKLE SECTION PUNCH, to drive pins or rivets out, or bring rivet or bolt holes into line in assembling. Point is made same size back some distance so it will follow pin or rivet out without wedging in hole. Price, 25c each.

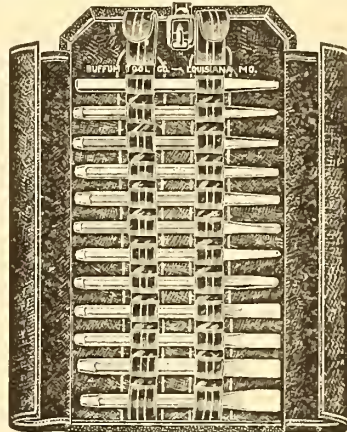

BUFFUM TOOL CO., LOUISIANA, MO.

GET OUR CATALOG

The automobile dealer, repairer, supply man, purchasing agent, mechanic and owner, each need a copy of the Buffum Catalog of Auto Tools. It is invaluable for reference and helps you to settle any tool question or requirement in a jiffy. We want to place a copy in the hands of every one of the above.

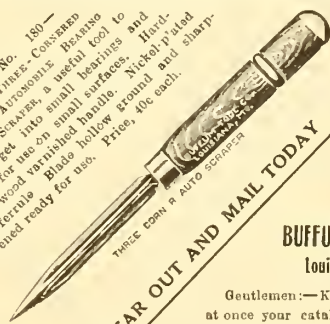

It shows Chisels of all types, Punches, Screw Drivers, Cotter Pin Tools, Auto Bearing Scrapers, Bearing Scraper Sets, Tool Sets in fine variety, Gad, Lip and Tap Tongs, Removing Tools, Packing Irons, Carbon Scraper Sets, Offset Screw Drivers, Pin Punches, Blunt End Cold Chisels and Calking Irons.

This coupon has been thought up, written, designed and printed for your convenience, so grab your pencil, make your mark on it, mail it to us today and you'll get that catalog!

No. 200—AUTOMOBILE TOOL ROLL, No. 6, for automobilists and motor boats, four punches, seven chisels, one square punch. Roll of high grade imitation leather, cloth lined; tools held firmly by woven tape and entire roll fastened with a leather strap. Price of set, \$4.00.

No. 180—THREE-CORNERED AUTOMOBILE BEARING SCRAPER, a useful tool to get into small bearings and scrape into small surfaces. Hard, wood varnished handle. Nickel-plated ferrule. Blade hollow ground and sharpened ready for use. Price, 40c each.

- ★Globe Machine & Stamping Co., The, 3959 Hamilton Ave., N. E., Cleveland, Ohio. "Globe."
- ★Hancock Mfg. Co., 776 E. Henry St., Charlotte, Mich.
- Middleditch, B., Detroit, Mich. (Tilting.)
- ★Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich.
- Waterbury Machine Co., Waterbury, Conn.

TURN TABLES

- ★Auto & Accessories Mfg. Co., 1416 Madison Ave., Baltimore, Md. "Norwood." (Portable turntable & jack combined.)
- Bicycle Step Ladder Co., 65 Randolph St., Chicago, Ill.
- Byram & Co., Inc., Detroit, Mich.
- Canton Foundry & Machine Co., 8th & Saxton Sts., Canton, O. "Universal."
- Ernst's, C. F. Sons, 65 Lathrop St., Buffalo, N. Y. "Ernst." (Combined turntable & wash racks.)
- Ideal Sectional Building Co., North Tonawanda, N. Y.
- Lansing Wheelbarrow Co., Lansing, Mich.
- Lund Smith Co., The, 51 Godwin St., Paterson, N. J.
- ★Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich.
- Pitless Turntable Co., The, 1333 Walnut St., Kansas City, Mo. "Pitless."
- Portland Garage, Portland, Me. "Portland."
- Skinner & Skinner, Chicago, Ill.
- Sterling Elliott Co., The, Newton, Mass.
- Weber Cycle & Supply Co., 6 E. Kiowa St., Colorado Springs, Col. "Weber."
- Welch, Thomas F. Co., 55 Sudbury St., Boston, Mass.

TURRET MACHINES

- Cleveland Automatic Machinery Co., Cleveland, O.
- Dreses Machine Tool Co., Cincinnati, O.
- Flather, E. J. Mfg. Co., Nashua, N. H. "Flather." (Vertical.)
- Garvin Machine Co., Spring & Varrick Sts., N. Y. City.
- King Machine Tool Co., The, Cincinnati, O. (Vertical.)
- Prentiss Tool & Supply Co., 115 Liberty St., N. Y. City.

TUYERE IRONS

- Buffalo Forge Co. Buffalo, N. Y. "Buffalo."
- Canedy-Otto Mfg. Co., Chicago Heights, Ill. "Royal" & "Western Chief."
- Huntsville Foundry & Machine Works, Huntsville, Ala.
- Illinois Iron & Bolt Co., Carpentersville, Ill.
- Jones, B. M. & Co., Inc., Connorsville, Ind.
- Swett, A. L. Iron Works, Medina, N. Y.

TWIST DRILLS

- American Specialty Co., 834-5 Monadnock Bldg., Chicago, Ill. "Collis."
- Boker, Herman & Co., 101 Duane St., N. Y. City.
- Celfor Tool Co., Chicago, Ill. "Celfor." (Also flat.)
- Cincinnati Tool Co., Norwood, O.
- Cleveland Twist Drill Co., Cleveland, O.
- Detroit Twist Drill Co., 634-36 Fort St., W., Detroit, Mich.
- Frasse, Peter & Co., 130-32 Worth St., N. Y. City. "Poldi." (Speed.)
- Greenlee Bros., Rockford, Ill.
- Jones, B. M. & Co., Inc., 141 Milk St., Boston, Mass. (Imported.)
- Lancaster Machine & Knife Works, Lancaster, N. Y. "Oval Drive."
- Lincoln-Williams Twist Drill Co., Taunton, Mass. (Also "Pioneer" flat.)
- Morse Twist Drill & Machine Co., New Bedford, Mass.
- National Twist Drill & Tool Co., Detroit, Mich.
- Newhall Chain Forge & Iron Co., 90 West St., N. Y. City. "Banner." (Combination vise, anvil & drill.)
- ★Pratt & Whitney Co., 111 Broadway, N. Y. City.

- Standard Tool Co., Cleveland, O.
- Syracuse Twist Drill Co., Syracuse, N. Y.
- Union Twist Drill Co., Athol, Mass. "Union."
- ★Ward, Edgar T. & Son, 23-25 Purchase St., Boston, Mass.
- Whitaker Mfg. Co., The, 509 W. Monroe St., Chicago, Ill. "National."
- Wiley & Russell Mfg. Co., Greenfield, Mass.

UNIVERSAL GRINDERS

- Cincinnati Milling Machine Co., The, Cincinnati, O.
- Landis Tool Co., Waynesboro, Pa.
- Miami Valley Machine Tool Co., Dayton, O. "Dayton."
- Thompson Grinder Co., Murray & Main Sts., Springfield, O. "Thompson."
- Walker, O. S. & Co., 25 Union St., Worcester, Mass. "2K."
- Warner-Smith Lektro Products Co., The, Room 500, Neave Bldg., Cincinnati, Ohio. "Lektro."

UPHOLSTERING MACHINERY

- Buser-Posten Tufting Machine Co., The, 66 W. Water St., Chillicothe, O.
- Lounsbury, G. H. & Sons, 107-109 W. Third St., Cincinnati, O. ("Empire" hair pickers, "Lounsbury" button machines & "Eureka" enameled goods cutters.)
- Novelty Tufting Machine Co., 1200 Michigan Ave., Chicago, Ill. (Cushion & back tufting.)
- Tufting Machine Supply Co., 1200 Michigan Ave., Chicago, Ill. "Areameter." (Leather measuring machines.)

UPRIGHT DRILLS

- ★American Tool Works Co., The, 6th & Eggles-ton Ave., Cincinnati, O.
- Barnes, W. F. & John Co., 204 Ruby St., Rockford, Ill. "Barnes."
- ★Barnes Drill Co., Rockford, Ill.
- Buffalo Forge Co., Buffalo, N. Y. "Buffalo."
- Canedy-Otto Mfg. Co., Chicago Heights, Ill. "Western Chief."
- Champion Blower & Forge Co., Lancaster, Pa. "Champion." (Post.)

CRAFT

Combination Steam Vulcanizer

COMPANY

Vulcanizers, Moulds
and
Retreading Kettles

1910
Special Offer
\$150.00

including three moulds
3", 3½", 4"

F. O. B. Minneapolis

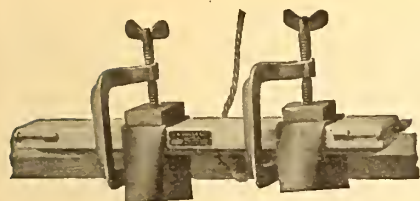

There are no adjustments

One Vulcanizer for every
size and make of tire and
tube made

No Boiler required to operate
this Vulcanizer; it makes its
own steam.

This Vulcanizer can be fitted to use with Gas, Gasoline or connect with Steam Boiler. This outfit is sufficient for any ordinary garage use. Send for printed matter on other Vulcanizers. Oldest Manufacturers of Vulcanizers in the Northwest.

Craft Combination Steam Vulcanizer Company
304 East 48th St., Minneapolis, Minn.

TYPE OR "GANG"

VULCANIZE

SIX tubes

in Fifteen minutes

Here's what so many garage men have been urging us to make—a multiple inner-tube vulcanizer.

SHALER

GANG ELECTRIC VULCANIZER

The heat is generated by simply connecting to your city current and is *automatically* regulated, about 1½c. worth per hour being consumed. There is no boiler to explode. No danger of fire because there is no flame. Each point of the vulcanizer receives the same amount of heat.

Six tubes can be vulcanized as quickly as one and each repair is independently removable from the heater. A blow-out twenty-four inches long can be repaired at one sitting.

PRICE, \$25.00

We are makers of the only perfect PRIVATE OWNERS' model - \$12.50

A liberal discount to garages and repair men.

Write now for full description.

C. A. SHALER CO., Box P, Waupun, Wis., U. S. A.

MAKE YOUR TIRES GO TWICE AS FAR AND SAVE MONEY ON YOUR TIRE REPAIRING

You can do both by patching your inner tubes and casings with

Auto Eleck-Trick Vulcanizer

The Vulcanizer does perfect work and when used on cuts, when they are small, prolongs the life of your tire and saves expensive repair bills.

The outfit is compact, simple in construction, easy to operate and so durable that it will last a lifetime.

Send for illustrated booklet.

Can be used with either direct or alternating current.

PRICE, COMPLETE WITH REPAIR MATERIAL - - - - \$12.00 Garage Repair Kit, \$3.00 extra.
Special discounts to dealers.

MOSSBERG

Socket Wrench

1-3 SIZE
 Patent applied for

Mr. Dealer:

Does it pay to sell a wrench which is with-
 out reputation? We ask you this question
 knowing that if you have had experience with
 any of the many inferior makes of wrenches,
 you will answer "NO!" There is always
 one line of wrenches you can buy and
 sell with safety—the **Mossberg Socket
 Wrench**. They are neat, strong and inex-
 pensive, thoroughly case-hardened—especi-
 ally adapted for automobile kits and equip-
 ment.

Socket Wrench Set No. 6 has eight
 pressed steel sockets, and fits all sizes in
 general use. Neatly and conveniently packed
 in a leather or wooden case.

May we send you further particulars?

Descriptions of New Automobile Machine Tools

THE "CINCINNATI" AUTOMATIC SPUR GEAR CUTTER

The No. 3, 26x10 inch Full Automatic Spur Gear Cutter illustrated herewith, the size adapted for automobile transmission work, has been designed with a view to securing rigidity, large wearing surfaces and simplicity of parts. The power is transmitted through one pulley, running at a constant speed, and the various speeds and feeds are obtained by transposing gears, conveniently located. All gibs are of the taper type, adjustable from the ends. All shafts and spindles are accurately ground and are journaled in bronze bushes. The movements are all automatic, each being dependent on the preceding one and cannot take place until it has been completed.

The "Cincinnati" No. 3, 26 x 10-inch Full Automatic Spur Gear Cutter.

The work saddle is so gibbed to the housing that the work arbor and blank do not drop out of parallelism when the clamps are loosened for adjusting the work for the tooth depth. A graduated collar or micrometer, reading .001 of an inch, is provided on the elevating screw, which is operated by hand from the front of the machine.

The work spindle, of steel, is accurately ground and journaled in bronze bushes, and has provision for taking up wear.

The cutter slide has rectangular guiding surfaces (instead of the usual dovetail) with long taper gibs, for taking up wear, both vertically and horizontally. The tappets, or dogs, for adjusting the length of feed of cutter slide, are operated by a crank wrench from the front of the bed, the most convenient position for the operator. A retractable tappet, for the adjustable dogs, is provided, so that the slide can be run to the extreme back position, for removing blanks

without disturbing the setting of the dogs. The cutter slide returns at a constant speed, regardless of the rate of feed.

The cutter spindle, of large diameter, is accurately ground and has easily accessible means for taking up wear. The spindle has both a taper and a straight bearing and is journaled in a bronze bearing that is adjustable endwise for centering the cutter to a gauge furnished with the machine. The drive is through a worm and wheel, with means for taking up end thrust wear of the worm.

The indexing mechanism is of simple construction. The index worm can be disengaged from the wheel quickly and brought back into the exact meshing depth, or the worm can be disengaged from the index gears and rotated any desired amount for resetting work, and again secured to the index gears. This indexing mechanism is so interlocked with the cutter slide feed that it is impossible for the cutter to advance until the work is properly indexed, or when the cutter is feeding to index, thus making it impossible to spoil work. The work spindle can be made to space once or revolve continuously by a hand movement under control of the operator.

The friction operating stop disc is simple and accessible, as it is not necessary to dismantle any part of the machine to adjust the friction. While index change gears are furnished to cut all teeth from 12 to 100, and with the exception of prime numbers and their multiples from 100 to 450, the machine is so arranged that the work spindle may be rotated 90 degrees for the purpose of milling four-keyed transmission shafts, it being possible to finish such a shaft, 5¼ inches long, with ease in eight minutes. Both overhead and outer supports for the work arbor, and rim support for the gear blanks, are furnished. The machine is made by the Cincinnati Gear Cutting Machine Company, of Cincinnati, Ohio.

THE "ECLIPSE" POWER HACK SAW

This machine is the product of the Eclipse Machine Company, of Elmira, N. Y. It is claimed to saw round, square, hex, flat or octagon steel bars, with absolute accuracy, having a variation of not more than 2-1000 inches in a four inch bar.

A patented chuck designed upon a new and unique principle is used for holding the material. It will hold firmly, any size of round steel from ¾ inches up to and including 6 inches, and squares up to 4 inches in size; and is equally effective in any and all sizes and shapes. It is quickly

The "Eclipse" Power Hack Saw.

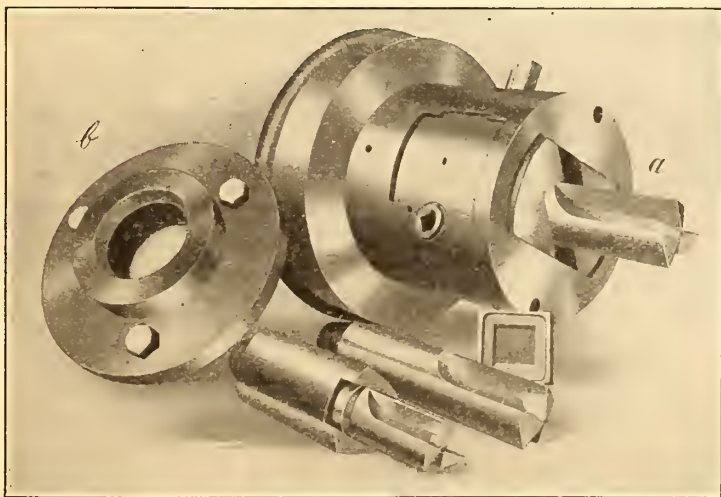

operated with a single screw actuating device that is easy and quick in its operation. The saw is equipped with a simple stop device for setting the stock at any length desired to be cut. An ordinary 20-inch hack saw blade is used and the method employed of turning the stock so as to always present to the saw an easy cutting surface, saves the saw and makes it last longer.

The machine itself is substantially built with box bed base with ample metal in all parts, guaranteed to stand excessive strain. The power required to run it is very small, not over one-half horse. The weight of the machine is 650 pounds, and the floor space required, 4x2 feet. It is furnished fully equipped with one adjustable roller rest, as illustrated, three fork rests, wrenches, etc. Price, \$150.00.

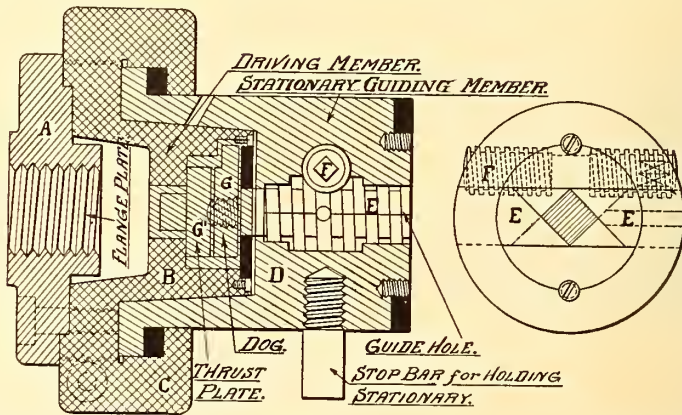

A TOOL FOR BORING SQUARE HOLES

The radical angular drilling apparatus, described and illustrated herewith, is a remarkable and ingenious invention for drilling square or angular holes. This tool is marketed by the Radical Angular Drill Co., 119 W. 23d St., New York City. This device has been introduced successfully in

Germany and is being used by such firms as Frederick Krupp, Siemens & Halske, Schuchardt & Schutte, etc. It is used for rapidly boring or drilling square and angular holes in steel, iron, copper, brass or other metals, wood, stone composition, or any other material on the well-known principle of the Cardan Circles, and it differs from any other method for work of this kind for the fact that it can be easily and rapidly applied to any ordinary milling machine, drill press or lathe without requiring any change in these machines. The apparatus really consists of a specially designed chuck, which moves a three-cornered boring tool or bit about in such a manner that the drill continually changes its position with regard to the center axis of the spindle on which the tool is attached, with the result that the cutting edges of the drill follow a course precisely coinciding with the form of the hole presented by the drill guide. This guide, which in reality consists of two parts, as indicated by letter (c) in the accompanying sectional cut, is adjustable to allow of different sized holes being drilled. The method of working is more of a milling than a drilling process owing to the shape of the drill which is so formed that its under side is sharpened in the manner of a cutter, while the lateral cutting surfaces are hollowed out. This has the advantage that grinding can be easily and rapidly performed on any grinding mill. The chuck is screwed on the spindle of the machine in the same manner as any ordinary chuck. It consists of a guiding part which rides either upon the first part or is secured permanently to the frame of the machine, and a socket into which the shank of the drill is screwed. This socket is caused to rotate, but has a slight freedom of motion in relation to the lathe spindle being guided, as to its exact movements by the matrix or frame in the stationary part. Where square holes are to be drilled, the shank of the tool is three-cornered, the sides

The "Radical" Angular Drill Chuck, showing chuck, also some of the three-cornered cutters.

Sectional view of the "Radical" Angular Drill Chuck used for boring square holes: (a) Face plate of a lathe, (b) rotating part of the radical angular drill chuck, attached to the face plate; (c) collar screwed down to (b), serving to retain the stationary part of the chuck (d); (e) intermeshing square guides; (f) screw by means of which they are adjusted; (g) three sockets in which the shank of the tool is screwed and which is driven through a projecting lug on one side from the part (b).

of the shank being formed by segments of circles struck from opposite corners, as centres, the radius of these circles being the same and equal to one of the sides of the square hole, which is to be drilled. The guide in the stationary part of the chuck is adjusted to the size of the hole to be drilled, that is, so that the sides of the square opening are just equal to the radius by which the circles used for striking out the sides of the shank are formed.

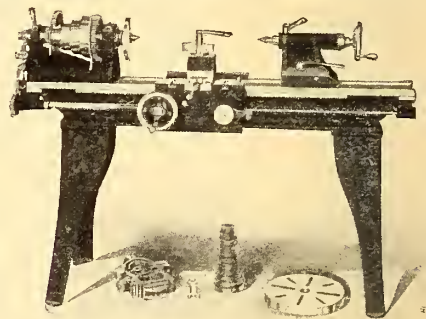

From the accompanying diagram it will be seen that when one of the sides of the shank is either rolling or sliding upon one of the sides of the square guide, the opposite corner of the shank will be moving in a straight line in contact with the opposite side of the guide. The corresponding corner of the head of the tool, would at the same time, strike out a straight line in the work. This motion takes place on all four sides of the guide, except for a little space at each corner, the result being that the hole is perfectly square except for a slight rounding at the corners. If it is desired to bore out a complete square with sharp corners, a special tool is employed, having a shank considerably larger than the head of the tool, one corner of the shank being rounded instead of angular. The exact form of this round shank has to be worked out empirically and a complete set of templets made for the different sizes of tools apt to be required in practice. The outer edges are on the end of the tool, not on the side, being in this respect similar to the ordinary twist or flat drill.

SOUTH BEND SCREW CUTTING LATHE

The engine lathe necessary for a garage or small repair shop should be strong, simple and accurate, at the same time reasonable in price, as not many garages will keep a lathe in constant operation. The illus-

tration herewith shows the improved South Bend Screw Cutting Engine Lathe, manufactured by the South Bend Machine Tool Co., South Bend, Ind.

This lathe is the outcome of a great deal of study on the above points, and is reasonable in price because all unnecessary parts and ornamental work that go to make a lathe expensive have been omitted. This

The South Bend Screw Cutting Lathe.

is a complete lathe for the garage and repair shop, capable of taking care of any kind of a job within its capacity that it may be called upon to do. The lathe shown swings $13\frac{1}{4}$ inches over the bed, is operated by countershaft, will cut thread from 4 to 40, the carriage is provided with "T" slots so that a cylinder may be clamped for boring. The spindle has a $\frac{3}{4}$ -inch hole through its entire length. The design and construction of the lathe throughout is modern and complete.

The lathe may be also used for wood turning, boring, etc. This company manufactures a complete line of lathes from 8 to 14-inch swing, ranging in length of bed from 3 to 10 feet. They also make and sell a complete line of lathe accessories and tools.

THE "TOOMEY" LATHE

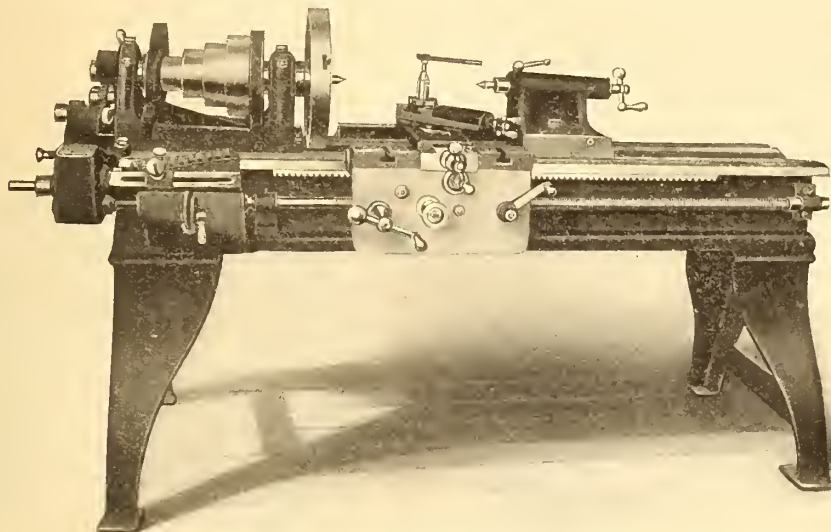

The accompanying cut shows a 14-inch Quick Change Gear Lathe especially designed for the requirements of the automobile trade. It is made by the Carroll-Jamieson Machine Tool Co., of Batavia, O., and is marketed by Frank Toomey, Inc., 127-131 North Third street, Philadelphia, Pa.

This lathe is provided with 30 changes of feeds and threads without the removal of a gear, and is arranged to cut all standard

bearings are phosphor bronze. The carriage has long bearings and is gibbed front and back.

Each machine is tested with a 12-inch test bar and will not exceed .001 inch. Indexed to cut threads per inch from 3 to 32.

With each lathe are furnished large and small face plates, follow rest, steady rest, double friction countershaft and wrenches. Other specifications are as follows: Swings over bed, 14 $\frac{7}{8}$ inches; swings over car-

The "Toomey" 14-inch Quick Change Gear Lathe.

threads from 3 to 32 per inch, including 11 $\frac{1}{2}$ pipe thread, the changes being made instantaneously by moving one handle and a knob, for either right or left-hand feeds.

The construction is very strong and simple, and there is nothing to get out of order, as all gears, where best for the purpose, are steel and the studs are hardened and ground and mounted between two walls. All changes of feeds and threads can be made without stopping the lathe. It is unnecessary for the operator to confine himself to the thread on the index, as other gears can be used on the end of the sliding shaft, and the range of threads and feeds is unlimited.

The cross slide has a wide bearing of 5 $\frac{1}{4}$ inches and is fitted with taper gibbs. The compound rest slide is graduated and of the latest and most approved design. The cross feed is automatic and is graduated as well as the compound rest screw, which is also graduated.

The construction of the apron is simple and strong, has extra long bearing on nut slide. The rack pinion has an end support; the spur gear driving rack pinion is mounted between two walls; the small gears are steel. All studs are hardened and ground; all feeds are friction.

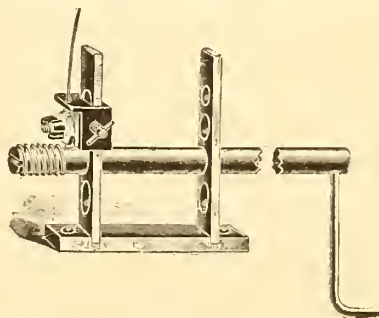

The tail stock is of overhanging style. The feeds are reversed in the head. The

riage, 10 inches; distance between centers, 6-foot bed, 39 inches.

THE "RITTER" SPRING WINDING MACHINE

This machine is designed for the purpose of coiling springs or re-winding old ones. It will be found to fill a long felt want in any place where there is need of coiling springs such as garages, machine shops, etc. The machine takes up very little room and can be operated by any one.

The desired pitch is given to springs by a brass spacing washer which has five edges, each of different thickness, and also one

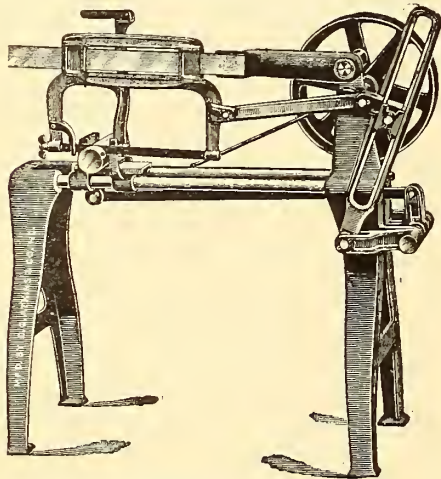

The "Ritter" Spring Winding Machine.

smooth edge, without any flange for use where a closely wound or tension spring is wanted.

It is made in three sizes, as follows: No. 1 machine is supplied with 7 rods as follows: $\frac{1}{8}$, 3-16, $\frac{1}{4}$, 5-16, $\frac{3}{8}$, 7-16, $\frac{1}{2}$ -inch diameter and will coil springs up to 15 inches long. No. 2 machine is supplied with 5 rods, $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$, $\frac{3}{4}$ -inch diameter and will coil springs up to 20 inches long. No. 3 machine is supplied with 4 rods, $\frac{5}{8}$, $\frac{3}{4}$, $\frac{7}{8}$, 1-inch diameter and will coil springs up to 23 inches long. On the large machines the inside diameter of spring will be about $\frac{1}{8}$ inch larger than diameter of rod it is coiled upon. This machine is marketed by E. W. Chadwick, 130 Centre street, New York City.

ATKINS "KWIK KUT" HACK SAW MACHINE

The "Kwik Kut" hack saw machine illustrated herewith is manufactured by E. C. Atkins & Co., Inc., Indianapolis, Ind. This machine is built on strong mechanical lines with all wearing parts large and durable. It is so constructed that the whole saw blade is used in cutting and it automatically adjusts itself to all sizes of cuts. It is called

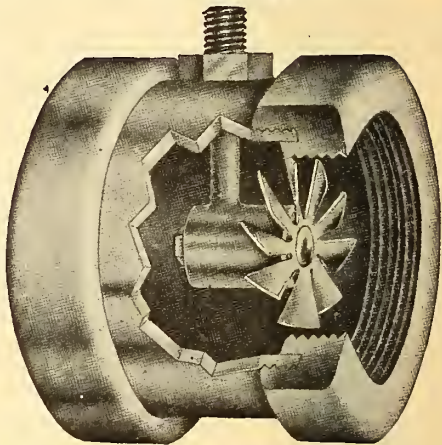

Atkins "Kwik Kut" hack saw machine.

"Kwik Kut" because of the rapid return of the saw arm. The blade has a regular forward motion, but has a return three times as fast, thus saving the time consumed by machines which move forward and backward at the same speed. It has an automatic attachment which throws out the clutch and stops the machine, as soon as the complete cut is made.

The frame is so designed that it may be thrown back if desired, leaving the vice clear. The vice is equipped with a right and left hand screw. The frame is mounted on a flat guide, assuring straight cuts, thus avoiding the breaking of the blades.

CYLINDER OILER

Morgan Auxiliary Oiler and Mixer

THIS IS IT. It eliminates all carbon, increases the power of your motor (whether single or double) saves fuel, lengthens the life of your car. What more do you want? Get in line.

Section IV—Brand Names

Below we give a list of brand names divided into three groups covering respectively "Automobiles," "Motor Cycles," "Aeronautical" and "General," the last heading including all parts, accessories, machinery, side lines, etc., not included in the other three.

It will be a great benefit to the trade if this list is enlarged to include every brand name in use in this industry. It is also desirable that manufacturers who use no brand names adopt them without delay and have them included in the Brand List of the next number of the Directory, so that every product sold in this industry will have an exclusive trade name by which its producer can be instantly found by reference to this Brand List.

This list reveals the fact that there have been a number of duplications in the selection of brand names, in several cases the same brand name being applied to two or more products of the same kind made by different manufacturers. Such products should be renamed, the manufacturer who has longest used a duplicated brand name retaining it and the others adopting new brand names.

Asterisks (*) in front of brand names indicate that their manufacture has been discontinued, or that we have been unable to get any response to letters in regard to the continuance of the manufacture of articles.

- AARON—fire extinguishers, Robinson Fire Extinguisher Mfg. Co., 4520 N. 20th St., St. Louis, Mo.
- ABBOTT—automatic electric time switches, Abbott Mfg. Co., 9212-14 Central Ave., S. E., Cleveland, Ohio.
- ABRASIVE—grinding wheels, Abrasive Material Co., Phila., Pa.
- ABSORBINE, JR.—liniment, W. F. Young, 77 Temple St., Springfield, Mass.
- *ACAMEE—metal & wood polish & auto body liquid soap, The Acamee Polish Co., 404 Birr St., Rochester, N. Y.
- ACATENA—side lights, C. Cowles & Co., Water and Chestnut Sts., New Haven, Conn.
- ACCURATE—fire extinguishers, The Tea Tray Co. of Newark, Mulberry & Murray Sts., Newark, N. J.
- ACCURO—voltmeters & ammeters, The Post & Lester Co. 20 Sargeant St., Hartford, Conn.
- ACETYLENE—carbide, Acetylene Co., 38 Park Row, N. Y. City.
- *ACETYVONE—carbide & gas generators, Acetyvone Co., 38 Park Row, N. Y. City.
- ACHESON—graphite & graphited grease, International Acheson Graphite Co., Niagara Falls, N. Y.

- ACKERMAN—wind shields, Jos. N. Smith & Co., Fourth & Porter Sts., Detroit, Mich.
- ACME—bolt & nut machinery, Acme Machinery Co., Cleveland, O.
- ACME—chain hoist, Franklin Moore Co., Winsted, Conn.
- ACME—fire extinguishers, M. L. Snyder, 9 N. 4th St., Phila., Pa.
- ACME—foundry chaplets, parting, facings, etc., Central Foundry Supply Co., West Spring St. & H. V. Ave., Columbus, O.
- ACME—handle bars, Ideal Plating Co., Inc., Marlboro, Mass.
- ACME—metal polish, Acme Polish Co., 810 Second Ave., Pittsburg, Pa.
- ACME—pumps & gasoline storage outfits, Wallman Mfg. Co., 283-285 5th Ave., Milwaukee, Wis.
- ACME—screw machines, slotting machines & pipe nipples, National-Acme Mfg. Co., Cleveland, O.
- ACME—steel mats, Acme Steel Goods Co., 2834 Archer Ave., Chicago, Ill.
- ACME—storage batteries, United Electric Storage Battery Co., 2107 Pine St., St. Louis, Mo.
- ACME—timer & distributor combined, Pittsfield Spark Coil Co., Dalton, Mass.
- ACME—tires, auto, and rubber cloth, Acme Rubber Mfg. Co., E. State St., Trenton, N. J.
- ACME—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- ACME—universal joint, Acme Universal Joint & Mfg. Co., 310-14 E. Water St., Kalamazoo, Mich.
- ACORN—carburetors, Generator Valve Co., 294-296 Taaffe Pl., Brooklyn, N. Y.
- ACORN—pump connections, Stevens & Co., 375 Broadway, N. Y. City.
- ACORN—timers, Acorn Brass Mfg. Co., 227 N. Peoria St., Chicago, Ill.
- ACTIVE—grease cups, H. B. Sherman Mfg. Co., 12 Barney St., Battle Creek, Mich.
- ADAMANT—bearing metals, Magnolia Metal Co., 113-115 Bank St., N. Y. City.
- ADAMANTINE—screw plates, American Tap & Die Co., Greenfield, Mass.
- *A. A. ADAMS—gasoline marine motors, A. A. Adams & Co., 350-354 Fountain St., Providence, R. I.
- ADAMS-FARWELL—automobile motors, The Adams Co., Dubuque, Iowa.
- ADAMS—grease, oil & gear compound, Adams Grease & Oil Co., 159 W. 51st St., N. Y. City.
- ADAMS—grinding stands, snap flasks & foundry supplies, The Adams Co., Dubuque, Iowa.
- ADAPT—wind shields, Adapt Machinery Co., 1620-1630 Wabash Ave., Chicago, Ill.
- ADDISON—steering checks, The Addison, 20-22 S. Hoyne Ave., Chicago, Ill.
- ADD-WEAR—tire sleeves, The Adwcar Auto Tire Sleeve Co., N. Attleboro, Mass.
- AD-EL-ITE—wood polishes, paints & varnish remover, Adams & Elting Co., 159-163 Washington Blvd., Chicago, Ill.
- ADJUSTABLE—curtain fasteners, Metal Stamping Co., 30-50 Hubert St., New York City, N. Y.
- ADJUSTO—wind shields, Chicago Wind Shield Co., 235 Johnston St., Chicago, Ill.
- ADLAKE—automobile oil & electric lamps, The Adams & Westlake Co., 319 Ontario St., Chicago, Ill.
- ADLAKE-NEWBOLD—auto lighting dynamos, Adams & Westlake Co., 319 Ontario St., Chicago, Ill.
- ADMIRAL—bicycles, Arnold, Schwinn & Co., 1718-32 N. 43rd St., Chicago, Ill.
- ADVANCE—pyrometers, Wilson-Maeulen Co., N. Y. City.
- ADVANCE—springs, The Jackson Cushion Spring Co., Jackson, Mich.
- ADVANCE—oils, greases, auto body soap & cutting compounds, Alonzo K. Lynch, Inc., 310-12 Flushing Ave., Brooklyn, N. Y.
- ADVANCE—upright drills, Silver Mfg. Co., Salem, Ohio.
- ADVANCE—voltammeters, voltmeters & ammeters, Eldredge Electric Mfg. Co., 3 Post Office Square, Springfield, Mass.
- AEOLUS—tire pumps, hand, Bridgeport Brass Co., Cor. Fairfield & Holland Aves., N. Y. City.
- *AEOLUS—wind shields, The K & T Mfg. Co., 32 Atlantic Ave., Boston, Mass.
- AEROCHUCK—air chucks and air counter-shafts, Manufacturers Equipment Co., 23-27 N. Jefferson St., Chicago, Ill.
- AETNA—gasoline storage tanks, Fred Kaltenbach, 919 Washington Blvd., Chicago, Ill.
- AFRICAN SLUSH—rust preventers, C. F. Houghton & Co., 240 W. Somerset St., Philadelphia, Pa.
- AGATITE—metal cements, Jas. S. Longhurst, Jr., Lynbrook, L. I., N. Y.
- AIR-CUSHION—shock absorbers, Mellen-Edwards Co., 403 Grand Ave., Beloit, Wis.
- *AIRTIGHT—compound to prevent spark plugs from leaking, Pearl Mfg. Co., 135 Dwight St., Springfield, Mass.
- AIR-TIGHT—tanks, Air-Tight Steel Tank Co., 421 Wood St., Pittsburg, Pa.
- AJAX—anti-freezing compounds, metal polish & gasoline storage outfits, Ajax Auto Co., 832-34 E. 43rd St., Chicago, Ill.
- AJAX—automobile bow sockets, top joints, shifting rails & adjustable goosenecks, Cortland Forging Co., Cortland, N. Y.
- AJAX—belting, Thermoid Rubber Co., Trenton, N. J.
- AJAX—brake lining, Calmon Asbestos & Rubber Works of America, 1693 Broadway, N. Y. City.
- AJAX—bumpers, Chicago Electric Mfg. Co., 523-29 Van Buren St., Chicago, Ill.
- AJAX—hand shears, Acme Shear Co., Bridgeport Conn.
- AJAX—pneumatic hammers, The Cleveland Pneumatic Tool Co., 6410 Hawthorne Ave., Cleveland, O.
- AJAX—spark plugs, Auto Specialties Mfg. Co., 656-658 3rd St., Milwaukee, Wis.
- AJAX—storage ignition batteries, Ajax Battery Co., 1532 Michigan Ave., Chicago, Ill.
- AJAX—tires, (auto & bicycle), & mats, Ajax-Grieb Rubber Co., 1777 Broadway, N. Y. City.
- AJAX—trunks, Ajax Trunk & Sample Case Co., 91-93 Mercer St., N. Y. City.
- AJAX—wind shields, The Novelty Mfg. Co., Maple St., Waterbury, Conn.
- AKRON—auto & motor boat clutches, Williams Foundry & Machine Co., Akron, O.
- AKRON—enamel & varnish, Akron Varnish Co., Akron, O.
- AKRON-WILLIAMS—vulcanizers, Williams Foundry & Machine Co., Akron, O.
- ALADDIN—portable electric light stand, I. J. Smith Mfg. Co., Inc., 4283 Park Ave., N. Y. City.
- ALAMO—stationary engines, The Alamo Mfg. Co., Hillsdale, Mich.
- ALBANY—grease, oils & grease cups, Adam Cook's Sons, 313 West St., New York City, N. Y.
- ALBANY—japans & shellacs, Eugene E. Nice, 272 S. 2nd St., Phila., Pa.
- ALCO—burners, gas lamp tips & tire talc, American Lava Co., Chattanooga, Tenn.
- ALDERMAN—bicycle wrenches, Frank Mossberg Co., Attleboro, Mass.
- ALDING—leather tire sleeves, Alsten & Goulding, 36 Foster St., Worcester, Mass.
- ALERT—piston ring grinders, S. B. Harding, Waukesha, Wis.
- AL-LECTRO—metal polish, L. B. Allen Co., Inc., 1353 Columbia Ave., Chicago, Ill.
- ALLEN—fire extinguishers, Allen Fire Dept. Supply Co., Eddy St., Providence, R. I.
- *ALLEN—gasoline cycle & marine motors & auto motors, Allen Motor Co., 11th & Pt. Lobos Ave., San Francisco, Cal.
- ALLEN-RANDALL—bolt clippers, H. K. Porter, 6 Ashland St., Everett, Mass.

- ALLEN'S—gloves, J. C. Allen & Sons, Gloversville, N. Y.
- ALLEN—solder, lamp coloring, soldering sets & commutator lubricant, L. B. Allen Co., Inc., 1353 Columbia Ave., Chicago, Ill.
- ALLEN—tire case, extra tire holders, tire locks, grease bags, universal joint covers & inner tube bags, Allen Auto Specialty Co., 1926 Broadway, New York City.
- ALLIGATOR—leaf springs, Cleveland-Canton Spring Co., Canton, O.
- ALLIGATOR—wrenches, Harris & Reed Mfg. Co., 1500-1578 W. 15th St., Chicago, Ill.
- ALL-IN-ONE—spark plugs, Comet Electric Mfg. Co., Detroit, Mich.
- ALL-RIGHT—spark plugs, Albright Mfg. Co., Columbus, Ga.
- ALLSTEEL—factory equipment, General Fire Proofing Co., Youngstown, O.
- ALL STEEL—screw drivers, Billings & Spencer Co., 216 Lawrence St., Hartford, Conn.
- ALLTOGETHER—wrenches, John Stortz & Son, 210 Vine St., Philadelphia, Pa.
- ALLYNE—aluminum, brass and bronze castings, Allyne Brass Foundry Co., Cleveland, O.
- ALMOND—drill chucks, countershafts, flexible tubing, turret heads, tools & tool holders, T. R. Almond Mfg. Co., Ashburnham, Mass.
- *ALMOND OIL—grease, National Cement & Rubber Mfg Co., 3043-3059 Monroe St., Toledo, O.
- ALMY—timers & water tube boilers, Almy Water Tube Boiler Co., Providence, R. I.
- ALPHA—demountable rims, The Alpha Rim Co., Room 910, Marbridge Bldg., N. Y. City.
- ALPHA—gasoline marine motors, The Aero & Marine Motor Co., 60 Pemberton Square, Boston, Mass.
- ALPHA—gasoline motor boats, marine gasoline motors, propellers & propeller shafts, W. T. Bintliff, Plainfield, N. J.
- ALPHA—rubber tubing, steering wheel grips, gas bags, tire repair patches & rubber horn bulbs, Parker, Stearns & Co., Sheffield & Belmont Aves., Brooklyn, N. Y.
- ALPHA—rubber hose & belting, United & Globe Rubber Mfg. Co., Trenton, N. J.
- ALRITE—jacks, National Jack & Mfg. Co., 132 & 34 S. Clinton St., Chicago, Ill.
- ALUMALOYD—aluminum alloy sheets, Stark Rolling Mill Co., Canton, O.
- ALUMA SHEET—aluminum coated steel, Pittsburgh Steel Specialties Co., Pittsburgh, Pa.
- *ALUMINITE—aluminum solder, Aluminum Solder & Refining Co., Oswego, N. Y.
- ALUNDUM—grinding, rubbing & sharpening stones, Norton Grinding Co., Barbers Crossing, Worcester, Mass.
- ALVERN—ignition & storage batteries, Alvern Battery Co., Evansville, Ind.
- ALWAYS RELIABLE—brazing & soldering torches, Otto Bernz, 21-43 S. 13th St., Newark, N. J.
- AMALIE—oil, grease, metal polish & paint, L. Sonneborn Sons, 262 Pearl St., N. Y. City.
- AMAZON—waterproof motorcycle belting & fan & pump belts, Geo. Rahmann & Co., 6 Ferry St., N. Y. City.
- AMCO—switches, tire holders, robe rails & foot rails, Chicago Electric Mfg. Co., 523-29 Van Buren St., Chicago, Ill.
- AMERICAN—air compressors, American Steam Pump Co. Battle Creek, Mich.
- AMERICAN—anvils, American Wrought Anvil Co., 12-18 Richardson St., Brooklyn, N. Y.
- AMERICAN—auto tires, American Wood Tire Co., 623 Monadnock Block, Chicago, Ill.
- AMERICAN—ball bearings, American Ball Bearing Co., Edgewater Park & L. S. & M. S. Ry., Cleveland, Ohio.
- AMERICAN—bit braces, Turner & Deegan, Bristol, Conn.
- AMERICAN—boring machines, band saws, saw tables, swing saws, lathes & planers, American Sawmill Machinery Co., Hackettstown N. J.
- AMERICAN—detachable auto tires, American Tire Co., Owosso, Mich.
- AMERICAN—drill grinders, Heald Machine Co., Worcester, Mass.
- AMERICAN—emery wheels, corundum wheels & oil stones, American Emery Wheel Works, Providence, R. I.
- AMERICAN—files & rasps, Nicholson File Co., Providence, R. I.
- AMERICAN—gasoline auto engines, also knock down engines, T. Tallmadge, Baldwinville, N. Y.
- AMERICAN—gasoline & oil storage outfits, The American Oil Pump & Tank Co., Dayton, O.
- AMERICAN—grinders & grinding attachments, Diamond Machine Co., Providence, R. I.
- AMERICAN—heaters, auto, American Auto Heater Co., Inc., 160 14th St., Buffalo, N. Y.
- AMERICAN—metal polishes, Harvey Chemical Co., Lafayette, Ind.
- AMERICAN—pulleys, American Pulley Co., 29th & Bristol Sts., Philadelphia, Pa.
- AMERICAN—resilient automobile wheels, American Resilient Wheel Co., 1336 New York Ave., Washington, D. C.
- AMERICAN—reverse gears, marine kerosene engines & oil stationary engines, American Oil Engine Co., 1779 Broadway, N. Y. City.
- AMERICAN—rubbing stones, American Stone Co., New Albany, Ind.
- AMERICAN—sparkling coils, timers, switches & spark plugs, American Coil Co., Foxboro, Mass.
- AMERICAN—storage batteries, American Battery Co., 1132-34' Fulton St., Chicago, Ill.
- AMERICAN—taps & dies, wrenches & threading tools, American Tap & Die Co., Greenfield, Mass.
- AMERICAN—vulcanizers, air compressors & gasoline auto engines, Frank W. Bacon, 16th & Harney Sts., Omaha, Nebr.
- AMERICAN CROWN—auto body soap, James S. Kirk & Co., N. Water St., Chicago, Ill.
- AMERICAN CYCLOPEDIA OF THE AUTOMOBILE (publication)—Bacon & Fynney, 120 Boylston St., Boston, Mass.
- AMERICAN IGNITER—timers and spark coils, American Electric Fuse Co., Muskegon, Mich.
- AMERICAN MCINNIS—Hull coating, George N. Gardiner & Son, 15 William St., N. Y. City.
- AMERICAN SWISS—tool makers' files, American Swiss File & Tool Co., 24 John St., N. Y. City.
- AMES—lathes, milling machines & jig filing machines for die work, B. C. Ames Co., 21 Crescent St., Waltham, Mass.
- AMES—sheet packing, gaskets & washers, U. S. Indestructible Gasket Co., 50 Church St., N. Y. City.
- AMES—shovels & polishing & buffing wheels, Frederic B. Stevens, Detroit Mich.
- AMETALHOSE—metal hose and flexible metallic tubing, American Metal Hose Co., 173-177 Lafayette Street, N. Y. City.
- AMHERST—packing, Canfield Mfg. Co., Lehigh Ave. & Howard St., Phila., Pa.
- AMOCO—automobile soap, oils, greases, & graphlts, American Oil Co., 170-78 S. Water St., Jackson, Mich.
- AMPVO—storage ignition batteries, Ampvo Battery Co., 1607 Michigan Ave., Chicago, Ill.
- ANCHOR—axles & springs, Sheldon Axle Co., Wilkes-Barre, Pa.
- *ANCHOR—cements, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, O.
- ANCHOR—metal polish, J. W. Hoffman Co., 8 Medford St., Boston, Mass.
- ANCHOR—nails, Tockwotton Co., 79 S. Main St., Providence, R. I.
- ANCHOR—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.

- ANCHOR—watch holders, vacuum, Metal Specialties Mfg. Co., 427-441 W. Randolph St., Chicago, Ill.
- ANCHOR BRAND—auto hardware, North & Judd Mfg. Co., New Britain, Conn.
- *ANDERSON—carburetors, G. W. Miller, 1221 N. 8th St., Quincy, Ill.
- ANDERSON—charging plugs & receptacles, Albert & J. M. Anderson Mfg. Co., 289-293 A St., Boston, Mass.
- ANDERSON—electric grinders & electric breast drills, William S. Nicholls, 253 Broadway, N. Y. City (Mfrs. Agents).
- ANDERSON—gasoline marine & automobile motors, Anderson Engine Co., Shelbyville, Illinois.
- ANDERSON GLASS—spark plugs, Anderson Spark Plug Co., 100 Boylston St., Boston, Mass.
- ANDERSON TURN-MORE—wrenches, The Simplex Mfg. Co., 90 West St., N. Y. City.
- ANDERSON—speed change gears, circulation pumps and mufflers, The Anderson Motor Co., 16th & Jackson Sts., Anderson, Ind.
- ANDRAE—charging panels, switchboards & spark coils, Julius Andrae & Sons Co., 118-20 Sycamore St., Milwaukee, Wis.
- ANDREWS—dry kilns & kiln doors, The A. H. Andrews Co., 174-76 Wabash Ave., Chicago, Ill.
- ANGLE—wind shields, H. J. Russell, 32 Exchange St., Worcester, Mass.
- ANGOLA—stationary engines, Angola Engine & Foundry Co., Angola, Ind.
- ANTI-CARBON—automobile oil, American Oil Co., 170-78 S. Water St., Jackson, Mich.
- ANTI-CARBON—oils, Keystone Supply Co., Columbus, Ohio.
- ANTICARBO—oils, The Cincinnati Oil Works Co., Cincinnati, Ohio.
- ANTI-CORROSIVE—gas engine lubricant, E. H. Kellogg & Co., 243 & 244 South St., New York City.
- ANTI-FRICTION AUTO LUBRICANT—oils, E. H. Kellogg & Co., 243 & 244 South St., New York City, N. Y.
- ANTI-FRICTION—grease, E. H. Kellogg & Co., 243 & 244 South St., New York City, N. Y.
- *ANTIOAK—leather tires and belting, Antioak Leather Co., Los Angeles, Cal.
- ANTI-SELENITE—liquid carbon removers, Anti-Selenite Co., 2230 Olive St., St. Louis, Mo.
- ANTOINETTE—gasoline automobile & marine motors, Antoinette Motor Co., E., Providence, R. I.
- APCO—oil gauges, tire valve tools, timer attachments, lamp lighters, valve grinding tools & crank handle holders, Auto Parts Co., 10 Weybosset St., Providence, R. I.
- APEX—pipe threading & cutting machines, The Merrell Mfg. Co., Toledo, Ohio.
- APLCO—electric lighting & ignition systems, Apple Electric Co., 20 N. Canal St., Dayton, Ohio.
- APOLLO—grease cups, The Lunkenheimer Co., Cincinnati, O.
- APPEAL—bicycles, Appeal Mfg. & Jobbing Co., Los Angeles, Cal.
- APPLE—batteries, dynamos, timers & switches, Dayton Electrical Mfg. Co., 89 St. Clair St., Dayton, O.
- AQUADAG PASTE—graphite and water, Acheson Oildag Co., Niagara Falls, N. Y.
- *AQUA—rawhide belts, Shultz Belting Co., St. Louis, Mo.
- AQUILA—top dressing & wood polish, Aquila Chemical Co., 187 Third St., Milwaukee, Wis.
- ARCADE—files & rasps, Nicholson File Co., Providence, R. I.
- ARCHIBALD—motor truck wheels, Archibald Wheel Co., Lawrence, Mass.
- ARCO—oil & grease, Atlantic Refining Co., Citizens Bldg., Cleveland, Ohio.
- ARCO—tanks for fuel or water, hoods, mud guards & metal auto bodies, Auto Rebuilding Co., 1307-09 Wabash Ave., Chicago, Ill.
- *ARCTIC—oil, Vacuum Oil Co., Rochester, N. Y.
- ARDMORE—gasoline marine motors, Henry Keldel Co., 405 West German St., Baltimore, Md.
- AREAMETER—leather measuring machines, Tufting Machine Supply Co., 1200 Michigan Ave., Chicago, Ill.
- AREMCO—tire holders, robe rails, trunk racks & bumpers, Rothstein Mfg. Co., 1941-55 Park Ave., N. Y. City.
- ARGOLINE—auto oils, Ellis & Cummings Oil Works, Foot of Chestnut St., Reading, Pa.
- ARGUS—dash mirror, Motor Car Equipment Co., 55 Warren St., N. Y. City.
- ARKANSAS—oilstones, Pike Mfg. Co., Pike, N. H.
- ARMAC—motorcycle side car & delivery attachments, cycle motors & motorcycle frame fittings, Armac Motor Co., 472 Carroll Ave., Chicago, Ill.
- ARMALAC—insulating shellac, Massachusetts Chemical Co., Walpole, Mass.
- *ARMSTRONG IMPROVED PALMER—bicycle tires, A. G. Armstrong, 410 W. 13th St., N. Y. City, N. Y.
- *ARNSTEIN—automobile & bicycle cements, vulcanizing solutions, enamels & decarbonizers, Eugene Arnstein, 35th & Shields Ave., Chicago, Ill.
- ARPECO—wrenches & vises, Rogers, Printz & Co., Warren, Pa.
- ARROW—aluminum solder, The Lester Co., Fayetteville, N. Y.
- ARROW—axles, Cleveland Axle Mfg. Co., Canton, Ohio.
- ARROW BRAND—asphalt roofing, Asphalt Ready Roofing Co., 136 Water St., N. Y. City.
- *ARROW—gasoline marine motors, Buffalo Auto-Truck & Motor Co., 123 Erie Co., Bank Bldg., Buffalo, N. Y.
- ARROW—tool steel, imported by John A. Crowley & Co., 120 Liberty St., N. Y. City.
- ARROW—waste cans, Arrow Can Co., 35 Warren St., N. Y. City.
- ARSENAL—paints & colors & ARSENAL LIQUID GUN METAL—lacquers, Arsenal Varnish Co., 25th St. & 4th Ave., Rock Island, Ill.
- ARSENO—lamp adapters, electric, Arseno Electric Co., 819A Boylston St., Boston, Mass.
- ARTIZAN—air compressors, Artizan Brass Co., 204 Lincoln Park Blvd., Chicago, Ill.
- ASCO—horn bulb protectors, American Spring & Supply Co., 135 Johnson St., Brooklyn, N. Y.
- ASHCROFT—valve grinders, breast drills & steam & air gauges, Ashcroft Mfg. Co., 85-89 Liberty St., N. Y. City.
- ASHTABULA—leather trimming & leather top materials, Ashtabula Hide & Leather Co., Ashtabula, O.
- ASHTON—acetylene separators, W. E. Ashton & Door Co., 2011 Walnut St., Phila., Pa.
- ASHTON—valves, cocks, whistles, gauges, etc., Ashton Valve Co., 271 Franklin St., Boston, Mass.
- ASTRAL—storage batteries, Astral Storage Battery Co., 718 Jackson Blvd., Chicago, Ill.
- ASTROM—air compressors, Ft. Wayne Engineering & Mfg. Co., Ft. Wayne, Ind.
- ATHERTON—coaster brakes, Buffalo Metal Goods Co., 865 Lafayette Ave., Buffalo, N. Y.
- ATKINS—auto tops, Atkins & Townsend, Felton, Del.
- ATKINS KWICK KUT—hack saws, E. C. Atkins & Co., Indianapolis, Ind.
- ATLANTIC—gasoline marine motors, The Atlantic Co., Amesbury, Mass.
- ATLANTIC SPECIAL—gasoline marine motors, The Atlantic Co., Amesbury, Mass.
- *ATLANTIC—varnishes, Atlantic Drier & Varnish Co., Phila., Pa.
- ATLAS—automobile jacks, & tire repair tools, U. S. Jack Co., 644 W. Lake St., Chicago, Ill.

- ATLAS—bumpers, S. Toffler Co., Inc., 145th St. & Southern Blvd., N. Y. City.
- ATLAS—chain blocks, Schuchardt & Schutte, 90 West St., N. Y. City.
- ATLAS—grease and oil, Swan & Finch Co., 151 Maiden Lane, N. Y. City.
- ATLAS—inner tubes, cases & vulcanizers, Atlas Rubber Co., Niagara & Massachusetts Ave., Buffalo, N. Y.
- ATLAS—nuts, bolts, rivets & screw machine products, Atlas Bolt & Screw Co., 1289 Marquette Road, N. E., Cleveland, Ohio.
- ATLAS—pump governors & reducing valves, Hall Mfg. Co., John & Gold Sts., N. Y. City.
- ATLAS—tempering steels, Atlas Steel Co., Dunkirk, N. Y.
- ATLAS—top irons, Cortland Forging Co., Cortland, N. Y.
- ATMOGEN—stationary gas & gasoline engines, Atmogen Machine Works, Westminster Station, Vt.
- ATWATER-KENT—switches, Atwater-Kent Mfg. Works, 42-46 N. 6th St., Philadelphia, Pa.
- ATWOOD—dome lights, electric lamps, acetylene lamps, acetylene gas generators & lamp brackets, The Castle Lamp Co., Toledo, O.
- AUBURN—auto ball bearings, Auburn Ball Bearing Co., 29-35 Elizabeth St., Rochester, N. Y.
- AUBURN—spark plugs, The New York Mica & Mfg. Co., 122 Clark St., Auburn, N. Y.
- AUDEMAIR—goggles, Spencer Optical Mfg. Co., 31 Maiden Lane, N. Y. City.
- AURISTOPHONE—telephones, H. G. Pape Electric & Mfg. Co., 551 Genesee St., Buffalo, N. Y.
- AURORA—clocks, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- AURORA—drill presses, The Aurora Tool Works, Aurora, Ill.
- AURORA—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- AURORA—oil auto lamps, New York Auto Lamp Co., 68 Clarkson St., N. Y. City.
- AURORA—oils, grease & auto body soap, The Pigot, Sayre Co., 135 William St., N. Y. City.
- AUSTRIAN—cutting oil, White Refining Co., 77 Main St., Buffalo, N. Y.
- AUTEX—ignition & vehicle batteries, Willard Storage Battery Co., Marquette Road & Lakeside, Cleveland, O.
- AUTHENTIC—searchlight, Manhattan Screw & Stamping Works, 67th St. & West End Ave., N. Y. City.
- AUTO—fuel & oil cans (safety), C. Rudman, 277 Pearl St., N. Y. City.
- AUTO—grease cups, Tell City Foundry & Machine Works, Tell City, Ind.
- AUTOART—speed change gears, crank cases & rear axles, Auto Parts Mfg. Co., 1359-79 St. Antoine St., Detroit, Mich.
- AUTO-AUTOMATIC—wind shields, Auto-Automatic Wind Shield Co., Inc., Detroit, Mich.
- AUTOBESTINE—brake lining, Woven Steel Hose & Rubber Co., Trenton, N. J.
- AUTOBESTOS—packing, Keasby & Mattison Co., Ambler, Pa.
- AUTO-BI—motorcycle parts, The Greyhound Motor Works, 1443 Niagara St., Buffalo, N. Y.
- AUTOBIS—electric auto horns, Holtzer-Cabot Electric Co., Boston, Mass.
- AUTO-BRIGHT—metal polishes, Adams & Elting Co., 159-163 Washington Blvd., Chicago, Ill.
- AUTOBY—oils, Great Western Oil Co., 2855 E. 37th St., Cleveland, O.
- AUTO CAMP—camping outfits, Charles J. Godfrey Co., 10 Warren St., N. Y. City, N. Y.
- AUTO CARBON REMOVER—carbon removers, Whitney Chemical Co., 6122 Euclid Ave., Cleveland, O.
- AUTOCELL—ignition batteries, National Carbon Co., Lock Drawer "L," Cleveland, O.
- AUTOCHIMES—automobile horn, Gray-Hawley Mfg. Co., 605-609 Fort St., West Detroit, Mich.
- AUTOCLEAN—auto body, cleansing compound, Bridgeport Wood & Finishing Co., New Milford, Conn.
- AUTOCL—wrenches, Motor Parts Co., Plainfield, N. J.
- AUTOOCOIL—spark coils, The Autocoll Co., 132-136 Seventh St., Jersey City, N. J.
- AUTO-CONTACT—battery cases, A. Hall Berry, 97-99-101 Warren St., New York City, N. Y.
- AUTOCRAT—goggles, hydrometers, hydrometer syringes, thermometers, mirrors & oil guns, imported by American Thermoware Co., 16 Warren St., New York City, N. Y.
- AUTOCRAT—ignition batteries, Stackpole Battery Co., St. Marys, Pa.
- AUTO-CREEPER—trucks, The Brown Co., 1071-73 S. Clinton St., Syracuse, N. Y.
- AUTO-CUSHION—shock absorbers, Mellen-Edwards Co., 403 Grand Ave., Beloit, Wis.
- AUTO DRAFT—cable & drum for pulling out of mud holes, Auto Draft Co., Lake City, Minn.
- AUTODRIVER—screw drivers, Bridgeport Hardware Mfg. Corp., Bridgeport Conn.
- AUTO ELECKTRIC—vulcanizers, J. L. Gibney & Bro., 215-17 N. Broad St., Phila., Pa.
- AUTO-FELT—boots, A. H. Putnam & Co., Danvers, Mass.
- AUTO GEAR COMPOUND—grease, Cleveland Auto-Clutch Dressing Co., Cleveland, O.
- AUTO-GRAPH—graphite, Woods & Peck Co., Wurtsboro, N. Y.
- AUTO-GREAS—grease, New York & New Jersey Lubricant Co., 165 Broadway, New York City.
- AUTOKIT—tool kits, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- AUTO-KLEAN—wood polishes, John Lucas & Co., Phila., Pa.
- *AUTO-LAMP—lamp numbers, The Bongartz Co., 1777 Broadway, N. Y. City.
- AUTO-LEATHER—mackintosh fabrics, rubber cloths, linings, water-proof imitation leather, William R. Laldlaw, Jr., 218 W. 47th St., New York City.
- AUTO-LIGHT—lamp lighters, Rolfe-Fox Co., 407A Livingston Bldg., Rochester, N. Y.
- AUTOLINE—oils, Wm. C. Robinson & Son Co., 336-342 North St., Baltimore, Md.
- *AUTO LOCK—lever locks, The Bongartz Co., 1777 Broadway, N. Y. City.
- AUTO-LOCK—safety auto locks, Auto Safety Specialty Co., Buffalo, N. Y.
- AUTOLYTE—acetylene gas lamps, Autolyte Mfg. Co., 26 Warren St., N. Y. City.
- AUTO-MARINE—spark plugs, Legnard Bros., 203-05 Genesee St., Waukegan, Ill.
- AUTO-MAT—robes, Burlington Blanket Co., Burlington, Wis.
- AUTOMATIC—marine motors & stationary engines, Automatic Machine Co., Bridgeport, Conn.
- AUTOMATIC TRIP—automobile jacks, Wm. E. Pratt Mfg. Co., 91 Lake St., Chicago, Ill.
- AUTO-NOT-FREEZE—anti freezing compounds, Grasselli Chemical Co., Cleveland Ohio.
- AUTO-PHONENDOSCOPE—trouble finder in engine, G. P. Pilling & Son Co., Phila., Pa.
- AUTOPOWER—carbon removers, Lakewood Chemical Co., 805 Citizens Bldg., Cleveland, Ohio.
- AUTO PNEUMATIC—wind shields, The Automobile Equipment Co., 260 Jefferson Ave., Detroit, Mich.
- *AUTO SET—wrenches, The J. R. Long Wrench Co., Akron, Ohio.
- AUTO-SHINE—metal polishes, J. C. Paul & Co., 59 Dearborn St., Chicago, Ill.
- AUTO-SHINE—wood polish, C. J. Nesmith Co., Reading, Mass.
- *AUTO-SIREN—exhaust auto horns, The Bongartz Co., 1777 Broadway, N. Y. City.

AUTO SPRING REPAIRER—spring repair devices, Auto Spring Repairer Co., 123 Liberty St., N. Y. City.
 AUTO SPRING REPAIR CO.—Tool kits, Auto Spring Repairer Co., 123 Liberty St., N. Y. City.
 AUTO T. & R. Co.—auto friction clutches, repair parts for White steam cars, Auto Trading & Repair Co., 1515 Prospect Ave., Cleveland, Ohio.
 AUTO-TIRE—vulcanizers, cores, moulds, etc., Auto-Tire Vulcanizer Co., Lawrence St., Lowell, Mass.
 AUTO WIND SHIELD—wind shields, Auto Wind Shield Co., Cambridge, Mass.
 AVALON—automobile lamps, horns, wind shields, cements, timers & coils, The Ball-Fintze Co., Newark, Ohio.
 AVERY—sensitive drills, The Cincinnati Machinery Co., Cincinnati, Ohio.
 AVIL—steel tire case, anti-skids and wind shields, Automobile Metal Specialty Co., 4430 Market St., Phila., Pa.
 AYES—woodworkers' vises, Ayes & Co., 1812-16 Ellen St., Chicago, Ill.
 AYROLITE—metal polish, Acme Polish Co., 810 Second Ave., Pittsburgh, Pa.
 AZTEC—oil storage outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.

B

B. B. ASPHALTUM—roofing paints, Asphalt Ready Roofing Co., 136 Water St., N. Y. City.
 B. B.—pumps, garage tire, Herz & Co., 203-205 Lafayette St., N. Y. City.
 B. & C.—wrenches, Bemis & Call Hardware & Tool Co., 983 Main St., Springfield, Mass.
 B. C. I.—bicycle pedals, The Standard Co., Torrington, Conn.
 *B. G. v. R.—automobile & marine motors & carburetors, Mercedes Motor Mfg. Co., New Kensington, Pa.
 B. & H.—exhaust horns, T. J. Peterson Co., Security Bldg., Chicago, Ill.
 B. & H.—metal polish, Bacon & Hancock, 715 Congress Ave., Austin, Tex.
 B. & J.—lock switch, B. & J. Mfg. Co., 3975 Cottage Grove Ave., Chicago, Ill.
 B. K. F.—ball bearings, imported by J. H. Lehman Mfg. Co., 500 Fifth Ave., N. Y. City.
 B. & K.—cutting-off machines & pipe cutting & threading machines, Bignall & Keeler Mfg. Co., Edwardsville, Ill.
 B. & L.—trailing spindle, Queen Mfg. Co., Webster City, Iowa.
 B. O. E.—spark plugs, The Delta Mfg. Co., Bloomfield, N. J.
 *B. & Q.—gasoline marine motors, Bowen & Quick, Auburn, N. Y.
 B. & R.—wrenches, bearing & carbon scrapers, robe rails, foot rails & inspection lamps, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
 B. & B. RING PISTON—grease & oil guns, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
 B. & O LINE—clocks, robe rails, foot rests & anti-skid devices, Baldwin & Overholt, Galesburg, Ill.
 B. & S.—auto wrenches, steering connections & forgings, Billings & Spencer Co., 211 Lawrence St., Hartford, Conn.
 B. & S.—igniters, Briggs & Stratton Co., Milwaukee, Wis.
 B. T. K.—automobile & huggy parts, change speed levers, clutches, brake levers, speed change gears, steering apparatus, universal joints & brake lining, Auto Parts Mfg. Co., South Elliot St. & T. E. W. R., Muncie, Ind.
 B-BRITE—metal polish, Missouri Chemical Co., Holden, Mo.
 B-LINE—oil & grease guns, Randall-Faichney Co., 251 Causeway St., Boston, Mass.

BABY—brazing & soldering torches, Crescent Co. Valparaiso, Ind.
 BABY—nipple grips, cycle, Keyser Fry, 723-25 Chestnut St., Reading, Pa.
 BABY—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
 BABY NATIONAL—jacks, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
 BACHER—glass front cleaners, B. & B. Mfg. Co., 6208 Cedar Ave., Cleveland, O.
 BACKE—timers, carburetors, spark plugs & mechanical tire inflators, Backe Commutator Co., 33 Herkimer Place, Brooklyn, N. Y.
 BADGER—stationary engines, The Christenson Engineering Co., 845-847 30th St., Hillside, Ill.
 BADGER STEERSMAN—Auto Steering Co., Baraboo, Wis.
 BADGER—tops & wind shields, Wisconsin Auto Top Co., Racine, Wis.
 BAFFLER—belting & gaskets, Thermold Rubber Co., Trenton, N. J.
 BAILEY—auger bits, Ohio Tool Co., Columbus, Ohio.
 BAILEY—detachable auto tires, C. J. Bailey & Co., 22 Boylston St., Boston, Mass.
 BAILEY—oil, grease, gear cutting compounds & waste, Bailey Oil Co., Toledo, O.
 *BAILEY-CONQUEROR—auto pneumatic wheels, The Detroit Pneumatic Wheel Co., Detroit, Mich.
 BAILEY'S CROWN—metal & wood polishes, The Crown Mfg. Co., 407 S. Illinois St., Indianapolis, Ind.
 BAIR—bow separators & curtain fasteners, Auto Specialties Mfg. Co., Inc., 811-816 Unity Bldg., Chicago, Ill.
 BAIRD—tumbling barrels and wire and sheet metal machines, The Baird Machine Co., Oakville, Conn.
 BAIRD—tumbling barrels, Bennett & O'Connell Co., 97-101 S. Clinton St., Chicago, Ill.
 BAKER—garage heaters, The Wm. C. Baker Heating & Supply Co., 43 Liberty St., N. Y. City.
 BAKER—sparkling points for marine & auto engines, platinum & Iridio platinum wire, Baker & Co., Newark, N. J.
 BAKER—spark plugs, The Hampton Roads Cutlery Co., Box 552 Norfolk, Va.
 *BALDRIDGE—reversing gears for motor boats, Gies Bros., 514 Wayne Co. Bank Bldg., Detroit, Mich.
 BALDWIN—cycle & driving chains, Baldwin Chain & Mfg. Co., 199 Chandler St., Worcester, Mass.
 BALDWIN—route guides & tumbler carriers, The Baldwin Mfg. Co., 143 Federal St., Boston, Mass.
 BALL—transmission gears for autos, New York Gear Works, 56 Greenpoint Ave., Brooklyn, N. Y.
 BALL MULTI-SPARK PLUG—spark plugs, The Ball Multi-Spark Plug Co., 202-08 1st St., S., Aberdeen, S. D.
 BALL SPRAY—carburetors, Chas. D. Shain, 70 Murray St., N. Y. City.
 BALTIMORE, gasoline marine motors, Page Engineering Co., 113-121 E. York St., Baltimore, Md.
 BALZER'S—interchangeable license hangers and lamp numbers, Gus Balzer, 1777-79 Broadway, N. Y. City.
 BANKER—Wind shields, Banker Bros. Co., Baum & Beatty Sts., Pittsburg, Pa.
 BANNER—combination vise, Newhall Chain Forge and Iron Co., 90 West St., N. Y. City.
 BANNER—oils & greases, Clarkson & Ford Co., 55 Water St., N. Y. City.
 BANNER—oils & greases, boiler & brazing compounds & belt dressing, Cortland Specialty Co., 176 Railroad St., Cortland, N. Y.
 BANNER—window locks & anti-rattlers, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
 BANTAM—ball bearings, Bantam Anti-Friction Co., Bantam, Conn.
 *BARBER—automobile engine starters, Motor Safety Mfg. Co., 247 Water St., Brooklyn, N. Y.

- BARBERS**—bit braces, Turner & Deegan, Bristol, Conn.
- BARCO**—four-tone auto & motor boat chimes, motorcycle whistles, flexible joints, muffler cutouts, priming cups & tank carriers, for Prest-O-Lite tanks, Barco Brass & Joint Co., N. Jefferson St., Chicago, Ill.
- BARD**—pipe & flange unions, Bard Union Co., Norwich, Conn.
- BARNARD**—tire pressure registers, safety match box, springs, camping outfits & limousine fittings, Barnard Specialty Co., 800 H. W. Hellman Bldg., Los Angeles, Cal.
- BARNDT-JOHNSTON**—bodies, tops, wind shields and auxiliary seats, Barndt-Johnston Auto Supply Co., 426 Donaldson St., Columbus, Ohio.
- BARNES**—brass tubular steering wheels for boats & wrenches, The Barnes Tool Co., New Haven, Conn.
- BARNES**—foot & steam power lathes, upright, horizontal, gang & multiple drills & arbor drill presses, W. F. & John Barnes Co., 204 Ruby St., Rockford, Ill.
- BARNES**—pipe cutters, Collmer Bros., 105 Vistula Ave., South Bend, Ind.
- BARNES**—steering apparatus, Barnes Gear Co., Oswego, N. Y.
- BAR NIC**—battery connections, Barcy & Nicholson, 967 Howard St., Detroit, Mich.
- BARRETT**—automobile jack, Duff Mfg. Co., Westinghouse Bldg., Pittsburg, Pa.
- BARRETT**—boring machines, metal, Barrett Machine Tool Co., Meadville, Pa.
- BARRETT**—inner tire sleeves, Lynn Auto Co., 29 Sea St., Lynn, Mass.
- BARRET JUNIOR**—automobile jacks, Duff Mfg. Co., Westinghouse Bldg., Pittsburg, Pa.
- BARTH**—automobile jacks, Barth Mfg. Co., 348 Milwaukee St., Milwaukee, Wis.
- BASCO**—fuel & oil cans, Arrow Can Co., 35 Warren St., N. Y. City.
- BASSFORD**—carburetors, Motor Appliance Co. of America, 73 Warren St., N. Y. City.
- BASSON**—automobile horns, imported by Chas. E. Miller, 97-101 Reade St., N. Y. City.
- *BATCHELDER**—boat propellers & reversing gears for boats, Batchelder Machinery Co., Jamestown, N. Y.
- BATES GRIT SOAP & BATES RITE OFF**—hand soap, Howard M. Bates, 1018-34 Fairmount Ave., Phila., Pa.
- *BAUMETZ**—current indicator & circuit breaker combination, The Empire Auto Specialty Mfg. Co., Berea, O.
- BAUM'S**—hand & auto body soap, grease, oils, metal polish, top dressing & anti-freezing solutions, Baum's Castorine Co., Rome, N. Y.
- BAUM'S CYLOILENE & BAUM'S NEAT-FOOT**—oils, Baum's Castorine Co., Rome, N. Y.
- BAUCH & LOMB**—mangin lens mirrors, Bauch & Lomb Optical Co., Rochester, N. Y.
- BAY STATE**—emery wheels, Bay State Emery Wheel Co., Worcester, Mass.
- BAY STATE**—hack saws, Simonds File Co., Fitchburg, Mass.
- BAY STATE**—taps & dies, screw plates, wrenches, countersinks & chasers, Bay State Tap & Die Co., Mansfield, Mass.
- BAY STATE AUTOKIT**—wrenches, Geo. A. Cutter, Taunton, Mass.
- BAY STATE LIGHTNING**—wood working clamps, Geo. A. Cutter, Taunton, Mass.
- BAY STATE STICKIT**—wrenches, Geo. A. Cutter, Taunton, Mass.
- *BEACH**—auto vest, Wm. W. Brown, Worcester, Mass.
- *BEAN'S**—oil storage outfits and emergency spring lifts & gasoline & oil pumps, The Empire Auto Specialty Mfg. Co., Berea, Ohio.
- BEAT-M-ALL**—spark plugs, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- BEATSEMAL**—tire repair kits, auto & motorcycle, Rock Island Specialty Mfg. Co., Rock Island, Ill.
- BEATS THE GRINDSTONE**—tool grinders, Royal Mfg. Co., Lancaster, Pa.
- BEAVER**—belting, Apex Belting Co., 242 Chestnut St., Phila., Pa.
- BEAVER**—die stocks, stocks and dies, The Borden Co., Warren, Ohio.
- BEAVER**—leather for upholstery, M. Straus & Sons, Frelinghuysen Ave., Newark, N. J.
- BEAVER**—motors (gasoline auto & marine), Beaver Mfg. Co., 783 Chase St., Milwaukee, Wis.
- BECKER**—cushion fillings, Chas. W. Becker, Amsterdam, N. Y.
- *BECK-IDEN**—auto lamps, Acetylene Lamp Co., 50 University Place, N. Y. City.
- BECO**—enamels, Buffalo Enamel & Stain Co., Lord, Clinton & James Sts., Buffalo, N. Y.
- BEECHER**—wind shields & bow socket, Limousine Carriage Mfg. Co., 3515 Michigan Ave., Chicago, Ill.
- BEERS**—gasoline motor boats, marine motors, & thermostats, Beers Bros. Engine Co., Portland Ave., cor. Norton St., Rochester, N. Y.
- BELLFUSS**—gasoline auto & marine engines & stationary engines, Belfuss Motor Co., cor. Saginaw & M. C. R. R. Co., Lansing, Mich.
- *BELL**—carburetors, Bell Carburetor Co., Aurora, Ill.
- BELLAMY**—mirrors, dashboard, The Novelty Mfg. Co., Maple St., Waterbury, Conn.
- BEMUS**—timer, The Waterhouse Co., 6 Pelham St., Boston, Mass.
- BEN-FRANKLIN**—magnetos, National Steel Products Co., Lorain, O.
- BENNETT**—carburetors, Wilcox - Bennett Carburetor Co., 1030 Marshall St., N. E., Minneapolis, Minn.
- BENNETT**—oil hole covers, emery wheel dressers & truing tools, Bay State Stamping Co., 380 Chandler St., Worcester, Mass.
- BENNETT**—pedals, J. W. Grady & Co., 68 High St., Worcester, Mass. (Mfr's. agents).
- BENTON**—gasoline marine motors, reverse gears & propellers, Thos. P. Benton & Son, La Crosse, Wis.
- BERINGER**—anti-freezing compound, George M. Beringer, Camden, N. J.
- BERNARD**—pliers, Wm. Schollhorn Co., New Haven, Conn.
- BERRY'S SUB-MARINE**—boat paints, Sub-Marine Paint Co., 133 Coyle St., Portland, Me.
- BERRY**—speed change lever, Chas. W. Berry, Gray, Me.
- BERTRAMS**—metal polish, New Jersey Paint Works, Wayne & Fremont Sts., Jersey City, N. J.
- BESLY**—disc grinders, Chas. H. Besly & Co., 15-21 S. Clinton St., Chicago, Ill.
- BESSEMER**—air compressors, stationary engines and friction clutches, The Bessemer Gas Engine Co., Grove City, Pa.
- BESTALLIC**—Brake lining, Advance Packing & Supply Co., 55 S. Canal St., Chicago, Ill.
- BEST**—file handles, Troy File Works, Troy, N. Y.
- BEST**—file handles, American File Sharpener Co., 287 Broadway, N. Y. City.
- BEST**—steel cement for filling holes in defective castings, Central Foundry Supply Co., West Spring St. & H. V. Ave., Columbus, O.
- BEST**—torches, The Best Light Co., Canton, Ohio.
- BEST**—spark plugs, Best Ignition Equipment Co., 1900 Broadway, N. Y. City.
- BEST OF ALL**—metal polish, Essex Paint Works, Essex, Conn.
- BESTOVALL**—oil, grease & wrenches, Pittsburg Gage & Supply Co., 30th & Liberty Sts., Pittsburg, Pa.
- BETHLEHEM**—steel, forgings, etc., Bethlehem Steel Co., South Bethlehem, Pa.

- BETTERMAN**—axle stools, steel trestles, body trucks, armature stands, vise supporters & drip pans, Johnstown Automobile Co., Inc., 101 Main St., Johnstown, Pa.
- BEVIN**—bicycle & motorcycle bells, toe clips, trouser guards, bilge pumps, Bevin Bros. Mfg. Co., East Hampton, Conn.
- BEYER**—watchmen's portable clocks, Hardinge Bros., 3133-41 Lincoln Ave., Chicago, Ill.
- BI-CAL-KY**—shock absorbers, Bi-Cal-Ky Auxiliary Spring Co., 866 Prospect Ave., Buffalo, N. Y.
- BIGELOW-HORNSBY**—water & fire tube boilers, Bigelow Co., New Haven, Conn.
- BIG 4**—oils, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
- BIJUR**—storage ignition batteries & battery supplies & positive plates for vehicle batteries, Westinghouse Storage Battery Co., Boonton, N. J.
- BILL BAILEY**—metal polish, Bailey Oil Co., Toledo, O.
- BILLIKEN**—radiator ornaments, Billiken Co., 290 Fifth Ave., Chicago, Ill.
- BILLINGS**—wrench (bicycle), Billings & Spencer Co., 216 Lawrence St., Hartford, Conn.
- BILLY HELL**—voltmeters, Lipman Mfg. Co., 205 Pleasant St., Beloit, Wis.
- BINKS**—tire garage pumps, The Star Brass Works, 123 N. Jefferson St., Chicago, Ill.
- BIRCHWOOD**—ball & socket joints, C. W. Birchwood, 3614 W. Harrison Ave., Chicago, Ill.
- BISCHIOFF'S**—German chrome nickel steel, Sier-Bath Co., 143 W. 54th St., N. Y. City, N. Y.
- BISHOP**—ignition cable & rubber insulated wire, Bishop Gutta-Percha Co., 420 E. 25th St., N. Y. City.
- BISON**—ignition batteries, storage & vehicle batteries, Bison Storage Battery Co., Buffalo, N. Y.
- BISON, JR.**—ignition batteries, storage, Bison Storage Battery Co., Buffalo, N. Y.
- B JOURNAL COMPOUND**—grease, Wm. C. Robinson & Son Co., 336-342 North St., Baltimore, Md.
- BLACK BARE**—gaskets, engine packings, Thermoid Rubber Co., Trenton, N. J.
- BLACK DIAMOND**—case-hardening bone, The Rogers & Hubbard Co., Middletown, Conn.
- BLACK DIAMOND**—files & rasps, G. & H. Barnett Co., Phila., Pa.
- BLACK DIAMOND**—friction tapes, The M. W. Duntun Co., Providence, R. I.
- BLACK DIAMOND**—saw filing machines & band saws, Black Diamond Saw & Machine Works, Natick, Mass.
- BLACK ELASTIC**—paints, The Connecticut Oil Co., Waterbury, Conn.
- *BLACK GHOST**—gloves, James Heagle, First Ave. & Market St., Johnstown, N. Y.
- *BLACK HAWLK**—metal polish, auto body soaps, top dressing, grease & oil, Taylor Mfg. Co., 463 Main St., Charlestown, Boston, Mass.
- BLACK JACK**—ignition storage batteries, inspection lamps, electric auto lamps & lamp connectors, Benoist Bros. Mfg. Co., 3923 Olive St., St. Louis, Mo.
- BLACKMER**—circulation pumps, Blackmer Rotary Pump, Power & Mfg. Co., Petoskey, Mich.
- BLACK VELVET**—cushion springs, National Spring & Wire Co., Albion, Mich.
- BLACKSTONE**—screw drivers, Bridgeport Hardware Mfg. Corp., Bridgeport, Conn.
- BLAICH MODERN CARBONIZER**—case hardening compounds, Alfred O. Blaich, 934-33 Pratt St., Chicago, Ill.
- BLAIR**—shovels & polishing & buffing wheels, Frederic B. Stevens, Detroit, Mich.
- BLAKE**—soldering flux, Blake Signal & Mfg. Co., 246 Summer St., Boston, Mass.
- *BLANCHARD**—tire tools, auto, A. W. Blanchard, 342 Flatbush Ave., Brooklyn, N. Y.
- BLEVNEY**—friction clutches, John C. Blevney, 216-224 High St., Newark, N. J.
- BLIZZARD**—anti-freezing compounds, Globe Soap Co., Cincinnati, O.
- BLIZZARD**—tire pumps, Bridgeport Brass Co., Cor. Fairfield & Holland Aves., N. Y. City.
- BLOOD**—universal joints & steering devices, Blood Bros. Machine Co., 633 W. Ransom St., Kalamazoo, Mich.
- BLUE BLAZE**—spark plugs, National Steel Products Co., Loraine, O.
- BLUE LABEL**—drill rod, Kidd Bros. & Burgher Steel Wire Co., Alliquippa, Pa.
- BLUE RIBBON**—cream & auto body cleaning compound, International Metal Polish Co., 2142 N. Capitol Ave., Indianapolis, Ind.
- BLUE RIBBON**—horns, electric, auto, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- BLUE RIBBON KLEANOLIO**—fabric cleanser, International Metal Polish Co., 2142 N. Capitol Ave., Indianapolis, Ind.
- *BOARDMAN**—wrenches, Tower & Lyon Co., 95 Chambers St., N. Y. City.
- *BOHLER'S STYRIAN**—steels, imported by Houghton & Richards, 150 Oliver St., Boston, Mass.
- BOILERINE**—radiator purifying compounds, Straus Boilerine Co., 55 Broad St., N. Y. City.
- BOILERLESS**—steam vulcanizers, Wishart-Burge Mach. Works, 53-66 N. Jefferson St., Chicago, Ill.
- BON MARCHE**—inner tubes, Automobile Tire Co., Inc., 1625 Broadway, N. Y. City.
- BONNEY**—vises, wrenches, comb, wrenches & pipe cutters' comb, pliers & lathe dogs, Bonney Vise & Tool Works, Allentown, Pa.
- BOOSTER**—jacks, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- BOOTH**—demountable rims, Booth Demountable Rim Co., 8410 Lake Ave., Cleveland, Ohio.
- BORATED TALCUM**—hand soap, American Talc Co., 22-24 Custom House St., Boston, Mass.
- BORAX-ETTE**—welding compound, Cortland Welding Compound Co., Cortland, N. Y.
- BORDER**—bolt & nut lock, Border Bolt & Nut Lock Co., Richmond, Ind.
- BOSCH**—magneto, spark plug & terminal, Bosch Magneto Co., 223-225 W. 46th St., New York City, N. Y.
- *BOSS**—fuel strainers, William S. Jones, 3038 Chestnut St., Phila., Pa.
- BOSS**—hand auto tire pumps, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- BOSS**—power hammers, Novelty Iron Works Dubuque, Iowa.
- BOSS**—pump connections, Stevens & Co., 375 Broadway, N. Y. City.
- BOSTON**—gasoline marine motors, Marine Motor Mfg. Co., 5 Park Sq., Boston, Mass.
- BOSTON**—goggles, Texas Co., 212-14 Kinzie St., W., Chicago, Ill.
- BOSTON**—rubber hose, Boston Belting Co., 256-60 Devonshire St., Boston, Mass.
- BOSTON**—shock absorbers & spring grease, Knapp-Greenwood Co., 1000 Boylston St., Boston, Mass.
- BOSTON**—wind shields, The S. M. Supplies Co., 22-24 Lincoln St., Boston, Mass.
- BOUGIE EYQUEM**—spark plugs, Montgomery & Co., 105-107 Fulton St., N. Y. City.
- BOUGIE MERCEDES**—spark plug, Herz & Co., 203-205 Lafayette St., New York City, N. Y.
- BOULEVARD**—gauntlets, Detroit Leather Specialty Co., Inc., 909 Greenwood Ave., Detroit, Mich.
- BOUND BROOK**—bushings, Graphite Lubricating Co., Bound Brook, N. J.
- BOVAIRD**—stationary engines, Bovaired & Co., Bradford, Pa.
- BOWDEN**—auto tires & wheels, Walter Bowden, 1619 Metropolitan Ave., Middle Village, L. I., N. Y.
- BOWER**—roller bearings, Bower Roller Bearing Co., 427-29 Valley St., Dayton, Ohio.
- BOWERS**—carburetors & pressure regulators, Gilbert Mfg. Co., New Haven, Conn.

- BOWES—hose couplings, Cleveland Pneumatic Tool Co., 6410 Hawthorne Ave., Cleveland, Ohio.
- BOWSER—gasoline & oil storage outfits, S. F. Bowser & Co., Inc., Fort Wayne, Ind.
- BOYD-MOTOR—chemical fire engines for garages, James Boyd & Bro., 22nd St. bet. Vine & Race Sts., Philadelphia, Pa.
- BOYD-WAREHOUSE—chemical fire engines for garages, James Boyd & Bro., 22nd St. bet. Vine & Race Sts., Philadelphia, Pa.
- BRADFORD—motorcycles, luggage carriers for bicycles & motorcycles, The Bradford Co., Delaware Ave. & Tatnall Sts., Wilmington, Del.
- BRADLEY—auto scarfs, The Bradley Knitting Co., 19 Ninth St., Delavan, Wis.
- BRADLEY—forges & power hammers, C. C. Bradley & Son, 432 N. Franklin St., Syracuse, N. Y.
- BRADLEY—gasoline cycle motors and motorcycle carburetors, Bradley Motor Co., 263 Diamond St., Phila., Pa.
- BRAMPTON—auto chains & cycle chains, imported by Chas. E. Miller, 97-101 Reade St., N. Y. City.
- BRAND'S—pressure bellows & ferro-manganese, S. H. Brand Co., Chicago, Ill.
- BRAZERON—brazing compound for cast iron, A. & J. Mfg. Co., 427 W. Randolph St., Chicago, Ill.
- BRAZE WELD—aluminum solder & brazing compound, The Cleveland Block Co., 1173 W. 11th St., Cleveland, Ohio.
- *BRECKENRIDGE—gas bicycle lamps, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, Ohio.
- BREECH-BLOCK—spark plugs, The Standard Co., Torrington, Conn.
- BREECH-LOCK—wind shields, Vanguard Mfg. Co., Washington & Desplaines Sts., Joliet, Ill.
- BREEZE—carburetors, fuel strainers & check valves, Breeze Carburetor Co., 240 South St., Newark, N. J.
- BREEZE—filter, Gilbert & Barker Mfg. Co., 80-82 Fourth Ave., N. Y. City.
- BREEZE—wind shields, Cartier-Chapman & Co., Ludington, Mich.
- BRENNAN—motors, carburetors, exhaust mufflers, auto transmission gears, stationary gasoline engines & gasoline marine motors, Brennan Motor Mfg. Co., 103 Grape St., Syracuse, N. Y.
- BRENNAN—tire sleeves, Foskett & Co., 226-28 La Salle St., Chicago, Ill.
- BREWSTER—curtain fasteners & toilet cases, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- BRITSON—detachable treads, Britson Mfg. Co., Brookings, S. Dak.
- BRIDGEPORT—bicycle pedals, Standard Co., Torrington, Conn.
- BRIDGEPORT—motorcycle tire pumps, Bridgeport Brass Co., Cor. Fairfield & Holland Aves., N. Y. City, N. Y.
- BRIDGEPORT—moulding machines, metal, Bridgeport Foundry & Machine Co., Bridgeport, Conn.
- BRIDGEPORT—standard stains, The Bridgeport Wood & Finishing Co., New Milford, Conn.
- BRIGGS—battery connections & terminals, W. H. Briggs, 329 Chestnut St., Richmond Hill, N. Y.
- *BRIGHAM—gasoline marine motors, Keeble & Scott, 313 Methuen St., Lawrence, Mass.
- BRIGHT JET—baking enamels, American Enamel Co., Providence, R. I.
- BRILL—gasoline marine motors & stationary gasoline engines, Brill Engine Works, Appleton, Wis.
- BRISCOE—radiators, fenders, tanks & hoods, Briscoe Mfg. Co., 1427-57 Woodward Ave., Detroit, Mich.
- BRISTOL—recording volt-meters, ammeters, motorcycle belts, steel, Bristol Co., Waterbury, Conn.
- BRITELITE—inspection lamps, American Enamel Co., Providence, R. I.
- *BROCK—carburetors, A. A. Brock, 86 La Salle St., Chicago, Ill.
- BROCK—tire cases, The Vehicle Apron & Hood Co., 272 N. 4th St., Columbus, O.
- BROGA—curtain fasteners & fasteners for mats, leggings & tire covers, Broga Automatic Fastener Co., 368 W. Fayette St., Syracuse, N. Y.
- BRO-GOR—anti-skid chains & tire pressure gauges, Brockett & Gorham, Marion, O.
- BROOKE-AIRLESS—automobile & motorcycle tires, Brooke Airless Tire, P. O. Box 738, Denver, Colo.
- BROOKE—carburetors, The Demster Machlery Co., 16th & Walnut Sts., Kansas City, Mo.
- BROOKS—cleaning compound, Clarence Brooks & Co., 249-277 Chestnut St., Newark, N. J.
- *BROPHY—handwove endless belt, Brophy Belting & Supply Co., 2 Spring Ave., La Grange, Ill.
- BROWN—anti-skid chains & ratchet chain tools, J. C. Brown Mfg. & Garage Co., Butler, Ind.
- BROWN & BARLOW—carburetors, imported by Royal Motor Works Co., Worcester, Mass.
- BROWN—folding stools, Brown Folding Stool Co., 27 Dock Square, Boston, Mass.
- BROWN—gasoline automobile motors, Chas. T. Brown, 79 Dearborn St., Chicago, Ill.
- BROWN—gasoline marine motors, The B. F. Brown Gas Engine Co., 402 S. Franklin St., Syracuse, N. Y.
- BROWN—pressure gauges, portable washrack lights, valve lifting tools, wrenches, valve grinding tools & grease & oil guns, The Brown Co., 1071-73 S. Clinton St., Syracuse, N. Y.
- BROWN—pyrometers, Edward Brown & Son, Phila., Pa.
- BROWNE—bucket funnels, Browne's Automatic Funnel Bucket Co., 3219 S. Figueroa St., Los Angeles, Cal.
- BROWN—weldless chains, Bridgeport Chain Co., Bridgeport, Conn.
- BROWNELL—gasoline motors, F. A. Brownell Motor Co., 634-666 Lexington Ave., Rochester, N. Y.
- *BROWNE'S—absorbent wiping towels, Geo. B. Brooks, 297 Canal St., Providence, R. I.
- BROWN'S—inner tubes, Brown's Perfection Tube Co., 125 Watts St., N. Y. City.
- BROWNE—gasoline marine motors, The B. F. Brown Gas Engine Co., 402 S. Franklin St., Syracuse, N. Y.
- BROWNS—adjustable pulley, Walton Motor Co., Inc., Broadway & Merrick Road, Lynbrook, Long Island, N. Y.
- BROWN'S—steering apparatus, auto, Baldwin Chain & Mfg. Co., 199 Chandler St., Worcester, Mass.
- *BRYAN—carburetors, Hercules Auto Specialty Mfg. Co., 115 Dearborn St., Chicago, Ill.
- BUCHET—cycle motors, imported by Prospect Motor Co., 1900 Broadway, N. Y. City.
- BUCKEYE—dies & stocks, The Hart Mfg. Co., 1362 E. 3rd St., N. E., Cleveland, O.
- BUCKEYE—hat hangers, The Central Brass & Fixture Co., Springfield, O.
- BUCKEYE—jacks, Buckeye Jack Mfg. Co., Alliance, Ohio.
- BUCKEYE CLEANSER—automobile soap, J. P. Davies Co., Dayton, Ohio.
- BUCKEYE—sand blasts, brazing & soldering torches, oil furnaces & welding equipment, Walter MacLeod & Co., Cincinnati, O.
- BUCKEYE—stationary gas and steam engines & blue print machines, Buckeye Engine Co., Salem, Ohio.
- BUCKLAND—fire extinguishers, Buckland Fire Extinguisher Co., 575 Lyell Ave., Rochester, N. Y.
- BUDA—automobile jacks, The Buda Mfg. Co., Chicago, Ill.
- BUEK'S—metal melting furnaces, Frictionless Metal Co., Chattanooga, Tenn.
- BUFFALO—carburetors, Buffalo Carburetor Co., Grand River Ave. & Stanton St., Detroit, Mich.
- BUFFALO—cutting oil, White Refining Co., 77 Main St., Buffalo, N. Y.

BUFFALO—forges, vertical drills, punches & shears, Arthur C. Harvey Co., 374 Congress St., Boston, Mass.

BUFFALO—gasoline marine & auto motors, Buffalo Gasoline Motor Co., 1280-1290 Niagara St., Buffalo, N. Y.

BUFFALO—lubricators, grease cups, oil pumps, oil cups, Sherwood Mfg. Co., 1702-12 Elmwood Ave., Buffalo, N. Y.

BUFFALO—machinery, Buffalo Forge Co., Buffalo, N. Y.

BUFFALO—metal polish, Ulrich & Co., 227-233 E. North St., Buffalo, N. Y.

BUFFALO—screw drivers, Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.

BUFFALO—vulcanizers, electric, Buffalo Electric Vulcanizer Co., 122 Erie Co. Bank Bldg., Buffalo, N. Y.

BUGGYABOUT—auto steering apparatus for light cars, Widmer Machine Works, Inc., 292-94 E. 135th St., N. Y. City.

BULLARD—speed indicator with odometer comb, Bullard Specialty Co., Springfield, Mass.

BULL DOG—ignition batteries, Northwestern Storage Battery Co., 140 Mason St., Milwaukee, Wis.

BULL DOG—pump connections, Stevens & Co., 375 Broadway, N. Y. City.

BULL DOG—steel wire, fan & oiler belts, New York Wire & Spring Co., 586-8 Washington St., Hoboken, N. J.

BULL DOG—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.

BULLDOG—wind shields, M. P. Flanders, 61 Main St., Merrimac, Mass.

BULLET PROOF—inner tube protector, webbing for fan belts, web straps for holding hoods, trunks, etc., Waban Webbing Co., 16 South St., Boston, Mass.

BULL PUP—gasoline marine motors, Consolidated Carpet Sewing Machine Co., Bridgeport, Conn.

BULLY—oil, soap, gear compound & cup grease, New York Oil & Paint Co., 128 Maiden Lane, N. Y. City.

BULTMAN—steering gear, transmission & compensating gears, F. H. Bultman Co., 2108 Superior Ave., N. W., Cleveland, O.

BURDICK—gasoline marine motors and carburetors, Burdick Motor Car Co., Eau Claire, Wis.

BURDICT—bolt heading & threading machines, Howard Iron Works, Buffalo, N. Y.

***BURGESS**—boat propellers, W. Starling Burgess, Marblehead, Mass.

BURGESS—gasoline automobile motors and body springs, Chas. H. Burgess, Wenona, Ill.

BURLINGTON SIMPLEX—grease & oil guns, Raymond C. Agner & Co., Burlington, Wis.

BURNHAM—spark plugs, Burnham Spark Plug Co., East Edgcomb, Me.

***BURNAM**—tire protectors, Huntsville Motor Car Co., Huntsville, Ala.

BURN-BOSTON—ignition batteries, Burn-Boston Battery & Mfg. Co., 10 Doane St., Boston, Mass.

BURNELLS—anti-skid devices, Queen Mfg. Co., Webster City, Iowa.

***BURNET**—auto leaf springs, Burnet Compound Spring Co., 738 Broad St., Newark, N. J.

BURNLEY—solder, Burnley Battery & Mfg. Co., North East, Pa.

BURNSHINE—metal polishes, J. C. Paul & Co., 59 Dearborn St., Chicago, Ill.

BURR—automatic safety tackle blocks, Burr Mfg. Co., 2108 Superior Ave., New York.

BURR—keyseating & broaching machines & cold cutting off saws, John T. Burr & Son, 429-31 Kent Ave., Brooklyn, N. Y.

***BURROWES**—spare wheels, wind shields & license plate hangers, The E. T. Burrowes Co., Portland, Me.

BUSH—radiators, hoods, automobile fenders & tanks, Bush Mfg. Co., 81 Commercial St., Hartford, Conn.

BUSHEY—demountable rims, E. J. Bushey, 1777 Broadway, N. Y. City.

BUTTERFIELD—taps, dies and screw plates, Butterfield & Co., Derby Line, Vt.

BYAM—demountable rims, Elber C. Byam, 45 Lake St., Chicago, Ill.

BYERLY—automatic driveway gates, Cargill Mfg. Co., W. End Buttes Ave., Columbus, Ohio.

C

C C—oil cans, The Delphos Mfg. Co., Delphos Ohio.

C C—leaf springs, Cleveland-Canton Spring Co., Canton, O.

C. D. S.—gaskets, Chicago Die & Stamping Co., Ravenwood Station, Chicago, Ill.

C-F—air compressors, The Carruthers-Fithian Clutch Co., Grove City, Pa.

C. C. & CO.—wadding, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.

C & F—screw drivers, The Cassady-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.

C-H—lamp lighters, Haase Motor Works, 1017 Lloyd St., Milwaukee, Wis.

***C. M. C.**—water motors & garage tire pumps & bench grinders, Cherington Mfg. Co., Waukegan, Ill.

C M—malleable iron castings, The Columbus Malleable Casting Co., 770 Jefferson Pl., Columbus, O.

C. O. T.—acid cure solution & fluid, rubber plugs, patches, taps, cycle chain lubricants, waste & aluminum lacquer, Chas. O. Tingley & Co., Rahway, N. J.

C. R. U.—brazing salt, Chas. R. Uebelmesser Co., Inc., Bayside, L. I., N. Y.

C-S—electric lamp adapters, inspection lamps, gauge lamps & lamp connectors, Culver-Stearns Mfg. Co., 34 Southbridge St., Worcester, Mass.

C-Yacht—bile pumps, folding lavatories, ventilators & deck plates, gasoline strainers & fuel tanks for boats, Goblet-Dolan Co., 30 Old Slip, N. Y. City.

CACO—power boat whistles, Gleason-Peters Air Pump Co., 255-261 Classon Ave., Brooklyn, N. Y.

CADILLAC—mica plug cores, Hub Auto Supply Co., Middletown, Conn.

CADY—gasoline marine motors & auto motors, C. N. Cady Co., Inc., Canastota, N. Y.

CAEDO—oil stones, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.

CALCUTTS—fan, pump & oiler belts, Gardner Mfg. Co., 5637-39 Ohio St., Chicago, Ill.

CALDER'S—emery wheel dressers, George H. Calder, Lancaster, Pa.

CALDWELL'S—tire protectors & lacquer, "CALDWELL'S ELECTROLINE" — metal polish & "CALDWELL'S POLISH VE-NEER"—wood polish, E. P. Caldwell Co., 219 E. Fourth St., Waterloo, Ia.

CALIFORNIA—vehicle batteries, United Electric Storage Battery Co., 2107 Pine St., St. Louis, Mo.

CALLAHAN'S NON-CORROSIVE — solder, CALLAHAN'S OLD RELIABLE—metal cement, CALLAHAN'S ANTI-SLIP—belt dressing, Geo. Callahan & Co., 218 Front St., N. Y. City.

CALMON'S—auto pneumatic tires, Calmon Asbestos & Rubber Works of America, 1693 Broadway, N. Y. City.

***CAM**—carbon removers, The Murphey Co., 619 Fifth St., Sioux City, Iowa.

CAMERON—ball bearings, speed change gears & gasoline auto engines, F. F. Cameron Co., Hinsdale, N. H.

CAMPBELL—crank handle covers & leather tool cases, Perkins-Campbell Co., 622 Broadway, Cincinnati, O.

CAMPBELL'S—motor boat varnish, Carpenter-Morton Co., Boston, Mass.

CANCOS—metal polish, Cancos Mfg. Co., 146 N. 2nd St., Phila., Pa.

CANDY—carbide (crude & refined), Acetylene Gas Illuminating Co., 405 Broome St., N. Y. City.

- CANNE—anti-skid devices, H. L. Canne, Milford, Pa.
- CANNON—oilers, R. E. Bloomer, Keithsburg, Ill.
- CAPITAL—marine gasoline motors, Fifield Bros. Co., 337 Water St., Augusta, Me.
- CAPITAL—stationary engines, Capital Gas Engine Co., West 21st St. & the Belt Ry., Indianapolis, Ind.
- CAPITOL—gasoline cans, The Capitol Hill Garage Co., 821 Corona St., Denver, Colo.
- CAPITOL—gasoline marine engines, Auto Engine Works, Rice & Fuller Sts., St. Paul, Minn.
- CAPPER'S—high speed & special tool steel, Damascus Crucible Steel Casting Co., New Brighton, Pa.
- CARBOFLYNT—abrasives, American File Sharpener Co., 287 Broadway, N. Y. City.
- CARBONDALE—chamois & sponges, Carbondale Calcium Co., Carbondale, Pa.
- *CAR-BO-NIT—carbon remover, R. W. Willits, Joy, Ill.
- CARBONLESS—ferro-vanadium, cupro-vanadium & aluminum-vanadium alloys, American Vanadium Co., Frick Bldg., Pittsburgh, Pa.
- CARBONALL—paints, The Good Paint Co., 1709-11 Austin Ave., Chicago, Ill.
- CARBOSOLVENT—carbon removers, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- CARDINAL—cushion springs, Barber Mfg. Co., Anderson, Ind.
- CARDINAL—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- CAREY'S—steam pipe & boiler coverings & factory roofing, Phillip Carey Mfg. Co., Lockland, Ohio.
- CAREY—wind shields, Motor Specialty Co., 870 Woodward Ave., Detroit, Mich.
- CARLETON—canoes, Carleton Canoe Co., 700 Main St., Old Town, Me.
- *CARLSON—mufflers, Webster Muffler Co., Galesburg, Ill.
- CARON—road guides, J. Victor Caron, Haverhill, Mass.
- CARPRINGCO—auto tires, New Jersey Car Spring & Rubber Co., Wayne & Brunswick Sts., Jersey City, N. J.
- CARR—boring bars, lathe and planer tools & tool holders, Henry G. Thompson & Son Co., New Haven, Conn.
- CARRICO—gasoline auto engines, De Tamble Motors Co., Anderson, Ind.
- CARTER—carburetors & gasoline strainers, Carter Carburetor Co., 914-18 N. Market St., St. Louis, Mo.
- CARTER-LEWIS—carburetors, Carter & Lewis, 41 Westfield Ave., Elizabeth, N. J.
- CARTRIDGE—coils, timers, spark plugs & ignition cable, Cartridge Coil Co., Lafayette, Ind.
- CARY'S—steel mats for running boards or steps, Cary Mfg. Co., 19 & 21 Roosevelt St., N. Y. City.
- CASE—boiler & radiator compounds, Globe boiler Compound Co., Whipple Bldg., Binghamton, N. Y.
- *CASE—cranes & electric & hand hoists, Case Mfg. Co., Columbus, O.
- CASEY CASE—tire protector, The Case Casting Co., Mt. Pleasant, Ia.
- CASGRAIN—speed indicator (Auto), Couch & Seeley Co., 10 Thacher St., Boston, Mass.
- CASSADY—screw drivers, The Cassidy-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- CAST STEEL—metal cements, The Clark Cast Steel Cement Co., Shelton, Conn.
- CATARACT AUTO-VEHICLE WASHER—nozzle & mop, Cataract Auto-Vehicle Washer Co., Topeka, Kans.
- CATARACT—bench lathes, Hardinge Bros., 3133-41 Lincoln Ave., Chicago, Ill.
- CAVALRY—motorcycle saddles, H. & F. Messenger Mfg. Co., 1801-03 First Ave., N. Y. City, N. Y.
- CAVITO—under water exhaust, Cavito Underwater Exhaust Co., Louis & Ottawa Sts., Grand Rapids, Mich.
- CEDAROLEUM—grease, rust preventative including lacquers for tool & machinery & cleansing compound, Cedaroleum Co., Perkinsville, Vt.
- CELFOR—drill chucks & twist drills, Celfor Tool Co., Chicago, Ill.
- CENTAUR—steering wheels, Centaur Motor Co., 53-61 Franklin St., Buffalo, N. Y.
- CENTER FIRE—spark plugs, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- CENTURY—cushion springs, D'Arcy Spring Co., 115 Main St., Kalamazoo, Mich.
- CENTURY—gasoline auto motors & alternating current motors, Century Electric Co., 19th & Olive Sts., St. Louis, Mo.
- CENTURY—oil & grease, Davey & Co., 2600-08 Grand Ave., Chicago, Ill.
- CENTURY—wind shields, J. Stewart Smith, 1779 Broadway, N. Y. City.
- CHACES—oil cans, Consolidated Fruit Jar Co., New Brunswick, N. J.
- *CHAININE—chain & gear grease, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, Ohio.
- CHALLENGE—emery wheels, Challenge Machine Co., Phila., Pa.
- CHALLENGE—grey iron castings, The Challenge Machinery Co., Grand Haven, Mich.
- CHALLENGE—screw drivers, Bridgeport Hardware Mfg. Corp., Bridgeport, Conn.
- CHALLENGE—tires, pneumatic, auto & cycle, Boston Tire & Rubber Co., 184 Friend St., Boston, Mass.
- CHAMBERS—bolt & rivet clippers, Chambers Bros. Co., Phila., Pa.
- CHAMPION—belt dressing & cotton waste, Alonzo K. Lynch, Inc., 310-12 Flushing Ave., Brooklyn, N. Y.
- CHAMPION—drill rods, Pittsburg Tool Steel Wire Co., Monaca, Pa.
- CHAMPION—gasoline storage outfits, Optenburgh Iron Works, Sheboygan, Wis.
- *CHAMPION—hammers, power, Beandry & Co., Inc., 141 Milk St., Boston, Mass.
- CHAMPION—hand bellows, Edward Faro, 3626 62nd St., Chicago, Ill.
- CHAMPION—lathes, The Champion Tool Works Co., Cincinnati, Ohio.
- CHAMPION—magnetos, spark plugs & ignition cable, The Champion Co., 36 Whittier St., Boston, Mass.
- CHAMPION—motorists' coats, Mischel Bros., 15 E. 12th St., N. Y. City.
- CHAMPION—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- CHAMPION—pressure & fan blowers, forges, post drills & exhaust fans, Champion Blower & Forge Co., Lancaster, Pa.
- CHAMPION—ratchet wrenches & spark plug wrenches, Syracuse Wrench Co., Franklin & Water Sts., Syracuse, N. Y.
- CHAMPION—screw drivers, Union Hardware Co., Torrington, Conn.
- CHAMPION—storage battery, Hector Macrae, 314 St. Paul St., Baltimore, Md.
- CHAMPION—storage outfits, engine cleaners, garage tire pumps, whistle outfits for motor boats & electric air compressors, Cleveland Faucet Co., 708 Frankford Ave., N. W., Cleveland, O.
- CHAMPION—tool holders, expanding mandrels, vise & tool stands, Western Tool & Mfg. Co., Springfield, Ohio.
- CHANDLER—anti-skid chains, Diamond Pulvs Co., 1331 Intervale Ave., N. Y. City.
- CHANDLER—metal goods, stampings, nameplates, steel stamps, letters & figures, The Chandler Co., Springfield, Mass.
- CHANNON—auto & motor boat tool kits, H. Channon Co., Market & Randolph Sts., Chicago, Ill.
- CHAPMAN—ball bearings, Chapman Ball Bearing Co., 40 Bristol St., Boston, Mass.
- CHAPMAN—emery grinders, Chapman Engine Works, Marcellus, Mich.

- CHARTER—gas & gasoline stationary engines, Charter Gas Engine Co., Sterling, Ill.
- CHARTER—spark plugs, lubricators, terminals, sight feeds, Charter & Co., Hoopes-town, Ill.
- CHARTER OAK—bolts, The Franklin Moore Co., Winsted, Conn.
- CHARTER OAK—leather for trimming, Bridgeport Patent Leather Mfg. Co., Bridgeport, Conn.
- CHASE—upholstery materials, L. C. Chase & Co., 89 Franklin St., Boston, Mass.
- CHELSEA—auto & marine clocks, Chelsea Clock Co., 16 State St., Boston, Mass.
- CHELSEA—files & rasps, Chelsea File Works, Norwich, Conn.
- CHERRY HEAT—welding compound, Cortland Welding Compound Co., Cortland, N. Y.
- CHESTER FLAKE—graphite, Walter H. Carpenter Co., 39 Cortland St., N. Y. City.
- CHEX—combination switch lock, The Combination Switch Lock Co., 406 German-American Bank Bldg., Buffalo, N. Y.
- CHICAGO—automobile jacks, Wm. E. Pratt Mfg. Co., 91 Lake St., Chicago, Ill.
- CHICAGO—goggles, Chicago Eye Shield Co., 128-134 S. Clinton St., Chicago, Ill.
- CHICAGO—ignition batteries, Chicago Battery Co., 2600-10 Wabash Ave., Chicago, Ill.
- CHICAGO—polishing, buffing & emery wheels, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.
- CHICAGO-MATIC—wind shields, Chicago Wind Shield Co., 235 Johnston St., Chicago, Ill.
- CHILDS—fire extinguishers, O. J. Childs Co., 48 and 50 Liberty St., Utica, N. Y.
- CHOICE—oil cans, The Delphos Mfg. Co., Delphos, O.
- CHRISTENSEN—air compressors & gasoline auto engines, The Christensen Engineering Co., 341-47 30th St., Milwaukee, Wis.
- CHRISTMAN—inspection lamps, Penn Auto Supply Co., N. E. cor. Broad & Race Sts., Phila., Pa.
- CIGLIA—shock absorbers, Behrmann-Baron Co., 1777-79 Broadway, N. Y. City.
- CINCH—plugs (tire), Auto Goods Co., 41 Bowker St., Boston, Mass.
- CINCINNATI—gear cutters, Cincinnati Gear Cutting Machine Co., Cincinnati, Ohio.
- CINCINNATI—lathe chucks, Cincinnati Chuck Co., Spring Grove Ave., & Sassafras St., Cincinnati, O.
- CINCINNATI—lathes, Cincinnati Lathe & Tool Co., 2730-32 Spring Grove Ave., Cincinnati, O.
- CINCINNATI—metal shapers, The Cincinnati Shaper Co., Elam St. & Garard Ave., Cincinnati, Ohio.
- CINCINNATI—paints & varnishes, Cincinnati Color Co., 8th, Evans & Whately Sts., Cincinnati, Ohio.
- CINCINNATI—spark plugs, C. Biederman, 1555 Knox St., Cincinnati, Ohio.
- CINCINNATI—tires & inner tubes, The Cincinnati Rubber Tire Co., 522 Main St., Cincinnati, O.
- CIRCLE—motorists' caps, Levine Bros., 105 Bleeker St., N. Y. City.
- CIRKLE-FYRE—spark plugs, Mica Core Mfg. Co., 442 E. 166th St., N. Y. City.
- CISCO—pocket ammeters & voltmeters, inner tubes, tire cements & oil, C. J. Smith & Co., St. Paul, Minn.
- CLAIR—auto pump connections, Rothstein Mfg. Co., 1941-55 Park Ave., N. Y. City.
- CLARK—auto heaters, Chicago Flexible Shaft Co., Chicago, Ill.
- CLARK'S—screw drivers & expansive bits, R. H. Brown & Co., New Haven, Conn.
- *CLAUS—gasoline marine motors, International Motor Co., 868-890 Military Ave., Detroit, Mich.
- CLAYTON—air compressors & garage tire pumps, The Clayton Air Compressor Works, 115 Broadway, N. Y. City.
- CLAYTON'S—tire valves, F. T. Clayton, Sandwich, Mass.
- CLEANEASY—auto body soap & hand cleansing compound, W. R. Winn, 143 Maiden Lane, N. Y. City.
- CLEANOLA—auto finish & auto body cleansing compound, The Cleanola Co., 1101 Fulton Bldg., Pittsburg, Pa.
- CLEAN-PAW—hand cleansing compounds, Frost Stamp & Stationary Co., 505 Main St., Worcester, Mass.
- CLEANZUM—hand soap, The White & Bagley Co., Worcester, Mass.
- CLEAR VIEW—acetylene boat lamps, American Acetylene Stove Co., 504 Masonic Temple, Minneapolis, Minn.
- CLEMONS—belt sanders & rubbing & polishing machines, Clemons Machine Co., Hornell, N. Y.
- CLEVELAND—automatic electric time switches, Abbott Mfg. Co., 9212-14 Central Ave., S. E., Cleveland, Ohio.
- CLEVELAND—auto tires, The Cleveland Puncture Proof Tire Co., 1355 N. High St., Columbus, O.
- CLEVELAND—bicycles, The Pope Mfg. Co., Hartford, Conn.
- CLEVELAND—boring machines, center grinders, emery & valve grinding machines, hammers, pneumatic tools & reamers, The Cleveland Pneumatic Tool Co., 6410 Hawthorne Ave., Cleveland, O.
- CLEVELAND—bow sockets & top hardware, Cleveland Hardware Co., 45th St. & Lakeside Ave., Cleveland, Ohio.
- CLEVELAND—nuts & bolts, Kirk-Latty Mfg. Co., W. Madison Ave. & W. 84th St., Cleveland, Ohio.
- CLEVELAND—planers, Cleveland Planer Works, Cleveland, Ohio.
- CLEVELAND—power hack saws, The Cleveland Block Co., 1173 W. 11th St., Cleveland, O.
- CLEVELAND—spark plug protectors, battery connections & terminals, National Steel Products Co., Lorain, O.
- *CLEVELAND—spark plugs, battery connections & plug protectors, Cleveland Spark Plug Co., Cleveland, Ohio.
- CLEVELAND—speed indicators, Cleveland Speed Indicator Co., 1806 Euclid Ave., Cleveland, O.
- CLEVELAND—rubber tubing, gas bags, bumpers, mats & matting, Mechanical Rubber Co., C. & P. R. R. near Nickel Plate R. R., Cleveland, Ohio.
- CLEVELAND—varnishes, Cleveland Varnish Co., 3111 E. 87th St., Cleveland, Ohio.
- CLEVELAND SHOOT-A-FLAME—spark plugs, National Steel Products Co., Lorain, O.
- CLIFTON—carbon removers, Clifton Mfg. Co., Boston, Mass.
- CLIFTON—gasoline marine engines, Clifton Motor Works, 229 E. Clifton Ave., Cincinnati, O.
- CLIMAX—acetylene gas lamps, Autolyte Mfg. Co., 26 Warren St., N. Y. City, N. Y.
- CLIMAX—grease, Chas. F. Sweet, Inc., 20 Ford St., Hartford, Conn.
- CLIMAX—gasoline automobile motors & transmission gears for autos, Climax Electric Works, New Salem, Mass.
- CLIMAX—grease guns, Climax Specialty Co., Seneca Falls, N. Y.
- CLIMAX—leather belting, Hudson Belting Co., 1-3 Eaton Pl., Worcester, Mass.
- CLIMAX—tires, pneumatic, auto & cycle, Boston Tire & Rubber Co., 184 Friend St., Boston, Mass.
- CLIMAX—welding compound, Cortland Welding Compound Co., Cortland, N. Y.
- CLIMAX—SYNOVIA—grease, Fiske Bros. Refining Co., 24 State St., N. Y. City, N. Y.
- CLINCHER—machinists' vises, Massey Vise Co., 9-11 W. Michigan St., Chicago, Ill.
- CLINGFASTA—cements & vulcanizing solution, Brooklyn Rubber Co., 397-401 Summer Ave., Brooklyn, N. Y.
- *CLING-TIGHT—storm aprons & lap robe holders, Beebe-Elliott Co., Racine, Wis.

- CLINTON—gasoline marine motors, Green-haigh Engine & Machine Works, 550-552 Central Ave., Newark, N. J.
- CLIP—misc. valves, The Lunkenheimer Co., Cincinnati, O.
- CLIPPER—gasoline marine motor, Clipper Lawn Mower Co., Dixon, Ill.
- CLOVER—valve grinding compound, Clover Mfg. Co., 151 E. 126th St., N. Y. City.
- CLOVERLEAF—clocks, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- CLUM & ATKINSON—castings, Clum & Atkinson, 575 Lyell Ave., Rochester, N. Y.
- COCHECO—leather & belting, I. B. Williams & Sons, Dover, N. H.
- COE—sensitive drills, St. Louis Machine Tool Co., 1405 S. 7th St., St. Louis, Mo.
- COES—wrench (Auto & motorcycle), Coes Wrench Co., Worcester, Mass.
- COIT—drill chucks, Standard Machinery Co., Mystic, Conn.
- COLBURN—boring & turning mills, Colburn Machine Tool Co., Franklin, Pa.
- COLD ELAST—oil automobile lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- COLGAN—oil & grease, Colgan Mfg. & Supply Co., 42 South St., N. Y. City.
- COLGAN'S—monogram & brass radiator signs, The J. W. Colgan Co., 509 Sudbury Bldg., Boston, Mass.
- COLGAN'S PEERLESS & COLGAN'S CRES-CENT—metal polish & COLGAN'S AL-WAISTITE & COLGAN'S RELIABLE—sheet packing, Colgan Mfg. & Supply Co., 42 South St., N. Y. City.
- COLLINS—brass wind shields, G. A. Collins & Son, Akron, Ohio.
- COLLIS—twist drills, American Specialty Co., 834-35 Monadnock Bldg., Chicago, Ill.
- COLONIAL—auto oils & gear case compound, Borne-Scrymser & Co., 80 South St., N. Y. City.
- COLONIAL—files & rasps, Colonial File Co., 167-70 Teneau St., Neponset, Mass.
- COLONIAL—leather for trimming, Badger State Tanning Co., Shelboyan, Wis.
- COLO—gear case compounds, Borne-Scrymser & Co., 80 South St., N. Y. City.
- COLT—milling machines, Asa S. Cook Co., 80 Huyshope Ave., Hartford, Conn.
- COLT'S—clamps for auto body builders & automobile jacks, Batavia Clamp Co., 103 Center St., Batavia, N. Y.
- COLUMBIA—ammeters, voltmeters, battery connections, sparking coils, portable electric lights, National Carbon Co., Lock Drawer "L," Cleveland, O.
- COLUMBIA—automobile trimmings, Wm. H. Horstmann Co., 5th & Cherry Sts., Phila., Pa.
- COLUMBIA—auto tops, Columbia Tire & Top Co., 31 Irvington St., Boston, Mass.
- COLUMBIA—bar & wire solder, Columbia Smelting & Refining Works, 365 West St., N. Y. City, N. Y.
- COLUMBIA—bicycles, The Pope Mfg. Co., Hartford, Conn.
- COLUMBIA BRAND—babbitt metal & solder, Columbia Smelting & Refining Works, 365 West St., N. Y. City.
- COLUMBIA—burner cleaners, J. B. Carroll, 217 W. Illinois St., Chicago, Ill.
- COLUMBIA—calipers, E. G. Smith & Co., Columbia, Pa.
- COLUMBIA—cotton pins, Hindley Mfg. Co., Valley Falls, R. I.
- COLUMBIA—lock nuts, Columbia Nut & Bolt Co., Bridgeport, Conn.
- COLUMBIA—metal polish, Frederic B. Stevens, Detroit, Mich.
- COLUMBIA—oil & gas bicycle lamps, acetylene auto lamps & acetylene gas generators, Hine-Watt Mfg. Co., 47 E. Randolph St., Chicago, Ill.
- COLUMBIA—screw drivers, The Cassady-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- *COLUMBIA—shock absorbers, Frank Doront, 68 Pearl St., Paterson, N. J.
- COLUMBIA—steel, Columbia Steel & Shafting Co., Pittsburg, Pa.
- COLUMBIA—tire pumps, Judd & Leland Mfg. Co., Clifton Springs, N. Y.
- COLUMBIA IGNITER—dry cells, National Carbon Co., Lock Drawer "L," Cleveland, Ohio.
- COLUMBIAN—stuffing boxes & boat propellers, bronze castings & steering apparatus, boat, Columbian Brass Foundry, Atlantic Ave., Freeport, L. I., N. Y.
- COLUMBUS—gasoline auto motors, marine motors & steering apparatus for trucks, Columbus Screw & Machine Co., 244 Kaiser St., Columbus, Ohio.
- *COLUMBUS—stationary engines, Columbus Machine Co., Columbus, Ohio.
- COLVIN—hammers, Greene, Tweed & Co., 109 Duane St., N. Y. City.
- COLZA—boiler & radiator compound, Colza Chemical Co., 213 Mutual Life Bldg., Buffalo, N. Y.
- COMBAT IGNITER—ignition batteries, Commercial Battery Co., 718 Jackson Blvd., Chicago, Ill.
- COMBAT—ignition batteries, storage, The Hall Storage Battery Co., 1056-60 St. Clair Ave., N. E., Cleveland, O.
- *COMCO—camping outfits, Camp Outfit Mfg. Co., 160 Water St., N. Y. City.
- COMET—electric burners, R. E. Dietz Co., 60 Lighthouse St., N. Y. City.
- COMET—electric lamp adapters, R. E. Dietz Co., 60 Lighthouse St., N. Y. City.
- COMET—gasoline auto & marine motors, Comet Motor Works, 438 W. Madison St., Chicago, Ill.
- COMET—spark coils, The Duplex Coil Co., Fond du Lac, Wis.
- COMET—spark plugs, The Oakes & Dow Co., 15 Chardon St., Boston, Mass.
- *COMET—vulcanizers, Comet Mfg. Co., Flan-dreau, S. D.
- COMFORT—nasal-filter, Universal Supply Co., 438 Globe Bldg., St. Paul, Minn.
- COMMODORE—oil, Miller & Starr, 250 Greene St., Brooklyn, N. Y.
- COMMODORE—spray hoods & guards, The Pneumatic Mfg. Co., 2-3 South St., New York City.
- COMMON SENSE—spark plugs, C. F. Split-dorf, 261-265 Walton Ave., N. Y. City.
- COMMON SENSE—tool kits, The Whitaker Mfg. Co., 509 W. Monroe St., Chicago, Ill.
- COMMON SENSE—wind shields, Sprague Umbrella Co., Norwalk, Ohio.
- COMO—waterproof tents, duffle bags, gun cases, holsters, buckets, etc., Camp Outfit Mfg. Co., 160 Water St., N. Y. City.
- COMPETITION—insulating tapes, New York Insulated Wire Co., 114 Liberty St., Boston, Mass.
- COMPOUND—water gauge glasses, Schaeffer & Budenberg Mfg. Co., 963-5 Kent Ave., Brooklyn, N. Y.
- COMPOUNDER—oils, Hinds & Coon, 124-26 Pearl St., Boston, Mass.
- COMPRESSION—piston seating compounds, J. F. Bornschein & Co., 2351 Indiana Ave., Chicago, Ill.
- *COMSTOCK—shock absorbers, Comstock Shock Absorber Co., 1777 Broadway, New York City, N. Y.
- CONNECTICUT—oils, The Connecticut Oil Co., Waterbury, Conn.
- CONNECTICUT—spark coils, timers, switches, voltmeters, ammeters, voltmeters, distributors, magnetos, portable electric lights, current indicators & shock absorbers, Connecticut Tel. & Elec. Co., 50 Britannia St., Meriden, Conn.
- CONNECTICUT—trunk racks, Connecticut Steel & Wire Co., 57-61 Allyn St., Hartford, Conn.
- CONOVER—jacks, E. K. Conover, 675 E. 23rd Paterson, N. J.
- CONSTRUCTOR—auto & boat clutches, Warner Clutch Co., Railway Exchange Bldg., Chicago, Ill.

- CONSTRUCTION, MANAGEMENT & CARE OF MOTORCYCLES (publication), The Keller & Risque Motor Co., 20 W. 3rd St., St. Paul, Minn.
- CONSOLIDATED—cycle package delivery vans, Consolidated Mfg. Co., Toledo, Ohio.
- CONTINENTAL—detachable auto tires and demountable rims, Continental Caoutchouc Co., 1788-90 Broadway, N. Y. City.
- CONTINENTAL—motors, (auto & marine), Continental Motor Mfg. Co., Muskegon, Mich.
- CON-TROM-E-TIER—potential control, Leece-Neville Co., Cleveland, Ohio.
- COOK—disc grinders, National Metallic Packing Co., Oberlin, Ohio.
- COOK—milling machines, Asa S. Cook Co., 80 Huyslope Ave., Hartford, Conn.
- COOK'S—linoleum & cork carpet, trimming leather & top materials, Trenton Oil Cloth & Linoleum Co., Trenton, N. J.
- COOK-PEARY—anti-freezing solutions, Hazen-Brown Co., 100 South St., Boston, Mass.
- COOK'S—goggles, Iowa Optical Co., New London, Iowa.
- COOKSON'S SECURITY—electric switches, Ideal Machine Works, 255-57 39th St., Brooklyn, N. Y.
- COOPER—automobile & garage heaters, Cooper Heater Co., Dayton, O.
- COPELANDS—calipers & dividers, Thos. F. Eagen, Worcester, Mass.
- COPPER KING—fire extinguishers, Badger Chemical Mfg. Co., 143 Reed St., Milwaukee, Wis.
- COPPER KING—spark plugs, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- Chemical Mfg. Co., 143 Reed St., Milwaukee.
- COPPOCK—gasoline automobile motors, Decatur Motor Car Co., Decatur, Ind.
- CORBIN DUPLEX—coaster brake, Corbin Screw Corporation, New Britain, Conn.
- CORDESMAN-RECHTIN—band saws, boring machines, lathes, planers, shapers, etc., Cordesman-Rechtin Co., Cincinnati, Ohio.
- CORE OIL—core compounds, cupolas, foundry riddles & sieves & plumbago, Frederic B. Stevens, Detroit, Mich.
- CORMACK—grease & oil guns (Combination), M. H. Cormack & Co., Motor Mart Bldg., N. Y. City.
- CORNELL—pumps, hand tire auto, The Fowler Brass Works, Inc., 2333-35 Wabash Ave., Chicago, Ill.
- CORONA—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- *CORP—vulcanizers, Corp Bros., 37 Sabin St., Providence, R. I.
- COSCOLEUM—auto oils, Curry Oil & Supply Co., Boston, Mass.
- COSCO—gear case grease, Curry Oil & Supply Co., Boston, Mass.
- COSMIC—rust preventatives, E. F. Houghton & Co., 240 W. Somerset St., Phila., Pa.
- COSTELLO—foot power presses, Leonard Mfg. Co., Providence, R. I.
- COTTA—transmissions & lever sets, Cotta Transmission Co., 814-18 S. Main St., Rockford, Ill.
- COUPE—oil automobile lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- COURTNEY—detachable auto tires, Courtney Rubber Co., 1976 Broadway, New York City, N. Y.
- COVENTRY WORMROLLER—automobile chains, imported by S. Hoffnung & Co., Ltd., 116 Broad St., N. Y. City.
- COVER—rubber goggles, H. S. Cover, South Bend, Ind.
- COVERT—auto axles, transmission gears, levers, speed change gears & rubber fittings & parts, Covert Motor Vehicle Co.,
- *COWLES—carburetors, E. P. Cowles, 123 Belmont St., Warren, O.
- THE COX—bumpers & clocks, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- COX GEAR VISION—wind shields, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- THE COX REFLECTORS—dashboard mirrors, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- CRADLE—auto luggage carriers, Motor Car Supply Co., 1451-55 Michigan Ave., Chicago, Ill.
- CRAFT—steam vulcanizers & tire moulds, Craft Combination Steam Vulcanizer Co., 304 E. 48th St., Minneapolis, Minn.
- CRAIG—portable auto houses, The David Craig Co., 68-70 Broad St., Boston, Mass.
- CRAMP'S—manganese bronze, Akron Brass & Bronze Foundry Co., 10 W. Buchtel Ave., Akron, Ohio.
- CRANDALL—gaskets, leather belting & lace leather, Crandall Packing Co., Palmyra, N. Y.
- CRANE—fly wheel puller, The Crane Puller Co., 15 Harvard Ave., Allston, Mass.
- CRANE—oils, L. M. Crane & Co., 91 Oliver St., Boston, Mass.
- CRANSKA—top & upholstery thread, Cranska Thread Co., Worcester, Mass.
- *CRAVEN—folding hair brushes, E. Sternfels, Room 507, Flatiron Bldg., N. Y. City.
- CRAWFORD'S SPECIAL—oil, Wm. J. Crawford Co., 14 Wood St., Pittsburg, Pa.
- CREAM LIQUID—metal polish, A. J. Mooney, 359-63 Ninth Ave., N. Y. City.
- CRESCENT—belt fasteners & rivets, Crescent Belt Fastener Co., 143 E. 23rd St., N. Y. City.
- CRESCENT—bicycles, The Pope Mfg. Co., Hartford, Conn.
- CRESCENT—insulation, Crescent Burner Mfg. Co., 339 Broadway, N. Y. City.
- CRESCENT—lamp guards, Crescent Co., Valparaiso, Ind.
- *CRESCENT—removable rims, The Crescent Parts Co., 244 W. 49th St., New York City, N. Y.
- CRESCENT AMERICA—burner tips, Crescent Burner Mfg. Co., 339 Broadway, N. Y. City.
- CRESCENT BYKE—motorcycles lamp burners, Crescent Burner Mfg. Co., 339 Broadway, N. Y. City, N. Y.
- CRESCENT STALIT—burners, Crescent Burner Mfg. Co., 339 Broadway, New York City.
- CRESCENT TIPTOPTIP—burner tips, Crescent Burner Mfg. Co., 339 Broadway, N. Y. City, N. Y.
- CRESCENT VICTORY—burners, Crescent Burner Mfg. Co., 339 Broadway, N. Y. City, N. Y.
- CRESCENT—wood working machinery & tools, The Crescent Machine Co., Leetonia, Ohio.
- CRESCENT—wrenches, Crescent Tool Co., Jamestown, N. Y.
- CRITERION—ball bearing cones, Stevens & Co., 375 Broadway, N. Y. City.
- CRONE—valve grinding tools, priming pumps & spare wheels, F. G. Crone, 49 E. Utica St., Buffalo, N. Y.
- CRONK—chisels, wrenches, screw drivers & pliers, Cronk & Carrier Mfg. Co., Elmira, N. Y.
- CROUSE-HINDS—timers & distributors, Crouse-Hinds Co., 303 W. Jefferson St., Syracuse, N. Y.
- CROWELL—power pumps, pressure blowers & air compressors, J. G. Crowell, 296-298 Taaffe Pl., Brooklyn, N. Y.
- CROWN—bicycles, Great Western Mfg. Co., La Porte, Ind.
- CROWN—copper rivets, Bridgeport Brass Co., Cor. Fairfield & Holland Aves., N. Y. City.
- CROWN—drills, sand rammers, hammers & pneumatic tools, Ingersoll-Rand Co., 11 Broadway, N. Y. City.
- CROWN—emery wheel dressers, tool grinders, emery wheels, countershafts & polishing & buffing machines, Clizbe Bros. Mfg. Co., Plymouth, Ind.
- CROWN—gasoline marine motors, Yacht Gas Engine & Launch Co., Phila., Pa.
- CROWN—gasoline marine motors, Tessmer Machine & Tool Co., 285-287 Rivard St., Detroit, Mich.

CROWN—hack saw frames, Union Mfg. Co., Torrington, Conn.
 CROWN—metal polish, Rex Chemical Co., 104 S. Howard St., Baltimore, Md.
 CROWN—oil, Great Western Oil Co., 2855 E. 37th St., Cleveland, O.
 CROWN—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
 CROWN—oil soap & metal polishes, Crown Soap Co., 1941-43 W. Fayette St., Syracuse, N. Y.
 CROWN—steel castings, Whiteley Steel Co., Muncie, Ind.
 CROWN—tire bands, National Leather Belting Co., 29 Ferry St., N. Y. City.
 CULLMAN—sprockets & differential gears, Cullman Wheel Co., 1340 Greenwood Terrace, Chicago, Ill.
 CUMMER'S—engine, The James W. Cummer Co., 2900 E. 34th St., Cleveland, Ohio.
 CURO SAN—hand soap, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
 CURRY'S—motor boat oils, Curry Oil & Supply Co., Boston, Mass.
 *CURTIS—buffer, Curtis Auto-Buffer Co., Olean, N. Y.
 CURTIS—patent nipple holders, Curtis & Curtis Co., Bridgeport, Conn.
 CUSHMAN—gasoline marine motors, Cushman Motor Works, 2020-2030 N St., Lincoln, Neb.
 CUYAHOGA—vehicle & ignition storage batteries, Cleveland Electric Vehicle Co., 1206-1212 Huron Road, Cleveland, O.
 CYLINDER-TURRET—drill presses, National Separator & Machine Co., Boston, Mass.

D

D—colors, roughstuff, primers & fillers, Ditzler Color Co., 18-24 Baltimore Ave., W., Detroit, Mich.
 D. A. G.—gasoline filters, fire extinguishers, & oil cans, The Denver Auto Goods Co., Denver, Colo.
 D. D.—current rectifiers, Phoenix Auto Supply Co., 3974-76 Olive St., St. Louis, Mo.
 D. R. BARTON—chisels & planes, Mack & Co., Rochester, N. Y.
 DWF—automobile ball bearings, Hess-Bright Mfg. Co., 2102 Fairmount Ave., Phila., Pa.
 D-X—timers, The Duplex Coil Co., Fond du Lac, Wis.
 DAINTY—auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.
 *DALLAN—boat propellers, Dean-Allen Mfg. Co., South Portland, Me.
 DAMASCUS—steels, Damascus Nickel Steel Co., Carnegie, Pa.
 DANDY—spark plug protectors, Dandy Mfg. Co., 30 Church St., N. Y. City.
 DANIC—sand blast machines, D. M. Nichols Iron Works, 2-4 Gouverneur Slip, N. Y. City.
 DARK LIGHT—gauge lights, cigar lighters, lamp adapters, auto lighting fixtures, Benj. Gerdelman Mfg. Co., 4630 Olive St., St. Louis, Mo.
 DARMAC—timers, Threadeasy Needle Co., Minneapolis, Minn.
 DART—gasoline auto motors & buggy chassis, Dart Mfg. Co., 1422-28 Chase St., Anderson, Ind.
 DAVENPORT—bench drills & tilting vises, The Blissfield Motor Works, Blissfield, Mich.
 DAVIS—auto brakes, National Aluminum & Bronze Co., Indianapolis, Ind.
 DAVIS—drill presses & machinery parts, The Hinckley Machine Works, Hinckley, Ill.
 DAVIS—motors & tubular micrometers, steel storage bins & shelving, Davis Mfg. Co., 267 6th St., Milwaukee, Wis.
 DAVIS—robes, steel tire protectors, anti-skid devices & Arctic over-pants, Davis Robe Co., Inc., 126 S. State St., Chicago, Ill.
 DAVIS—slotters, Davis Sewing Machine Co., Dayton, Ohio.

DAVIS—stationary gas engines, Huron Steel & Iron Co., Norwalk, Ohio.
 DAVIS—steering ball sockets, Greenbalgh Engine & Machine Works, 550 & 552 Central Ave., Newark, N. J.
 DAYTON—airless tires, Dayton Rubber Mfg. Co., 1206 Kaiser St., Dayton, Ohio.
 DAYTON—gasoline storage outfits, The Dayton Iron Works Co., Dayton, O.
 DAYTON—grinders, internal, surface, tool & universal, Miami Valley Machine Tool Co., Dayton, O.
 DAYTON—pneumatic tools, Dayton Pneumatic Tool Co., Dayton, Ohio.
 DAYTON—power hammers, The Foglesong Machine Co., 127 Ringgold St., Dayton, Ohio.
 DAYTON—switches & boat lighting outfits, The Dayton Electrical Mfg. Co., 89 St. Clair St., Dayton, Ohio.
 DAYTON—tire protectors, Dayton Inner Tire & Mfg. Co., 17 Madison St., Dayton, Ohio.
 DEAN—stationary gas engines, Dean Mfg. Co., South Cincinnati, Newport, Ky.
 *DEAN'S EUREKA—automobile bearings (babbitt), Dean-Allen Mfg. Co., South Portland, Me.
 DECALCIFIER—boiler & radiator compounds, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
 DECARBONIZER—carbon removers, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
 DE CARBONIZER—carbon removers, La France De Carbonizer Co., 522 Cleveland Ave., Chicago, Ill.
 DE DION—magnetos, imported by The Motor Car Equipment Co., 55 Warren St., N. Y. City, N. Y.
 DEDION-BOUTON—marine engines, imported by De Dion-Bouton Selling Branch, 1649 Broadway, N. Y. City.
 *DEFENDER—tire covers, Beebe-Elliott Co., Racine, Wis.
 DEFIANCE—bicycle tires, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
 DEFIANCE—gasoline & oil storage barrels & air fuel & water tanks, Defiance Steel Package Co., Defiance, Ohio.
 DEFIANCE—machinery, The Defiance Machine Works, Defiance, Ohio.
 DEFIANCE—auto wheels, The Turnbull Waggon Co., Defiance, O.
 DEFREEST—propeller wheels, Jerome E. De Freest, 256 Third Ave., North Troy, N. Y.
 DELAUNAY-BELLEVILLE—chassis, imported by Brewster & Co., Broadway & 47th St., N. Y. City.
 DELAWARE—tail lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
 DELCO—ignition systems, The Dayton Engineering Laboratories Co., Dayton, Ohio.
 DELPEUCH—tire inflators & air compressors, Nightingale Whistie Mfg. Co., 1777 Broadway, N. Y. City.
 DELPHOS—oil cans, The Delphos Mfg. Co., Delphos, O.
 DELTA—files & rasps, Carver File Co., Phila., Pa.
 DELTA—plugs, batteries & battery & coil cases, Delta Mfg. Co., Bloomfield, N. J.
 DELTA METAL—castings, The Phosphor Bronze Smelting Co., 2200 Washington Ave., Phila., Pa.
 DELUXE—acetylene auto lamp burners, American Lava Co., Chattanooga, Tenn.
 DE LUXE—overhead vehicle washer, John W. Frey, 722 Main St., Buffalo, N. Y.
 DELUXE—timers, The Altemus Mfg. Co., 42nd & Chestnut Sts., Phila., Pa.
 DEMO—tire pumps, Bridgeport Brass Co., Cor. Fairfield & Holland Aves., N. Y. City.
 DENEGRE—demountable rims, Denegre Demountable Rim Co., 522 S. 20th St., Birmingham, Ala.
 DERAINE—automobile motors & generator sets, The Derain Motor Co., 7500 Quincey Ave., Cleveland, Ohio.
 DERBY—automobile tires, Thermold Rubber Co., Trenton, N. J.

- DERBY—taps & dies, Butterfield & Co., Derby Line, Vt.
- DERRER—lathe attachment for turning odd shapes, Lancaster Machine & Knife Works, Lancaster, N. Y.
- DE TAMBLE—gasoline automobile engines, De Tamble Motors Co., Anderson, Ind.
- DETROIT—metal auto bodies, stationary & marine gasoline & kerosene engines, The Michigan Steel Boat Co., 1250-1500 Jefferson Ave., Detroit, Mich.
- DETROIT FENESTRA—window sashes, Detroit Steel Products Co., 91-99 E. Fort St., Detroit, Mich.
- DETROIT—grinders, Detroit Emery Wheel Co., Detroit, Mich.
- DETROIT—lubricators & grease cups, Detroit Lubricator Co., Detroit, Mich.
- *DETROIT—marine gasoline engines, Detroit Engine Works, 1263 Jefferson Ave., Detroit, Mich.
- DETROIT—radiators & gaskets, Detroit Radiator Co., 324 Jefferson Ave., W., Detroit, Mich.
- DETROIT—shock absorbers, Geo. W. Bolton, 260 Wreford Ave., Detroit, Mich.
- DETROIT—steering wheels, Detroit Steering wheel & Wind Shield Co., 274-288 Wight St., Detroit, Mich.
- DEXTER—scroll saws, Trump Bros. Machine Co., Wilmington, Del.
- DIABLO—spark plugs, Mica Core Mfg. Co., 442 E. 116th St., N. Y. City.
- DIAM—ignition batteries, dry, Universal Carbon Co., Ashland, Mass.
- DIAMO-CARBO—emery wheel dressers, Desmond-Stephan Mfg. Co., Urbana, Ohio.
- DIAMOND—acetylene auto & motorcycle lamps, gas generators, swivel lamp brackets & elec. auto lamps, Chicago Auto Lamp Works, 71-75 W. Jackson Blvd., Chicago, Ill.
- DIAMOND—bicycle wrenches, Frank Mossberg Co., Attleboro, Mass.
- DIAMOND—chain drives, auto chains & cycle chains, name plates, auto wheel hubs & sprockets, Diamond Chain & Mfg. Co., 241 W. Georgia St., Indianapolis, Ind.
- DIAMOND—cutting machines, The Tschudi-McBarron Machine Co., Armory Bldg., Dayton, Ohio.
- DIAMOND—dowel pins, chucks, lathes & foundry flasks, Diamond Clamp & Flask Co., Richmond, Ind.
- DIAMOND—electric traffic signals, Diamond Igniter Co., 2231 Broadway, N. Y. City.
- DIAMOND—grinders, lathes & polishing & buffing machines, Diamond Machine Co., Providence, R. I.
- DIAMOND—hardening compound, W. F. Altemus, 526 Prospect Ave., Hartford, Conn.
- DIAMOND—ignition batteries, dry, Union Battery Co., Belleville, N. J.
- DIAMOND—insulation, (porcelain), Diamond Porcelain Co., Chauncey St., Trenton, N. J.
- DIAMOND—metal polish, Foskett & Co., 226-28 La Salle St., Chicago, Ill.
- DIAMOND—spark plugs, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Illinois.
- DIAMOND—sparking coils, spark plugs, ignition batteries & taximeters, Westchester Appliance Co., 1315 Canal Place, Bronx Boro, K. Y.
- DIAMOND—tires, rims, tire repair tools, inner tubes, staybolts, igniter cable bar, battery jars, bumpers, mats & matting, steering wheel rims, tire plugs & patches, auto parts, tube protectors, tire valves, gas bags, cements, etc., Diamond Rubber Co., Akron, O.
- *DIAMOND—turret head, Chas. T. Luce Co., 160 Congress St., Boston, Mass.
- DIAMOND—welding compound, Cortland Welding Compound Co., Cortland, N. Y.
- DIAMOND M—tire tools, pedals, ammeters & voltmeters, Chas. E. Miller, 97-101 Reade St., N. Y. City.
- DIAMOND PULVS—valve grinding compounds, Diamond Pulvs Co., 1331 Intervale Ave., N. Y. City.
- DIE-CAST—metal figures & letters, Cleveland Galvanizing Works Co., 18-24 Cooper St., Cleveland, Ohio.
- DIETER—steam auto & marine motors, The Dieter Steam Engine Co., 123 Liberty St., N. Y. City, N. Y.
- DILL—variable speed drive, T. C. Dill Machine Co., Inc., Somerset, Mascher & Mutter Sts., Phila., Pa.
- *DIAMOND—rear signals, Diamond Igniter Co., 2231 Broadway, N. Y. City.
- DISSTON—saws, metal hand, Henry Disston & Sons, Inc., Tacony, Phila., Pa.
- DIVER—leather belting, Jewell Belting Co., 53 Trumbull St., Hartford, Conn.
- DIV. PLUGS—split nuts, The Standard Metalwork Co., Thompsonville, Conn.
- DIXIE—ignition batteries, Chicago Battery Co., 2600-10 Wabash Ave., Chicago, Ill.
- DIXIE—stitched cotton & duck belting, The Gandy Belting Co., 728-40 West Pratt St., Baltimore, Md.
- DIXIE—wind shields, Chicago Wind Shield Co., 235 Johnson St., Chicago, Ill.
- DIX LIFE OF LEATHER—top dressing, Dix Mfg. Co., Lewistown, Pa.
- DIXON'S—pipe joint compound, motor graphite, cup grease, motor chain compound & transmission lubricants, Jos. Dixon Crucible Co., Jersey City, N. J.
- DOBSON—hand bellows & moulders' tools, Wm. Dobson, Canastota, N. Y.
- DODGE—bearing metals, friction clutches, pulleys, shafting & hangers, Dodge Mfg. Co., Mishawaka, Ind.
- *DODGE—mechanical tire inflators, Frank Dodge, 420 Boylston St., Boston, Mass.
- DOEHLER—die castings, bearings, composition castings & oil cups, Doehler Die-Casting Co., 187 W. 9th St., Brooklyn, N. Y.
- DOLLAR—spark plugs, tire tools & valve lifting tools, J. Stewart Smith, 1779 Broadway, N. Y. City.
- DOPP—Cutting compound mixers, H. W. Dopp Co., Buffalo, N. Y.
- DORAIN—removable rims, The Burroughs Removable Rim Co., 225 W. 57th St., N. Y. City.
- DORLAND—time switches, Leslie C. Dorland, Poughkeepsie, N. Y.
- DORMAN—tapping attachments, John H. Dorman, Bethune St., N. Y. City.
- DOUBLE LOCK—tire patches, J. Stewart Smith, 1779 Broadway, N. Y. City (Mfr's agent).
- DOVER—oil cans, Dover Stamping & Mfg. Co., 385 Putnam Ave., Cambridge, Mass.
- DOWNING—grease guns, tire holders, antiskid chains, robe rails, foot rails & pedals, lamp brackets, eagles & animals for radiators, Charles J. Downing, 1777 Broadway, N. Y. City.
- DOW—inner tubes, Dow Tire Co., 2000 Broadway, N. Y. City.
- DOW—removable rims, Dow Rim Co., 1783 Broadway, N. Y. City.
- DOW—spark plugs, sparking coils, switches, timers, ammeters, voltmeters, volt-ammeters & magnetos, The Dow Mfg. Co., Braintree, Mass.
- DRAGON—axles & springs, Sheldon Axle Co., Wilkes-Barre, Pa.
- DRAGON—cement concrete for garages, Lawrence Portland Cement Co., Broadway, N. Y. City.
- DRAKE—acetylene self-cleaning lamp burners, Drake Acetylene Burner Co., San Jose, Cal.
- DRAKE—oil, Oil City Oil & Grease Co., Oil City, Pa.
- DRAPER—robes, Draper Bros. Co., Canton, Mass.
- DREADNAUGHT—bicycles & tires, New York Sporting Goods Co., 17 Warren St., N. Y. City, N. Y.
- DREDGER—marine engines, Loane-Hiltz Engineering Co., 320 S. Hanover St., Baltimore, Md.
- DRIVER—belt sanders, C. H. Driver, 1320 16th St., Racine, Wis.

DRUCKLIEB—sand blast tumbling barrels, C. Drucklieb, 132 Reade St., N. Y. City.

DUBUQUE—keyseaters, Novelty Iron Works, Dubuque, Iowa.

DUCK—roller brake, New York Sporting Goods Co., 17 Warren St., New York City.

DUCK—tandem—attachments, spring frames & belts, motorcycle, A. W. Duck, 427 15th St., Oakland, Cal.

DUCKWORTH—cycle chains, Duckworth Chain & Mfg. Co., 41 Mill St., Springfield, Mass.

DUDLY—wrenches, Menominee Electric Mfg. Co., Menominee, Mich.

DULL KOTE PAINT—motor boat paint, Johnston Paint Co., 226 Main St., Cincinnati, O.

DULL TONE ENAMEL—yacht enamel, Johnston Paint Co., 226 Main St., Cincinnati, O.

DUNCAN—magnetos, D. K. Electric Co., 211-213 Chestnut St., St. Louis, Mo.

DUNLOP—auto tires, Hartford Rubber Works Co., 691 Park St., Hartford, Conn.

*DUNN—gasoline marine motors, Walter E. Dunn, 12 W. River St., Ogdensburg, N. Y.

DUNN SEMI-DRY—ignition batteries, The Semi-Dry Battery Co., 5th & Essex Sts., Harrison, N. J.

DUPLEX—auto brakes, The Royal Equipment Co., 414-32 Housatonic Ave., Bridgeport, Conn.

*DUPLEX—carburetors, clamps, cleats, tackle blocks, steering wheels, roller bearings & boat propellers, Duplex Roller Bushing Co., Belfast, Me.

DUPLEX—collapsible buckets & basins, folding funnels & trunks, The Planet Co., Westfield, Mass.

DUPLEX—electric horn attachments, Electric Auto Horn Co., Pittsburg, Pa.

DUPLEX—gas bicycle lamps, Miller Manufacturing Co., 813 Central Ave., Peekskill, N. Y.

DUPLEX—gasoline motor boats, The Duplex Roller Bushing Co., Belfast, Me.

DUPLEX—horns, electric, auto, The Electric Auto Horn Co., 6112 Station St., Pittsburg, Pa.

DUPLEX—pipe cutting & threading machines, Bignall & Keeler Mfg. Co., Edwardsville, Ill.

DUPLEX—pipe threading & bolt threading tools & screw plates, The Hart Mfg. Co., 1362 E. 3rd St., N. E., Cleveland, O.

DUPLEX—power hack saws, Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.

DUPLEX—spark coils & switches, Duplex Coil Co., Fond du Lac, Wis.

DUPLEX—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.

DUPLEX—wind shields, glass, Columbus Auto Part & Machine Co., 4th & E. Goodall Sts., Columbus, O.

DUPLEX—wire terminals, Bliss-Chester Co., 31 Mathewson St., Providence, R. I.

DUPLEX-EXIDE—ignition batteries, Electric Storage Battery Co., 19th St., & Allegheny Ave., Phila., Pa.

DUPLEX-LOHI—magnetos, The Duplex Coil Co., Fond du Lac, Wis.

DURA—varnish, Hotopp Varnish Co., First & Marshall Sts., Hoboken, N. J.

DURAND—steel lockers & tables, Durand-Steel Locker Co., 1244 American Trust Bldg., Chicago, Ill.

DURAX—water gauge glasses, Schaeffer & Budenberg Mfg. Co., 963-5 Kent Ave., Brooklyn, N. Y.

DURO—babbitt bearing metal, Mogul Metal Co., 149-151 Larned St., Detroit, Mich.

DURO—ignition batteries, electric auto & boat lamps, dome lights & switches, Chicago Battery Co., 2600-10 Wabash Ave., Chicago, Ill.

DURYAOYL—oils, Chas. E. Duryea, Reading, Pa.

DURYEA—auto motors, chains & marine motors, Chas. E. Duryea, Reading, Pa.

DUSTLESS CHAIN DRESSING—grease, Cleveland Auto-Clutch Dressing Co., Cleveland, Ohio.

DUTCH—cement, tire, Van Cleef Bros., 7711 Woodlawn Ave., Chicago, Ill.

DUTCH BOY PAINTER—white lead for painting, National Lead Co., 111 Broadway, N. Y. City.

DUTCHESS—auto heaters, Chicago Flexible Shaft Co., Chicago, Ill.

DUTCH OIL—auto body soap, White Star Refining Co., 307 White Bldg., Buffalo, N. Y.

DYKE'S—publications & correspondence course, A. L. Dyke, 3947 Washington Ave., St. Louis, Mo.

DYNATAK—dynamometers, speed indicators & odometers, The Electric Speedometer & Dynamometer Mfg. Co., 1317-19 New York Ave., N. W., Washington, N. D.

E

E. & J.—acetylene electric lamps for autos, oil lamps, gas generators, boat lamps, acetylene, oil & electric, Edmunds & Jones Mfg. Co., 313-315 Riopelle St., Detroit, Mich.

E & M TABOR—wind shields, The English & Mersick Co., 122-26 Winchester Ave., New Haven, Conn.

E. T. W.—hammers, punches, fullers & swages, Evansville Tool Works, Evansville, Ind.

E-Z—boat seats, Irwin Mfg. Co., Galesburg, Ill.

E-Z—tire inflators, Wheaton & Utley, Sunbury, Ohio.

E-Z—valve grinding compounds—J. F. Bornschein & Co., 2351 Indiana Ave., Chicago, Ill.

E-Z-BLOW—motor boat horns, American Marine Lamp Mfg. Co., 261 Pearl St., N. Y. City.

E-Z-2-C—fuel level indicators, auto & marine, National Motor Supply Co., Cleveland, O.

EAGLE—cleansing compounds, auto body, Eagle Lubricating Oil Co., 426-28 First Ave., Pittsburg, Pa.

EAGLE—cycle motors, Eagle Motor Works, 1111 E. Franklin Ave., Minneapolis, Minn.

EAGLE—files & misc. tools, The Whitaker Mfg. Co., 599 W. Monroe St., Chicago, Ill.

EAGLE—files & rasps, Nicholson File Co., Providence, R. I.

EAGLE—gasoline marine engines, The Progressive Mfg. Co., Torrington, Conn.

EAGLE—hack saw frames, Union Hardware Co., Torrington, Conn.

EAGLE—hardware, auto, The Walter W. Woodruff & Sons Co., Mt. Carmel, Conn.

EAGLE—ignition storage batteries, The Eagle Storage Battery Co., 269 W. 17th St., N. Y. City.

EAGLE—lubricators, steel, Eagle Glass & Mfg. Co., Wellsburg, W. Va.

EAGLE—marine gasoline engines, The Eagle Co., 98 Warren St., Newark, N. J.

EAGLE—nuts, bolts & webbing, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.

EAGLE—springs, Miller & Van Winkle, 18-24 Bridge St., Brooklyn, N. Y.

EAGLE—threading tools, taps & dies, wrenches & diestocks, American Tap & Die Co., Greenfield, Mass.

EAGLEINE—oils & greases, Eagle Oil & Supply Co., 104 Broad St., Boston, Mass.

EAMES—socket & spark plug wrenches, Eames Tool Co., Inc., Lynn, Mass.

EARL—wind shields, Earl Automatic Wind Shield Co., 2335 Wabash Ave., Chicago, Ill.

EASTERN—gasoline & oil pumps, for garage use, gasoline & oil storage outfits, Eastern Oil Tank Co., 146 Fletcher St., Lowell, Mass.

EASTERN—ignition batteries, dry, National Carbon Co., Lock Drawer L. Cleveland, O.

EASY—bolt clippers, H. K. Porter, 6 Ashland St., Everett, Mass.

EASY—taps & dies, Champion Blower & Forge Co., Lancaster, Pa.

EASYBRIGHT—metal polish, B. F. Stinson Co., 424 Niagara St., Buffalo, N. Y.

- EBERHARD—aluminum solder, C. F. Eberhard, 25 Helen St., Buffalo, N. Y.
- EBERMAN—tire inflators, Eberman Auto Appliance Co., 1205 Monadnock Bldg., Chicago, Ill.
- EBONITE—packing, Quaker City Rubber Co., 629 Market St., Phila., Pa.
- EBONY—core compound, The Hill & Griffith Co., 1248-1262 State Ave., Cincinnati, Ohio.
- ECHO—horns & muffler cut-outs, Echo Horn Co., 5601 Carnegie Ave., Cleveland, O.
- ECK—dynamos & electric motors for machinery, Eck Dynamo & Motor Co., Belleville, N. J.
- ECLAT—wood polish & auto body cleansing compounds, Eclat Mfg. Co., 3425 State St., Chicago, Ill.
- ECLIPSE—acetylene gas tanks, The Marion Acetylene Specialty Co., 162 Broadway, Marion, N. J.
- ECLIPSE—ammeters, Eldredge Elec. Mfg. Co., 3 Post Office Square, Springfield, Mass.
- *ECLIPSE—auto oil, Flint Oil Co., Providence, R. I.
- ECLIPSE—bicycle & motorcycle hubs, head fittings, power hack saws, coaster brakes, 2 speed gears & cranks, Eclipse Machine Co., Elmira, N. Y.
- ECLIPSE—breast drills, Lancaster Machine & Knife Works, Lancaster, N. Y.
- ECLIPSE—carburetors (Marine), Generator Valve Co., 294-296 Taaffe Place, Brooklyn, N. Y.
- ECLIPSE—chain guards, auto, John Bohnet & Co., 114-116 Grand Ave., S., Lansing, Mich.
- ECLIPSE—fire extinguishers, Haverhill Fire Appliance Co., 40 Merrimac St., Haverhill, Mass.
- *ECLIPSE—gasoline marine motors, Eclipse Motor Co., Mancelona, Mich.
- ECLIPSE—gasoline marine motors, Harms Bros., 900-902 S. Ann St., Baltimore, Md.
- ECLIPSE—oil filters, Industrial Instrument Co., Foxboro, Mass.
- ECLIPSE—window anti-rattlers, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- ECONOMIC—piston ring expanders, Economic Tool Co., Lorain, O.
- ECONOMIZER—stationary engines, Chapman Engine Works, Marcellus, Mich.
- ECONOMY—bicycles, Economy Cycle Supply Co., Detroit, Mich.
- ECONOMY—charging apparatus for ignition batteries, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- ECONOMY—emery grinders, William S. Nicholls, 253 Broadway, N. Y. City.
- ECONOMY—portable houses, Nicola Building Co., Farmers' Bank Bldg., Pittsburg, Pa.
- ECONOMY—roughstuff & primers, The Cawn Mining & Mfg. Co., Canton, O.
- *ECONOMY—spark plugs, Economy Mfg. Co., 199 Grand St., N. Y. City.
- ECONOMY—stationary gasoline engines, Holm's Machine Mfg. Co., Sparta, Mich.
- ECONOMY—stocks & dies, F. E. Wells & Son Co., Greenfield, Mass.
- ECONOMY—switches, Seidler-Miner Supply Co., 207-211 Jefferson Ave., Detroit, Mich.
- ECONOMY—tool box locks, The International Mfg. Co., 202 Marine Bank Bldg., Baltimore, Md.
- *ECONOMY—wind shields, Auto Economy Co., 1426 Michigan Ave., Chicago, Ill.
- EDCO—tire lugs & valves, spark plugs, rivets & chrome leather for anti-skid tires, imported by Ch. Dien, 45 W. 34th St., N. Y. City.
- EDCO—spark plugs, tire lugs, tire valves & locknuts, imported by S. Breakstone, 1712 Michigan Ave., Chicago, Ill.
- EDELMANN—tire gauges, E. Edelmann & Co., 36 La Salle St., Chicago, Ill.
- EDGE-MONT—friction clutch pulleys, cut-off couplings & sleeve clutches, The Edgemont Machine Co., Dayton, Ohio.
- EDISON—ignition & vehicle batteries, Edison Storage Battery Co., Orange, N. J.
- *EDISON—spark plugs, road maps & holders, Edison Auto Accessories Co., Pleasantdale, N. J.
- EDW. REUKAUF—curtain rollers, Carey & Co., 241-45 Arch St., Phila., Pa.
- EGYPTIAN—metal cement, S. H. Brand Co., Chicago, Ill.
- EISEMANN—magnetos, The Eisemann Magneto Co., 225-227 W. 57th St., N. Y. City.
- EISNER—spark coils, distributors, switches & timers, Harry Eisner & Co., 29 Scotia St., Boston, Mass.
- EJECTOR—exhaust mufflers for auto engines, The Motor & Mfg. Works Co., Foot of Middle St., Geneva, N. Y.
- EL ARCO—radiators, El Arco Radiator Co., 6 E. 31st St., N. Y. City.
- ELB—ignition batteries, Willard Storage Battery Co., Marquette Road & Lakeside, Cleveland, Ohio.
- ELBA—electric auto lamps & lightning dynamos, Willard Storage Battery Co., Marquette Road & Lakeside, Cleveland, O.
- ELBRIDGE—dynamos & electric dynamos & switches, Eldridge Electrical Mfg. Co., Elbridge, N. Y.
- ELBRIDGE—marine gasoline engines & boat lighting outfits, Elbridge Engine Co., Culver Road, Rochester, N. Y.
- ELCO—electric, gasoline & steam motor boats, The Electric Launch Co., 179 Avenue A, Bayonne, N. J.
- ELDER—pneumatic punctureless tires & elevator safety gates, Elder Mfg. Co., Indianapolis, Ind.
- ELECTRIC—metal polish, J. Wesley Edmonds & Son, 214 Franklin St., N. Y. City.
- ELECTRIC—rubber hose & belting, United & Globe Rubber Mfg. Co., Trenton, N. J.
- ELECTRIC—taps & dies, Champion Blower & Forge Co., Lancaster, Pa.
- ELECTROSE—insulation, Electro Mfg. Co., 127 N. 10th St., Brooklyn, N. Y.
- ELECTRO-CORNO—electric auto & boat horns, Elkhart Dry Battery & Signal Co., 117 Commercial St., Elkhart, Ind.
- *ELECTROSHINE—metal polish, The Brighton Chemical Co., 1220 George St., Chicago, Ill.
- ELEPHANT BRAND PHOSPHOR BRONZE—castings, ingots, wire, rods, sheets, etc., The Phosphor Bronze Smelting Co., 2200 Washington Ave., Phila. Pa.
- ELGIN—electric auto lamps, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- ELI—circulation pumps, Moline Pump Co., Moline, Ill.
- ELITE—ammeters, Manhattan Electrical Supply Co., 17 Park Pl., New York, N. Y.
- EIK—bicycle tires (jobbers), New York Sporting Goods Co., 17 Warren St., New York City.
- ELK—tire bands, National Leather Belting Co., 29 Ferry St., N. Y. City.
- ELLAITCHEE—carburetor floats & brake lining, The Jayaitcheff Co., Baltimore, Md.
- ELLINGWOOD—chucking machines & tenoners, Niagara Machine Co., 825-27 Linwood Ave., Niagara Falls, N. Y.
- ELLIOTT—acetylene gas storage generator, Eco Mfg. Co., 53 State St., Boston, Mass.
- ELLIOTT—acetylene lamp lighters, Chas. Elliott & Co., 422 N. Charles St., Baltimore, Md.
- ELLIOTT PAT.—acetylene gas generators, F. Cortez Wilson & Co., 239-241 Lake Street, Chicago, Ill.
- ELLIOTT PROCESS—cross chains, The Cassidy-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- ELLIS SPECIAL—auto oils, E. D. Ellis Oil Co., 213 Jefferson Ave., Detroit, Mich.
- ELM CITY—bolt & rivet clippers, Wm. Schollhorn Co., New Haven, Conn.
- ELM CITY—stump joints, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- ELMENDORF—varnish, Elmendorf Varnish Co., 841-45 Larrabee St., Chicago, Ill.
- ELMIRA—screw drivers, Cronk & Carrier Mfg. Co., Elmira, N. Y.
- ELMORE—by-pass screens, The Kneega Co., Inc., Washington, D. C.

- ELMORE—hand punches, Cronk & Carrier Mfg. Co., Elmira, N. Y.
- ELMORE—screw drivers, pliers, hand punches, chisels, drop forged tools & cotter pin extractors, The Elmore Tool Mfg. Co., Hartford, Conn.
- ELSNER—auto seats, Elsner Auto Seat Co., Racine, Wis.
- ELTA—burners, Wm. M. Crane Co., 1131-1133 Broadway, N. Y. City.
- EMANCIPATOR—tire inflating tanks, Liquid Carbonic Co., 67 Wells St., Chicago, Ill.
- EMBESTOS—brake lining, Empire Tire Co., Trenton, N. J.
- EMCO—dry batteries, Electric Mfg. Co., 355 Minnesota St., St. Paul, Minn.
- *EMERGENCY—spring repair devices, Emergency Spring Repairer Co., 2128 Broadway, N. Y. City, N. Y.
- EMERY CAKE—buffing & polishing compounds, Frederic B. Stevens, Detroit, Mich.
- EMPIRE—auto & bicycle tires, auto tirecases, tire protectors, tire repair articles, tube cases & bags, inner tubes & tube patches, ignition cable & asbestos packing, Empire Tire Co., Trenton, N. J.
- EMPIRE—babbitt, Empire Metal Co., Syracuse, N. Y.
- EMPIRE—bows, Empire Bending Works, Lancaster, Pa.
- EMPIRE—drill ratchets, Syracuse Wrench Co., Franklin & Water Sts., Syracuse, N. Y.
- *EMPIRE—gasoline marine engines, Empire Cream Separator Co., Fischer Bldg., Chicago, Ill.
- EMPIRE—hairpickers, G. H. Lounsbury & Sons, 107-109 W. Third St., Cincinnati, O.
- EMPIRE—jacks, The Empire Jack Co., 11-15 Dill St., Auburn, N. Y.
- EMPIRE—lamps, auto & boat, Indiana Lamp Co., Connerville, Ind.
- EMPIRE—miniature candelabra lamps & sockets, H. W. McCandless & Co., 67-69 Park Place, N. Y. City.
- EMPIRE—packing, Canfield Mfg. Co., Lehigh Ave. & Howard St., Phila., Pa.
- EMPIRE—Removable rims, Empire Tire Co., Trenton, N. J.
- EMPIRE—storage batteries, Empire Battery Co., Inc., 1876 Broadway, N. Y. City.
- EMPIRE—spark plugs, Grant Mfg. Co., 90 Silliman Ave., Bridgeport, Conn.
- *EMPIRE—tops, wind shields, folding seats & bow separators, Empire Auto Top Co., 207 N. 22nd St., Phila., Pa.
- *EMPIRE—vulcanizers & fuel level indicators, The Empire Auto Specialty Mfg. Co., Berea, O.
- EMPIRE—wrenches, William Hjorth & Co., Jamestown, N. Y.
- EMPRESS—oil & grease cups & oil hole covers, Bowen Mfg. Co., Mechanic St., Auburn, N. Y.
- ENAMELAC—top dressing, Enamelac Varnish Co., Racine, Wis.
- ENERGINE—gasoline & naphtha, The Engine Refining & Mfg. Co., 809 Cuyahoga Bldg., Cleveland, O.
- THE ENGINEER POMADE—metal polish, Cleaner Mfg. Co., 2842 Olive St., St. Louis, Mo.
- ENGLAND—carburetors, Arthur England Co., Merrimac, Mass.
- ENGLEBERT—tire, imported by Louis G. Duquet, 107 W. 36th St., N. Y. City.
- ENNIS—tires & tubes, Ennis Rubber Mfg. Co., 22 Commercial St., Newark, N. J.
- ERICKA AUTO-CAR—auto body soap, The Ericka Mfg. Co., 872-882 Liberty St., Springfield, Mass.
- ERICKA—hand soap, Ericka Mfg. Co., Inc., 872-882 Liberty St., Springfield, Mass.
- ERICKSON—gasoline mixers, auto snow shoes & taxicab "for hire" signs, Raimes & Co., 50 Ferry St., N. Y. City.
- ERIE—cycle motors & motorcycle accessories, Motorcycle Equipment Co., Hammondsport, N. Y.
- ERIE—grease & oil cups, oil reservoirs & special metal stamping of all kinds, Erie Stamping & Mfg. Co., Erie, Pa.
- ERIE—hammers (steam & drop), Erie Foundry Co., Erie, Pa.
- *ERIE—stationary engines & gasoline marine engines, Erie Pump & Engine Co., Erie, Pa.
- ERNST—combined turntable & wash rack, C. F. Ernst's Sons, 65 Lathrop St., Buffalo, N. Y.
- ERRINGTON—tapping chucks, die heads & stud or nut setters, E. A. Errington, 39 Cortlandt St., N. Y. City.
- ESCO—ball bearing cups, automobile horns, tire pumps & wrenches, Stevens & Co., 375 Broadway, N. Y. City.
- ESCO—wrenches, pressed steel nut covers, Erie Stamping & Mfg. Co., Erie, Pa.
- ESSEX—carburetors & top supports, Essex Brass Foundry Co., 141-45 Main St., Cambridge, Mass.
- ESSEX—gasoline marine motors, The Essex Engine Co., 416 Union St., Lynn, Mass.
- *ESSEX—lock washers, Essex Mfg. & Supply Co., Newark, N. J.
- ESSEX—lubricators, carburetors, grease cups, oil & grease injectors & stuffing boxes, G. B. Essex Brass Co., 480-486 Franklin St., Detroit, Mich.
- EUREKA—automobile tops, The Eureka Co., Rock Falls, Ill.
- EUREKA—enameled goods cutters, G. H. Lounsbury & Sons, 107-109 W. Third St., Cincinnati, O.
- EUREKA—foundry flasks, Smith & Caffrey Co., Syracuse, N. Y.
- EUREKA—gasoline gauges, Stecker Electric & Machine Co., Detroit, Mich.
- EUREKA—gasoline storage outfits, National Oil Pump & Tank Co., 411-413 E. First St., Dayton, Ohio.
- EUREKA—grease & transmission compounds, L. M. Crane & Co., 91 Oliver St., Boston, Mass.
- EUREKA—lock nuts, Eureka Nut Lock Co., 32nd & Smallman Sts., & A. V. R. R., Pittsburg, Pa.
- EUREKA—magnetos, Henricks Novelty Co., 124-128 Capitol Ave., S. Indianapolis, Ind.
- EUREKA—oil (jobbers), Fidelity Oil Co., 600-602 W. 6th St., Kansas City, Mo.
- EUREKA—rapid acting machinists' vises, Emmert Mfg. Co., Waynesboro, Pa.
- *EUREKA—reversing gears, Eureka Reverse Gear Co., 172 Pearl St., Hartford, Conn.
- EUREKA—self closing nozzles, Geo. Grossel-finger, 192 Front St., N. Y. City.
- EUREKA—soldering flux, Grasselli Chemical Co., Cleveland, Ohio.
- EUREKA—tool grinders & polishing & buffing machines, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.
- EUREKA—valve grinding compound, Auto Equipment Co., 32 Hollywood Ave., East Orange, N. J.
- EUREKA—wax wire core vent, S. H. Brand Co., Chicago, Ill.
- EUREKA TRIPLEX—tire pumps, Judd & Le-land Mfg. Co., Clifton Springs, N. Y.
- EUREKA—wadding, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- EUREKA YANKEE—hack saw blades, Henry G. Thompson & Son Co., New Haven, Conn.
- EVANS—electric vulcanizers, Electric Vul-canizer Co., 618 3rd Ave., S. Minneapolis, Minn.
- EVANS—transmission gears, Merchant & Evans Co., 517 Arch St., Phila., Pa.
- EVER-BRIGHT—rust preventives, Legnard Bros., 203-05 Genesee St., Waukegan, Ill.
- EVERGOOD—belting, Thermoid Rubber Co., Trenton, N. J.
- EVERLASTING—axles, Sheldon Axle Co., Wilkes-Barre, Pa.
- EVER-LASTING LUSTRE—tarnish preven-tatives, The Igniter Appliance Co., 302 Electric Bldg., Cleveland, Ohio.
- EVEREADY—ammeters, cigar lighters, clocks, gauge lamps, ignition batteries, inspection lamps, terminals, vacuum bottles, voltme-ters, voltmeters & miniature carbon & Tungsten lamps, American Ever Ready Co., 304-322 Hudson St., N. Y. City.

- EVER READY—auto engine starter, speed indicator, vulcanizer & taximeters, The Auto Improvement Co., 304 Hudson St., N. Y. City.
- EVEREADY BULLDOG—battery connections, American Ever Ready Co., 304-322 Hudson St., N. Y. City.
- EVER-READY—cross chains, Newhall Chain Forge & Iron Co., 90 West St., N. Y. City.
- EVER READY—vehicle washers, I. J. Smith Mfg. Co., Inc., 4283 Park Ave., N. Y. City.
- EVER RIGHT—tire cements, tire tape & enamels, Keyser Fry, 723-25 Chestnut St., Reading, Pa.
- *EVER—wrenches, Detroit Wrench Co., 45 State St., Detroit, Mich.
- EXCEL—voltmeters, voltammeters & ammeters, Excel Instrument Co., 1555 E. 65th St., Cleveland, O.
- EXCELSIOR—automobile tops, W. H. Newton & Son, 127 Elm St., Cortland, N. Y.
- EXCELSIOR—bicycle chain lubricant & cylinder oils, Wm. P. Miller's Sons, Nott Ave. & Hancock St., Long Island City, N. Y.
- EXCELSIOR—cushion springs, (auto), Trenton Spring Mattress Co., Trenton, N. J.
- EXCELSIOR—drilling machines, The Tschudi-McBarron Machine Co., Armory Bldg., Dayton, Ohio.
- EXCELSIOR—gasoline automobile engines, Excelsior Motor & Mfg. Co., 2200-30 Union Ave., Chicago, Ill.
- EXCELSIOR—generator valves, Generator Valve Co., 294-296 Taaffe Place, Brooklyn, N. Y.
- EXCELSIOR—grease, E. H. Kellogg & Co., 243 & 244 South St., New York City, N. Y.
- EXCELSIOR—motorcycle tandem attachments, crank hangers, cycle stands & spokes, lamp adapters, luggage carriers & gasoline auto engines, Excelsior Supply Co., 233-37 Randolph St., Chicago, Ill.
- *EXCELSIOR—punches & shears, Excelsior Tool & Machine Co., E. St., St. Louis, Mo.
- EXCELSIOR—revolving overhead vehicle washers, The Vehicle Specialty Co., Inc., 26 State St., Hartford, Conn.
- EXCELSIOR—rubber hose & matting, Boston Belting Co., 256-60 Devonshire St., Boston, Mass.
- EXCELSIOR—soldering fluid, A. Schultz & Co., 1015-19 E. Fayette St., Baltimore, Md.
- EXCELSIOR—steam vulcanizers, Wishart-Burge Machine Works, 58-66 N. Jefferson St., Chicago, Ill.
- EXCELSIOR—window anti-rattlers & curtain fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- EXCELSIOR BRAND CAN'T RIP—tool bags & tire cases, Excelsior Implement Co., Inc., Troy, N. Y.
- EXCENTRIC—mica plugs, The Mica Core Mfg. Co., 442 E. 166th St., N. Y. City.
- EXETER—auto tires & rubber covered steps, Rubber Step Mfg. Co., Exeter, N. H.
- EXIDE—storage ignition & vehicle batteries, Electric Storage Battery Co., 19th St. & Allegheny Ave., Phila., Pa.
- EXPERT—bicycles & tires, New York Sporting Goods Co., 17 Warren St., N. Y. City.
- EXPRESS—current indicators, Eldredge Electric Mfg. Co., 3 Post Office Square, Springfield, Mass.
- EXTRA—leather belting, Jewell Belting Co., 53 Trumbull St., Hartford, Conn.
- EXTRA WEAR—tire sleeves, Inner Shoe Tire Co., 64 Monroe St., Grand Rapids, Mich.
- EZE-GRIP—leather and rubber steering wheel covers, Hayne-Surridge Co., 1017 Lucas Ave., St. Louis, Mo.
- F.-B.—automatic clutch release for Buick Model 10, The F.-B. Company, Columbia, S. C.
- F. C. W. & CO.—gasoline storage outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- F. H. B.—tire patches, The F. H. B. Co., Ithaca, N. Y.
- F. I. A. T.—spare parts, imported by The Hol-Tan Co., 1741 Broadway, N. Y. City.
- F & K—chimes, Findeisen & Kropf Mfg. Co., 2100 S. Rockwell St., Chicago, Ill.
- F. & R.—double swivel vises, Fulton Machine & Vise Co., Lowville, N. Y.
- F. R. V.—shock absorbers, gears for autos, The F. R. V. Sales Co., Thoroughfare Bldg., N. Y. City.
- F-S—varnishes, Felton, Sibley & Co., 136-140 N. 4th St., Phila., Pa.
- F. & S.—annular ball bearings, imported by J. S. Bretz Co., 1004 Times Bldg., N. Y. City.
- F. & S.—clothing, Fuller & Sullivan, 11 to 19 Eliot St., Boston, Mass.
- FABRIKOID—imitation leather, The Fabrikoid Co., Newburgh, N. Y.
- FAHNESTOCK—spring binding posts, terminals & battery connections, The Fahnestock Electric Co., 129 Patchen Ave., Brooklyn, N. Y.
- FAHRIG—anti-friction metal, Fahrig Metal Co., 316-322 Hudson St., N. Y. City.
- FAIRBANK—screw drivers, The Cassidy-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- FAIRBANKS-MORSE—marine gasoline engines & stationary gasoline engines, Fairbanks, Morse & Co., Chicago, Ill.
- FAIRFIELD—gasoline marine motors, The Consolidated Carpet Sewing Machine Co., Bridgeport, Conn.
- FALLS—auto & motorcycle tires, The Falls Rubber Co., Akron, O.
- FALLS—gasoline auto engines & feed glue jointers, Falls Machine Co., Sheboygan Falls, Wis.
- FAMOUS—bicycle tires, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
- FAMOUS—oil & hand soap, Automobile Oil Co., 723 Baronne St., New Orleans, La.
- *FARNLEY BEST YORKSHIRE—iron, imported by Houghton & Richards, 150 Oliver St., Boston, Mass.
- FARWELL—gear cutters, gear hobbling, molding machines, milling attachments for planers & sprue cutters, The Adams Co., Dubuque, Iowa.
- FASTNUT—lock washers, imported by S. Hoffnug & Co., Ltd., 116 Broad St., N. Y. City.
- FAUBER—crank hangers & sprockets, Great Western Mfg. Co., La Porte, Ind.
- FAULTLESS—gasoline marine motors, motor boat frames & hulls, Valley Boat & Engine Co., Baldwinsville, N. Y.
- FAULTLESS—inner tubes, Faultless Auto Tube Co., 1779 Broadway, N. Y. City.
- FAULTLESS—switches, Motsinger Device Mfg. Co., Pendleton, Ind.
- FAVORITE—juvenile foot and hand propelled vehicles, Toledo Metal Wheel Co., Toledo, Ohio.
- FAWN—magnetos, Fawn River Mfg. Co., Con-stantine, Mich.
- FAY JUVENILE—bicycles, The Fope Mfg. Co., Hartford, Conn.
- FEAR-NAUGHT—pneumatic auto tires, Dr. T. J. Cooper, 114 Water St., Paterson, N. J.
- FEATHERWEIGHT—marine gasoline engines, Elbridge Engine Co., Culver Road, Rochester, N. Y.
- FEDDERS—radiators, tanks, hoods & auto fenders, Fedders Mfg. Works, 57-59 Ton-awanda St., Buffalo, N. Y.
- FEDERAL—bench planers, Edwin E. Bartlett, 326 A St., Boston, Mass.
- FEDERAL—steel lockers, shelving, filling cabinets, boxes & barrels, Federal Steel Fixture Co., 4545 W. Homer St., Chicago, Ill.

F

F. A. G.—German steel baus, imported by Peter Frasse & Co., 130-32 Worth St., N. Y. City.

- FELLOWS**—gear cutters, The Fellows Gear Shaper Co., Springfield, Vt.
- FELLWOCK**—wind shields & auto seats, The Fellwock Automobile & Mfg. Co., Evansville, Ind.
- FERRET**—wrenches, Pederson Mfg. Co., 636-644 First Ave., N. Y. City.
- FERRO**—carburetors, gasoline marine engines & castings, Ferro Machine & Foundry Co., 115 Wade Bldg., Cleveland, O.
- FERRY**—steel cap & set screws, Ferry Cap & Set Screw Co., 2151 Scranton Road, Cleveland, O.
- FETZGER**—universal joints, Fetzger Automobile Mfg. Co., Columbus & Walnut Sts., Galion, Ohio.
- FIAT**—auto parts & supplies, imported by Fiat Automobile Co., 1786 Broadway, N. Y. City.
- FIAT**—oils & grease, Pennsylvania Oil Works Co., 171 Broadway, N. Y. City.
- FIBROVISCOS**—gear lubricant, W. S. Sheppard, 22 Lawrence St., Newark, N. J.
- FIDELITY**—waste, wiping rags, etc., J. Milton Hagy Waste Works, 433 Spruce St., Phila., Pa.
- FIELD**—metal cements, Field Radiator & Boiler Compound Co., Auburn, Me.
- ***FIELD**—stationary engines, The Field-Brundage Co., Jackson, Mich.
- FIFIELD**—automatic drilling attachments, Fifield Bros. Co., 337 Water St., Augusta, Me.
- FINGA-BRITE**—soaps & pastes (hand), Rath, Chas. H. Co., Inc., 1347 N. Front St., Phila., Pa.
- ***FIRE DUST**—fire extinguishers, Leader Mfg. Co., 1808 Chestnut St., St. Louis, Mo.
- FIRE-FLY**—ignition batteries, Hoosier Storage Battery Co., Evansville, Ind.
- FIRESTONE**—tires, tire cements, tire repair articles, tire tools & tire repair pits, Firestone Tire & Rubber Co., Akron, O.
- FISCHBACK**—gasoline marine motors, Fischback Mfg. Co., 3714 N. Madison Ave., Peoria, Ill.
- FISHER**—magnetos & storage battery chargers, Fisher Mfg. Co., South Bend, Ind.
- FISHER & FISHER-BROOKS**—machinists' & woodworkers' vises, Fisher & Norris, Trenton, N. J.
- FISHERMAN**—gasoline marine motors, Loane-Hiltz Engineering Co., 320 S. Hanover St., Baltimore, Md.
- FISH SYSTEMS**—timers, distributors, spark coils & generators, The Fish Systems Co., Indianapolis, Ind.
- FISHTAIL**—propeller wheels, Mechanical Devices Co., Inc., Watervliet, N. Y.
- FISK**—tires, Fisk Rubber Co., Chicopee Falls, Mass.
- FITCBURG**—files, Simonds File Co., Fitchburg, Mass.
- FITCHBURG**—lathes, countersinking & radial drills, Fitchburg Machine Works, Fitchburg, Mass.
- FITE FIRE**—fire extinguishers, Henry W. Landau, N. J. R. R. Ave., Newark, N. J.
- FITS-ALL**—automobile lamp covers, Vehicle Apron & Hood Co., 198 E. Rich St., Columbus, Ohio.
- FITWELL**—dowel pins, Cleveland Galvanizing Works Co., 18-24 Cooper St., Cleveland, O.
- FITZALL**—lamp adapters, A. Nelson Mfg. Co., 564 W. Randolph St., Chicago, Ill.
- FITZALL**—lamp adapters, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- FIVE BROTHERS**—auto trimming leather, Chas. L. Klauder Co., B St. & Allegheny Ave., Phila., Pa.
- FIXAT-NITE**—lamp stands, Arnold Auto Specialty Co., Garfield, N. J.
- ***FLANGE**—wrenches, Brock Wrench Mfg. Co., 18 Dey St., N. Y. City.
- FLASH**—acetylene lamp lighters, Motor Specialties Co., Motor Mart, Boston, Mass.
- FLASH**—carbon removers, Flash Mfg. Co., Zanesville, O.
- FLASH**—cleansing compound (antiseptic), metal polishes & auto body cleansing compound, Flash Chemical Co., 9 & 10 Fulton St., Boston, Mass.
- FLASH**—spark plugs, Acme Telephone & Mfg. Co., Albia, Iowa.
- FLASHLIGHT**—spark plugs, Janney-Steinmetz & Co., 4th & Market Sts., Phila., Pa.
- FLAT BASE**—cushion springs, Detroit Wire Spring Co., 21st & Standish Sts., Detroit, Mich.
- FLATHER**—gear cutting machines, turret machines & boring mills, E. J. Flather Mfg. Co., Nashua, N. Y.
- FLEETWOOD**—auto bodies, hoods & mudguards, Fleetwood Metal Body Co., Fleetwood, Pa.
- FLEETWOOD**—scroll saws, Trump Bros. Machine Co., Wilmington, Del.
- FLEISCH**—gaskets, Chicago Die & Stamping Co., Ravenswood Station, Chicago, Ill.
- ***FLEMMING**—vehicle chock, Flemming Vehicle Chock Co., 438 Garfield Ave., S. E., Washington, D. C.
- E. FLENTJE**—fuel strainer & shock absorbers, Ernest Flentje, Cambridge & Trowbridge Sts., Cambridge, Mass.
- FLÉUR DE LIS**—dry batteries, French Battery & Carbon Co., Madison, Wis.
- FLÉXO**—fan belts, Detroit Leather Works, 844 Woodward Ave., Detroit, Mich.
- ***FLOUR CITY**—stationary engines, Kinnard-Haines Co., Minneapolis, Minn.
- ***FLUFF-FOE**—boiler & radiator compound, John Callahan & Co., 1119 Chamber of Commerce Bldg., Chicago, Ill.
- FLUXINE**—for cleaning brass in furnaces, The Foundry Specialty Co., Cincinnati, Ohio.
- FOG-OFF**—to prevent wind shield glass from becoming clouded in rain, The Bobrick Chemical Co., 111-117 S. Garey St., Los Angeles, Cal.
- FOOS**—stationary engines, The Foos Gas Engine Co., Springfield, Ohio.
- FORBES**—patent die stock, Curtis & Curtis Co., Bridgeport, Conn.
- FORD**—demountable rims, Ford Demountable Rim Co., Bridgeport, Conn.
- FORD**—repair links, Ford Repair Link Co., 147-150 Ann St., Bridgeport, Conn.
- ***FOREST CITY**—flexible hose for horns, Forest City Rubber Co., 1543 Columbus Rd., N. W., Cleveland, O.
- FOREST CITY**—paints, varnishes, lacquers & enamels, Forest City Paint & Varnish Co., 3334 Lakeside Ave., Cleveland, Ohio.
- FORG**—gasoline burners, roller tube expanders, sprockets & door catches, Peter Forg, 50 Park St., Somerville, Mass.
- FORSYTH**—cycle lamp brackets, coaster brakes, cone spanners, chain guards, brakes & cycle & motorcycle pedals, Forsyth Mfg. Co., 308-314 Terrace, Buffalo, N. Y.
- FORSYTH-DETACHABLE**—brakes, Forsyth Mfg. Co., 308-314 Terrace, Buffalo, N. Y.
- FORT DOUGLASS XXX SPECIAL & FORT PUTNAM**—oils, Dearborn Drug & Chemical Works, Chicago, Ill.
- FORT HILL**—bearing bronze, Fort Hill Bronze Mfg. Co., 48-56 Waters Ave., West Everett, Mass.
- FORTIN UNIVERSAL**—jigs, B. P. Fortin Tool Co., 73 Oakland Terrace, Woonsocket, R. I.
- FOSTER**—shock absorbers, Gabriel Horn Mfg. Co., 1407 E. 40th St., Cleveland, Ohio.
- FOSTER**—steering devices for trucks, The Columbus Screw & Machine Co., 244 Kaiser St., Columbus, Ohio.
- ***FOUCH**—disc wheels, Fouch Disc Wheel Co., Room 11, Tribune Bldg., Minneapolis, Minn.
- 4-ALL**—hand soap, Dr. H. Howard Levy, Inc., 44 W. 34th St., N. Y. City.
- ***FOURFORONE**—spark plugs, Fourforone Spark Plug Co., 23 E. Lake St., Chicago, Ill.
- THE 400**—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
- 408 MOTOR**—babbitt metal, Mogul Metal Co., 149-151 Larned St., Detroit, Mich.

FOWLER—lamp lighters, Fowler Lamp & Mfg. Co., 2337 Wabash Ave., Chicago, Ill.
FOWLER, MANSON & SHERMAN—bicycles, Fowler-Manson-Sherman Cycle Mfg. Co., 900-910 W. Lake St., Chicago, Ill.
FOX—marine gasoline engines, Dean Mfg. Co., South Cincinnati, Newport, Ky.
FOY—electric rear light & number holder, Jordan Equipment Co., Beverly, Mass.
FRANCO-AMERICAN—metal polish, Chanavaz & Son, 920 Eighth Ave., N. Y. City.
FRANKLIN—die castings & bushings, H. H. Franklin Mfg. Co., 402 S. Geddes St., Syracuse, N. Y.
FRANKLIN—oils, greases & soaps, Crescent Oil & Grease Co., Cleveland, Ohio.
***FRASER**—marine gasoline motors, Fraser Machine & Mfg. Co., 70 Freeport St., Boston, Mass.
FREEMAN—steel third seats & folding steel chairs, The Geo. B. Freeman Mfg. Co., 1415 Racine St., Racine Junction, Wis.
***FREEPORT**—stationary gas & gasoline engines, Stover Engine Works, Freeport, Ill.
FRELASTIC—varnishes, Cleveland Varnish Co., 3111 E. 87th St., Cleveland, Ohio.
FRENCH—oils & metal polishes, Marshall Oil Co., Marshalltown, Ia.
FRENCH COMPRESSION FLUIDE—cylinder cleaning compounds, French Compression Fluide Co., 62 S. Fair Oaks Ave., Pasadena, Cal.
FRICITION—wind shields, Newark Rivet Works, 262 Lafayette St., Newark, N. J.
FRITIONLESS—white brass bearing metal, Frictionless Metal Co., Chattanooga, Tenn.
FRIDAY'S—dashboard mirrors, W. F. Eckstein, 1223 Michigan Ave., Chicago, Ill.
FRISBIE—gasoline marine motors & stationary engines, The Frisbie-Heft Motor Co., Middletown, Conn.
FRISBIE-HEFT—gasoline auto engines, The Frisbie-Heft Motor Co., Middletown, Conn.
FRITCHIE—storage batteries, The Fritchle Automobile & Battery Co., 1449-55 Clarkson St., Denver, Colo.
FROST KING—stationary engines, The John Lauson Mfg. Co., New Holstein, Wis.
FROST QUEEN—paste to prevent wind shield glass from becoming clouded, H. F. Schipper, Hamilton, Ohio.
FRY—spark plugs, Standard Sales Co., 123 W. 68th St., N. Y. City.
FULERUM—side chain connectors, The Cas-sady-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
THE FULLER—trunk racks, trunks, lunch & picnic cases, The G. W. Fuller & Co., 182 Asylum St., Hartford, Conn.
FULMINA—magnetos, imported by J. H. Lehman Mfg. Co., 500 Fifth Ave., N. Y. City.
FULL TONE—motor boat whistles, American Marine Lamp Mfg. Co., 261 Pearl St., N. Y. City.
FULTON—gasoline marine motors, Fulton Engine Co., Erie, Pa.
***FULTON**—sensitive tapping machines, Fulton Foundry & Machine Co., 21 Furman St., Brooklyn, N. Y.
***FURNITURE-BRITE**—wood polish, Leader Mfg. Co., 1808 Chestnut St., St. Louis, Mo.
FUTTERMAN WELDING OUTFITS—welding equipment, New York Coach & Auto Lamp Co., 794-98 Tenth Ave., N. Y. City.
FYBEROID—insulating paper, Wilmington Fibre Specialty Co., Wilmington, Del.
FYRICIDE—fire extinguishers, Fyricide Mfg. Co., 34 Murray St., N. Y. City.

G. E.—elec. automobile motors, controllers, elec. auto lamps, battery charging outfits, mercury arc rectifiers, elec. buffers & grinders, magnetos, electric breast drills, current transformers, generator sets & rheostats, Ignition cable, switches, air compressors & measuring gauges, General Electric Co., Schenectady, N. Y.
G. H. B. CO.—steel & brass balls, Grant-Hoover Ball Co., Merchantville, N. J.
G & J—tires, grips, spring bumpers, rims, patches, tape, sheet rubber, sleeves, auto tire cases, cements, valve bases, gas bags & tire repair tools, G & J Tire Co., Indianapolis, Ind.
G & K—tire sleeves, Graton & Knight Mfg. Co., 94-104 Bloomingdale Road, Worcester, Mass.
G-I—economizers, The Carburation Co., 825-29 Long Ave., N. W., Cleveland, O.
G. & M.—radiators, imported by Henry Du-casse & Co., 735 7th Ave., N. Y. City.
G. O.—tire cases, Gates-Osborne Mfg. Co., Marshalltown, Iowa.
G-P—tire pumps, power & storage pumps, air compressors, pressure gauges, oil & grease injectors, tire pressure registers, auto whistles, valves & storage tanks, Gleason-Peters Air Pump Co., 255-261 Classon Ave., Brooklyn, N. Y.
G & S—auto trunks, L. Goldsmith & Son, Cherry & Canal Sts., Newark, N. J.
G W.—metal polish & auto body soap, Great Western Oil Co., 2855 E. 37th St., Cleveland, O.
GABRIEL—exhaust horns, shock absorbers & cut-out valves, Gabriel Horn Mfg. Co., 1407 E. 40th St., Cleveland, O.
GADE—stationary gas & gasoline engines, Gade Bros. Mfg. Co., Iowa Falls, Iowa.
GALVIN—carburetors & wind shields, Detroit Steering Wheel & Wind Shield Co., 274-288 Wight St., Detroit, Mich.
GAMBURGER BIMSSTEIN—composition pumice stones, R. E. Rodriguez, 56-58 Warren St., N. Y. City.
GANDY—belting, belt dressing & brake bands, The Gandy Belting Co., 728-40 W. Pratt St., Baltimore, Md.
GARDINER'S ANTI-RUST PAINT—rust pre-venters, George N. Gardiner & Son, 15 William St., N. Y. City.
GARDNER—artificial lumber, Gardner Artificial Lumber Co., 115 Broadway, N. Y. City.
GARDNER—engine starters & truss for "Ford" rear axles, Gardner Engine Starter Co., 1451-55 Michigan Ave., Chicago, Ill.
GARDNER—garage tire pumps, The Gardner Governor Co., Quincy, Ill.
GARDNER—stationary engines, The Gardner Motor Co., 5143 Delmar Blvd., St. Louis, Mo.
GARDNER'S IMPROVED—disc grinders, Gardner Machine Co., Beloit, Wis.
***GARGOYLE**—automobile Oil, The Vacuum Oil Co., Rochester, N. Y.
GARLAND—polishing & buffing machines, The Sibley-Houffley Machine Co., 180 Brush St., Detroit, Mich.
GARLOCK—packing & gaskets, Garlock Packing Co., Palmyra, N. Y.
GARNET—wiping rags, Continental Waste Co., 22 Clayton St., Boston, Mass.
GARVIN—machinery, Garvin Machine Co., Spring & Varrick Sts., N. Y. City.
GAS-TITE—copper asbestos gaskets, Good-win & Kintz Co., Winsted, Conn.
***GAVELEK**—carburetors, Lustre Chemical Co., 1303 Michigan Ave., Chicago, Ill.
GAY'S—screw drivers, Geo. E. Gay, Augusta, Me.
GEIER—presses & boring tool holders, The P. A. Geier Co., 5112 St. Clair Ave., Cleveland, Ohio.
GEISZLER—propulsion & Ignition battery, Geiszler Bros. Storage Battery Co., 514 & 516 W. 57th St., N. Y. City.
GEM—acetylene gas generators, Gem Brass & Mfg. Co., 119-21 E. Walnut St., Des Moines, Iowa.

G

G & A—carburetors, A. J. Myers, 244 W. 49th St., N. Y. City.

- *GEM—collapsible cooker, Outdoor Cooker Co., 17 Cutler Bldg., Rochester, N. Y.
- GEM—grease cups, The Lunkenheimer Co., Cincinnati, O.
- GEM—lamp lighters, (electric), Electric Goods Mfg. Co., Canton, Mass.
- GEM—leather belting, Jewell Belting Co., 53 Trumbull St., Hartford, Conn.
- *GEM—oil cans, lathe torches, breast drills, portable drills, grinders, polishing machines, foundry chaplets, Gem. Mfg. Co., Pittsburg, Pa.
- GEM—stationary gas & gasoline engines, Capital Gas Engine Co., West 21st St. & the Belt Railway, Indianapolis, Ind.
- GEM—stationary gasoline engines, Elbridge Engine Co., Culver Road, Rochester, N. Y.
- GEM—strainers, Generator Valve Co., 294-296 Taaffe Place, Brooklyn, N. Y.
- GEM—tool grinders & oil stones, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.
- GEMMER—steering devices, Gemmer Mfg. Co., 741-747 Merrick Ave., Detroit, Mich.
- *GENCO—spark plugs, voltmeters, ammeters, vehicle batteries, battery connections, ignition cable, electric lamps, Gen Electrical Mfg. Co., 180 E. Lake St., Chicago, Ill.
- GENDRON—bicycles, Gendron Wheel Co., Toledo, Ohio.
- *GENESEE—detachable auto tires, Thos. D. Buick Co., Flint, Mich.
- GENUINE—bearing metal, Merchant & Evans Co., 517 Arch St., Phila., Pa.
- GENUINE BARNES—pipe cutters, The Barnes Tool Co., New Haven, Conn.
- GEOMETRIC—adjustable collapsing taps, screw cutting die heads, milling tools, tap holders, reamers, special tools, screw machine products, Geometric Tool Co., Blake & Valley Sts., New Haven, Conn.
- *GEYER—boat propellers, Marine Hardware Co., Peabody, Mass.
- GEYSER—gasoline & oil storage outfits & gasoline storage tanks, Geyser Oil Tank Co., Wayne & Clinton Sts., Fort Wayne, Ind.
- GIANT—key seaters, boring mills, band saw scarfers, keyseat milling machines, Mitts & Merrell, Saginaw, Mich.
- GIANT—indicator throttle valves, Wm. Powell Co., 2521-2531 Spring Grove Ave., Cincinnati, O.
- GIANT—universal joints, Vanderbeek Tool Works, 622 Capitol Ave., Hartford, Conn.
- GIANT—wrenches, Keystone Mfg. Co., 41-51 Chandler St., Buffalo, N. Y.
- GIBNEY—automobile tires, J. L. Gibney & Bro., 215-17 N. Broad St., Phila., Pa.
- GIES—reverse gears, Gies Gear Co., 45 E. Fort St., Detroit, Mich.
- GILBERT—tire sleeves, fan & oiler belts, straps, auto tire cases, auto covers, auto lamp covers, steering knuckle boots, tool kits, tire irons, extra tire holders & locks, spark plug cases, starting handle covers, robe rail bags, etc., Gilbert Mfg. Co., New Haven, Conn.
- GIL-BO—lamp adapters, Metal Specitlies Mfg. Co., 427-441 Randolph St., Chicago, Ill.
- GILL—crank shafts, P. H. Gill & Sons Forge & Machine Works, Lorraine & Otsego Sts., Brooklyn, N. Y.
- GILLIAM'S—top dust hoods & radiator & engine covers, The Gilliam Mfg. Co., Canton, O.
- GILMER—sanders & fan belts, L. H. Gilmer Co., 52 N. 7th St., Phila., Pa.
- *GILSON—gasoline auto engines, Gilson Mfg. Co., Port Washington, Wis.
- GILT EDGE—belting, I. B. Williams & Sons, Dover, N. H.
- GILT EDGE—metal polish, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
- GIROD—electric furnaces & electric steel, C. W. Leavitt & Co., Cortlandt Bldg., 30 Church St., N. Y. City.
- GISHOLT—turret lathes, tool grinders & boring mills, Gisholt Machine Co., 1330 Washington Ave., Madison, Wis.
- GLADIATOR—sheet asbestos, gaskets, packing, boiler coverings & pipe coverings, New Jersey Asbestos Co., Camden, N. J.
- GLITTERSHINE—metal polish, Grady Mfg. Co., 509 W. 30th St., N. Y. City.
- GLOBE—battery cases, tool boxes, tumbling barrels, brass handles, robe rails & foot rests, The Globe Machine & Stamping Co., 3950 Hamilton Ave., N. E., Cleveland, O.
- GLOBE—bearing metals and ingots, Damascus Bronze Co., Pittsburg, Pa.
- *GLOBE—brazing & soldering torches, Globe Brass Works, 15-17 Macomb St., Detroit, Mich.
- GLOBE—electric auto lamps, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- GLOBE—garage tire pumps, Globe Mfg. Co., Battle Creek, Mich.
- *GLOBE—gasoline marine motors, Pennsylvania Iron Works, Eddystone, Pa.
- GLOBE—goggles, Globe Optical Co., 403 Washington St., Boston, Mass.
- GLOBE—manganese bronze & brass & bronze compositions, Globe Metal Co., 401 W. Ontario St., Chicago, Ill.
- GLOBE—metal polishes, Ralmes & Co., 50 Ferry St., N. Y. City.
- GLOBE—power hack saws, West Haven Mfg. Co., 22 Elm St., New Haven, Conn.
- GLOBE—rubber hose & belting, United & Globe Rubber Mfg. Co., Trenton, N. J.
- GLOBE—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- GLOBE—tool sharpeners, O. S. Walker & Co., 25 Union St., Worcester, Mass.
- GLOBE BLACK—packing, United & Globe Rubber Mfg. Co., Trenton, N. J.
- GLOSSERENE—wood polish, A. J. Mooney, 359-63 Ninth Ave., N. Y. City.
- GLOVEFIT—tire covers, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.
- *GOES LIKE SIXTY—gasoline stationary engines, Gilson Mfg. Co., Port Washington, Wis.
- GOETTLER—caps with goggles combined, M. Goettler Hat Co., 1260 S. Broadway, St. Louis, Mo.
- GOLD CROSS—varnish, Stewart-Mowry Co., 3214 Shields Ave., Chicago, Ill.
- GOLDEN GLITTER—metal polish, A. J. Mooney, 359-63 Ninth Ave., N. Y. City.
- GOLDEN GLOW—metal polish, Shi-Nal Co., 413 Emmet Road, Toledo, Ohio.
- GOLDEN SCEPTRE—metal polish, Rath, Chas H. Co., Inc., 1347 N. Front St., Phila., Pa.
- GOLDEN STAR—body polish, R. W. Morris Co., 17 E. Missouri Ave., Kansas City, Mo.
- GOLD METAL—cup grease, Monarch Mfg. Co., Council Bluffs, Iowa.
- GOLD METAL—files & rasps, Liveright Bros., Phila., Pa.
- GOLD METAL—fire extinguishers, Robinson Fire Apparatus Mfg. Co., 4520 N. 20th St., St. Louis, Mo.
- GOODRICH—tires (bicycle & auto), motorcycle belts & cements, B. F. Goodrich Co., Akron, Ohio.
- GOODSON—spark plugs, coils, switches, fire extinguishers, voltmeters, voltameters & tire powder, Goodson Electric & Mfg. Co., 88-94 Point St., Providence, R. I.
- *GOODWIN—under water exhaust, American Submerged Exhaust Co., 62 State St., Newburyport, Mass.
- GOODWORTH—leather tire protectors, The Republic Rubber Tire & Shoe Co., Inc., 793 10th Ave., N. Y. City.
- GOODYEAR—rims, auto & bicycle tires, & air bottle for inflating tires, Goodyear Tire & Rubber Co., Akron, Ohio.
- GOODYEAR DOOLITTLE—demountable rims, Goodyear Tire & Rubber Co., Akron, O.

- GORDON—sleeve protectors, magneto covers, crank handle holders, grease bags, auto & trunk covers, rawhide non-skid tire sleeves, radiator covers, auto robes, tire cases & trunks, tool bags & rolls, wind shields, inner tube cases, steering wheel covers, The Vehicle Apron & Hood Co., 272 N. 4th St., Columbus, O.
- GORDON—storage & dry ignition batteries, Lutz-Lockwood Mfg. Co., Aldene, N. J.
- GORDON—spark plugs, Gordon Auto Supply Co., 1024 Boylston St., Boston, Mass.
- GORDON FITSALL—lamp covers, The Vehicle Apron & Hood Co., 272 N. 4th St., Columbus, O.
- GORTON—disc grinders, Diamond Machine Co., Providence, R. I.
- GORTON—engraving machines for hub caps, label plates, etc., high speed cutting off machines for gear blanks, George Gorton Machine Co., Racine, Wis.
- GOSHEN—gasoline auto & marine motors, Goshen Motor Works, Goshen, Ind.
- *GO SUM—marine oil, Flint Oil Co., Providence, R. I.
- GOTHAM—spark plugs, The R. E. Hardy Co., 201 37th St., Brooklyn, N. Y.
- GOUL—grease cup fillers & grease guns, Tell City Foundry & Machine Works, Tell City, Ind.
- GOULD—propulsion & ignition batteries, Gould Storage Battery Co., 341 Fifth Ave., N. Y. City.
- GOULDS—air compressors & power pumps, The Gould Mfg. Co., Seneca Falls, N. Y.
- GRAB—pump connections, Motor Car Equipment Co., 55 Warren St., N. Y. City.
- GRABER—water gauges, Jenkins Bros., 71 John St., N. Y. City.
- GRACK-UNICUM—electric horn attachment & porcelain tubes, imported by Theo. H. Gary Co., 50-52 Franklin St., N. Y. City.
- GRADOMETER—grade meters, The Adams Co., Dubuque, Iowa.
- GRADY'S SCOURER—metal polish, Grady Mfg. Co., 509 W. 30th St., N. Y. City.
- GRAHAM—axles, Chicago Recording Scale Co., Waukegan, Ill.
- GRAHAM—differential gears, Geo. H. Graham, 740 Monadnock Bldg., Chicago, Ill.
- GRAHAM'S—chucks, Detroit Twist Drill Co., 634-46 Fort St., W. Detroit, Mich.
- GRA KNIGHT—water-proof belting, Graton & Knight Mfg. Co., 94-104 Bloomingdale Road, Worcester, Mass.
- GRANT—rivet spinning machines, tapping machines, bench screw slotters, & tool post grinders, The Grant Mfg. & Machine Co., 90 Silliman Ave., Bridgeport, Conn.
- *GRANT-FERRIS—gasoline marine motor, Grant-Ferris Co., Troy, N. Y.
- GRAPHITOLEO—graphite, Jos. Dixon Crucible Co., Jersey City, N. J.
- GRAPHLIO—graphite & grease, Walter D. Carpenter Co., 39 Cortlandt St., New York City, N. Y.
- GRASELLI—battery acid, Grasselli Chemical Co., Cleveland, Ohio.
- GRASSER—gasoline marine motors, Grasser Motor Co., 104 Ottawa St., Toledo, Ohio.
- GRAY & DAVIS—oil automobile lamps, Gray & Davis, Amesbury, Mass.
- GRAY—auto & marine exhaust muffler cut-outs, Gray-Hawley Mfg. Co., 605-609 Fort St., W., Detroit, Mich.
- GRAY—motors, Gray Motor Co., Leib & Larned Sts., Detroit, Mich.
- GRAY'S—tire pumps, valve grinding compounds, rubber bumpers, gas bags, lamp connections, tire lugs, vulcanizing solution, cements & bow separators, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S BLANCO—tire sleeves, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S EVERWEAR—tire sleeves & grips, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S E-Z-RIDE—handle bar grips, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S FILL GUM—tire repair talc, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S FURNO-LAC—wood polish, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S INSERT—inner tire sleeves, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S MAGIC CARBO-SOL—carbon remover, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S RESISTO—tire sleeves, Standard Leather Washer Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S ROYAL—tire talc, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S SQUEEZE-IT—device for vulcanizing, Standard Leather Washer Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S VELVET—friction leather for brakes & shoes, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GRAY'S WATERPROOF—tire sleeves, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- GREASJAMMER—lubricant injectors, Motor Car Supply Co., 1451-1455 Michigan Ave., Chicago, Ill.
- GREAT ARROW—oil & grease, A. Geoghan & Son, Inc., 207 Newell St., Brooklyn, N. Y.
- *GREAT SCOTT—carburetors, Scott & Sons Co., Fulton & Valley Sts., Medford, Mass.
- GREAT WESTERN—files & rasps, Nicholson File Co., Providence, R. I.
- GREENERD—arbor presses, Edwin E. Bartlett, 326 A St., Boston, Mass.
- GREENFIELD—reamer, cutter & tool grinders, Greenfield Machine Co., 29 Mill St., Greenfield, Mass.
- GREENLEE—woodworking machinery, planers & power hack saws, Greenlee Bros. & Co., Rockford, Ill.
- GREEN OIL—automobile soap, cutting compound & hand cleaning compounds, Monahan Antiseptic Co., 100 Market St., Chicago, Ill.
- GREENPORT—gasoline marine motors, J. S. Gaffga & Co., Greenport, N. Y.
- GREEN RIVER—bolt & nut machinery, drills, pipe cutting & threading machines, reamers, screw plates & taps & dies, Wiley & Russell Mfg. Co., Greenfield, Mass.
- GREOIL—grease, Wm. C. Robinson & Son Co., 336-342 North St., Baltimore, Md.
- GRE-SOLVENT—hand cleaner, The Utility Co., 636-638 W. 44th St., New York City.
- GREYHOUND—motorcycle parts, Greyhound Motor Works, 1443 Niagara St., Buffalo, N. Y.
- GRIFFIN—steam vulcanizers, Motor Tire Repair & Supply Co., 5918 Baum St., Pittsburgh, Pa.
- *GRILLER—carburetors, W. H. O'Brien Co., 115 Dearborn St., Chicago, Ill.
- GRIMSHAW—insulating tapes, New York Insulated Wire Co., 114 Liberty St., Boston, Mass.
- GRINAWAY—radiator ornaments, Grinaway Statuary Co., 15 & 17 W. 18th St., N. Y. City.
- GRINNELL RIST-FIT—automobile gloves & mittens, Morrison-Ricker Mfg. Co., Grinnell, Ia.
- GRINNELL VENTILATED—gloves, Morrison-Ricker Mfg. Co., Grinnell, Ia.
- GRIP NUTS—lock nuts, Grip Nut Co., 1590 Old Colony Bldg., Chicago.
- GRIPSHANK—screw drivers, Bridgeport Hardware Mfg. Corp., Bridgeport, Conn.
- GRIP SHANK—upholstery buttons, Tockwotton Co., 79 S. Main St., Providence, R. I.
- GRONKVIST—automatic high speed chucks, Gronkvist Drill Chuck Co., 18-20 Morris St., Jersey City, N. J.

GRUVA—emery wheel dressers, Challenge Machine Co., Phila., Pa.
 GUARDIAN—oil cups, H. B. Sherman Mfg. Co., 12 Barney St., Battle Creek, Mich.
 *GUERIN—wind shields, The Guerin Mfg. Co., Mansfield, Ohio.
 *GUMELASTIC—tire repair articles, The Gumelast Tire Co., 920-922 Bolivar Rd., Cleveland, O.
 GUIDE—electric auto lamps & motor boat lamps, gauge lamps, lamp fittings & electric dome lights, Guide Motor Lamp Mfg. Co., 2069 E. Fourth St., Cleveland, O.
 GYREX—mixers, Gyrex Mfg. Co., 1777 Broadway, N. Y. City.

H

HB—ball bearings, Hess-Bright Mfg. Co., 2102 Fairmount Ave., Phila., Pa.
 HB—brake pedals & mufflers, The H. Brothers, 207 W. 43rd Court, Chicago, Ill.
 H. B.—chisels, fullers, swages & pliers, & H. B. EAGLE—hammers, Vaughan & Bushnell Mfg. Co., Chicago, Ill.
 H. & B.—hand hammers, Humason & Beckley Mfg. Co., New Britain, Conn.
 H-C—magnetos, ignition batteries, dry, The Holtzer-Cabot Electric Co., Boston, Mass.
 H & C—lockers, Hart & Cooley Co., New Britain, Conn.
 H. & C.—tire inflators, H. & C. Tire Inflator Co., 22 N. Canal St., Dayton, O.
 H. & CO.—taps & dies, Holroyd & Co., Watford, N. Y.
 H. F.—gasoline automobile engines, The Hariman Motor Works, South Glastonbury, Conn.
 H. & H.—hobbitt metal, Fahrig Metal Co., 316-322 Hudson St., New York City.
 H. & H.—tire tools, L. L. Heller, Water St., Binghamton, N. Y.
 H. H.—fuel strainers, Harry H. Reynolds, 1205 Monadnock Block, Chicago, Ill.
 H-P—body springs, Hess-Pontiac Spring & Axle Co., Pontiac, Mich.
 H. P.—spark plugs, Lovell, McConnell Mfg. Co., 365 Market St., Newark, N. J.
 H. S. & CO.—hood hinges, Hammacher, Schlemmer & Co., 13th St. & 4th Ave., N. Y. City.
 H. & V. W.—metal lacquers, metal polish & dynamos, Hanson & Van Winkle Co., Newark, N. J.
 HAASE—gasoline marine motors, Haase Motor Works, 1017 Lloyd St., Milwaukee, Wis.
 HABIRSHAW—ignition cable, Habirshaw Wire Co., 253 Broadway, N. Y. City.
 HADES, JR.—spark plugs, Igniter Appliance Co., 302 Elec. Bldg., Cleveland, Ohio.
 HAGSTROM—auto & motorcycle blow-out patches, tire protectors & spark plugs, Hagstrom Bros. Mfg. Co., Lindsborg, Kans.
 HAHN—acetylene lamp burners, J. B. Carroll, 217 W. Illinois St., Chicago, Ill.
 HAINES—gasoline & oil storage tanks, pumps for garage use, gasoline & oil storage outfits & portable gasoline tanks, Haines Oil Measuring Pump Co., Harrisburg, Pa.
 HALCOMB—high speed steels, Halcomb Steel Co., Syracuse, N. Y.
 HALF-NELSON—tires, Half-Nelson Tire Co., 1919 Portland Ave., Minneapolis, Minn.
 HALL—axe handle fasteners, Massachusetts Machine Shop, Inc., 98 Beacon St., Worcester, Mass.
 HALL—carburetors, Chas. E. Hall Co., 106 Broadway, Buffalo, N. Y.
 *HALL—gasoline auto & marine engines & stationary engines, Hall Gas Engine Co., Bylesville, Ohio.
 HALL—gasoline marine motors, Hall Gas Engine Mfg. Co., 430 S. Park Ave., Waukegan, Ill.
 HALLADAY—carburetors, The Fowler Brass Works, Inc., 2333-35 Wabash Ave., Chicago, Ill.
 HALLETT'S COLUMBIAN—wood polish, United Supply Agency, 912 Westminster St., Providence, R. I.
 HAMILTON—carburetors, Gem Brass & Mfg. Co., 119-21 E. Walnut St., Des Moines, Iowa.
 HAM'S GENUINE—oil automobile lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
 HAMILTON—saws, grinders, lathes, shapers, tenoners, planers, etc., The Bentel & Margedant Co., Hamilton, O.
 HANCOCK—lubricators, oils & grease injectors, tire pumps, gasoline strainers, Hancock Mfg. Co., 776 E. Henry St., Charlotte, Mich.
 THE HANDIEST TOOL IN THE SHOP—portable floor crane & hoist, Canton Foundry & Machine Co., 8th & Saxton Sts., Canton, Ohio.
 HANDY—acetylene gas generators, R. E. Dietz Co., 60 Lighthouse St., N. Y. City.
 HANDY—automobile jacks, Osborne Pole & Shaft Co., Anderson, Ind.
 HANDY—battery connections & spark plugs, Chicago Electric Mfg. Co., 523-29 Van Buren St., Chicago, Ill.
 HANDY-BAR—belt dressing, Crescent Belt Fastener Co., 143 E. 23rd St., N. Y. City.
 HANDY—hand auto tire pumps, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
 HANDY—hand soap & gasoline, New York Oil & Paint Co., 128 Maiden Lane, N. Y. City.
 HANDY—valves, The Lunkenheimer Co., Cincinnati, O.
 HANDY—oil cups, Bay State Stamping Co., 380 Chandler St., Worcester, Mass.
 HANDY—vises, Vanderbeek Tool Works, 622 Capitol Ave., Hartford, Conn.
 HANKSCRAFT—gasoline motor boats & steering wheels, Hanksraft Co., 1220 Michigan Ave., Chicago, Ill.
 HANS—fuel level indicators, National Gauge & Register Co., Minneapolis, Minn.
 HANSEN—gauntlets, O. C. Hansen Mfg. Co., 352 E. Water St., Milwaukee, Wis.
 HAPPY HIT—carburetors, The Zenith Motor Goods Co., 1841 Euclid Ave., Cleveland, Ohio.
 HARGRAVES—gasket & washer cutters & countersinks, Cincinnati Tool Co., Norwood, Ohio.
 HARLOW—auto & boat tops & cushions, Willard Harlow Mfg. Co., Janesville, Wis.
 HARP—aluminum castings, brake pedals, brass & bronze castings, composition castings, foot rests, grease guns, handles, chimes, auto lamp brackets, auto mountings, auto clutch pedals, robe rails & tire holders, Theo. Harper, 139-145 Lafayette St., N. Y. City.
 HARRIS—automobile oils, greases & metal polish, A. W. Harris Oil Co., 326-328 S. Water St., Providence, R. I.
 HARRIS AUTOIL—oil, Harris Oil Co., Muncie, Ind.
 HARRIS—automobile tires, Harris Tire & Rubber Co., Broad & Race Sts., Phila., Pa.
 HARRIS—carburetors & gasoline marine motors, Delaware Machine Works, Wilmington, Del.
 HARROUN—bumpers (to protect front of car), The Turner Brass Works, Sycamore, Ill.
 HART—emery wheels & grinders, Detroit Emery Wheel Co., Detroit, Mich.
 HART—lamp lighters, Hart & Fuller, 9 South St., Hartford, Conn.
 HART—lubricators & oil pumps, Sherwood Mfg. Co., 1702-12 Elmwood Ave., Buffalo, N. Y.
 HARTFORD—cycle & motorcycle tires, hood anti-rattlers, rubbers spring bumpers, Hartford Rubber Works, 691 Park St., Hartford, Conn.
 HARTFORD—bicycles, The Pope Mfg. Co., Hartford, Conn.
 HARTFORD—filing machines, Robinson Tool Works, Waterbury, Conn.
 HARTFORD—gasoline marine motors, The Gray & Prior Machine Co., 90 Suffield St., Hartford, Conn.

- HARTFORD—leather belting, Jewell Belting Co., 53 Trumbull St., Hartford, Conn.
- HARTFORD—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
- HARTFORD—screw machines, screw machine products, nuts & bolts, ball cups & cones, The Hartford Machine Screw Co., Hartford, Conn.
- *HARTFORD—time switches for charging apparatus, Hartford Time Switch Co., 97 Warren St., N. Y. City.
- HARTFORD—under-water exhausts, B. A. Sellew, 756 Main St., Hartford, Conn.
- HARTFORD—universal joints, Hartford Automobile Parts Co., 80 Huyshope Ave., Hartford, Conn.
- HARTFORD—wind shields, The S. M. Supplies Co., 22-24 Lincoln St., Boston, Mass.
- HARTFORD-VINET—removable rims, The Hartford-Vinet Co., 150 Bay St., Jersey City, N. J.
- HARTMAN—boat propellers & reversing gears for motor boats, McFarland Foundry & Machine Co., Inc., Trenton, N. J.
- HARTMANN—aluminum-solder, The Hartmann Co., 134 W. 49th St., N. Y. City.
- HARTNESS—automatic dies, Jones & Lamson Machine Co., Springfield, Vt.
- HARVARD—vehicle & ignition batteries, American Storage Battery Co., 8 Congress St., Boston, Mass.
- *HARVEY—spark plugs, The Harvey Auto Supply Mfg. Co., 320 Society for Savings Bldg., Cleveland, O.
- HARWOOD—terminals, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
- HASLUP—jacks, Haslup Motor Jack Co., Sidney, O.
- HATT—wood polish & varnish removers, Century Novelty Co., 241 Jefferson Ave., Detroit, Mich.
- HAVOLINE—automobile oil, Havoline Oil Co., 80 Broad St., N. Y. City.
- HAWES—storm aprons, auto tops & chain boots, Hawes Storm Front Co., 25 N. Hancock St., Coldwater, Mich.
- HAWKEYE—auto baskets, trunks & refrigerator baskets & buckets with lunch equipment, Burlington Basket Co., Burlington, Ia.
- HAWKEYE—wrenches, Hawkeye Wrench Co., Marshalltown, Iowa.
- HAW-MAN-CO—horns, pumps, radiators, carburetors & mufflers, Hawthorne Mfg. Co., Howard Ave. & Spruce St., Bridgeport, Conn.
- HAWTHORN—ignition batteries, annunciators, ignition cable & dynamos, magnetos, solder, grinders & electric motors for driving machinery, The Western Electric Co., N. Y. City.
- HAY-BUDDEN—anvils, Hay-Budden Mfg. Co., 254 N. Henry St., Brooklyn, N. Y.
- HAYDEN—wrenches & forgings, The Belden Machine Co., Whalley Ave. & Tyron St., New Haven, Conn.
- HAYDENVILLE—cocks, The Haydenville Co., Haydenville, Mass.
- HAZARD—gasoline auto motors, Hazard Engineering Co., Maple & Scherer Sts. & N. Y. C. R. R., Rochester, N. Y.
- HAZEN—tire cements, Hazen-Brown Co., 100 South St., Boston, Mass.
- HEALD—piston rings, cylinder & internal grinders, Heald Machine Co., Worcester, Mass.
- HEALD—salve for chapped hands, The Erlcka Mfg. Co., Inc., 872-888 Liberty St., Springfield, Mass.
- HEALY—removable rims, Healy Leather Tire Co., Healy Bldg., N. Y. City.
- HEANEY'S—metal polish, auto body soaps, hand soaps & tan belts, Heaney Mfg. Co., 164 State St., Boston, Mass.
- HEART—water proof belting, Graton & Knight Mfg. Co., 94-104 Bloomingdale Road, Worcester, Mass.
- HEATH—auto wheels, Shortsville Wheel Co., Shortsville, N. Y.
- *HEATH'S CHALLENGE—motorcycle belts, S. F. Heath & Co., 288 Columbus Ave., Boston, Mass.
- HECLA—anti-friction bronze, Thomas Paulson & Son, 13 Fulton St., Brooklyn, N. Y.
- *HEIM—gasoline marine motors & motor boats, Heim Boat Co., 289 3rd St., Milwaukee, Wis.
- HEINEL—gasoline marine motors, Jones & Schumacher, 1100 West St., Wilmington, Del.
- HEINZE—sparkling coils, magnetos & timers, Heinze Electric Co., Lowell, Mass.
- HEITGER—carburetors, Heitger Carburetor Co., 205½-207½ W. South St., Indianapolis, Ind.
- HELA—auto lamp burners, American Lava Co., Chattanooga, Tenn.
- HELE-SHAW—clutches, Merchant & Evans Co., 517 Arch St., Phila., Pa.
- HELIOS—ignition & vehicle batteries, charging resistances & electric lamps, Helios Mfg. Co., Bridesburg, Pa.
- HELIOS—packing, Crandall Packing Co., Palmyra, N. Y.
- HELLER'S—files & rasps, steels & hand hammers, Heller Bros., 865 Mt. Prospect Ave., Newark, N. J.
- HELMET—automobile oils, grease & rust preventives, Chas. H. Besley & Co., 15-21 S. Clinton St., Chicago, Ill.
- HELMET TEMPER—taps, Chas. H. Besley & Co., 15-21 S. Clinton St., Chicago, Ill.
- HELVA-HARD-HITTER—power hammers, Novelty Iron Works, Dubuque, Iowa.
- HELWIG—pneumatic tools, drills, grinders & hammers, Helwig Mfg. Co., St. Paul, Minn.
- HELWIG—spark plugs, The Helwig-Lipsinski Co., 747 18th St., Detroit, Mich.
- HENDERSHOT—couplings, Manning, Maxwell & Moore, Inc., N. Y. City.
- HENDY—centering machines, Hendy Machine Co., Torrington, Conn.
- HENRY—anti-skid devices, The Steering Wheel Co., Sidney, Ohio.
- HEPCO—paints & enamels, imported by Holland Enamel & Paint Co., 142 Fulton St., N. Y. City.
- HERAEUS—resistance thermometers, electrical furnaces & fused quartz glass articles & silica ware, imported by Chas. Englehard, 32 Cortlandt St., N. Y. City.
- HERAEUS LE CHATELIER—pyrometers, imported by Chas. Englehard, 32 Cortlandt St., N. Y. City.
- HERBERT—gasoline auto & marine motors, Herbert Mfg. Co., Inc., Nazareth, Pa.
- HERCULES—belting, Thermoid Rubber Co., Trenton, N. J.
- HERCULES—carburetor floats & castings, Hercules Float Works, 200 Franklin St., Springfield, Mass.
- HERCULES—cranes & hoists, William S. Nicholls, 253 Broadway, N. Y. City.
- *HERCULES—gasoline marine motors, Hercules Gas Engine Works, 349-351 Market St., San Francisco, Cal.
- HERCULES—ignition batteries, Chicago Wind Shield Co., 235 Johnson St., Chicago, Ill.
- HERCULES—leather tire protectors & automobile tires, The Republic Rubber Tire & Shoe Co., 798 10th Ave., N. Y. City.
- HERCULES—nippers, Bridgeport Hardware Mfg. Corp., Bridgeport, Conn.
- *HERCULES—pocket chair, Cherington Mfg. Co., Waukegan, Ill.
- HERCULES—screw drivers, John Stortz & Son, 210 Vine St., Phila., Pa.
- *HERCULES—shock absorbers, Hercules Auto Specialty Mfg. Co., 115 Dearborn St., Chicago, Ill.
- HERCULES—steel spring wire, C. Newman Wire Co., 143 Liberty St., N. Y. City.
- HERCULES—taps, reamers, counterbores, tire valve tools & bolt threading machines, E. F. Reece Co., Greenfield, Mass.
- HERCULES—valve lifting tools, Rothstein Mfg. Co., 1941-55 Park Ave., N. Y. City.
- HERMETIC—tire lugs, imported by Cryder & Co., 533 Park Ave., N. Y. City.
- HERO—storage ignition batteries, Ampvo Battery Co., 1607 Michigan Ave., Chicago, Ill.

- HERSHEY—curtain hooks, Hershey Hook Co., Lincoln, Neb.
- HERZ—distributors, timers, terminals, tire inflators, battery connections & ignition cable, Herz & Co., 203-205 Lafayette St., N. Y. City.
- HESS—auto axles & body springs, Hess Spring & Axle Co., Carthage, O.
- HESS-BRIGHT—magnetos, Hess-Bright Mfg. Co., 2102 Fairmount Ave., Phila., Pa.
- HETTINGER—gasoline auto engines, Hettinger Engine Co., Bridgeton, N. J.
- HEXAGON—iron & steel, Lockhart Iron & Steel Co., Pittsburg, Pa.
- HICKLEY—alternating current rectifiers, Como Electrical Co., Spring Lake, N. J.
- HICKORY NUT—auto rims, wheels, spokes, billets & rim strips, Crane & MacMahon, 8-10 Bridge St., N. Y. City.
- HI-FRE-CO.—spark plugs, High Frequency Ignition Coil Co., 126 E. 9th St., Los Angeles, Cal.
- HIGGIN—curtain fasteners, Higgin Mfg. Co., Newport, Ky.
- HIGH DUTY—balls, steel, brass & bronze, Standard Roller Bearing Co., cor. 50th & Lancaster Ave., Phila., Pa.
- HIGH DUTY—lubricators, The Biddison Mfg. Co., 1516 Williamson St., Madison, Wis.
- HIGH DUTY—shapers, Gould & Eberhardt, 99 N. J. R. R. Ave., Newark, N. J.
- HIGH DUTY—spark plugs, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- HIGH DUTY GERMAN—steel balls, Herman Boker & Co., 101 Duane St., New York City.
- HIGH-DUTY-METAL—valves, National Tube Co., Frick Bldg., Pittsburg, Pa.
- HIGH EFFICIENCY—storage ignition & vehicle batteries, Tray Plate Battery Co., 24 Wall St., Binghamton, N. Y.
- HIGH PRESSURE—air compressors, Thos. W. Pangborn Co., 90 West St., N. Y. City.
- *HIGH PRESSURE—brazing forges, enamels, cycle vulcanizers, enameling ovens, grease, & brazing compounds, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, Ohio.
- HIGH SPEED—nickel & vanadium steel, Colonial Steel Co., Pittsburg, Pa.
- HIGH STANDARD—paints & colors, The Lowe Bros. Co., Dayton, O.
- HIKO—commutator compound, carbon brushes & soldering sticks, Como Electrical Co., Spring Lake, N. J.
- HILAMAN—gasoline cycle motors, forks & vaporizers, A. L. Hilaman Co., Moorestown, N. J.
- *HILDRETH—gasoline marine motors, The Hildreth Mfg. Co., 49 W. Hill St., Lansing, Mich.
- HILL—auto hand tire pumps, Judd & Leland Mfg. Co., Clifton, Springs, N. Y.
- HILL—automobile bodies, cushions, tops, revolving auto & boat seats & wind shields, The Hill Mfg. Co., 25-27 Fuller St., Buffalo, N. Y.
- HILL—boring bars, lathe dogs, tool holders, drill press & lathe & planer tools, Hill Standard Mfg. Co., Anderson, Ind.
- HILL—gasoline lock valves, Janney, Steinmetz & Co., 4th & Market Sts., Phila., Pa.
- HILL—milling machine dogs, universal grinder dogs & hold back & face-plate dogs, M. B. Hill Mfg. Co., Worcester, Mass.
- HILLMAN—tire brackets, wind shields, foot rests & robe rails, Hillman Auto Supply Mfg. Co., 485 Tremont St., Boston, Mass.
- HILL PRECISION—rollers, Precision Appliance Co., 2315 Austin Ave., Chicago, Ill.
- HI-LO—grease, Manhattan Oil Co., 51 Front St., N. Y. City.
- HILLO—varnishes, Moller & Schumann Co., Marcy & Flushing Aves., Brooklyn, N. Y.
- HILTON—safety starting cranks, Hilton Mfg. Co., 15 State St., Boston, Mass.
- HINDLEY—steering gears, M. L. Bayard & Co., Woodbine, N. J.
- HINDOSTAN—oilstones, Pike Mfg. Co., Pike, N. H.
- HINE-WATT—voltmeters, ammeters, volt-ammeters and oil guns, Hine-Watt Mfg. Co., 47 E. Randolph St., Chicago, Ill.
- HI-PO—ignition batteries, Lincoln Electric Co., 1 Union Square, N. Y. City.
- HISEY—portable electric grinders & drills, Hisey-Wolf Machine Co., Cincinnati, O.
- HI-TENSION—hard rubber & hard rubber bushings, Massachusetts Chemical Co., Wapole, Mass.
- HI-UP—ignition batteries, Manhattan Electrical Supply Co., 17 Park Place, N. Y. City.
- HJORTH—wrenches, William Hjorth & Co., Jamestown, N. Y.
- HOADLEY—valve lifting tools, automatic, F. B. Hoadley, 479 Willow St., Waterbury, Conn.
- HOBBS—flexible driving shafts & engine starters, Alexander & Cox Co., Ogden & Western Aves., Chicago, Ill.
- HOBBS—patent radiator protectors, Cisler & Serson, 3111 Michigan Ave., Chicago, Ill.
- HOBIN—nut lock washer, Border Bolt & Nut Lock Co., Richmond, Ind.
- HOB0—ignition batteries, Hoosier Storage Battery Co., 212-216 E. Pennsylvania St., Evansville, Ind.
- HODGMAN—clothing & top materials, Hodgman Rubber Co., 806 Broadway, N. Y. City.
- HODGSON—portable auto houses, E. F. Hodgson Co., 116-118 Washington St., Boston, Mass.
- HOEFER—spring coiling & knotting machines, Frank L. Wells Co., Kenosha, Wis.
- HOFFECCKER—speed indicators combined with odometer, Hoffecker Co., Park Square Motor Mart, Boston, Mass.
- HOFFMAN'S—boat paints, J. W. Hoffman Co., 8 Medford St., Boston, Mass.
- HOFFMAN—steel balls, imported by R. I. V. Co., 1771 Broadway, N. Y. City.
- HOLCKER-ELBERG—wood automobile bodies, automobile tops & wind shields, Holcker-Elberg Mfg. Co., N. E. Cor. 16th & McGee Sts., Kansas City, Mo.
- HOLCOMB—tops, Holcomb Co., 105 Goffe St., New Haven, Conn.
- HOLDFAST—tire protectors, Foskett & Co., 226-28 La Salle St., Chicago, Ill.
- HOLD-TIGHT—vise, Empire Mfg. Co., 200 E. Exchange St., Akron, Ohio.
- HOLLAND—enamels, imported by Holland Enamel & Paint Co., 142 Fulton St., N. Y. City.
- HOLLANDS—vises, Hollands Mfg. Co., Erie, Pa.
- HOLLEY—carburetors, Holly Bros. Co., 661-73 Beaubien St., Detroit, Mich.
- HOLLIDAY—marine gasoline engines, stationary engines, friction pulleys & reverse gears, Holliday Engineering Co., 749 Bunker St., Chicago, Ill.
- *HOLTZ—timers, Illinois Automobile & Parts Co., Peoria, Ill.
- HOLYOKE—tire protectors, Holyoke Tire Protector Co., Holyoke, Mass.
- HOME—auto tires, inner tubes & tire repair sleeves, Home Tire Co., Trenton, N. J.
- HOMO—fuel economizers, Gasoline Motor Efficiency Co., 1 Exchange Place, Jersey City, N. J.
- HONK—radiator ornaments, Grinaway Statuary Co., 15 & 17 W. 18th St., N. Y. City.
- HOOSIER—storage batteries, Hoosier Storage Battery Co., 212-216 E. Pennsylvania St., Evansville, Ind.
- HOOSIER KNOXALL—auto body cleansing compounds, Hoosier Mfg. Co., Indianapolis, Ind.
- HOPEWELL—tire cases, rolls, vests, robes & automobile lamp covers, Hopewell Bros., 29 Chapel St., Newton, Mass.
- HOPKINS—varnish, National Varnish & Color Co., 85-91 Vesey St., Newark, N. J.
- HOPKINSON—drill vises, Hopkinson Machine Works, 23 Taylor St., Springfield, Mass.
- HORN—speed indicators, Industrial Instrument Co., Foxboro, Mass.

HORNET—belting & gaskets, Thermold Rubber Co., Trenton, N. J.
HORNET—spark coils, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
HORSESHOE—leather auto tires, Racine Auto Tire Co., Racine, Wis.
HORSESHOE—wooden wheels, Hagerstown Spoke & Bending Co., Hagerstown, Md.
HORSEY—tire repair articles, Horsey Mfg. Co., 1246 Euclid Ave., Cleveland, O.
HORTON—chucks, The E. Horton & Son Co., Windsor Locks, Conn.
HOSKINS—electric furnaces & pyrometers, Hoskins Mfg. Co., Detroit, Mich.
HOSMERS—liquid shellac, Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.
HOTCHKISS—spare parts, imported by Hotchkiss Import Co., 20 W. 60th St., N. Y. City.
HOTSHOT—magnetos, The Igniter Appliance Co., 302 Electric Bldg., Cleveland, O.
HOUGHTON'S—cutting compounds & belt dressing, E. F. Houghton & Co., 240 W. Somerset St., Phila., Pa.
HOWARD—machinists' vises, Howard Iron Works, Buffalo, N. Y.
HOWLER—whistles, auto, O. Fenstermacher, 311 S. 5th St., Minneapolis, Miss.
HOYT—bushings, Hoyt Metal Co., Merchants LaCade Bldg., St. Louis, Mo.
HOYT—carburetors, F. C. Hoyt, 141 Massachusetts Ave., Boston, Mass.
HOYT—voltmeters & ammeters, Hoyt Electrical Instrument Works, Penacook, N. H.
HOYT'S—gas engine babbitt & HOYT'S NICKEL GENUINE—bearing metal, Hoyt Metal Co., Merchants LaCade Bldg., St. Louis, Mo.
HOYT-TRIUNE—voltammeters, Hoyt Electrical Instrument Works, Penacook, N. H.
HUB—bearing metal, The "Hub" Foundry & Plating Co., Ossining, N. Y.
HUBBARD'S & HUBBARD'S PAMEACHA—case hardening bone, The Rogers & Hubbard Co., Middletown, Conn.
HUBBELL—riveting & tapping machines, slotters, screws & lamp guards, Harvey Hubbell, Inc., Bridgeport, Conn.
***HUB**—grease & oil guns, Hub Auto Supply Co., Middletown, Conn.
HUBLER-DAYTON—storage batteries, Dayton Electrical Mfg. Co., 89 St. Claire St., Dayton, Ohio.
HUDSON—bicycles, Miami Cycle & Mfg. Co., Grand Ave., Middletown, Ohio.
HUDSON BRAND—asphalt felt, Asphalt Ready Roofing Co., 136 Water St., N. Y. City.
HUDSON'S EXTRA—leather belting, Hudson Belting Co., 1-3 Eaton Pl., Worcester, Mass.
HUDSON-FULTON—ignition storage batteries, The Storage Battery Supply Co., 239 E. 27th St., N. Y. City.
HUFF—automobile houses, E. Huff, Jr., 51 Union St., Portland, Me.
***HUHN**—self-lubricating rings, American Huhn Metallic Packing Co., 1876 Broadway, N. Y. City.
HUMMING BIRD—gasoline marine motors, Alexander & Cox Co., Ogden & Western Aves., Chicago, Ill.
***HUMPHREY**—tire protectors, J. Humphreys, 1021 N. E. Payne Ave., Cleveland, Ohio.
100-MILE ELECTRIC—vehicle batteries, The Fritche Automobile & Battery Co., 1510-30 Clarkson St., Denver, Colo.
HUNT—grease guns & grease storage tanks, The Hunt Mfg. Co., East Second St., Ottumwa, Iowa.
HUNTINGTON—emery wheel dressers, Chicago Screw Co., 1020-1026 Homan Ave., Chicago, Ill.
HUNTINGTON—emery wheel dressers, Warren Axe & Tool Co., Warren, Pa.
HUNTINGTON—emery wheel dressers, Challenge Machine Co., Inc., 1516 Springfield Ave., Phila., Pa.
HURCK—motorcycle coaster brakes, Hurck Motor & Cycle Co., 109 N. 12th St., St. Louis, Mo.

HURRIUP—funnels, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
HUSK—chimes, Findeisen & Kropf Mfg. Co., 2100 S. Rockwell St., Chicago, Ill.
HUSSEY—bicycle handle bars, Consolidated Mfg. Co., 1710 Fernwood Ave., Toledo, O.
HYATT—roller bearings, Hyatt Roller Bearing Co., Newark, N. J.
HYCAP-EXIDE—vehicle ignition batteries, Electric Storage Battery Co., 19th St. & Allegheny Ave., Phila., Pa.
***HYDEGRADE**—waterproof coats, Regal Coat Co., 36 E. 12th St., N. Y. City.
HYDRAULIC—clutch leather, Geo. Rahmann & Co., 6 Ferry St., N. Y. City.
HYDRAULIC—wind shields, Emil Grossman Co., 296 Broadway, N. Y. City.
HYDREX—mufflers & underwater exhausts, Hydrex Silent Exhaust Works, Dansville, N. Y.
HYDRO CARBONATED BONE-BLACK—case hardening bone, E. F. Houghton & Co., 240 W. Somerset St., Phila., Pa.
HYDRO CARBON—carburetors, The Hydro Carbon Machine Co., 431 Blomfield Ave., Newark, N. J.
***HYDROCURVE**—gasoline marine motors & boat hulls, Hydrocurve Boat Co. of America, 3945-50 Olive St., St. Louis, Mo.
HYGLO—metal polishes, John T. Stanley, 650 W. 30th St., N. Y. City.
HYRAY—electric auto lamps, Electric Storage Battery Co., 19th St. & Allegheny Ave., Phila., Pa.

I

I. H. C.—stationary gasoline engines, International Harvester Company of America, 7 Monroe St., Chicago, Ill.
I & M—nuts, bolts, hub caps, wind shields, washers, brake drums & wheel flanges & housings, Ireland & Matthews Mfg. Co., Detroit, Mich.
***I. X. L.**—cements & vulcanizing solutions, Rea Bros. & Co., Minneapolis, Minn.
I. X. L.—lathe chucks, Westcott Chuck Co., Oneida, N. Y.
I. X. L.—varnish, Edward Smith & Co., 129 West Ave., Long Island City, N. Y.
ICY-HOT—vacuum bottles & jars, The Icy Hot Bottle Co., 216-218 Longworth St., Cincinnati, Ohio.
IDEAL—auto bumpers, J. H. Sager Co., 265 South Ave., Rochester, N. Y.
IDEAL—automobile jacks, Elite Mfg. Co., Ashland, Ohio.
IDEAL—automobile & marine motors, Ideal Mfg. Co., Portsmouth, Ohio.
IDEAL—automobile tops, covers & wind shields, The Ideal Wind Shield Co., 1926 Broadway, N. Y. City.
IDEAL—bicycles, The Pope Mfg. Co., Hartford, Conn.
IDEAL—bicycle & motorcycle handle bars, seat posts & handle bar stems, Ideal Plating Co., Inc., Marlboro, Mass.
***IDEAL**—chest protectors, Ideal Chest Protector Co., 100 Sixth St., S. E., Washington, D. C.
IDEAL—clamps, machinists, William S. Nicholls, 253 Broadway, N. Y. City.
IDEAL—curtain fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
IDEAL—cushion springs, Foster Bros. Mfg. Co., Utica, N. Y.
IDEAL—distributors, The Altemus Mfg. Co., 42nd & Chestnut Sts., Phila., Pa.
IDEAL—gasoline marine motors, V. J. Emery Wollaston, Mass.
IDEAL—gasoline storage outfits, Wallmann Mfg. Co., 283-285 5th Ave., Milwaukee, Wis.
***IDEAL**—gasoline strainers, T. L. Phillips, Aurora, Ill.
IDEAL—grease cups, The Lunkenheimer Co., Cincinnati, Ohio.
IDEAL—hand planers, clamps & foot power drill grinders, Ideal Machine Works, 255-257 39th St., Brooklyn, N. Y.

- IDEAL—lamp lighters, U. E. Lazelle & Co., Battle Creek, Mich.
- IDEAL—lathes, Springfield Machine Tool Co., Springfield, O.
- IDEAL—oils (jobbers), Fidelity Oil Co., 600-602 W. 6th St., Kansas City, Mo.
- IDEAL—oil & grease, W. S. Sheppard, 22 Lawrence St., Newark, N. J.
- IDEAL—oil auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.
- IDEAL—paints, Bronze Powder Works Co., Elizabeth, N. J.
- IDEAL—pipe vices, The Orange Machine & Mfg. Co., 10-14 Stetson St., Orange, N. J.
- IDEAL—surface grinders, O. S. Walker & Co., Worcester, Mass.
- IDEAL—switches, Ideal Switch Co., Inc., Plainville, Conn.
- IDEAL—tire cases, Joseph Murray, Newton, Mass.
- IDEAL—vehicle washers & water savers, Ideal Carriage Washer & Automatic Water Saver Co., 383 Main St., E., Rochester, N. Y.
- IDEAL—water motors, Tessmer Machine & Tool Co., 285-287 Rivard St., Detroit, Mich.
- IDEALO—soap & metal polish, Idealo Co., 228 N. 4th St., Phila., Pa.
- ILSLEYS GRAPHITE AUTOGREASE—grease, Ilsley-Doubleday & Co., 229-231 Front St., N. Y. City.
- IMMUNITY—cable, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.
- IMPERIAL—automobile lamp brackets, pressure regulators & tire pump compounds, Imperial Brass Mfg. Co., 441 S. Jefferson St., Chicago, Ill.
- IMPERIAL—auto pneumatic tires & inner tubes, McGraw Tire & Rubber Co., Grant Blvd. & 33rd St., Pittsburg, Pa.
- IMPERIAL—burners, M. Kirchberger & Co., 339 Broadway, N. Y. City.
- IMPERIAL—bicycles, The Pope Mfg. Co., Hartford, Conn.
- IMPERIAL—chain hoist, hand power traveling cranes, The Franklin Moore Co., Winsted, Conn.
- IMPERIAL—compression couplings, Thermoid Rubber Co., Trenton N. J.
- IMPERIAL—drills, hammers, pneumatic tools & hoists, Ingersoll-Rand Co., 11 Broadway, N. Y. City.
- IMPERIAL—gasoline & kerosene marine motors, Imperial Gas Engine Co., 60 Clementina St., San Francisco, Cal.
- IMPERIAL—hand cleansing compound & anti-freezing compound, Kielgass-Lehman Co., 208 W. Kinzie St., Chicago, Ill.
- IMPERIAL—metal polish, Rath, Chas. H. Co., Inc., 1347 N. Front St., Phila., Pa.
- IMPERIAL—rubber bumpers, Boston Belting Co., 256-60 Devonshire St., Boston, Mass.
- IMPERIAL—sparkling tubes, Imperial Porcelain Works, Trenton, N. J.
- IMPERIAL—tire powder, American Talc Co., 22-24 Custom House St., Boston, Mass.
- IMPERIAL—wooden automobile wheels, Imperial Wheel Co., Flint, Mich.
- IMPERIAL WIXON—tire pumps, The Imperial Brass Mfg. Co., 241-249 S. Jefferson St., Chicago, Ill.
- IMPROVED AUTOMATIC—wind shields, B. & B. Mfg. Co., 6208 Cedar Ave., Cleveland, O.
- IMPROVED ELECTRO CORNO—Electric auto & boat horns, Improved Electro Corno Co., 48 W. 34th St., N. Y. City.
- IN-A-JIF—tire cements, Diamond Rubber Co., Akron, O.
- INCOMPARABLE—soldering fluid, Reade Mfg. Co., Hoboken, N. J.
- INDESTRUCTIBLEITE—metal sheets, wire, castings, rods & special shapes & metal tubing, Indestructible Metal Co., 50 Church St., N. Y. City.
- INDESTRUCTIBLE—screw drivers, The Elmwood Tool Mfg. Co., Hartford, Conn.
- INDESTRUCTIBLE—spark plugs, American Coil Co., Foxboro, Mass.
- INDESTRUCTO—trunks, National Veneer Products Co., Mishawaka, Ind.
- INDEX—funnels, Whitnell T. Taliaferro, 258 Broadway, N. Y. City.
- *INDEX—speed indicators combined with odometers, Index Speed Indicator Co., 719 Hennepin Ave., Minneapolis, Minn.
- INDIA—oil stones, Norton Grinding Co., Barbers Crossing, Worcester, Mass.
- INDIAN—motorcycle stands, Hendee Mfg. Co., 837 State St., Springfield, Mass.
- INDIAN—oil, grease & gasoline, Indian Refining Co., Cincinnati, O.
- INDIAN—spark plugs, auto hand tire pumps, engine starters, speed change gears, American Machine Co., Eau Claire, Wis.
- INDIANA—cycle & motorcycle tires, Indiana Rubber & Insulated Wire Co., Jonesboro, Ind.
- INDIA RUT RIDER—auto pneumatic tires, India Rubber Tire Co., 1461 Michigan Ave., Chicago, Ill.
- INDISPENSABLE—ball hanger bearings, pipe fittings, stuffing boxes, underwater exhausts, flexible couplings & marine engine fittings, Mechanical Devices Co., Inc., Watervliet, N. Y.
- INDUCTIO—stationary gasoline engines, Chas. E. Duryea, Reading, Pa.
- INGERSOLL—automobile clocks & watches, Robt. H. Ingersoll & Bro., 45 John St., N. Y. City.
- INGERSOLL—milling machines, The Ingersoll Milling Machine Co., Rockford, Ill.
- ING-RICH—signs, Ingram-Richardson Mfg. Co., Beaver Falls, Pa.
- INITIATIVE—revolution counters, Schuchardt & Schutte, 90 West St., N. Y. City.
- INJECTOR—sand blasts, C. Drucklieb, 132 Reade St., N. Y. City.
- INNER-LAP—tire cases, Vehicle Top & Supply Co., 900 Cass Ave., St. Louis, Mo.
- INNERSHU—inner tube protectors, Inner Shoe Tire Co., 64 Monroe St., Grand Rapids, Mich.
- INST—lamp lighters, The Inst Lighter Co., Columbus, Ohio.
- *INTER-LUBE—oil (for use in gasoline), The Igniter Appliance Co., 302 Electric Bldg., Cleveland, Ohio.
- INTER-LUBE—oil, Whitney Chemical Co., 6122 Euclid Ave., Cleveland, O.
- INTERNATIONAL—aluminum solder, International Solder Co., Syracuse, N. Y.
- INTERNATIONAL—taximeters, International Taximeter Co. of America, 1974 Broadway, N. Y. City.
- INVADER—oils, lubrication compound & semi-fluid transmission compound, Charles F. Kellom & Co., 113 Arch St., Phila., Pa.
- INVINCIBLE—ignition batteries, American Battery Co., 1132-34 Fulton St., Chicago, Ill.
- *INVINCIBLE—tire protectors & anti-skid devices, Invincible Tire Armor Co., Hartley, Iowa.
- IRISH—ignition storage batteries, The Motor Car Supply Co., 1451-55 Michigan Ave., Chicago, Ill.
- IRLAND—wrenches, Charles T. Luce Company, 160 Congress St., Boston, Mass.
- IRVING—overhead vehicle washers & automatic water cut-off, I. J. Smith Mfg. Co., Inc., 4283 Park Ave., N. Y. City.
- ISOLIT—insulation for spark plugs, Imported by Theo. H. Gary Co., 50-52 Franklin St., N. Y. City.
- *ISOTTA—spark plugs, Eli J. Bushey, 1777 Broadway, N. Y. City.
- ISTI—rear signals, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- *IT—lock-nut, Lock-Nut "It" Concern, 6243 Greenwood Ave., Chicago, Ill.

J

- *J. A. G.—boat steering apparatus, J. A. Garrett, Auburn, N. Y.
- J. A. W.—spark plug cases, A. P. Stillman, 124 Chambers St., N. Y. City.

- J & B—coils, vibrators, switches & spark indicators, Jacobson-Brandow Co., 126 Columbus Ave., Pittsfield, Mass.
- J-D—spark plugs, Jeffery-Dewitt Co., 217-219 High St., Newark, N. J.
- J-M—asbestos wood, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- J & R—spray hoods, boat, Jones & Robinson, City Island, N. Y.
- J. S. & Co.—air tanks, seamless steel tanks, boiler shells, gasoline tanks & brake drums, Jannet-Steinmetz & Co., 4th & Market Sts., Phila., Pa.
- JACK OF ALL TRADES—stationary gasoline engines, Fairbanks, Morse & Co., Chicago, Ill.
- *JACKSON—belt fasteners, Sawyer Belting Co., Cleveland, O. (Mfr's Agents.)
- JACOBSON—wind shields, Jacobson Bros., Bergen St. & 14th Ave., Newark, N. J.
- JAGER—gasoline & kerosene marine engines & lighting outfits for motor boats, Chas. J. Jager Co., 281-285 Franklin St., Boston, Mass.
- JAMES—check valves, Generator Valve Co., 294-296 Taaffe Place, Brooklyn, N. Y.
- JAMES-COMPACT—marine carburetors, Generator Valve Co., 294-296 Taaffe Place, Brooklyn, N. Y.
- JANETTE—luggage carriers, New York Sporting Goods Co., 17 Warren St., N. Y. City.
- JANUS—vacuum bottle, Janus Vacuum Goods Co., 10 Beach St., N. Y. City.
- JAR-LESS—shock absorbers, The Jar-Less Shock Absorber Co., 172 Oliver St., Boston, Mass.
- JAYATCHEFF—brake lining & carburetor floats, Jayaitcheff Co., Baltimore, Md.
- JEFFERY—marine glue, L. W. Ferdinand & Co., 201 South St., Boston, Mass.
- JELCO—auto tires & inner tubes, J. Ellwood Lee Co., Conshohocken, Pa.
- JENATZY—tires, imported by Jenatzy Rubber Co., 36 W. 43rd St., N. Y. City.
- JENCICK—gasoline automobile motors, Jencick Motor Co., Port Chester, N. Y.
- JENKINS—valves & packing, Jenkins Bros., 71 John St., N. Y. City.
- JERICHO—exhaust horns, Randall-Faichney Co., 251 Causeway St., Boston, Mass.
- JEWEL—electric lamp lighters, Electric Goods Mfg. Co., Canton, Mass.
- JEWEL—grease cups, The Lunkenheimer Co., Cincinnati, Ohio.
- JEWEL—ignition batteries, Jewel Electric Co., 271-273 Michigan Ave., Chicago, Ill.
- JEWEL—spark plugs, Pittsfield Spark Coil Co., Dalton, Mass.
- JIFFY—tire repair tools & kits, B. F. Goodrich Co., Akron, Ohio.
- JITSU—curtain fasteners, The L. & D. Co., 88 Broad St., Boston, Mass.
- JOE'S—reversing gears for motor boats, Snow & Petrelli Mfg. Co., 441-445 Chapel St., New Haven, Conn.
- JOHANSSON'S—standard measuring gauges, Gronkvist Drill Chuck Co., 18-20 Morris St., Jersey City, N. J.
- *JOHNSON—gasoline marine motors, Johnson Bros. Co., Terre Haute, Ind.
- *JOHNSON—gasoline marine motors, A. P. Johnson, 11 N. Ohio Ave., Atlantic City, N. J.
- JOHNSON—gasoline marine motors, Johnson & Wells Machine Co., Neenah, Wis.
- JOHNSON—friction clutches for machine shop equipment, reverse gears & boat clutches, The Carlyle Johnson Machine Co., P. O. Box D, Manchester, Conn.
- IVER JOHNSON—bicycles, Iver Johnson's Arms & Cycle Works, Fitchburg, Mass.
- JOLIET—fire extinguishers, The Chas. C. Wilcox Co., 115-27 Cass St., Joliet, Ill.
- JONES—auto & bicycle speed indicators, also motor boat speed indicators, odometers, automobile clocks & annunciators & electric horns, The Jones Speedometer, Broadway & 76th Sts., N. Y. City.
- JONES—gas & gasoline stationary engines, Huntsville Foundry & Machine Works, Huntsville, Ala.
- JONES—steel, brass, bronze or bell metal balls, Jones Ball Co., Arlington Heights, Mass.
- JONES—taximeters, Jones Taximeter Co., Speedometer Bldg., Broadway & 76th St., N. Y. City.
- JONES—wheels, Phineas Jones & Co., 301-311 Market St., Newark, N. J.
- JONES LIVE-MAP—meters & maps, Jones Live-Map Meter Co., 76th St. & Broadway, N. Y. City.
- JONZ—gasoline automobile motors & clutches, Jonz Automobile Co., Beatrice, Neb.
- JORDAN—removable rims, R. W. Jordan, 28 Belvidere St., Boston, Mass.
- JORN—sand blast machines, A. Jorn, Jr., Waukegan, Ill.
- JOVE—dry ignition batteries, J. H. Bunnell & Co., 20 Park Place, N. Y. City.
- JOYCE—tire bolts & lugs, Joyce Air Cushion Tire Bolt Co., 52-54 W. 67th St., N. Y. City.
- JUMBO—hand cleansing compound, Kielgass-Lehman Co., 208 W. Kinzie St., Chicago, Ill.
- JUNIOR—tool kits, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- JUNIOR—wrenches, Frank Mossberg Co., Attleboro, Mass.
- JUSTICE—power hammers, Phillip S. Justice & Co., 421 Chestnut St., Phila., Pa.

K

- K-B—die filing & metal saving machines, The Grant Mfg. & Machine Co., 90 Silliman Ave., Bridgeport, Conn.
- K-B—universal joints, The Kinsler-Bennett Co., 62 Market St., Hartford, Conn.
- K. C.—storage batteries, Kitsee Battery Co., Wilkes Barre, Pa.
- K. C. JUNIOR—stationary engines, gas & gasoline, Kansas City Hay Press Co., Kansas City, Mo.
- *K. & D.—dynamos, Kendrick & Davis, Lebanon, N. H.
- K. D. M. SYSTEM—marine knock down motors, Knock Down Motor Co. of America, 150 Broadway, N. Y. City.
- K. F. & D.—motorists, caps, Kaplan, Frank & Dunn, 56 E. 13th St., N. Y. City.
- K. H.—auto wheels, K. H. Wheel Co., 1208-50 Military Ave., Detroit, Mich.
- K. & J.—dust & mud shields, Kilbourne & Jacobs Mfg. Co., Congress & Lincoln Sts., Columbus, Ohio.
- K. K.—seamless tubing & ignition cable, Benedict & Burnham Mfg. Co., Waterbury, Conn.
- K-L BRAND—pumice stone, Kielgass-Lehman Co., 208 W. Kinzie St., Chicago, Ill.
- K. & R.—cycle engines & 2 speed motorcycle gears, The Keller & Risque Motor Co., 20 W. 3rd St., St. Paul, Minn.
- *K. T.—clocks, The K & T Mfg. Co., 32 Atlantic Ave., Boston, Mass.
- K & W—reliners for protecting tires, K & W Mfg. Co., 25 Orange St., Ashland, Ohio.
- K-W—gasoline motor boats, Kershaw-Williams Co., 29-33 Haverhill St., Boston, Mass.
- K-W—magnetos, spark plugs, master vibrators, lamp adapters, electric auto & boat lamps & coils, The K-W Ignition Co., 40 Power Ave., Cleveland, Ohio.
- K-W SPECIAL—marine gasoline motors, Kershaw-Williams Co., 29-33 Haverhill St., Boston, Mass.
- KACH KLIPX—pedal catcher, Persons Mfg. Co., 54-68 Bloomingdale Road, Worcester, Mass.
- KALAMAZOO—carburetors, Kalamazoo Carburetor Co., Kalamazoo, Mich.

- KALAMAZOO—friction clutches, Burt Mfg. Co., Clinton & Fulford St., Kalamazoo, Mich.
- KALAMAZOO—stools & chairs, Kalamazoo Steel Goods Co., Kalamazoo, Mich.
- KALUX—steel hardening & tempering solution for increasing the efficiency of all carbon steel tools, Metal Hardening Solution Co., Rochester, N. Y.
- KAMLEE—trunks, The Kamlee Co., 339 Milwaukee St., Milwaukee, Wis.
- KAMP KOOKS KIT—cooking outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- KANGAROO—spark plugs, The Tritt Electric Co., Union City, Ind.
- KANSAS—glass wind shields, Pioneer Auto Top & Supply Co., 1721 Baltimore Ave., Kansas City, Mo.
- *KANter's—grease, The R. J. Kanter Co., 647 Water St., N. Y. City.
- KANTLEEK—inner tubes, Seamless Rubber Co., New Haven, Conn.
- KANT-SKIDS—anti-skid devices, Leather Tire Goods Co., Niagara Falls, N. Y.
- KANT-STIK—fuel level indicators, auto & marine, National Motor Supply Co., Cleveland, O.
- KANTRYP—gauntlets, Ellsworth & Thayer Mfg. Co., Milwaukee, Wis.
- *KARBEL—automobile covers, American Karbel Co., Jonesboro, Ark.
- KART-TANK—gasoline & oil storage outfits, Auto Trading & Repair Co., 1515 Prospect Ave., Cleveland, O.
- KASTION—brazing compounds, Arthur L. Taber, Corona, Cal.
- KAUFMAN BOTTOMLESS—Bunsen burners & automatic shut-offs, A. G. Kaufman Mfg. Co., Inc., 131-133 Reade St., N. Y. City.
- KAUFMAN—lighting plants & brazing & soldering torches, The A. G. Kaufman Mfg. Co., Inc., 131-133 Reade St., N. Y. City.
- KEARNEY & FOOT—files & rasps, Nicholson File Co., Providence, R. I.
- KEELER—robe rails, foot rests, bolts, nuts, screws, bow rests, bow separators, bow sockets, top fixtures, tire holders, lamp brackets, name plates, monograms, etc., Keeler Brass Co., Grand Rapids, Mich.
- KEELER—storage ignition batteries, Keeler Battery Co., 134 Ontario St., Toledo, O.
- KEEN-EDGE—oil stones, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.
- KEEPDRY—waterproof material for wrapping tires, or other articles, Union Paper & Twine Co., 45 Larnard St., W., Detroit, Mich.
- *KELLO—wire belting, A. F. Kelley, Providence, R. I.
- KELLOGG 5—tire pumps, Kellogg Mfg. Co., E. Main & Circle Sts., Rochester, N. Y.
- KELLOGG—mechanical tire inflators & tire pressure registers, Kellogg Mfg. Co., E. Main & Circle Sts., Rochester, N. Y.
- KELLS—automobile tanks & radiators, W. J. Kells Mfg. Co., 726-28 11th Ave., N. Y. City.
- KELLY—bicycle handle bars & burners for steam automobiles, Kelley Handle Bar Co., 5017 Perkins Ave., Cleveland, Ohio.
- KELLY—carburetors, John Kelly, Congress St. & 46th Ave., Chicago, Ill.
- KELLY—tire wrenches, John Kelly, Congress St. & 46th Ave., Chicago, Ill.
- KELLY-SPRINGFIELD—solid automobile tires, Consolidated Rubber Tire Co., 20 Vesey St., N. Y. City.
- KELS-CASTLE—hand soap, Monahan Antiseptic Co., 100 Market St., Chicago, Ill.
- KEMIZITE—puncture closing compound, Auto Tire Security Co., 1229 Michigan Ave., Chicago, Ill.
- KEMP—carburetors, J. P. Kemp, 1618 Ruskin Ave., Baltimore, Md.
- KEMPSHALL—automobile tires & tire patches, imported by Cryder & Co., 583 Park Ave., N. Y. City.
- KEMPSMITH—machinery & tools, Kempsmith Mfg. Co., Milwaukee, Wis.
- KENNEBEC—gasoline marine motors, Torrey Roller Bushing Works, Bath, Me.
- KENNEDY IDEAL—carburetors, The Kennedy (Ideal) Carburetor Co., 179 Clarendon St., Boston, Mass.
- KENNEY—automobile jacks, Kenney Mfg. Co., New London, Conn.
- KENO—pump nipples & pump connections, Stevens & Co., 375 Broadway, N. Y. City.
- KENT—voltmeters, ammeters, volt-ammeters & timers, Atwater Kent Mfg. Works, 42-46 N. 6th St., Phila., Pa.
- KENYON—automobile tops, R. L. Kenyon Co., Waukesha, Wis.
- KENYON—clothing, motorists', C. Kenyon Co., 23 Union Sq., N. Y. City.
- KEOYAMA—oil, W. Sheppard, 141 E. 25th St., N. Y. City.
- KERATOL—leather for trimming, The Keratol Co., Cor. South & Van Buren Sts., Newark, N. J.
- KETOS—oil hardening steels & drill rods, Halcomb Steel Co., Syracuse, N. Y.
- KEWANEE—unions, ells & tees, National Tube Co., Frick Bldg., Pittsburg, Pa.
- KEYSTONE—chemical fire engines for garages, James Boyd & Bro., 22nd St. bet. Vine & Race Sts., Phila., Pa.
- KEYSTONE—crucible steel castings, Keystone Steel Castings Co., Chester, Pa.
- KEYSTONE—copper polish, McKenna Bros. Brass Co., First Ave. & Ross St., Pittsburg, Pa.
- KEYSTONE—grease & oil, Keystone Lubricating Co., 20th & Allegheny Ave., Phila., Pa.
- KEYSTONE—leather, Atlantic Leather Co., Wright St. & Ave. A, Newark, N. J.
- KEYSTONE—lock washers, Positive Lock Washer Co., Newark, N. J.
- KEYSTONE—oils, oil soap & waste, Keystone Oil & Supply Co., Inc., Pittsburg, Pa.
- KEYSTONE—pipe cutting tools, Hollands Mfg. Co., Erie, Pa.
- KEYSTONE—tire holders, C. F. Rump & Sons, 5th & Cherry Sts., Phila., Pa.
- KEYSTONE—wrenches, drills, drilling posts, nail & center punches, boring & threading tool holders, Keystone Mfg. Co., 41-51 Chandler St., Buffalo, N. Y.
- KEYSTONE IRON CEMENT—metal cement, Pennsylvania Black Filler & Paint Co., Williamsport, Pa.
- KIDD BROS. & BURGHER—nickel steel, Kidd Bros. & Burgher Steel Wire Co., Alliquippa, Pa.
- KIDD SPECIAL WHITE LABEL—drill rod, Kidd Bros. & Burgher Steel Wire Co., Alliquippa, Pa.
- KIEFLER—cycle motors, Kiefler Motor Works, 134 Broadway, Buffalo, N. Y.
- KILBOURNE—storage ignition batteries, Kilbourne & Clark Co., 307 First Ave., S., Seattle, Wash.
- KILCO—carbon removers, Carbon Remover Co., 108 Fulton St., N. Y. City.
- KILFIRE—fire extinguishers, Fyricide Mfg. Co., 34 Murray St., N. Y. City.
- KILFYRE—fire extinguishers, Kilfyre, Inc., 247-249 Pearl St., N. Y. City.
- KILGORE—pneumatic shock eliminators, Kilgore Mfg. Co., 585 Boylston St., Boston, Mass.
- KILROY—piston rings, The Kilroy Piston Ring Co., 74 Cortlandt St., N. Y. City.
- KIMBALL—wind shields, C. P. Kimball & Co., 315-317 Michigan Ave., Chicago, Ill.
- KINDER—tire cases, Hopewell Bros., 29 Chapel St., Newton, Mass.
- KING—anti-skid devices & leather auto tires, King Leather Tire Co., 3417-3419 Vliet St., Milwaukee, Wis.
- KING—automobile tops, covers & wind shields, King Top Mfg. Co., Main & First Sts., Dayton, O.
- KING—ignition batteries, Vita Mfg. Co., 1151-57 Stanford Ave., Los Angeles, Cal.
- *KING—paints & colors, Chicago White Lead & Oil Co., Green & Fulton Sts., Chicago, Ill.

KING KORE KOMPOUND—core compounds, cupolas, foundry riddles & sieves & plumbing, Frederic B. Stevens, Detroit, Mich.

KING OF FIRE KILLERS—fire extinguishers, Frycide Mfg. Co., 34 Murray St., N. Y. City.

THE KING POWDER—metal polish, Cleaner Mfg. Co., 2842 Olive St., St. Louis, Mo.

KING'S—auto tire trunks, W. A. King, 52 Public Square, Cleveland, Ohio.

KINGSLEY—wind shields, The Novelty Mfg. Co., Maple St., Waterbury, Conn.

KINGSTON—carburetors & exhaust mufflers, Byrne, Kingston & Co., Kokomo, Ind.

KINGSTON—sparking coils, plugs, timers, magnetos & switches, Kokomo Electric Co., Kokomo, Ind.

KINWOOD—automobile parts, Kinsey Mfg. Co., Toledo, Ohio.

KIPLING'S GRADOMETER—grade meters, Samuel Buckley & Co., 225 Fifth Ave., N. Y. City.

***KIRKHAM**—gasoline automobile motors, The Kirkham Motor Mfg. Co., Bath, N. Y.

KIRKWOOD—oil & natural gas burners, Tate Jones & Co., Inc., 806 Empire Bldg., Pittsburgh, Pa.

KISMET—varnishes, Chase, Roberts & Co., Fifth St. & West Ave., Long Island City, N. Y.

THE KIT—screw drivers, The Cassady-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.

KLAXON—automobile horns, Lovell, McConnell Mfg. Co., 365 Market St., Newark, N. J.

KLENO—hand soap, Kleno Mfg. Co., Inc., N. Weymouth, Mass.

KLENZOLA—hand cleansing compound, The Klenzola Co., 1300 Peach St., Erie, Pa.

KLINES—lathes & wood working machines, Alpena Industrial Works, Alpena, Mich.

***KLINGERIT**—packing (steam), Crane Co., 1214 S. Canal St., Chicago, Ill.

KLIP—inspection lamps, Rollman Mfg. Co., Mount Joy, Pa.

KNEAD IT—tire cements, M. & M. Mfg. Co., Akron, O.

KNEELAND—stationary gasoline motors, Kneeland Mfg. Co., Lansing, Mich.

KNIGHT—milling & drilling machines, W. B. Knight Machinery Co., 2019 Lucas Ave., St. Louis, Mo.

KNIGHT—pliers, Knights Combination Tool Co., 257-63 George St., New Haven, Conn.

***KNIGHT**—tire protectors & tire bands, Detroit Leather Works, 844 Woodward Ave., Detroit, Mich.

***KNIGHT**—wind shields, F. H. Knight, 1219-1221 Michigan Ave., Chicago, Ill.

KNIFE—automobile ball bearings, Presse Steel Mfg. Co., 454 The Bourse, Philadelphia, Pa.

KNO-FREEZE-METER—radiator solution meter, C. J. Tagliabue Mfg. Co., 53 Fulton St., N. Y. City.

***KNO-SLIP**—clutch compound, Chas. A. Brophy, Station A, Hinsdale, Ill.

KNOX—gasoline marine motors, motor boats, carburetors, propellers & stationary engines, Camden Anchor-Rockland Machine Co., Camden, Me.

KNOX-ALL—axle oils, McLean-Brandon Oil & Supply Co., 65 Long Wharf, Boston, Mass.

KOEHLER'S NEVERBREAK—cantilever springs, Universal Auto Spring Co., 5500 Florissant Ave., St. Louis, Mo.

KOEHLER'S UNIVERSAL—body springs, Universal Auto Spring Co., 5500 Florissant Ave., St. Louis, Mo.

KOEN'S—folding chairs, Buffalo General Mfg. Co., 1239 Niagara St., Buffalo, N. Y.

KOHL SPECIAL—wind shields, Kohl Mfg. Co., 10th & Canal Sts., Indianapolis, Ind.

***KOKOMO**—grease guns, Kokomo Grease Gun Co., P. O. Box 134, Kokomo, Ind.

KOKOMO—motorcycle tires, Kokomo Rubber Co., Kokomo, Ind.

KOONSHINE—wood & metal polishes, St. Louis Surfer & Paint Co., St. Louis, Mo.

KOSMOS—taximeters, General Taximeter Co., 8th Ave. & 49th St., N. Y. City.

KOVEN—tanks, exhaust mufflers for marine engines & gasoline storage outfits, L. O. Koven & Brother, 50 Cliff St., N. Y. City.

KRAEMER—auto compass, U. S. Auto Compass Co., 411 Grand Ave., Milwaukee, Wis.

KRAFTWRAP—paper for wrapping tires, Union Paper & Twine Co., 45 Larnard St., W., Detroit, Mich.

KRAHN—lubricators, wind shields & hose couplings, Krahn Mfg. Co., Milwaukee, Wis.

KRAKNO—paint fillers, Johnston Paint Co., 226 Main St., Cincinnati, O.

KRAMER—fuel strainers, William J. Kramer, 246 Van Alst Ave., L. I. City, N. Y.

***KRAUSE**—carburetors, R. E. Krause, 1358 Giddings Road, Cleveland, Ohio.

KREBS—carburetors, imported by Panhard & Levassor, Broadway & 62nd St., N. Y. City.

KREMLO—ignition batteries, The Hall Storage Battery Co., 1056-60 St. Clair Ave., N. E., Cleveland, O.

KRICE—carburetors, Krice Carburetor Co., Detroit, Mich.

KRIEGER'S—tool holders, lathe brackets, drill press, turret & lathe bars, cutters, thread chasers, roughing tools, grinding quills & boring bars, Krieger Tool & Mfg. Co., 564-72 W. Randolph St., Chicago, Ill.

KROESCHELL-SCHWARTZ—metal melting furnaces, Kroeschell Bros. Co., 414 W. Erie St., Chicago, Ill.

KROH—automobile leather trimmings, tops & storm aprons, C. Z. Kroh Mfg. Co., 1212-1214 Jackson St., Toledo, Ohio.

KROME—fan & radiator belts, Chicago Rawhide Mfg. Co., 348-50 Ohio St., Chicago, Ill.

KRUPP—steel castings, forgings, pressed steel frames, automobile parts, axles, crank shafts, gears, gear blanks & steel, Thos. Prosser & Son, P. O. Box 878, G. P. O., N. Y. City.

KRYSTAL SOILOFF—hand soap, The R. M. Hollingshead Co., Camden, N. J.

KUNDTZ—automobile wooden dashes, automobile tops & steering wheel rims, Theodore Kundtz, Cleveland, Ohio.

KURTZ—magnetos, The Hercules Electric Co., 2128-2136 Northwestern Ave., Indianapolis, Ind.

KYMOL—packing, Crandall Packing Co., Palmyra, N. Y.

L

L-A—ignition batteries, Vita Mfg. Co., 1151-57 Stanford Ave., Los Angeles, Cal.

L. B.—manganese bronze, Lumen Bearing Co., Buffalo, N. Y.

L-B—spark plugs, coils, battery connections, ignition batteries, Lemke-Brggs Electric Co., 9-10-11 Miller Bldg., Milwaukee, Wis.

***L & M**—stationary engines, Lammert & Mann, 157-159 Jefferson St., Chicago, Ill.

L & M—tire adjusters, tire shoe lifters, looseners & vehicle washers, The Long & Mann Co., 13 Graves St., Rochester, N. Y.

LXV—spark plugs, The Automobile Equipment Co., 260 Jefferson Ave., Detroit, Mich.

LA BUIRE—auto supplies, imported by La Buire Import Co., 1964 Broadway, N. Y. City.

LACE WEB—cushion springs (auto), Trenton Spring Mattress Co., Trenton, N. J.

LACKAWANNA—gasoline marine & auto motors, timers, reversing gears for motor boats, boat propellers, stuffing boxes, exhaust & water fittings, electric auto charging apparatus, air compressors & electric light plants, Lackawanna Mfg. Co., Newburgh, N. Y.

- LA COSTE—timers, Lovell, McConnell Mfg. Co., 365 Market St., Newark, N. J.
- LACQUERINE—metal polish, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
- LAFFITE—brazing plates, compounds & powders, welding plates & welding & tempering powder, The Phillips Laffite Co., Phila., Pa.
- LA FRANCE—toilet cases, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- LAKESIDE—wrenches, Lakeside Forge & Wrench Co., Erie, Pa.
- *LAKE SUPERIOR—wrenches, Lake Superior Wrench Co., 127 Maple St., Sault Ste. Marie, Mich.
- LAMBERT—stationary engines, Lambert Gas & Gasoline Engine Co., Anderson, Ind.
- LANCASTER—bit braces & machine knives, Lancaster Machine & Knife Works, Lancaster, N. Y.
- LONDON—extra tire holders & locking devices, The John S. London Co., 200 N. Main St., Elkhart, Ind.
- LANE—jacks, Lane Bros. Co., Poughkeepsie, N. Y.
- LANG'S—tool holders, planer clamps & bolt heads for planers, G. R. Lang Co., Meadville, Pa.
- LANGS—two speed gears & friction clutches, C. H. Lang, 35 E. Adams St., Chicago, Ill.
- LA PARFAITE—goggles, imported by American Thermo-Ware Co., 16 Warren St., N. Y. City.
- LA PORTE—auto bodies, tops, wind shields & body parts, La Porte Carriage Co., La Porte, Ind.
- LASCO—wind shields, London Auto Supply Co., 2540-48 Wabash Ave., Chicago, Ill.
- LASTIC—muffler paints, Morris Paint Co., 10017 Euclid Ave., Cleveland, Ohio.
- *LATHERETTE—faucet, The Artell Company, 27 E. 22nd St., N. Y. City.
- LAUSON—stationary engines, The John Lauson Mfg. Co., New Holstein, Wis.
- LAVA—hand soap, Wm. Waltke & Co., East Grand Ave. & 2nd St., St. Louis, Mo.
- LAVA—insulation, American Lava Co., Chattanooga, Tenn.
- LAVIGNE—bits, Kilborn & Bishop Co., 81 Lloyd St., New Haven, Conn.
- LAVIGNE—oilers, float valves & oil cups, Lavigne Mfg. Co., Commonwealth Ave. & Railroad, Detroit, Mich.
- LAVOISITE—welding equipment, H. W. Dopp Co., Buffalo, N. Y.
- *LAWSON—automobile transmission gears & friction clutches, Lawson Mfg. Co., Homestead, Pa.
- LEADER—belting, Thermoid Rubber Co., Trenton, N. J.
- LEADER—ferrules, Bay State Stamping Co., 380 Chandler St., Worcester, Mass.
- LEADER—wind shields, Sprague Umbrella Co., Nowalk, Ohio.
- LEADER—wrenches & hose couplings, Ripley Pipe Wrench Co., Ripley, N. Y.
- LEAK-NO—metallic compound, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- LEA-SIMPLEX—cold metal saws, Lea Equipment Co., 90 West St., N. Y. City.
- LEA SPEEDIMETER—speed indicator with odometer & clock combined, Motor Car Specialty Co., Lamberton & Lalor Sts., Trenton, N. J.
- LEA SPEEDMETER—speed indicator with odometer combined, Motor Car Specialty Co., Lamberton & Lalor Sts., Trenton, N. J.
- LEA—truck wheels, Tractor Engineering Co., Lamberton & Lalor Sts., Trenton, N. J.
- *LEATHERINE—belt dressing, The "Imperial Leather Preserver" Mfg. Co., 216 Chancellor St., Phila., Pa.
- LEATHERLAC—top dressing, Johnston Paint Co., 226 Main St., Cincinnati, Ohio.
- LEATHEROID—prepared roofing for factories, Union Paper & Twine Co., 45 Larnard St., W., Detroit, Mich.
- LEAVITT—magnesium metal, C. W. Leavitt Co., Cortlandt Bldg., 30 Church St., N. Y. City.
- LEAVITT—timers, secondary distributors & fuel strainers, The Uncas Specialty Co., 21-37 Shipping St., Norwich, Conn.
- *LEAVITT—wood polishes, Gilbert Leavitt, 11 India St., Boston, Mass.
- LEAVITT SIREN—automobile horns, The Uncas Specialty Co., 21-37 Shipping St., Norwich, Conn.
- LE CHATELIER—pyrometers, Wilson-Macullen Co., N. Y. City.
- *LE COMPTE—safety brake lock for Ford Runabouts, Le Compte & Diffenderffer Mfg. Co., 217 N. Calvert St., Baltimore, Md.
- LEE'S GLISTERER—wood polish, Glistener Mfg. Co., 622 Cypress St., Kansas City, Mo.
- LEGNARD—spark plugs, Legnard Bros., 203-205 Genesee St., Waukegan, Ill.
- LEHMAN—heaters, auto, Lehman Bros., 10 Bond St., N. Y. City.
- LEHMAN—timers, spark plugs & distributors, J. H. Lehman Mfg. Co., 500 Fifth Ave., N. Y. City.
- *LEIGHTON—gasoline marine motors, Herbert J. Leighton, Syracuse, N. Y.
- LEKTRO—universal grinders, portable grinders & drills & circular saws, The Warner-Smith Lektro Products Co., Room 500, Neave Bldg., Cincinnati, Ohio.
- LEMOINE—springs, axles & forgings, imported by International Engineering Co., of N. J., 1779 Broadway, N. Y. City.
- LENNOX—tire inflating tanks & whistle outfits, The Lennox Chemical Co., Cleveland, Ohio.
- LEPAUTE—taximeters, imported by S. Breakstone, 1712 Michigan Ave., Chicago, Ill.
- LESTER—screw machines, Davis Sewing Machine Co., Dayton, Ohio.
- LE VIF—cross chains & hooks, Newhall Chain Forge & Iron Co., 90 West St., N. Y. City.
- LEVO—wood polishes, John T. Stanley, 650 W. 30th St., N. Y. City.
- LEWIS—vises, Prentiss Vise Co., 44 Barclay Co., N. Y. City.
- LIBBY—turret & heavy duty chucking lathes, International Machine Tool Co., W. 21st St. & Belt Ry., Indianapolis, Ind.
- LIBERTY—denatured alcohol, Woolner Distilling Co., Peoria, Ill.
- *LIBERTY—ignition batteries, C. J. Hirlmann, 17-19 Lighthouse St., N. Y. City.
- LIBERTY—lamps, American Lamp Works, 253 W. 47th St., N. Y. City.
- LIBERTY—marine gasoline motors, Detroit Auto Specialty Co., 909 Greenwood Ave., Detroit, Mich.
- LIFE SAVER—oil tanks, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- LIFT UP—curtain fasteners, Carr Fastener Co., 145 High St., Boston, Mass.
- LIGGETT—axles & springs, Liggett Spring & Axle Co., Park Bldg., Pittsburgh, Pa.
- LIGHT—bicycles, The Merkel-Light Motor Co., Pottstown, Pa.
- LIGHTHOUSE—tire protectors & license numbers, Chas. F. Lighthouse, 877 Seventh Ave., N. Y. City.
- LIGHTNING—bolt & nut machinery, pipe cutting & threading machines, reamers, screw plates, taps & dies, Wiley & Russell Mfg. Co., Greenfield, Mass.
- LIGHTNING—cross chain hooks, The Cassidy-Fairbank Mfg. Co., 6106-30 La Salle St., Chicago, Ill.
- LIGHTNING—drill presses, milling machines, woodworkers' & machinists' vises, Massey Vise Co., 9-11 W. Michigan St., Chicago, Ill.
- LIGHTNING—hand cleansing compound, F. Kenney Mfg. Co., 360-368 Dorchester Ave., Boston, Mass.
- LIGHTNING—hand punches, American Lock Nut Co., Oregon, Ill.
- LIGHTNING—hose clamps, The Cleveland Pneumatic Tool Co., 6410 Hawthorne Ave., Cleveland, O. (Jobbers.)
- *LIGHTNING—kerosene & gasoline auto burners, E. C. Walker Mfg. Co., 811 Nelson St., Louisville, Ky.

- LIGHTNING**—stationary engines, Kansas City Hay Press Co., Kansas City, Mo.
- LIGHTNING**—wrenches, William Hjorth & Co., Jamestown, N. Y.
- LIGHTNING FLASH**—metal polish, Lightning Flash Specialty Co., 236 E. 5th St., Cincinnati, Ohio.
- ***LIGHT WEIGHT**—oil cycle lamps, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, Ohio.
- LINCOLN**—milling machines, The Carter & Hakes Machine Co., Winsted, Conn.
- LINCOLN**—variable speed motors for driving machinery, The Reliance Electric & Engineering Co., Caxton Bldg., Cleveland, Ohio.
- LINCOLN**—wind shields, The S. M. Supplies Co., 22-24 Lincoln St., Boston, Mass.
- LIND**—wrenches, Lind Universal Tool Co., 75 Westminster St., Providence, R. I.
- LINDHOLM**—grease cups, J. Stewart Smith, 1779 Broadway, N. Y. City. (Mfg.'s agt.)
- LINDLEY**—gasoline motor boats, marine engines, fuel strainers, motor boat cushions, awning & spray hoods, canvas covers, W. H. Lindley Co., Main & Canal Sts., Canastota, N. Y.
- LINDURO**—enamels for boats, The Lowe Bros. Co., Dayton, O.
- LIN-O**—soap, auto body, S. Strunz & Son, 705 Bingham St., Pittsburg, Pa.
- LINOBESTOS**—brake lining, Empire Tire Co., Trenton, N. J.
- LINOSOAP**—auto body cleansing compound, Linosoap Co., 942-944 W. 5th St., Cincinnati, Ohio.
- LION**—aluminum castings, The Fairfield Aluminum Foundry Corp., Fairfield, Conn.
- LION**—automobile bodies & tops, Fitzgibbon & Crisp Carriage & Wagon Co., 28-36 Bank St., Trenton, N. J.
- LION**—cotton waste, Hoffman-Corr Mfg. Co., 55-57 White St., N. Y. City.
- LION**—grease cups, The Lunkenheimer Co., Cincinnati, Ohio.
- LIP**—packing, Crandall Packing Co., Palmyra, N. Y.
- LIPMAN**—circulation pumps, Lipman Mfg. Co., 205 Pleasant St., Beloit, Wis.
- ***LIPPINCOTT**—tire inflators, water motors, emery grinders, polishing & buffing machines & lathes, Lippincott Tire Pump Dept., Newark, N. J.
- LIQUID VENEER**—wood polish, Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.
- LIQUID MARBLE**—wood polish, Anderson Varnish Co., 3214 Sheffield Ave., Chicago, Ill.
- LISK**—gasoline marine motors & motor boats, Geo. A. Lisk, 1193-95 Jefferson Ave., W., Detroit, Mich.
- LITTLE BLACKSMITH**—punches & shears, J. F. Kidder Mfg. Co., Burlington, Vt.
- LITTLE BLUE FLAG**—varnish, The Lowe Bros. Co., Dayton, O.
- LITTLE GEM**—gasoline storage outfits, National Oil Pump & Tank Co., 411-413 E. First St., Dayton, Ohio.
- LITTLE GEM**—steam vulcanizers, Kerr-Griffin Vulcanizer Mfg. Co., 5919 Penn Ave., Pittsburg, Pa.
- LITTLE GIANT**—Air compressors, The Orange Machine & Mfg. Co., 10-14 Stetson St., Orange, N. J.
- LITTLE GIANT**—callipers & dividers, countershafts, bolt cutters, nut tappers, milling tools, reamers, taps & dies, drill holders, wrenches & measuring gauges, Wells Bros. Co., Greenfield, Mass.
- LITTLE GIANT**—drill chucks, Westcott Co., Oneida, N. Y.
- LITTLE GIANT**—fire extinguishers, H. H. Salmon & Co., 82 Wall St., N. Y. City.
- ***LITTLE GIANT**—hand punches, Excelsior Tool & Machine Co., E St., St. Louis, Mo.
- LITTLE GIANT**—hand punches & shears, Little Giant Punch & Shear Co., Sparta, Ill.
- ***LITTLE GIANT**—spark plugs, timers & muffler cut-outs, W. H. Herbert, 3312 Wabash Ave., Chicago, Ill.
- LITTLE GIANT**—stationary & marine gasoline engines, Strelinger Marine Engine Co., 171-175 Woodbridge St. W., Detroit, Mich.
- LITTLE GIANT**—steering devices for light cars, Widmer Machine Works, Inc., 292-94 E. 135th St., N. Y. City.
- LITTLE GIANT**—swage blocks, post drills & drill press & foot vises, B. B. Noyes & Co., Greenfield, Mass.
- LITTLE GIANT**—vehicle washers, Ideal Carriage Washer & Automobile Water Saver Co., 383 Main St., E., Rochester, N. Y.
- LITTLE HERCULES**—gasoline storage outfits, National Oil Pump & Tank Co., 411-413 E. First St., Dayton, Ohio.
- LITTLE HUSKY**—chain tool, Motor Car Supply Co., 1451-1455 Michigan Ave., Chicago, Ill.
- LITTLEJOHN'S**—apron fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- ***LITTLE LEVER**—anti-skid chain hooks, Abrams-Mason Co., Chatham, N. Y.
- ***LITTLE STEERSMAN**—safety device, Abrams-Mason Co., Chatham, N. Y.
- ***LITTLE TIGER**—marine gasoline engines, Northwestern Machine Co., 132-134 Larned St., East Detroit, Mich.
- LITTLE WONDER**—vulcanizers, Rice & Dayton Mfg. Co., Cedar Falls, Ia.
- LIVINGSTON**—radiators, Livingston Radiator & Mfg. Co., Inc., 312 W. 52nd St., N. Y. City.
- LLOYD**—gasoline marine motors, 1000 Island Boat & Engine Co., Morristown, N. Y.
- LOBEE**—pumps (circulation & bilge), Lobe Pump & Machinery Co., 140-152 Terrace, Buffalo, N. Y.
- LOBSTER CLAW**—battery connections, The Tregoning Elec. Mfg. Co., Cleveland, Ohio.
- LOCK**—grease cups, The Lunkenheimer Co., Cincinnati, O.
- LOCKPORT**—radiators, hoods & mud guards, Lockport Stamping Co., Race St., Lockport, N. Y.
- LOCKWOOD**—pressure gauges, Industrial Instrument Co., Foxboro, Mass.
- LOCKWOOD**—primers, Carter & Peek, 214 Carter Bldg., Jackson, Mich.
- LOCO**—high speed steels, Atlas Steel Co., Dunkirk, N. Y.
- LOEW VICTOR**—stationary engines & pipe cutting & threading machinery, The Loew Mfg. Co., Cleveland, O.
- LONDON**—automobile tops & drop glass fronts, London Auto Supply Co., 2540-48 Wabash Ave., Chicago, Ill.
- LONG**—radiators, Long Mfg. Co., 1430-34 Michigan Ave., Chicago, Ill.
- LONG DISTANCE**—wind shields, tool boxes, battery cases, magnetos & electric auto horns, The Guarantee Tire & Rubber Co., 208-210 S. Illinois St., Indianapolis, Ind.
- LONG LIFE**—rawhide lace & clutch leather, National Leather Belting Co., 29 Ferry St., N. Y. City.
- LOOKOUT**—burner tips, cycle, American Lava Co., Chattanooga, Tenn.
- LOOKOUT**—glass front cleaners, Lookout Cleaner Mfg. Co., 55 Wabash Ave., Chicago, Ill.
- ***LOOMIS**—carburetors, Loomis Auto Co., Westfield, Mass.
- LORAIN**—marine gasoline engines, National Steel Products Co., Lorain, O.
- LORD**—wrenches, pipe cutting tools & reamers, L. L. Lord Co., Meadville, Pa.
- LORING**—speed gauge, Loring Auto Appliance Co., 42 W. 43rd St., N. Y. City.
- LO-SWING**—lathes, Fitchburg Machine Works, Fitchburg, Mass.
- LOUNSBERY**—button machines, G. H. Lounsbury & Sons, 107-109 W. Third St., Cincinnati, O.
- LOWELL**—linen thread, Jno. C. Meyers & Co., Lowell, Mass.
- LOXIT**—lock switches, Loxit Motor-Lock Co., North Tonawanda, N. Y.
- LOXON**—lamp guards, Crescent Co., Valparaiso, Ind.
- LUBROLEINE**—oil, Fisk Bros. Refining Co., 24 State St., N. Y. City.

- MANVILLE—fire extinguishers, W. H. Johns-Manville Co., 100 William St., N. Y. City.
- LUCAS—colors, top dressing & enamels, John Lucas & Co., Phila., Pa.
- LUCAS—power presses, Lucas Machine Tool Co., Cleveland, Ohio.
- LUCO—lamp brackets, Luce Mfg. Co., Inc., Dalton, Mass.
- LUMEN—bronze, manganese & brass castings, Lumen Bearing Co., Buffalo, N. Y.
- LUMINO—metal polish, F. T. Lord Polish Co., 37 Hovey Ave., Cambridge, Mass.
- *LUNDGREN—distributors & timers comb. & ignition batteries, Lundgren Mfg. Co., Ridge Ave. & Green St., Phila., Pa.
- LUNKENHEIMER—generator valves, lubricators, grease cups, priming cups, relief valves, pressure regulators, oil & fuel pumps, water gauges, etc., The Lunkenheimer Co., Cincinnati, Ohio.
- LUSTRAL—metal polish, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- *LUSTRE—metal polishes, Lustre Chemical Co., 1303 Michigan Ave., Chicago, Ill.
- LUSTRE—top dressing & wood polish, Aquilla Chemical Co., 187 Third Ave., Milwaukee, Wis.
- LUTA—burners, Wm. M. Crane Co., 1131-1133 Broadway, N. Y. City.
- LUTZ—storage ignition batteries, The Lutz-Lockwood Mfg. Co., Aldene, N. J.
- LUVERNE—automobile wheels, Luverne Automobile Co., Luverne, Minn.
- LUXURY—auxiliary chairs, Graves & Congdon Co., Carriage Ave., Amesbury, Mass.
- LYCOPART—foundry partings, L. J. Swoboda, 96 Warren St., N. Y. City.
- LYON—lockers, steel racks, boxes, barrels, tables, trucks & tool boxes, Lyon Metallic Mfg. Co., Aurora, Ill.
- M**
- McADAMITE—metal, U. S. McAdamite Metal Co., 18-28 Rapelye St., Brooklyn, N. Y.
- McCABE—lathes, J. J. McCabe, 30 Church St., N. Y. City.
- McCANNA—lubricators & carburetors, McCanna Mfg. Co., 56 N. Jefferson St., Chicago, Ill.
- McCLELLAN—breast drills, Lancaster Machine & Knife Works, Lancaster, N. Y.
- McCLELLAN—files & rasps, Nicholson File Co., Providence, R. I.
- McCORD—lubricators, radiators, radiator fans, carburetors & belting, McCord Mfg. Co., 2587 E. Grand Blvd., Detroit, Mich.
- McCROSKY—adjustable reamers & expanding mandrels, The McCrosky Reamer Co., Meadville, Pa.
- *McFADDEN—gasoline marine motors, McFadden Mfg. Co., Havana, Ill.
- McGREGOR—bumpers, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- McKEAN—lamp brackets, Pendleton Auto Garage, Westfield, Mass.
- McKIM—gaskets, McCord Mfg. Co., 2587 E. Grand Blvd., Detroit, Mich.
- McKINNON—automobile dashes, license hangers, mud guards & folding auto seats, McKinnon Dash Co., Amherst St., Buffalo, N. Y.
- McNAULL—automobile tires, The McNaull Auto Tire Co., 228 Cherry St., Toledo, O.
- *M. A.—gasoline storage tanks, Motor Accessories Co., 43 Cortland St., N. Y. City.
- M. & B.—auto oil & grease, McLean-Brandom Oil & Supply Co., 65 Long Wharf, Boston, Mass.
- M & B—carburetors, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- M & B—speed change gears, frames, axles, transmissions & steering apparatus, imported by Lavalette & Co., Stoddard-Dayton Bldg., N. Y. City.
- M. & B. NOX—ALL—metal polishes, McLean-Brandom Oil & Supply Co., 65 Long Wharf, Boston, Mass.
- M. I. F. CO—pipe fittings, Malleable Iron Fittings Co., Branford, Conn.
- M & M—oils & greases, Miller & McLean, 120 Liberty St., N. Y. City.
- M. & M.—tire repair outfit, M. & M. Mfg. Co., Akron, O.
- M. R. V.—metal melting furnaces, J. B. Wise, Watertown, N. Y.
- M. & S.—magnetos, Mavity-Sleeper Co., Fowler, Ind.
- M. W. M.—gloves, The Gloversville Auto Glove Co., Gloversville, N. Y.
- M. & W.—tires, Morgan & Wright, Foot of Bellevue St., Detroit, Mich.
- MACLACHLAN—steam engines (auto & marine), Detroit Steam Engine Co., 15 Gilman St., Detroit, Mich.
- MACPHAIL—steel foundry flasks, Macphail Flask & Machine Co., Fort Madison, Iowa.
- MADDEN—files, The Whitaker Mfg. Co., 509 W. Monroe St., Chicago, Ill.
- MADISON SQUARE—annunciators, speaking tubes, push button switches, toilet cases, etc., C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- MAGIC—drill chucks, Modern Tool Co., Erie, Pa.
- MAGIC—metal polishes, Charles F. Sweet, Inc., 20 Ford St., Hartford, Conn.
- MAGIC—rubber hose & belting, United & Globe Rubber Mfg. Co., Trenton, N. J.
- MAGIC—soap, The O. F. Zurn Co., Broad & Lehigh Ave., Phila., Pa.
- MAGICLEAN—wood & metal polish, F. A. Schmoeger, Sterling, Ill.
- *MAGICO—wood polishes, metal polishes & auto body cleansing compounds, Orient Specialty Co., 178 Fulton St., N. Y. City.
- MAGNALIUM—aluminum alloy ignots, sheets, rod, wire & tubing, Morris R. Machol, 16 Beaver St., N. Y. City.
- *MAGNA QUICK CHANGE—rigid battery holder, R. W. Magna Mfg. Co., Holyoke, Mass.
- MAGNET—marine engines, side cars, imported by Magnet Motor Co., 1400 Michigan Ave., Chicago, Ill.
- MAGNOLIA—bearing metals, Magnolia Metal Co., 113-115 Bank St., N. Y. City.
- MAJESTIC—acetylene auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.
- MAJESTIC—gasoline automobile & marine motors, Milwaukee Auto Engine & Supply Co., 706-708 Winnebago St., Milwaukee, Wis.
- MAJESTIC—motorcycle stands, belt fasteners & belt drills, cycle spring forks & luggage carriers, Majestic Mfg. Co., Worcester, Mass.
- *MAJESTIC—wood polishes, The Consolidated Chemical Co., 691-93 W. Fort St., Detroit, Mich.
- *MAJOR—gasoline marine engines, Strelinger Marine Engine Co., 46 Congress St., E., Detroit, Mich.
- MAJOR JONES—marine motors, spark plugs & stationary engines, Major Jones Motor Co., 74 Sproat St., Detroit, Mich.
- MANCO—foot rests, robe rails, tire holders, lamp brackets, muffler cut-outs & timers, M. A. N. Mfg. Co., 257 W. Exchange St., Providence, R. I.
- MANGIN—mirror & condensing lenses, C. & A. Matisse, 543-549 E. 116th St., New York City.
- MANHATTAN—switches, coils & portable elec. lights, Manhattan Electrical Supply Co., 17 Park Place, N. Y. City.
- MANSFIELD—tires, mats, bumpers, inner tubes, tire cements & patches, Mansfield Rubber Co., Mansfield, O.
- MANTAHALAH—tire talc, North Carolina Talc & Mining Co., Hewitt, N. C.
- MANUFACTURING—key & air chucks, W. L. Abate, 76 W. Lincoln Ave., Mt. Vernon, N. Y.
- MANVILLE—automatic wire & metal forming machines, Manville Bros. Co., Waterbury, Conn.

- *MANY USE—oil, The Many-Use Oil Co., 113 Chambers St., N. Y. City.
- MANZEL—oilers, Manzel Brothers Co., 315-319 Babcock St., Buffalo, N. Y.
- MAPLE CITY—oil cans, Maple City Mfg. Co., Monmouth, Ill.
- MARBLE-HAYWOOD—vulcanizers, Haywood Tire & Equipment Co., 332 N. Illinois St., Indianapolis, Ind.
- *MARBLEHEAD—hull coating, Stearns & McKay, Marblehead, Mass.
- MARINE—grease cups, The Lunkenheimer Co., Cincinnati, O.
- MARION—reliners, Brackett & Gorham, Marion, O.
- MARK—gasoline marine & auto motors, propellers, reverse gears & boat lighting outfits, Mark Motor Co., 8721 Harkness Rd., Cleveland, O.
- MARKO—ignition batteries & lighting batteries, Marko Storage Battery Co., 102 Jefferson Ave., Brooklyn, N. Y.
- *MARLES—emergency patch, The Middlesex Co., 1031-32 N. Y. Life Bldg., New York City, N. Y.
- MARS—lubricators, The Lunkenheimer Co., Cincinnati, O.
- MARS—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- MARSH—steam air pumps, American Steam Pump Co., Battle Creek, Mich.
- MARTEN—fire extinguishers, The Tea Tray Co. of Newark, Mulberry & Murray Sts., Newark, N. J.
- MARTIN—fuel strainers, The Turner Brass Works, Sycamore, Ill.
- MARVEL—cycle motors & frames, Marvel Motorcycle Co., Hammondsport, N. Y.
- MARVEL—carburetors & gasoline strainers, Marvel Carburetor Co., 15½ Virginia St., Indianapolis, Ind.
- MARVEL—hack saws, portable grinders, punches & shears, Armstrong-Blum Mfg. Co., 339-57 N. Francisco Ave., Chicago, Ill.
- MARVEL—metal polish, Rex Chemical Co., 104 S. Howard St., Baltimore, Md.
- MARVEL—storage batteries, The Excelsior Storage Battery Co., 14 E. 116th St., N. Y. City.
- MASCO—ignition storage batteries, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- MASCOT—babbitt metal, Light Mfg. & Foundry Co., Union & Queen Sts., Pottstown, Pa.
- MASCOT—cycle handle bar grips & enameling ovens, American Enamel Co., Providence, R. I.
- MASCOT—cycle & motorcycle handle bar grips & enameling ovens, American Enamel Co., Providence, R. I.
- MASCOT—gasoline stationary engines, Jacobson Machine Mfg. Co., Warren, Pa.
- MASCOT—polishing compounds, Bennett-O'Connell-Stevens Co., 97-101 Clinton St., Chicago, Ill.
- MASON—battery connections & battery holders, The Sumter Telephone Mfg. Co., Sumter, S. C.
- MASON—gasoline marine engines, Wm. H. Mason, Mt. Carmel, Ill.
- MASTER WORKMAN—stationary gasoline engines, The Temple Pump Co., 17-27 W. 15th St., Chicago, Ill.
- MATCHLESS—cigar lighters & portable electric lights, The Match-Less Light Co., Caxton Bldg., Cleveland, O.
- MATCHLESS—gears, pinions & racks, Philadelphia Gear Works, 1120-22 Vine St., Phila., Pa.
- MATHISON—gasoline motor boats, Mathison Boat Co., River & Bowen Sts., Oshkosh, Wis.
- MATISSE—lamp lenses, condensing, C. & A. Matisse, 543-549 E. 116th St., N. Y. City.
- MATS—wood polish & leather dressing, Weiss Polish Works, 714 S. Marshfield Ave., Chicago, Ill.
- MATTHEWS—motor boats, The Matthews Boat Co., Port Clinton, O.
- MATTOON'S—hand soaps & powders, Mattoon Mfg. Co., 120 Allyn St., Hartford, Conn.
- MATTSON—sponge rubber motorcycle grips, Lodi, N. J.
- MAXIM—tire inflators, F. A. Law Machine Co., 41 Wells St., Hartford, Conn.
- MAXIMUM—driving chains, auto, Link-Belt Co., Hunting Park Ave. & Reading Ry., Nicetown, Phila., Pa.
- MAXIMUS—carburetors, timers & auto lamps, Beckley Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- MAXWELL—seats, auto, The Fellwock Automobile & Mfg. Co., Evansville, Ind.
- MAYDOLE—hand hammers, The David Maydole Hammer Co., Norwich, N. Y.
- MAYER—carburetors, Mayer Carburetor Co., 2673 Main St., Buffalo, N. Y.
- MAYHEW—hand punches, H. H. Mayhew Co., Shelburne Falls, Mass.
- MAYO—radiators, hoods, mud guards, tanks & sheet metal articles, The Mayo Radiator Co., State & Mill River Sts., New Haven, Conn.
- MAYO—tires, James Mayo, 222 Penn St., Reading, Pa.
- MEA—magnetos, imported by Theo. H. Marburg, Room 12, 59 Wall St., N. Y. City.
- MEADE—pipe vises, L. L. Lord Co., Meadville, Pa.
- *MECCO—gasoline marine motors, Mechanical Electrical Construction Co., 1609-11 Camac St., Phila., Pa.
- MECHANICS—multiple spindle drills, Mechanic's Machine Co., Rockford, Ill.
- MECHANICS HALL—annunciators, speaking tubes, push button switches, toilet cases & bouquet holders, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- *MEG—oil cans, Gem Mfg. Co., Pittsburg, Pa.
- MEMCO—grease cups, Mechanical & Electrical Mfg. Co., rear 2227 Prairie ave., Chicago, Ill.
- MENDENHALL—road maps & guides, C. S. Mendenhall, 512 Race St. Cincinnati, Ohio.
- MENNS—carburetors, Derry Mfg. Co., Derry, N. H.
- MENOMINEE—dynamos, Menominee Electric Mfg. Co., Menominee, Mich.
- MEPHISTO—auger bits & bit braces, W. A. Ives Mfg. Co., Wallingford, Conn.
- MEPHISTO—spark plugs, Mica Core Mfg. Co., 442 E. 166th St., N. Y. City.
- MERCEDES—oil, Charles F. Sweet, Inc., 20 Ford St., Hartford, Conn.
- MERIDEN—lathes, The Meriden Machine Tool Co., Meriden, Conn.
- MERITAS—water-proof covering materials & upholstery goods, Standard Oil Cloth Co., 320 Broadway, N. Y. City.
- MERKEL—cycle motors, Merkel-Light Motor Co., Pottstown, Pa.
- MERMAID—leather belting, Hudson Belting Co., 1-3 Eaton Pl., Worcester, Mass.
- MERRELL—pipe threading & cutting machines, The Merrell Mfg. Co., Toledo, O.
- MERRITT—shock absorbers, F. W. Merritt, Room 211, 1777 Broadway, N. Y. City.
- MESCO—sparking coils, Manhattan Electrical Supply Co., 17 Park Place, New York City, N. Y.
- MESINGER—bicycle saddles, tire repair bands, shock absorbing, saddle attachment & rebound check springs for autos, H. & F. Mesinger Mfg. Co., 1801-03 First Ave.,
- *METAL-BRITE—metal polish, Leader Mfg. Co., 1808 Chestnut St., St. Louis, Mo.
- *MET-AL-INE—metal polish, The Victor Mfg. Co., 72 Chestnut St., Newark, N. J.
- METALLIC PHOSPHORO—aluminized zinc, The New Era Mfg. Co., Kalamazoo, Mich.
- METCALF—emery wheel dressers, Heald Machine Co., Worcester, Mass.
- METEOR—spark plugs, Auto Specialties Mfg. Co., 656-658 3rd St., Milwaukee, Wis.
- METEOR—oil auto maps, C. T. Ham Mfg. Co., Rochester, N. Y.
- METEOR—tires, blowout patches & tire accessories, Shawmut Tire Co., 97 Bedford St., Boston, Mass.
- METEOR—wire for sparking points, Herman Boker & Co., 101 Duane St., New York City.

- METROPOLITAN—colors, John Lucas & Co., Phila., Pa.
- MEXOLINE—metal polish, Matchless Metal Polish Co., N. Y. City.
- MEXOLINE—metal polishes, McKenna Bros. Brass Co., First Ave. & Ross St., Pittsburgh, Pa.
- MEYER EXPANSION—reamers, Meyer Reamer Co., 1539 Buhner Ave., Cleveland, O.
- MEYER HUB SEWING THREAD, MEYER DIAMOND SPOOL SILK, MEYER NEVER RIP TUFTING TWINE, MEYER SPOOL COTTON & LOWELL LINEN THREAD, Jno. C. Meyer & Co., Lowell, Mass.
- MEZGER AUTOMATIC—wind shields, C. A. Mezger, Inc., 239 W. 56th St., N. Y. City.
- MIAMI—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- MIAMI—stationary engines, The Middletown Machine Co., Middletown, Ohio.
- MIAMI VALLEY—lathes, sensitive drills & tail stock turrets, Miami Valley Machine Tool Co., Dayton, Ohio.
- MIANUS—gasoline marine motors & gasoline hoists, Mianus Motor Works, Mianus, Conn.
- MICABOND—mica, Chicago Mica Co., Valparaiso, Ind.
- MICALINE—grease, The New York Mica & Mfg. Co., 122 Clark St., Auburn, N. Y.
- MICASMITHS—mica cores, plates, bushings, segments, tubes, rings, washers, cut and uncut mica, etc., Mica Mfg. Co., 307 W. Broadway, N. Y. City.
- MICHELIN—tires, rims, tire irons, cements, tire repair articles, tire sleeves, tire tools, tire valves, tire pressure registers, tire kits, tire mastics & tire bolts, Michelin Tire Co., Milltown, N. J.
- MICHIGAN—gasoline automobile motors & automobile transmission gears, Michigan Automobile Co., Ltd., Kalamazoo, Mich.
- MICHIGAN—ignition & vehicle batteries, lighting batteries & recharging boards, Knop Battery Co., 69 Atwater St. E., Detroit, Mich.
- MICHIGAN—stationary gas & gasoline engines, National Engineering Co., Saginaw, Mich.
- MICHIGAN—transmission gears for motor boats, Michigan Wheel Co., Canal & Le Grande Sts., Grand Rapids, Mich.
- MIDGET—ignition batteries & ignition battery rechargers, Geiszler Bros. Storage Battery Co., 514-516 W. 57th St., N. Y. City.
- MIETZ—kerosene marine motors, electric charging apparatus, air compressors & friction clutches for boats, Aug. Mietz, 128-138 Mott St., N. Y. City.
- MILBRADT—wind shields, Milbradt Mfg. Co., 1436-42 N. 8th St., St. Louis, Mo.
- MILFORD—hack saw blades, Henry G. Thompson & Son Co., New Haven, Conn.
- MILFORD—leather automobile clothing, Milford Shoe Co., Milford, Mass.
- MILLER—ratchet tools, Walworth Mfg. Co., 128 Federal St., Boston, Mass.
- *MILLER—saw trimmers, Miller Saw-Trimmer Co., Milwaukee, Wis.
- *MILLER—shock absorbers & coil springs, Surprise Distributing Co., 1931 Broadway, N. Y. City.
- MILLER—spark plugs & jacks, Chas. E. Miller, 97-101 Reade St., N. Y. City.
- MILLER—wind shields, Bridgeport Vehicle Co., South Ave. & Water St., Bridgeport, Conn.
- MILLERS FALLS—tool holders & breast drills, Millers Falls Co., 28 Warren St., N. Y. City.
- MILL'S—battery connections, Stackpole Battery Co., St. Marys, Pa.
- MILLS—dry core compounds, H. E. Mills Mfg. Co., Syracuse, N. Y.
- MILWAUKEE—files & rasps, F. Westfahl & Co., Milwaukee, Wis.
- MILWAUKEE—milling machines & cutters, Kearney & Trecker, Milwaukee, Wis.
- MILWAUKEE—shapers & tool grinders, Lutter & Gies, 253 Lake St., Milwaukee, Wis.
- MILWAUKEE—timers, spark plugs & carburetors, Milwaukee Auto Engine & Supply Co., 706-708 Winnebago St., Milwaukee, Wis.
- MIN-CARB—oils & greases, Royal Lubricating Oil Co., 116 Broad St., N. Y. City.
- MINERVA G & A—carburetors, imported by Geo. V. Lyons Motor Co., 2332-84 Broadway, N. Y. City.
- MINGST—tool holders, boring, cutting off & turning tools, C. P. Mingst, 1230 Riverside Ave., Evansville, Ind.
- MINNIE DUPREE—auto veil, Boehm & Levine, 561-563 Broadway, N. Y. City.
- MINUTE—tire adjusters, The Long & Mann Co., 13 Graves St., Rochester, N. Y.
- MIONE—hand soap, The Mione Mfg. Co., Hartford, Conn.
- MIRROSCOPE—mirrors, J. Alexander Co., 1931 Broadway, N. Y. City.
- MISSOURI—gasoline marine motors, H. Lipfert, 2810 N. 11th St., St. Louis, Mo.
- MITCHELL—fire extinguishers, Badger Chemical Mfg. Co., 143 Reed St., Milwaukee, Wis.
- MITE—grease cups, The Lunkenheimer Co., Cincinnati, Ohio.
- MOBILENE—gaskets, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- MOBIL-OIL—automobile oil, Vacuum Oil Co., Rochester, N. Y.
- MOBILUBRICANT—cup grease, Vacuum Oil Co., Rochester, N. Y.
- MOBO—auto body cleansing compounds, John T. Stanley, 650 W. 30th St., New York City, N. Y.
- MOCKING-BIRD—auto whistles, The Lunkenheimer Co., Cincinnati, O.
- MOCO—oils, Marshall Oil Co., Marshalltown, Ia.
- MODEL—gasoline automobile motors, Model Gas Engine Works, Peru, Ind.
- MODEL—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- MODEL—wind shields, Model Iron & Wire Works, 32nd & Vliet Sts., Milwaukee, Wis.
- MODERN—tapping attachments, Modern Tool Co., Erie, Pa.
- MODERN—wind shields, tops & upholstery covers, Modern Autop & Equipment Co., 607 St. Claire Ave., N. E. Cleveland, O.
- MODOC—auto oils, greases & metal polishes, The Modoc Co., Fernwood, Pa.
- MOGUL—die castings & nickel babbitt, Mogul Metal Co., 149-151 Larned St., Detroit, Mich.
- MOGUL—gaskets, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- MOHAWK—grinding paste, Mohawk Grinding Paste Mfg. Co., Box 608, Schenectady, N. Y.
- MOLINE—spark plugs, Moline Pump Co., Moline, Ill.
- MONACA—drill rods, Pittsburgh Tool Steel Wire Co., Monaca, Pa.
- MONARCH—automobile oils, Tiona Refining Co., Indianapolis, Ind.
- MONARCH—bicycles, The Pope Mfg. Co., Hartford, Conn.
- MONARCH—crusher & pulverizer, O. J. Moussette Co., Inc., Driggs Ave. & N. 10th St., Brooklyn, N. Y.
- MONARCH—drilling machines & ratchet drills, Keystone Mfg. Co., 41-51 Chandler St., Buffalo, N. Y.
- MONARCH—extra tire holders, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- MONARCH—ferrules, Bay State Stamping Co., 380 Chandler St., Worcester, Mass.
- MONARCH—furnaces & core ovens, The Monarch Engineering & Mfg. Co., 1200-06 American Bldg., Baltimore, Md.
- MONARCH—gasoline auto & marine engines & engines for lighting outfits, Monarch Motor Mfg. Co., 3145 N. Halsted St., Chicago, Ill.
- MONARCH—gasoline marine engines, Grand Rapids Gas Engine & Yacht Co., Grand Rapids, Mich.

- MONARCH**—hardware, auto, curtain fasteners, storm aprons & top dust hoods, The Enterprise Brass & Plating Co., Cincinnati, O.
- MONARCH**—lace leather & fan pump & oiler belts, The Bradford Belting Co., Cincinnati, Ohio.
- ***MONARCH**—metal polishes, The Consolidated Chemical Co., 691-93 W. Fort St., Detroit, Mich.
- MONARCH**—pneumatic tools, hammers & drills, Standard Railway Equipment Co., St. Louis, Mo.
- MONARCH**—rope, steel wire, Macomber & Whyte Rope Co., 507-509 S. Clinton St., Chicago, Ill.
- MONARCH**—screw drivers, H. H. Mayhew Co., Shelburne Falls, Mass.
- MONARCH**—screw drivers, John Stortz & Son, 210 Vine St., Phila., Pa.
- MONARCH**—shock absorbers, Wellington P. Kidder, 40-46 Station St., Brookline, Mass.
- MONARCH**—spark plugs, E. M. Benford, Mt. Vernon, N. Y.
- MONARCH**—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- MONARCH**—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.
- MONARCH**—weldless chains, Bridgeport Chain Co., Bridgeport, Conn.
- MON BEJOU**—combination scarf & hood with veil, Boehm & Levine, 561-563 Broadway, N. Y. City.
- MONCRIEFF**—gauge glasses, imported by H. A. Rogers Co., 19 John St., N. Y. City.
- MONEL METAL**—castings, bars, rods, wire & valve stems, The Orford Copper Co., 43 Exchange Place, N. Y. City.
- MONITOR**—auto engines, Monitor Automobile Works, 315 Dearborn St., Chicago, Ill.
- MONITOR**—distributors, The Waterhouse Co., 6 Pelham St., Boston, Mass.
- MONITOR**—oil auto lamps, C. T. Hain Co., Rochester, N. Y.
- MONKEYSHINE**—metal polish, Kielgass-Lehman Co., 208 W. Kinzie St., Chicago, Ill.
- MONOGRAM**—metal polish, Royal Lubricating Co., 116 Broad St., N. Y. City.
- MONOGRAM**—oil, grease, wood polishes & auto body cleaning compounds, Columbia Lubricants Co., of New York, 116 Broad St., N. Y. City.
- MONOPLEX**—electric auto horns, Atwater Kent Mfg. Works, 42-46 N. 6th St., Phila., Pa.
- MONTBARD-AULNOGE**—forgings of pistons, cylinders, axles, etc., imported by Lavallette & Co., Stoddard-Dayton Bldg., N. Y. City.
- MOONEY'S**—wood polish, A. J. Mooney, 359-63 Ninth Ave., N. Y. City.
- ***MOORE**—gasoline marine motors & timers, Palmer-Moore Co., Talman & Oneida Sts., Syracuse, N. Y.
- MOORE'S**—automobile jacks, J. C. Moore & Co., Racine, Wis.
- MORGAN**—anti-skid chains, Enterprise Chain Co., Trenton, N. J.
- MORGAN**—check valves, B. Morgan, Tew's Court, Old Beach Road, Newport, R. I.
- MORGAN**—mixing valves & lubricators, Pioneer Iron Works, Antigo, Wis.
- MORGAN & WRIGHT**—motorcycle tires, Morgan & Wright, Foot of Bellevue St., Detroit, Mich.
- MOROCCOLINE**—trimming leather, Boston Artificial Leather Co., 310 Fourth Ave., N. Y. City.
- MORRIS**—radial drills, The John B. Morris Foundry Co., Cincinnati, Ohio.
- MORRISON**—trunks, L. E. Morrison & Co., 27 W. Washington St., Indianapolis, Ind.
- MORROW**—drill chucks, Morrow Mfg. Co., Elmira, N. Y.
- MORSE**—chains, Morse Chain Co., Ithaca, N. Y.
- MORSE**—jacks, J. E. Morse, Springfield, Vt.
- MORSE**—plug connectors, cord adjusters & fibre candelabra base sockets, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
- MORSE EUREKA**—terminals, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
- MORSS**—boat whistles, anchors, ignition batteries, coils, levers, pitchometers & hermetic cases, A. S. Morss Co., 210-212 Commercial St., Boston, Mass.
- MOSLER**—timers, distributors & marine spark plug protectors, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- MOSSBERG**—roller bearings, Standard Machinery Co., 7 Beverly St., Providence, R. I.
- MOSSO'S MONARCH**—tempering compounds, C. A. Moss, Chicago, Ill.
- MOTART STANWOOD**—auto steps, power hack saws & cranes & hoists, Motor Parts Co., Plainfield, N. J.
- MOTOLINE**—oils & greases, E. F. Houghton & Co., 240 W. Somerset St., Phila., Pa.
- MOTOR**—ignition batteries, Chicago Battery Co., 2600-10 Wabash Ave., Chicago, Ill.
- ***MOTOR CAR**—heaters, Motor Car Heater Co., 84 Adams St., Chicago, Ill.
- MOTORITE**—packing, Crandall Packing Co., Palmyra, N. Y.
- MOTORKIT**—tool kits, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
- MOTORLUBE**—oil & grease, E. A. Tygert Co., 126 N. Front St., Phila., Pa.
- MOTOR MENANGE**—lunch baskets, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- MoToRoL**—cylinder oils, New York & New Jersey Lubricant Co., 165 Broadway, N. Y. City.
- MOTSINGER AUTO-SPARKER**—dynamos & charging boards, Motsinger Device Mfg. Co., Pendleton, Ind.
- MOTSINGER**—exhaust mufflers for gasoline auto engines, muffler cut-outs, magnetos & switches, Motsinger Device Mfg. Co., Pendleton, Ind.
- MOTZ**—clincher tire, Motz Clincher Tire & Rubber Co., Akron, Ohio.
- MOUND**—tool kits, cotter pin extractors, cold chisels, carbon & bearing scrapers & screw drivers, Mound Tool & Scraper Co., 1606-1608 N. Broadway, St. Louis, Mo.
- MT. CARMEL**—hardware, auto, The Walter W. Woodruff & Sons Co., Mt. Carmel, Conn.
- MUELLER**—motorcycle tandem attachments, rubber grips, motorcycle lamp brackets & pedal repair pins, L. J. Mueller, 6417 Woodland Ave., S. E., Cleveland, Ohio.
- MUELLER**—radial drills, The Mueller Machine Tool Co., 2427-29 Colerain Ave., Cincinnati, O.
- MULLINS**—gasoline motor boats, W. H. Mullins Co., Salem, Ohio.
- MULTIPLE**—dry cells, National Carbon Co., Lock Drawer "L," Cleveland, O.
- MULTIPLE**—lubricators, The Lunkenheimer Co., Cincinnati, O.
- MULTIPLEX**—ignition batteries, National Carbon Co., Lock Drawer "L," Cleveland, O.
- ***MULTI-SPEED**—gasoline auto motors, Palmer-Moore Co., Talman & Oneida Sts., Syracuse, N. Y.
- MULTO**—wrenches, Lowell Wrench Co., 100 Exchange St., Worcester, Mass.
- MUNCIE**—axles, brakes, buggy type auto parts, differential gears, countershafts, gasoline auto engines, gears & pinions, speed change gears, brake drums & sprockets, Muncie Gear Works, Muncie, Ind.
- MUNSING**—axles, clutches & speed change gears, Munsing Motor Car Co., Hoboken, N. J.
- MURPHY**—current rectifiers, Murphy Electricity Rectifier Co., Rochester, N. Y.
- MURPHY**—curtain fasteners, moulding, bow separators, handles, etc., The G. W. J. Murphy Co., Merrimac, Mass.
- MURRAY**—automobile jacks, Bicycle Step Ladder Co., 65 Randolph St., Chicago, Ill.
- MURRAY**—auto pneumatic tires & inner shoes, A. L. Murray, Grand Rapids, Mich.
- MURRAY**—axles & auto wheels, The Murray Safety Wheel & Axle Co., 442 Atlantic Ave., McKeesport, Pa.
- MURRAY**—round tire boxes, Joseph Murray, Newton, Mass.
- MURRAY**—separator & liner, Non-Corrosive Metal Co., Inc., Watertown, Mass.

MURRAY DOUBLE LOCK & MURRAY
FIRST-AID—tire repair patches, A. L. Murray, Grand Rapids, Mich.
MUSHET—steels, imported by B. M. Jones & Co., Inc., 141 Milk St., Boston, Mass.
MUSSELMAN—coaster brakes, Miami Cycle & Mfg. Co., Grand Ave., Middletown, Ohio.
MUTUAL—universal joints, The Mutual Machine Co., 25 Wells St., Hartford, Conn.
MYERS—auto seats & spring repair devices, Dayton Auto Top Co., Dayton, Ohio.
MYERS AERTITE—hand tire pumps, Columbia Grey Iron Co., Columbia, Pa.
MYHTIB—rubber preservatives, "Myhtib" Composition Co., 284 Asylum St., Hartford, Conn.

N

N C—rustless nickel & phosphor bronze castings, Non-Corrosive Metal Co., Inc., Wattertown, Mass.
N. E.—gears & pinions, differential gears & speed change gears, New England Gear Works, 100 Purchase St., Boston, Mass.
N. S. U.—two-speed gears, side & fore cars & delivery vans, engine clutches, motorcycle accessories, belt fasteners, belt punches, puncture proof bands & motorcycle belts, N. S. U. Motor Co., 206 W. 76th St., N. Y. City.
NACEFAS—oily waste cans, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
NADALL—demountable rims & tire lugs, Nadall-Van Sicklen Mfg. Co., 1339 Michigan Ave., Chicago, Ill.
NAPOLEON—castings, The City Brass Foundry Co., 5310-32 St. Clair Ave., Cleveland, Ohio.
NAPOLEON—shock absorbers, Oil Tempering Spring Co., Chicopee Falls, Mass.
NASH—stationary engines, National Meter Co., 84-86 Chambers St., N. Y. City.
NASSAU—automobile tires, Thermoid Rubber Co., Trenton, N. J.
NASSAU—bicycles & tires, New York Sporting Goods Co., 17 Warren St., N. Y. City. (Jobbers.)
NATHAN—sleeve protectors, rubber capes, leggings, tool rolls, rain & dust aprons, inner tube bags, auto lamp covers, grease bags, rubber robes, coat rail bags, trunk covers, top covers, starting handle holders, auto & tire trunks, wash aprons & spark plug cases, Nathan Novelty Mfg. Co., 84-90 Reade St., N. Y. City, N. Y.
NATHAN LOCK FLAP—tire cases, Nathan Novelty Mfg. Co., 84-90 Reade St., N. Y. City.
NATIONAL—battery charging rheostats, National Electric Supply Co., 1110-12 W. Lake St., Chicago, Ill.
NATIONAL—bicycles, National Cycle Mfg. Co., Bay City, Mich.
NATIONAL—bicycle wrenches, Frank Mossberg Co., Attleboro, Mass.
NATIONAL—carburetors, W. D. Pulver, Salem, N. H.
NATIONAL—chisels, tool kits & cotter pin pullers, National Cutlery Co., Detroit, Mich.
NATIONAL—coils & spark plugs, National Coil Co., 412 Michigan Ave., E., Lansing, Mich.
*NATIONAL—cotton pins, rivets, nuts & bolts, National Screw & Tack Co., Cleveland, Ohio.
NATIONAL, NATIONAL-SPECIAL & NATIONAL-PRESSURE—fuel level indicators, National Motor Supply Co., Cleveland, O.
NATIONAL—gasoline storage outfits, National Oil Pump & Tank Co., 411-413 E. First St., Dayton, O.
NATIONAL—hand shears, National Cutlery Co., Westmoreland & Boudinot Sts., Phila., Pa.
NATIONAL—jacks, National Jack & Mfg. Co., 132 & 34 S. Clinton St., Chicago, Ill.
NATIONAL—keyseating machines, National Machine Tool Co., 212 Lawrence St., Cincinnati, Ohio.
NATIONAL—lathe & drill chucks, Oneida National Chuck Co., Oneida, N. Y.
NATIONAL—linseed oil & auto body soap, The National Tripolio Co., 543 W. Goodase St., Columbus, Ohio.
NATIONAL—lock washers, curtain fasteners, curtains, sash locks & balances, National Lock Washer Co., 65 Johnson St., Newark, N. J.
NATIONAL—oil burners, Judson L. Thompson Mfg. Co., Waltham, Mass.
NATIONAL—oil filters & oil separators for turret lathe chips, National Separator & Machine Co., Boston, Mass.
NATIONAL—packing, National Metallic Packing Co., Oberlin, O.
NATIONAL—speed indicators, National Speed Indicator, 147 Columbus Ave., Boston, Mass.
NATIONAL—storage batteries, The United States Light & Heating Co., 30 Church St., N. Y. City.
NATIONAL—tires, pneumatic auto, Automobile Tire Co., Inc., 1625 Broadway, N. Y. City.
NATIONAL—tire pressure registers, Kellogg Mfg. Co., E. Main & Circle Sts., Rochester, N. Y.
NATIONAL—tool kits, reamers, twist drills, taps & screw plates, The Whitaker Mfg. Co., 30 W. Monroe St., Chicago, Ill.
NATIONAL—twist drills, wrenches, taps, reamers and screw plates, Whitaker Mfg. Co., 509 W. Monroe St., Chicago, Ill.
NATIONAL—vulcanizers, National Motor Supply Co., Cleveland, Ohio.
NATIONAL—wind shields, National Auto Top Co., 1904 Broadway, N. Y. City.
NATIONAL-AIRLESS—tires, airless, Airless Tire Co., 806 W. Washington St., Indianapolis, Ind.
NAUGATUCK SEAMLESS—carburetor floats, Naugatuck Mfg. Co., Naugatuck, Conn.
*NAYS—metal polish, Bott Bros. Mfg. Co., 166 N. High St., Columbus, O.
N-DUR-AL—metal polish, Shi-Nal Co., 413 Emmet Road, Toledo, Ohio.
NEAL—tire repair kits, F. M. Neal Co., 1048 E. Main St., Bridgeport, Conn.
NEARKID—gauntlets, Seamless Rubber Co., New Haven, Conn.
NELSON—paints & colors, Keene, Peaslee & Co., Amesbury, Mass.
NELSON—wood polishes, metal polish & leather dressing, Jewel Mfg. Co., 21st St. & Marshall Blvd., Chicago, Ill.
NEPTUNE—water-proof belting, Graton & Knight Mfg. Co., 94-104 Bloomingdale Rd., Worcester, Mass.
NEVER-BREAK—brake drums, pressed steel tanks & metal washers, The Avery Stamp- ing Co., Cleveland, Ohio.
NEVER-BREAK—lamp guards, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
NEVER KREEP—tire protectors, John L. G. Dykes Co., Chicago, Ill.
NEVER-FAIL—automatic oil & gasoline guns, J. A. Harps Mfg. Co., Greenfield, Ohio.
NEVER LEAK—oil cans, The Delphos Mfg. Co., Delphos, O.
NEVERLEAK—tire fillings & injectors, Buffalo Specialty Co., 375-377 Ellicott St., Buffalo, N. Y.
NEVER LEAK—tire valves, Huestis Mfg. Co., Bristol, R. I.
NEVER-MISS—spark plug, voltmeters, ammeters & voltmeters, terminal battery connections & auto clocks, Never-Miss Spark Plug Co., Lansing, Mich.
NEVEROUT—lamps (bicycle, auto & boat), acetylene gas generators, dome lights & boat lighting outfits, Rose Mfg. Co., 911 Arch St., Phila., Pa.
NEVERQUIT—timers, Motorparts Co., St. Joseph, Mich.

- NEVER RUB—bow separators & brass top fixtures, Springfield Auto Top & Upholstering Co., 102-106 Dwight St., Springfield, Mass.
- NEVER SINK—boat pillows & cushions, Chicago Flag & Decorating Co., 350-52 Wabash Ave., Chicago, Ill.
- *NEVER-SLIP—anti-skid devices, The Empire Auto Specialty Mfg. Co., Berea, Ohio.
- NEVER-SLIP—hose clamps, Cleveland Pneumatic Tool Co., 6416 Hawthorne Ave., Cleveland, Ohio.
- NEVERSLIP—nipple grips (cycle), Keyser Fry, 723-25 Chestnut St., Reading, Pa.
- NEVERSLIP—file & tool handles, Niagara Handle & Ferrule Co., 321 N. Holliday St., Baltimore, Md.
- NEVERTURN—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
- NEVILLE—repair truck, T. Neville, Oshkosh, Wis.
- NEWBURN'S—linseed oil hand soap, Automobile Repair Co., 1103-1105 Pine St., St. Louis, Mo.
- NEW BRITAIN—portable vise stands, tool racks, lathe racks, shelving, bench legs & drawers & steel stock racks, The New Britain Machine Co., New Britain, Conn.
- NEW CENTURY—lever locks, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- NEW COLUMBIA—acetylene lamp burners, J. B. Carroll, 217 W. Illinois St., Chicago, Ill.
- NEW DEPARTURE—bicycle & auto bells, bicycle coaster brakes & ball bearings, New Departure Mfg. Co., Bristol, Conn.
- NEW EASY—bolt clippers, H. K. Porter, 6 Ashland St., Everett, Mass.
- NEW ENGLAND—watches, The New England Watch Co., Waterbury, Conn.
- NEW ERA—bearing metal, polishing compounds, boiler compounds, packing & aluminized zinc, The New Era Mfg. Co., Kalamazoo, Mich.
- NEW HAVEN—lathes, New Haven Mfg. Co., New Haven, Conn.
- NEW HAVEN—window anti-rattlers & tail-board fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- NEW HAVEN—wind shields, Holcomb Co., 105 Goffe St., New Haven, Conn.
- NEW HOLLAND—stationary & portable gasoline engines & rip & cross cut saws, New Holland Machine Co., New Holland, Pa.
- NEW IDEA—portable electric lights & heat retaining bottles, New Idea Sales Co., Corning, N. Y.
- NEW JERSEY—copper paints & metal polish, New Jersey Paint Works, Wayne & Tremont Sts., Jersey City, N. J.
- NEWLIN'S HOLD TIGHT—lamp adapters, W. D. Newlin, Paxton, Ill.
- NEW LITTLE GIANT—power hammers, Mayer Bros., 126 W. Rock St., Mankato, Minn.
- NEWMASTIC—tire filling & filled tires & inner tubes, Newmastic Tire Co., 151 W. 68th St., N. Y. City.
- NEW MODEL—stationary gas & gasoline engines, National Engineering Co., Saginaw, Mich.
- *NEWPORT—spark plugs, The K & T Mfg. Co., 32 Atlantic Ave., Boston, Mass.
- NEW PROCESS—drill rod, steel wire, tool steel & roller ball steel, New Process Steel Co., Lancaster, Pa.
- *NEW PROCESS—gasoline & liquid for hill climbing & endurance tests, Binder & Uller, Tidoute, Pa.
- NEW PROCESS—rawhide pinions & metal gears, auto transmission gears, compensating gears, The New Process Raw Hide Co., 500 Plum St., Syracuse, N. Y.
- NEW PRODUCT—auto gasoline, Oil City Oil & Grease Co., Oil City, Pa.
- NEW SAMSON—automobile jacks, Oliver Mfg. Co., 326 S. Desplaines St., Chicago, Ill.
- NEWTEEN—cupolas, ladles, etc., Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich.
- NEWTON—pulverizer & roller, Macgowan & Finigan Foundry & Machine Co., St. Louis, Mo.
- NEWTON—tops, W. H. Newton & Son, 127 Elm St., Cortland, N. Y.
- NEW WEST—top dressing, West Mfg. Co., 120 N. Madison St., Rockford, Ill.
- NEW YANKEE—surface & drill grinders, Willmarth & Morman Co., 583 Canal St., Grand Rapids, Mich.
- NEW YORK—slat irons, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- NEW YORK—valve grinding compounds, Hezlinger Bros., 202 E. 74th St., N. Y. City.
- NEW YORK AUTO WIRE—ignition cable, New York Insurance Wire Co., 114 Liberty St., Boston, Mass.
- NIAGARA—grease cups, Sherwood Mfg. Co., 1702-12 Elmwood Ave., Buffalo, N. Y.
- NIAGARA—motors, electric, auto, Manlius Motor Co., Manlius, N. Y.
- NIAGARA—power presses, shears & punches, hand punches, & hand & foot shears, Niagara Machine & Tool Works, Jefferson, Superior & Randall Sts., Buffalo, N. Y.
- NIAGARA—rubber hose, Boston Belting Co., 256-60 Devonshire St., Boston, Mass.
- NIAGARA—vehicle batteries, Niagara Lead Co., Niagara Falls, N. Y.
- NIAGARA SPRAY—carburetors, Steinbrenner & Co., 107 Victoria St., Buffalo, N. Y.
- NICE—wood fillers & colors, Eugene E. Nicc, 272 S. 2nd St., Phila., Pa.
- NICHOLS—kerosene marine motors & stationary motors, Nichols Power Co., Stamford, Conn.
- NICHOLSON—files & rasps, Nicholson File Co., Providence, R. I.
- NICHOLSON'S—expanding mandrels, taps & shaft couplings, W. H. Nicholson & Co., Wilkes-Barre, Pa.
- NICOLINE—rust preventives, Jas. S. Longhurst, Jr., Lynbrook, L. I., N. Y.
- NIELS—gasoline storage outfits, Wm. Niel & Co., 615 Division St., Chicago, Ill.
- NIGHTINGALE—whistles & motorcycle horns, Nightingale Whistle Mfg. Co., 1777 Broadway, N. Y. City.
- 1900—dry batteries, Nungesser Electric Battery Co., 27-33 King St., Cleveland, Ohio.
- NOERA—automobile tire hand pumps, cycle & motorcycle pumps & squirt oilers, Noera Mfg. Co., Waterbury, Conn.
- NO FLICKER—dynamos, The W. H. Coles Sales Organization, Troy, Ohio.
- NOFLUX—aluminum solder, Reinhold No-Flux Aluminum Solder Co., 50 Demarest St., Newark, N. J.
- *NO FREEZE—anti-freezing compound, Alger Laboratories, 294 Washington St., Boston, Mass.
- NOISLESS—ratchets, The Biddison Mfg. Co., 1516 Williamson St., Madison, Wis.
- NOKARBO—oils, Great Western Oil Co., 2855 E. 37th St., Cleveland, O.
- NO-KARBON—oil, Eagle Oil & Supply Co., 104 Broad St., Boston, Mass.
- *NO-KLOG—fuel strainers, Standard Gasoline Filter Co., Attleboro, Mass.
- NOKORODE—soldering paste, M. W. Dunton Co., Providence, R. I.
- NOKORODO—soldering fluid, The Webb Co., 60-62 Shipman St., Newark, N. J.
- NO KOROS—unions & fittings & malleable iron castings, Illinois Malleable Iron Co., 1801-25 Diversey Blvd., Chicago, Ill.
- NO-MOR-AUTO-FREEZE—anti-freezing compound, The Auto Shop Co., Cleveland, Ohio.
- NO-NAME—acetylene lamp burners, American Lava Co., Chattanooga, Tenn.
- NON-BURN—asbestos brake lining, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- NON-FLUID—oils, N. Y. & N. J. Lubricant Co., 14-16 Church St., New York City.
- NONFRIXO—grease, The Cincinnati Oil Works Co., Cincinnati, O.
- NON-GRAN—bronze, brake linings & cored bars, American Bronze Co., Berwyn, Pa.
- NONKORODA—boiler & radiator compound, The Nonkoroda Co., 25 & 227 New Chambers St., N. Y. City.

NONPAREIL—auto generator valves & oil cups, The Lunkenheimer Co., Cincinnati, O.

NONPAREIL—carburetors, A. J. Meyer, Castle Point, Hoboken, N. J.

NONPAREIL—horns, horn bulbs & horn reeds, Nonpareil Horn Mfg. Co., 139-147 Emerson Place, Brooklyn, N. Y.

NON-STRAIN—goggles, Ophthalmoscope Co., Toledo, Ohio.

NON-SUCH—metal polishes, Hercules Chemical Works, 1904 W. Van Buren St., Chicago, Ill.

NON-SWELL—rawhide gears & pinions, Widmer Machine Works, Inc., 292-94 East 135th St., N. Y. City.

NOONAN—valve pliers, cotton pin remover, crank swage, hand-forged tools, chain repair tool, inner tube tester, inner tube remover, soft face vise jaws, chain repair clamps, crank remover, valve truing tools & valve spring lifters, Noonan Tool & Machine Works, 103½-105 Dominick St., Rome, N. Y.

NORFOLK—gasoline marine motors, Norfolk Motor Co., Wollaston, Mass.

NORMA—ball bearings, imported by Lavalette & Co., Stoddard-Dayton Bldg., N. Y. City.

NORTH AMERICAN—gasoline automobile engines, North American Motor Corporation, New London, Conn.

NORTH CAROLINA—mica for insulation, D. T. Vance, Plumtree, N. C.

NORTHERN—cranes & hoists, Northern Engineering Works, Chene & Atwater Sts., Detroit, Mich.

NORTH STAR—metal polish, American Metal Polish Co., 89 Winslow Ave., West Somerville, Mass.

NORTHWAY—gasoline auto engines, Northway Motor & Mfg. Co., Maybury Ave., Detroit, Mich.

NORTHWESTERN—ignition batteries, electric auto lamps & boat lighting batteries, Northwestern Storage Battery Co., 140 Mason St., Milwaukee, Wis.

NORTON—grinding wheels, Motor Grinding Co., Barbers Crossing, Worcester, Mass.

NORWOOD—portable turntables & jacks, Auto & Accessories Mfg. Co., 1416 Madison Ave., Baltimore, Md.

NO-SHAMMY—funnels, unions & elbows, grease cups & device for flaring out gasoline pipings, The No-Shammy Co., 5711 Hough Ave., N. E., Cleveland, O.

NOVELTY—hoods, dust & mud shields, mud guards & tanks, Novelty Mfg. Co., Jackson, Mich.

*NOVO—stationary gas engines, The Hildreth Mfg. Co., 49 W. Hill St., Lansing, Mich.

NOXAL—auto body polish, NoXal Polish Mfg. Co., 1238-44 Belmont Ave., Phila., Pa.

NOYE—radiators, hoods, dashes & tool boxes, Centaur Motor Co., 53-61 Franklin St., Buffalo, N. Y.

NUE—ignition batteries, Union Battery Co., Belleville, N. J.

*NUGGET—wood polish, Nugget Polish Co., Ltd., 299 Broadway, N. Y. City.

NUGLOSS—automobile polish, The R. M. Hollingshead Co., Camden, N. J.

NO. 407—nickel babbitt, Mogul Metal Co., 149-151 Larned St., Detroit, Mich.

NUMBER NINE—oil storage outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.

NO. 1 LOG—speed & distance recording instruments, Nicholson Ship Log Co., Cleveland, O.

NO. 2 SUPERIOR—overhead vehicle washers, The Vehicle Specialty Co., Inc., 20 State St., Hartford, Conn.

NUTTALL—gears, pinions & flexible couplings, R. D. Nuttall Co., 925 Fayette St., Pittsburgh, Pa.

NYFLEXMET—metallic hose and flexible metallic tubing, American Metal Hose Co., 173-77 Lafayette St., N. Y. City.

NYOIL—oils, William F. Nye, New Bedford, Mass.

O

O. B.—mechanical tire inflators, O. Fenstermacher, 311 S. 5th St., Minneapolis, Minn.

O. K.—battery connections, O. K. Connector Co., 49 Waldo St., Worcester, Mass.

O. K.—forgings, disc grinders, lathe dogs, lathes, wrenches & machinery parts, O. K. Tool Holder Co., Shelton, Conn.

O. K.—friction clutch pulleys, The O. K. Clutch & Machinery Co., Phila., Pa.

O. K.—spark plugs, Pettingell-Andrews Co., 156-160 Pearl St., Boston, Mass.

OAKES—oils, greases & auto body cleansing compounds, Fred. T. Oakes, 150 Nassau St., N. Y. City.

OAK LEAF—leather trimming, J. H. Halsey & Smith, Ltd., Newark, N. J.

O'BANNON—leather top & upholstery materials, O'Bannon Corporation, 74 Duane St., N. Y. City.

OBERDORFER—pumps, M. L. Oberdorfer Brass Co., 804-808 E. Water St., Syracuse, N. Y.

O-CEDAR—wood polish, Channell Chemical Co., 1534 W. Lake St., Chicago, Ill.

ODEE—stationary gas engines, Odee & Koto Machine Co., 642 Race St., Beloit, Wis.

OESTERLEIN—horizontal, plain & universal milling machines, universal cutter & tool grinders, The Oesterlein Machine Co., Cincinnati, Ohio.

OHIO—jacks, Elite Mfg. Co., Ashland, O.

OHIO—portable electric lights & electric bicycle lamps, ignition batteries & dynamos, Ohio Electric Works, 6304 Ellen Ave., N. W., Cleveland, O.

OHIO—valves, engine & misc., to order, Ohio Brass Co., Mansfield, O.

OHIO SPECIAL—metal tubing & seamless steel, The Ohio Seamless Tube Co., Shelby, O.

OILDAG PASTE—graphite & oils, Acheson Oldag Co., Niagara Falls, N. Y.

OILEJAMMER—lubricant injectors, The Motor Car Supply Co., 1451-1455 Michigan Ave., Chicago, Ill.

*OILEO—auto oils, Harrington Lubricant Co., 1691 Broadway, N. Y. City.

*OILINE—grease, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, O.

*OILRIGHT—lubricant injectors & oil cans, Harvey Mfg. Co., 19 Montrose St., Rochester, N. Y.

*OILRIGHT—oil cans, Gem Mfg. Co., Pittsburg, Pa.

OILZUM—oils, greases & wood polish, The White & Bagley Co., Worcester, Mass.

OKONITE—ignition cable & insulating tape, The Okonite Co., 253 Broadway, N. Y. City.

OLDBERG—mufflers & muffler cutouts, Oldberg Mfg. Co., Detroit, Mich.

OLD OAK—leather belting, National Leather Belting Co., 29 Ferry St., N. Y. City.

OLDS—stationary engines, Seager Engine Works, 954 Chestnut St., Lansing, Mich.

OLEO—spark plugs, imported by The Motor Car Equipment Co., 55 Warren St., N. Y. City, N. Y.

OLIVER—speed indicators, Stecker Electric & Machine Co., Detroit, Mich.

OLIVER'S E-Z—automobile jacks, Oliver Mfg. Co., 326 S. Desplaines St., Chicago, Ill.

OLIVINE—auto body cleansing compound, F. Kenney Mfg. Co., 360-368 Dorchester Ave., Boston, Mass.

OMEGA—grease cups, Tell City Foundry & Machine Works, Tell City, Ind.

ONEIDA—drill chucks, Westcott Chuck Co., Oneida, N. Y.

ONE STROKE—surface grinders, O. S. Walker & Co., 25 Union St., Worcester, Mass.

O'NEIL—vulcanizers, inner tube protectors, bead moulds, air bags, tire sleeves, tire repair articles & cements, O'Neil Tire & Protector Co., Akron, O.

ONE-LOCK—adjustable reamers, Wm. J. Smith Co., 424 State St., New Haven, Conn.

ONE PIECE—propellers, Perkins Wheel Co., Grand Rapids, Mich.

ONLY—band saw filing & setting machines, Black Diamond Saw & Machine Works, Natick, Mass.

ONLY COTTER SETTER—cotton pin pullers & setters, Auto Spring Repairer Co., 123 Liberty St., N. Y. City.

ONTARIO—gasoline marine & auto engines, Ontario Iron Works, Pulaski, N. Y.

ON-THE-JOB—tool grinders, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.

ORANGE—jacks, The Orange Machine & Mfg. Co., 10-14 Stetson St., Orange, N. J.

ORIENT—oil auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.

ORIOLE—clutch leather, I. B. Williams & Sons, Dover, N. H.

ORIOLE—gasoline marine engines, Page Engineering Co., 113-121 E. York St., Baltimore, Md.

ORIOLE—wind shields, Chicago Wind Shield Co., 235 Johnson St., Chicago, Ill.

ORSWELL—magnetic spark plugs, Orswell Ignition Co., 29 Haverhill St., Boston, Mass.

OSBORN—spark plug brushes, roughing brushes, paint & varnish brushes, emery grinders & polishing & buffing machines, Osborn Mfg. Co., 5401 Hamilton Ave., Cleveland, O.

OSBURN—batteries, magnetos, spark coils, spark plugs & timers, Osborn Electric Co., 66 Fort St., E., Detroit, Mich.

OSCILLUM—spark gaps, Herz & Co., 203-205 Lafayette St., N. Y. City.

OSWEGO—wrenches, Oswego Tool Co., Oswego, N. Y.

OTTO—stationary gas & gasoline engines, The Otto Gas Engine Works, 33rd & Walnut Sts., Phila., Pa.

*OUGHTTO—hood & scarf, James R. Keiser, 11-19 W. 19th St., N. Y. City.

OUR VERY BEST—tire repair tools, Hibbard Spencer, Bartlett & Co., Chicago, Ill.

OVAL DRIVE—twist drills, Lancaster Machine & Knife Works, Lancaster, N. Y.

OWEN—milling machines, The Owen Machine Tool Co., Springfield, O.

OWL—carbon removers, Western Chemical Mfg. Co., 208 Fourth St., Milwaukee, Wis.

OWL—grease cups, The Lunkenheimer Co., Cincinnati, Ohio.

*OXFORD—shock absorbers, Oxford Mfg. Co., Oxford, Mich.

OZONE—baking enamels, Chase, Roberts & Co., Fifth St. & West Ave., Long Island City, N. Y.

P

*P. D. Q.—gasoline marine motors, The Huntington Mfg. Co., Main St., New Rochelle, N. Y.

P. D. Q. C.—pipe cutting & threading machines, Bignall & Keeler Mfg. Co., Edwardsville, Ill.

PF SPECIAL—rolled bars of carbon steel, Philadelphia Steel & Forge Co., 50 Church St., N. Y. City.

PF STANDARD—alloy steels, Philadelphia Steel & Forge Co., 50 Church St., N. Y. City.

P. K.—shovels & polishing & buffing wheels, Frederic B. Stevens, Detroit, Mich.

P. N. S.—timers & tire holders, Philadelphia Novelty Supply Co., 2031-33 N. 29th St., Phila., Pa.

PR—tank level indicators, PR Manufacturing Co., 621-659 Bellevue Ave., Detroit, Mich.

P. & S.—trunk racks, Chester Engineering & Machine Co., Front & Penn Sts., Chester, Pa.

P. S. & CO.—inner tubes, auto, Parker, Stearns & Co., Sheffield & Belmont Aves., Brooklyn, N. Y.

P. T. C.—tire inflators, Pacific Tucking & Mfg. Co., 471 18th St., Brooklyn, N. Y.

PACKARD 24-30—auto cylinder oil, Greenslade Oil Co., Detroit, Mich.

PACKARD—grease, The Havoline Oil Co., 80 Broad St., N. Y. City.

PACKARD—ignition cable & insulating tape, Packard Electric Co., Warren, O.

PAGE—stationary gasoline engines, Page Engineering Co., 113-121 E. York St., Baltimore, Md.

PAIGE—crucibles, metal melting, Paige Retort & Crucible Co., Taunton, Mass.

PAIL-LIGHT—dry cells, National Carbon Co., Lock Drawer "L," Cleveland, O.

PA-HAK-HA—gasoline motor boats, Detroit River Canoe Works, 274-280 Wight St., Detroit, Mich.

PALM—vacuum cleaners, The Palm Engineering Co., 34-36 Bates St., Detroit, Mich.

PALMBLA—carburetors, North Chicago Machine Co., North Chicago, Ill.

PALMER—bicycle tires & motorcycle tires, B. F. Goodrich Co., Akron, O.

PALMER—gluing clamps, A. E. Palmer & Sons, Owosso, Mich.

PALMETTO—cup grease, Tiona Refining Co., Indianapolis, Ind.

PALMETTO—packing, Greene, Tweed & Co., 109 Duane St., N. Y. City.

PALM-U-NEEK—grease, Manhattan Oil Co., 51 Front St., N. Y. City.

PAN-AMERICAN—wood polish, Chas. E. Miller, 97-101 Reade St., N. Y. City.

PANEL—rubber covered steps, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.

PANGBORN MODERN—sand blast systems, Thos. W. Pangborn Co., 90 West St., N. Y. City.

PANHARD—oil, grease & graphite, Geo. J. Haws, 73 Pine St., N. Y. City.

PANHARD—side levers, Locke Regulator Co., Salem, Mass.

PAN-O-LITE—cylinder oils & auto body soap, Wm. F. Miller's Sons, Nott Ave. & Hancock St., Long Island, N. Y. City.

PANTASOTE—automobile trimmings & mackintosh goods for slip covers, The Pantasote Co., 11 Broadway, Chicago, Ill.

PAOS—hand cleaning soap, Hopewell Bros., 29 Chapel St., Newton, Mass.

*PAOWNYC—wind shields, The O. M. Edwards Co., Plum & Solar Sts., Syracuse, N. Y.

PARA FLEX—cable, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.

PARAGON—auto oils & grease, Loos & Dilworth, 134 S. Front St., Phila., Pa.

PARAGON—lubricators, The Lunkenheimer Co., Cincinnati, O.

PARAGON—oil cans, Consolidated Fruit Jar Co., New Brunswick, N. J.

PARAGON—reversing gears for motor boats and friction clutches for boats, Evans Stamping & Plating Co., Cushman St., Taunton, Mass.

PARAGON—two-wheel chemical fire engines for garages, Jas. Boyd & Bro., 22nd St., bet. Vine & Race Sts., Phila., Pa.

PARALLELS—planers, O. S. Walker & Co., 25 Union St., Worcester, Mass.

PARAMOUNT—boiler compounds, Frederick Schilling, 365 Pearl St., N. Y. City.

PARAMOUNT—oil, Wm. T. Baker, 223-32 Suydam Ave., Jersey City, N. J.

PARK CITY—gasoline marine motors, Consolidated Carpet Sewing Machine Co., Bridgeport, Conn.

PARKER—air compressor & complete whistle outfits, Brunner Mfg. Co., Utica, N. Y.

PARKER—carburetors, timers, circulation pumps, speedometers, pump & odometer parts, gears & bushings, Parker White Metal & Machine Co., East 10th St. & Phila. & Erie R. R., Erie, Pa.

PARKER—electric auto lamps & machinists' clamps, John L. Parker Co., Worcester, Mass.

PARKER—gasoline auto motors, The Parker Motor Co., Hartford, Conn.

PARKER—rims, Newmastic Tire Co., 151 W. 68th St., N. Y. City.

- PARKER—vises & ratchets, Chas. Parker Co., Meriden, Conn.
- PARKER'S—vests, socks & boots, Jno. H. Parker Co., 25 James St., Malden, Mass.
- PARKER'S ARCTIC—jackets, Jno. H. Parker Co., 25 James St., Malden, Mass.
- PARKINSON—transmission auto gears, Parkinson Gear Co., Rensselaer, Ind.
- PARKO—vulcanizing solution, F. B. Parks Co., 173 Prescott St., Grand Rapids, Mich.
- PARROTT—varnishes, Parrott Varnish Co., Bridgeport, Conn.
- PARTINE—parting sand for moulds, The Foundry Specialty Co., Cincinnati, Ohio.
- PATER NOSTER—shock absorbers, Herz & Co., 203-205 Lafayette St., N. Y. City.
- PATHFINDER—automobile axles, Geo. A. Weaver, Newport, R. I.
- PATTERSON—wireless battery holder for autos, Stanley & Patterson, 23 Murray St., N. Y. City.
- PAYNTER—auto tires, J. Ellwood Lee Co., Conshohocken, Pa.
- PEACOCK BLUE—for blueing metal, Jas. S. Longhurst, Jr., Lynbrook, L. I., N. Y.
- PEARL—wiping rags, Continental Waste Co., 22 Clayton St., Boston, Mass.
- PEARL GLASS—lens mirrors, Macbeth-Evans Glass Co., Pittsburg, Pa.
- PEASE—gasoline marine motors, The Fred J. Pease Co., 36 Court St., Grand Rapids, Mich.
- PECK—electric, oil & acetylene lamps for autos, Scoville & Peck Co., 15 W. Wooster St., New Haven, Conn.
- PEDERSEN—lubricators, Pedersen Mfg. Co., 636-644 First Ave., N. Y. City.
- PED PUMP—special tools, Pedersen Mfg. Co., 636-644 First Ave., N. Y. City.
- PEERLESS—belts for pumps, fans, oilers, sparkers, electric generators, motors, etc., The Peerless V Belt Co., 334-338 S. Clinton St., Chicago, Ill.
- PEERLESS—curtain fasteners, automobile seats, Metal Stamping Co., 30-50 Hubert St., N. Y. City.
- PEERLESS—double swivel vises, Spitzli Mfg. Co., Utica, N. Y.
- PEERLESS—drilling compound, Racine Gas Engine Co., Racine Junction, Wis.
- PEERLESS—electric motors for driving machinery, dynamos & charging apparatus, The Peerless Electric Co., Warren, Ohio.
- PEERLESS—enamel, Akron Varnish Co., Akron, O.
- PEERLESS—fuel economizers, J. S. Ridley, 1878 Broadway, N. Y. City.
- PEERLESS—gasoline marine motors, Sibley-Houffey Machine Co., 180 Brush St., Detroit, Mich.
- PEERLESS—grease, The O. F. Zurn Co., Broad & Lehigh Ave., Phila., Pa.
- *PEERLESS—ignition batteries & lamp lighting batteries, Peerless Igniter Mfg. Co., 947 Marcy Ave., Brooklyn, N. Y.
- PEERLESS—jacks, Oliver Mfg. Co., 326 S. Desplaines St., Chicago, Ill.
- PEERLESS—juvenile foot & hand propelled vehicles, Toledo Metal Wheel Co., Toledo, Ohio.
- PEERLESS—magnetos, Tritt Electric Co., Union City, Ind.
- PEERLESS—miniature Tungsten lamps, Warren Electric & Specialty Co., Warren, Ohio.
- PEERLESS—oils & greases, A. & N. Oil Co., 1931 Broadway, N. Y. City.
- PEERLESS—oil, grease & gasoline, Ellsworth & Armstrong Oil Co., 26 Stone St., N. Y. City.
- PEERLESS—perforated chaplets, The Hill & Griffith Co., 1248-1262 State Ave., Cincinnati, Ohio.
- PEERLESS—pipe cutting & threading machines, Bignall & Keeler Mfg. Co., Edwardsville, Ill.
- PEERLESS—portable crane & hoist, Wm. S. Nicholls, 253 Broadway, N. Y. City.
- PEERLESS—shock absorbers & auto bumpers, J. H. Sager Co., 265 South Ave., Rochester, N. Y.
- PEERLESS—storage batteries, United Electric Storage Battery Co., 2107 Pine St., St. Louis, Mo.
- PEERLESS—tires, pneumatic auto, Peerless Tire Co., 1610 Michigan Ave., Chicago, Ill.
- PEERLESS—tire cements, vulcanizing solution, tire repair kits, tire sleeves & tire patches, The Peerless Cement Co., 39 Viaduct, Akron, O.
- PEERLESS—tops, auto & boat, Peerless Buggy Top Co., S. W. cor. Central Ave. & York St., Cincinnati, Ohio.
- PEERLESS—top dressing, Buffalo Specialty Co., 375-377 Ellicott St., Buffalo, N. Y.
- PEERLESS—vacuum cleaners, The New Idea Sales Co., Corning, N. Y.
- PEERLESS—valve grinding compounds, J. F. Bornschein & Co., 2351 Indiana Ave., Chicago, Ill.
- PEERLESS—wind shields & carbon removers, J. H. McCullough & Son, 219 N. Broad St., Phila., Pa.
- PEERLESS—wood polish, Peerless Cleaner Co., Glenolden, Pa.
- PEERLESS—wood polish, Foskett & Co., 226-228 La Salle St., Chicago, Ill.
- PEERLESS-V-BELT—motorcycle belts, The Peerless V-Belt Co., 215-219 S. Clinton St., Chicago, Ill.
- PELE—auto heaters, Automobile Heater Co., 1133 Broadway, N. Y. City.
- *PEN-DAR—steel lockers & shop equipment, Edward Darby & Sons Co., Inc., 218 Arch St., Phila., Pa.
- PENINSULAR—ball-bearing cones, ball & socket joints, turn-buckles & taper pins, Peninsular Milled Screw Co., Champlain St. & Canton Ave., Detroit, Mich.
- PENINSULAR—grinders & countershafts, Peninsular Emery Wheel Co., Detroit, Mich.
- PENN—gasoline auto motors, Chester Engineering & Machine Co., Front & Penn Sts., Chester, Pa.
- PENN—grips, J. W. Grady & Co., 68 High St., Worcester, Mass. (Mfrs. Agents).
- PENNSYLVANIA—automobile & bicycle tires, Pennsylvania Rubber Co., Jeannette, Pa.
- PENNSYLVANIA—black iron filler paints & rough stuff, Pennsylvania Black Filler & Paint Co., Williamsport, Pa.
- PENNSYLVANIA—motorcycle tires, Pennsylvania Rubber Co., Jeannette, Pa.
- PEQUOT—bilge pumps & gasoline marine motors, The New London Motor Co., New London, Conn.
- PERFECT—automobile jacks & supports, Wm. E. Pratt Mfg. Co., 91 Lake St., Chicago, Ill.
- PERFECT—auto tire cases, Wm. H. Wiley & Son Co., Box 78, Hartford, Conn.
- PERFECT—curtain fasteners, C. Cowles & Co., Water & Chestnut Cts., New Haven, Conn.
- PERFECT—machinists' & pipe vises, Massey Vise Co., 9-11 W. Michigan St., Chicago, Ill.
- PERFECT—oil cups, H. B. Sherman Mfg. Co., 12 Barney St., Battle Creek, Mich.
- PERFECT—power hammers, Macgowan & Finigan Foundry & Machine Co., St. Louis, Mo.
- PERFECT—timers, drop brakes & air couplings, Youse & Daddow, 46 N. 5th St., Reading, Pa.
- PERFECT—top dressing, Jas. W. Cumber Co., 2900 E. 34th St., Cleveland, O.
- PERFECT—vehicle washers, Perfect Mfg. Co., 189 Circular St., Saratoga Springs, N. Y.
- PERFECT HANDLE—screw drivers, wrenches & machinists' hammers, H. D. Smith & Co., Plantsville, Conn.
- PERFECTION—anti-skid device, Baum's Brass & Model Works, 244 Third Ave., S., Minneapolis, Minn.
- PERFECTION—anti-skid devices, Perfection Non-Skid Climber Co., Ebon, O.
- PERFECTION—automobile clocks & timers, Perfection Mfg. Co., 939 Stewart Ave., Cleveland, O.
- PERFECTION—body springs, The Perfection Spring Co., 2414 Superior Ave., N. W., Cleveland, O.

- *PERFECTION—comb. priming & relief cocks, spark plug keys & funnels, Perfection Supply Co., Detroit, Mich.
- PERFECTION—crank hangers, bicycle tires & spokes, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
- PERFECTION—curtain fasteners, automobile hardware, top trimmings, robe rails, foot rests, extra tire holders & auto lamp brackets, Metal Stamping Co., 30-50 Hubert St., N. Y. City.
- *PERFECTION—electric lighting systems, auto & boat lighting outfits, Bishop, Delano & Co., Hoin & Van Buren Sts., Chicago, Ill.
- PERFECTION—goggles, Spencer Optical Mfg. Co., 31 Maiden Lane, N. Y. City.
- PERFECTION—ignition batteries, lighting outfits, electric, Perfection Igniter Mfg. Co., 1093 Bedford Ave., Brooklyn, N. Y.
- PERFECTION—juvenile foot & hand propelled vehicles, Toledo Metal Wheel Co., Toledo, Ohio.
- PERFECTION—license tags, N. Stafford Co., 67 Fulton St., N. Y. City.
- PERFECTION—license tags, Automobile License Indicator Co., Lewisburg, Tenn.
- PERFECTION—magnetos & battery chargers, The Economy Mfg. Co., Park Bldg., Pittsburgh, Pa.
- PERFECTION—marine gasoline motors, Caille Perfection Motor Co., 1300-30 Second Ave., Detroit, Mich.
- PERFECTION—moldings for dash & running boards, Jos. N. Smith & Co., Fourth & Porter Sts., Detroit, Mich.
- PERFECTION—oil & grease, Crew-Levick Co., 2231 Land Title Bldg., Phila., Pa.
- PERFECTION—oil soap & metal polish, The German Chemical Supply Co., 1565 Merwin Ave., Cleveland, Ohio.
- PERFECTION—overhead vehicle washers, Ryan & Long, Appleton, Wis.
- PERFECTION—parting & facing compounds & bronze & brass flux, Stanley Doggett, 101 Beekman St., N. Y. City.
- PERFECTION—pump connections, Stevens & Co., 375 Broadway, N. Y. City.
- *PERFECTION—reversing gears for motor boats, Perfection Reversing Gear & Supply Co., 45 Vesey St., N. Y. City.
- PERFECTION—spring winder, Remington Tool & Machine Co., 50 Congress St., Boston, Mass.
- PERFECTION—universal joints, T. F. Gerome, 130-32 W. 18th St., N. Y. City.
- PERFECTION—weldless chains, Bridgeport Chain Co., Bridgeport, Conn.
- PERFECTION—wheel pullers, Empire Wheel Works, 172 South St., Utica, N. Y.
- PERFECTION—wind shields, M. P. Flanders, 61 Main St., Merrimack, Mass.
- PERFECTION—wrenches, Perfection Wrench Co., 18 N. Main St., Port Chester, N. Y.
- PERFECTION PINK—sheet packing, Hamilton Rubber Mfg. Co., Trenton, N. J.
- PERFECTO—battery connections, Geo. W. Bolton, 260 Wreford Ave., Detroit, Mich.
- *PERFECTO—goggles, Alfred Levin, 134 E. 25th St., N. Y. City.
- PERFECTO—grease, Warren Lubricant Co., Buffalo, N. Y.
- PERFECTO—screw drivers, Bridgeport Hardware Mfg. Corp., Bridgeport, Conn.
- PERFEX—waterproof ignition systems, spark coils, timers & switches, Electric Goods Mfg. Co., Canton, Mass.
- PERKINS—presses, punches, shears & bending & straightening rolls, Perkins Machine Co., Warren, Mass.
- PERKINS—wind shields, A. D. Perkins, 315-317 E. 33d St., Los Angeles, Cal.
- PERMANENT BLACK—sheet packing, Hamilton Rubber Mfg. Co., Trenton, N. J.
- PERMANITE—packing, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- PERRETZ—cigar lighters, inspection lamps & wind shields, Chicago Wind Shield Co., 2235 Johnson St., Chicago, Ill.
- PERRY—anti-skid chains, Perry Chain Grp Co., Lansing, Mich.
- PERSAN-BEAUMONT—auto springs, imported by Lavalette & Co., Stoddard-Dayton Bldg., N. Y. City.
- PERSONS—belt fasteners, Majestic Mfg. Co., Worcester, Mass. (Mfrs. Agts.)
- PERSONS' PULLEY RIMS—motorcycle seats, Persons Mfg. Co., 54-68 Blomington Rd., Worcester, Mass.
- PETERSON—valve lifters, The Peterson Valve Lifter Co., 719 W. Jefferson St., South Bend, Ind.
- PETER UNION—motorcycle tires, N. S. U. Motor Co., 206 W. 76th St., N. Y. City.
- *PETITE—switches & brake ratchets, American Motor Works, 87 N. Division St., Grand Rapids, Mich.
- PEUGEOT—cycle motors, Imported by Prospect Motor Co., 1900 Broadway, N. Y. City.
- PEUGOT—chains, imported by National Sales Corporation, 232 W. 58th St., N. Y. City.
- PFANSTIEHL—coils, Pfanstiehl Electrical Laboratory, North Chicago, Ill.
- PHELPS—spark gaps, The New England Sales Co., 451 Old South Bldg., Boston, Mass.
- *PHIELPS VEHICLE RECORDER—meters, Wm. S. Jones, 3038 Chestnut St., Phila., Pa.
- PHENIX—brass & bronze tubes & brazed steel tubing, Phenix Tube Co., 182 N. 11th St., Brooklyn, N. Y.
- PHENIX—shock absorbers, imported by Panhard & Levassor, Broadway & 62nd St., N. Y. City.
- PHILADELPHIA—grease, Philadelphia Grease Mfg. Co., 848-850 S. Swanson St., Phila., Pa.
- PHILADELPHIA—grease cups, Philadelphia Lubricator & Mfg. Co., The Bourse, Phila., Pa.
- PHILADELPHIA—slat irons & curtain silk, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- PHILADELPHIA—wind shields, Harry C. Cranmer, 217 S. 24th St., Phila., Pa.
- PHILIPS—split pulleys, Philips Pressed Steel Pulley Works, N. E. cor. 4th & Glenwood Ave., Phila., Pa.
- PHILLIPS—gasoline marine & automobile motors & electric auto charging apparatus, Phillips Gasoline Engine & Motor Co., Washington Blvd. & Clinton St., Chicago, Ill.
- PHILLIPS—timers, Harder's Mfg. Co., 40th St. & Calumet Ave., Chicago, Ill.
- PHOEBUS—acetylene & oil lamps for autos, acetylene gas generators & lamp brackets, Manhattan Screw & Stamping Works, 67th St. & West End Ave., N. Y. City.
- PHOENIX—bit braces, machinists' clamps, vises, lathe dogs & anvils, Phoenix Hardware Mfg. Co., Homer, N. Y.
- PHOENIX—fire extinguishers, Phoenix Fire Apparatus Co., 43 W. 34th St., N. Y. City.
- PHOENIX—gasoline savers, Herz & Co., 203-205 Lafayette St., N. Y. City.
- PHOENIX—tire irons & presses, wheel pullers & valve lifters, automobile tops, auto lamp covers & storage ignition batteries, Phoenix Auto Supply Co., 3974-76 Olive St., St. Louis, Mo.
- PHOENIX—vises, machinists' clamps, anvils, lathe dogs & bit braces, Phoenix Hardware Mfg. Co., Homer, N. Y.
- PHOENIX METAL—bearing metal, National Lead Co., 111 Broadway, N. Y. City.
- PHOENIXO—gear case lubricant, Fiske Bros. Refining Co., 24 State St., N. Y. City.
- PICK-UP—wrenches, New Britain Mfg. Co., New Britain, Conn.
- PIERCE—auto leather pillows (mfrs. agt.), Hayne-Surridge Co., 1017 Lucas Ave., St. Louis, Mo.
- PIERCE—gasoline motor boats, The Pierce Motor Co., Racine, Wis.
- PIERCE—heaters, wrenches & wind shields, Geo. W. Pierce Co., 2203 S. Main St., Anderson, Ind.
- PIG—vulcanizers, The J. M. Padgett Co., 118 E. 7th St., Topeka, Kan.
- PIGGINS—clutches, Piggins Bros., Racine, Wis.
- PIGNON—magnetos, imported by The Motor Car Equipment Co., 55 Warren St., N. Y. City.

- *PILLINER—tire tool, N. A. Petry, 422 Commerce St., Phila., Pa.
- PIONEER—bow sockets, body irons, bow separators, curtain fasteners, top fixtures, auto hardware & upholstery buttons, Crandal, Stone & Co., Binghamton, N. Y.
- *PIONEER—cements, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, Ohio.
- PIONEER—cement, leather, Van Cleef Bros., 7711 Woodlawn Ave., Chicago, Ill.
- PIONEER—grease injectors, Standard Sheet Metal Co., Delaware Ave., Passaic, N. J.
- PIONEER—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- PIONEER—portable vises, Schuchardt & Schutte, 90 West St., N. Y. City.
- PIONEER—valve grinding tools, electric drills & buffing tools, Valve Seating Tool Co., Bridgeport, Conn.
- PIQUA—molders' & automobile shovels, Wood Shovel & Tool Co., Piqua, Ohio.
- PIRELLI—cable, imported by The Motor Car Equipment Co., 55 Warren St., N. Y. City.
- PIRELLI—ignition cable, imported by National Sales Corporation, 232 W. 58th St., N. Y. City.
- PITNER—pumps & pump connections, D. H. Lawrence Co., Sterling, Ill.
- PITTS—tire chains, Pitts Anti-Skid Chain Co., 2422 Michigan Ave., Chicago, Ill.
- PITTSBURG—fire extinguishers, Safety Fire Extinguisher Co., 29-33 W. 42nd St., N. Y. City.
- *PITTSBURG—heaters, garage, Pittsburg Water Heater Co., Pittsburg, Pa.
- PITTSBURG—pneumatic tools, Pittsburg Pneumatic Co., 90 West St., Canton, Ohio.
- PITTSBURG—valves, Pittsburg Gage & Supply Co., 30th & Liberty Sts., Pittsburg, Pa.
- PITTSBURGH—vises, The Pittsburgh Automatic Vise & Tool Co., Pittsburg, Pa.
- PITTSFIELD—switches, timers, magnetos, sparking coils, terminals & distributors, Pittsfield Spark Coil Co., Dalton, Mass.
- *PIVOT AUTO LIGHT—lamp brackets, The Pivot Auto Light Co., 68 Post St., San Francisco, Cal.
- PIXLEY—carburetors, Geo. H. Pixley Co., 30 Huntington Ave., Boston, Mass.
- *PLANCH—gasoline cycle motors, Motor Car Specialty Co., Lamberton & Lalor Sts., Trenton, N. J.
- PLANET—auto tool rolls, The Planet Co., Westfield, Mass.
- PLANHARD—carburetors, Planhard Mfg. Co., Kokomo, Ind.
- PLANTE—positive plates for vehicle batteries, Westinghouse Storage Battery Co., Boonton, N. J.
- PLATA METAL—bearing metal, Clum & Atkinson, 575 Lyell Ave., Rochester, N. Y.
- PLUG-LEAK—metal cements, Hazen-Brown Co., 100 South St., Boston, Mass.
- PLUG UMBRELLA—spark plug protectors, Plug Umbrella Co., 70 Long Wharf, Boston, Mass.
- PLUNKET—machine tool vises, J. E. Plunket, 1342 W. Lake St., Chicago, Ill.
- PLUNKET, JR.—stationary engines, J. E. Plunket, 1342 W. Lake St., Chicago, Ill.
- PLURALITY DIE—bolt & nut machinery, Mummert, Wolf & Dixon Co., Hanover, Pa.
- PLUTO CEMENT—tire cements, Hazen-Brown Co., 100 South St., Boston, Mass.
- PLUVIUSIN—imitation leather, imported by Chas. R. Silkman, 111 Duane St., N. Y. City.
- POCONO—babbit metal, The Tanite Co., Stroudsburg, Pa.
- THE POINT—spark plugs & spark gaps, The Point Spark Plug Co., 112-114 11th Ave., S. E. Aberdeen, S. D.
- POLARINE—oils & greases, Standard Oil Co., Inc., Room 609, 26 Broadway, N. Y. City.
- POLAR WAVE—anti-freezing solutions, Benjamin Gerdelman Mfg. Co., 4630 Olive St., St. Louis, Mo.
- POLDI—high speed twist drills, Peter Frasse & Co., 130-32 Worth St., N. Y. City.
- POLISHINE—metal polish, Cleaner Mfg. Co., 2342 Olive St., St. Louis, Mo.
- POLSON—bumpers, foot & robe rails, jacks, tire holders, tire tools, valve lifting tools, wind shields & wheel pullers, W. F. Polson, 27 Chenango St., Buffalo, N. Y.
- POMPE VADAM—tire inflators & tire inflating tanks, imported by Rex Tire Co., 138 W. 68th St., N. Y. City.
- PONTOSUC—auto blankets, Pontosuc Woolen Mfg. Co., Pittsfield, Mass.
- *POPE—gasoline motor boats, Pope Boat Co., Fond du Lac, Wis.
- POPE DAILY SERVICE—bicycles, The Pope Mfg. Co., Hartford, Conn.
- POPE'S ISLAND—brass & bronze castings, Le Compte Mfg. Co., 119 Chambers St., N. Y. City.
- POROX—ignition batteries, Albert Muller, 145 W. 49th St., N. Y. City.
- PORTABLE BABY—tire inflating tanks, Liquid Carbonic Co., 67 Wells St., Chicago, Ill.
- PORTAGE—gasoline marine motors, Portage Boat & Engine Co., 105 Mullet St., Portage, Wis.
- PORTLAND—turntables & chauffeur's trucks, Portland Garage, Portland, Me.
- POSITIVE—grease cups, The Lunkenheimer Co., Cincinnati, O.
- *POST'S—piston ring clamps, E. L. Post, 50 Cliff St., N. Y. City.
- POWCO—fan, pump & oiler belts, Philadelphia Steel & Wire Co., 525 Commerce St., Phila., Pa.
- POWELL—exhaust mufflers for gasoline engines, Powell Muffler & Timer Co., Utica, N. Y.
- *POWELL—gasoline marine motors, The Powell Engine Corporation, 49 Warren St., N. Y. City.
- POWER—spark plugs, Motor Car Equipment Co., 55 Warren St., N. Y. City.
- PRAY—apron fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- PRECISION—leather fillets, Cleveland Galvanizing Works Co., 18-24 Cooper St., Cleveland, O.
- PRECISION—milling machines, Lucas Machine Tool Co., Cleveland, Ohio.
- *PREMIER—gasoline marine motors, The Wittmaack Machine Co., Leib & Wight Sts., Detroit, Mich.
- PREMIER—lubricators, The Lunkenheimer Co., Cincinnati, O.
- PREMIER—screw drivers, The Cassady-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- PREMIER WOVEN TOP—cushion springs, Detroit Wire Spring Co., 21st & Standish Sts., Detroit, Mich.
- PREMIUM—grease cups, H. B. Sherman Mfg. Co., 12 Barney St., Battle Creek, Mich.
- PREMIUM—oils & greases, Keystone Oil & Supply Co., Inc., Pittsburg, Pa.
- PRENTISS—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.
- *PRESCO—spark plug brushes, Pres Manufacturing Co., 6006 Olive St., N. E., Cleveland, O.
- PRESTEEL—frames, running boards, sprockets, stampings, dies, tools, axle housings & transmission cases, Detroit Pressed Steel Co., 1800 Mt. Elliott St., Detroit, Mich.
- PRESTO—acetylene lamp adapters, R. E. Dietz Co., 60 Laight St., N. Y. City.
- PRESTO—battery connectors, Auto Accessory Co., 75 Florence St., Worcester, Mass.
- PRESTO—chucks, collets & friction tapping devices, The Whitney Mfg. Co., Hartford, Conn.
- *PRESTO—cigar lighters, Hercules Auto Specialty Mfg. Co., Chicago, Ill.
- PRESTO—cigar lighter & lamp combined & incandescent repair lamps, Metal Specialties Mfg. Co., 427-441 W. Randolph St., Chicago, Ill.
- PRESTO—cross chains & hooks, Newhall Chain Forge & Iron Co., 90 West St., N. Y. City.
- PREST-O-CARBON REMOVER—The Prest-O-Lite Co., 229-237 E. South St., Indianapolis, Ind.

PRESTOLINE—metal polish, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
 PREST-O-LITE—gas tanks, tire inflating tanks & soft rubber tubing, Prest-O-Lite Co., 229-237 E. South St., Indianapolis, Ind.
 PRESTOSHINE—metal polish, W. S. Shepard, 22 Lawrence St., Newark, N. J.
 PRESTON—tires, Preston Fabric Tire Co., 1410 Niagara St., Buffalo, N. Y.
 PRICE—auto gloves, Fried-Ostermann Co., Rockford, Ill.
 PRIMUS—oil & grease, Penn Petroleum Co., 117 N. 2nd St., Phila., Pa.
 PROTECTION BRAND—asphalt roofing, Asphalt Ready Roofing Co., 136 Water St., N. Y. City.
 PROTECTOR X—lamp guards, Crescent Co., Valparaiso, Ind.
 PROTECTO—tire protector, American Tire Co., Owosso, Mich.
 PROTEX—raincoats, Trans-Atlantic Mercantile Co., 172 Fifth Ave., N. Y. City.
 PROVIDENCE—pipe vises, General Fire Extinguisher Co., Providence, R. I.
 PUCK—switches, Herz & Co., 203-205 Lafayette St., N. Y. City.
 PUGH—auger bits, Job T. Pugh, 31st & Ludlow Sts., Phila., Pa.
 PULLEY—countershafts & belt shifters, factory, The L. & D. Co., 88 Broad St., Boston, Mass.
 PULL-PUSH—battery connections, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
 PUMPELLY—vehicle & ignition batteries, Pumpelly Battery Co., 1202-12 E. 22nd St., Indianapolis, Ind.
 PUP—ignition batteries, Chicago Battery Co., 2600-10 Wabash Ave., Chicago, Ill.
 PURITAN—files & rasps, Colonial File Co., 167-70 Teneau St., Neponset, Mass.
 PURITAN—foot rests, The S. M. Supplies Co., 22-24 Lincoln St., Boston, Mass.
 PURITAN—gasoline automobile engines, transmission gears, circulation pumps, gears and posts, Puritan Machine Co., 72-74 Brush St., Detroit, Mich.
 *PURITAN—gas tanks for lamps and tire inflating tanks, Puritan Gas Tank Co., Room 642, Old South Bldg., Boston, Mass.
 PURITAN—metal polish & auto body soap, Davey & Co., 2600-2608 Grand Ave., Chicago, Ill.
 PURITAN—switches, ignition, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
 PURO—rim shellac, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
 *PUTNAM—timers, The K & T Mfg. Co., 32 Atlantic Ave., Boston, Mass.
 PUTZADE—metal polish, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
 PUTZ—metal polish, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
 PUTZ POMADE—metal polish, J. C. Paul & Co., 59 Dearborn St., Chicago, Ill.
 PYKO—hand & foot grinders, Pike Mfg. Co., Pike, N. H.
 PYRALIN—transparent sheeting, The Arlington Co., 725-27 Broadway, N. Y. City.
 PYRAMID—aluminum floor covering, Factory Sales Corporation, 1438 Michigan Ave., Chicago, Ill.
 PYRAMID—aluminum matting, Metallic Automobile Matting Co., Box 555, Rochester, N. Y.
 PYRENE—fire extinguishers, M. L. Snyder, 9 N. 4th St., Phila., Pa.
 PYRO—camping outfit, The Alcohol Utilities Co., 156 W. 23rd St., N. Y. City.
 PYRO—denatured alcohol, U. S. Industrial Alcohol Co., 100 William St., N. Y. City.
 PYRO—water solution hydrometers, Taylor Instrument Companies, Rochester, N. Y.

QUALITY—automobile tops, covers, body upholstery & auto blacksmithing, wind shields & tool boxes, F. W. Anderson & Co., Brown & Uber Sts., Phila., Pa.
 QUALITY BRAND—motor boat paints, Carpenter-Morton Co., Boston, Mass.
 QUEEN CITY—shapers, Queen City Machine Tool Co., N. W. Cor. Sycamore & Webster Sts., Cincinnati, O.
 QUEER CREEK—oilstones, Pike Mfg. Co., Pike, N. H.
 QUICK ACTION—battery connections, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
 QUICK ACTION—motorcycle stands, luggage carriers, tandem attachments, motorcycle repair pedals & watch holders, Henry T. Adams Co., 6823 S. Chicago Ave., Chicago, Ill.
 QUICK ACTION—sparking & primary coils, magnetos & switches, spark plugs, dynamos, battery connections & cigar lighters, The Knoblock-Heideman Mfg. Co., South Bend, Ind.
 QUICKFIRE—spark plugs, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
 QUICK-KLEAN—hand cleansing compound, Frost, Stamp & Stationery Co., 505 Main St., Worcester, Mass.
 QUICK-LIFT—automobile jacks, Covert's Saddlery Works, Interlaken, N. Y.
 QUICK-OUT—fire extinguishers, Royal Mfg. Co., Lancaster, Pa.
 QUICK-TITE—inner tube patches, The Quick-Tite Patch Co., Amsterdam, N. Y.
 QUIRIDE—metal gears, flexible washers, differential gears & speed change gears, Quiride Co., 1417 N. Salina St., Syracuse, N. Y.

R

R B F—ball bearings imported by International Engineering Co., of N. J., 1779 Broadway, N. Y. City.
 R. I. V.—automobile ball bearings, R. I. V. Co., 1771 Broadway, N. Y. City.
 R. R.—metal polishes, 3-in-One Oil Co., 42 Broadway, N. Y. City.
 R. R. R.—radiator rust removers, Hazen-Brown Co., 100 South St., Boston, Mass.
 R-S—motorcycle tandem attachments, motor tricycles, delivery vans & motorcycle luggage carriers, Reading Standard Co., Reading, Pa.
 R & V—stationary gas, gasoline & distillate engines, The Root & Van Dervoort Engineering Co., East Moline, Ill.
 R & W—chauffeur suits & auto dusters, Rosenevald & Weil, Inc., Franklin, Congress & Market Sts., Chicago, Ill.
 RACINE—attachable match flare, John Dean Mfg. Co., Racine, Wis.
 RACINE—gasoline motor boats & marine engines, steam motor boats and marine engines, Racine Boat Mfg. Co., Muskegon, Mich.
 RACINE—power hack saws & hack saw blades, Racine Gas Engine Co., Racine Junction, Wis.
 RACINE—stationary & marine steam engines, Racine Engine & Machinery Co., Racine, Wis.
 THE RACINE—tops, lamp covers, tire cases & wind shields, Racine Buggy Top Co., 13th & Clark Sts., Racine, Wis.
 RACYCLE—bicycles, Miami Cycle & Mfg. Co., Grand Ave., Middletown, O.
 RADERMACHER'S—cushion springs, John L. Radermacher, 16 Horatio St., N. Y. City.
 RADICAL—chucks & drilling machines for boring square holes, Radical Angular Drill & Tool Co., 119 W. 23rd St., N. Y. City.
 RADIO—heaters & metal polish, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.

Q

QUAKER CITY—rubber hose, Quaker City Rubber Co., 629 Market St., Phila., Pa.

- RADIO-COOLER—radiator compounds, Elder Mfg. Co., Indianapolis, Ind.
- RADIOFLEX—electric auto lamps, Electro Importing Co., 86 W. Broadway, N. Y. City.
- RADIUM—ignition batteries, anti-skid chains, magnetos, mufflers, bumpers & current indicators, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- RADIUM—ignition batteries, Stackpole Battery Co., St. Marys, Pa.
- RADIUM—metal polishes, The Bobrick Chemical Co., 111-117 S. Garey St., Los Angeles, Cal.
- RADU—lock switches, Radu Surgical Instrument Co., 20 Builders' Exchange, Buffalo, N. Y.
- RAFLEX—spark plugs, Raflex Ignition Co., 2124 E. 2nd St., Cleveland, Ohio.
- RAHN-CARPENTER—lathes, The Rahn-Carpenter Co., Cincinnati, Ohio.
- RAINO—waterproof auto & nautical clothing & robes, The Raino Co., 1828-30 S. Halsted St., Chicago, Ill.
- RAJAH—spark plugs, terminals, spark plug hoods and nipples, gaskets & porcelain insulation, Rajah Auto Supply Co., Bloomfield, N. J.
- RALACO—gasoline marine motors, S. M. Jones Co., 600 Segur Ave., Toledo, Ohio.
- RAMBLER—bicycles, The Pope Mfg. Co., Hartford, Conn.
- *RAMSEY—gasoline marine engines, Ramsey Mfg. Co., 486 Bullitt Bldg., Phila., Pa.
- RANKIN—automobile dome lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RAPID—cleansing compounds, auto body, T. K. Shannon, Hartford, Conn.
- *RAPIDCUT—valve grinding compound, Essex Mfg. & Supply Co., Newark, N. J.
- RAPID FIRE—dry batteries, Nungesser Electric Battery Co., 27-33 King St., Cleveland, O.
- RAPID FIRE—spark coils & switches, Tritt Electric Co., Union City, Ind.
- RAPID FIRE—spark plugs, National Steel Products Co., Lorain, O.
- RAPID FIRE—whistles & whistle outfits, motor boat, electric, The Russell Electric Co., Danbury, Conn.
- RARITAN—dome lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RASCO—twin gasoline strainer—auto & marine, Oscar Schoge, 1211 Jefferson Ave., Brooklyn, N. Y.
- RATIONAL—exhaust car heaters, Motor & Mfg. Works Co., Foot of Middle St., Geneva, N. Y.
- RAVEN BRAND—insulating tapes, New York Insulated Wire Co., 114 Liberty St., N. Y. City.
- RAVES—distributors & timers, Mica Core Mfg. Co., 442 E. 166th St., N. Y. City.
- RAYBESTOS—brake linings, The Royal Equipment Co., 414-32 Housatonic Ave., Bridgeport, Conn.
- RAYDO—metal polish and wood polish, Ulrich & Co., 227-233 E. North St., Buffalo, N. Y.
- RAYFLEX—portable electric lights, Standard Sheet Metal Co., Delaware Ave., Passaic, N. J.
- RAYMOND—automobile clothing, A. Raymond & Co., Nassau & Fulton Sts., N. Y. City.
- RAYMOND—brakes and complete equipments, The Royal Equipment Co., 414-32 Housatonic Ave., Bridgeport, Conn.
- RAYMOND—clip non-skid chains, Raymond & Co., 331 Michigan Ave., Chicago, Ill.
- READ—terminals, Henry R. Read, 45 Kingston Ave., Brooklyn, N. Y.
- READING STANDARD—bicycles, Reading Standard Co., Reading, Pa.
- READRITE—pocket battery meters and switchboard meters, Read-Rite Meter Wks., 14 Main St., Bluffton, Ohio.
- RECOMETRE—speed indicator and odometers, Recometre Co. of America, 2120 Broadway, N. Y. City.
- RECORD—side lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RECORD—spark coils, spark plugs, magnetos & timers, Nilson-Miller Co., 13th & Hudson Sts., Hoboken, N. J.
- RECTI—electric auto bells, Edwards & Co., Inc., 14th & Exterior Sts., N. Y. City.
- RED—cans, buckets & tanks, Wallman Mfg. Co., 283-285 5th Ave., Milwaukee, Wis.
- RED CROSS—auto oils & greases, metal polishes & auto body cleansing compounds, Auto Oil Co., 172 S. Water St., Jackson, Mich.
- *RED CROSS—cements, brazing forges, enamels, cycle vulcanizers, enameling ovens, tire repair tape, chain & gear grease, brazing compounds, National Cement & Rubber Mfg. Co., 3053-3059 Monroe St., Toledo, O.
- RED CROSS—spark plugs, Autolyte Mfg. Co., 26 Warren St., N. Y. City.
- RED CROSS—spark plugs, Blake Electrical Co., 88 Purchase St., Boston, Mass.
- RED DEVIL—vibrators, New Britain Mfg. Co., New Britain, Conn.
- RED-E—tool holders, Ready Tool Co., New Haven, Conn.
- RED HEAD—spark plugs, Emil Grossman Co., 232 W. 58th St., N. Y. City.
- RED RIB—ignition wire, Emil Grossman Co., 232 W. 58th St., N. Y. City.
- RED SEAL—dry batteries, Manhattan Electrical Supply Co., 17 Park Place, N. Y. City.
- RED SEAL—paints, Detroit Varnish Co., Detroit, Mich.
- RED SHIELD AUTO—ignition batteries, Wesco Supply Co., 7th & Clark Ave., St. Louis, Mo.
- REDSKIN—gasoline chassis, auto wheels, lock nuts, brake & speed change levers, Jamesville Mfg. Co., Jamesville, N. Y.
- RED STAR—ignition batteries, dry, White Star Battery Co., 126 Chambers St., N. Y. City.
- RED STAR—tool steel, Colonial Steel Co., Pittsburg, Pa.
- RED TOP—burners, acetylene gas, J. H. McCullough & Son, 219 N. Broad St., Phila., Pa.
- RED TOP—ignition batteries, National Carbon Co., Lock Drawer "L," Cleveland, O.
- RED WING—gasoline motor boats and motors, Red Wing Boat Mfg. Co., Red Wing, Minn.
- REECE—screw plates, stocks & dies, E. F. Reece Co., Greenfield, Mass.
- REECE—taps & dies, Butterfield & Co., Derby Line, Vt.
- REED—lathes, F. E. Reed Co., 122 Gold St., Worcester, Mass.
- REED—pliers, Reed Mfg. Co., Erie, Pa.
- REEVES—gasoline automobile engines, bearing metal, variable speed transmissions, wood split pulleys and pulley clutches, Reeves Pulley Co., Columbus, Ind.
- REEVES—white brass, Paul S. Reeves & Son, 1415 Catharine St., Phila., Pa.
- REEVES DIAMOND—phosphor bronze ingots, wire, rods, sheets, etc., & phosphor copper, Paul S. Reeves & Son, 1415 Catharine St., Phila., Pa.
- REFINED—gasoline marine motors & carburetors, Thrall Motor Co., 35 Fort St., E., Detroit, Mich.
- REFLEX—storage ignition batteries & spark plugs, The Reflex Ignition Co., 6919 Lexington Ave., Cleveland, O.
- REGAL—oil auto lamps, R. E. Dietz Co., 60 Lighthouse St., N. Y. City.
- REGENT—auto tires, Regent Tire Co., 3313-15 Troost Ave., Kansas City, Mo.
- REGIMENT—bicycle tires, New York Sporting Goods Co., 17 Warren St., N. Y. City. (Jobbers.)
- REGINA—packing, Crandall Packing Co., Palmyra, N. Y.
- REICHERT—taximeters, Naughton-Mulgrew Taximeter Cab Co., 153-157 E. 53d St., N. Y. City.
- REID—drill chucks, R. H. Brown & Co., New Haven, Conn.
- REID RATIONAL—under water exhausts, The Motor & Mfg. Works Co., Foot of Middle St., Geneva, N. Y.

- REID'S PUTZ & REID'S PUTZ POMADE—metal polish, W. W. Reid Mfg. Co., 131 State St., Boston Mass.
- REINDEER—bicycles and tires, New York Sporting Goods Co., 17 Warren St., New York City. (Jobbers.)
- RELIABLE—anti-skid devices, The Auto Chain Repair Co., 1428 Wabash Ave., Chicago, Ill.
- RELIABLE—automobile jacks & car supports for garages, Elite Mfg. Co., Ashland, O.
- RELIABLE—curtain fasteners, Jos. N. Smith & Co., 4th & Porter Sts., Detroit, Mich.
- RELIABLE—cylinder oil, cutting compounds & auto body soap, General Oil Works Co., Traction Bldg., Indianapolis, Ind.
- RELIABLE—hand auto tire pumps, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- RELIABLE—ignition batteries, The Storage Battery Supply Co., 239 E. 27th St., New York City.
- RELIABLE—magnetos, Reliable Electric Mfg. Co., Box 244, Indianapolis, Ind.
- *RELIABLE—priming valve, J. H. Koontz & Co., Culver, Ind.
- RELIABLE—radiators, Reliable Radiator Co., Inc., 451 E. 173rd St., N. Y. City.
- RELIABLE—tailboard fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RELIABLE—torches, soldering furnaces & gasoline paint burners, Schneider & Trenkamp Co., E. 40th St. & Penna. R. R., Cleveland, Ohio.
- RELIABLE—water gauges, Reliable Water Gauge Co., 1616 Pine St., St. Louis, Mo.
- RELIABLE—wrenches, taps & dies, Conant & Donelson, Greenfield, Mass.
- RELIABLE GEARAIID—gear oil, General Oil Works Co., Traction Bldg., Indianapolis, Ind.
- RELIAANCE—ammeters, voltmeters & volt-ammeters, Reliance Instrument Co., 527 W. Van Buren St., Chicago, Ill.
- RELIAANCE—ammeters, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.
- RELIAANCE—bicycles, Gendron Wheel Co., Toledo, O.
- RELIAANCE—constant speed electric motors for driving machinery, The Reliance Electric & Engineering Co., Caxton Bldg., Cleveland, Ohio.
- *RELIAANCE—files & rasps, Johnson & Bros., File Co., Newark, N. J.
- RELIAANCE—fire extinguishers, Charles Edmund Grubb, 819 Fourth Ave., Altoona, Pa.
- RELIAANCE—ignition batteries, The Storage Battery Supply Co., 239 E. 27th St., N. Y. City.
- RELIAANCE—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- RELIAANCE—pliers, Kilborn & Bishop Co., 81 Lloyd St., New Haven, Conn.
- RELIAANCE—spark plugs, Jeffery-Dewitt Co., 217-219 High St., Newark, N. J.
- RELIAANCE—speed indicators, Reliance Speedmeter Co., 134 Eliot St., Boston, Mass.
- REMINGTON—kerosene motor boat engines & stationary engines, Remington Oil Engine Co., 700 Pacific St., Stamford, Conn.
- REMY—magnetos, Remy Electric Co., Columbus Ave. & 25th St., Anderson, Ind.
- RENEWO—misc. valves, The Lunkenheimer Co., Cincinnati, O.
- RENO—French umber filler, Reno Bros. Paint Co., Pulaski, Pa.
- RENOLD—auto chains, Link-Belt Co., Hunting Park Ave. & Reading Ry., Nicetown, Phila., Pa.
- RENSHAW—ratchet drills, Pratt & Whitney, 111 Broadway, N. Y. City.
- REPUBLIC—tires, auto, Republic Rubber Co., Youngstown, Ohio.
- RESERVE—oil cups, auto, the Lunkenheimer Co., Cincinnati, O.
- RESERVE—storage ignition batteries, Westinghouse Storage Battery Co., Bonton, N. J.
- RESUME—electric auto lamps, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- REVIEW—dome lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- REV-O-NOC—tire repair tools, Hibbard, Spencer, Bartlett & Co., Chicago, Ill.
- REX—automobile tool cases, lamp covers, robes, automobile capes, sleevelets, repair aprons & storm aprons, tire & tube cases, grease bags, gloves, wind shields, curtain rolls & auto covers, Rex Shield & Mfg. Co., Connersville, Ind.
- REX—auto tires, Rex Tire Co., 133 W. 68th St., N. Y. City.
- REX—cup grease, Marshall Oil Co., Marshalltown, Iowa.
- REX—files & rasps, Rex File & Saw Co., Newcomerstown, Ohio.
- REX—fire extinguishers, The Rex Fire Extinguisher Co., 72-76 Cortlandt St., New York City.
- REX—foot rests, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.
- REX—grease cups, The Lunkenheimer Co., Cincinnati, O.
- REX—hand soap, C. I. Nesmith Co., Reading, Mass.
- REX—metal polish, Armiger Chemical Co., 2155-57 Austin Ave., Chicago, Ill.
- REX—pump connections, Stevens & Co., 375 Broadway, N. Y. City.
- *REX—tire powder, Rex Mfg. Co., Hartford, Conn.
- REX—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.
- REX—wrenches, Rex Wrench Co., Boston, Mass.
- REXINE—hand & auto body cleansing compounds, The Rexine Co., 725 New York Ave., Sheboygan, Wis.
- REX 4 WAY—goggles, Texas Co., 212-14 Kinzie St., W., Chicago, Ill.
- REYNOLDS—eye protectors & skid devices (for pulling out of mud holes), Harry H. Reynolds, 1205 Monadnock Block, Chicago, Ill.
- REYNOLDS—screw driving machines & gear cutting machinery, Reynolds Machine Co., Moline, Ill.
- RHENANIA—gear hobbing machines, Alfred H. Schutte, 90 West St., N. Y. City.
- RHINELAND—ball bearings, imported by Sulzemyer & Co., 50 Church St., N. Y. City.
- *RHINELANDER—gasoline motor boats, Rhineland Boat Co., 251 Kemp St., Rhineland, Wis.
- RHOADES—unit sparker, The Altemus Mfg. Co., 42nd & Chestnut Sts., Phila., Pa.
- RHODES—tire remover, The Rhodes Mfg. Co., Grand Rapids, Mich.
- RHODES PATHFINDER—Route guides, automatic, The J. B. Rhodes Co., Kalamazoo, Mich.
- RICHARD POPP—taximeters, Franco-American Taximeter Co., 49th St. & 7th Ave., N. Y. City.
- RICHARDS—aluminum solder, Janney-Steinmetz & Co., 4th & Market Sts., Phila., Pa.
- RICHARDSON—boat lighting outfits, Richardson Engineering Co., 107 Liberty St., N. Y. City.
- RICH—drilling machines, flat drills, expanding mandrels, sockets, sleeves & chucks, Celfor Tool Co., Chicago, Ill.
- RICHMOND—air compressors, The Standard Pattern & Mfg. Co., Richmond, Ind.
- RICHMOND—auto dome lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RICHMOND STANDARD—stationary engines, The Standard Pattern & Mfg. Co., Richmond, Ind.
- RIGHT—gaskets & rubber packing, The Gas-ket Supply Co., 1829 Ludlow St., Phila., Pa.
- RILEY—wind shields, extra tire holders & gasoline cycle motors, Riley Bros., Bridge-ton, N. J.
- RIMMON—side lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- RIPLEY—galvanized steel motor boats, gasoline tanks, compressed air tanks & hulls, Ripley Steel Boat Co., Box O, Grafton, Ill.

- RISE SUN**—metal polish, Acme Polish Co., 810 Second Ave., Pittsburg, Pa.
- RIST-FIT**—gloves, Morrison-Ricker Mfg. Co., Grinnell, Iowa.
- RITTER**—spring winders, Macomber & Whyte Rope Co., 507-509 S. Clinton St., Chicago, Ill.
- RIVAL**—leather belting, Hudson Belting Co., 1-3 Eaton Pl., Worcester, Mass.
- RIVERSIDE**—speedometers, Excelsior Tire Co., 1777-79 Broadway, N. Y. City.
- ROBBINS & MYERS**—electric motors for driving machinery charging apparatus & dynamos, The Robbins & Myers Co., Springfield, Ohio.
- ROBERTS**—marine gasoline engines, Roberts Motor Co., Sandusky, O.
- ROBERT**—voltmeters, volt-ammeters, ammeters & current indicators, The Robert Instrument Co., 56 Shelby St., Detroit, Mich.
- ROBERTSON'S**—auto body soap, J. T. Robertson Co., Manchester, Conn.
- ROBERTSON'S RED CROSS BRAND**—metal polish, Robertson & Co., 1061 W. Madison St., Chicago, Ill.
- ROBESON**—glutrin for road making, Robeson Process Co., Au Sable Forks, N. Y.
- ROBINSON**—auto tops, top joints & auto trimmings, H. H. Robinson Mfg. Co., Des Moines, Iowa.
- ROBINSON'S**—drill & surface grinders & tool holders, Robinson Tool Works, Waterbury, Conn.
- ROCHESTER**—automobile lamp brackets, Thos. J. Northway, 92 Exchange St., Rochester, N. Y.
- ROCHESTER**—gasoline motor boats and marine engines, Rochester Gas Engine Co., 707 Driving Park Ave., Rochester, N. Y.
- ROCHESTER**—helve hammers, West Tire Setter Co., 143 Cutler Bldg., Rochester, N. Y.
- ROCHESTER**—locks for steering posts, The Rochester Safety Lock Co., Rochester, Ind.
- ROCHESTER**—lubricators, Greene, Tweed & Co., 109 Duane St., N. Y. City.
- *ROCHESTER**—marine engines, Boston Gasoline Engine Co., 19 High St., Boston, Mass.
- ROCHESTER**—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- ROCH-O**—timers, Rochester Timer Co., Livingston Bldg., Rochester, N. Y.
- *ROCK CRUSHER**—tire protectors, I. J. D. Fairhurst, Juda, Wis.
- ROCKFORD**—metal shapers & planers, Rockford Machine Tool Co., Rockford, Ill.
- ROCK**—solidified palm oil and transmission oil, Magie Bros., 9-11 N. Canal St., Chicago, Ill.
- ROCK ISLAND**—gray iron castings, machinists', woodworkers' & pipe vices, Rock Island Mfg. Co., Rock Island, Ill.
- ROCKWOOD**—friction drives, Rockwood Mfg. Co., 1911 English Ave., Indianapolis, Ind.
- ROGERS**—carbon removers & top dressing, Detroit Varnish Co., Detroit, Mich.
- ROGERS AUTO-BRASSHINE**—metal polish, eDetroit Varnish Co., Detroit, Mich.
- ROGERS AUTO-BRITE**, wood polish, Detroit Varnish Co., Detroit, Mich.
- ROGERS KLENZER**—auto body cleansing compound, Detroit Varnish Co., Detroit, Mich.
- ROGERS RED SEAL**—varnishes, Detroit Varnish Co., Detroit, Mich.
- ROHRBACHER**—tire inflators, pump & storage pumps, pump connections, nipple & nozzle for cleaning purposes and hose connections, Rohrbacher Automobile Air Pump Co., 173 East Water St., Portland, Ore.
- ROLLER SMITH**—ammeters, voltmeters & voltmeters, Roller-Smith Co., 203 Broadway, N. Y. City.
- ROME**—spiral tubing, Rome-Turney Radiator Co., Rome, N. Y.
- ROME QUALITY**—brass & copper tubing, rivets, sheets wire & rods, Rome Brass & Copper Co., Rome, N. Y.
- RONI**—acetylene lamp burners, Wm. M. Crane Co., 1131-33 Broadway, N. Y. City.
- RONSON**—auto initials, wrenches, mirrors, li-mousine vases, cigar holders, domelight casings, Ronson Specialty Co., 7 Mulberry St., Newark, N. J.
- ROOT**—rim bending machines, rim packer, variety saw, band saw, self feed rip saws, portable saws, saw materials, etc., B. M. Root Co., York, Pa.
- ROPER SAFETY**—solid & reversing propellers, C. F. Roper, Hopedale, Mass.
- *ROPELESS**—boat steering apparatus, Joshua A. Ludlow, 1 Madison Ave., N. Y. City.
- ROSE**—washer & gasket cutters, J. A. Rose, Hastings, Neb.
- ROSS**—steering devices and compensating gears, Ross Gear & Tool Co., Main & 9th Sts., Lafayette, Ind.
- ROTH**—dynamos, electric motors, grinders, blowers, polishing & buffing machines & switchboards, Roth Bros. & Co., 1374 W. Adams St., Chicago, Ill.
- ROUGES**—polishing compounds, Matchless Metal Polish Co., N. Y. City.
- ROUGH RIDER**—cushion springs, Jackson Cushion Spring Co., Jackson, Mich.
- ROUGH RIDER**—extension motorcycle grips, Hartford Rubber Works Co., 691 Park St., Hartford, Conn.
- ROUGH RIDER**—fuel & oil cans, Manufacturers' Can Co., 434 Mulberry St., Newark, N. J.
- ROUGH STUFF**—colors, Ditzler Color Co., 18-24 Baltimore Ave., W., Detroit, Mich.
- ROULETTE**—auto dome lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- *ROUNTREE-STIMMEL**—automobile clocks, Auto Check Mfg. Co., 1717 Broadway, N. Y. City.
- ROWE**—gasoline auto engines, Rowe Motor Co., Waynesboro, Pa.
- W. & H. ROWLAND**—auto leaf springs, William & Harvey Rowland, Frankford, Phila., Pa.
- ROYAL**—automobile jacks, Motor Car Equipment Co., 55 Warren St., N. Y. City.
- ROYAL**—belting, Thermoid Rubber Co., Trenton, N. J.
- *ROYAL**—enamels, Royal Enameling & Stamping Works, Desplaines, Ill.
- ROYAL**—forges, pressure blowers & tuyere irons, Canedy-Otto Mfg. Co., Chicago Heights, Ill.
- ROYAL**—jacks, John C. Blevney, 216-224 High St., Newark, N. J.
- ROYAL**—leather dressing, Royal Leather Color Co., 62 Pearl St., Buffalo, N. Y.
- ROYAL**—marine gasoline engines, Royal Engine Co., Bridgeport, Conn.
- ROYAL**—metal & wood polish, Royal Lubricating Co., 116 Broad St., N. Y. City.
- ROYAL**—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- ROYAL**—wood polish, Royal Lubricating Oil Co., 116 Broad St., N. Y. City.
- ROYAL ARCH**—cushion springs, Detroit Wire Spring Co., 21st & Standish Sts., Detroit, Mich.
- ROYAL DE LUXE**—acetylene & oil auto lamps, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.
- ROYAL WORCESTER**—belt dressing & belt facing, Graton & Knight Mfg. Co., 94-104 Bloomingdale Rd., Worcester, Mass.
- *RUBBA-SILK**—fabrics, rubber coated silks & satins, Wm. M. Poz, 134-136 Spring St., N. Y. City.
- RUBBER CO. OF AMERICA**—auto tires, Rubber Co. of America, 149 Broadway, N. Y. City.
- RUBBERLIFE**—tire preservative, Rubberlife Mfg. Co., Grand Rapids, Mich.
- RUBBERSET**—jacquer brushes, Hanson & Van Winkle Co., Newark, N. J.
- RUBBERWHITE**—rubber preservatives, Auto & Aeronautic Supply Co., 2100 Broadway, N. Y. City.
- RUBY**—wiping rags, Continental Waste Co., 22 Clayton St., Boston, Mass.
- RUBY**—oils, Hinds & Coon, 124-26 Pearl St., Boston, Mass.

RUBY—oil stones, Chicago Wheel & Mfg. Co., 1101-03 W. Monroe St., Chicago, Ill.
 RUBY FLUID—soldering flux, Ruby Chemical Co., Johnstown, Ohio.
 RUBY-RUB—metal polish, Hinds & Coon, 124-26 Pearl St., Boston, Mass.
 RUDIE—muffler cut-out valves, Findeisen & Kropf Mfg. Co., 2100 S. Rockwell St., Chicago, Ill.
 RUFF—anti-skid chains & chain grips, Ruff Spring Tire Chain Co., 74 Cortlandt St., N. Y. City.
 RUNEASY—oils & greases, W. R. Winn, 143 Maiden Lane, N. Y. City.
 RUNG—tire inflators (mechanical), Rung Automatic Tire Pump Co., 200 Franklin Bank Bldg., Phila., Pa.
 RUSHMORE—lights and generators, Rushmore Dynamo Works, 629 South Ave., Plainfield, N. J.
 RUSKIN—side lights, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
 RUSSELL-JENNINGS—auger bits, Russell-Jennings Mfg. Co., Chester, Conn.
 RUTENBER—auto and marine motors, Western Motor Co., Logansport, Ind.
 RUTHERFORD—pneumatic wheels, Rutherford Wheel Co., Stamford, Conn.
 RUUD—gas water heaters for garage use, Ruud Mfg. Co., Pittsburg, Pa.

S

S—chisels & tire bolts, H. D. Smith & Co., Plantsville, Conn.
 S & B—pressure gauges & hydrometers & engine revolution counters, Schaeffer & Budenberg Mfg. Co., 963-5 Kent Ave., Brooklyn, N. Y.
 S. B. R.—muffler cut-outs, The S. B. R. Specialty Co., 1771 Broadway, N. Y. City.
 *S. & C.—primary magneto plugs, Sprague & Carr, Howell, Mich.
 S. H. CO.—adjustable reamers, American Specialty Co., 834-35 Monadnock Bldg., Chicago, Ill.
 S-M POSITIVE—spark plugs, Seidler-Miner Supply Co., 207-211 Jefferson Ave., Detroit, Mich.
 SMSCO—acetylene gas generators, Sterling Machine & Stamping Co., Wellington, O.
 S. P. O.—machinery, ball bearings, tools, etc., imported by S. P. O. Automobile Co., 1595 Broadway, N. Y. City.
 SRB—roller & ball bearings & thrust bearings, Standard Roller Bearing Co., 50th & Lancaster Ave., Phila., Pa.
 S. R. O.—ball bearings, imported by Theo. H. Marburg, Room 12, 59 Wall St., N. Y. City.
 S & W—starting cranks, Stryker & Woessner, Huron, O.
 S. & W.—steering devices & ball sockets, Schweppe & Wilt Mfg. Co., Meldrum & Champlain Sts., Detroit, Mich.
 S X—ignition batteries, dry, & magnetos, Lutz-Lockwood Mfg. Co., Aldene, N. J.
 SABISKA—top dressing, The Oriental Leather Finish & Chemical Co., 493 Union St., Lynn, Mass.
 *SABLE—rawhide belts, Shultz Belting Co., St. Louis, Mo.
 SACO—cotter pins, F. P. Smith & Co., Sharon Hill, Pa.
 SAFE—stationary engines, steam, Ontario Iron Works, Pulaski, N. Y.
 SAFEGUARD—grease, Wm. T. Baker, 228-32 Suydam Ave., Jersey City, N. J.
 SAFETY—combination pump connection & air gauge & shock absorbers, Safety Tire Gauge Co., 1463 Michigan Ave., Chicago, Ill.
 *SAFETY—pumps for boat whistles or tires, Safety Air Pump Co., 182 Sheridan Ave., Detroit, Mich.
 SAFETY—rubber hose & belting, United & Globe Rubber Mfg. Co., Trenton, N. J.
 SAFETY—stationary boilers, Ontario Iron Works, Pulaski, N. Y.
 SAFETY—waste cans, Dover Stamping & Mfg. Co., 385 Putnam Ave., Cambridge, Mass.
 SAFETY OFFSET—clocks, Manasseh Levy & Co., 182 Broadway, N. Y. City.
 *SAGAMORE—gasoline marine motors, Sagamore Engine Co., 74-78 Sagamore St., Lynn, Mass.
 SAGER—removable rims & equalizing springs, J. H. Sager Co., 265 South Ave., Rochester, N. Y.
 SAGER—toe clips, The Standard Co., Torrington, Conn.
 ST. JOHN—solid automobile tires & bicycle tires, St. John Rubber Co., 116 Broad St., N. Y. City.
 ST. LOUIS—tool grinders, sensitive drills, tapping machines & chucks, St. Louis Machine Tool Co., 1405 S. 7th St., St. Louis, Mo.
 ST. MARY'S—stationary engines & charging apparatus, St. Marys Machine Co., St. Marys, Ohio.
 SALAMKA—top dressing, The Oriental Leather Finish & Chemical Co., 493 Union St., Lynn, Mass.
 SALISBURY—leggings & gauntlets, American Tire Co., Owosso, Mich.
 SALT WATER—dry batteries, Loane-Hiltz Engineering Co., 320 S. Hanover St., Baltimore, Md.
 SALT WATER—dry batteries, Salt Water Battery Co., 306 S. Hanover St., Baltimore, Md.
 SAMPSON—brass tire plugs, Stevens & Co., 375 Broadway, N. Y. City.
 SAMPSON—hand punches, Gem Tool Works, 2 Hudson St., N. Y. City.
 SAMSON—belting, Thermoid Rubber Co., Trenton, N. J.
 SAMSON—misc. valves, The Lunkenheimer Co., Cincinnati, O.
 SAMSON—rubber automobile tires & inner tubes, imported by Rex Tire Co., 138 W. 68th St., N. Y. City.
 SAMSON CAPE NOIRE—non-skidding leather tires, imported by Rex Tire Co., 138 W. 68th St., N. Y. City.
 SAMSON TYPE COURSE—non-skidding tires, imported by Rex Tire Co., 138 W. 68th St., N. Y. City.
 SANFORD—portable welding machines, F. C. Sanford Mfg. Co., Bridgeport, Conn.
 SANGAMO—meters, Sangamo Electric Co., Springfield, Ill.
 *SANKEY—radiator fans, imported by Edward E. Cary Co., 59-61 Park Pl., N. Y. City.
 SATIN FINISH—metal washers, Mason Machine Co., Bridgeport, Conn.
 SAUNDERS—pipe cutters, Ayes & Co., 1812-16 Ellen St., Chicago, Ill.
 SAVE-TIRE, THE—vulcanizers, Savetire Company, 83 First Ave., Grand Rapids, Mich.
 *SAWYER—brake bands, belting & belt dressing, Sawyer Belting Co., Cleveland, Ohio.
 SAWYER—machinists' small tools, measuring gauges, machinists' clamps, hack saw frames, Sawyer Tool Mfg. Co., Fitchburg, Mass.
 SAXON—acetylene, electric & oil auto lamps (also motorcycle), Saxon Lamp Co., Inc., 530 W. 28th St., N. Y. City.
 SAXON—wrenches, Kilborn & Bishop Co., 81 Lloyd St., New Haven, Conn.
 SAXON & SAXON, JR.—electric auto horns, The Russell Electric Co., Danbury, Conn.
 SCHAAP—welding, Schaap Flame Utilities Corporation, 344 Cumberland St., Brooklyn, N. Y.
 SCHAEFER—gasoline marine motors, Schaefer Mfg. Co., Berlin, Wis.
 SCHAFER—annular ball bearings, imported by Barthel, Daly & Miller, 42 Broadway, N. Y. City.
 SCHATZ—hand & power punches & hand & power shears, The Schatz Mfg. Co., Poughkeepsie, N. Y.
 SCHAU—tire setting machines, Burt Mfg. Co., Clinton & Fulford Sts., Kalamazoo, Mich.
 SCHERLER—carburetors and fuel strainers, Wheeler & Scherler, Shelby, Barth & Sanders St., Indianapolis, Ind.

- SCHELLENBACH—lathes, The John B. Morris Foundry Co., Cincinnati, Ohio.
- SCHENECTADY—spark plugs, Schenectady Spark Plug Co., 1259 State St., Schenectady, N. Y.
- SCHIEREN'S—clutch valve, lace & hydraulic leather, Chas. A. Schieren Co., Schieren Bldg., N. Y. City.
- SCHILDBACK—wind shields, Limousine Carriage Mfg. Co., 3515 Michigan Ave., Chicago, Ill.
- SCHLENKER—tapping machines, Howard Iron Works, Buffalo, N. Y.
- *SCHNEIDER—resilient automobile wheels, Schneider Mfg. Co., 30 Church St., N. Y. City.
- SCHRADER UNIVERSAL—bicycle, motorcycle and auto valves, A. Schrader's Sons, 28-32 Rose St., N. Y. City.
- SCHUBERT—aluminum & wood auto bodies, auto tops, seats & trimmings, Schubert Bros. Gear Co., 44 Cedar St., Oneida, N. Y.
- SCHUG—spark coils, Schug Electric Mfg. Co., 320 Jefferson Ave., Detroit, Mich.
- SCHULZ—spinning lathes, power hammers, horn power presses, spinning tools & rivet spinners, Fritz A. Schulz, 66 N. Jefferson St., Chicago, Ill.
- SCHWARTZ—metal melting furnaces, The Hawley Down Draft Furnace Co., First National Bank Bldg., Chicago, Ill.
- SCHWARZ—wooden automobile wheels, The Schwarz Wheel Co., 20th & Glenwood Ave., Phila., Pa.
- *SCHWEIZER—gasoline marine motors, Schweizer Motor Co., 605-07 Eastern Ave., Ex. Baltimore, Md.
- SCIENTIFIC—cutting compounds, White Refining Co., 77 Main St., Buffalo, N. Y.
- SCLEROSCOPE—testers, for testing hardness of metals, Shore Instrument & Mfg. Co., 226 W. 24th St., N. Y. City.
- *SCOTT—gasoline marine motors, Henry L. Scott & Co., 227 Eddy St., Providence, R. I.
- SCOTT—muffler cut-outs, The Capitol Hill Garage Co., 821 Corona St., Denver, Colo.
- SCOTT'S—neck, ear, face and chest mufflers, Scott Knitting Co., 175 Main St., Portsmouth, O.
- SCRANTON—axles, The Scranton Axle Works, Scranton, Pa.
- SCRANTON—power hammers, Scranton & Co., New Haven, Conn.
- SEABERG—elevators, Gust. Seaberg, 407 Douglass St., Brooklyn, N. Y.
- SEAMANS—chain steerers, W. H. Lindley Co., Main & Canal Sts., Canastota, N. Y.
- SEAMON & MYERS—taximeters, A. J. Myers, 244 W. 49th St., N. Y. City.
- SEARCHLIGHT—acetylene gas tanks, The Searchlight Gas Co., Pittsburg, Pa.
- SEARCHLIGHT—gas bicycle lamps, Bridgeport Brass Co., cor. Fairfield & Holland Aves., N. Y. City.
- SEARCHLIGHT—metal polish, Boston Grease Co., Boston, Mass.
- SEARIGHT'S—lever shears, Detroit Shear Co., 139 Beaubien St., Detroit, Mich.
- SECOND MAN—auto tire tools, B. Morgan, Tew's Court, Old Beach Road, Newport, R. I.
- SECTIONAL—auto tire protectors, American Tire Co., Owosso, Mich.
- SECURITY—automatic time switch, F. Bissell Co., Toledo, O.
- SECURITY—demountable rims, Security Demountable Rim Co., 215-217 E. 21st St., Chicago, Ill.
- *SECURITY—ignition batteries, switches & ignition apparatus for motor boats, Josiah A. Ludlow, Madison Ave., N. Y. City.
- SECURITY—license tags, The Cassidy-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- SECURITY—locking handles, etc., C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- SECURITY—robe and apparel holder, The Imperial Brass Mfg. Co., 441 S. Jefferson St., St., Chicago, Ill.
- SECURITY—tire reliners & patches, Security Reliner Co., Montgomery, N. Y.
- SECURITY TREAD—auto pneumatic tires, Batavia Rubber Co., Batavia, N. Y.
- SEELEY—timers, terminals, ignition cable & magnetos, High Frequency Ignition Coil Co., 126 E. 9th St., Los Angeles, Cal.
- SEGERSTROM—vulcanizers, Segerstrom Vulcanizer Co., 219 S. 7th St., Minneapolis, Minn.
- SEIDEL—crucibles, R. B. Seidel, Inc., 1322 Callowhill St., Phila., Pa.
- SELBACH—inner tire sleeves, tire cement & tire patches, Selbach Rubber Co., 471 Tremont St., Boston, Mass.
- "SELF-PROPELLED VEHICLES"—by Homan (book), Theo. Audel & Co., 63 Fifth Ave., N. Y. City.
- SELF-SEALING—spark coil condensers, American Electric Co., State & 64th Sts., Chicago, Ill.
- SELF SNAP—spark controlling & cut-out levers, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- SE-MENT-OL—boiler & radiator compounds, Northwestern Chemical Co., Marietta, O.
- SEMI-DRY—dry ignition batteries, The Semi-Dry Battery Co., Fifth & Essex Sts., Harrison, N. J.
- SEMPER-IDEM—bearing metal & solder, Thomas Wildes' Sons, 21 Maiden Lane, N. Y. City.
- SENECA FALLS—lathes, Seneca Falls Mfg. Co., 516 Water St., Seneca Falls, N. Y.
- SENSIBLE—screw drivers, Vanderbeek Tool Works, 622 Capitol Ave., Hartford, Conn.
- SENTINEL—electric auto lamps, R. E. Dietz Co., 60 Lighthouse St., N. Y. City.
- SENTINEL—oil cups, auto, The Lunkenheimer Co., Cincinnati, O.
- SERVICE—wrenches, Harris & Reed Mfg. Co., 1500-1578 W. 15th St., Chicago, Ill.
- 7X—auto heaters, Chicago Flexible Shaft Co., Chicago, Ill.
- SEXTON—fuel & oil cans, measures, gasoline storage tanks & pumps, Tire pumps & gasoline storage outfits, Sexton Can Co., 2 Hartford St., Boston, Mass.
- SHAIN'S BALL SPRAY—carburetors, Chas. D. Shain, 70 Murray St., N. Y. City.
- SHAIN'S—ignition cables, spark plugs & wire terminals, Chas. D. Shain, 70 Murray St., N. Y. City.
- SHALER—vulcanizers, C. A. Shaler Co., Wau-pun, Wis.
- SHAMROCK EXCELSIOR—motorcycle tires, N. S. U. Motor Co., 206 W. 76th St., N. Y. City.
- SHAMROCK GLORIA—rubber motorcycle belts, N. S. U. Motor Co., 206 W. 76th St., N. Y. City.
- SHARP—spark plugs, J. & W. Sharp & Co., Cleveland, O.
- SHAW—complete power outfit for bicycles, Shaw Mfg. Co., Galesburg, Kan.
- SHAWMUT—portable electric lights, Chase-Shawmut Co., Newburyport, Mass.
- SHAWMUT—automobile tires, tire accessories & blowout patches, The Shawmut Tire Co., Boston, Mass.
- SHAWMUT—spark plugs, Blake Electrical Co., 88 Purchase St., Boston, Mass.
- SHAWMUT—tires, Hood Rubber Co., 99 Bedford St., Boston, Mass.
- SHELBY—seamless steel tubing, axle tubes, boiler tubes, auto bells, compressed air tanks & gongs, National Tube Co., Frick Bldg., Pittsburg.
- SHELDON—axles & springs, Sheldon Axle Co., Wilkes-Barre, Pa.
- SHELDON—hammers & boring machines, W. W. Crane Foundry & Machine Works, Auburn, N. Y.
- SHELTON—metallic filler, Shelton Metallic Filler Co., Derby, Conn.
- SHEPARD—cranes, electric & pneumatic hoists, pneumatic compression riveters, trolleys & tramways, Shepard Electric Crane & Hoist Co., Montour Falls, N. Y.
- SHEPARD—vises, Prentiss Vise Co., 44 Barclay St., N. Y. City.

- SHEPARDSON—screw drivers, H. H. Mayhew Co., Shelburne Falls, Mass.
- SHERK'S ENTERPRISE CAR RENOVATOR—wood polish, The Enterprise Supply Co., 501 Commercial National Bank Bldg., Chicago, Ill.
- SHERMAN—hose couplings, H. B. Sherman Mfg. Co., 12 Barney St., Battle Creek, Mich.
- SHERMAN—spark plugs, G. H. Sherman & Son, 419 St. Aubin Ave., Detroit, Mich.
- SHERMAN & SMITH—gasoline stationary engines, Sherman & Smith Mfg. Co., Independence, Iowa.
- *SHERWELL—steering wheels, motor boat, C. H. Sherwell, Ogdensburg, N. Y.
- SHERWOOD—lubricators, grease cups, oil pumps, carburetors, Sherwood Mfg. Co., 1702-12 Elmwood Ave., Buffalo, N. Y.
- SHIMER—cutters, cutter-heads & moulding machines, Samuel J. Shimer & Sons, Milton, Pa.
- SHINEAUL—metal polish, The Ericka Mfg. Co., Inc., 872-888 Liberty St., Springfield, Mass.
- SHINEBRIGHT—metal polishes, Buffalo Specialty Co., 375-77 Ellicott St., Buffalo, N. Y.
- SHINEBRIGHT—metal polish, United Supply Agency, 912 Westminster St., Providence, R. I.
- SHIPLEY—automatic self-adjusting lamp brackets, Automatic Headlight Co., 299 Broadway, N. Y. City.
- SHIPMAN—carburetors, Ralph Shipman, Sunbury, Pa.
- *SHOCKSORBER—shock absorber, Acme Spring Check Co., 1717 Broadway, N. Y. City.
- SHOEMAKER—motorcycle & fan pump & oiler belts, Apex Belting Co., 242 Chestnut St., Phila., Pa.
- SHOPO—hand cleansing compound, John T. Stanley, 650 W. 30th St., N. Y. City.
- SHO-FUR—auto robes, Burlington Blanket Co., Burlington, Wis.
- SHONBERG—motor bronze, I. Shonberg, 363 Hudson Ave., Brooklyn, N. Y.
- SHORT—gasoline auto & marine engines & stationary engines, W. M. Ryan Co., 314 S. Canal St., Chicago, Ill.
- *SHULTZ—belt dressing & rawhide leather, Shultz Belting Co., St. Louis, Mo.
- SHUMARD'S—front spring outfit for runabouts, The Special Motor Vehicle Co., 8th & Broadway, Cincinnati, O.
- SHUR HOLD—tire sleeves & tire repair articles, Inner Shoe Tire Co., 64 Monroe St., Grand Rapids, Mich.
- SIBLEY & WARE—drill presses, Sibley Machine Tool Co., South Bend, Ind.
- SIDNEY—band saws, saw tables, jointers, swing saws, planers & shapers, The Sidney Tool Co., Sidney, Ohio.
- SIGNAL—bicycles, Gendron Wheel Co., Toledo, O.
- SIGNAL—horns, imported by Autolyte Mfg. Co., 26 Warren St., N. Y. City.
- SILEX—Gear case compound, Borne, Scrymser & Co., 80 South St., N. Y. City.
- SILICIA—storage batteries, Silicia Storage Battery Co., 29 W. 23rd St., N. Y. City.
- SILVER DUST—metal polish, Acme Polish Co., 810 Second Ave., Pittsburg, Pa.
- SILVER—forges, band saws, drilling machines, wood planers & swing saws, Silver Mfg. Co., Salem, Ohio.
- SILVER KING—wrenches, C. M. E. Wrench Co., Industrial Bldg., Syracuse, N. Y.
- SILVER STEEL—hack saw frames, E. C. Atkins & Co., Indianapolis, Ind.
- SILVEY—ignition batteries, W. L. Silvey, Dayton, O.
- SIMMS—magnetos, imported by Simms Magnet Co., 42 Broadway, N. Y. City.
- SIMONDS—files, hack saws, hack saw frames, screw slotters & file handles, Simonds File Co., Fitchburg, Mass.
- SIMPLEX—battery connections & primary "secondary terminals, Geo. W. Bolton, 260 Wreford Ave., Detroit, Mich.
- SIMPLEX—cranes & hoists, D. Round & Son, Cleveland, Ohio.
- SIMPLEX—hack saws, The Simplex Mfg. Co., 90 West St., N. Y. City.
- SIMPLEX—ignition storage batteries, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- SIMPLEX—insulated wire, Simplex Electrical Co., 110 State St., Boston, Mass.
- SIMPLEX—license tags, The Cassidy-Fairbank Mfg. Co., 6106-6130 La Salle St., Chicago, Ill.
- SIMPLEX—motorcycle speed devices, pulleys, belt hooks, handle-bar switches, cable clips, etc., Prospect Motor Co., 1900 Broadway, N. Y. City.
- SIMPLEX—pliers, Crescent Tool Co., Jamestown, N. Y.
- SIMPLEX—robe rails, The James Murdock, Jr., Co., 112 Opera Place, Cincinnati, O.
- SIMPLEX—spark plugs & mica cores, Auto Specialties Mfg. Co., 656-658 3rd St., Milwaukee, Wis.
- SIMPLEX—steering gears, B. Roth Tool Works, 2122-28 Choteau Ave., St. Louis, Mo.
- SIMPLEX—universal joints, Acme Universal Joint & Mfg. Co., 310-14 E. Water St., Kalamazoo, Mich.
- SIMPLICITY—auto tops & wind shields, Consumers Auto Supply Co., 412 Diamond St., Pittsburg, Pa.
- SIMPLICITY—rectifier, Auto & Supply Mfg. Co., 2366 Woodhill Road, Cleveland, Ohio.
- *SIMPLICITY—reversing gears for motor boats, Simplicity Gear Co., Detroit, Mich.
- SIMPLICITY—water cut-off, The Vehicle Specialty Co., Inc., 26 State St., Hartford, Conn.
- SINGER—sewing machines for stitching leather, Singer Sewing Machine Co., N. Y. City.
- SINGLESPARK—timers, The Knege Co., Inc., Washington, D. C.
- SINGLE SPARK VIBRATOR—spark coils, C. Per Lee Noxon, 500 E. Water St., Syracuse, N. Y.
- SINTZ—timers & boat propellers, Wilmarth & Morman Co., 583 Canal Ct., Grand Rapids, Mich.
- SINTZ—gasoline auto & marine engines, stationary engines & speed change gears, motors & auto truck engines, Guy L. Sintz Co., Marshall, Mich.
- SIRENO—electric auto & motorcycle horns & switches, The Siren O Co., 39-41 Cortlandt St., N. Y. City.
- SIRO—carburetors, Siro Carburetor Mfg. Co., 31 Taylor St., Springfield, Mass.
- SIROCCO—fans, American Blower Co., Detroit, Mich.
- SIX IN ONE—motorists' tools, A. Nelson Mfg. Co., 564 W. Randolph St., Chicago, Ill.
- SKAT—hand cleansing compounds, Skat Mfg. Co., Hartford, Conn.
- SKELLY—nuts & bolts, Thos. P. Skelly & Co., 24th St. below Callowhill, Phila., Pa.
- SKENE—marine chocks, A. S. Morss Co., 210-212 Commercial St., Boston, Mass.
- SKIDOO—hand soap, The Skidoo Soap Co., cor. Michigan & Buttles Ave., Columbus, Ohio.
- SKINNER—chucks, face plate jaws, lathe face plates, Skinner Chuck Co., New Britain, Conn.
- SKINNER—pumps & recoil checks, Skinner & Skinner, 1337 Michigan Ave., Chicago, Ill.
- *SKIPABOUT—gasoline motor boats, C. A. Johnson, Short Beach, Conn.
- SKIPPER—gasoline marine motors, Gray-Hawley Mfg. Co., 605-609 Fort St., W. Detroit, Mich.
- SLAMA—tire protectors, Slama Tire Protector Co., 1504 Grand St., Kansas City, Mo.
- SLIP-NOT—belt & clutch dressing, Cleveland Auto-Clutch Dressing Co., Cleveland, Ohio.
- SLIP-OVER—emergency tires, Slip-Over Tire Co., 204 S. Boots St., Marion, Ind.
- SLOANE—gasoline auto & marine motors, Sloane Motor Co., 408-16 W. Indiana St., Chicago, Ill.
- SLOCOMB—drills, micrometer calipers & micrometer height & depth gauges, J. T. Slocomb Co., 29 Oxford St., Providence, R. I.

SMALLEY—gasoline marine motors, General Machinery Co., Bay City, Mich.

SMITH—automobile parts, A. O. Smith Co., Park, Clinton & Virginia Sts., Milwaukee, Wis.

*SMITH—countershafts, Smith Countershaft Co., 141 Milk St., Boston, Mass.

SMITHICKS—belt fasteners, F. P. Smith & Co., Sharon Hill, Pa.

contact maker, Atwater Kent Mfg. Works, J. BARTON SMITH—files & rasps, Nicholson File Co., Providence, R. I.

SMITH'S—spar coating & varnish, Edward Smith & Co., 129 West Ave., Long Island City, N. Y.

SMOOTH-ON—metal cements, Smooth-on Mfg. Co., 572-574 Communipaw Ave., Jersey City, N. J.

SNAP-ON—spark plug terminals, Geo. W. Bolton, 260 Wreford Ave., Detroit, Mich.

SNECKNER—gasoline marine motors, Stamford Motor Co., Inc., Foundry, Water & Atlantic Sts., Stamford, Conn.

SNELL—bicycles, Consolidated Mfg. Co., Toledo, O.

SNELL—auger bits, chisels & punches, Snell Mfg. Co., Fiskdale, Mass.

SNELL—gasoline & oil storage outfits, Hydraulic Oil & Distributing Co., 606 Penobscot Bldg., Detroit, Mich.

SNOW FLAKE—soldering salt, Grasselli Chemical Co., Cleveland, Ohio.

SOLAR—lamps, lamp brackets & acetylene gas generators, Badger Brass Mfg. Co., Kenosha, Wis.

SOLARINE—metal polish, Harry A. Allers & Co., 136 Liberty St., N. Y. City.

SOLDERINE—soldering sticks, Solderine Co., 37 Hartford St., Boston, Mass.

SOLVOLITE—carbon removers, anti-freezing solutions & soapstone, T. J. Peterson Co., Security Bldg., Chicago, Ill.

SOMBREKOL—top dressing, The Oriental Leather Finish & Chemical Co., 493 Union St., Lynn, Mass.

SOOTLESS—spark plugs, The Oakes & Dow Co., 15 Chardon St., Boston, Mass.

SOOT-PROOF—spark plugs, C. A. Mezger, Inc., 239 W. 56th St., N. Y. City.

SOP-O-ZON—hand cleansing Compound, Bobrick Chemical Co., 111-117 S. Garey St., Los Angeles, Cal.

SORENSEN—chain guard & silencer, Sorensen Chain Guard & Silencer Co., 1712 Michigan Ave., Chicago, Ill.

SPARE'S—manganese, white, hydraulic & plastic bronze, American Manganese Bronze Co., 99 John St., N. Y. City.

SPARGER'S—welding compounds, Mont. H. Dingee, Lynchburg, Va.

SPARK GENERATOR—coil, distributor & contact maker, Atwater Kent Mfg. Works, 42-46 N. 6th St., Phila., Pa.

SPARROW—metal polish, grease & oil, American Oil & Disinfectant Co., 96 Beekman St., N. Y. City.

SPARTAN—wrenches, Drop Forging Co., of N. Y., West Side Ave. & Fisk St., Jersey City, N. J.

SPAULDING—gasoline marine engines, The Spaulding Engine Co., St. Joseph, Mich.

SPEAR'S ADIRONDACK—furs, fur & fur lined coats, auto robes, leggings, mufflers, gloves and caps, Spear-Martin Fur Co., 41 Church St., Burlington, Vt.

SPECIAL—oils (jobbers), Fidelity Oil Co., 600-602 W. 6th St., Kansas City, Mo.

SPECIAL BLACK—engine packings, Thermoid Rubber Co., Trenton, N. J.

SPE-DE-SHYNE—metal polishes, The Cleanola Company, 1101 Fulton Bldg., Pittsburg, Pa.

SPEED—carburetors, De Tamble Motors Co., Anderson, Ind.

SPEEDWAY—oils, H. T. Alexander & Co., 17 State St., N. Y. City.

SPEEDWELL, THE—gasoline auto & marine motors, A. H. Yocom Co., Inc., Oakbrook, Reading, Pa.

SPENCER—tire inflators, tank level indicators & lubricant injectors, Auto Pump Co., Springville, N. Y.

SPERMO—grease, Warren Lubricant Co., Buffalo, N. Y.

SPHERICAL—automobile lamps, Western Mechanical Works, 921 S. Main St., Los Angeles, Cal.

SPICER—universal joints, Spicer Universal Joint Mfg. Co., Madison Ave. & W. 3rd St., Plainfield, N. J.

SPIT-FIRE—plugs, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.

SPITZLI—jacks, Spitzli Mfg. Co., 6-14 Devereaux St., Utica, N. Y.

SPLITDORF—coils, switches, timers, magnetos, C. F. Splitdorf, 261-265 Walton Ave., N. Y. City.

SPORTSMAN—bicycles & tires, New York Sporting Goods Co., 17 Warren St., N. Y. City. (Jobbers.)

SPOTZOFF—metal polish, Atlantic Refining Co., Citizens Bldg., Cleveland, Ohio.

SPRAGUE—automobile tops, wind shields, Sprague Umbrella Co., Norwalk, O.

SPRAGUE—electric dynamometers, hoists & generators, Sprague Electric Co., 527-531 W. 34th St., N. Y. City.

SPRAGUE'S SPECIAL—wind shields, Sprague Umbrella Co., Norwalk, O.

SPRING ACTION—wind shields, Emil Grossman Co., 232 W. 58th St., N. Y. City.

SPRING-BELT—robes, Chicago Auto Robe Supply Co., 157 Market St., Chicago, Ill.

SPRINGFIELD—aluminum & steel auto bodies & tops, Springfield Metal Body Co., 364 Birnie Ave., Springfield, Mass.

SPRINGFIELD—caps, Springfield Hat & Cap Co., 31 Taylor St., Springfield, Mass.

SPRINGFIELD—cup & depth gauges, gasoline & oil pumps for garage use, & gasoline storage tanks, Gilbert & Barker Mfg. Co., 80-82 Fourth Ave., N. Y. City.

SPRINGFIELD—gasoline marine engines, The Springfield Motor Co., Springfield, Mass.

SPRINGFIELD—jacks, Shawver Co., Springfield, Ohio.

SPRINGFIELD MOTOMETERS—speed indicators & odometers, The R. H. Smith Mfg. Co., Springfield, Mass.

SPRINGFIELD—oil separators for turret lathe chips, National Separator & Machine Co., Boston, Mass.

STABILITY—brake linings & drums, Royal Equipment Co., 165 Housatonic Ave., Bridgeport, Conn.

STACKPOLE—battery connections, Stackpole Battery Co., St. Marys, Pa.

STAG BRAND—leather for trimming, American Leather Mfg. Co., Newark, N. J.

STAG—tires (bicycle), N. Y. Sporting Goods Co., 17 Warren St., N. Y. City. (Jobbers.)

STAMFORD—gasoline marine motors, Stamford Motor Co., Inc., Foundry, Water & Atlantic Sts., Stamford, Conn.

STANDARD ALLOY—steel, brass & bronze balls, Standard Roller Bearing Co., 50th & Lancaster Ave., Phila., Pa.

STANDARD—anti-skid chains & auto tires, Standard Traction Tread Co., 399 Boylston St., Boston, Mass.

STANDARD—automobile, cycle & motorcycle horns, bulbs, reeds & flexible tubing, Standard Metal Mfg. Co., Chestnut, Jefferson & Malvern Sts., Newark, N. J.

STANDARD—automobile jacks, Cook's Standard Tool Co., Kalamazoo, Mich.

STANDARD & STANDARD A—lamp guards, Crescent Co., Valparaiso, Ind.

STANDARD—bicycle & motorcycle pedals, The Standard Co., Torrington, Conn.

STANDARD—bicycles, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.

STANDARD—gasoline marine motors, Standard Gas Engine Co., Dennison & King Sts., Oakland, Cal.

*STANDARD—gasoline marine motors, Standard Motor Construction Co., 172-180 Whiston St., Jersey City, N. J.

- STANDARD—hammers, hand, H. Cheney Hammer Co., Little Falls, N. Y.
- STANDARD—hand bellows, Edward Paro, 3626 62nd St., Chicago, Ill.
- STANDARD—heaters & carbon, Standard Stamping Co., Marysville, O.
- STANDARD—horns, Standard Metal Mfg. Co., Chestnut, Jefferson & Malvern Sts., Newark, N. J.
- STANDARD—license tags, Automobile License Indicator Co., Lewisburg, Tenn.
- STANDARD—motorcycle saddles, H. & F. Mesinger Mfg. Co., 1801-03 First Ave., N. Y. City.
- STANDARD—pipe vises, Emmert Mfg. Co., Waynesboro, Pa.
- STANDARD—roller bearings, Standard Roller Bearing Co., 50th & Lancaster Ave., Phila., Pa.
- STANDARD—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
- STANDARD—soldering flux, Grasselli Chemical Co., Cleveland, Ohio.
- STANDARD—speed indicators, thermostats for vulcanizers, boilers, etc., Standard Thermometer Co., 65 Shirley St., Boston, Mass.
- STANDARD—stationary gasoline engines, Elbridge Engine Co., Culver Road, Rochester, N. Y.
- STANDARD—steam, air & water pressure gauges, gauge cocks, safety valves, water gauges, lubricators, tire pressure registers, revolution counters & electric clocks, Industrial Instrument Co., Foxboro, Mass.
- STANDARD—tire holders, Cox Brass Mfg. Co., N. Pearl & Van Woert Sts., Albany, N. Y.
- STANDARD—tire protectors, Standard Tire Protector Co., Saginaw, Mich.
- *STANDARD—top dressing, The Consolidated Chemical Co., 691-693 W. Fort St., Detroit, Mich.
- STANDARD—trunk racks, Connecticut Steel & Wire Co., 57-61 Allyn St., Hartford, Conn.
- *STANDARD—wrenches, Brock Wrench Mfg. Co., 18 Dey St., N. Y. City.
- *STANLEY—gasoline marine engines, Boston Gasoline Engine Co., 19 High St., Boston, Mass.
- *STANLEY—gasoline marine motors, The Stanley Co., 79 Milk St., Boston, Mass.
- STAPLEY—tire pumps, Bridgeport Brass Co., cor. Fairfield & Holland Aves., N. Y. City.
- *STAR—auto body soap & metal polish, C. C. Richmond & Co., 40 Batterymarch St., Boston, Mass.
- STAR—ball retainers & ball thrust bearings, Star Ball Retainer Co., Lancaster, Pa.
- STAR—bicycle pedals, The Standard Co., Torrington, Conn.
- STAR—bumpers, gas generators, foot rails, lamp brackets, robe rails, nuts & bolts, tire holders, pumps, wire cloth, etc., W. T. Hungerford Brass & Copper Co., 497-503 Pearl St., N. Y. City.
- STAR—double swivel vises, Spitzli Mfg. Co., 6-14 Devereaux St., Utica, N. Y.
- STAR—engine, foot-power, speed wood turning & bench lathes, Seneca Falls Mfg. Co., 416 Water St., Seneca Falls, N. Y.
- STAR—escutcheon pins, Turner & Seymour Mfg. Co., Torrington, Conn.
- STAR—hand shears, Acme Shear Co., Bridgeport, Conn.
- STAR—heaters, auto, Lehman Bros., 10 Bond St., N. Y. City.
- STAR—igniters, Briggs & Stratton Co., Milwaukee, Wis.
- STAR—inner tubes & auto tires, Star Rubber Co., Akron, O.
- STAR—machinists' vises & pipe vises, Fulton Machine & Vise Co., Lowville, N. Y.
- STAR—magnetos, Hercules Electric Co., 2128-2136 Northwestern Ave., Indianapolis, Ind.
- STAR—metal polish, Bell Mfg. Co., 308 N. Commercial St., St. Louis, Mo.
- STAR—odometers & speed indicators, Star Speedometer Co., Danville, Pa.
- STAR—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- STAR—pump connections, Park City Brass Co., Springfield, Mass.
- STAR—rims, auto, Crane & MacMahon, 8-10 Bridge St., N. Y. City.
- STAR—saws, Millers Falls Co., 28 Warren St., N. Y. City.
- STAR—screw drivers, The Elmore Tool Mfg. Co., Hartford, Conn.
- STAR—screw drivers, H. H. Mayhew Co., Shelburne Falls, Mass.
- STAR—self-locking hoists, Hunt-Helm-Ferris & Co., Harvard, Ill.
- STAR—solder, Crescent Co., Valparaiso, Ind.
- STAR—stationary engines, The Star Mfg. Co., New Lexington, O.
- STAR—tapping attachments, Modern Tool Co., Erie, Pa.
- STAR—timers, A. H. Newcomb, 1944 W. 21st St., Chicago, Ill.
- STAR—tire cases, metallic, Merchant & Evans Co., 517 Arch St., Phila., Pa.
- STAR—toe clips, The Standard Co., Torrington, Conn.
- STAR—tubing & brass & copper wire & sheets, Merchant & Evans Co., 517 Arch St., Philadelphia, Pa.
- STAR—vehicle washers, Star Brass Works, 123 N. Jefferson St., Chicago, Ill.
- STAR—webbing, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- STAR A—cutting compounds, White Star Refining Co., 307 White Bldg., Buffalo, N. Y.
- STARALINE—metal polish, Rath, Chas. H. Co., Inc., 1347 N. Front St., Phila., Pa.
- STAR BAR—belt dressing, Graton & Knight Mfg. Co., 94-104 Bloomingdale Road, Worcester, Mass.
- STAR-CLEAN—top dressing & auto body cleansing compound, Alder-Harper Chemical Co., Mount Vernon, N. Y.
- STAR-RITE—spark plug protectors & spark plugs, The R. E. Hardy Co., 201 37th St., Brooklyn, N. Y.
- STAR-RITE—stationary engines, Reliance Iron & Engine Co., Racine, Wis.
- STAY BRIGHT—brass lacquer, Ajax Auto Co., 832-834 E. 43d St., Chicago, Ill.
- STAY SHINY—tarnish preventives, F. A. Schmoeger, Sterling, Ill.
- STAY-THERE—battery connections, Manhattan Electrical Supply Co., 17 Park Place, N. Y. City.
- STEAMTITE—metal cements, Clark Cast Steel Cement Co., Shelton, Conn.
- STECKER—auto & boat lighting outfits, ignition & charging apparatus, Stecker Electric & Machine Co., Detroit, Mich.
- STEELE-HARVEY—crucible metal melting furnace, Monarch Engineering & Mfg. Co., 1200-1206 American Bldg., Baltimore, Md.
- STEEL KING—spark plugs, National Steel Products Co., Lorain, O.
- STEIN—automobile tires, The Stein Double Cushion Tire Co., Akron, O.
- STEIN—surface grinders, Wm. F. Stein & Co., 282 State St., Rochester, N. Y.
- *STEINFELD—camping outfits, Steinfeld Bros., 620 Broadway, N. Y. City.
- STEIRO—malleable iron castings, The Columbus Malleable Casting Co., 770 Jefferson Place, Columbus, O.
- STEPNEY—spare motor wheels, United States Wheel & Rim Co., Ltd., St. Anne, Ill.
- STEPTOE—shapers, milling machines, drill & planer vises, The John Steptoe Shaper Co., 2951-61 Colerain Ave., Cincinnati, Ohio.
- STERLING—aluminum bronze, Billings-Chapin Co., Cleveland, Ohio.
- STERLING—automobile tires & inner tubes, Rutherford Rubber Co., Rutherford, N. J.
- STERLING—bicycles, The Pope Mfg. Co., Hartford, Conn.
- STERLING—bicycle wrenches, Frank Mossberg Co., Attleboro, Mass.
- STERLING—expansion clutches, Elkhart Motor Car Co., Elkhart, Ind.
- STERLING—gas & gasoline stationary engines, Charter Gas Engine Co., Sterling, Ill.
- STERLING—hack saw frames and blades, metal sawing machines, power hack saws, emery wheel cutters and emery wheel dressers, Diamond Saw & Stamping Wks., Buffalo, N. Y.

- *STERLING—metal & wood polishes, Preservative Tire Co., Onawa, Iowa.
- STERLING—oil auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.
- STERLING—spark plugs, C. H. Stoddard, 10 Waldo St., Worcester, Mass.
- STERLING—top dressing & iron enamel, F. A. Schmoeger, Sterling, Ill.
- STERLING JUNIOR—oil auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.
- STEVENS—bilge pumps & crank hangers, Stevens & Co., 375 Broadway, N. Y. City.
- STEVENS—carbon blacking & core ovens, Frederic B. Stevens, Detroit, Mich.
- STEVENS CORE GUM—core compounds, foundry riddles & sieves, cupolas & plumbago, Frederick B. Stevens, Detroit, Mich.
- STEVENSON—carburetors, Hendricks Novelty Co., 124-128 Capitol Ave., S., Indianapolis, Ind.
- *STEVENS QUALITY—lamp lenses, mirrors & reflectors, Stevens & Co., Providence, R. I.
- STEVENS TRIPOLI COMPOSITION & STEVENS SILVER FINISH—buffing & polishing compounds, Frederic B. Stevens, Detroit, Mich.
- STEWART—auxiliary tire valves, Alfred C. Stewart Machine Works, 1008 Santee St., Los Angeles, Cal.
- STEWART'S DOLAN—gas burners, D. M. Stewart Mfg. Co., Chattanooga, Tenn.
- STEWART—speedometers & odometers, Stewart & Clark Mfg. Co., 1848-60 Diversey Bldg., Chicago, Ill.
- STEWART-PRECISION—carburetors, Alfred C. Stewart Machine Works, 1008 Santee St., Los Angeles, Cal.
- STICKLER WEEDLESS—boat propellers, Stickler Weedless Wheel Co., Portage, Wis.
- STICKNEY—stationary & portable gasoline engines & jacks, Charles A. Stickney Co., St. Paul, Minn.
- STICKNEY—steam automobile boilers, Portland Garage, Portland, Me.
- STICK-TITE—bow separators, Iroquois Auto Top Co., 179-183 Blandina St., Utica, N. Y.
- STILLSON—wrenches, Walworth Mfg. Co., 128 Federal St., Boston, Mass.
- STILSON—gasoline Automobile motors, The Stilson Motor Car Co., Pittsfield, Mass.
- STITCH-IN-TIME—vulcanizers, The J. M. Padgett Co., 118 E. 7th St., Topeka, Kan.
- STITCH-NINE—portable vulcanizers, The J. M. Padgett Co., 118 E. 7th St., Topeka, Kan.
- STOCKBRIDGE—metal shapers, Stockbridge Machine Co., Worcester, Mass.
- STODDARD—switchboards, Roney & Lincoln, 132 Summit Ave., Brookline, Mass.
- *STOLP—shock absorbers, Oscar Stolp, 20-22 Fletcher St., N. Y.
- STONEHEAGE—asphalt roofing, Asphalt Ready Roofing Co., 136 Water St., N. Y. City.
- STOP LEAK—for repairing leaks in radiators, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.
- *STORK—gasoline marine motors, Stork Motor Co., Saginaw, W. S., Mich.
- STORMER—bicycles, The Pope Mfg. Co., Hartford, Conn.
- *STOVER—gasoline marine motors, Stover Motor Car Co., Freeport, Ill.
- *STOVER—stationary gas & gasoline engines, Stover Engine Works, Freeport, Ill.
- STRAIGHTLINE—ball bearings, The Knege Co., Inc., Washington, D. C.
- STRAIGHTLINE—tank level indicators, PR Mfg. Co., 621-659 Bellevue Ave., Detroit, Mich.
- STRANG—stationary engines & marine kerosene Engines, Strang Engine Co., Harvey, Ill.
- STRATTON—wood & metal bodles & folding tops, C. H. Stratton Carriage Co., Muncie, Ind.
- STRAUB—stationary gasoline, distillate & producer gas engines, Page Engineering Co., 113-121 E. York St., Baltimore, Md.
- *STREIT—gasoline auto & marine engines, The A. Streit Machine Co., Cincinnati, O.
- *STRELINGER—gasoline marine engines, Strelinger Marine Engine Co., 46 Congress St., E., Detroit, Mich.
- STROMBERG—carburetors, Stromberg Motor Devices Co., 1253-55 Michigan Ave., Chicago, Ill.
- STRYKER—muffler cut-outs, tire holders & pedals, C. W. Stryker, 314 E. Onondago St., Syracuse, N. Y.
- STUART—gasoline marine motors, John Stuart Co., Wollaston, Mass.
- STUART—molders & automobile shovels, Wood Shovel & Tool Co., Piqua, Ohio.
- STUTZ—axles & speed change gears, Stutz Auto Parts Co., 10th St. & Canal, Indianapolis, Ind.
- SUCCESS—air compressor, E. R. Brown Beer Pump Co., 11 Chardon St., Boston, Mass.
- SUCCESS—curtain fasteners, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.
- SUCCESS—fire extinguishers, H. W. Johns-Manville Co., 100 William St., N. Y. City.
- SUCCESS—spark plugs, tire talc & tire holders, Waite Auto Supply Co., 17 Dorrance St., Providence, R. I.
- SULLIVAN'S—grease & oil, Sullivan Oil Co., 413 Wells St., Chicago, Ill.
- SUMMERSHINE—metal polish, Grady Mfg. Co., 509 W. 30th St., N. Y. City.
- SUMTER—magnetos, The Sumter Telephone Mfg. Co., Sumter, S. C.
- SUNBEAM—packings, United & Globe Rubber Mfg. Co., Trenton, N. J.
- SUNLIGHT—acetylene lamp burners & burner tips, American Lava Co., Chattanooga, Tenn.
- SUPER-COIL—bumpers, M. H. Cormack & Co., Motor Mart Bldg., N. Y. City.
- SUPERFINE—varnishes & japans, Heath & Milligan Mfg. Co., 170-72 Randolph St., Chicago, Ill.
- SUPERIOR—auto bearings (babbitt metal), Clum & Atkinson, 575 Lyell Ave., Rochester, N. Y.
- SUPERIOR—brazing compounds, Standard Mfg. Co., 318 S. Canal St., Chicago, Ill.
- *SUPERIOR—ignition batteries, Geen Electrical Mfg. Co., 180 E. Lake St., Chicago, Ill.
- SUPERIOR—lathes, The Meriden Machine Tool Co., Meriden, Conn.
- SUPERIOR—parting sand, S. H. Brand Co., Chicago, Ill.
- SUPERIOR—soldering furnace, Jacobson Machine Mfg. Co., Warren, Pa.
- SUPERIOR—spark plugs, Superior Motor Specialty Co., 526 Jefferson St., Phila., Pa.
- SUPERIOR—tool bags, crank handle holders & top & hood straps, Frank S. Feeser Co., 1104 Prospect St., Indianapolis, Ind.
- SUPERIOR—transmission oil, Great Western Oil Co., 2855 E. 37th St., Cleveland, O.
- SUPERIOR—upright drills & speed change gears, Superior Machine Tool Co., Kokomo, Ind.
- SUPERIOR QUALITY—soldering flux, Shinal Co., 413 Emmet Road, Toledo, Ohio.
- SUPPLEMENTARY—springs, St. Louis Supplementary Spiral Spring Co., 4524-4526 Delmar Ave., St. Louis, Mo.
- SUPPLEMENTARY SPIRAL SPRINGS—shock absorbers, Supplementary Spiral Bumper Co., 1876 Broadway, N. Y. City.
- SUPREME—oils (jobbers), Fidelity Oil Co., 600-602 W. 6th St., Kansas City, Mo.
- SURETY—grease cups, The Lunkenheimer Co., Cincinnati, O.
- SURE FIRE—ignition batteries, Wachman Auto Mfg. & Supplies, 372 Michigan Ave., Detroit, Mich.
- SURE GRIP—hose clamps, J. R. Clancy, 249 N. Salina St., Syracuse, N. Y.
- *SURPRISE—exhaust blown horns, Surprise Distributing Co., 1931 Broadway, N. Y. City.
- SURPRISE—wind shields, Sprague Umbrella Co., Norwalk, Ohio.
- SURE SPARK—spark plugs, Fairmount Automobile Co., 126-128 E. King St., Lancaster, Pa.

SWAN—curtain fasteners, Standard Top & Equipment Co., 1206-1212 Huron Rd., S. E., Cleveland, Ohio.

SWASTIKA—tongs, die makers', Buffum Tool Co., Louisiana, Mo.

SWEDOH—steel oil cans & rims, American Tube & Stamping Co. Bridgeport, Conn.

SWEET'S—grease, soap & wood polish, Charles F. Sweet, Inc., 20 Ford St., Hartford, Conn.

SWENSON—motorcycle luggage carriers, cycle stands, cycle lamp brackets, oil pumps & tanks & exhaust key removers, B. A. Swenson, 298 Blackstone St., cor. Prairie Ave., Providence, R. I.

SWINEHART—tires & anti-skid treads, Swinehart Tire & Rubber Co., Akron, O.

*SWING—unions, Swing Union Co., 115 Water St., New London, Conn.

SWISS KOMET—magnetos, imported by Wende & Co., 350-352 Wabash Ave., Chicago, Ill.

SWIVELACTION—bumpers, Emil Grossman Co., 232 W. 58th St., N. Y. City.

SYMMETRIC—radiators, Metal Stamping Co., 30-50 Hubert St., N. Y. City.

*SYMPHONY—horns, Standard Engineering & Mfg. Co., 36 Franklin St., Detroit, Mich.

SYRACUSE GARAGE AND SYRACUSE SPECIAL—auto & boat fire extinguishers, The Syracuse Chemical Fire Extinguisher Co., Wood Bldg., Syracuse, N. Y.

SYRACUSE—gasoline marine engines, Syracuse Gas Engine Co., Syracuse, N. Y.

*SYRACUSE—ignition batteries, Syracuse Storage Battery Co., 118-120 S. State St., Syracuse, N. Y.

SYRACUSE—liquid core compounds, core wash, lead, parting compound, H. E. Mills Mfg. Co., Syracuse, N. Y.

SYRACUSE—transmission gears for autos, Syracuse Gear Co., 105 Grape St., Syracuse, N. Y.

T

TC—tool holders, William S. Nicholls, 253 Broadway, N. Y. City.

T. I. C. O.—steel spring wire & roller bearing steel, Trenton Iron Co., Trenton, N. J.

TS—drill press vises, William S. Nicholls, 253 Broadway, N. Y. City.

TT—hack saw blades, Henry G. Thompson & Son Co., New Haven, Conn.

T Y X s—gas hose connections, B. Morgan, Tew's Court, Old Beach Road, Newport, R. I.

TABOR—molding machines, Tabor Mfg. Co., 18th & Hamilton Sts., Phila., Pa.

TABOR—revolution counters, The Grant Mfg. & Machine Co., 90 Silliman Ave., Bridgeport, Conn.

TABOR—wind shields, folding, Parish & Cather, 1006 S. Los Angeles St., Los Angeles, Cal.

TALCUM INSTANT—hand cleansing compound, American Talc Co., 22-24 Custom House St., Boston, Mass.

TANITE—emery wheels, cutters, emery wheel dressers, oil stones, buffing & polishing machines, surface grinders, saw gummers & planers, The Tanite Co., Stroudsburg, Pa.

TANKASCOPE—dash gauge, Boston Auto Gauge Co., 8 Waltham St., Boston, Mass.

*TANNATE—leather belting, J. E. Rhoads & Sons, 12 N. 3rd St., Phila., Pa.

TARVIA—dust layers, Barrett Mfg. Co., 17 Battery Place, N. Y. City.

TAUNUS—magnetos, imported by The Hess-Bright Mfg. Co., 2102 Fairmount Ave., Phila., Pa.

TAXI—oil auto lamps, R. E. Dietz Co., 60 Laight St., N. Y. City.

TAYLOR—machinists' clamps & wheel pulleys, James L. Taylor Mfg. Co., Bloomfield, N. J.

TAYLOR—tool grinders, Tabor Mfg. Co., 18th & Hamilton Sts., Phila., Pa.

TAYLOR BEST YORKSHIRE—twist drills, imported by B. M. Jones & Co., Inc., 14 Milk St., Boston, Mass.

TAYLOR-NEWBOLD—metal saws, Tabor Mfg. Co., 18th & Hamilton Sts., Phila., Pa.

TEEL—gasoline marine motors, tops & wind shields, Teel Mfg. Co., Medford, Mass.

TELESCOPE—wind shields, Western Brass Mfg. Works, 21st & Campbell Ave., Chicago, Ill.

TEMPLE—stationary gasoline engines, The Temple Pump Co., 17-27 W. 15th St., Chicago, Ill.

TENAX—flange packings, Advance Packing & Supply Co., 55 S. Canal St., Chicago, Ill.

TEN EYCK—tire inflators, Auburn Auto-Pump Co., Mason Lane, Auburn, N. Y.

TERRY—stationary motors, gasoline auto engines, Terry Engine Co., Bay, 43rd & 44th Sts., Umler Park, Brooklyn, N. Y.

TESCO—curtain fasteners, The Enterprise Supply Co., 501 Commercial National Bank Bldg., Chicago, Ill.

TEST—storage batteries, Louis M. Pignolet, 78 Cortlandt St., N. Y. City.

TEXODERM—imitation leather, Celluloid Co., 30 Washington Pl., N. Y. City.

THAT STRANG—spark plug, Lewis Strang Supply Co., 2230 Broadway N. Y. City.

THERMIDOR—gaskets & engine packings, Thermoid Rubber Co., Trenton, N. J.

THERMIT—foundry equipment, metals & alloy, Goldschmidt Thermit Co., 90 West St., N. Y. City.

THERMITE—anti-freezing compounds, Northwestern Chemical Co., Marietta, O.

THERMODRY—carbon removers, National Standard Selling Co., 435-B Produce Exchange, N. Y. City.

THERMO—marine engines & batteries, Loane-Hiltz Engineering Co., 320 S. Hanover St., Baltimore, Md.

THERMOID—brake lining, Thermoid Rubber Co., Trenton, N. J.

*THIEF PROOF—switches, The Thief Proof Auto Lock Co., 208-210 S. Illinois St., Indianapolis, Ind.

THIEM—gasoline cycle motors, motorcycle parts & frames, The Thiem Mfg. Co., Minneapolis, Minn.

THIEM—grease cups, The Winkley Co., 226 Abbott St., Detroit, Mich.

THISTLE—taps & dies, Winter Bros. Co., Wrentham, Mass.

THOMAS—air compressors, W. K. Thomas, 1876 Broadway, N. Y. City.

THOMAS—shock absorbers, Buffalo Specialty Co., 375-377 Ellicott St., Buffalo, N. Y.

THOMAS—top props, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.

THOMPSON—universal grinders, Thompson Grinder Co., Murray & Main Sts., Springfield, O.

THOMPSON—pressed steel clamps, Erie Stamping & Mfg. Co., Erie, Pa.

THOMSON—electric welding machines, Thomson Electric Welding Co., Lynn, Mass.

THOR—air compressors, electric drills, pneumatic drills, pneumatic hoists & riveters, chipping hammers, grinding machines, hose for compressed air, hose couplings, pneumatic seaming machines, wood boring machines, Independent Pneumatic Tool Co., Thor Bldg., Chicago, Ill.

THOR—cycle motors, motorcycle parts, hubs, coaster brakes, automobile motors, motorcycle forks, gasoline marine motors & stationary motors, Aurora Automatic Machinery Co., 1307 Michigan Ave., Chicago, Ill.

THORDARSON—sparking coils, Thordarson-Electric Mfg. Co., 216-20 S. Jefferson St., Chicago, Ill.

3 IN 1—oils, metal polishes, rust preventatives & wood polishes, Three-in-One Oil Co., 42 Broadway, N. Y. City.

TIBRODE BRAND—felt washers, Tinguet, Brown & Co., 64 Reade St., N. Y. City.

TIGER—grease cups, The Lunkenheimer Co., Cincinnati, O.

TIGER—machinists' vises, Emmert Mfg. Co., Waynesboro, Pa.

TI-KI—enamels, paints & varnishes, Acme White Lead & Color Works, Detroit, Mich.

- TILLOTSON—spring frame suspension, John Valentine, 226 La Salle St., Chicago, Ill.
- TIME-SAVER—tire repair kits, Auto Time Saver Repair Kit Co., 178 Devonshire St., Boston, Mass.
- TIMKEN—axles, Timken-Detroit Axle Co., Clark Ave. & Pere Marquette R. R., Detroit, Mich.
- *TIMOGRAPH—vehicle recorder, Model Mfg. Co., 514 Pearl St., N. Y. City.
- TIP TOP—boat sunshades, Irwin Mfg. Co., Galesburg, Ill.
- TIRE-LAC—rubber preservatives, Northwestern Chemical Co., Marietta, O.
- TIRESELE—tire powder, The Tiresele Co., 53-55 Bank St., Newark, N. J.
- TITAN—indicator throttle valves, Wm. Powell Co., 2521-2531 Spring Grove Ave., Cincinnati, O.
- TITAN—tire cements, Diamond Rubber Co., Akron, O.
- TITUS CLE—wrenches, Motor Parts Co., Plainfield, N. J.
- TOBIN—bronze shafting, Columbian Brass Foundry, Atlantic Ave., Freeport, L. I., N. Y.
- TO GO—motorists' clothing, Auto Garment Co., 208 B Ave., Cedar Rapids, Iowa.
- TOILET TRIPOLI—soap powder, The National Tripolio Co., 543 W. Goodase St., Columbus, Ohio.
- TOKHEIM—gasoline storage outfits, self-measuring, The Tokheim Mfg. Co., Cedar Rapids, Iowa.
- TOLEDO—bicycles, Toledo Metal Wheel Co., Toledo, O.
- TOLEDO—high speed cutting steel, & TOLEDO SHEFFIELD—crucible steel, imported by J. H. Andrew & Co., 107 West St., New York, N. Y.
- TOLEDO—pipe cutters, threading tools & pipe vises, The Toledo Pipe Threading Machine Co., Toledo, Ohio.
- TOLEDO C. W.-W. C.—bows, rims & spokes, The Toledo Carriage Woodwork Co., Toledo, O.
- TON DON—axles, Sheldon Axle Co., Wilkes-Barre, Pa.
- TOOPS—hoods and compound spring & shock absorbers, The Toops Automobile Hood Co., Indianapolis, Ind.
- TOPPAN—gasoline motor boats and engines, Toppan Boat Mfg. Co., 25 Haverhill St., Boston, Mass.
- TOQUET—gasoline marine engines, Toquet Mfg. Co., 1 Madison Ave., N. Y. City.
- *TOQUET—gasoline marine motors, The Stanley Co., 79 Milk St., Boston, Mass.
- TORBENSEN—gasoline chassis, gasoline automobile motors & transmission gears, Torbensen Motor Car Co., 610 Bloomfield Ave., Bloomfield, N. J.
- TORNADO—tire pumps, Judd & Leland Mfg. Co., Clifton Springs, N. Y.
- TOURIST—oil auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
- TOURIST—oil & gasoline kits, Dover Stamping & Mfg. Co., 385 Putnam Ave., Cambridge, Mass.
- TOURIST AUTOKIT—tool kits, Hammacher, Schlemmer & Co., 13th St. & 4th Ave., N. Y. City.
- TOWER'S FISH BRAND—water-proof oiled automobile & yachting clothes, A. J. Tower Co., Vernon & Simmon Sts., Boston, Mass.
- TOWER—wrenches, Tower & Lyon Co., 95 Chambers St., N. Y. City.
- TRAUTMAN'S—tires, pneumatic auto, Ira F. Trautman, 131 6th Ave., Brooklyn, N. Y.
- TRAVER—anti-skid chains, Philip C. Traver Mfg. Co., Far Rockaway, N. Y.
- TRAVER—blowout patch, Traver Blowout Patch Co., 1779 Broadway, N. Y. City.
- H. L. F. TREBERT—gasoline marine & auto engines, H. L. F. Trebert, 407 St. Paul St., Rochester, N. Y.
- TRECO—motor boat whistles & whistle outfits, Russell Electric Co., Danbury, Conn.
- TRENTON TRIANGLE T—tire protectors & inner tubes, Thermoid Rubber Co., Trenton, N. J.
- TRIBUNE—bicycles, The Pope Mfg. Co., Hartford, Conn.
- *TRIMO—wrenches & pipe cutters, Trimont Mfg. Co., 55-71 Armory St., Roxbury, Mass.
- TRIO—timers (auto & marine), Trio Mfg. Co., 60 Woodbridge St., W., Detroit, Mich.
- TRIPLE ACTION—body springs & shock absorbers, Triple Action Spring Co., 215-217 E. 21st St., Chicago, Ill.
- TRIPLE TREAD—treads, Triple Tread Auto Tire Mfg. Co., 1545 Michigan Ave., Chicago, Ill.
- TRIPLEX—tire pumps, Judd & Leland Mfg. Co., Clifton Springs, N. Y.
- TRIPOLI—toilet soap, The National Tripolio Co., 543 W. Goodase St., Columbus, Ohio.
- TRIPOLINE—metal polish, Matchless Metal Polish Co., N. Y. City.
- TRIUMPH—adjustable license pads, Automobile License Indicator Co., Lewisburg, Tenn.
- TRIUMPH—automobile tires, Thermoid Rubber Co., Trenton, N. J.
- TRIUMPH—auto tire protectors, American Tire Co., Owosso, Mich.
- TRIUMPH—bicycles & bicycle tires, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.
- TRIUMPH—driving chains, Raymond & Co., 331 Michigan Ave., Chicago, Ill.
- *TRIUMPH—grease, Perfection Grease Co., South Bend, Ind.
- TRIUMPH—motors, carburetors, automobile clutches & levers, Christopher Bros., 3308 Sheffield Ave., Chicago, Ill.
- TRIUMPH—spark plugs, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
- TRIUMPH—tank level indicators, tank cutters & tank bushings, Boston Auto Gauge Co., 8 Waltham St., Boston, Mass.
- TRIUMPH—tank level indicators, Janney-Steinmetz & Co., 4th & Market Sts., Phila., Pa.
- TRIUMPH—valve lifters, Mechanical & Electrical Mfg. Co., Rear 2227 Prairie Ave., Chicago, Ill.
- TRIUMPH—weldless chains, Bridgeport Chain Co., Bridgeport, Conn.
- *TROJAN—automobile motors, transmission gears, steering devices, marine gasoline engines & mufflers, Trojan Motor Co., Louisville, Ky.
- TROJAN—files, American File Sharpener Co., 287 Broadway, N. Y. City.
- TROJAN—files & rasps, Troy File Works, Troy, N. Y.
- TROXEL—bicycle saddles (also motorcycle), Troxel Mfg. Co., Elyria, O.
- TROY—wind shields & speed indicators, Troy Carriage Sunshade Co., Troy, O.
- TRUE—colors, paints & varnishes, Buffalo Enamel & Stain Co., Lord & Clinton & James Sts., Buffalo, N. Y.
- TRUE BLUE—steel belting, The Biddison Mfg. Co., 1516 Williamson St., Madison, Wis.
- TRUFFAULT-HARTFORD—shock absorber, Hartford Suspension Co., 150 Bay St., Jersey City, N. J.
- TRUMP—drill chucks, wrenches, lathe centre grinders, Trump Bros. Machine Co., Wilmington, Del.
- TRUO—oil measures, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- TRUSCO—underwater exhausts, Truscott Boat & Auto Supply Co., St. Joseph, Mich.
- TRUSCOTT—canopies, Truscott Boat & Auto Supply Co., St. Joseph, Mich.
- TRUSCOTT—gasoline motor boats, Truscott Boat Mfg. Co., St. Joseph, Mich.
- TUBAL—manganese bronze, Paul S. Reeves & Son, 1415 Catharine St., Phila., Pa.
- TUCKAHOE—self-filling grease & oil guns, Rubly Mfg. Co., Tuckahoe, N. Y.
- TUCK—engine springs, screw drivers, reamers, punches, countersinks & chisels, Tuck Mfg. Co., 74 Ames St., Brockton, Mass.
- TUCKER'S—grease cups, W. L. & C. F. Tucker, 302 Asylum St., Hartford, Conn.
- TUCKER—steering wheel rims, bicycle rims, Tucker Woodwork Co., Sidney, O.
- TUCKERS—window anti-rattlers, C. Cowles & Co., Water & Chestnut Sts., New Haven, Conn.

TUNGSTEN—lamps, Willard Storage Battery Co., Marquette Road & Lakeside, Cleveland, O.
 TURNER—tire pumps & bilge pumps, The Turner Brass Works, Sycamore, Ill.
 TURNEY—reamers, Grant Nail & Supply Co., Boston, Mass.
 TURTLE NECK—gauntlets, American Glove Co., 18 Churchill St., Chicago, Ill.
 TUTTLE—gasoline marine motors, D. M. Tuttle & Co., Canastota, N. Y.
 20TH CENTURY—acetylene gas generators & cycle & motorcycle lamps, 20th Century Lamp Co., 19 Warren St., N. Y. City.
 *20TH CENTURY—current rectifiers, Dimond Igniter Co., 2231 Broadway, N. Y. City.
 20TH CENTURY—gasoline marine motors, New York Yacht, Launch & Engine Co., Morris Heights, N. Y. City.
 20TH CENTURY—glue-cement, L. W. Ferdinand & Co., 201 South St., Boston, Mass.
 20TH CENTURY—seats, F. W. Anderson & Co., Brown & Uber Sts., Phila., Pa.
 TWENTIETH CENTURY—tire protectors, The Perkins-Campbell Co., 622 Broadway, Cincinnati, O.
 20TH CENTURY—tire protectors & blow out patches, 20th Century Tire Protector Co., Midlothian, Tex.
 20TH CENTURY—tool boxes, F. G. Marbach, Medina, Ohio.
 TWICE-TWO—gasoline marine motors, The Twice-Two Cycle Engine Co., Inc., 24 S. Canal St., Chicago, Ill.
 TWIN GRIP—wrenches, Twin Grip Wrench Co., 25 Old Slip, N. Y. City.
 TWITCHELL—air gauge for tires, W. D. Newerf Rubber Co., 949 S. Main St., Los Angeles, Cal.
 TWO BELT SYSTEM—polishing machines, John C. Blevney, 216-224 High St., Newark, N. J.
 2K—universal grinders, O. S. Walker & Co., 25 Union St., Worcester, Mass.
 TWO PORT—carburetors, Allen Fire Dept. Supply Co., Eddy St., Providence, R. I.
 TWO-RUB—metal polish, Two-Rub Metal Polish Co., St. Louis, Mo.
 TYCOS—aneroid barometers & gasoline hydrometers, Taylor Instrument Companies, Rochester, N. Y.
 TYREZE—tire talc, Binney & Smith Co., 81-83 Fulton St., N. Y. City.

U

U—wiping rags, John R. Lyman Co., 119 Liberty St., Springfield, Mass.
 U & H—magnetos, J. S. Bretz Co., 1004 Times Bldg., New York City.
 U. S. G. CO.'S—graphite, pipe joint compounds & grease, U. S. Graphite Co., Saginaw, Mich.
 U. V.—magnetos, imported by The Motor Car Equipment Co., 55 Warren St., N. Y. City.
 U-AUTO—wood polish, United Supply Agency, 912 Westminster St., Providence, R. I.
 UKO—spark plugs, The Utility Co., 636-638 W. 44th St., N. Y. City.
 ULRICH—gasoline auto & marine motors, J. M. Ulrich, Greenwich, Conn.
 ULTRA—oil hand soap, White Refining Co., 77 Main St., Buffalo, N. Y.
 ULTRA CAPITAL—steels, imported by Geo. Nash Co., 217 Pearl St., N. Y. City.
 UMPH—distributors & timers, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.
 *UNCLE SAM—gasoline marine motors, Kumberger & Vreeland, Inc., 33-35 Sullivan St., N. Y. City.
 UNCLE SAM—metal & wood polish, Uncle Sam Polish Co., 335 Monroe Ave., Detroit, Mich.
 UNEEDIT—hand cleansing compound, W. H. Cross & Ladd Co., 29 Murray St., N. Y. City.
 UNEEDME—tire repair tools, "Unneedme" Tool Co., Bottles & Factory Sts., Columbus, O.
 U-NEEK—oils, Manhattan Oil Co., 51 Front St., N. Y. City.

UNION—chucks, Union Mfg. Co., New Britain, Conn.
 UNION—cushion springs, E. Kelley & Co., 509 Main St., Worcester, Mass.
 UNION—hack saw frames, Union Hardware Co., Torrington, Conn.
 UNION—enamels, imported by Holland Enamel & Paint Co., 142 Fulton St., N. Y. City.
 UNION—ignition batteries, pocket ammeters & inspection lamps, Union Battery Co., Belleville, N. J.
 UNION—jacks & anti-skid chains, Union Elevator & Machine Co., 215-17 W. Ontario St., Chicago, Ill.
 *UNION—metal cement & soldering solution, Union Metal Cement Co., Northport, Long Island, N. Y.
 UNION—screw drivers, Geo. E. Gay, Augusta, Me.
 UNION—twist drills, Union Twist Drill Co., Athol, Mass.
 UNION—varnish, Holland Enamel & Paint Co., 142 Fulton St., N. Y. City.
 UNION—wind shields, Pittsburg Auto Equipment Co., Baum St., Pittsburg, Pa.
 UNISPARKER—spark generator, Atwater-Kent Mfg. Works, 42-46 N. 6th St., Phila., Pa.
 *UNITED—brass, bronze & aluminum castings, valves & cocks, United Brass Mfg. Co., Cleveland, Ohio.
 U. S.—automobile jacks, U. S. Jack Co., 644 W. Lake St., Chicago, Ill.
 U. S.—metal polishes, Geo. Wm. Hoffman, 549 E. Washington St., Indianapolis, Ind.
 U. S.—pliers & hand punches, P. Lowentraut Mfg. Co., Newark, N. J.
 UNITED STATES—tool holders, Fairbanks Co., Springfield, Ohio.
 UNIVERSAL—ball bearings, United Bearings Co., Bradford, Pa.
 UNIVERSAL—bumpers, Western Brass Mfg. Co., 21st & Campbell Ave., Chicago, Ill.
 UNIVERSAL—burners, M. Kirchner & Co., 339 Broadway, N. Y. City.
 UNIVERSAL—combination forge, anvil, drilling machine, vise, bench, mill, pipe jaw & blowpipe, Henry Ducasse & Co., 735 7th Ave., N. Y. City.
 UNIVERSAL—drill presses, Millers Falls Co., 28 Warren St., N. Y. City.
 UNIVERSAL—grease, Warren Lubricant Co., Buffalo, N. Y.
 UNIVERSAL—grease, Keystone Oil & Supply Co., Inc., Pittsburg, Pa.
 UNIVERSAL—hack saw blades, hack saw frames & power hack saws, West Haven Mfg. Co., 22 Elm St., New Haven, Conn.
 UNIVERSAL—hardware (auto), Western Brass Mfg. Works, 21st & Campbell Ave., Chicago, Ill.
 UNIVERSAL—ignition batteries, vehicle batteries & electric auto lamps, Universal Electric Storage Battery Co., 301-09 N. Peoria St., Chicago, Ill.
 *UNIVERSAL—oils, T. T. Southwick, 19 Upton Park, Rochester, N. Y.
 UNIVERSAL—polishing wheels, Hanson & Van Winkle Co., Newark, N. J.
 UNIVERSAL—pneumatic dusting device, Electric Motor & Equipment Co., 230 Market St., Newark, N. J.
 UNIVERSAL—reels, Emil Grossman Co., 232 W. 58th St., N. Y. City.
 UNIVERSAL—removable rims, Universal Removable Rim Co., 1301 Michigan Ave., Chicago, Ill.
 UNIVERSAL—rubber matting, Boston Belting Co., 256-60 Devonshire St., Boston, Mass.
 *UNIVERSAL—tire brackets, Auto Rail & Equipment Co., 113 Michigan Trust Bldg., Grand Rapids, Mich.
 UNIVERSAL—tire inflating tanks, acetylene gas generators, foot rests, robe rails, tire holders, grease & oil guns, lamps & horns, New York Coach & Auto Lamp Co., 791-98 Tenth Ave., N. Y. City.
 UNIVERSAL—tire removers, Universal Auto Tire Remover, 948 Market St., Room 411, San Francisco, Cal.
 UNIVERSAL—tire sleeves & tire threads, Universal Tire Protector Co., Angola, Ind.

UNIVERSAL—tool holders, Van Doren Mfg. Co., 557-61 W. Jackson Blvd., Chicago, Ill.

UNIVERSAL—turn tables & emery grinders, Canton Foundry & Machine Co., 8th & Saxton Sts., Canton, Ohio.

UNIVERSAL—wind shields, chime valves, chime horns & foot pedals for operating chime horns, Universal Wind Shield Co., 130-34 S. Clinton St., Chicago, Ill.

UNIVERSAL—wood workers' vises & machinists' vises, Emmert Mfg. Co., Waynesboro, Pa.

UNIVERSAL — wrenches, Edmonds-Metzel Mfg. Co., 1910-20 Kinzie St., Chicago, Ill.

UNIVERSAL FLUXINE—brazing compound, & UNIVERSAL SOLDERING FLUID—solder, Universal Fluxine Co., Urbana, Ohio.

UNIVERSAL METAL PUTZ POMADE—metal polish, American Metal Polish Co., 89 Winslow Ave, West Somerville, Mass.

UNTERBERG & HELMLE—master magnetos, imported by J. S. Bretz Co., 1004 Times Bldg., N. Y. City.

USE-EM-UP—sockets & sleeves, American Specialty Co., 834-35 Monadnock Bldg., Chicago, Ill.

UTICA—fire extinguishers, O. J. Childs Co., 48 & 50 Liberty St., Utica, N. Y.

UTICA—nippers & pliers, Utica Drop Forge & Tool Co., 800 Whitesboro St., Utica, N. Y.

UTILITY—hack saw blades, hack saw frames & band saws, West Haven Mfg. Co., 22 Elm St., New Haven, Conn.

UTILITY—spark plugs & metal polish, Utility Co., 636-638 W. 44th St., N. Y. City.

V

V. D.—case hardening compounds, Van Doren Mfg. Co., 557-61 W. Jackson Blvd., Chicago, Ill.

V. D.—drilling machines, American Specialty Co., 834-35 Monadnock Bldg., Chicago, Ill.

V & O—presses, The V & O Press Co., Glendale, L. I., N. Y.

*VACUUM—grease, Vacuum Oil Co., Rochester, N. Y.

VALENTINE—varnishes, paints & enamels, Valentine & Company, 257 Broadway, N. Y. City, also 277 Dearborn St., Chicago, Ill.

VALSPAR—spar varnishes, Valentine & Company, 257 Broadway, N. Y. City, also 277 Dearborn St., Chicago, Ill.

VALVELESS—inner tubes, Valveless Inner-Tube Co., 43-49 Exchange Pl., N. Y. City.

VALVOLINE—oils & gear compounds, Valvoline Oil Co., 11 Broadway, N. Y. City.

VALVONE—oils, A. G. Belden & Co., 145 Maiden Lane, N. Y. City.

VANADIUM—varnish, Valentine & Company, 257 Broadway, N. Y. City, also 277 Dearborn St., Chicago, Ill.

VAN—automobile jacks, Vanderpool Bros., Springfield, O.

VAN BENSCHOTEN—clipper grinders, John Van Benschoten, 14-20 Catherine St., Poughkeepsie, N. Y.

VANCO—hand soap, J. T. Robertson Co., Manchester, Conn.

VANDERBEEK—scraping tools, Vanderbeek Tool Works, 622 Capitol Ave., Hartford, Conn.

VAN DORN — factory equipment, The Van Dorn Iron Works Co., Cleveland, Ohio.

*VAN EPPS—gasoline marine motors, Gooley & Edlund, Syracuse, N. Y.

VANGUARD—wind shields, bumpers, spark plugs, stampings, brass castings, lamp brackets, foot rails, robe rails, wood & metal polish, tire holders, The Vanguard Mfg. Co., Washington & Desplaines Sts., Joliet, Ill.

VICTOR—air compressors, polishing & buffing machines & lathes, Victor Electric Co., 55-61 Market St., Chicago, Ill.

VARNI-COTE—wood polish, Shi-Nal Co., 413 Emmet Road, Toledo, Ohio.

VARNO VIM—automobile body soap, Standard Leather Washer Mfg. Co., 24-26 Boudinot St., Newark, N. J.

VASCO—wind shields, bumpers, hand soap, foot rests, robe rails, tire holders, lamp brackets, spark plugs & valve grinding compounds, Victor Auto Supply Mfg. Co., 42 W. 43rd St., N. Y. City.

VEEDER—cyclometers, tachometers, odometers, revolution counters & tachodometers, Veeder Mfg. Co., Sargeant & Garden Sts., Hartford, Conn.

VEEDER METAL—fine castings, Veeder Mfg. Co., Sargeant & Garden Sts., Hartford, Conn.

VELOCITY—automobile oils, G. W. Gallaway, 322 Pearl St., N. Y. City.

VELOGRAPH—vehicle recorder, imported by National Sales Corporation, 296 Broadway, N. Y. City.

VELOS—high speed tool steel & twist drills, imported by F. R. Phillips & Sons Co., Penn Bldg., Phila., Pa.

VELOS—timers, distributors & magnetos, Philadelphia Timer & Machine Co., 328 Vine St., Phila., Pa.

VELOX—chain blocks, Alfred H. Schutte, 90 West St., N. Y. City.

VELOX—inner tubes & metal polish, Manufacturers' Supplies Co., 418 Arch St., Philadelphia, Pa.

VELOX—oils, Pennsylvania Oil Works Co., 1771 Broadway, N. Y. City.

VELS-MA—metal polish, Rex Chemical Co., 104 S. Howard St., Baltimore, Md.

VELVET—shock absorbers, Phillips Mfg. Co., 60 Wall St., N. Y. City.

VENTNOR—motor boats, Adolph E. Apel, Ventnor, Atlantic City, N. J.

VENUS—electric auto lamps, C. T. Ham Mfg. Co., Rochester, N. Y.

VENUS—spark plugs, The R. E. Hardy Co., 201 37th St., Brooklyn, N. Y.

VERIBEST—spark coils, Tritt Electric Co., Union City, Ind.

VERNOSITE—varnishes, F. W. Devoe & C. T. Reynolds Co., Fulton & William Sts., N. Y. City.

VESCO—tops & top dust hoods, Vehicle Top & Supply Co., 900 Cass Ave., St. Louis, Mo.

VESTA—electric automobile lamps, ignition batteries & magnetos, Vesta Accumulator Co., 1336 Michigan Ave., Chicago, Ill.

VESUVINE—aluminum paints, C. H. Chavant & Co., 203 Cator Ave., Jersey City, N. J.

VESUVIUS—spark plugs, A. R. Mosler & Co., 163 W. 29th St., N. Y. City.

VIAN'S AUTO GRIP—pipe wrenches, Syracuse Wrench Co., Franklin & Water Sts., Syracuse, N. Y.

VICTOR—acetylene gas tanks, The Compressed Gas Tank Co., Canton, Mass.

VICTOR—air compressors, garage tire pumps current rectifiers, polish & buffing machines & lathes, Victor Electric Co., 56-61 Market St., Chicago, Ill.

VICTOR—anti-skid devices, Victor Tire Traction Co., 16 State St., Boston, Mass.

*VICTOR—automobile engine starters, Victor Mfg. Co., Station A, Detroit, Mich.

VICTOR—bow separators, The Victor Rubber Co., Springfield, Ohio.

VICTOR—brake compounds & trunk racks, Victor Clutch Compound Co., Nashua, N. H.

VICTOR—ferrules, Bay State Stamping Co., 380 Chandler St., Worcester, Mass.

*VICTOR — gasoline marine engines, R. S. Hill, 24 E. Woodbridge St., Detroit, Mich.

VICTOR—hack saw blades, hack saw frames & nail sets, Massachusetts Saw Works, Chicopee, Mass.

VICTOR—hand punches & shears, Novelty Iron Works, Dubuque, Iowa.

VICTOR—ignition batteries & spark plugs, Milwaukee Auto Specialty Co., 134 Second St., Milwaukee, Wis.

VICTOR—nut facing machines, Victor Tool Co., Waynesboro, Pa.
 VICTOR—oil cups & valves, The Lunkenheimer Co., Cincinnati, O.
 VICTOR—power hack saws, Dayton Machine Works, Dayton, O.
 VICTOR—ratchet foot levers, Reading Automobile Co., 26-28 S. 5th St., Reading, Pa.
 VICTOR—rivets, Champion Rivet Co., Rice Ave. & Erie R. R., Cleveland, Ohio.
 VICTOR—screw drivers, John Stortz & Son, 210 Vine St., Phila., Pa.
 VICTOR—spark plugs, Beckley-Ralston Co., 80-84 Michigan Ave., Chicago, Ill.
 VICTOR—stationary engines, The Alamo Mfg. Co., Hillsdale, Mich.
 *VICTOR—top dressing & wood polish, The Victor Mfg. Co., 72 Chestnut St., Newark, N. J.
 VICTOR—vanadium bronze & alloys, Victor Metals Co., E. Braintree, Mass.
 VICTOR—wrenches, alligator, Kraeuter & Co., Inc., 571-79 18th Ave., Newark, N. J.
 VICTOR—wrenches & pliers, C. E. Bonner Mfg. Co., Chrisman, Ill.
 VICTOR VANADIUM—castings, forgings, bronze bearings, axles & gears, Vanadium Metals Co., Frick Bldg., Pittsburg, Pa.
 VICTORY—burners, M. Kirchberger & Co., 339 Broadway, N. Y. City.
 VIGILANT—oil automobile lamps, C. T. Ham Mfg. Co., Rochester, N. Y.
 VIM—bicycles, cycle tires & trouser guards, Vim Cycle & Hardware Co., 228-230 Broadway, Buffalo, N. Y.
 VIM—gasoline marine motors & gasoline auto engines, The Vim Motor Mfg. Co., Market & Hancock Sts., Sandusky, O.
 VIM—magnetos, Tritt Electric Co., Union City, Ind.
 VIM—leather for clutches, brakes & tires, E. F. Houghton & Co., 240 W. Somerset St., Phila., Pa.
 VISCOS—oils, grease & graphite grease, National Oil & Supply Co., First & Essex Sts., Newark, N. J.
 *VISOR—woolen hood & muffler for neck, head & chest, Visor Knitting Company, Main St. Court, Niagara Falls, N. Y.
 VITA—ignition batteries, metal & wood polish, Vita Mfg. Co., 1151-57 Stanford Ave., Los Angeles, Cal.
 VITRIFIED—oil stones, emery, corundum & carborundum wheels & tool grinders, Vitri-fied Wheel Co., Westfield, Mass.
 VIVAX—ignition & propulsion batteries, lamp lighting batteries & rheostats for charging batteries, Vivax Storage Battery Co., 2224-2234 Michigan Ave., Chicago, Ill.
 VIXEN—files & milling tools, The National File & Tool Co., 2110 Allegheny Ave., Phila., Pa.
 *VOLCANO—brazing & heating torches, Volcano Torch & Mfg. Co., 237 E. 22nd St., Erie, Pa.
 VOLCANO—spark plugs, The Zenith Motor Goods Co., 1841 Euclid Ave., Cleveland, Ohio.
 VOLCANO—spark plugs, Volcano Spark Plug Co., Ashland, Ohio.
 VOLIER—horns, imported by American Brass Products Co., Hartford, Conn.
 VOLKCAR—ignition, storage & lighting batteries & electric automobile lamps, Volk-car Storage Battery Co., 2441-2443 Michigan St., Chicago, Ill.
 VOLTA—automobile clocks, Harry Eisner & Co., 29 Scotia St., Boston, Mass.
 VOLTA—magnetos, Buffalo Ignition Co., 41-43 E. Eagle St., Buffalo, N. Y.
 VOLTZ—wind shields, Limousine Carriage Mfg. Co., 3515 Michigan Ave., Chicago, Ill.
 VON SCHWARZ—burners & lava tips, M. Kirchberger & Co., 339 Broadway, N. Y. City.
 *VREELAND—stationary engines, Kumberger & Vreeland, Inc., 33-35 Sullivan St., N. Y. City.
 VULCABESTON—gaskets, H. W. Johns-Manville Co., 100 William St., N. Y. City.
 *VULCAN—gasoline marine motors, Vulcan Engine Works, 1727 Ludlow St., Phila., Pa.

VULCAN, VULCAN SPECIAL, VULCAN XX—iron, Lockhart Iron & Steel Co., Pittsburg, Pa.
 VULCAN—lubricators, The Lunkenheimer Co., Cincinnati, O.
 VULCAN—paints, Bronze Powder Works Co., Elizabeth, N. J.
 VULCAN—screw drivers, H. H. Mayhew Co., Shelburne Falls, Mass.
 VULCAN—welding compound, Cortland Welding Compound Co., Cortland, N. Y.
 VULCAN-BRAZIER—brazing forges, Black Diamond Saw & Machine Works, Natick, Mass.
 VULCANOID—engine packings, Thermold Rubber Co., Trenton, N. J.
 VULCANOID—vulcanizing solutions, Hazen-Brown Co., 100 South St., Boston, Mass.
 VULCO-NU-TREAD—tire cements, Hazen-Brown Co., 100 South St., Boston, Mass.

W

W-D—tires, W-D Spring Cushion Tire Co., 107 W. 27th St., N. Y. City.
 W. & E. CABINET—oil storage outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
 W. & E. CONE—oil storage outfits, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
 W. F.—aluminum solder, U. S. Reduction Co., Chicago, Ill.
 W. H. & CO.—varnishes, colors & engine enamels, Wadsworth-Howland Co., 84 Wash St., Boston, Mass.
 W & S—magnetos, Wheeler & Schebler, Shelby, Barth & Sanders Sts., Indianapolis, Ind.
 WABASH—cycle tires, Indiana Rubber & Insulated Wire Co., Jonesboro, Ind.
 WACKENHUTH—carburetors, Wackenhuth Carburetor Co., 26 Hackett St., Newark N. J.
 *WAGENHALS—heaters, Wagenhals Mfg. Co., 4569 Washington Ave., St. Louis, Mo.
 WAHOO—tire protectors, Wahoo Auto Tire Protector Co., Wahoo, Neb.
 WAITE SUCCESS—dry ignition batteries, Waite Auto Supply Co., 17 Dorrance St., Providence, R. I.
 WALD—tire repair tools & pedal rubber, Wald Mfg. Co., Sheboygan, Wis.
 WALDEN—ratchet wrenches, Walden Manufacturing Co., 65 Beacon St., Worcester, Mass.
 WALKER—anti-skid devices & tire protectors, Walker Auto Tire Band Co., 18-24 South East St., Indianapolis, Ind.
 WALKER—road maps, guides & atlases, Walker Lithograph & Publishing Co., 400 Newbury St., Boston, Mass.
 WALKER—magnetic chucks, O. S. Walker & Co., 25 Union St., Worcester, Mass.
 WALLWORK—lamp brackets for garages, Wells Light Mfg. Co., 154 Chestnut Ave., Jersey City, N. J.
 *WALNUT—gasoline marine motors, Walnut Machine & Brass Foundry Co., 316 Walnut St., Toledo, Ohio.
 WALPOLE—tire tape, insulating tape, bumpers & rubber matings, Walpole Rubber Works, Walpole, Mass.
 *WALTERS—mechanical tire inflators, General Mechanical Co., 1029 Real Estate Trust Bldg., Phila., Pa.
 WALTON—tap extractors & tool holders, The Walton Co., 306 Pearl St., Hartford, Conn.
 WALWORTH—dies & taps, Walworth Mfg. Co., 128 Federal St., Boston, Mass.
 WARD—gear grinding machines, Gear Grinding Machine Co., Detroit, Mich.
 WARD LEONARD—rheostats, resistances & circuit breakers & electric lighting outfits, The Ward-Leonard Electric Co., 12 Swain St., Bronxville, N. Y.
 WARNER—automobile tops & tool bags, Warner Pole & Top Co., 1648 Centre Ave., Cincinnati, Ohio.

- WARNER—cut meters & tachometers, Warner Instrument Co., 628 Wheeler Ave., Beloit, Wis.
- WARNER—steering devices, compensating gears, clutches & levers, Warner Gear Co., Muncie, Ind.
- WARNER AUTO-METER—speed indicators, Warner Instrument Co., 628 Wheeler Ave., Beloit, Wis.
- WARNER & NOBLE—hand hammers, Warner Hammer Co., Cromwell, Conn.
- WARREN—universal joints, The Mutual Machine Co., 25 Wells St., Hartford, Conn.
- WARREN'S ALRIGHT—protection tip hose nozzle, Marion Warren Co., P. O. Box 45, Rochester, N. Y.
- WASCO—inner tube patches, Waite Auto Supply Co., 17 Dorrance St., Providence, R. I.
- WASHBURN—sensitive drills & lathes, The Washburn Shops of the Worcester Polytechnic Institute, Worcester, Mass.
- WASHBURN—tire pressure registers, Judd & Leland Mfg. Co., Clifton Springs, N. Y.
- WASHEZY—hand soap, The R. M. Hollingshead Co., Camden, N. J.
- WASHITA—oil stones, Pike Mfg. Co., Pike, N. H.
- WASHZUM—car soap, The White & Bagley Co., Worcester, Mass.
- WAT—gasoline auto & marine engines, Lauth Auto & Engine Co., 769 Water St., Port Huron, Mich.
- WATAWATA—V belts, imported by Royal Motor Works Co., Worcester, Mass.
- WATERBURY—bolt & nut machinery, drop & power hammers, power presses, power shears & lathes, Waterbury Farrel Foundry & Machine Co., Waterbury, Conn.
- WATERHOUSE—carburetors & autogenous welding plants, The Waterhouse Company, 6 Pelham St., Boston, Mass.
- *WATERSHED CHROME—leather belting, J. E. Rhoads & Sons, 12 N. 3rd St., Phila., Pa.
- *WATERSHED OAK—leather belting, J. E. Rhoads & Sons, 12 N. 3rd St., Phila., Pa.
- WATERTITE—automobile tire cases, The Post & Lester Co., 20 Sargeant St., Hartford, Conn.
- WATERTITE—wireless battery holders for motor boats, Stanley & Patterson, 23 Murray St., N. Y. City.
- WATERTOWN—gasoline marine motors, Watertown Motor Co., 112 Moulton St., Watertown, N. Y.
- *WATERWEB—hat protectors, Robert G. Wallace Co., 496 Washington St., Boston, Mass.
- WATT—gasoline marine motors, Watt Motor Co., 564 Porter St., Detroit, Mich.
- WAUKESHA—gasoline automobile motors, The Waukesha Motor Co., Waukesha, Wis.
- *WAVERLY—gasolines, Waverly Oil Works, Pittsburg, Pa.
- *WAVERLY SPECIAL—oils, Waverly Oil Works, Pittsburg, Pa.
- *WAXALENE—wood polish, Leader Mfg. Co., 1808 Chestnut St., St. Louis, Mo.
- WAY—mufflers & sweater coats, The Way Muffler Co., 23rd & Arch Sts., Phila., Pa.
- *WAYNE—fire extinguishers, Wayne Chemical Co., Detroit, Mich.
- WAYNE—fuel or water tanks, gasoline & oil storage tanks & pumps, Wayne Oil Tank & Pump Co., Ft. Wayne, Ind.
- WAYNE—gasoline storage tanks, Motor Accessories Co., 43 Cortlandt St., N. Y. City.
- *WAYNE—stationary engines, Fort Wayne Foundry & Machine Co., Fort Wayne, Ind.
- WEAR-WELL—anti-skid chains, Cleveland Chain & Mfg. Co., Cleveland, O.
- *WEARWELL—grips, Haverford Grip Co., 829 Arch St., Phila., Pa.
- WEBB—flexible shafts & belts, Wehh Mfg. Co., Front & Centre Sts., Newark, N. J.
- WEBBER—hand knit jackets, George F. Webber, Station F., Detroit, Mich.
- WEBER—turn-table trucks, Weber Cycle & Supply Co., 6 E. Kiowa St., Colorado Springs, Col.
- WEBER—stationary engines & air compressors, Weber Gas Engine Co., Kansas City, Mo.
- WEBSTER—cluster lamp guards, Frank W. Morse, 516 Atlantic Ave., Boston, Mass.
- *WEBSTER—mufflers, Webster Muffler Co., Galesburg, Ill.
- WEBSTER—tank level indicators, Randall-Faichney Co., 251 Causeway St., Boston, Mass.
- WEBSTER-MILTON—magnetos, Webster Electric Co., 1645 Old Colony Building, Chicago, Ill.
- WECKLER—gasoline motor boats, Weckler Boat Co., Chicago, Ill.
- WECO—gasoline marine engines, C. T. Wright Engine Co., 1005 Speed St., Greenville, Mich.
- WEBBER—mufflers for automobile engines, shock absorbers & wheel puller & valve tools, C. F. Webber Mfg. Works, 170-172 Central Ave., Albany, N. Y.
- WEED—tire chains (anti-skids), Weed Chain Tire Grip Co., 28 Moore St., N. Y. City.
- *WEISS—curtain fasteners, Hercules Auto Specialty Mfg. Co., 115 Dearborn St., Chicago, Ill.
- WEISS—curtain fasteners, Chas. Weiss & Son, 4800 Cottage Grove Ave., Chicago, Ill.
- WELLINGTON—gasoline torches, Wellington Mfg. Co., 18 & 20 Oak St., N. Y. City.
- WELLS—wrenches, pipe cutters, pipe vices, screw machines, tapping machines, reamer & cutter grinders, F. C. Wells & Son Co., Chicago, Ill.
- WELTON—auto bumpers, The Welton Automobile Fender Co., 518 Columbus Savings & Trust Bldg., Columbus, O.
- WEMCO—gasoline auto motors, Wood Electric & Mfg. Co., Garst St. & Vandalia Tracks, South Bend, Ind.
- WEST—hydraulic tire setter, West Tire Setter Co., 143 Cutler Bldg., Rochester, N. Y.
- WESTCHESTER—sparking coils, spark plugs, ignition batteries & taximeters, Westchester Appliance Co., 13-15 Canal Place, Bronx Borough, N. Y.
- WESTCOTT—lathe chucks, Westcott Chuck Co., Oneida, N. Y.
- WESTCOTT—wrenches, Keystone Mfg. Co., 41-51 Chandler St., Buffalo, N. Y.
- WESTEN—shock absorbers, Westen Mfg. Co., 290 Halsey St., Newark, N. J.
- WESTERFIELD—gasoline auto & marine motors & gasoline stationary engines, The Anderson Motor Co., 16th & Jackson Sts., Anderson, Ind.
- WESTERN—foot rests, robe rails, rear sight mirrors & extra tire holders, Western Mechanical Works, 1138 S. Main St., Los Angeles, Cal.
- WESTERN—gasoline storage outfits, Western Oil Pump & Tank Co., 2437 Kosciusko St., St. Louis, Mo.
- WESTERN—oxy-acetylene welding plants, Western Welding & Mfg. Co., 557 W. Jackson Blvd., Chicago, Ill.
- WESTERN—radial drills, Western Machine Tool Works, Holland, Mich.
- WESTERN CHIEF—forges, pressure blowers, countershafts, tuyere irons, drill chucks & upright drills, Canedy-Otto Mfg. Co., Chicago Heights, Ill.
- WESTERN KINGSLEY—glass wind shields, Western Mechanical Works, 1138 S. Main St., Los Angeles, Cal.
- WESTERN SPHERICAL—acetylene auto lamps, Western Mechanical Works, 1138 S. Main St., Los Angeles, Cal.
- WESTERN UNIVERSAL—glass wind shields, Western Mechanical Works, 1138 S. Main St., Los Angeles, Cal.
- F. WESTFAHL & CO.—files & rasps, F. Westfahl & Co., Milwaukee, Wis.
- WESTFIELD—bicycles, The Pope Mfg. Co., Hartford, Conn.
- WESTINGHOUSE—belt, steam & motor driven air compressors, Westinghouse Air Brake Co., Pittsburg, Pa.
- WESTINGHOUSE—electric automobile motors, Westinghouse Electric & Mfg. Co., Pittsburg, Pa.

- WESTINGHOUSE—motors, Westinghouse Electric & Mfg. Co., Pittsburg, Pa.
- WESTINGHOUSE—storage ignition batteries & battery supplies, Westinghouse Storage Battery Co., Boonton, N. J.
- WESTMACOTT—furnaces, Westmacott Gas Furnace Co., 68 Clifford St., Providence, R. I.
- WESTMAN—gasoline marine & stationary motors, boat propellers, gears, timers & distributors, Enterprise Machine Co., 1114-22 S. 3rd St., Minneapolis, Minn.
- WESTON—drilling machines & ratchet drills, Keystone Mfg. Co., 41-51 Chandler St., Buffalo, N. Y.
- WESTON—voltmeters, ammeters & electrical measuring meters, Weston Electric Instrument Co., Waverley Park, Newark, N. J.
- WESTON-MOTT—steel rims, Weston-Mott Co., Flint, Mich.
- WE STOP RAIN—rain coats, Sanborn Mfg. Co., 151-155 W. 25th St., N. Y. City.
- *WESTRUMITE—liquid for laying dust & for road making, Westrumite Co. of America, 1117 Monadnock Block, Chicago, Ill.
- WEST'S ENAMEL—top dressing, West Mfg. Co., 120 N. Madison St., Rockford, Ill.
- WHALEBONE—automobile wheels, Imperial Wheel Co., Flint, Mich.
- *WHALEN—lock switches, Whalen Lock Co., 293 Johnson Ave., Jersey City, N. J.
- WHEELER—bicycle saddles, grips & bicycles, Wolverine Leather Goods Co., 51-59 Fort St., E., Detroit, Mich.
- WHEELER—wood filler, The Bridgeport Wood & Finishing Co., New Milford, Conn.
- WHICH WAY—spirit levels, C. G. Smith & Co., Columbia, Pa.
- WHIRL-A-GIG—radiator ornaments, C. L. Williams, 312 Halsey St., Newark, N. J.
- WHISLER—magnetos and dual ignition system, Whisler Mfg. Co., Port Huron, Mich.
- WHITAKER—wrenches, The Whitaker Mfg. Co., 509 W. Monroe St., Chicago, Ill.
- WHITE—gasoline motor boats, E. M. White Co., Oldtown, Me.
- *WHITE—marine gasoline engines & stationary engines, Globe Iron Works Co., Menominee, Wis.
- *WHITE—pneumatic automobile tires, White Co., 649 S. Nicholas Ave., N. Y. City.
- WHITE—valve lifting tools and inspection lamps, The Flexible Valve Remover Co., 12 Beverly St., Providence, R. I.
- WHITE—varnishes, American Varnish Co., 1140 N. Branch St., Chicago, Ill.
- WHITE COLUMBIA COLORING & WHITE ROSE—buffing & polishing compounds, Frederic B. Stevens, Detroit, Mich.
- WHITE-DIAMOND—buffing & polishing compounds, Matchless Metal Polish Co., N. Y. City.
- WHITEHALL—gasoline motor boats & marine & automobile engines, Whitehall Motor & Boat Co., Whitehall, N. Y.
- *WHITENE—hand & auto body cleansing compounds, W. R. Robinson, Foot Essex St., Jersey City, N. J.
- WHITE PYRAMID—mating, Hamilton Rubber Mfg. Co., Trenton, N. J.
- WHITE ROYALINE—automobile oils, E. D. Ellis Oil Co., 213 Jefferson Ave., Detroit, Mich.
- WHITE STAR—ignition batteries, dry, White Star Battery Co., 126 Chambers St., N. Y. City.
- WHITING AIRBURETOR-FILTER—air filter & WHITING AIRBURETOR-MIXER—mixing valves, The Garlock Auto Specialty Co., Palmyra, N. Y.
- WHITLOCK—radiators, The Whitlock Coil Pipe Co., Hartford, Conn.
- WHITNEY—automobile chains, chain belts, adjustable pulleys, milling machines, grinders, keys & cutters for the Woodruff Patent Keying System, The Whitney Mfg. Co., Hartford, Conn.
- WHITNEY—punches, hand, W. A. Whitney Mfg. Co., Rockford, Ill.
- WHITTAKER—antiskid chains, Whittaker Chain Tread Co., 12 Pearl St., Boston, Mass.
- WHIZ—cup grease, automobile top dressing & metal polish, The R. M. Hollingshead Co., Camden, N. J.
- WHIZ—hand cleansing compound, J. P. Davies Co., Dayton, Ohio.
- WHIZOIL—oil & soap, The R. M. Hollingshead Co., Camden, N. J.
- WICO—plugs, switches, timers, ignition cable, charging apparatus, lamp adapters, electric auto lamps, igniters & inspection lamps, Witherbee Igniter Co., Springfield, Mass.
- WIDMAYER'S—combined motorcycle stand & luggage carrier, F. B. Widmayer Co., 2312 Broadway, N. Y. City.
- WILES—tire sleeves, Diamond Rubber Co., Akron, Ohio.
- WILEY—oil storage outfits, New York Oil Cabinet Co., 221 Front St., N. Y. City.
- WILKINSON—engine starters, J. Franklin Wilkinson, 7 Riggs St., Gloucester, Mass.
- WILLE—pistons, Wille Piston Works, 17 Herkimer Place, Brooklyn, N. Y.
- WILLET—carburetors, gasoline automobile & marine engines, The Willet Engine & Carburetor Co., 764 Ellicott Square, Buffalo, N. Y.
- WILLEY—electric automobile charging apparatus, motors for machines, tools, hack saws, drills, drill presses & grinders, James Clark, Jr., Electric Co., 520 W. Main St., Louisville, Ky.
- WILLIAMS—carburetors, gasoline lock valves & gasoline strainers, The Williams Carburetor Mfg. Co., 963 William St., Buffalo, N. Y.
- WILLIAMS—pipe cutting & threading machines, Williams Tool Co., Erie, Pa.
- WILLIAMS—spark coils, plugs & switches, E. Q. Williams, 537 S. Clinton St., Syracuse, N. Y.
- WILLIAMS—wind shields, Twentieth Century Motor Car Co., 121-125 S. Lafayette St., South Bend, Ind.
- WILLIAMSPORT—stationary engines, Williamsport Gas Engine Works, Foot of Walnut St., Williamsport, Pa.
- WILLIAMS S-V—auto tire cement & WILLIAMS PLUG-IT—bicycle tire cement, Williams Mfg. Co., Camden, N. J.
- WILMINGTON—auto wheels, The Wilmington Wheel Mfg. Co., Wilmington, Del.
- WILSON—automobile luggage carriers, F. Cortez Wilson & Co., 239-241 Lake St., Chicago, Ill.
- WILSON—lamplighters, electric, H. K. Wilson Mfg. Co., New Bedford, Mass.
- WILSON—moulders' & automobile shovels, Wood Shovel & Tool Co., Piqua, Ohio.
- WILWEAR—foot rests, The Novelty Mfg. Co., Maple St., Waterbury, Conn.
- WINDSOR—spark plugs, C. H. Stoddard, 10 Waldo St., Worcester, Mass.
- WINESTOCK—spark plugs, Knapp-Greenwood Co., 1000 Boylston St., Boston, Mass.
- WINKLEY—oil hole covers, dowel pins & oil cups, The Winkley Co., 226 Abbot St., Detroit, Mich.
- *WINNER—automobile bearings & raw material, Dean-Allan Mfg. Co., South Portland, Me.
- WINN'S—graphite, lemon polishing oils & cotton waste, W. R. Winn, 143 Malden Lane, N. Y. City.
- WINSHIP—trunks, lunch kits & leather pockets, W. W. Winship, 71 Summer St., Boston, Mass.
- *WINTERTON—metal polish, W. W. Callery & Co., 36th & Butler Sts., Pittsburg, Pa.
- WIRELESS—Motor truck tires, The B. F. Goodrich Co., Akron, Ohio.
- WISCONSIN—gasoline auto & marine motors, Wisconsin Motor Mfg. Co., Dept. 21, North Milwaukee, Wis.
- WISCONSIN—stationary engines, The Lanson-Lawton Co., De Pere, Wis.

WISCONSIN VALVELESS—gasoline automobile engines & marine engines, Wisconsin Machinery & Mfg. Co., Canal St. & Muskego Ave., Milwaukee, Wis.

WISHBONE—auto tops, The Michigan Steel Boat Co., 1250-1500 Jefferson Ave., Detroit, Mich.

WISHBONE RIVAL—auto tops, Detroit Motor Car Supply Co., 1280 Jefferson Ave., Detroit, Mich.

WITHAM—charging panels & switchboards, electric safety lights & Tungsten lanterns, E. Marcuson, 521 W. 182nd St., N. Y. City.

WITHERBEE—ignition batteries & pocket voltmeters, Witherbee Igniter Co., Springfield, Mass.

WITHERBEE JR.—ignition batteries, Witherbee Igniter Co., Springfield, Mass.

T. H. WITHERBY—woodworkers' chisels, Winsted Edge Tool Works, Winsted, Conn.

WIZARD—bearing metals, Globe Metal Co., 401 W. Ontario St., Chicago, Ill.

WIZARD—drill chucks, The McCrosky Reamer Co., Meadville, Pa.

WIZARD—ignition batteries, Stackpole Battery Co., St. Mary's, Pa.

WIZARD—lathe chucks, William S. Nicholls, 253 Broadway, N. Y. City.

WIZARD—magnetos, Hercules Electric Co., 2128-2136 Northwestern Ave., Indianapolis, Ind.

WIZARD—stationary gasoline engines, Temple Pump Co., 17-27 W. 15th St., Chicago, Ill.

WIZARD—wrenches, The Richards Mfg. Co., Aurora, Ill.

WOHLFELD'S—auto trunks, S. Wohlfeld & Co., 538 N. 3rd St., Phila., Pa.

WOLVERINE—sheet brass & copper, brass rods, wind shield tubing, tubing & propeller shafts, Michigan Copper & Brass Co., Detroit, Mich.

WONDER—belt sanders, C. H. Driver, 1320 16th St., Racine, Wis.

WONDER—burner cleaners, A. Nelson Mfg. Co., 564 W. Randolph St., Chicago, Ill.

*WONDER—gasoline marine engines, Wonder Mfg. Co., 249 Tallman St., Syracuse, N. Y.

WON'T SLIP—tires & bands, C. J. Bailey & Co., 22 Boylston St., Boston, Mass.

*WOOD—lubricators, Geo. Wood Mfg. Co., 19 Canfield St., Newark, N. J.

WOOD—moulders' & automobile shovels, Wood Shovel & Tool Co., Piqua, Ohio.

WOODPECKER—stationary engines, The Middletown Machine Co., Middletown, Ohio.

WOODWORTH—tire protectors, emergency straps, tire sleeves, anti-skid devices & leather patches, Leather Tire Goods Co., Niagara Falls, N. Y.

WORCESTER—grinders, The Washburn Shops of the Worcester Polytechnic Institute, Worcester, Mass.

WORCESTER—spark coils, W. H. Leland & Co., Worcester, Mass.

WORDY—auto horn blowers, Wordingham Auto Supply Co., 803 Grand Ave., Milwaukee, Wis.

WORLD—bicycles, Arnold, Schwinn & Co., 1718-32 N. 43rd St., Chicago, Ill.

*WRIDGEWAY NO GLARE—lamp shades, Wridgeway No Glare Shade Co., 1999 Broadway, N. Y. City.

WRIGHT—cooler & hoods, Wright Cooler & Hood Mfg. Co., 1545 Michigan Ave., Chicago, Ill.

*WRIGHT—gasoline marine motors, Gasport Motor Co., Gasport, N. Y.

WRIGHT—spark plugs, New York Mica & Mfg. Co., 122 Clark St., Auburn, N. Y.

WRIGHT—wrenches, The Wright Wrench Mfg. Co., 922 S. Market St., Canton, O.

WUNDERBUTTON—acetylene burners, Wunderbutton Mfg. Co., 242 Lafayette St., N. Y. City.

*WYMAN—tire inflating tanks, whistles & whistle outfits, The Auto Tire Inflating Co., 104 S. 8th St., Brooklyn, N. Y.

WYOMING—steam separators & traps, W. H. Nickolson & Co., Wilkes-Barre, Pa.

X

X-F—files & rasps, Nicholson File Co., Providence, R. I.

X. L.—storage batteries, Kuehn & Metz, 1900 Broadway, N. Y. City.

X-L—valve grinding compound, J. F. Bornschein & Co., 2351 Indiana Ave., Chicago, Ill.

XL—hack saw blades, Henry G. Thompson & Son Co., New Haven, Conn.

XXX—polishing cloths, Continental Waste Co., 22 Clayton St., Boston, Mass.

XXX—wood polish, The Bobrick Chemical Co., 111-117 S. Garey St., Los Angeles, Cal.

XARGIL—vacuum mufflers & gasoline auto motors, Xargil Mfg. Co., 36-44 Broadway, Utica, N. Y.

XCELL—ignition batteries, The Englewood Carbon Works, Wabash Ave. & 65th St., Chicago, Ill.

XLCR—ignition batteries, oils, spark plugs, gasoline auto engines, inspection lamps & tire repair tools, Excelsior Supply Co., 233-237 Randolph St., Chicago, Ill.

X-RADIUM—heaters, Novelty Mfg. Co., Jackson, Mich.

XTRA-SERVIS—tire protectors, American Tire Co., Owosso, Mich.

XX CENTURY—auto jacks, Joyce-Cridland Co., Dayton, Ohio.

XXXX—glue, Hanson & Van Winkle Co., Newark, N. J.

Y

Y—folding seats, H. A. Buffington & Co., Berkshire, N. Y.

Y & T—electric & chain hoists, Yale & Towne Mfg. Co., 9 Murray St., N. Y. City.

YACHTING—automobile clothing & caps, Howard Place Co., 162 South St., N. Y. City.

YAGERS—soldering flux, Alex. R. Benson Co., Hudson, N. Y.

YALA—ratchet wrenches, Syracuse Wrench Co., Franklin & Water Sts., Syracuse, N. Y.

YALE—gasoline marine motors & air compressors, Baird Machine & Mfg. Co., 11-23 Raynor St., Detroit, Mich.

YALE—locks, padlocks & lock switches, Yale & Towne Mfg. Co., 9 Murray St., N. Y. City.

YALE—metal polish, Rostand Mfg. Co., Milford, Conn.

YAMA—grease, W. Sheppard, 141 E. 25th St., N. Y. City.

YANKEE—drill presses, Manville Bros. Co., Waterbury, Conn.

YANKEE—lathes, The Meriden Machine Tool Co., Meriden, Conn.

YANKEE—tire boots & sleeves, American Tire Co., Owosso, Mich.

YELLOW SEAL—varnishes, Eugene E. Nice, 272 S. 2nd St., Phila., Pa.

*YEMCO—wrenches, York Electric & Machine Co., York, Pa.

YOST'S—machinists' vises, G. M. Yost Mfg. Co., Meadville, Pa.

YOUNG—cylinder oils, Frank L. Young & Kimball, 111 Purchase St., Boston, Mass.

YOUNG'S—oils & greases, Orlando W. Young, 174-180 Frelinghuysen Ave., Newark, N. J.

Z
ZACHARIAS—lawn mower grinders, Zacharias Garage Co., Eagle Hall, Asbury Park, N. J.
ZAG—anti-skid chains, Motor Appliance Co., 1438 Michigan Ave., Chicago, Ill.
ZAHN—roller bearings, Detroit Roller Bearing Co., 198 Piquette Ave., Detroit, Mich.
ZEGLER—puncture-proof automobile tires, Zegler Bullet Proof Cloth Co., 1532-34 Michigan Ave., Chicago, Ill.
ZENITH—grease & auto body soap, Pennsylvania Oil Works Co., 1771 Broadway, N. Y. City.
ZEROLENE—oil, Standard Oil Co., Inc., Room 609, 26 Broadway, N. Y. City.
ZIG-ZAG—wind shields, Chicago Wind Shield Co., 235 Johnson St., Chicago, Ill.

ZIMMERMAN—timers & quadrants, The Zimmerman-Smith Co., North Tonawanda, N. Y.
ZIMMERMAN—wood & metal auto bodies & tops, F. F. Zimmerman & Sons, Waukegan, Wis.
ZIP—metal cleaning felt, W. W. Reid Mfg. Co., 131 State St., Boston, Mass.
ZIRCON—metal polish, Kertum Mfg. Co., 10-12 Pearl St., Buffalo, N. Y.
ZIZ—hand soap, Byram Mfg. Co., Box 3133, Boston, Mass.
ZOAR—ignition & vehicle batteries, The Zoar Battery Co., Zoar, Ohio.
ZURNOIL—oils, The O. F. Zurn Co., Broad & Lehigh Ave., Phila., Pa.

American

Quicker - Better - Cheaper

because one

AMERICAN MOTOR TRUCK

will do as much work as **three** of your teams. They are swift, sure and simple to operate.

ASSOCIATION OF LICENSED AUTOMOBILE MANUFACTURERS

Headquarters, 7 East 42nd St., New York, N. Y., Alfred Reeves, General Manager.

Object: The protection of the rights of members of the Association under the Selden patent and several hundred other patents in the control of its members. Each member conducts its business independently and the only bond between them is their mutual recognition of the Selden patent and the conviction that such recognition is a guarantee that purchasers of their machines will be immune from liability of lawsuits arising from alleged infringements of the patent in question.

AUTOMOBILE TRADE CREDIT ASSOCIATION

Headquarters, No. 80 Wall Street, New York City

Annual meeting, second Wednesday in January.

Board of Directors' Meeting Held Monthly.

Objects: To aid members in collections; protect against irresponsible debtors; collect and disseminate information.

This is a protective Organization of the motor industry, which is not an enterprise for private gain—being a purely membership organization.

Requirements of Membership: "Any manufacturer or wholesale dealer in automobiles, motor boats and their accessories, and those engaged in other lines of business allied therewith, shall be eligible to membership."

OFFICERS

Acting President, Carl Kaufman, The Motor Car Equipment Co., New York City.
Treasurer, M. J. Martin, G. A. Haws Co., New York City.
Secretary, Franz Neilson, New York City.

DIRECTORS

Carl Kaufman, The Motor Car Equipment Co., New York City.	A. Waterman, Hartford Suspension Co., Jersey City, N. J.
C. H. Krueger, Patterson, Gottfried & Hunter, Ltd., New York City.	E. C. Wilcox, United Mfgs., New York City.
Fred. S. Wilson, Thermoid Rubber Co., Trenton, N. J.	M. J. Martin, G. A. Haws Co., New York City.
J. J. Cohn, Nonpareil Horn Mfg. Co., Brooklyn, N. Y.	

THE AMERICAN AUTOMOBILE ASSOCIATION

Headquarters, 437 Fifth Avenue, New York City

A national body of motor users, now in its eighth year and composed of thirty-four state associations comprising two hundred and forty-five automobile clubs, a score of unfederated clubs with a total of over twenty-five thousand members.

Main Objects: Uniting in one body of all the automobile clubs and individual motorists of the country; and the promotion and furtherance of favorable legislation, reasonable enforcement of motor laws and ordinances, sportsmanlike contests and reliable records, as well as all movements—local, state and federal—toward the construction and maintenance of good roads. Any automobile owner or automobile club is eligible to membership.

OFFICERS

President—Lewis R. Speare, 369 Atlantic Avenue, Boston, Mass.
First Vice-President—Robert P. Hooper, Automobile Club of Germantown, Pa.
Second Vice-President—Frank M. Joyce, Minneapolis Automobile Club.
Third Vice-President—F. C. Donald, Chicago Motor Club.
Chairman Executive Committee—A. G. Batchelder, 427 Fifth Ave., N. Y.
Treasurer—H. A. Bonnell, New Jersey Automobile & Motor Club.
Secretary—Frederick H. Elliott, 437 Fifth Avenue, New York.

INTERNAL COMBUSTION ENGINEERS' ASSOCIATION

Office of Secretary, 416 W. Indiana St., Chicago, Ill.

Object: To advance in the broadest sense, and in every legitimate manner, the interests of internal combustion engineers.

OFFICERS

President	Homer R. Linn
Vice-President	H. E. King
Treasurer	I. J. Babcock
Secretary	Chas. Kratsch, 416 W. Indiana St., Chicago.

The Internal Combustion Engineers' Association was formed in Chicago November 6, 1908. Its aim is to collect data from operating engineers that will tend toward standardization of parts and improvement in design and construction of internal combustion engines and to help both owners and operators to secure more reliable and efficient service from their equipment.

An active member must be an operating engineer of an internal combustion engine, a superintendent or chief engineer, an erecting engineer, a designing engineer, or a consulting engineer.

An associate member may be any one who is sufficiently interested in internal combustion engines to make application for such membership and pay the required fees and dues.

Dues, \$1 per year; initiation fee of \$1 for both active and associate members.

MANUFACTURERS' CONTEST ASSOCIATION

Headquarters, 1780-82 Broadway, New York City, Seventh Floor.

Objects—The voluntary advancing of healthy, sportsmanlike, and uniform conditions in automobile contests of every nature, and causing such contests to be held under the auspices of an active organization, supported and governed by representative interests in automobile affairs.

OFFICERS

President, Benjamin Briscoe, Maxwell-Briscoe Motor Co.	Ass't Secretary-Treasurer, Russell A. Field, 1780-82 Broadway, New York City.

SECTION VI

Useful Information and Recipes

TO CLEAN BRASS

An economical method of cleaning brass is to rub it with a mixture of vinegar and salt, or oxalic acid, then wash with water and polish with Tripoli and sweet oil, or with any good brass polish.

BRASS CLEANING PASTE

The following makes a good cleaning paste: Rotten stone 6 ozs. oxalic acid 1 oz., equal parts of whale oil and spirits of turpentine sufficient to make a paste.

A general metal polishing paste may be made as follows: The quantity of the parts being by weight: Petroleum jelly (white) 90 parts, kieselguhr 30 parts, refined paraffine wax 10 parts, refined chalk, or whiting 10 parts, sodium hypophosphite 8 parts. The jelly and the wax are first melted and the other ingredients stirred in and the entire mass ground. A little citronelle can be added to cover up disagreeable odors and scent the paste.

A polishing powder may be made as follows; the quantities being by weight: Putty powder 14 parts, pipe clay 14 parts, kieselguhr 42 parts, tartaric acid (powdered) 1½ parts.

LIQUID POLISHES

Kieselguhr 7 pounds, bath brick (powdered) 3 pounds, oil of lemon 2 oz., lemon juice 1 gallon, paraffine oil 1 gallon, malt vinegar 4 gallons.

Another liquid polish for metals is as follows: Jewelers' red 25 parts, oil of turpentine 15 parts, oil of stearine 25 parts, animal charcoal 45 parts, alcohol sufficient to make the mass practically liquid. Apply with a stiff brush. After the alcohol has evaporated rub the surface with a dry cloth.

Another formula consists of the following: 16 pounds crude oleic acid, 5 pounds kieselguhr, 4 pounds tasteless mineral oil, 1½ oz. lemon oil. Mix the powders into a paste and gradually thin with the mixed fluids, being careful to prevent formation of lumps. Apply with a rag or waste, and when practically dry rub with another rag or waste.

TO REMOVE RUST

Rust may be removed from iron by immersing the piece for several days, or until the rust has entirely disappeared, in water to which a little sulphuric acid has been added with a piece of zinc firmly attached to the iron so that it makes a good contact. The iron is not attacked as long as the zinc remains in contact with it.

Iron or steel may be cleaned of rust by the use of the following: 100 parts stannic chloride dissolved in 1000 parts water. Add to a solution containing 2 parts tartaric acid dissolved in 1000 parts water. Add to the mixture 20 cubic centimetres indigo solution diluted with 2000 parts of water. Clean the metal parts of all grease, apply the solution to the stained portions for a few seconds, rub clean with a moist cloth, then with a dry cloth, and if desired then use any good metal polish. Old rust may be removed in some cases by rubbing with a paste consisting of equal parts of fine Tripoli and flowers of sulphur thoroughly mixed with olive oil.

Powdered alum in strong vinegar, oil of tartar, or fine emery are also used to remove rust. Kerosene, or turpentine if left on the stained or rusted portions over night will sufficiently soften the rust so that it may be removed by the use of fine emery cloth followed by a polishing powder.

Rust spots on nickel can be treated with grease, and after several days rubbed with a rag saturated with a few drops of hydrochloric acid in ammonia. Parts should be thoroughly rinsed, dried and polished.

RUST PREVENTIVE

The following is a good rust preventive for steel: 16 parts turpentine, and 1 part cautchouc dissolved by a gentle heat. To this add 8 parts boiled oil, stir and at the same time bring to the boiling point. Apply with a brush after the manner of varnishing. This coating can be removed by the use of turpentine if desired.

ALUMINUM POLISH

An emulsion of equal parts of rum and olive oil can be used for cleaning aluminum. Potash lye not too strong is also effective in brightening aluminum, benzol is also used.

A good polish for aluminum consists of a paste formed of emery and tallow, the finish lustre being obtained by the use of rouge powder with oil of turpentine.

BRASS LACQUER

A good brass lacquer consists of the following: 2 pints alcohol, 2 oz. turmeric, 6 oz. seed lac (coarse powdered), ½ oz. saffron, ½ oz. annatto. The annatto, saffron and turmeric are allowed to dissolve in the alcohol for several days, then strained into a bottle containing the seed lac. Cork and shake the mixture until dissolved.

ALUMINUM LACQUER

For aluminum dissolve 100 parts gum lac in 300 parts ammonia, heating for 1 hour over a water bath, paint the thoroughly cleaned aluminum with the varnish and heat it to about 570 degrees Fahrenheit.

POLISH FOR VARNISHED WOOD

Shake well together 1 pint vinegar, 1 oz. alcohol, 1 pint oil (linseed) 1 oz. butter of antimony.

A polish for burnished wood surfaces may be made of the following: Wood pulp 40 parts, hydrochloric acid 44 parts, chloride of lime $15\frac{1}{2}$ parts, turpentine $\frac{1}{2}$ part. Mix in the form of a paste and smear over the surface, allowing it to remain a short time and remove it by quick strokes of a soft brush, or leather, thoroughly cleaning the surface. Rub gently to a polish with a fresh piece of cloth or chamois. This preparation will not affect the varnish. It can also be used on brass and other metals without corrosion.

For very highly polished surfaces the following may be used: Dissolve 5 parts potassium carbonate in 300 parts water, dissolve in this 500 parts shaved up bees wax by boiling until the wax is partially saponified, replacing the water evaporated. Remove from the fire and stir until cold, add oil of turpentine 800 parts, stir constantly until a smooth emulsion results, then add 800 parts of distilled water, continuing the stirring. Wash, rinse and dry the surface to be polished. Apply the paste as uniformly and as thinly as possible, rub off with a soft woolen cloth.

TO REMOVE OIL STAINS FROM LEATHER

Cover the spot with spirits of sal-ammoniac, allow it to act for a short time, cleaning with clear water, repeat until the spot is removed, taking care not to affect the color of the leather.

LEATHER PRESERVATIVES

100 parts sweet oil, 100 parts mutton suet, 2 parts turpentine. Melt together and apply to the leather, which has been sufficiently warmed so that it will liquefy and absorb the fat. Another formula is as follows: 10 oz. linseed oil, 10 oz. mutton fat, 1 oz. Venice turpentine melted together. Apply to the leather when dry and warm and it will preserve it against wet or snow.

LEATHER DRESSING

An effective leather dressing suitable for tops can be made as follows: To 2 parts of common glue liquefied by heating, add 3 parts castile soap, dissolve by heating together with 120 parts water, stirring until a good mixture is obtained. Add 4 parts spirit varnish, and then mix 2 parts wheat starch with water and throw in. For black leather sufficient lampblack can be added without killing the gloss of the dressing.

Shabby leather can be much improved by either linseed oil, or the well beaten whites of eggs mixed with suitable coloring matter. The surface can be brought to a gloss by the use of a soft duster.

Road Signs

American Motor League "Caution Signs." Background and posts white, symbols black.

No. 1 indicates approach to a steep descent; No. 2, approach to a railroad crossing; No. 3, approach to a branch road (to right); No. 4, approach to a branch road (to left); No. 5, approach to cross roads; No. 6, approach to a ditch or abrupt depression in the road; No. 7, approach to a hummock or "thank you, ma'am;" No. 8, approach to a city, village or other collection of inhabited dwellings; No. 9, is a general caution signal indicating the proximity of any danger or obstruction not scheduled above, or any other condition requiring caution. No. 9, (not shown in cut) is a plain white sign and can be improvised in emergent cases by using a sheet of white cloth fastened upon a board of proper shape. Each sign is placed at a distance of not less than 200, nor more than 300 yards from the point to which it refers.

**PILOT RULES FOR THE INLAND WATERS OF THE ATLANTIC AND PACIFIC
COASTS AND ON THE GULF OF MEXICO, EXCEPT RIVERS EMPTYING
INTO THE GULF OF MEXICO AND THEIR TRIBUTARIES.**

Rules and regulations for the government of pilots of vessels propelled by steam, gas, fluid, naphtha or electric motors, and of other vessels propelled by machinery, navigating the harbors, rivers, and inland waters of the United States, except the Great Lakes and their connecting and tributary waters as far east as Montreal, the Red River of the North, and rivers emptying into the Gulf of Mexico and their tributaries as amended by the Board of United States Supervising Inspectors, Steamboat Inspection Service, on February 19, 1909, and approved by the Secretary of Commerce and Labor on March 20, 1909, under the authority of an act of Congress approved June 7, 1897, and the act of Congress approved February 14, 1903, establishing the Department of Commerce and Labor.

These rules shall be effective on and after March 20, 1909.

Preliminary.

In the following rules the words steam vessel and steamer shall include any vessel propelled by machinery.

A vessel is under way, within the meaning of these rules, when she is not at anchor, or made fast to the shore, or aground.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Signals.

The whistle signals provided in these rules shall be sounded on an efficient whistle or siren sounded by steam or by some substitute for steam.

A short blast of the whistle shall mean a blast of about one second's duration.

A prolonged blast of the whistle shall mean a blast of from four to six seconds' duration.

One short blast of the whistle signifies intention of or assent to steamer first giving the signal to direct course to own starboard, except when two steamers are approaching each other at right angles or obliquely, when it signifies intention of steamer which is to starboard of the other to hold course and speed.

Two short blasts of the whistle signify intention of or assent to steamer first giving the signal to direct course to own port, except when two steamers are approaching each other at right angles or obliquely, when the signal signifies desire of or assent to steamer which is to port of the other to cross the bow of steamer to starboard.

Three short blasts of the whistle shall mean, "My engines are going at full speed astern."

When vessels are in sight of one another a steam vessel under way whose engines are going at full speed astern shall indicate that fact by three short blasts on the whistle.

Rule I. If, when steam vessels are approaching each other, either vessel fails to understand the course or intention of the other, from any cause, the vessel so in doubt shall immediately signify the same by giving several short and rapid blasts, not less than four, of the steam whistle, the danger signal.

Whenever the danger signal is given the engines of both steamers shall be stopped and backed until the headway of the steamers has been fully checked; nor shall the engines of either steamer be again started ahead until the steamers can safely pass each other, and the proper signals for passing have been given, answered, and understood.

Rule II. Steam vessels are forbidden to use what has become technically known among pilots as "cross signals," that is, answering one whistle with two, and answering two whistles with one. In all cases and under all circumstances, a pilot receiving either of the whistle signals provided in the rules, which for any reason he deems injudicious to comply with, instead of answering it with a cross signal, shall at once sound the danger signal and observe the rule applying thereto (Rule I).

Rule III. The signals for passing, by the blowing of the whistle, shall be given and answered by pilots, in compliance with these rules, not only when meeting "head and head," or nearly so, but at all times, when the steam vessels are in sight of each other, when passing or meeting at a distance within half a mile of each other and whether passing to the starboard or port.

The whistle signals provided in the rules for steam vessels meeting, passing, or overtaking are never to be used except when steamers are in sight of each other, and the course and position of each can be determined in the daytime by a sight of the vessel itself, or by night by seeing its signal lights. In fog, mist, falling snow or heavy rain storms, when vessels cannot so see each other, fog signals only must be given.

SECTION VII

Tables and Data for Engineers

HORSE POWER CALCULATIONS AND TABLES

E. S. Foljambe.

The subject of Horse Power of internal combustion motors is one that has been largely discussed, and we might say more abused than any other definite term connected with automobile engines. The term "Horse Power" in ordinary engineering practice is very specific, meaning one and only one thing, but in connection with the automobile industry it has been so loosely used that its utility has largely been lost. So much so that many never ask what the horse power of any engine may be, but simply inquire for the bore and stroke, making their own rough estimate as to the power that will be developed or ascertain approximately what results can be expected by the use of tables, large numbers of which have been published at various times and in various places.

Going back to the original meaning, a horse power is, of course, a measure of work. In other words, it represents 33,000 ft. lbs. of work per minute, or, as variously expressed, minute. It is a product of force in pounds times space in feet, and applies equally to the output of all engines.

CALCULATED H. P.

To obtain the calculated horse power of any engine considering one cylinder only and multiplying its output, when obtained, by the number of cylinders, simply multiply the surface in square inches upon which the force in pounds acts, by the distance in feet through which it acts, thus obtaining foot-pounds, which, divided by 33,000 ft. lbs., will give the number of horse power. This rule, of course, applies to all types of machinery, and is perfectly accurate, but it must be understood does not in any way take into account the mechanical efficiency of the engine, or, in other words, does not take into consideration the amount of power absorbed in running the machine itself. To determine the actual useful horse power, that available for work, the mechanical efficiency of the machine must be considered. This naturally varying widely with the design and workmanship and type of motor, and although no general rule can be given, yet in well designed engines which are operated near the speed at which they are designed to give the best results, the mechanical efficiency may be taken as varying between 80 and 90%. Below 80 is not good; 90 or above is exceptionally good, and for motors of automobile type, from 15 H. P. upward, the efficiency can be assumed as about 85%.

Calculated horse powers are only approximate at best, and the actual horse power can only be determined by a brake test. Nevertheless, it is often a great assistance to be able to quickly approximate the output of any engine even before it is built, and for this purpose tables which are based on average practice and known performance of a large number of motors are given.

To calculate the horse power of any 4-cycle motor, the following general formula is always used, this giving the output of a single cylinder and must be multiplied by the number of cylinders for multiple cylinder engines.

$$\frac{P L A R}{33000 \times 2} = \text{H. P.}$$

In which

P=pounds per sq. inch.

L=length of stroke in feet.

A=piston area in inches.

R=the number of revolutions per minute.

The pressure in any engine is assumed to be a mean effective pressure or average pressure throughout the stroke, and is written M. E. P. For gasoline engines of the usual 4-cycle automobile type this pressure can be assumed at between 75 and 100 lbs., it, of course, varying with the general design. The actual M. E. P. of an engine which has already been built can be determined by the manograph, which records by means of a streak of light the outline of the indicator card, which, if desired, can be permanently retained by means of a photographic plate. It can also be determined at speeds under 500 R. P. M. by diagrams produced by ordinary steam engine indicators, but these are not accurate when used with high speed gasoline engines, the manograph being far superior.

For 2-cycle engines, in which the compression is usually lower than in the 4-cycle, an M. E. P. of not over 70 to 75 lbs. is usually used, and the 2 disappears from the denominator, as this type has a working stroke every revolution.

The speed at which the engine is running varies the number of working strokes per minute, and of course affects materially the resulting H. P. developed. Owing to this fact a practice has become customary of giving internal combustion motors a hyphenated rating; that is, stating the H. P. developed at a normal number of revolutions and also the horse power which the same engine would develop at a higher number of revolutions. For example, an engine is spoken of as 40-45 H. P. That is, it will develop 40 H. P. at say 800 revolutions and 45 H. P. at 1000 revolutions per minute.

AN EXAMPLE

Using the foregoing formula, we will calculate the indicated horse power (I. H. P.) of a 4-cylinder motor of 5-in. bore, $5\frac{1}{4}$ stroke, assuming a mean effective pressure of 86 lbs. per sq. inch and the engine running at 1000 R. P. M.

The following values will be substituted in the formula:

M. E. P. lbs. per sq. in. or $P=86$.

Stroke in feet $\frac{5.25}{12}$ or $L=.437$ feet.

Area of piston 5-in. dia. or $A=19.635$ sq. in.

Revolutions per min. $R=1000$.

Substituting these values in the formula: $\frac{PLAR}{33,000 \times 2} = \text{H. P.}$

We have: $\frac{86 \times .437 \times 19.635 \times 1000}{33,000 \times 2} = 11.18$ H. P. for one cylinder.

$11.18 \times 4 = 44.72$ H. P. for 4 cylinders.

The horse power available for useful work is obtained by multiplying this result by the mechanical efficiency assumed for the particular type of engine.

This formula can be simplified by gathering together all the functions which do not vary and making a constant of them. If 1000 rev. per min. is assumed, then the number of actual power strokes is 500. Instead of using the length of stroke in feet it can be used in inches and the dividing by 12 can be incorporated in the constant. Instead of using the area of the piston (area=.7854 D^2), its diameter squared can be used and the .7854 can also be placed in the constant. This constant then becomes .00098. For practical purposes the writer has considered this as .001, which gives results correct within .8 of one per cent. The advantage of this is at once apparent, as multiplying by .001 simply means pointing off three decimal places. Thus we have

A SIMPLE H. P. FORMULA.

$\text{H. P.} = PLD^2R$ with three decimal places pointed off.

In which P =Mean effective pressure.

L =Stroke in inches.

D =Diameter in inches.

R =No. of cylinders.

The M. E. P. can be assumed or taken from tables. A speed of 1000 R. P. M. is the only assumption made, and the formula takes into consideration pressure, bore and stroke, and is the simplest form to which the writer has yet been able to reduce the H. P. formula, still retaining all the essentials.

By assuming a constant M. E. P. of 90 lbs. the formula can be simplified for a 4-cylinder 4-cycle engine to

$$\text{H. P.} = .36 LD^2.$$

If an approximation of the M. E. P. is desired, instead of taking an arbitrary value it may be calculated if the compression is known, by means of the following formula, given by Grover:

$$\text{M. E. P.} = 2 C - 0.01 C^2$$

in which C =the compression pressure above atmosphere in lbs. per sq. inch. This formula does not hold for compressions over 100 lbs. per sq. inch above atmosphere, but is fairly accurate for the range of pressures usually used in automobile work, giving, if anything, a conservative M. E. P. It must be borne in mind that atmospheric pressure must be deducted from this M. E. P., as the value of C is in lbs. per sq. inch above atmosphere.

The compression can be calculated if the cylinder volumes are known or can be taken from tables or curves. (See Compression Pressures in Gasoline Engine Cylinders.)

WELL-KNOWN CLUB AND ASSOCIATION H. P. FORMULAE

For easy comparison of one car with another and for facilitating handicapping at hill-climbs and race meets, the following formulae have been given out by clubs and associations. For the sake of uniformity, let:

D^2 = Square of piston diameter in inches.

L = Stroke in inches.

R = Revolutions per minute.

N = Number of cylinders.

H. P. FORMULA, 4-CYCLE ENGINES.

$$\text{A. L. A. M. formula H. P.} = \frac{D^2 N}{2.5}$$

$$\text{Roberts Formula, H. P.} = \frac{D^2 L N R}{1800}$$

$$\text{Royal Auto Club, H. P.} = \frac{(D + L)^2 N}{9.92}$$

RACING BOAT FORMULA.

$$\text{American Power Boat Association} = \frac{D^2 N}{2.5338}$$

$$\text{For motors of less than 6 ins. stroke} = \frac{D^2 L N}{15.20}$$

These formulae are for high speed racing boat engines of 4-cycle type, and are based on 1000 ft. per minute piston speed.

For engines of ordinary design, 2-3 of the above values should be taken. 10% should be added to the ratings if the charge is forced into the cylinders by any mechanical device.

2-CYCLE H. P. FORMULAE.

The following are 2-cycle engine formulae, the first being by Roberts and the next two by the American Power Boat Association:

$$\text{H. P.} = \frac{D^2 L R N}{13,500} \quad (\text{For racing boat engines})$$

$$\text{H. P.} = \frac{D^2 N}{2.1008}$$

$$\text{H. P.} = \frac{D^2 L N}{12.987}$$

The above formulae by the American Power Boat Association are only for racing boat engines. For ordinary 2-cycle boat engines 2-3 of the value resulting from the use of these formulae should be taken. For engines having one or more displacer cylinders, the above rating should be increased in the ratio that the displacer pistons' displacement bears to that of the working cylinders.

It will be noticed that a 2-cycle engine having double the number of power strokes of a 4-cycle the H. P. would be multiplied by 2. This, however, would give an erroneous result, as there are many inherent conditions connected with 2-cycle engine design which tend to lower its H. P. output, such as the lower compression, lower M. E. P., due to inefficient scavenging, etc. For these reasons the output of 2-cycle engines varies more than it does in 4-cycle engines, and is very often taken as approximately 1.65 of that of a 4-cycle engine of the same bore and stroke. It must be understood, however, that there are exceptional cases where 2-cycle engines have shown considerably better than this, but we are, of course, considering average results.

HORSE POWER TABLES FOR ONE CYLINDER

The accompanying table was prepared by Mr. Worby Beaumont, a well-known English Engineer.

The usual formula for calculating horse power was used in calculating this table, viz.:

PLAN.

33,000x2

When P equals mean effective pressure of 90 lbs. per square inch.

L equals stroke of engine in feet.

A equals area of piston.

N equals revolutions per minute.

To use table: Take the bore of your motor from marginal or left-hand column, follow directly across to the column whose heading added to the bore gives stroke. The figure at the intersection of this column and your bore column gives the horse power of one cylinder of that size at 750 revolutions, and the figure immediately below gives the horse power at 1000 revolutions, which is generally accepted for computing present day high-powered motors.

The table represents the calculated indicated power given by one cylinder. For multi-cylinder engines the power shown must be multiplied by the number of cylinders.

FORMULA FOR HORSE POWER REQUIRED TO OVERCOME AIR RESISTANCE* (Brooks)

In the design of racing cars the horse power required to overcome the air resistance is a factor which should be taken into consideration. At speeds below fifteen miles per hour this resistance is practically negligible, and so need not of necessity be considered in low powered or ordinary touring machines. An approximate formula for calculating the horse power required to overcome the air resistance of a car is as follows:

$$H. P. = \frac{V^3 \times A}{240,000}$$

In which

H. P. = the required horse power.

V = velocity of car in ft. sec.

The projected area of the front of the car in sq. ft. may be approximated by multiplying the width of the car body at the front seat at the frame line, by the distance from the center of the wheels to the highest point either the wind shield, the seats or the top. This formula assumes still air; if the car is to be driven against a wind of known velocity, this velocity should be added to the car velocity.

*This formula gives only the power required to overcome the air resistance of the car and should not in any way be confounded with formulas for calculating the actual horse power required to drive the car.

A. L. A. M. HORSE-POWER FORMULA

The formula adopted is $\frac{D^2 \times N}{2.5}$ and based on 1000 feet per minute piston speed. D is the cylinder bore, N the number of cylinders, and 2.5 a constant, based on the average view of the Mechanical Branch as to a fair conservative rating.

TABLE OF HORSE-POWER FOR USUAL SIZES OF MOTORS, BASED ON A. L. A. M. FORMULA

BORE		HORSE-POWER			
Ins.	M/M	1 Cyl.	2 Cyls.	4 Cyls.	6 Cyls.
2 $\frac{1}{2}$	64	2 $\frac{1}{2}$	5	10	15
2 $\frac{3}{8}$	68	2 $\frac{3}{4}$	5 $\frac{1}{2}$	11	16 $\frac{1}{2}$

4 $\frac{1}{4}$	108	7 $\frac{1}{4}$	14 $\frac{1}{2}$	28 $\frac{1}{2}$	43 $\frac{3}{4}$
4 $\frac{3}{8}$	111	7 $\frac{3}{8}$	15 $\frac{5}{16}$	30 $\frac{3}{8}$	45 $\frac{1}{16}$
4 $\frac{1}{2}$	114	8 $\frac{1}{10}$	16 $\frac{1}{5}$	32 $\frac{2}{5}$	48 $\frac{3}{5}$
4 $\frac{5}{8}$	118	8 $\frac{9}{16}$	17 $\frac{1}{8}$	34 $\frac{1}{4}$	51 $\frac{3}{10}$
4 $\frac{3}{4}$	121	9	18	36 $\frac{1}{10}$	54 $\frac{1}{10}$
4 $\frac{7}{8}$	124	9 $\frac{1}{2}$	19	38	57
5	127	10	20	40	60
5 $\frac{1}{8}$	130	10 $\frac{1}{2}$	21	42	63
5 $\frac{1}{4}$	133	11	22	44 $\frac{1}{10}$	66 $\frac{1}{5}$
5 $\frac{3}{8}$	137	11 $\frac{9}{16}$	23	46	69 $\frac{1}{10}$
5 $\frac{1}{2}$	140	12 $\frac{1}{10}$	24 $\frac{1}{5}$	48 $\frac{2}{5}$	72 $\frac{3}{5}$
5 $\frac{3}{4}$	143	12 $\frac{3}{8}$	25 $\frac{1}{4}$	50 $\frac{3}{8}$	75 $\frac{1}{2}$
5 $\frac{7}{8}$	146	13 $\frac{1}{4}$	26 $\frac{1}{2}$	53	79 $\frac{1}{2}$
5 $\frac{1}{2}$	149	13 $\frac{3}{10}$	27 $\frac{3}{10}$	55 $\frac{1}{4}$	82 $\frac{9}{10}$
6	152	14 $\frac{2}{5}$	28 $\frac{1}{5}$	57 $\frac{2}{5}$	86 $\frac{2}{5}$

To simplify reading of the above, the horse-power figures are approximate, but correct within one-sixteenth.

COMPRESSION PRESSURES IN GASOLINE ENGINE CYLINDERS FOR VARIOUS RATIOS OF COMPRESSION SPACE TO TOTAL CYLINDER VOLUME

P. S. TICE

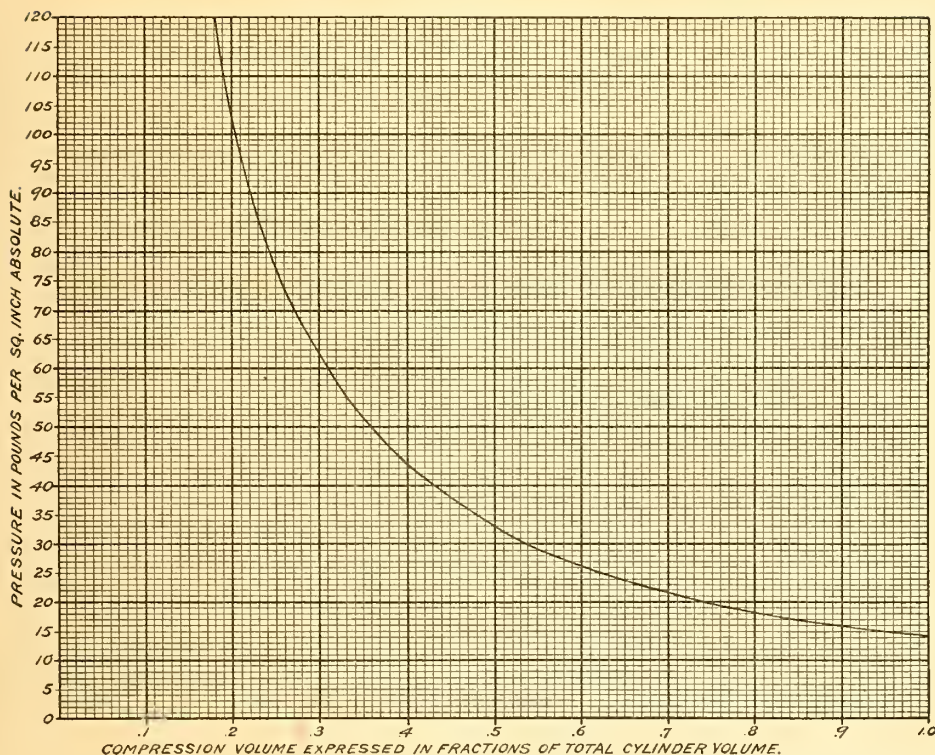

It is many times desirable to have at hand a convenient means for at once determining with accuracy what the compression pressure will be in a gasoline engine cylinder, the relationship between the volume of the compression space and the total cylinder volume or that swept by the piston being known.

The curve herewith is offered as such a means. It is based on empirical data gathered from upward of two dozen modern automobile engines and represents what may be taken to be the results as found in practice.

It is usual for the designer to find compression pressure values, knowing the volumes, from the equation

$$P_2 = P_1 \left(\frac{V_1}{V_2} \right)^{1.4} \dots \dots \dots 1$$

which is for adiabatic compression of air. Equation (1) is right enough in general form but gives results which are entirely too high, as almost all designers know from

experience. The trouble lies in the interchange of heat between the compressed gases and the cylinder walls, in the diminution of the exponent (1.4 in the above) due to the lesser ratio of specific heat of gasoline vapor and in the transfer of heat from the gases which are being compressed to whatever fuel may enter the cylinder in an unvaporized condition. Also, there is always some piston leakage, and, if the form of the equation (1) is to be retained, this also tends to lower the value of the exponent.

From experience with many engines, it appears that compression reaches its highest value in the cylinder for but a short range of motor speeds, usually during the mid-range. Also, it appears that, at those speeds at which compression shows its highest values, the initial pressure at the start of the compression stroke is from .5 to .9 lbs. below atmospheric. Taking this latter loss value, which shows more often than those of lesser value, the compression is seen to start from an initial pressure of 13.9 lbs. per sq. in. absolute.

Also, experiment shows that if the exponent be given the value 1.26, instead of 1.4, the equation will embrace all heat losses in the compressed gas, and compensate for the changed ratio of specific heats for the mixture and also for all piston leakage, in the average engine with rings in good condition and tight.

In the light of the foregoing, and in view of results obtained from its use, the above curve is offered—values of P_2 being found from the equation

$$P_2 = 13.8 \left(\frac{V_1}{V_2} \right)^{1.26}$$

In using this curve it must be remembered that pressures are absolute. Thus: suppose it is desired to know the volumetric relationships of the cylinder for a compression pressure of 75 lbs. gauge. Add atmospheric pressure to the desired gauge pressure $14.7 + 75 = 89.7$ lbs. absolute. Locate this pressure on the scale of ordinates and follow horizontally across to the curve and then vertically downward to the scale of abscissas, where the ratio of the combustion chamber volume to the total cylinder volume, which latter is equal to the sum of the combustion chamber volume and that of the piston sweep. In the above case it is found that the combustion space for a compression pressure of 75 lbs. gauge will be .225 of the total cylinder volume, or $.225 \div .775 = .2905$ of the piston sweep volume.

Conversely, knowing the volumetric ratios, compression pressure can be read directly by proceeding from the scale of abscissas vertically to the curve and thence horizontally to the scale of ordinates.

TABLE FOR CALCULATING B. H. P. OF AN ENGINE

Knowing the brake arm length, speed and pull on the scales. (C. T. Swart.)

$$\text{B. H. P.} = \frac{2 \times 3.1416 \times R \times P \times N}{33,000}$$

R = Brake arm in feet.

P = Pull on scales in lbs.

N = Revolutions per min.

$$\text{Values in table} = \frac{2 \times 3.1416 \times 100 \times R \times P}{33,000}$$

The figures in this table are for a speed of 100 revolutions per min.; therefore when readings are taken for any other speed, the answer found in the table must be multiplied by the actual speed divided by 100.

Pull in lbs.	ARM IN FEET								
	1	1 $\frac{1}{4}$	1 $\frac{1}{2}$	1 $\frac{3}{4}$	2	2 $\frac{1}{4}$	2 $\frac{1}{2}$	2 $\frac{3}{4}$	3

TABLE FOR CALCULATING THE I. H. P. OF ONE CYLINDER
FOUR CYCLE ENGINES *

Knowing the piston speed, piston diameter and M. E. P. (C. T. Swart.)

I. H. P. (four cycle) = $\frac{P \times L \times A \times N}{33,000 \times 2}$

- P = M. E. P.
- L = Length of stroke in feet.
- A = Area of cylinder in sq. ins.
- N = No. of revolutions per min.

Piston Speed = 2 x L x N.

Hence I. H. P. = $\frac{P \times A \times \text{Piston Speed}}{33,000 \times 4}$

The figures in this table are for a piston speed of 1000 feet per min.; therefore for any other piston speed the number found in the table must be multiplied by the actual speed divided by 1000.

M.E.P.	BORE														
	3"	3½"	3¾"	3⅞"	4"	4¼"	4½"	4¾"	5"	5¼"	5½"	5¾"	6"	6½"

*For 2 cycle engines multiplying the figures in the table by two would be correct theoretically, but multiplying by 1.65 gives results closer to actual practice.

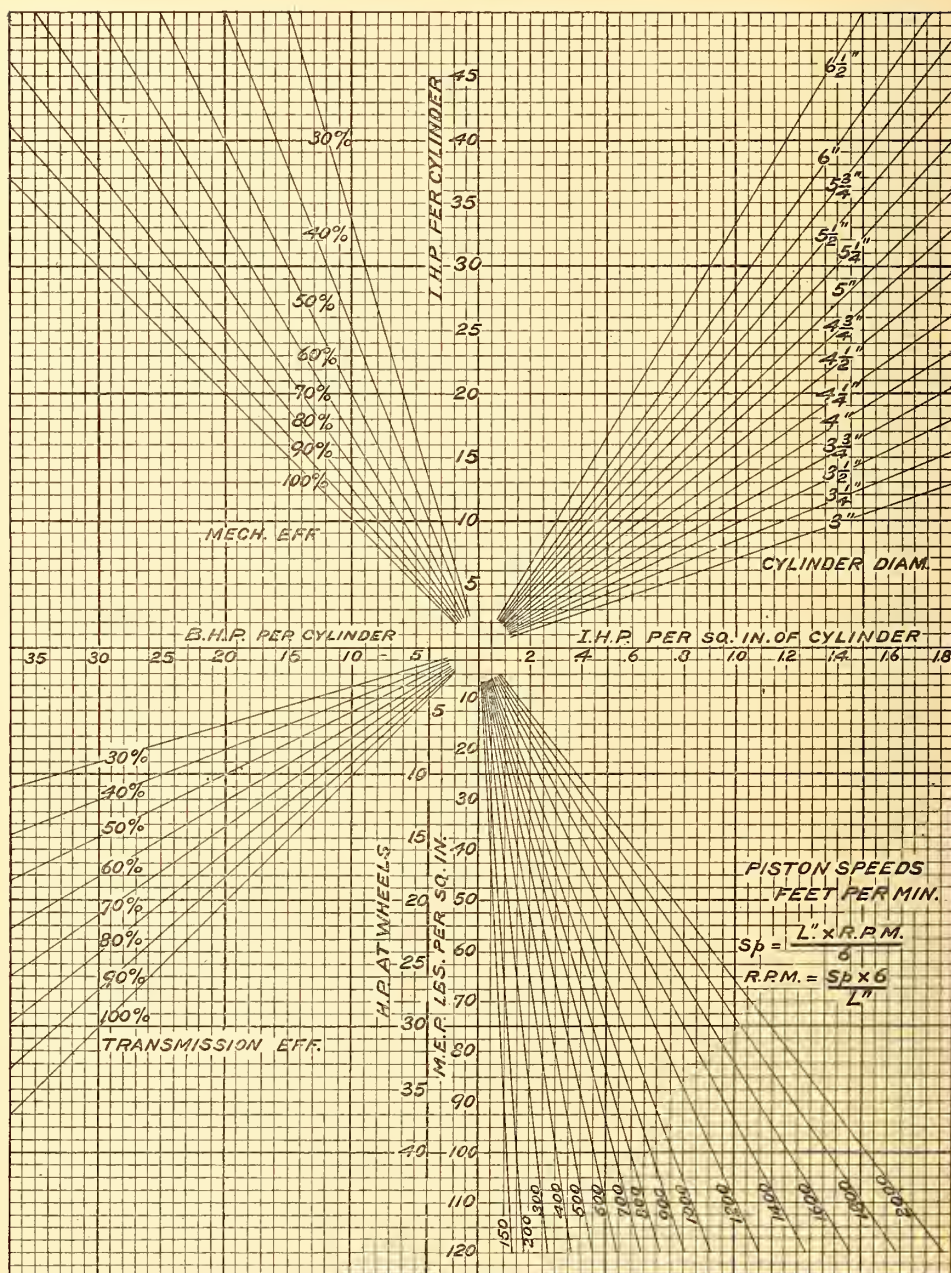

CHART A.

DATA CHARTS

BY P. S. T. AND C. T. S.

The three charts herewith, dealing with engine horse power, and with engine and car speeds, are presented with a view to facilitating the work of anyone who may have occasion to frequently determine closely approximate engine powers referred to cylinder sizes, cylinder dimensions referred to power, gear ratios, etc.

Taking chart A, engine power, it will

be noted that the chart as a whole is divided into four sections by vertical and horizontal co-ordinates, at whose intersection is found the center from which radiate the several sets of diagonals. This center point also serves as the zero point of the scales laid off on the co-ordinates.

In chart A, a scale of mean effective pressures (M.E.P.) in lbs. per sq. in. is found along the lower half of the ordinate. M.E.P. is that pressure which acts upon

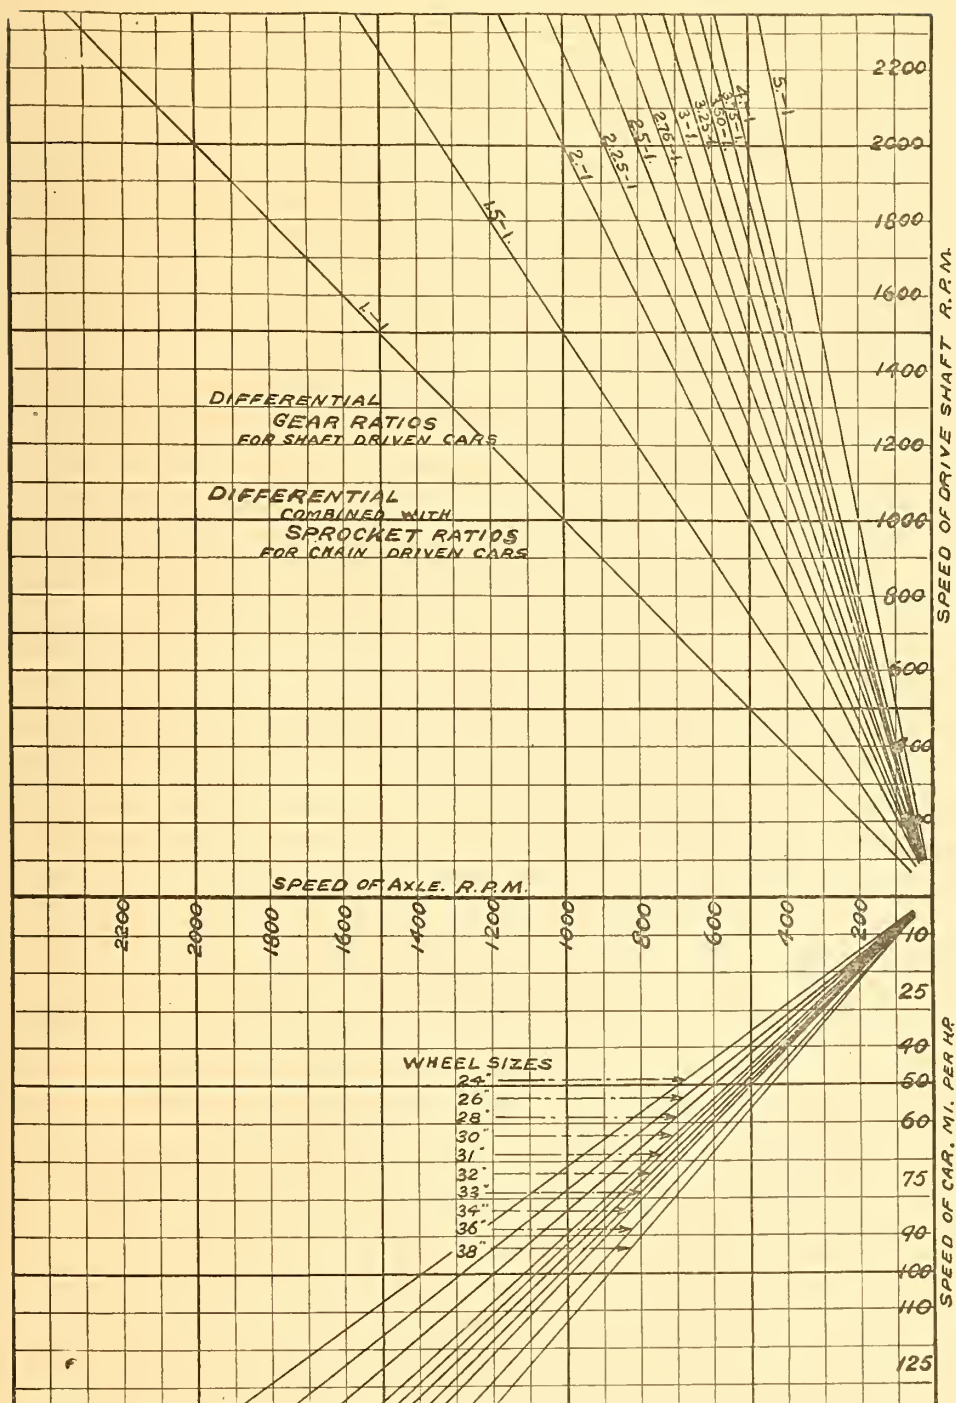

CHART C.

each sq. in. of piston area throughout the working stroke of the engine, and this quantity multiplied by the linear speed of the piston in ft. per min. gives the work done per working stroke in foot lbs. Dividing this latter quantity by 33,000 ft. lbs. (the equivalent of one horse power) reduces the ft. lbs. of work done to indicated

horse power (I.H.P.) per sq. in. of piston area. Knowing or assuming the M.E.P. for a given engine and conditions (M.E.P. is found in practice by dividing the area of the indicator card by its length) and having located this value on the scale of M.E.P., a horizontal line drawn to intersect the diagonal representing the piston speed

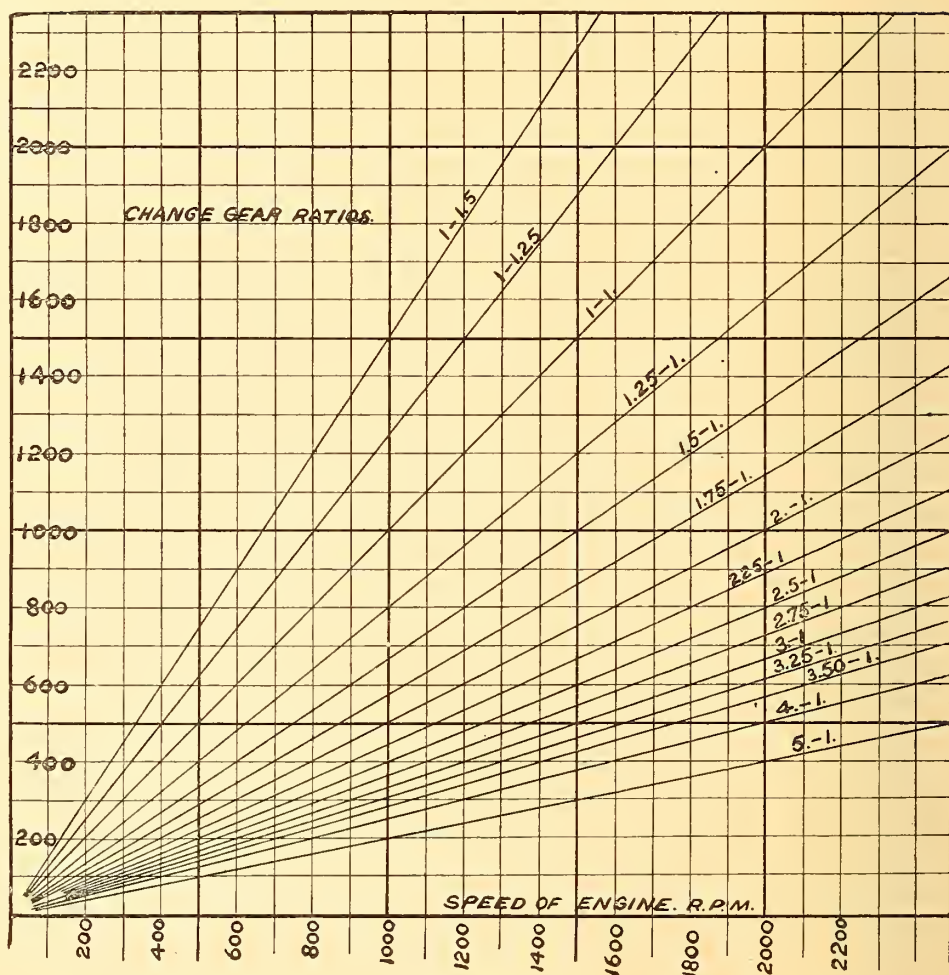

CHART D.

at which the engine is operating, and extended vertically from this intersection to the scale of I.H.P. per sq. in. of piston area, at once locates the latter value.

Producing this line until it meets the diagonal of cylinder diameter or bore, and following horizontally to the left from this intersection locates the I.H.P. per cylinder, for the given M.E.P. and piston speed. Continuing this horizontal to the left until it meets the proper diagonal of mechanical efficiency (M.Eff.) and from this point downward, locates the B.H.P. per cylinder. Passing similarly through the transmission efficiency, one arrives at B.H.P. per cylinder delivered at the car wheels.

Obviously, one may start at any scale on the chart and work around to any other scale, either reversing the above course and starting with B.H.P. at the wheels to find M.E.P. and piston speed; or, starting at this same point or at engine B.H.P. to find cylinder bore, piston speed and M.E.P., etc. In fact the various uses to which the chart may be put are almost infinite.

For use in two-cycle determinations, when working through M.E.P. and piston speed, the value of I.H.P. per sq. in. of cylinder area should upon arrival at that scale be doubled before proceeding vertically to the cylinder diameter diagonals. In coming from the other direction, from the cylinder bore diagonals to the I.H.P. per sq. in. scale, the value found on the scale for I.H.P. per sq. in. must be divided by two before proceeding to the piston speed diagonals.

The chart B is one of rotative speeds referred to gearing ratios, and is useful in determining how fast a car will run with a given engine speed, change gear reduction, driving gear reduction and wheel size; or, to reverse the above, how fast the engine must turn to propel the car at a given speed with given gearing ratios. Obviously, knowing the car speed and engine speed the gearing ratios can be determined at a glance. The several ways and directions in which this chart can be of service will readily suggest themselves to the reader.

Elementary Electricity Helpful to an Understanding of Automobile Ignition

E. S. FOLJAMBE

The subject of ignition is probably one of the most perplexing to automobile owners and unfortunately is usually one of the things the mechanism of which is modified or re-arranged by them more than any other part of the car. In order to intelligently deal with modern motor car ignition devices, a certain amount of elementary electrical knowledge must be had; for this purpose a very elementary treatise on the subject is herewith given with the hope that it may be of benefit.

No attempt will be made to go into the more complex theories but simply a brief explanation of the simpler forms of apparatus and simple definitions of some of the terms most commonly used will be given.

Analogies to Flow of Water.

Electrical currents are said to flow through conductors, these conductors being metallic wires, German silver, copper or aluminum, those used in connection with automobile work usually being of copper. The exact action is not known but it is generally conceded that a current does not pass through the body of the metal so much as that it follows the surface. To convey a clearer idea of the action of an electrical current we will use the time worn but applicable method of comparing the current with the flow of a liquid through a pipe. These analogies although not strictly true are close enough for our purpose. A liquid in a pipe is said to be under a certain pressure which causes motion in the liquid, this pressure being caused by difference in level of the source and outlet or by a pump. In the same way an electrical current has pressure or voltage caused by difference in what is known as potential* between the source and the outlet. So we have:

Volts† = unit of pressure, dependent upon difference of potential.

Lbs. per sq. in. = unit of pressure, dependent upon difference in level.

The amount of water passing a given point during a given time is known as the rate of flow in gallons per minute, etc. Similarly a current has a rate of flow which is measured by a unit known as an "ampere" which represents quantity just as in a water pipe. The quantity of water is dependent upon the pressure forcing the water through and upon the resistance of the pipe or conductor. In the same way the number of amperes depends upon the voltage (pressure) and upon the resistance to the passage of the current. So again we have:

Ampere = unit of rate of flow, dependent upon voltage and resistance.

Gallons per minute = unit of rate of flow, dependent upon pressure and frictional resistance.

The resistance to the flow of the current is measured by "Ohms" and is dependent on diameter, material length and temperature of the wire, etc., in exactly the same way that the flow of the water is resisted by friction, dependent upon the size, shape and length of the conducting pipe. Therefore we may say:

Ohm = unit of resistance, dependent upon diameter, material and length of wire.

Coefficient of friction = unit of frictional resistance dependent upon, diameter, shape and length of pipe.

SOURCES OF ELECTRICITY.

The two general methods employed for producing currents are by the conversion of mechanical energy or by chemical action. Wet cells, dry cells and storage batteries come under chemical and dynamos and magnetos under mechanical methods.

If two elements such as carbon and zinc or copper and zinc are immersed in a bath of an exciting fluid such as sulphuric acid and water and the elements connected by a conducting metal, a chemical action takes place resulting in the flow of a current from the carbon or copper element through this wire to the zinc. This device is called a wet or galvanic cell and several of them a battery.

A dry cell is practically the same except instead of using a liquid a sort of paste is employed. This consists of sal ammoniac (ammonium chloride) and water mixed with carbon dust, sawdust, black oxide of manganese, plaster of paris, etc., various combinations being used, and saturated with the exciting fluid, forming a semi-fluid mass, so the cell cannot be spilled. Carbon and zinc elements are usually used, the zinc forming the retaining cylindrical shell and the carbon in the form of a rod is placed in a vertical central position concentric with the shell. The chemical action dissolves the zinc and the result is a formation of free hydrogen gas which is liberated at the carbon element or pole and if not prevented the carbon becomes covered with bubbles of this gas or is "polarized" and stops the action. This the black oxide of manganese prevents by combining with the hydrogen. The top of the cell is sealed by means of tar, pitchy substances, or wax.

*Potential at any point is the work that must be spent upon a unit of positive electricity in bringing it up to that point from an infinite distance.

†Practical units and standards see page 546.

A storage cell does not generate but simply stores and consists of a few lead plates filled with a special paste, the plates being separated so they cannot touch each other. The cell is filled with electrolyte which is sulphuric acid and water, and when charged part of the material of the cell has undergone a chemical reaction, the reverse of this action taking place when the cell is again discharged (see care and charging of storage batteries). A number of such cells connected form a battery, and may be used to drive a car or for lighting purposes.

INDUCTION.

Experiment has shown that when a current is passed through a wire a certain change is produced in the surrounding medium causing what is known as a "magnetic field" and that by winding this same wire into a helix produces another change in the field. If now a bar of soft iron or preferably a bundle of soft iron wires are placed inside this helix this bundle of wires or core is converted into a magnet having a north and south pole and the field inside the coil is also intensified. Furthermore, if another coil of wire is wound around the outside of the first coil or helix but not touching it, it is found that a current is produced or "induced" in it each time the current in the inside or primary winding is broken. The outside coil of wire is known as a secondary winding. If the ends of this secondary winding are slightly separated at the time of the breaking of the primary current, it is found that the induced current will spill over so to speak, or in other words, make itself manifest at the opening as a spark. The finer the wire of this outside winding and the larger the number of turns the higher the voltage of the induced current and the better and larger the spark will be. Upon this principle is based the jump spark system of ignition. (See Ignition and Wiring Diagrams.)

THE DYNAMO AND MAGNETO.

In any "field" such as that produced around and inside a coil of wire through which a current flows or between the poles of any magnet either electrical or permanent, there are invisible lines of force. The lines of force in such a field arrange themselves in a definite shape around and between the poles and if they are cut in any way by moving a wire across them, a current is produced in the wire and this current depends largely upon the number of these lines of force which are cut per second. It makes no difference whether the wire is held stationary and the magnet and, its field moved, or whether the wire itself is moved and the field is stationary. The result is the same as far as producing the current is concerned. The utilization of this principle is the basis upon

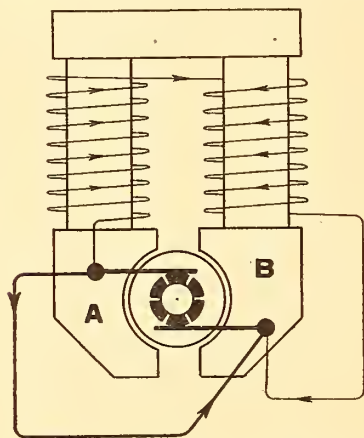

FIG. 1

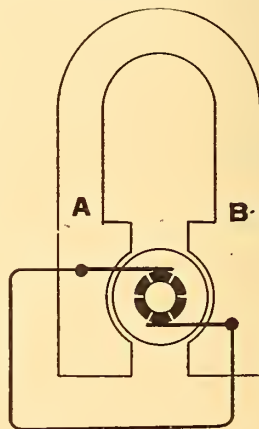

FIG. 2

which dynamos and magnetos or mechanical producers of current are made. In Fig. 1 is a diagrammatic view of a simple dynamo. The pieces A and B are electro magnets, or, in other words, are caused to be magnetos by means of a small current known as a "shunt" made to pass around each of them as shown. This shunt current is really a small part of the current developed by the machine itself. The ends of these two pieces are poles and between them is the magnetic field. In this field is rotated an axis or armature upon which wires are wound so that in rotating the wires or windings are continually cutting through the lines of force between the pole pieces and thus currents are generated in these wires. As the rotation of the armature causes in the small wires wound around it, currents which flow in opposite directions, these currents are then gathered so they will flow in one direction through the outside circuit where the current is used for work, the gathering being done by brushes which rub on the end of the armature on a piece known as the commutator. This commutator consists of small segments of copper to which the ends of the various wires of the armature winding are connected and the brushes are so arranged that they touch the copper pieces

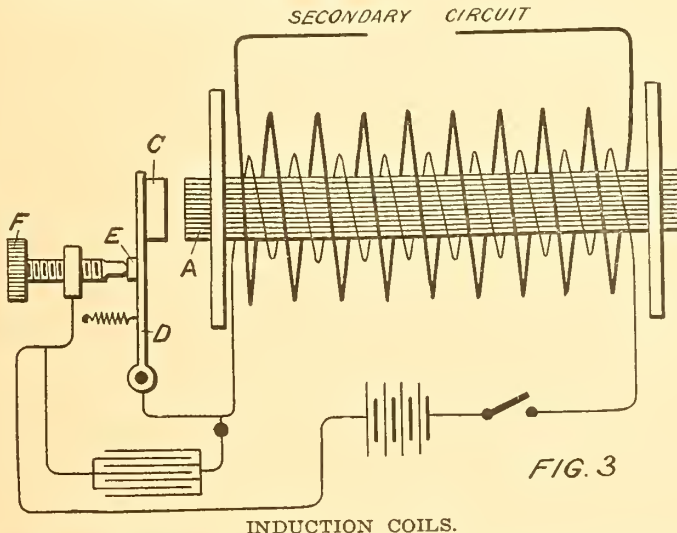

connected with the proper wires so that a direct current will flow through the outside circuit.

In Fig. 2 is a sketch of a magneto. Again A and B are magnets but in this case permanent magnets so that no shunt current is required this being the chief distinction between a magneto and dynamo, the magneto having permanent magnets while the dynamo has electro magnets. An electrical field exists between the poles or ends of the permanent steel magnets. A revolving armature with its conducting wires wound upon it as before, cuts the lines of force of this field producing currents of different direction, but again due to the commutator a direct current is obtained.

The strength of the current generated is dependent upon the size of the wire, the strength of the magnetic field and the number of turns of wire and the speed with which the armature is rotated, or, in other words, the number of lines of force which will be cut per second. The greater the number, the greater the current strength. For this reason the shunt current in the dynamo increases rapidly as the speed of the machine increases thereby increasing the magnetism of the electro magnets and consequently their field, so that the strength of current will increase more rapidly in this type of instrument with the speed at which it is run, than it will on a magneto, in which the strength of the magnets is a constant quantity. To overcome this difficulty with the dynamo, of too rapid an increase in current strength, a governor is often supplied which in various ways is arranged to prevent the instrument from being rotated too rapidly. This is particularly necessary on dynamos used for automobile ignition as they must be run fast enough even at low engine speeds to give a good sparking current and yet not burn out when the engine is speeded up. As to source of current, either one of these instruments can be used exactly as though it were a storage or dry battery.

Magnetos may be divided into two general classes, low and high tension. The low tension magneto consists of the usual permanent magnets and an armature with a primary winding only the current is broken at the instant of its maximum intensity. Still other low tension magnetos are fitted with a timing device and the current can be broken when desired within a certain range giving a means of advancing or retarding the time of ignition.

The high tension magneto has an armature provided similarly to a coil with both a primary and secondary winding. The secondary winding is wound on the outside of the primary but insulated from it and consists of many turns of fine wire. These instruments are fitted with either a mechanical or magnetic breaker which produces an inductive effect in the secondary winding. No external coil is of course necessary. Splitdorf, Simms-Bosch and Giamoli magnetos are modelled on this principle. Another high tension system consists in using what is practically a low tension magneto the current of which is passed through an induction coil fitted with a mechanical breaker. The Holley and the Eisemann employ this system.

The fact has been previously mentioned that when two coils are wound one around the other and the circuit made or broken in the inner or primary coil, an induced current is created in the outer or secondary winding, the voltage and the amperage depending upon the relative number of turns of wires and their size. The use of a soft iron core in the center, concentrates the magnetic field inside of the primary winding.

Now, as the spark is forced to jump the opening or gap in this secondary winding only when the circuit of the primary winding is broken; in order to get a rapid series of sparks it is necessary to rapidly make and break the primary circuit. This has led to the use of what is known as a vibrator. Diagram Fig. 3 gives an idea of this device. As the core of soft iron wires "A" is simply a magnet during the time that current is flowing through the primary winding around it; if this current is alternately made and broken the core also becomes magnetized or loses its magnetism, etc. This intermittent magnetizing of the core is used to operate the small piece C at the end of the spring D in such a way that when the spring in its normal position is touching point E the position of which is adjustable by means of a screw F, the current from the battery G flows through the wire as shown by the arrows, thus magnetizing the core, but the instant the core becomes a magnet the piece C at the end of the vibrator is drawn over against its end and separates the spring D from the point E thus breaking the primary circuit, causing the core to lose its magnetism and therefore piece C under the action of its spring flies back again against E, again making the circuit which causes C to be drawn over again to the core thus breaking it. This action continues with great rapidity as long as current is supplied to the primary winding. In automobile ignition, current is only supplied to this winding at the time when a spark is required in the cylinder of the engine. The making or closing the primary current at a suitable time is taken care of by what is known as the "timer" which is simply a rotating piece connected with the source of current and which rubs or rolls into contact with suitable metallic pieces imbedded in insulating material and to which are attached wires running to the primary windings of the coils. The timer is rotated synchronously with the engine and driven by it. During the instant that the timer allows the current to flow, the vibrator, as before explained, rapidly makes and breaks the circuit thus causing instead of a single spark, a series of sparks to jump the gap of the secondary winding. Without the vibrator simply one spark would be obtained at the breaking of the circuit by the timer but many prefer the more complicated vibrating coil as it is supposed that this rapid series of sparks is more apt to cause ignition of the charge. Lately, more and more devices have been placed on the market which give but a single spark, which of course are more economical of current than those in which a longer contact is made in the primary circuit.

How to Adjust a Vibrating Coil.

Good coils, when properly adjusted, consume about $\frac{1}{4}$ to $\frac{1}{2}$ ampere for each engine cylinder. By screwing down the points too close the current consumption may be greatly increased to the detriment of the mileage and without any advantage. Therefore, it is advisable to see that the coil is adjusted so as to take no more current than is necessary. To do this connect an ammeter in the place usually left for a connection on a coil, or insert the ammeter in the battery connection, so that the current flows from the battery through the ammeter to the coil. Place a piece of paper under all but one of the vibrator points with the engine running. Adjust this point until the current taken by its cylinder is a minimum, without, however, any tendency to miss explosions. If the engine will not run with only one cylinder working, the current taken by each contact point may be determined by blocking this one point off with a piece of paper and noting the change in the current that this causes. Adjust the point and try this again, until you get the lowest current consumption on which the engine will run properly.

The proper voltage for a battery in most cases is 6 volts. If you have been using dry cells a six-volt battery is to be used in place of 6 dry cells, and an eight (8) volt battery in place of 8 cells, etc.

THE CONDENSER.

In every coil there is what is known as a condenser, the action of which greatly intensifies the secondary spark. This device consists of sheets of tin-foil placed one on top of the other but separated by parafined paper or other insulating material. The edges of every alternate sheet are in electrical contact so that the condenser sheets are like the tines of two forks with their handles placed away from each other and their prongs interspaced but not touching each other. The condenser is connected across any interrupting device such as a vibrator, one wire joining the circuit at one side of it and the other at the other side but this does not short circuit the breaker or vibrator as the two sets of tin-foil are not in contact.

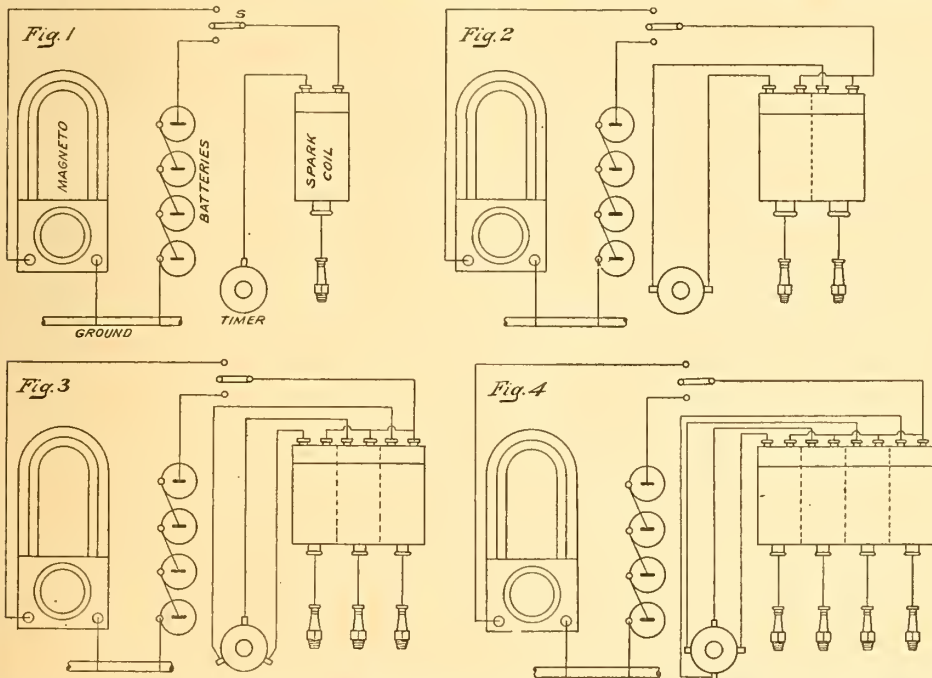

The action is something as follows. When any primary circuit is broken there is a decided tendency to set up a spark at the break which in the make and break system is intensified and used but in the jump spark high tension system this tendency to spark in the primary reduces the efficiency of the spark generated in the secondary winding. A peculiar action of the condenser, is that temporarily, it absorbs so to speak the wave or impulse in the primary which causes this spark so that the spark is greatly reduced or completely eliminated. However, there is instantly a reverse action and the stored

up energy in the condenser with extreme rapidity flows back and adds its quota to produce a larger spark in the secondary.

The actual construction of the parts of the coil will not be here dealt with. Suffice it to say that the iron core is usually mounted in two pieces of insulating material and covered with an insulating sleeve around which a primary coil of wire is wound. Around the outside of this is another insulating sleeve of parafine paper, mica, fibre tube, etc., on the outside of which a secondary winding of very fine wire is placed. The only adjustable part is the screw F which limits the action of the vibrator. This can be turned up or down until the spark at X or at the plugs is best. As the amount of current used by the coil largely depends upon this setting, the vibrators should not be tampered with unless it is known that the setting is incorrect. Dry batteries are often very rapidly run down and exhausted due to an incorrect and wasteful setting of the vibrators. When properly adjusted an ammeter in circuit should never show over $\frac{1}{2}$ ampere.

Wiring with Diagrams.

With this brief and elementary description of the devices used, we will now take up the subject of wiring. It will be noticed that the primary circuit may have as a source, batteries, dynamo or magneto, or both if desired; that in the primary circuit there must be a timer or automatic device for opening and closing the circuit at the correct time, also as the engine might stop in a position which would leave the current flowing there should be a hand or foot switch. Thus we have in the primary circuit a

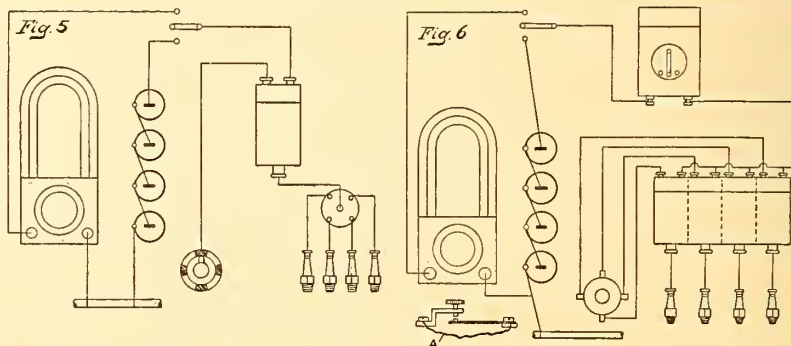

source of supply, a switch, a timer, and the primary winding of the coil. The secondary circuit consists simply of the secondary winding of the coil the gap in this secondary circuit being inside of the engine. This gap usually takes the form of a spark plug which is screwed into the engine making a metallic contact with it. One end of the secondary wire is connected to the plug at the end of a central piece called an electrode which is entirely insulated from the rest of the plug and therefore from the engine. The other end of the secondary wire is always in one manner or another grounded or connected with the engine so that the space between the central electrode of the spark plug and the edge of the plug, which is virtually a part of the engine as it is in metallic contact with it, form a gap across which the secondary spark jumps. In general, the secondary wires are distinguishable by having a very heavy, large insulation which is necessary as this secondary current is of high voltage which as we have learned causes it to readily short circuit. The primary winding on the other hand, carries current of greater amperage but much less voltage and does not give the same trouble as the secondary; or, in other words, there is not the same tendency for the current to short circuit or get back to the source by some shorter, easier route than that of following the wire; therefore, smaller insulation is sufficient.

It must be remembered that both the primary and secondary wires each form a complete circuit, the primary as shown going from the battery through the switch, the

coil, the timer and back to the battery through a ground wire on the engine or frame of the machine. This ground in the case of a magneto is sometimes made by the base of the instrument itself through its fastening to the engine. In the same way a complete circuit of the secondary wire is formed by one end going to the spark plug and the other end being grounded. However, very few coils have a visible secondary ground wire dispensing with this extra wire by a connection inside the coil to the ground wire of the primary circuit there being but one secondary wire visible from each coil to a plug. It is customary to connect the negative or zinc terminal of the source of supply to the ground while the positive wire is carried to the switch, coil, timer, and as the timer is on the engine itself, back through the engine, through the ground wire to the battery. In Fig. 1 is shown a diagram for the wiring of a single cylinder motor for jump spark. B is the battery, M the magneto or dynamo, S the switch, C the coil, T the timer and P the plug in the cylinder. G is the ground wire well connected to any part of the engine or frame, preferably, however, on the engine at a point where the current will have as few lubricated joints to pass as possible. The high tension or secondary wire the other end of which is not shown is grounded through the primary by a connection on the inside of the coil box. The switch may have one, two or three throws; that is, the movable part may be so arranged that it will connect with any one of three buttons or so when placed between two buttons it will touch each connecting up two sources of supply at the same time. In another position the movable arm does not touch any of the buttons, which of course is an off position, no current flowing.

TIMERS.

The timer (or sometimes called commutator, which term, however, should be reserved for designating the device at the end of an armature) usually consists of a rotary part carrying a metallic contact which at suitable positions rubs the electrical contacts of the stationary part thereby causing a current to flow in the primary circuit. Sometimes, especially for single cylinder engines, the timer consists of a cam which at the proper time pushes a spring so that it momentarily makes contact with a stationary point, thus allowing the current to flow. This device is mounted on the cam shaft or half-time shaft or on any part of the mechanism which is rotated at half the speed of the engine shaft, thus giving a contact once in every two complete revolutions of the engine or one contact for every four strokes of the piston as required for four-cycle engines. In the two stroke cycle or two-cycle engine, the timer can be placed directly on the engine shaft as it then gives one contact for each revolution or every

two strokes. On two-cylinder engines of the four-cycle type, two contacts diametrically opposite are placed. For three-cylinder engines, three contacts equally spaced or 120 deg. apart are used and on four-cylinder engines, the timer has four contacts at exactly equal spaces around the circumference and so on for any number of cylinders. Referring again to wiring diagram Fig. 1, when switch S is closed, the current flows from the battery through primary windings to the coil; from the timer when the contact is made, through the engine and back through the ground wire to the battery, completing the primary circuit. As soon as the primary circuit is closed by the timer, the vibrator begins to operate on the coil and induced currents of high voltage are produced in the secondary winding. This secondary current passes from the coil to the plug central electro, jumps to the edge of the plug which is the same as the engine, causing the spark and passes back through the engine by means of the ground wire to the coil thus completing the secondary circuit. It is practically a matter of indifference which way the current flows except that at the time of breaking the circuit the spark jumps from the positive to the negative, pitting the positive surface due to the carrying away of small particles of the metal. For this reason the current is usually directed in such a way that the part of the timer most easily renewed will be the part pitted, this being in general the movable contact. Some recommend the reversal of the direction of the

current every few days so that the pitting will not be all on one side, and switches are now made which will permit of the reversal or changing of the polarity.

Fig. 2 shows the wiring of a two-cylinder engine the arrangements being exactly the same, except the wire which runs to the coil is branched, going into each of the coils or, as is often done, the wire simply runs to a main terminal of the coil and by an internal connection is carried over to the second coil. The timer in this case of course has two contacts. From the ends of the secondary windings, wires are carried to each of the plugs, the other ends of these windings being internally connected and grounded as previously mentioned. Diagrams for three and also for a four-cylinder engine are shown. The general principle being exactly the same regardless of the number of cylinders. Simply additional coils with their secondary windings connected to the plugs are used. In Fig. 5 is shown the diagram of the wiring for a four-cylinder engine but using a single coil. This is accomplished by means of a device known as a distributor which, as its name implies, is used to distribute to the four spark plugs the secondary current from the single coil and for this reason it is placed between the coil and the plugs. The secondary wire, which would ordinarily in a single cylinder engine be connected from the coil to the plug, is in this case connected to the distributor main terminal, while from the four terminals wires are run to the separate plugs. This distributor simply consists of an insulated stationary ring in which are imbedded 4, 6 or 8, according to the number of cylinders in the engine, metal pieces with wires connecting them to the plugs. The secondary wire from the coil carries current to an arm at the center which is rotated so that it comes opposite each of these metallic pieces just as the timer makes its contact and the secondary current is generated which allows it to jump to the nearest contact, across the very small gap. So, instead of having four coils, one coil is worked four times as much, the distributor passing the current to the proper plug. The other parts of the circuit remain just as before.

CHANGING THE TIME OF THE SPARK.

As the exact time at which the spark takes place in the engine is important, the timer is so arranged that it can be rotated slightly by a small lever on the steering column or above the steering wheel, thus causing contacts to be made earlier or later in reference to the piston position in the cylinders.

In Fig. 6 is shown a method of wiring when a master vibrator is used. This device allows a single vibrator for any number of cylinders and by its use the difficulty of setting four or six vibrators exactly alike is obviated. It can be mounted in any convenient place on the dash or on the regular coil box. The timer wires and the secondary wires to the spark plugs are not in any way altered but a wire is carried from the battery to the master vibrator at the terminal B and from the central terminal C the vibrator is

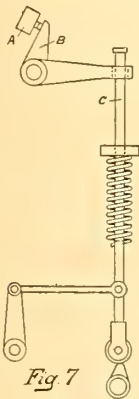

Fig. 7

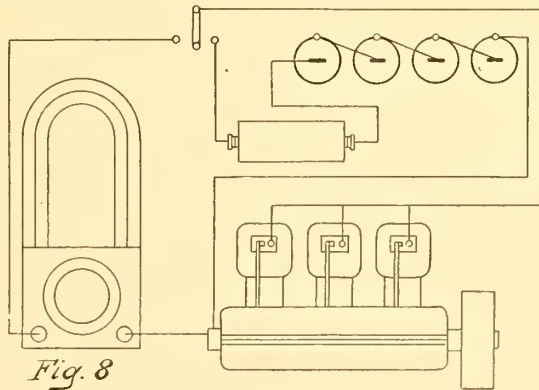

Fig. 8

connected to battery terminal of the coil. The magneto, or other source of ignition, if any, is connected to the other master vibrator terminal. When a master vibrator is used it takes precedence over the vibrators of the coil and the coil vibrator can be short circuited or shunted, as shown by A in the diagram, which completely cuts them out of use.

THE MAKE AND BREAK SYSTEM.

Another general system for producing an electric spark for igniting the charge in the gasoline engine is known as the make and break system which uses low tension current only and a mechanical make and break device. This system is sometimes preferred as it does away with all the short circuiting difficulties.

Any source of low tension current can be used the current being passed through what is known as a reactance coil, which has no secondary windings but to a certain degree steps up the voltage. It is, however, not in any sense an induction coil. A magneto with a commutator is usually used. This reactance coil has a single winding low resistance copper wire and an iron core. The length of the core and the number of turns of the insulated winding determines the efficiency. The current passing through the insulated winding magnetizes the iron core, the field of which helps to produce a self-induced current which is superposed on the battery current. When the break in the circuit takes place, the magnetic reactance helps the flow of the current and causes a very hot, reddish yellow spark at the breaking points, the color of the spark depending somewhat on the material of the points. Too long a coil and core cannot be used for high speed work as too great a magnetic lag is set up.

In Fig. 7 a typical primary or make and break apparatus is shown in which the contact points are suddenly separated there being another method employed by which one contact rotates and wipes against the other forming what is called a wipe-spark but other than this the principle is the same. A plug is inserted in the cylinder and carries the stationary member A or "anvil" and the removable rocker arm B known as the "hammer." The actual points which come in contact are usually made of some alloy such as platinum or platinum iridium which will resist being burned away. The external rod C is lifted by an ordinary cam on a cam shaft of the engine against the action of a coiled spring. This rod in its upward movement engages the outer end of the bell crank B the inner end of which is the hammer bringing the points in contact inside of the cylinder, but just the instant after contact has been made the rod C drops off this cam with a quick action due to the heavy spring which has been compressed, rapidly separating the points inside the cylinder thus breaking the circuit and producing a spark. Various methods are used for changing the time of the ignition, such as using a helical cam on the shaft which can be slid lengthwise in its bearings thus changing the time at which the rod C is lifted and dropped or by slightly swinging the lower end of the rod C to one side so at the other it will be engaged earlier or later by the cam changing the spark time.

MAKE AND BREAK WIRING DIAGRAM.

In Fig. 8 is shown the diagram for wiring a 3-cylinder engine, and in exactly the same manner a 1, 2, 4, or 6-cylinder engine can be wired. With what has gone before this diagram should be self-explanatory.

PRACTICAL ELECTRICAL UNITS AND STANDARDS

In practical work the resistance and electromotive forces commonly met with are usually so large and capacities so small that to obviate the use of too large numbers or small fractions the following practical units are used:

Resistance.—The ohm = 10^9 (or 1,000,000,000) absolute units of resistance. The International Ohm, which is equal to one true ohm as nearly as known, is the resistance of a uniform column of mercury 106.3 centimetres long and 14.4521 grammes in mass, at the temperature of melting ice. The megohm is a resistance of one million ohms.

Current.—The ampere = 10^{-1} (or one-tenth) absolute units. This unit is practically represented by the unvarying current which, when passed through a solution of silver nitrate in water, deposits silver at the rate of .001118 gramme per second.

Electromotive Force.—The volt = 10^8 (or 100,000,000) absolute units, and is that E. M. F. which applied to one ohm will produce in it a current of one ampere. The volt is equal to 1000-1434 of the E. M. F. of a Clark standard cell at 15 deg. C.

Quantity.—The coulomb = 10^{-1} (or one-tenth) absolute units of quantity; being the quantity of electricity conveyed by one ampere in one second. The ampere-hour is the quantity of electricity conveyed by one ampere in one hour.

Capacity.—The farad = 10^{-9} (or one one-thousand-millionth) absolute unit of capacity; and is the capacity of a condenser which is charged to a potential of one volt by one coulomb of electricity. The microfarad is one millionth of a farad, and = 10^{-12} absolute units.

Work.—The joule = 10^7 absolute units of work (or 10,000,000 ergs) and is represented by the energy expended in one second by one ampere passing through a resistance of one ohm. The watt-hour is the energy expended in one hour when the activity, or power, is one watt. The watt-hour is equal to 3,600 joules. The kilowatt-hour is the energy expended in one hour when the activity is one kilowatt. The kilowatt-hour equals 3,600,000 joules.

Power.—The watt = 10^7 absolute units of power (or 10,000,000 ergs per second), and is the power of a current of one ampere flowing under a pressure of one volt. This unit of power is equal to one joule per second, and is approximately 1-746 of one horse power, or one horse power is equal to 746 watts. The kilowatt is equal to one thousand watts.

THE CARE AND MAINTENANCE OF STORAGE BATTERIES

General Remarks.

Storage batteries embody several separate cells conveniently combined in one packing case. Each cell or single battery consists of a group of positive plates inter-leaved between a group of negative plates. The plates are spaced apart by insulating separators. The elements so made are immersed in electrolyte (pure sulphuric acid diluted with pure water).

In a charged state the active material on the positive plates is lead peroxide or oxidized lead. The material on the negative plates is porous lead sponge free from oxygen. When the battery discharges, or does work some of the sulphuric acid in the electrolyte chemically unites with the material on the positive plates and negative plates. At the same time that this acid is abstracted, water is formed so that as the discharge continues the strength of the electrolyte grows less, which is shown by the density, measured by hydrometer.

Discharge Reaction.

After the battery has done its work, charging the battery breaks up the compound formed on each plate, and absorbing water from the electrolyte and restoring sulphuric acid to it ultimately leaves nothing but lead peroxide on the positive and sponge lead on the negative. Nothing whatever is used up except current.

Reaction at the Plates.

The water in the electrolyte may have evaporated; the sulphuric acid never does. Unless the electrolyte is spilled or comes out as spray it is never necessary to add any sulphuric acid. The quantity originally in the cell does not need to be replenished; it is not used up. On the other hand, as the water contained in the electrolyte evaporates, it is necessary to replenish with distilled water occasionally, so as to keep up the level of the liquid. Any impurities that the water contains are left behind in the cells by the evaporation of the water. Impurities will become concentrated in the cell unless the water used is chemically pure, distilled water. If this is unobtainable, use a good drinking water, free from iron, salt or chlorine.

Capacity of a Battery.

The capacity of a battery is measured in ampere hours. The volume of current flow is measured in amperes. A current of one ampere flowing for one hour is the unit by which capacity is measured, and is called ampere hour. A fifty (50) ampere hour battery is rated to give one ampere for 50 hours. A sixty (60) ampere hour battery is rated to give one ampere for 60 hours, and a one hundred (100) ampere hour battery is rated to give one ampere for 100 hours.

How to Get the Greatest Mileage.

The mileage obtainable from a battery depends upon the amount of current consumed by the coil and the capacity or quantity of electricity in the battery; lowering the consumption and increasing the capacity of the battery increases the mileage capacity. The capacity of a battery is independent of its electrical pressure. A 3-cell battery gives six volts, no matter what the size of the cell, but the length of time it will maintain a certain current out of it depends on the capacity or electrical size of a battery.

Size of Battery.

A one-hundred (100) ampere hour battery will, with one charge, run a car nearly twice as far as a 60 ampere hour battery. The saving in fees for charging is correspondingly reduced. Therefore, unless the battery box is too small, the use of this size battery is recommended as being the best size and yet not too large for convenience or too heavy to handle. Nothing smaller than a fifty (50) ampere hour should be used when only one battery is carried on a car. A very convenient arrangement is to use two batteries, one of which is held in reserve, while the other is running the car. Two 60 ampere hour batteries or one hundred for running and one fifty for reserve, are a good combination. By having two batteries the motorist is assured of ignition current at all times. One battery may be left to be charged while the other is used for running without any inconvenience.

For use in conjunction with a magneto, the fifty (50) hour and 60 ampere hour are convenient adjuncts, always ready in emergency in case the magneto is out of order. By using a battery in conjunction with a magneto, a car may be started from the seat without cranking.

STORAGE BATTERIES*

IMPORTANCE OF CLEANLINESS.

The first necessity is cleanliness. There is nothing that more easily provides a short circuit and causes a leakage of the current than accumulation of dust and many other kindred types of matter. When such are permitted to remain on the top of the cells they become saturated with the moisture which inadvertently sprays from the cell or cells while charging, and thus form an excellent bypass from positive to negative terminals, and in a very short time entirely empty the battery.

Again, this moisture is permitted to attack the terminals of the battery, and these being generally made of brass or similar metal are easily attacked and corroded so that they are immovable and sometimes entirely enveloped by a heavy coating of blue crystals of sulphate of copper. This salt is readily soluble in water and acids, and if allowed to get into the electrolyte of the battery is fatal to the life of the same. Yet how often is this salt washed off with water, or removed by other methods, and allowed to fall into the cells? It is well to keep the terminals coated with vaseline or thick grease and so prevent corrosion. While the growth of the sulphate does commence to form at once when the electrolyte comes in contact with the terminals, its screws or nuts, it does not grow, or accumulate, in one day, or even in several days, to an alarming extent, but usually takes weeks to develop. Just a few minutes, once a week, will suffice to clean up a battery, and so comply with the first and most necessary rule.

Always keep the plates covered with their electrolyte, or acid, because if they are exposed or out of the liquid a sulphation occurs of such a nature as to damage the plates irreparably, besides which that exposed surface is inactive and useless.

Never add sulphuric acid to the cells to compensate loss, unless such loss has been caused by a spilling of the acid, and then first ascertain the specific gravity of the acid remaining in the cells and make up with diluted acid of the corresponding specific gravity till the plates are again covered. In all cases of adding to, or compensating evaporation losses (except as above stated) nothing should be used but pure, distilled water, and absolutely pure and clean acid. A healthy battery used continuously should not require any addition of acid more than once a year, but will probably require pure water at least once a week, if not more often.

HYDROMETER TESTS.

Provide yourself with a hydrometer to enable you to test your electrolyte and acids periodically, and you will avoid a great deal of trouble.

It may be said that the condition of the specific gravity is the pulse of the cell, and certainly it is the one means of ascertaining the condition of health of the cell or battery.

Let us suppose that the specific gravity of the electrolyte as given by the maker of the battery is to be maintained at 1.250 degrees, at a temperature of sixty degrees Fahrenheit, when fully charged and cell in thorough working condition. They apply the following:

At the end of the complete discharge the specific gravity will read somewhere about 1.150 degrees. If only half discharged, then about 1.200 degrees. If only one-quarter, 1.225 degrees, or three-quarters, 1.175 degrees, so that one may arrange a scale whereby the amount of charge used, or that remaining in the cells, may be estimated.

STORAGE BATTERY SHORT CIRCUITS.

On recharging, the specific gravity will rise from its reading of 1.150, or whatever it may be, to that of 1.250 again, thereby indicating the cell has received its full charge. In cases where the specific gravity will not show any rise during or at the end of its charge, it indicates a short circuit, and the cell has not received its charge.

In cases where the specific gravity comes up to 1.250 at the end of its charge, but falls to a lower figure during a period of idleness or standing for say twenty-four to forty-eight hours, this also indicates a short circuit, or else local action (or internal discharge), due to contamination of the electrolyte by some impurity. Thus, we see that the hydrometer is really an essential equipment for all owners of batteries, and its small cost will well repay for itself.

Never, on any account, discharge your battery below 1.8 volts per cell, because it develops a condition of chemical natures that is not easily remedied. To ascertain this it is necessary to have a small pocket voltmeter reading from say 0-3 volts. These are also very inexpensive and will, if used, greatly prolong the life of your battery by helping you to know when the battery has fulfilled its functions. It is the greatest defect that a battery has, that it cannot give warning, groan, or in some way protest against being over-worked, like most other appliances, but it is so meek, modest and humble that it continues to do its best for its owner until it utterly collapses with fatigue, and like the old proverb, it usually becomes a good horse worked to death.

*From a report of the Technical Committee of the Long Island Automobile Club.

VOLTAGE TESTS.

The normal voltage of the storage battery is 2.0 per cell when doing no work, which is, if the electrolyte be 1.250 gravity, usually raised to about 2.10 volts. The storage battery, unless worked below 1.80 volts has a recuperative power of raising from 1.80 volt to the normal 2.0 to 2.10 volts within a few minutes after the discharge current has been discontinued. This act has often led many users astray as to their opinion of the condition of their cells. For instance, suppose one to be out with his car, and the spark is not sufficiently strong to give satisfactory ignition of the gases; he stops to locate the defect. Usually the first thought is, are the batteries right? The voltmeter is taken and put to the cells and because they read 2.0 to 2.10 they are deemed all good. Whereas, if the reading had been taken with a small current passing, the voltmeter would probably have read 1.5 volt, or perhaps less per cell. In this way it often occurs that much time has been lost in going over the car looking for the defect while all the time it has been the batteries which have innocently showed 2.0 volts because they were standing idle. Unless a current is passing, say one-half to one ampere, the voltmeter reading is useless.

WARNINGS.

Never adopt the method of putting a wire across the positive and negative terminals to see if there is any "spark." It is almost a dead short circuit, and if the cell be of a small capacity of say thirty ampere hour, and the wire No. 16 copper, the current may be anything from thirty to one hundred amperes for a fraction of time, which when calculated is a very appreciable amount of the total capacity, if only for a second of time duration. It is also very detrimental to the cell in assisting the disintegration of the plates or active material thereon.

Never allow the cells to stand in a discharged condition, as it becomes very difficult to get them properly charged if left standing any length of time, unless great care is taken during the succeeding charge.

Do not forget that the discharge current is capable of adjustment by the vibrator of the sparking coil. The current rate of the discharge should be about one-half an ampere, but a badly adjusted coil may take as much as three or even more amperes, thus eating up the energy of the cells, in ampere hours, in one-sixth of the time. Thus a thirty ampere hour cell discharging at one-half an ampere will last sixty hours, but discharging at three amperes will only last about eight or nine hours.

Although, as before stated, the storage battery is a more or less delicate apparatus, yet if only one-tenth of the attention given to the mechanical parts of the car be bestowed on the battery, it will be found to be a wonderfully robust and reliable apparatus. But if neglected entirely and left to attend to itself, or do the best it can for itself, it will be found to arrive very soon at a condition of disease generated by a congestion of small ailments that defy even expert remedies.

Always adhere strictly to the maker's instructions which will apply to his type of cells.

CHARGING STORAGE BATTERIES.

The storage battery should never be allowed to stand for any length of time uncharged. Remove the vent cap occasionally and make sure the electrolyte or solution comes at least $\frac{1}{4}$ in. above the tops of the plates. If lower, distilled water should be added in sufficient amount. The electrolyte should show a hydrometer test of 1.275 or 1.250 when the battery is fully charged and 1.150 when the battery is discharged. Before putting new solution into the battery charge it at the usual rate or not exceeding five amperes per hour until it gases freely. Then empty out the old electrolyte and add the new solution until it reaches the proper height.

Electrolyte can be made by adding chemically pure sulphuric acid to distilled water (pour the acid into the water) using 6 oz. of acid to $8\frac{1}{2}$ oz. of water by weight. The battery should never be allowed to fully run down as it is detrimental.

POINTS TO BE OBSERVED IN CHARGING.

Connect the positive terminal of the charging line to the positive terminal of the battery which is marked and the negative to the negative terminal. In lieu of any other device the positive wire of the charging line may be found by holding the bare ends of the charging wires about 1 inch apart in a glass of water to which a small amount of salt or a little sulphuric acid has been added. Do not allow the wires to touch. The wire at which the greatest number of bubbles arise is the negative one.

One 32 c.p. 110 volt lamp lets through 1 ampere of current.

Six 32 c.p. 110 volt lamps will let through 6 amperes of current.

A 100 candle power lamp on a 110 volt circuit will allow about three amperes of current to flow.

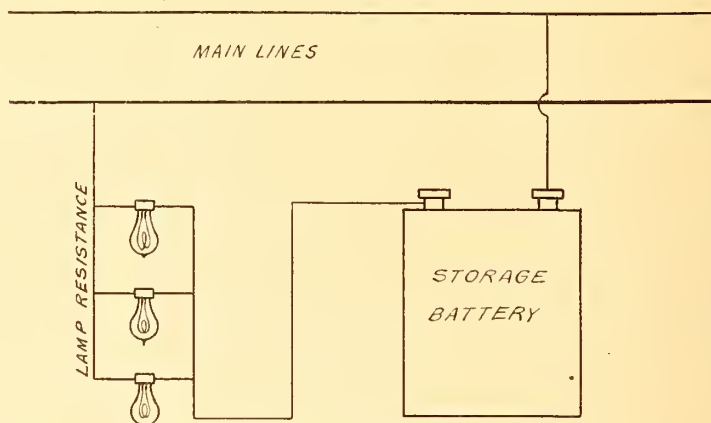

Diagram showing connections for charging battery from generator mains.

When the battery is being charged as it approaches full charge it will begin to gas freely. The charging should usually be continued one hour after this. When fully charged with the current still on the voltage from the cell will be about $2\frac{1}{2}$. Voltage readings should always be taken when charging or discharging. After use the cell should be recharged when the voltage drops as low as 1.8-10. However, there are objections to using instruments on a storage battery; in fact, there is no real way of telling exactly how much is in a storage battery as it retains its voltage practically the same almost until the end of the discharge and then drops off rapidly. If allowed to stand for a while after being completely discharged it will often recuperate enough to show a good voltage although there is practically no current back of it. The ammeter produces a dead short circuit and shows what the battery will deliver on a short circuit but it is injurious and the ammeter should be used sparingly. The specific gravity test is the only safe way.

CHARGING STORAGE BATTERIES WITH A RHEOSTAT

When charging storage batteries, the voltage of the battery at the beginning of the charge is much lower than the voltage of the line which supplies the charging current. The number of amperes which will flow through the battery will be equal to the net effective volts divided by the sum of internal resistance of the batteries and the resistance of the rheostat. The net effective volts being the difference between the line volts and the battery volts.

The internal resistance of modern batteries is very low, so that if the only resistance in the circuit were the resistance of the batteries, a tremendous current would flow resulting in injury to the battery.

To take a concrete example: Suppose we were to charge 24 cells from a 110 volt circuit, and these cells were of such a type as to require about 20 amperes charging current as a maximum. Our 24 cells would have, say, 48 volts to counteract 110 volts in the line, so that there would be a net effective voltage of 110 less 48, or 62. The resistance of the average 24 cell battery, whose charging rate is 20 amperes, would probably be less than 0.2 ohm, and as the amperes flowing is equal to the net effective voltage divided by the resistance, we would have 62 divided by 0.2, or over 310 amperes of current, which would of course badly injure the batteries.

On account of this low resistance of the batteries, a rheostat is inserted in series with the batteries to reduce the amperes flowing. Thus, if we consider the above mentioned case, where we have 62 effective volts and we want about 20 amperes, we will put almost 2.9 ohms in the rheostat, so that the 62 volts cannot force through the 2.9 ohms plus the 0.2 ohm of the battery more than the 20 amperes maximum required.

There are several types of rheostats made for battery charging. One type, often called the dial type, consists of a slate front having a resistance on the back connected to contacts on the front, and a lever sliding over and making contact with these contacts. Circuit breakers and similar devices are used to break the circuit when through careless operation an overload occurs.

Another type is known as the multiple switch type. Such a rheostat has several knife switches, which are so connected that upon closing one only of these switches a certain number of amperes will flow, and there will be a certain charging rate. Each switch is marked with the charging rate when it alone is closed. If two switches or more are closed the charging rate will be equal to the sum of the rates of the various switches.

In charging from alternating current source a rheostat alone is not satisfactory, and it is necessary to have a rectifier or a rotary converter, or some similar device, in order to convert the electricity from alternating current energy to direct current energy. Very often a rheostat is used in connection with this rectifier or converter after the current has been changed to direct current.

In considering the use of a rheostat in connection with the charging of a storage battery, there are several points which it is desirable that the manufacturer of the rheostat should know:

First. The voltage of the line circuit which will do the charging.

Second. The number of cells of storage battery to be charged in series.

Third. Either the manufacturers' name and type of the cells used, or the maximum and minimum charging rates.

PRECAUTIONS IN CONNECTION WITH ELECTRICAL DEVICES

See that the wires are heavy enough to carry the current and that all the connections are kept clean and bright as every corroded joint causes needless resistance.

Inspect battery connections, etc., occasionally as they have a habit of working loose.

Look well to the ground connection which should be very securely made and placed where it will not corrode.

Be sure your battery, especially if dry cells are used, is where it cannot get wet as the paste-board may absorb sufficient moisture to short circuit the cells.

See that your wires are securely fastened so that they cannot by any means rub or chafe against either wood or metal parts; especially the secondary wires.

Frequently examine the condition of the plugs as plug-trouble is often looked for elsewhere.

ELECTRICAL DON'TS

Don't allow your wires to become water or oil soaked as short circuiting will probably result.

Don't screw down electrical connections with the fingers as a tight joint cannot be made. Use pliers.

Don't allow your storage battery to get so far discharged that it will not operate the coil. See that the vibrators are set as lightly as possible to run the engine without skipping, otherwise they will waste current.

Don't take it for granted you have ignition trouble every time the engine stops.

Don't start out knowing your battery to be nearly exhausted as it may run all right to start with but will probably go out of business at a most inopportune time and place.

Don't adjust your coil for the biggest possible spark as it wastes current.

Don't think the coil is no good if the vibrators do not buzz exactly alike.

Don't test storage batteries unless they are charging or discharging.

Don't strain the coil by disconnecting the secondary wires completely so that no spark can jump, or by testing how far it will jump.

Don't screw or nail anything on to the coil box as you may injure it.

Don't tolerate any loose wires or poorly made connections. Fix them at once.

Don't do everything that Tom, Dick and Harry suggest. Know how yourself or if you must have advice go to some one competent to give it.

Lubricants

ACTION OF LUBRICATING OIL*

Oil used as a lubricant forms a film between the rubbing surfaces of greater or lesser thickness, depending upon the pressure transmitted by the surfaces, and upon the viscosity of the oil. When the lubrication is perfect the film is always of sufficient thickness to prevent actual metallic contact between the rubbing surfaces. The oil not only fills the microscopic cavities or pores of the metal, but it yields itself to rougher inequalities in such a manner that high spots on the journal are prevented from coming in contact with the bearing, and low spots are sustained without a perceptible change in the position of the journal. Oil does not permanently identify itself either with the journal or bearing, but sustains the relation of an intermediate film, portions of which are in constant motion. Particles constituting those portions of the film which are most nearly in contact with the box remain most nearly at rest, while particles constituting those portions which are most thoroughly in contact with the journal, tend to take the motion of the journal. Between the two surfaces of the film are particles whose velocities vary between the limits of rest and a velocity represented by the motion of the journal. Thus it is that when rubbing surfaces are oil-lubricated, there is a constant

*Extracts from results of tests on Joseph Dixon Crucible Company's graphite by Prof. W. F. M. Goss, of Purdue University.

movement of the particles of oil upon one another, and over the metallic surfaces lubricated. The ease with which this movement of the oil itself occurs determines the frictional resistance of the metallic surfaces. The use of a heavy, viscous oil which flows with difficulty, is always accompanied by a high coefficient of friction, whereas the use of a limpid oil is attended by a low coefficient of friction. The fact in this connection which is to be emphasized is that the oil does its work by the movement of its particles one upon another; that rubbing surfaces, when oil-lubricated, apparently float upon a film of oil which yields to the inequalities of their surface and portions of which partake more or less thoroughly of their motion. For best results there must be a constant renewal of the supply of oil, and a corresponding waste from between the rubbing surfaces.

Action of Graphite Contrasted with Oil.

In many of these respects, graphite is unlike oil. It does not to any great extent form an intervening film between the rubbing surfaces, but it associates itself with one or the other, or with both of the surfaces in question. It enters every crack and pit which appear in the rubbing surfaces and fills them. If the surfaces themselves are ill-shaped or irregularly worn, the graphite fills in and overlays until a new surface of more regular outline is produced. Thus it is that when graphite is applied to a well-fitted journal and its box, the rubbing surfaces are coated with a graphite layer, so thin as to appear hardly more than a slight discoloration, and the brighter the original finish of the metal surfaces, the thinner will be the layer of graphite. If, on the other hand, the parts are poorly surfaced, or poorly fitted, a veneering of graphite of varying thickness, which in the case of a certain experiment was found as great as 1-16 of an inch, will result. Whether thick or thin, the character of the graphite veneer is always the same; dense in structure; capable of resisting enormous pressure; continuous in surface without apparent pore or crack; and presenting a superficial finish which is wonderfully smooth and delicate to the touch. They present themselves in a most striking manner when graphite is used alone, but they appear in the same form when the graphite applied is intermixed with oils or greases.

Tests of Graphite and Sperm Oil as a Lubricant.

It was the purpose of these tests to ascertain the effect of mixing graphite with oil, and if the graphite proved beneficial to find the percentage of graphite which should be intermixed with the oil to give best results.

The coefficient of friction varied with the changes in the amount of graphite used. Best results were obtained when the amount of graphite mixed with oil amounted to 4 per cent. of the weight of the oil. With more or less graphite, the coefficient of friction increased in value. It is noteworthy, also, that with the correct mixture the remarkably low coefficient of less than a quarter of one per cent. is obtained; also, that the addition of graphite seems to improve by a very material amount the lubricating qualities of sperm oil. The reduction effected is from 28 per cent. to 22 per cent. The action of the graphite is evidently to coat with a smooth, hard coating the metal surfaces in contact, and by so doing to relieve the liquid oil from some of the service which it would otherwise have to perform. It seems probable that the percentage of graphite that a lubricant will carry with maximum results will vary with the character of the lubricant itself,

Carbon in Oils.

All oils for lubrication should be pure minerals, without any admixtures of animal or vegetable oils. The heavier the oil, the higher the fire test and viscosity test, but also in an oil of this character the darker will be the color which necessarily means a greater amount of carbon. It is therefore advisable to get as light an oil as possible, as color denotes very largely the amount of carbon contained in the oil. Buyers should be cautioned, however, against purchasing oils that have been bleached with acid. Oils that have their color lightened in this manner usually contain traces of acids which are destructive to the metal of the working parts of the engine, and oils of this character contain all of their original carbon.

Free carbon can only be removed from an oil by actual filtration through bone black, fullers earth, etc., thus lightening the oil without deteriorating its lubricating properties.

Acid Test.

A very simple test to detect acid in an oil is with Blue Litmus Paper, which will show a pinkish color if there is any acid present. Another sensitive test, and a very practical one, is to partly cover a polished steel plate with a strip of flannel or lamp-

wick saturated with the lubricant to be tested. Expose this to the sunlight for about twenty-four hours. When the plate is wiped dry if the lubricant is free from acid the steel will have retained its gloss. If dull spots have developed on the surface covered it is the sign of the presence of acid.

Flash Test.

It is a comparatively simple matter to take a flash test of an oil by heating a small quantity in a porcelain vessel over a Bunsen Flame, stirring the oil with a thermometer and applying a lighted match to the surface of the oil occasionally. When a bluish flame spreads over the liquid and dies out quickly the temperature should be noted, for this is the flash point. From about 410 to 420 degrees Fahr. is a proper flash point.

No cylinder oil should have a flash point lower than 400 degrees Fahrenheit, nor higher than 450 degrees Fahrenheit. The viscosity should not be lower than 200 at 70 degrees Fahrenheit nor higher than 500.

Cold Test.

Another point that is of interest, especially in winter time, is to obtain an oil with a proper cold test. It is practically impossible to give a mineral oil a very low cold test; and one that shows from fifteen to twenty degrees below freezing point may be considered all right for the purpose. It is a very small matter to test this by taking a small quantity of the oil in a test tube and surrounding the test tube with cracked ice, over which is sprinkled a handful of salt. The thermometer should then be introduced into the oil and the temperature noted at which it begins to solidify, for this is its cold test. It should be remembered that the darker the oil the poorer the cold test, as the heaviest oils solidify most rapidly.

Properties of Light Cylinder Oils.

Color=Pale amber (By Filtration).

Sp. g.=0.87 to 0.90.

Viscosity=210 to 230 at 70 deg. F.

Flash Point=410 to 420 deg. F.

Cold Test=15 to 20 deg. below zero F.

Anti-Freezing Solutions

FOR COOLING SYSTEM

There are three principal agents used as the basis for anti-freezing solutions in the cooling systems of water-cooled automobile engines—calcium chloride, glycerine and alcohol. The alcohol solution is usually preferred, especially since the tariff has been removed on denatured alcohol, because it does not damage the metal of the water jacks, radiator or connections, and has no fault except that it evaporates. The other solutions each have advantages, and users may consult their own preferences as to which agency they prefer.

Calcium Chloride (CaCl_2) is a very effective cooling agent but unless the chemically pure article is used there is danger of corrosion of the metal with which it comes in contact. A solution of 5 lbs. of calcium chloride to each gallon of water will not freeze at any temperature above 35 degrees below zero. A more convenient way to prepare the solution is to first make a "saturated solution" of the calcium chloride and water, that is mix with a quantity of water warmed to 60 degrees F. all the calcium chloride the water will completely dissolve, and use equal parts of this saturated solution and pure water in the cooling system of the motor. If chemically pure calcium chloride is used no trouble will result. Chloride of lime (CaOCl_2) should be avoided.

Crude calcium chloride retails at about 8c. or 10c. a pound, while the chemically pure article is worth about 25c. in small quantities.

Glycerine is an effective cooling agent and as it will not crystalize in the water jacket it is preferable in this respect to calcium chloride and it has the further merit of not requiring any renewal during the season as it does not evaporate. It is therefore only necessary to add pure water to replace that which has evaporated. The main fault ascribed to glycerine is its tendency to soften hose connections. Equal parts of glycerine and water are used.

In using a glycerine solution care should be taken to thoroughly cleanse the jackets of any residue of crystals from calcium solutions previously used as this residue will thicken and cloud the glycerine solution.

Alcohol can be used in either small or large quantities. The freezing point of various Ethyl alcohol mixtures taken from "Physikalisch-Chemische Tabellen" are as follows:

Freezing Points of Ethyl Alcohol Solutions

Percentage of Alcohol in Water	Freezing Temperature Degrees F.
2.418	30.264
5.014	28.418
8.105	26.213
17.96	1° 59'
36.43	3.20
51.06	10.48
86.22	29.02

In addition to these straight mixtures of water and one anti-freezing element there are several combinations of three or more elements such as 1-5 alcohol, 1-5 glycerine and 3-5 water; 4 parts water, 3 parts carbonate potash and 2 parts glycerine, etc.

A saturated solution of common salt can also be used. It does not affect the metal of the system and remains fluid down to 0° F. An incrustation, however, occurs as the water evaporates. Water must be added to make up for evaporation when glycerine, calcium chloride or salt are used.

Anti-Freezing Solution for Acetylene Generators

It sometimes happens that the water in acetylene generators and piping freezes. Calcium chloride in the water cannot be recommended, as in its usual form it contains acid, which has an action and chokes up the gas passages. Denatured alcohol up to as high as 25 per cent. may be used without affecting the lights. There is very little loss from evaporation. 15 per cent. alcohol and 10 per cent. glycerine have been used, but alcohol alone is to be preferred. If calcium chloride is used it must be pure. A solution of 20 parts to 80 of water freezes at about 5° F. above zero, but even less can be used as the interior of the generator does not usually get that low.

USEFUL RULES

Circumference of circle	= diameter x 3.1416
Diameter of circle	= circumference x 0.3183
Area of circle	= square of diameter x 0.7854
Length of arc	= number of degrees x diameter x 0.008727

To find the area of a triangle, multiply the base by one-half the perpendicular height.

To find the area of a trapezoid, add the two parallel sides together and multiply the sum by half the perpendicular distance between them.

To find the area of a regular octagon, multiply the square of the diameter of the inscribed circle by the decimal .828.

To find the area of a regular hexagon, multiply the square of the diameter of the inscribed circle by the decimal .866.

To find the number of gallons in elliptical section racing tanks. (All measurements in inches.) Multiply the product of the long and short dimensions of the end of the tank by the length of the tank, by .0339.

To find the area of engaging surface of a cone clutch multiply half the width of face by the sum of the circumferences of the inner and outer edges.

To find the area of the section of a flat bar, or the area of a rectangle, multiply the width by the thickness.

To find the number of cubic inches in any bar, multiply the area of its section in inches by its length in inches.

Area of tube section = .7854 d^2 (d^2 — d = outside dia. and d , inside diameter. weight in air and submerged in water.

Specific gravity = weight of body W compared with weight of an equal bulk of water.

To find specific gravity. Divide the weight in air by the difference between the

How to Solder Aluminum

There are various compounds on the market for soldering aluminum, but this operation depends more on the workman than on the solder and unless considerable experience has been had it is probably better to purchase solder than to attempt making it. Zinc can be used but does not form a very strong joint. Tin can also be used, is more nearly the color of aluminum, is stronger than zinc, but is very difficult to work. A small proportion of phosphor tin added to pure tin makes it work more readily and is the basis of most aluminum solder.

The chief difficulty in soldering aluminum is that the heat is dissipated so rapidly that it cools the soldering iron and furthermore aluminum oxidizes instantly upon exposure to the air. This extremely thin film effectually prevents a perfect union being made. If the parts are well heated and melted solder kept hot while the iron is allowed to stand on it, the surface can be scraped beneath the melted solder by the point of the soldering iron, thus preventing to a certain extent the oxidization. In this way the metal can be tinned. When both parts to be brought together are well tinned, the parts can be united with some chance of success, nitrate of silver, resin, or zinc chloride being used as a flux. A soldering tool of nickel gives more satisfactory results than a copper one as the latter alloys with the tin and soon becomes rough.

Cleaning the Metal

If the surface is of such a shape that it cannot be readily cleaned by scraping, it can be cleaned by dipping it into a solution of nitric acid in three times its bulk of hot water containing about 5 per cent. of commercial hydro-fluoric acid. This causes a slight action on the surface of the metal as shown by bubbles. Rinse the metal after removing from the acid bath and dry in hot sawdust.

Aluminum Solder

The following formula, in the hands of a competent man, can be used to unite aluminum or aluminoid parts:

Tin—10 parts.
Cadmium—10 parts.
Zinc—10 parts.
Lead—1 part.

The parts to be united must be thoroughly cleansed and allowed to stand two to three hours in a strong solution of Hypo-Sulphate of soda before being operated upon, or cleaned in the acid bath described above.

COMPOSITION OF ALLOYS

The number of alloy compositions such as bronze, brass and babbitts which are now placed on the market by various companies are almost innumerable, each containing various proportions, and some having special ingredients but nearly all contain practically the same combination as a basis. In almost every case the composition is varied slightly according to the uses to which the part cast from the alloy is to be put.

In general the composition of the most common alloys is as given in the accompanying table:

TABLE OF COMPOSITION OF COMMON ALLOYS

	Copper	Tin	Zinc	Lead	Antimony	Bismuth
White Bearing Metal	2	86	27	2	1	..
Bronze	90	2	5	2
Bronze for bushings	130	16	1
Bearing Bronze (for motors)	110	13	1
Phosphor Bronze (for gears)	90	10*
Bronze for flanges, etc., to be brazed.....	32	..	1	1
Babbitt metal	2	50	4	..
Brass for light parts	2	..	1

*Phosphor Tin

To convert a common fraction into a decimal:—Divide the numerator by the denominator, adding to the numerator as many ciphers prefixed by a decimal point as are necessary to give the number of decimal places desired in the result.

$$\frac{3}{8} = 2.0000 \div 3 = 0.6666 +$$

THERMOMETER SCALE CONVERSIONS

One Fahrenheit deg. = 5/9 deg. Centigrade = 4/9 deg. Réaumur. In the following conversion formulae:

F = Degrees Fahrenheit

C = Degrees Centigrade

R = Degrees Réaumur

Readings above freezing point 32 deg. F, zero C, zero R, are positive (+); readings below are treated as negative (-)

$$F = \frac{9C}{5} + 32; F = \frac{9R}{4} + 32; C = \frac{5(F-32)}{9}; R = \frac{4(F-32)}{9}$$

Freezing point F = 32 deg. = zero C = zero R.

Boiling point F = 212 deg. F = 100 deg. C = 80 deg. R.

METRIC CONVERSION TABLES**U. S. to Metric**

1 inch = 25.4001 millimetres
 1 foot = 0.304801 metres
 1 yard = 0.914402 metres
 1 mile = 1.60935 kilometres

Metric to U. S.**Linear**

1 metre = 39.3700 inches
 1 metre = 3.28083 feet
 1 metre = 1.09361 yards
 1 kilometre = 0.62137 miles

Square

1 square inch = 6.452 square centimetres 1 square centimetre = 0.1550 square ins.
 1 square foot = 9.290 square decimetres 1 square metre = 10.7640 square feet
 1 square yard = 0.836 square metres 1 square metre = 1.196 square yards.

Cubic

1 cu. inch = 16.387 cu. centimetres 1 cu. centimetre = 0.0610 cu. inches
 1 cu. foot = 0.02832 cu. metres 1 cu. metre = 35.314 cu. feet
 1 cu. yard = 0.765 cu. metres 1 cu. metre = 1.308 cu. yards

Weight

1 grain = 64.7989 milligrammes 1 milligramme = 0.01543 grains
 1 av. oz. = 28.3495 grammes 1 kilogramme = 15432.36 grains
 1 troy oz. = 31.10349 grammes 1 hectogramme = 3.5274 av. oz.
 1 av. pound = 0.45359 kilogrammes 1 kilogramme = 2.20462 av. lbs.

Capacity

1 fluid drachm = 3.70 cu. centimetres 1 millilitre = 0.27 fluid drachms
 1 fluid ounce = 29.57 millilitres 1 centilitre = 0.338 fluid ounces
 1 quart = 0.94636 litres 1 litre = 1.0567 quarts
 1 gallon = 3.78544 litres 1 dekalitre = 2.6417 gallons

AREAS OF SMALL CIRCLES UP TO ONE INCH

Across the top are the diameters of circles, and at the left are placed the increments increasing by .01 of an inch. Thus the area of a circle .55 of an inch in diameter, .2376 of a square inch, will be found under .5 and opposite .05.

WATER AND MERCURY COLUMNS AND EQUIVALENT PRESSURES AT 62° F

A column of water 1 in. high = .0736 in. of mercury = .0361 lb. per sq. in. = 5.196 lb. per sq. ft.

A column of mercury 1 in. high = 1.132 ft. of water = .49 lbs. per sq. in. = 70.56 lbs. per sq. ft.

A column of water 1 ft. high = .883 in. mercury = .433 lbs. per sq. in. = 62.355 lbs. per sq. ft.

1 lb. per sq. in. = 144 lbs. per sq. ft. = 27.71 in. water = 2.0416 in. mercury.

1 atmosphere (14.7 lb. per sq. in.) = 2116.3 lb. per sq. ft. = 33.947 ft. of water = 30 in. mercury.

Column of water one meter high = 1.43 lbs. per sq. in.

The rule given by Mr. Sellers, the originator of the U. S. Standard, for proportioning the thread is as follows: Divide the pitch into eight equal parts, take off one part from the top and fill in one part in the bottom of the thread; then the flat top and bottom will each equal one-eighth of the pitch, the wearing surface will be three-quarters of the pitch, and the diameter of the screw at the bottom of the thread will be expressed by the formula:

$$1 \div 299$$

$$\text{Diameter at bottom of thread} = \text{Diameter of bolt} - \frac{1}{\text{No. threads per inch.}}$$

USEFUL EQUIVALENTS, LIQUIDS

One lb of Water	=	$\left\{ \begin{array}{l} 27.72 \text{ cubic inches} \\ .083 \text{ U. S. Gallon} \\ .4537 \text{ kilo} \end{array} \right.$
One Cubic Foot of Water	=	$\left\{ \begin{array}{l} 7.48 \text{ U. S. Gallons} \\ 28.375 \text{ litres} \\ .0283 \text{ cubic metre} \\ 62.35 \text{ lbs. at } 62^{\circ} \text{ F.} \\ .557 \text{ cwt.} \\ .028 \text{ ton} \end{array} \right.$
One U. S. Gallon	=	$\left\{ \begin{array}{l} 231 \text{ cubic inches of water, } 62^{\circ} \text{ F.} \\ .1337 \text{ cubic foot} \\ 8.335 \text{ lbs.} \\ 3.8 \text{ litres} \end{array} \right.$

Rule for Calculating Weight of Steel Bars, Etc.

Having the number of cubic inches in any bar, to find its weight in steel, multiply by the decimal .2833 if exact weight is desired; or multiply by .3 if a practical weight, such as you are likely to get, is wanted. For the weight of wrought iron, multiply the cubic inches by .28. For the weight of cast iron, multiply the cubic inches by .26.

Miscellaneous Engineering Data

One H. P. expressed in heat units = $\frac{33000}{778} = 42.416$ heat units per minute.

A British Thermal Unit (B. T. U.) is the heat required to raise the temperature of 1 lb. of water at or near 39 deg. F. one degree Fahrenheit.

One B. T. U. = 778 Ft. lbs. One lb. fuel per H. P. per hour = 1,980,000 ft. lbs. per lb. of fuel or 2,545 heat units per lb. of fuel.

CARRYING CAPACITIES OF BALL BEARINGS

The carrying capacity of ball bearings is usually based on the number and diameter of balls. However, it is well known that very small details have a decided influence on the carrying capacity of the bearing as a whole and for this reason comparisons of the carrying capacity should be made between only those of similar type and similarly mounted. The carrying capacities listed in various catalogs and tables are those that the individual makers consider safe and there are, of course, variations in the figures as some makers consider a safe carrying capacity one only a small percentage of the ultimate limit while others consider as safe only figures above the ultimate limit. For these reasons it is best to consult the experience of the maker of the particular bearing giving details as to the proposed use and method of employing the bearing.

The following tables of the carrying capacities of bearings should be consulted with these facts always in mind.

DIMENSIONS, RADIAL AND THRUST Capacities of Annular (Radial) H. B. Ball Bearings

The number completely identifies each bearing

The inch dimensions are the nearest equivalents to the even millimeters in which the bearings are made. The metric sizes are retained to ensure interchangeability of the American-made Hess-Bright Bearings with the German and French "DWF."

The loads cited are safe for steady speeds up to 300 RPM and constant load. For all other conditions, suitable allowances must be made as dictated by experience. The loads cited include a safety factor of over ten.

In general, these bearings will sustain one-tenth of the radial load for thrust only.

PRESS FIT ALLOWANCES FOR ANNULAR BALL BEARINGS

Experience has shown that with shafts sized in accordance with this table, the inner races of the bearings will have the proper fit; if the shaft is smaller, the races will creep and cut down the shaft; if the shaft is larger, undue force must be exerted to get the bearings on, with grave danger of cracking the inner race.

BALL BEARING DATA*

Surface of a ball = $D^2 \times 3.1416$.

Volume = $D^3 \times .5236$.

Circumference = $D \times 3.1416$.

To determine the diameter of the circumscribed circle, enclosing a ring of a given number of balls:

Multiply the factor in table opposite the number of balls in ring, by the diameter of ball plus clearance between each pair of balls, and add to this product the diameter of ball.

D = $(D + c \times F) + d$.

D = Diameter of Enclosing circle.

d = Diameter of Ball.

F = Factor in Table.

C = Clearance between each pair of balls.

Table of Factors

The following is another formula which gives the radius of the enclosing circle of a ring of balls:

$$R = r + \frac{r}{\text{Sin.} \left(\frac{180^\circ}{n} \right)}$$

R = radius of enclosing circle.

r = Radius of Ball.

n = Number of balls in ring.

*American Ball Co. Providence, R. I.

TESTS OF CRUSHING LOADS OF RIEHLE BROS. STEEL BALLS

Tests were made with balls placed between flat, hardened, tool-steel plates

MAXIMUM STEADY LOAD CAPACITY (RADIAL & THRUST) OF NEW DEPARTURE ANNULAR BALL BEARINGS AT DIFFERENT SPEEDS

The following table shows the maximum steady load capacity in pounds (both radial and thrust) of New Departure "Two-in-One" Annular Ball Bearings, at different speeds. This table is based upon the relation existing between load and speed to give equal life of bearings under the different loads and speeds stated. The law of decreasing loads for increasing speeds applies to any form of radial bearing.

Number of Bearing	300 r. p. m.	600 r. p. m.	1000 r. p. m.	1500 r. p. m.	2000 r. p. m.	3000 r. p. m.

Regular Standard Timken Roller Bearings

The letters in above cuts are to be used in connection with table on opposite page.

Note—When speed, load and general application of bearings are given, The Timken Roller Bearing Axle Co., will recommend proper bearings to be used, in which case a two-year guarantee applies.

New Series Short Bearings

Note.—1-32 inch radius at each end of cone is standard.

Total length required for bearing = $N = M + B + L$.

The above loads are safe for speeds not exceeding 590 R. P. M. For speeds from 500 to 1,000 R. P. M., use 75 per cent. of the above rated loads. For speeds over 1,000 R. P. M. confer with Timken Roller Bearing Axle Co.

" " " " No. 478,	46,500	77,500	28.0"	45.0"	"

No. 5-317. Suitable for transmission gears, counter-shafts and parts used for transmission of power.

No. 3-317. Mild-temper suitable for case hardened gears.

No. L 3-14. Axle-steel, to withstand alternating stresses and dynamic strains.

No. 575. Contains 3½ per cent. nickel and is manufactured to meet the U. S. Navy specification known as "High Grade."

No. L-521. Crucible gear-steel (moderate price) gears can be tempered and do not require hardening.

No. 506. Manganese steel for shafts, bolts, etc., not subjected to excessive alternating or recurrent stresses.

No. 492. Special straight-carbon crucible steel, with a fairly high tensile strength, suitable for axles and other parts that have to be welded.

No. 478. Special high-grade open-hearth steel, which is particularly adapted to such parts as are not subjected to unusual strains. It is suitable for axles, axle-journals, and various small parts of automobiles.

As all the test-bars withstood more than one blow of 250 foot-pounds, the following comparison is noted:

No. 5-317	31,250	1,000
No. 3-317	16,750	532
No. 575	8,250	264
No. 506	750	24
No. 478	500	16

*A foot-pound is the measure of force resulting from one pound falling a distance of one foot.

†The deflection before rupture is measured at the middle of the bar and is taken just before the blow is given that causes the bar to break.

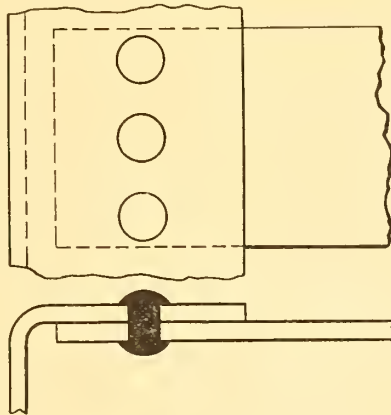

Carbon and Alloy-steel

By far the most useful element that combines with the iron in the melting-pot to form steel is carbon. In connection with different percentages of silicon, manganese, nickel, chromium, tungsten and vanadium it imparts to the steel the valuable properties of hardness, strength and toughness in varied proportions, adapting it to meet the almost infinite variety of requirements demanded of tools made from crucible-steel. When none of these elements but silicon and manganese occur with the carbon in the steel, and then only in small proportions, usually below one per cent., it is customary to speak of the metal as "carbon-steel" or "straight-carbon steel," but when one or more of the other elements are present, and especially in larger proportions, considerably in excess of one per cent., the metal is called an "alloy-steel." These distinguishing terms have come more and more into fashion since the advent of high-speed tool-steel, which generally contains large percentages of chromium and tungsten, and also since the extensive introduction of nickel and chrome-nickel steels in modern automobile construction.

Each grade of straight-carbon tool-steel is usually made up in several different carbon-classes, distinguished from one another by containing different proportions of carbon, ranging all the way from 30 to 250 points—a "point" denoting one one-hundredth of one per cent. (0.01%) of the weight of the steel. The purpose of this wide range is to enable the manufacturer to supply, for any given use, steel of the particular carbon-content that has been found by experience most suitable for that use.

THEORY OF RIVETED JOINTS WITH FORMULAE

The strength of riveted joints can only be determined by actual experiments on full sized specimens. The materials used, accuracy of the work, fit of the rivets in the holes, whether holes are punched or drilled, all effect the strength of the completed joint. However, the size and spacing of rivets, and thickness of plates may be determined by making the resistance of the joint to yielding equal in the various ways, in which it is possible for it to give way. A single riveted lap joint is shown, as being the one most commonly used in automobile construction. This may yield in one of

five ways: (1st) By crushing the plate in front of the rivet; (2nd) by shearing the rivet; (3rd) by tearing the plate between the rivet holes; (4th) by the rivet splitting the plate in front of it; (5th) by the rivet shearing out the plate in front of it.

Let p equal the pitch of rivets; i. e., the distance from center to center, d equal the diameter of the rivet; t the thickness of the plate; l the lap of the plate, i. e., distance from edge of plate to outer edge of rivet hole; U_s ultimate shearing strength of the plate; U_c ultimate crushing strength of the plate; U ultimate shearing strength of the rivet material and U_t the ultimate tensile strength of the plate.

The methods of giving way can be represented as follows:

- (1) Resistance of plate in front of rivet to crushing $= U_c t d$.
- (2) Resistance of one rivet to shearing $= U \left(\frac{\pi d^2}{4} \right)$.
- (3) Resistance to tearing of plate between two rivet holes $= U_t t (P - d)$.
- (4) Resistance of plate to being split out $= C \left(\frac{t l^2}{d} \right)$

in which C is an empiracle constant depending on the plate material. An average value for C , when dimensions are in inches is given by Robert Wilson as 100,000 lbs.

- (5) Resistance of plate in front of rivet to shearing $= 2 U_s \left(l + \frac{d}{2} \right) t$.

Assuming a known plate thickness, we have by making (1) equal to (2)

$$U_c t d = U \left(\frac{\pi d^2}{4} \right) \quad \therefore d = \frac{4 t U_c}{\pi U}$$

which determines the diameter of the rivet.

$$\text{Equating (2) and (3) we have } \frac{U \pi d^2}{4} = U_t t (P - d) \quad \therefore P = d + \frac{U \pi d^2}{U_t 4t}$$

which gives the pitch of the rivets, in terms of the diameter of the rivet and thickness of the plate.

$$\text{Equating (4) and (1) we have } C \left(\frac{t l^2}{d} \right) = U_c t d \quad \therefore l = d \sqrt{\frac{U_c}{C}}$$

which gives the lap of the plate in order that it may not split out in front of the rivet.

$$\text{By equating (5) and (1) we have } 2 U_s \left(l + \frac{d}{2} \right) t = U_c t d \quad \therefore l = \frac{d}{2} \left(\frac{U_c}{U_s} - 1 \right)$$

the lap necessary that the plate may not shear out in front of the rivet.

Useful Information When Testing.

Stresses are the forces which are applied to bodies to bring into action their elastic and cohesive properties. These forces cause alterations of the forms of the bodies upon which they act.

Strain is a name given to the kind of alterations produced in the body by the stresses. Distinction between Stress and Strain is not always observed, one being used for the other. (Wood.)

Stresses are of different kinds—tensile, compressive, transverse, torsional and shearing.

Elastic Limit is the point at which stress ceases to be sensibly proportional to strain. (Bauschinger.)

Modulus of Elasticity is the ratio of the stress per unit area to the strain.

The first permanent set becomes visible at the elastic limit of the piece.

When rolled bars are subjected to alternate tension and compression stresses the limit in tension is lowered and in compression raised, until both correspond to equal loads.

Factor of Safety is the ratio in which the load that is just sufficient to overcome instantly the strength of a piece, is greater than the greatest safe ordinary working load. (Rankine.)

Factors of safety in structures subject to shocks should not be less than 10 and in some places as high as 40.

English and Metric Speed Equivalents.

To obtain velocity in feet per second multiply the speed in miles per hour by 1.466 +
Velocity ft. per sec. = (Miles per hour) \times 1.466 +

One mi. per hour = 1.466 ft. per second = 88 ft. per minute = 0.463 metres per second = 27.8 metres per minute.

1 Km. per hour = 0.914 metres per second = 54.9 ft. per minute = 0.624 mi. per hour.

MEASUREMENT OF GRADES

MEASUREMENTS OF GRADES IN PER CENT.

The inclination of a road surface is usually spoken of as a grade of 5, 10, 15%, etc. As in any other case, per cent. simply means so many in a hundred, or in other words the number of feet vertical rise or fall in 100 feet measured in a horizontal direction, determines the per cent. of the grade as shown in the accompanying drawing. A rise of 5 feet in 100, the base of the triangles being 100 feet is 5%, a rise of 10 feet, 10%, etc. It will be noticed that although there is a definite relation between angles and the per cent. of grade, these are two very separate and distinct quantities. A 20% grade being only an angle of about 11 degrees, these equivalent angles being given in the table on the following page. Thus a rise of 100 feet in 100 or a 100% grade is only an angle of 45 degrees, and not an angle of 90 degrees or perpendicular as it is sometimes considered.

HOW TO ASCERTAIN THE GRADE WITHOUT A GRADOMETER

A method of determining the percentage of a grade on any road without any special instruments is here given and illustrated. All that is required is to measure off ten feet on any convenient stick and rest one end as shown in the sketch above, upon the surface of the road being careful to keep the stick horizontal. This can be done by using a spirit level or an ordinary bottle filled with water allowing a bubble in the well-known manner. Measure from the end of the stick to the road surface and multiply by 10 which will give the per cent. of the grade. The average of several such measurements will give fairly accurate results.

GRADIENTS IN PER CENT. AND DEGREES

GRADE		Equal to Angle of	Rise or Fall in One Mile Feet

PERCENTAGE OF SLIP OF MOTOR CAR DRIVING WHEELS

From Mr. Henry Souther's analysis of the results of tests on tire slips at Brooklands, England, on a level racing track of the best sort, with plain round tread tires inflated as is usual for racing, the percentage of slip of the rear wheels when driving is given in the following table:

0.3 for a speed of 40 miles per hour					
.6	"	"	50	"	"
1.1	"	"	60	"	"
1.8	"	"	70	"	"
3.7	"	"	80	"	"
5.4	"	"	90	"	"

The driving wheel on the inside, running around a curved track, slips a very little more than the outer wheel as the centrifugal force going around curves reduces the weight on the inner wheel permitting it to slip more readily than the outer wheel.

Association of Licensed Automobile Manufacturers

Standard for Hexagon Head Screws, Castle and Plain Nuts

The present United States standards for Bolts, Nuts and Screw-threads were established by the United States Navy Department in May, 1868. These standards remained pre-eminent for many years and have proved of great convenience and value. During recent years, however, manufacturers of fine machinery have found from experience that for a large portion of their work the United States standards for pitch of threads have been too coarse, and the dimensions of heads and nuts too large. In order to secure satisfactory construction special fine pitch screw-threads and smaller nuts have had to be made. The number and variety of these special threads and nuts have finally become such that great confusion, inconvenience and expense have been caused. To overcome this condition the Association of Licensed Automobile Manufacturers has adopted a new Screw Standard which is herewith set forth.

It is assumed that where screws are to be used in soft material, such as cast-iron, brass, bronze or aluminum, the existing United States standard pitches will be used.

The A. L. A. M. Standard.

This standard is to be known as "Association of Licensed Automobile Manufacturers' Standard for Hexagon Screws, Castle and Plain Nuts."

The term "Screw" is intended to supplant the present so-called "coupling-bolt" and "cap-screw." The term "Plain Hexagon Nut" is intended to supplant the present so-called "United States Standard Nut." The term "Castle Nut" is given to a new nut, which is intended to be used where a positive locking system is desired. The term "Facing" is given to a relieved portion under the screw heads, castle nuts and plain nuts.

DRAWINGS AND DETAILED DIMENSIONS OF A. L. A. M. STANDARD SCREWS AND NUTS

MATERIALS

A better material than ordinarily used for screws is deemed necessary. The selection of a better material depends to a considerable extent upon the possibility of commercially machining it in screw machines. Such material has been found in several qualities of steel, having a tensile strength of not less than one hundred thousand (100,000 lb.) pounds per square inch, and an elastic limit of sixty thousand (60,000 lb.) pounds per square inch, as compared with fifty or sixty thousand (50,000 or 60,000 lb.) pounds per square inch tensile strength and thirty-five thousand (35,000 lb.) pounds per square inch elastic limit now in common use.

The Screws and Nuts described in this Standard are to be made of this better material. Screws are to be left soft. Screw Heads are to be left soft. The Plain Nuts are to be left soft. The Castle Nuts are to be case-hardened.

TOLERANCE

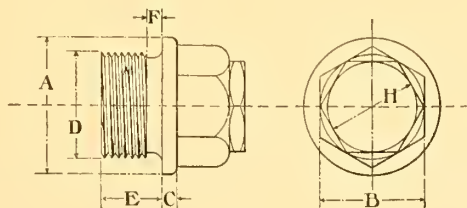

The body diameter of the screws shall be one-thousandth (.001") inch less than the nominal diameter, with a plus tolerance of zero and a minus tolerance of two-thousandths (.002") inch.

The nuts shall be a good fit, without perceptible shake.

The clearance between tops of threads and bottoms of threads in nuts shall be that existing in the present practice of machine screw makers; that is, the tap shall be between two-thousandths (.002") inch and three-thousandths (.003") inch large.

A. L. A. M. STANDARD SPARK PLUG

The spark plug adopted as a standard has a $\frac{7}{8}$ inch diameter, straight thread, 18 pitch, and the design and dimensions shown in the following drawing and specifications:

$A = 1\frac{1}{8}"$, $B = \frac{7}{8}"$, $C = \frac{1}{8}"$, $D = \frac{7}{8}"$, $E = \frac{1}{2}"$ (Min.), $F = \frac{1}{8}"$ (Max.) Depth of recess, not over depth of thread. $H = \frac{3}{4}"$.

SPECIFICATIONS

STOCK— $1\frac{1}{8}$ inch round.

HEAD FORM—Milled hex.

Short Diameter— $\frac{7}{8}$ inch.

FLANGE—FORM—Circular.

Diameter— $1\frac{1}{8}$ inch.

Thickness— $\frac{1}{8}$ inch.

Face—Annular seat $\frac{1}{8}$ inch wide (suitable for McKim type copper-asbestos Gasket.)

BLANK FOR THREAD—Diameter— $\frac{7}{8}$ inch.

Length—Not less than $\frac{1}{2}$ inch.

RECESS ADJACENT TO FLANGE—Width—not over $\frac{1}{8}$ inch.

Depth—Not over depth of thread.

THREAD—Diameter— $\frac{7}{8}$ inch straight.

Pitch—18.

Form—U. S. Standard.

Cut—Perfect into recess.

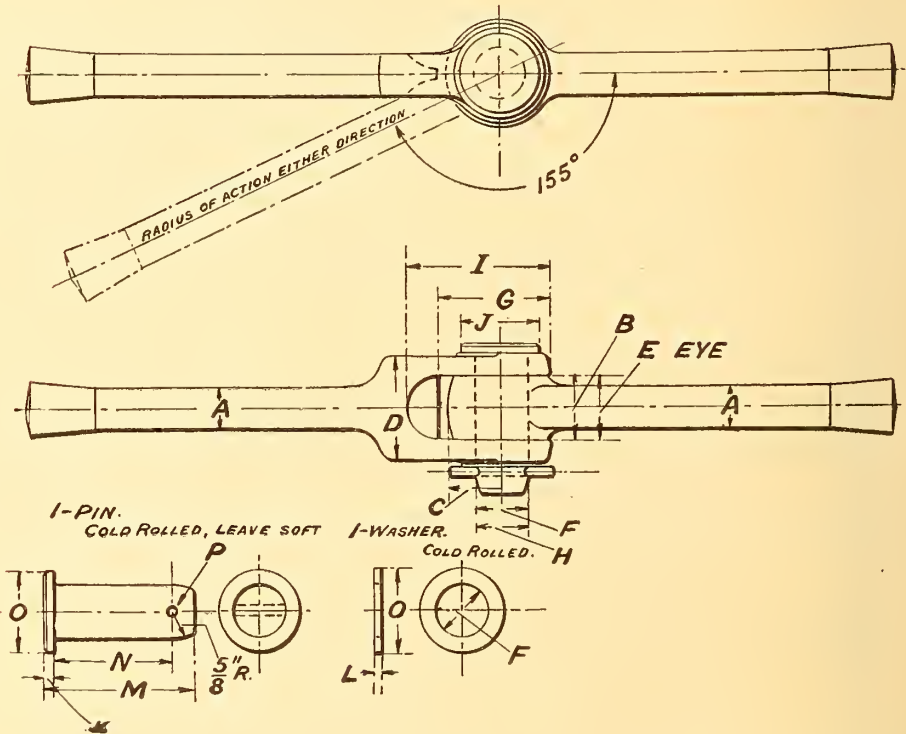

PACKING-GLAND NUT HEAD—Form—Hexagonal.

Short Diameter— $\frac{3}{4}$ inch.

SECTION IX

Automobile Insurance, Accident, Life and Indemnity, with Sample Policy

Summary of Provisions of Usual Policies Issued to Automobilists Covering Indemnity, Accident and Death

We herewith give some of the principal provisions of the Automobile Liability Policy of the Travelers' Insurance Co., of Hartford, Conn., which is believed to be typical of this class of insurance.

A property damage certificate also accompanies this policy, which idemnifies the assured against loss on account of injury to any one or destruction of other people's property resulting from an accident due to the ownership or use of an automobile.

A Travelers' Automobile Liability Policy covers legal liability for damages for personal injuries caused by the ownership, maintenance or use of the automobile (while driven by any person not under sixteen years of age). Suits for damages may be the result of numberless mishaps such as the unexpected acts of pedestrians, bicyclists, or children who may dart in front of the car, skidding, collisions, the breaking of steering gear or the frightening of horses, which running away may injure or kill the occupants of the vehicle or others using the highways.

Under its policy the company on receipt of notice of accident makes an investigation and in case of probable liability proceeds to make a settlement at its expense without litigation. Should a suit for damages follow, the company defends the action, defrays all court costs and expenses, and pays within the limits of the policy any damages that may be awarded.

Policies are usually written for limits of \$5,000 for injuries or death of one person. \$10,000 for one accident causing injuries or death of more than one person.

These limits may be increased if desired, and the policy does not lapse when these limits have been expended but continues the undertaking to pay within such limits upon every other accident that may occur while the policy is in force.

SAMPLE AUTOMOBILE POLICY

The Travelers' Insurance Company, of Hartford, Connecticut,

(Herein called the Company) Does hereby agree with the assured, named and described as such in the declarations forming part hereof, as respects bodily injuries accidentally sustained, including death at any time resulting therefrom as follows:

Indemnity for Loss.

I. To Indemnify the Assured against loss by reason of the liability imposed upon him by law for damages on account of such injuries.

Service.

II. To Serve the Assured upon notice of such injuries by such investigation thereof, or by such negotiation or settlement of any resulting claims as may be deemed expedient by the Company.

Defense.

III. To Defend in the name and on behalf of the Assured any suits which may at any time be brought against him on account of such injuries, including suits alleging such injuries and demanding damages therefor although such suits, allegations or demands are wholly groundless, false or fraudulent.

Expenses.

IV. To Pay all costs taxed against the Assured in any legal proceeding defended by the Company, all interest accruing after entry of judgment upon such part thereof as shall not be in excess of the limits of the Company's liability as hereinafter expressed, all expenses incurred by the Company for investigation, negotiation or defense, and the expense incurred by the Assured for such immediate surgical relief as shall be imperative at the time any such injury is sustained.

Persons Covered.

V. This agreement shall apply to such injuries sustained by any person or persons.

Operations Covered.

VI. This agreement shall apply only to such injuries so sustained by reason of the ownership or maintenance of any of the automobiles enumerated and described in said Declarations and the use of such automobiles for the purposes specified in item 3 thereof. If such specified use is for private or pleasure purposes it shall include ordinary business purposes except the carriage of passengers for a consideration, express or implied, or demonstrating or testing, or the transportation or delivery of material or merchandise. If such specified use is as a commercial vehicle (meaning thereby an automobile used for transportation and delivery of material or merchandise) it shall include the loading and unloading of goods carried on any such automobile. This agreement shall not apply while any such automobile is driven or manipulated in any race or competitive speed test, or by any person under the age of sixteen years.

Location Covered.

VII. This agreement shall apply only to such injuries so sustained while within the limits of the United States of America or the Dominion of Canada.

Policy Period.

VIII. This agreement shall apply only to such injuries so sustained by reason of accidents occurring within the Policy Period as limited and defined in item 2 of said Declarations.

Limits of Indemnity.

IX. The Company's liability for the Indemnity provided in Paragraph I. foregoing, for an accident resulting in such injuries so sustained is limited to the amounts and as expressed in item 4 of said Declarations, which limits shall apply to each automobile covered hereby.

CONDITIONS

Premium, Computation, Cancellation.

The Premium includes a charge for each automobile dependent upon its description and the purposes for which it is to be used.

This Policy may be canceled at any time by either of the parties upon written notice to the other party stating when thereafter cancellation shall be effective, and the date of cancellation shall then be the end of the Policy Period. If such cancellation is at the

Company's request the earned premium shall be computed and adjusted pro rata. If such cancelation is at the Assured's request, the earned premium shall be computed and adjusted at short rates in accordance with the table printed hereon. Notice of cancelation mailed to the address of the Assured herein given shall be a sufficient notice and the check of the Company, similarly mailed, a sufficient tender of any unearned premium.

Inspection.

The Company shall be permitted, at all reasonable times during the Policy Period, to inspect any of the automobiles covered by this Policy.

Notice.

The Assured upon the occurrence of an accident, shall give immediate written notice thereof to the Company, or to its duly authorized Agent, with the fullest information obtainable. He shall give like notice with full particulars of any claim made on account of such accident. If, thereafter, any suit is brought against the Assured he shall immediately forward to the Company every summons or other process served upon him. The Assured, when requested by the Company shall aid in effecting settlements, securing evidence, the attendance of witnesses and in prosecuting appeals. The Assured shall not voluntarily assume any liability, settle any claim or incur any expense, except at his own cost, or interfere in any negotiation for settlement or legal proceeding without the consent of the Company previously given in writing.

Recovery.

No action shall lie against the Company to recover for any loss under Paragraph I. foregoing, unless it shall be brought by the Assured for loss actually sustained and paid by him in money in satisfaction of a judgment after trial of the issue, and no such action shall lie to recover under any other agreement of the Company herein contained unless brought by the Assured himself to recover money actually expended by him. In no event shall any such action lie unless brought within ninety days after the right of action accrues as herein provided.

Special Statutes.

If the limitation of time for notice of accident or for any legal proceeding herein contained is at variance with any specific statutory provision in relation thereto, in force in the state in which the business operations herein described are conducted, such specific statutory provision shall supersede any such condition in this contract inconsistent therewith.

Assignment.

No assignment of interest under this Policy shall bind the Company unless the consent of the Company shall be endorsed hereon.

Co-Insurance.

If the Assured carries a policy of any other insurer covering concurrently a claim covered by this Policy, he shall not recover from the Company a larger proportion of any such claim than the sum hereby insured bears to the whole amount of such concurrent insurance.

Subrogation.

The Company shall be subrogated in case of any payment under this Policy, to the extent of such payment, to all the Assured's rights of recovery therefor against persons, corporations, or estates.

Changes.

No condition or provision of this Policy shall be waived or altered except by endorsement attached hereto signed by the President, a Vice-President, Secretary, or Assistant Secretary of the Company; nor shall notice to any Agent, nor shall knowledge possessed by any Agent or by any other person be held to effect a waiver or change in any part of this contract. The personal pronoun herein used to refer to the Assured shall apply regardless of number or gender.

Declarations.

The statements in Items numbered one to seven inclusive, in the Declarations hereinafter contained, are warranted by the Assured to be true except such as are declared to be matters of estimate only. This Policy is issued in consideration of such warranties, the provisions of the Policy respecting its premium and the payment of the premium in such Declarations expressed.

In the Declarations are included items as follows: Item 1. Name, address, occupation, etc., of Assured. Item 2. Period of the Policy. Item 3. Description of car or cars and statements as to the kind of use made of them, for pleasure, commercial, etc. Item 4. Limits of the Company's liability. Item 5. Method of garaging cars. Item 6. No personal injury has ever been caused by any automobile driven by or for me—except as herein stated. Item 7. No similar insurance has been declined or canceled by any company during the past three years—except as herein stated.

The following are extracts from the property damage certificate:

SECTION IX

Digest of Automobile Laws of the Various States

ALABAMA

Registration.—With the Probate Judge of resident county, or county in which machine is to be used, not over ten days after securing the machine, fee, 25 cents; non-transferable certificate; manufacturers and dealers only required to register machines kept for private use; number of lamps not specified and no provision made for numbers; equipment required is, brake, muffler and a non-odiferous appliance.

Speed.—When passing church or school during session, 8 m. p. h.; 4 m. p. h. when going over causeways and dams not over 20 feet wide; when given signal must stop machine and engine for restless horse.

Non-Residents.—Same as residents.

ARIZONA

Regulations local, no State law.

ARKANSAS.

No State law, regulations local.

CALIFORNIA

Registration.—With Secretary of State; fee, \$2.00; manufacturers and dealers allowed to register one car of each style and duplicate seals for others costs 50 cents; good for 5 days after sale of car; chauffeurs' license, \$2; when operating must wear badge furnished by Secretary of State; circular metal seal displayed on car and returned to Secretary of State on sale of car; tag displayed on rear; numerals 3 inches high, strokes $\frac{1}{2}$ inch wide, and abbreviated name of state 1 inch high, characters to be black on white background; two white lights forward showing numbers in figures 1 inch high and red light reverse from one hour after sunset to one hour before sunrise; must be equipped with brakes and sound signal on approaching pedestrian or person in charge of a horse.

Speed.—Always reasonable, in built-up sections 10 m. p. h., 15 miles elsewhere in municipalities; outside, 20 m. p. h.; on approaching bridge, dam, sharp curve or steep descent, stop car on signal from driver of horses, and stop engine on request.

Non-Residents.—Temporarily in state exempt if tag of state of residence is displayed on rear.

CONNECTICUT

Registration.—Renewed annually by Secretary of State: fee for each certificate; cars under 20 H. P., \$3; over 20 and under 30 H. P., \$5; over 30 H. P., \$10; motorcycles, 50 cents; distinguishing number, for manufacturers, \$1; dealers, \$10; opera-

tor's licenses, for persons 18 years old or over, \$2, must be renewed yearly, carried while operating and may be revoked at any time by the Secretary of State: license to operate motorcycle, 50 cents; number tags to be carried stationary, front and rear, numerals 4 inches high, strokes $\frac{1}{2}$ inch wide, not over two tags to be displayed on either front or rear: on motorcycles, initial letters of state and numerals at least 1 inch high painted or displayed on tag; at least one light forward, visible 200 feet, and red light on rear so arranged as to throw white light upon rear number tag, from one hour after sunset to one hour before sunrise; must be supplied with serviceable brakes and signal device which must be visible when approaching sharp turn, bridge, curve or steep descent: motorcycle not to be operated with open muffler.

Speeds.—Careful and reasonable at all times; 25 m. p. h. for distance of $\frac{1}{4}$ mile sufficient evidence of violation of speed provision; speed to be reduced upon approaching or passing pedestrian, horse, highway crossing, bridge, sharp curve or steep descent: must stop both car and engine on signal from teamster.

Non-Residents.—Exempt for not over ten successive days at any one time; exemption revoked upon being convicted of violating laws.

DELAWARE

Registration.—Annual with Secretary of State, fee \$5; motorcycles, \$3. operators fee, \$5, minimum age of operator, 16 yrs.; transfer of license on sale of machine, \$1; dealers license fee, \$5; tags must be carried on front and rear of autos, and on either side of motorcycles; dealers supply own tags with numbers 5 inches high and words "Delaware Dealer"; rear tag illuminated and at least one white light forward and red light in rear from one hour after sunset to one hour before sunrise; cars must be equipped with brakes and signal device; tire chains prohibited except on highways of natural dirt, plank, asphalt, brick, Belgium block or one inch of ice or hardened snow, unless necessary for safety.

Speeds.—Always reasonable, 12 m. p. h. where buildings are less than one hundred feet apart; 6 m. p. h. at curves and intersections, and 20 m. p. h. in open country, reduced to 12 at curves, intersections, steep descents and when passing other vehicles; cars must stop on signal or request from person in charge of horse.

Non-Residents.—Reciprocal exemption privileges.

DISTRICT OF COLUMBIA

Registration.—With Secretary of Automobile Board, fee \$2 for each tag; applicant must qualify before Board of Examiners, no fee; unlicensed person may operate if accompanied by licensed chauffeur; temporary permits issued pending examination; tags must have letters at least 3 inches high and the initials "D. C.," to be carried on rear of machine; two lamps front and one red tail lamp carried on left side of car and throwing white light on license tag; cars must be equipped with signal and locking devices.

Speeds.—Within fire limits 12 m. p. h.; in parks, 15 m. p. h.; 8 m. p. h. at street intersections; 6 m. p. h. around corners; 4 m. p. h. on certain specified streets; outside of fire limits 20 m. p. h.; 12 m. p. h. when meeting or passing other vehicles. Must stop machine on signal from driver of horse.

Non-Residents.—Own state credentials sufficient for transient tourists, provided resident state tag is displayed; other non-residents are exempted for 60 days upon registering with Secretary of Automobile Board within 24 hours after arrival.

FLORIDA

Registration.—With Secretary of State giving description of car, fee \$2; no time limit; registration transferable on sale of the machine, fee \$2; operators license fee, \$2; tags to have numerals at least three inches high and two inches wide, to be displayed on the rear of car; two lamps between sunset and sunrise; signal must be sounded on approaching pedestrian or person in charge of horse.

Speeds.—At sharp curves, bridges, fills and intersections, 4 m. p. h.; at all other times speed to be reasonable and machines to be under perfect control; must stop machine on signal from person driving horse and stop engine, if so requested; speed limits may be set aside by County Commissioners for speed contests or races.

Non-Residents.—Exempt for 30 days.

GEORGIA

No state, law, regulations local.

IDAHO

No state, law, regulations local.

ILLINOIS

Registration.—With Secretary of State within ten days of acquisition; registration fee, \$2; dealers must register one car of each class or type; chauffeurs' license, \$1; badges to be worn when operating; circular metal seal furnished by Secretary of State must be affixed to car; registration number must be displayed both front and rear, numerals 4

inches high, strokes $\frac{1}{2}$ inch wide with abbreviation "ILL" 1 inch high; figures black on white background; two lights visible 200 feet ahead and state abbreviation on glass to be lighted from sunset to one hour before sunrise; cars to be equipped with brakes and signal device, signal must be sounded upon approaching pedestrian or horse.

Speeds.—15 m. p. h. through residential districts; in business portions of towns, cities and villages, 10 m. p. h.; 6 m. p. h. at corners; elsewhere 20 m. p. h.; speed must always be reasonable; cars must stop on signal from driver of frightened horse.

Non-Residents.—Exempt provided tags of resident state are displayed front and rear.

INDIANA

Registration.—With Secretary of State; fee \$1; no time limit and non-transferable; manufacturers and dealers must register one machine of each style or type, duplicate seals 50 cents each; tags to have white numbers on black ground at least 4 inches high and $\frac{1}{2}$ inch wide; also state initials; numbers to be displayed front and rear; must also display circular metal seal furnished by Secretary of State; registration expires on sale of machine but same number may be reassigned to new machine; lamps to be carried after dark; car must be equipped with brake and signal which must be sounded on approaching person with horse; provisions as to numbers do not apply to motorcycles.

Speeds.—In closely built-up portions, 8 m. p. h.; 15 m. p. h. in other portions of municipalities; 20 m. p. h. in open country; on approaching and traversing bridge, intersection of highways, sharp curve or steep descent, speeds must be reasonable and vehicle under control; 6 m. p. h. while passing horse or other draught or farm animal; rates of speed not to be diminished by any local ordinances.

Non-Residents.—Exempt if tag and initial of state of residence is displayed.

IOWA

Registration.—With Secretary of State, fee \$5; expires on sale of car but old number may be reassigned; dealers must register annually each car separately, application to be made before July 1st of each year; fee \$10; permit expires June 30th following issue; dealers having place of business in more than one city or town must secure permit for each establishment; motorcycle fee \$2; seal furnished by Secretary of State must be displayed on car and no other number; owner must furnish tag to be displayed on rear having numbers 3 inches high and letters "IA" 2 inches high, $\frac{1}{2}$ inch strokes; at least one

lamp forward and red light on rear between one hour after sunset and one hour before sunrise; cars to be equipped with brakes and signal device.

Speeds.—Must always be reasonable; 10 m. p. h. in built-up portions; 15 m. p. h. in all other portions of municipalities and 20 m. p. h. in open country; speed must be reduced when approaching intersections of highways, bridges, sharp curves or steep descents.

KANSAS

Registration.—Not required by state; necessary in some localities; state law provides for one or more lamps between one hour after sunset and one hour before sunrise.

Speeds.—In thickly settled districts, 10 m. p. h.; elsewhere 20 m. p. h.; speed must always be reasonable and be reduced at crossings.

KENTUCKY

Registration.—Not provided for by state law, white light must be carried in front and red light in rear, after sunset and before sunrise.

Speeds.—10 m. p. h. in thickly settled districts, reduced to 6 m. p. h. at crossings, bridges or descents; 15 m. p. h. in open country; must always be reasonable.

LOUISIANA

Regulations local, no state law.

MAINE

Registration.—With Secretary of State, fee \$2; no time limit; registration expires on sale of the machine; operator's registration fee \$2; manufacturer's or dealer's license fee \$10; good for 5 days after sale of machine; driver need not be licensed if accompanied by licensed operator; two tags, furnished by Secretary of State, having numbers 4 inches high and the word "Maine" 1 inch high, must be carried on the front and rear; number on the rear of motorcycles is all required; one lighted lamp must be carried between one hour after sunset and one hour before sunrise; cars must be equipped with a signal device which can be heard 300 feet.

Speeds.—Always reasonable; 8 m. p. h. in cities, towns, etc., unless local ordinance permits a higher speed; 15 m. p. h. in open country; must stop on signal from driver of horse; special restrictions are made applying to certain specified towns, use of automobiles prohibited in towns of Eden, Mount Desert, Tremont and Southwest Harbor, if act accepted by said towns.

Non-Residents.—Exempt if local authorities permit; must carry home state tags front and rear.

MARYLAND

Registration.—With Secretary of State

by affidavit describing machine and stating that owner is competent to drive a car, fee \$3; no time limit; does not apply to manufacturers, except as to machines kept for private use or for hire; persons operating machine as mechanic, employee or for hire, must be licensed, except in the case of a manufacturer's employee testing uncompleted automobiles; numbers issued by Secretary of State, 3 inches high, $\frac{3}{8}$ inch stroke, white letters on a black background must be displayed on front and rear; number may be used, for 5 days after sale, with written consent of former owner; two lamps throwing light at least 200 ft. with number at least 2 inches high on face and one red light showing from rear must be carried between one hour after sunset and one hour before sunrise; car must be equipped with efficient brakes and signal device which must be sounded every 200 ft. at night if lights fail to operate; must sound signal on approaching pedestrian or horse, also on approaching sharp curves, highway intersections and tops of hills in open country; signal must not be sounded while passing horse.

Speeds.—Always reasonable; 6 m. p. h. at intersections of main highways in open country, in built-up portion of municipalities, at sharp curves and where lights fail to operate at night, except in cities of 16,000 or more inhabitants, elsewhere 12 m. p. h.; 6 m. p. h. on approaching horse or other animal, car must be stopped if animal appears to be frightened; speed regulations may temporarily be set aside by the local authorities for the purpose of holding speed contests or races on highways.

Non-Residents.—Same as residents.

THE PLUGS OF OUR
MANUFACTURE ARE
THE GREATEST VALUE
IN SPARK PLUGS EVER
PRODUCED—ONLY
THE BEST OF MA-
TERIAL USED.

Reliance Regular—known and purchased everywhere—the spark in water feature made it famous. Slight changes have been made, but the original principle still remains untouched. Our output is enormous—it enables us to sell the best manufactured plug at the price of the ordinary—\$1.00. Ask your dealer or send direct.

Reliance Magneto—Made for those who desire a magneto plug constructed on Reliance principles. Workmanship and material used consistent with that used in all the plugs of our manufacture. This plug is recommended where an excessive amount of oil is used. Ask your dealer, he sells it for \$1.25; or send direct.

"An Ounce of Prevention is Worth a Pound of Cure"

The fact that you have never experienced a broken spring does not imply that you will always escape. The unexpected always happens, and possibly at the most inopportune time you will have a sad awakening to the fact that you have realized a broken spring. Be on the safe side and have on hand at all times an **AUTO SPRING REPAIRER**, and enable yourself to ride with an easy mind.

COPYRIGHT 1909 BY AUTO SPRING REPAIRER CO.

Repairer supporting leaf, broken half way between centre of spring and horn (or end) of spring, and preventing other leaves from breaking.

COPYRIGHT 1909 BY AUTO SPRING REPAIRER CO.

Repairer attached to spring, broken in center at spring bolt.

COPYRIGHT 1909 BY AUTO SPRING REPAIRER CO.

Repairer taking place of horn (or end of spring) which has snapped off. By inserting bolt in hole shown and fastening same to top spring as before the break, the spring end is replaced as though the break had never occurred.

FOSTER SHOCK ABSORBER

Home Office and Factory:

1412 E. 40th Street :: CLEVELAND, OHIO

Branch: 1926 Broadway, New York City

Did you ever see or hear of a pair of snips small enough to be carried in the vest pocket, yet would cut easier than a 14-inch snip? No? Then you have never seen or heard of

SEARIGHT'S COMPOUND LEVER MECHANICS' SNIPS

Look at the cut; study it carefully, and you'll comprehend some of its advantages. It looks good you'll say, but wait till you try it, you'll be surprised. Experts pronounce it the best hand snip ever produced.

It isn't just a little better than the common snip, but beyond comparison. It's absolutely in a class of its own. In closing the handles, leverage increases as fast as lost in cutting from hinge to point, therefore cuts uniformly easy all along the blades.

Small sizes have the power of a 14-inch common snip, larger ones power in proportion.

Made in 7, 8, 9, 10, 12 and 14 inch sizes.

Catalogue mailed on application.

GAS ENGINE MANUAL

¶ This volume, just published, gives the latest and most helpful information respecting the construction, care and management of Gas, Gasoline and Oil Engines, Marine Motors and Automobile Engines, including chapters on Producer Gas Plants and the Alcohol Motor.

¶ The book is a practical educator from cover to cover and is worth many times the price to any one using a gas engine of any type or size. Contains 512 pages, 27 chapters, 156 diagrams, size 5½ x 8½ inches, weighs 2 pounds, handsomely bound, and in every way a fine volume.

SPECIAL OFFER

¶ The only way the practical merit of this MANUAL can be given, is by an examination of the book itself, which we will submit to the readers of Trade Journal, free for examination, to be paid for or returned, after looking it over.

¶ Upon receipt of the following agreement (which can be either cut out or copied), the book will be immediately forwarded

No money in advance required;
sign and return

The Buggyaut is a buggy substitute and a touring car tender. For short trips and daily use by busy people.

The Runabout is a conventional shaped rig but largely embodying the superior features of the Buggyaut.

The Electa is handier than an electric, simpler than one and especially built for city and suburban use.

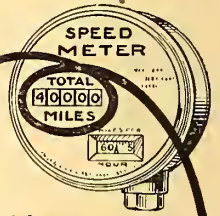

The Delivery combines great power with the simplest construction ever seen and is a money saver.

Write me before you buy a light car

Chas. C. Duryea, Reading, Pa.

Wears 40,000 Miles

Few ever run a car far enough to wear out a **J-M Non-Burn Brake Lining**. Heat from friction—which is the greatest enemy of other linings—cannot char or burn **Non-Burn** because it is made of the long tough fibres of Asbestos, a mineral which even the flames of a blow torch will not burn. Neither has water, oil or gasoline any effect on Asbestos.

J-M Non-Burn Brake Lining

is also reinforced in each strand with a fine brass wire, giving it exceptional tensile strength.

The Motor Car Renting Co., Boston, claim one **J-M Non-Burn Lining** is now wearing longer in their cars than twelve of any other lining ever used before.

Made to fit any brake or any friction or transmission clutch.

THIS DEVICE WILL SAVE ONE-THIRD YOUR FUEL On Any Gas, Gasoline, Kerosene or Distillate Engine

"The Hotter the Spark the Better the Combustion," is a well-known principle of Gas Engineering. Spark Coils eat up current, and thereby cause endless expense and trouble—just when needed the most. Batteries give out quickly, Poor ignition from batteries causes misfires, slow ignition or combustion and thereby increase your fuel expense by one-third to one-half. You can save this wasted fuel, get the maximum power, by installing

THE MOTSINGER AUTO-SPARKER

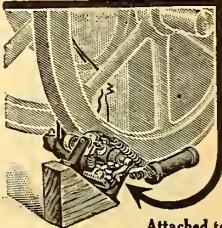

No Battery Needed to Start the Engine.

Delivers a white-hot spark for a lifetime. This device is a simple fool-proof dynamo. It will continuously deliver an intensely hot spark with from 3 to 15 volts behind it (adjustable to suit). We don't know how long the Auto-Sparker will last, for those put out ten years ago are still "delivering the juice"—few have required repairs or replacements. See your dealer or write direct for prices and money-saving details. Learn how to run your engine for one-half to one-third your present cost; also how to charge storage batteries for ignition and lights.

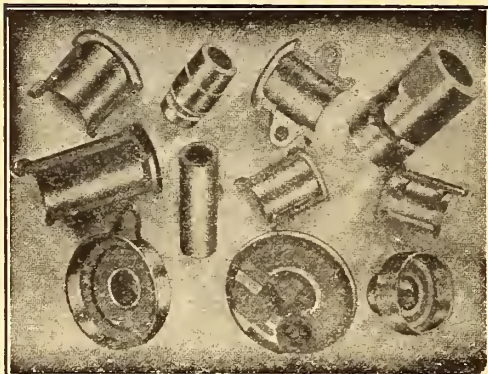

TO DEALERS—The demand from those operating internal combustion engines of all kinds is so constant and certain that you can safely stock the Auto-Sparker. We protect you against loss by GUARANTEEING THE SALE. Ask us about it.

Manufactured by
Sherwood Manufacturing Company, Buffalo, N. Y.

Don't Use Two Spark Plugs on each cylinder of your engine. To get the proper double system of ignition use the **SUPERIOR DOUBLE SPARK PLUG**; one side for Magneto, the other for Battery. Place it over inlet valve where sparking points become red hot. long, which keep them clean and cool. A spark plug over or near the exhaust becomes sooty, foul and red hot.

The Superior Double Plug is the only spark for the double system of ignition. Note the great advantage over the old-time single plugs. Taken apart without use of tools and without removing socket from the cylinder. The socket is a splendid priming cup. Our double "Permette" gaskets prevent any leakage. By turning points around a little, two fresh sparking points are exposed.

No leaking at cylinder threads by constantly taking out socket.

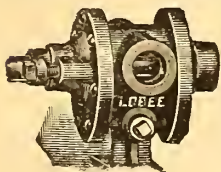

After you try a set of Superior Double Plugs you will wonder how you got along without it. If your dealer has not got it, ask us.

STRENGTH AND LONG LIFE

The two principal requirements of dry cells are featured in the batteries of our manufacture.

THE UNION is a cell constructed to withstand the hardest kind of usage—its service as an ignition battery has won it merits. Boxed

in both square and round cartons.

THE NUE dry cell has a high amperage with a low internal resistance and with proper handling will outlast any other cell on the market.

Gas Engine Model FREE

IT WORKS

I give you this wonderful model absolutely free. Not a toy, but a marvelously ingenious piece of machinery that teaches you more about the automobile gas engine than you could learn around a car in years. Every part is there, and it actually works. The piston goes through the complete cycle, operating the valves by means of the crank shaft and the half time gears, exactly like a full-sized engine. Equally practical models of the magneto and carburetor also given free. You can

Learn Automobile Engineering

including driving, locating trouble, timing valves and ignition more thoroughly and easily with these models than by attending a resident school or through any amount of experience. If you want to be the master of your own automobile or become a chauffeur, repairman or gas engine salesman, **write me today** for full particulars about these wonderful models and how I give them to you absolutely free.

SUSSFELD, LORSCH & COMPANY
37 and 39 MAIDEN LANE. NEW YORK

ESTABLISHES
NEW WORLD'S
STOCK CAR
RECORD

At Los Angeles, March 6th, the **Corbin** won the 50-mile open race for stock cars on a mile dirt track in 50 minutes, 26 seconds—a new world's record.

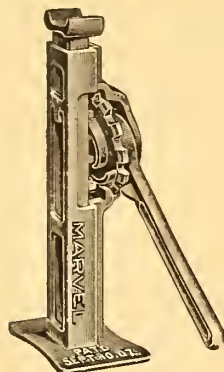

This same car, a regular stock model, in the hands of a private owner and in competition with a large field, including several factory racing teams, also won the 5- and 25-mile open events.

Thus the **Corbin** adds supremacy on the track to its long list of hill climbing and endurance run victories.

You will find our 1910 Catalogue C very interesting.

Tire Expenses are Lion-Like in Size

They gobble up your dollars as fast as the King of Beasts gobbles down anybody that looks digestible. ¶ Ordinary Rubber Cements are supposed to withstand 80 degrees of heat; some do—some don't. ¶ Friction often generates 90 degrees of heat between INNER TUBE AND OUTER CASINGS—

That's Why an Ordinary Cement Patch Melts Off

Inner Tube punctures repaired instantly, on the road or at home. For M. & M. is instantaneous, positive and self-vulcanizing. Easily carried in your tool chest. ¶ Why bother with imitations? A complete M. & M. Outfit only costs \$1.00 and saves 90% of tire expenses. ¶ For sale at all Automobile Dealers and Jobbers, or sent direct upon receipt of price. Manufactured by

THE M. & M. MFG. CO., AKRON, OHIO

P. S.—Send for circulars describing KNEAD-IT. The new preparation for filling curb cuts in outer casings. Prevent that blow-out.

INDIANA RUBBER AND INSULATED WIRE COMPANY
JONESBORO :: :: :: INDIANA

You Can Show Them With a Grabowsky

Dealers who handle the Grabowsky line of commercial power wagons don't have to indulge in vague, general claims of superiority. The Grabowsky has mechanical features, the mechanical correctness of which is apparent at first glance, that can be seen in no other make of power wagon.

There is no more simple, powerful motor seen in commercial vehicles than the Grabowsky motor.

There is no other car with a quick removable power plant, nor any other device that so allows instant inspection and adjustment of the motor quickly and at any time desired.

There is no other car that uses less oil in lubrication than the Grabowsky, or that gives more perfect satisfaction in this respect.

There is no other car that uses hardened Steel bushings in all wearing parts, making the renewal of worn parts unnecessary, and giving the cars indefinite length of life and service.

There is no other car with the simple, sure and effective cooling system found on the Grabowsky.

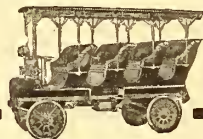

Agents who sell Grabowsky cars don't have to depend on theories to sell the cars. They can talk **FACTS**, and **SHOW** them.

Write for information and unoccupied territory.

Cut This Season's Tire Expense—Act Now

Could we but convince the motorist who doubts the efficiency of Britcson Treads—we couldn't with a dozen factories meet the rush of orders.

Last season our facilities were taxed at times nearly to the breaking point—yet the proportion of tires equipped as compared with those going without such protection represents just a drop in the bucket.

With enlarged manufacturing facilities we hope to keep abreast of the constantly increasing demand for this admitted leader of tire protectors.

When motorists now-a-days gather together—discussing the problem of tire up-keep, favorable mention, and that only, is heard of

Britcson Treads (Detachable)

The motorist who equips his tires with Britcson Treads—loses not an ounce of tire efficiency—rather he gains many fold—lengthening the life of his tires—keeping them in apple-pie order to do the work a tire should do, namely: Serve as a cushion between the thoroughfare and the occupant of the car.

The Britcson Tread takes all the punishment—stops every opportunity for puncture or blow out or skidding.

Britcson Mfg. Company
Box CA04, Beocksies,
SOUTH DAKOTA, U. S. A

Let us tell you the complete story right now.

It is contained in our late booklet "The Enemy of Tire Expense"—yours for the asking.

\$5.00 Pat. Pending.

THE CONOVER DIFFERENTIAL JACK

NOTE the classy appearance of this jack. It is a high-class machine manufactured on the interchangeable plan, same as a motor.

It is perfectly smooth on the outside. All its working parts are enclosed and packed in grease. It never needs oiling, and does not smear grease over tools or tubes in the car or the operator's hands. No dirt can get to the working parts of this jack.

It Has an Extension Handle 30 in. Long.

Compare it with any other jack you ever saw.

It costs more to make, but quantity production makes it possible to sell it at \$5.00.

Mr. Dealer:
Put one on your show case and see how quickly it will sell itself.

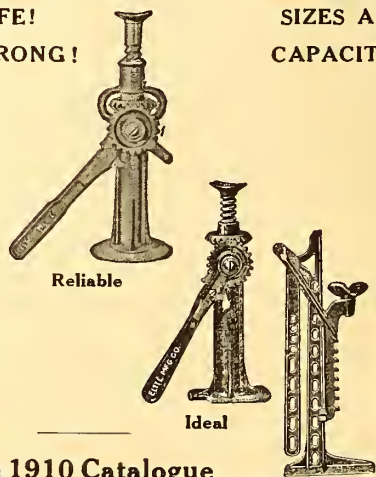

Inventor of Automatic Wind Shield, formerly the Conover.

Motoring Expense Cut Down

FOR two years we have been gathering sworn mileage and upkeep (repair) statements of Winton Six owners.

Figures covering 20 Winton Six cars, owned and driven in and around New York, Boston, Atlantic City, Philadelphia, Pittsburgh, Buffalo, Cleveland and Chicago, and on many long and hard tours, are given on this page.

¶ These 20 cars totaled 184,190 miles—more than seven times the distance around the earth at the equator. A fairly exhaustive test.

Nine of these cars ran 72,721 miles with absolutely no upkeep expense.

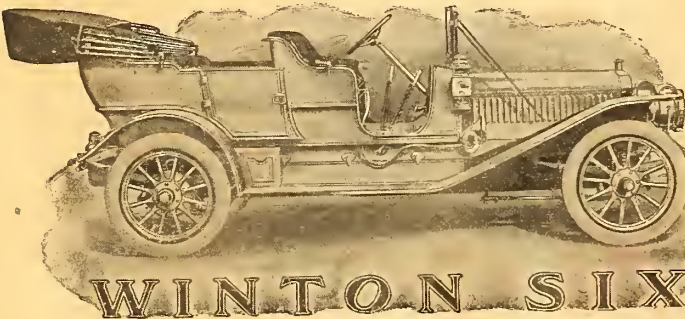

Thirteen of these cars ran 103,226 miles on a total of 73 cents upkeep expense.

Only four of 20 cars had more than \$10 expense each, and these four cars totaled 55,860 miles, averaging 13,965 miles each.

¶ Each of these 20 cars averaged 1315.6 miles per month, 43.8 miles per day. Had to keep moving to do that distance every day, winter, spring and summer.

And the average upkeep expense for each of these 20 cars was 77 cents per 1000 miles.

¶ That's a world's record that goes straight home to the pocket books of these Winton Six owners.

Six-cylinder, 48 H. P. motor. Multiple-disc clutch. Four-speed transmission. Instantaneously sensitive carburetor. Bosch magneto, and storage battery. 124-inch wheel base. Frame narrowed in front to permit short turns. Easy riding, semi-elliptical springs all around. Four shock absorbers. And a motor that CRANKS ITSELF. Price, \$3000.

Sworn Records of Automobile Upkeep

Car Owner and Address	Year	Mileage	Expense
Axelrod, Jacob, New York	1908	7,570	None
	1909	17,720	\$60.00
Bacharach, Isaac, Atlantic City	1909	11,000	.30
Barnsdall, T. N., Pittsburgh	1909	15,669	31.35
Brennan, Jas. T., Brooklyn	1908	6,806	3.00
Burnham, Wm., Philadelphia	1909	8,702	None
Clenney, J. E., Chicago	1908	5,155	None
	1909	17,003	None
Cuddy, Loftus, Cleveland	1909	8,728	.30
Fish, Joseph, Chicago	1908	5,535	None
Frost, G. W., Montclair, N. J.	1909	10,595	None
Mallen, H. W., Chicago	1909	7,572	1.50
Martin, W. B., Cleveland	1909	10,726	7.50
McAllister, W. B., Cleveland	1909	10,788	26.55
Pickands, H. S., Cleveland	1908	6,632.8	None

Rooney, E. A., Buffalo	1908	4,594	.10
Schnaier, Milton, New York	1908	11,683	12.00
Somers, Warren, Atlantic City	1908	6,183	.03
Speare, Mrs. L. R., Boston	1908	6,113.6	None
TOTALS		184,190.4	\$142.43

§ Same car both years. † Carried limousine body part of the time.
Average Upkeep Expense for 20 Cars—77 Cents per 1000 Miles.

Motoring wasn't expensive to these men.

Because the Winton Six is the car that keeps out of repair shops.

¶ You can compare the Winton Six with any other high-grade car on the market and know for yourself that it has neither a superior nor an equal.

We do not say this boastfully, but to give you a definite statement on which we must make good.

The maker who claims nothing has to prove nothing. We make our claims strong, because we have the car that supports these claims.

¶ And this Winton Six (a 48 H. P.

six-cylinder car that acknowledges no equal) sells at \$3000.

Same horse-power in other accredited makes would cost you from \$4000 to \$4500.

—Therefore, the Winton Six saves its buyer \$1000 to \$1500 on initial cost, an amount that will buy tires, oil and gasoline for two years or more, and pay for many miles of enjoyable touring.

¶ If motoring is expensive, it isn't the fault of the \$3000 Winton Six, with its world's record upkeep ability of 77 cents per 1000 miles.

¶ Let us send our explicit literature—it is too clear to be misunderstood. Clip the coupon and mail it today.
